Kindergarten French Immersion

What is French Immersion ?

French Immersion is an educational approach where students are taught in French for a significant portion of their school day with the goal of achieving fluency in the language. This program is designed to immerse students in French from an early age, starting in kindergarten. Core subjects such as math, science, and social studies are taught in French rather than English. By surrounding students with the language in various contexts, they will develop a natural proficiency in speaking, reading, and writing French.

What are the Benefits of Immersion?

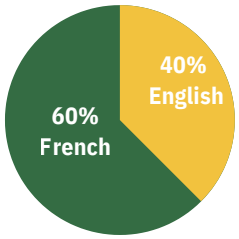

- Enhanced cognitive abilities
- Higher proficiency in both French and English
- Improved problem-solving skills
- Enhanced creativity and critical thinking
- Increased cultural awareness
- Opportunities to engage with the community
- Diverse career opportunities
- Better adaptability in different environments
- Broader global perspective

Where is Elementary French Immersion Offered?

French Immersion is offered in Grades K-5 at LeBlanc Elementary School. Students who reside outside of the LeBlanc Elementary School Zone may apply to enter the immersion pathway. Transportation is available to those students who live out of zone. Currently we have three satellite bus stops in the following communities: Abbeville, Kaplan, and Maurice.

How is French Immersion Structured?

Math, Science, Social Studies, French Language Arts, Art

ELA/Reading, Library, Music, PE

Do I have to be able to speak French to help my child succeed in French Immersion?

No. Your involvement in your child's education is one of the most important factors in your child's success. Learning a second language requires a high level of concentration and effort; however, parents do not need to know French in order to support their child in French Immersion. We will offer strategies and resources that will allow you to best support your child.

Application Process

There is no selection process for French Immersion; however, seats are limited. It is important to submit applications by the deadline. If the interest level is beyond classroom capacity, we will utilize a random lottery process with priority given to students who reside in the LeBlanc zone and siblings of students currently enrolled in French Immersion. Those not initially selected will be placed on a waitlist.
