Comprehensive Educational Plan Outline

Table of Contents

Main Sections (Customized Based on School Accountability Status):

- Section 1: Overview of Comprehensive Education Planning
- Section 2: School Information
- Section 3: CEP SLT/Stakeholder Signature Page
- Section 4: School Summary
- Section 5: Priority 1 – All students learn to read well
- Section 5: Priority 2 – All students are physically and emotionally safe
- Section 5: Priority 3 – All students have a high-quality academic experience
- Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security
- Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools
- Section 5: Attendance/Chronic Absenteeism
- Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities
- Section 6: Multi-Tiered Systems of Support (MTSS)
- Section 7: Parent and Family Engagement Policy and School-Parent Compact
- Submission Assurances
- Language Allocation Policy Outline
- Part I: School ML/ELL Profile
- Part II: Bilingual Programs
- Part III: ML/ELL Programming
- Part IV: Data Analysis
- Part V: ML/ELL Instruction
- Part VI: Family Partnership
- Part VII: Additional Information
- Part VIII: ELL Identification Attestation and Principal Certification
- Part IX: LAP Assurances
- LTI Overview and Part A: Designation of a LAC
- Part B: Parents' Preferred Languages
- Part C: Parent Communications and Engagement
- Part D: Staff Awareness

- Part E: Parental Notification
- Part F: Monitoring

Appendices (Reflecting Additional Requirements for Specific Groups of Schools):

F

Section 1: Overview of Comprehensive Education Planning

Overview of Comprehensive Education Planning

Comprehensive Education Planning (CEP) is a structured, data-driven process that guides schools in assessing their needs, identifying areas for growth, setting strategic goals and implementing targeted actions to improve student outcomes. Collaboratively developed by the School Leadership Team (SLT) in accordance with the requirements of Chancellor's Regulation A-655, the CEP meets New York State Education Department (NYSED) requirements under the Every Student Succeeds Act (ESSA) and aligns with NYC Public Schools' (NYCPS) system-wide priorities. By engaging all stakeholders—school leaders, teachers, families, students and community members—schools can create a data-informed, equity-focused roadmap for student success and continuous improvement.

Schools should focus their CEP on the five system-wide priorities below, connecting their planning to the data discussions and conversations with stakeholders held as part of the school's needs assessment:

- Priority 1: All students learn to read well
- Priority 2: All students are physically and emotionally safe
- Priority 3: All students have a high-quality academic experience
- Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security
- Priority 5: All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

The Education Planning Process

The CEP follows an equity-driven, continuous improvement cycle, rooted in the system-wide priorities. This begins with a comprehensive needs assessment of the school's most current data to identify priority needs and root causes. Next, the SLT establishes **s**pecific, **m**easurable, **a**ttainable, **r**elevant, and **t**imely—SMART goal(s) aligned to each priority and determines targets to measure progress toward meeting the annual goals.

The SLT and instructional leaders define key evidence-based key strategies, professional learning activities and parent, family and community empowerment efforts. They monitor the implementation of those strategies and activities and track progress through measurable targets. Then, the SLT aligns the school-based budget with human and instructional resources to support action plans.

As schools set goals, develop key strategies, and plan action steps, they provide opportunities for all children to meet NYSED's proficient and advanced levels of student academic achievement. These include evidence based instructional strategies that address the educational needs of historically underserved populations and tackle structural inequities. Schools indicate how the plan addresses the needs of Multilingual/English Language Learners (ML/ELL) through development of the school's Language Allocation Policy (LAP) & Title III Application (if applicable) and the Language Translation and Interpretation (LTI) Plan, that are required as part of the CEP. Schools also address the needs of Students with Disabilities (SWD) through the High Quality Inclusive & Accessible Learning for Students with Disabilities section of the plan. SLTs also develop a plan to improve attendance and reduce chronic absenteeism.

Guidance on Conducting a Comprehensive Needs Assessment

Directions: Conduct a comprehensive needs assessment for each Priority. The information below provides guidance for reviewing and analyzing student and school performance trends to uncover root causes for low student achievement.

1. Review Multiple Data Sources: Use the most current and available information including, but not limited to, the following sources of formative and summative data, as applicable:

- Qualitative and quantitative data, including enrollment and class size trends
- 2024-25 ESSA Accountability Data
- Instructional Leadership Framework (ILF), Supportive Environment Framework (SEF) Inventories, and NYC School Survey results
- Quality Review Reports, NYSED and NYCPS CSI or A/TSI Support Visits, Receivership Quarterly Reports, and Diagnostic Tool for School and District Effectiveness Framework (DTSDE)
- NYC School Quality Guide, Insight, New Visions, NWEA MAP and/or other formative assessment data, IEP Review Survey Data, Progress on IEP Goals Data, Program (SESIS-STARS Linkage) Reports, Mandated (Related) Services Reports, and NYCPS Tools for Understanding Your Data for student subgroup information

2. Analyze Data Trend(s) to Identify Areas of Strength and Need: Identify data trends by grade, cohort, and content area(s) to surface gaps and inequities. Compare data sets to identify instructional and school practices that are impacting student performance. Guiding questions to consider:

- What does the data reveal about improving and declining student performance trends within grades, cohorts, and student subgroups?
- What inequities are evident between highest and lowest performing student subgroups? Which subgroup(s) scored at Level 1 based on NYSED ESSA accountability indicators?
- What does the data suggest regarding the effectiveness (or ineffectiveness) of current school programs, practices, and/or strategies/initiatives? What areas may need to be strengthened?
- Are there any differences in student performance between program delivery models for ML/ELL and SWD? (e.g., for special education: special class, ICT, SETSS, related services only; for ML/ELL: Transitional Bilingual Education (TBE) vs. Dual Language, etc.)
- How does delivery of instruction factor into data trends? What are the implications for teacher quality and professional learning?
- What inequities in special education referral and school disciplinary practices (e.g. suspensions, removals) are evident between student subgroups with IEPs?

3. Identify Root Cause(s): After analyzing the data, engage in a process for uncovering root causes or contributing factors for low student and school performance. Develop theories or hypotheses to explain

why these needs exist and why your school is getting its current outcomes. Root causes could be related to gaps and inequities in areas such as curriculum & instruction, school systems & structures, student support services, school climate & safety, and family & community engagement. Focus on the causes, rather than the symptoms. Use the 5 Whys Method or other methods for identifying root causes. Consider the questions below:

- What theories or hypotheses explain the current student and school outcomes?
- Are there root causes specific to certain subgroups, grades, cohorts, or content area(s)?

Additional resources and supports are available below.

- Use this CEP Needs Assessment Worksheet to help your SLT and stakeholders identify appropriate data sources, data trends, root causes and priority needs.
- For guidance and best practices on engaging stakeholders in a comprehensive needs assessment and root cause analysis, see this deck.
- A current list of all CEP/Title I resources can be found on the iPlan Portal Public Resources Page.

Section 2: School Information

School Information

School Name:

The Elizabeth Jennings School for Bold Explorers

District Borough Number (DBN):

15K456

Grades Served:

3K, Pre-K, Kindergarten, 1st grade

School Address:

485 State Street Brooklyn, NY 11217

Phone Number:

929-554-8962

Fax:

929-554-8964

School Contact Person:

Malika Johnson-Willis

School Contact Person Email Address:

MWillis@schools.nyc.gov

Principal:

Malika Johnson-Willis

United Federation of Teachers (UFT) Chapter Leader:

Miarangely Santiago-Jimenez

Parents' Association President:

Natalie Alterman

SLT Chairperson:

Chandler Miranda

Title I Parent Advisory Council Chairperson (PAC):

Andrea Alexander

Student Representative(s) Middle /High School:

n/a

Student Representative(s) Middle /High School:

n/a

Community Based Organization (CBO) Representative:

n/a

School-Based Students in Temporary Housing (STH) Liaison:

Jennifer Garcia

Section 3: CEP SLT/Stakeholder Signature Page

School Leadership Team (SLT) Signature Page

All School Leadership Team (SLT) members are expected to sign this page to confirm their participation in the development of this Comprehensive Education Plan (CEP) and that they have been consulted regarding the alignment of the school-based budget to support this school's educational program, which includes annual goals and action plans, Multi-Tiered Systems of Support (MTSS), the Parent and Family Engagement Policy (PFEP) and the School-Parent Compact (SPC). The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with Chancellor's Regulation A-655. The SLT also serves as the Core Community Engagement Team (CET) for Receivership Schools. Additional information and resources are available on the School Leadership Team Resources page. Under the Federal Every Student Succeeds Act (ESSA), NYS Education Law and Commissioner's Regulations, stakeholder participation in the development of the CEP must include multiple constituencies who represent the school community. Note: Stakeholders participating in the development of the CEP who are not listed on the SLT page sign the section below entitled Additional Stakeholder Participation on CEP Development.

Directions: List the names of each SLT member in the first column on the chart below.

- Specify the position and constituent group represented, e.g., parent-PTA, staff-UFT, student. Note: Two student minimum required for high schools; SED requires Middle Schools identified for the CSI/ATSI/TSI support model to have student representation.
- Community Based Organization (CBO), and any position held by the team member. Core mandatory SLT members are indicated by an asterisk*. Note: The Core SLT members also serve as the CET for Receivership schools.
- SLT members should review this document and sign in the Signature If an SLT member does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of SLT member indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.
- Schools may modify their SLT bylaws as needed to address additional school and/or ESSA requirements for stakeholder engagement.

SLT Member Name	Position and Constituent Group Represented	Signature
Malika Johnson-Willis	*Principal or Designee	
Miarangely Santiago-Jimenez	*United Federation of Teachers (UFT) Chapter Leader or Designee	
Natalie Alterman	*Parents' Association (PA)/ Parent-Teacher Association (PTA) President or Designated Co-President	
Amelia McKenzie	District Council 37 (DC 37) Representative (staff), if applicable	
Andrea Alexander	Title I Parent Advisory Council Chairperson (or alternate)	
	Student Representative (Required for high schools)	
	Student Representative (Required for high schools)	
	CBO Representative, if applicable	
	Student Representative (Required for CSI, TSI, Receivership Middle Schools)	
	Student Representative (Required for CSI, TSI, Receivership Middle Schools)	
Carrie Marie Spinney	Staff	
Anika Smiley	Parent	
Kelli Damron	Parent	
Chandler Miranda	Parent	
Jennifer Garcia	Staff	
	Staff or Parent	

Additional Stakeholder Signature Page

Directions: Stakeholders participating in the development of the CEP who are not listed on the SLT page may sign below. Additional stakeholders may include, but not be limited to, school and district leaders, school staff, parents/families/guardians, students, community organizations, additional Core Community Engagement Team (CET) members (if applicable), members of the School Implementation Team (SIT), and/or school-based staff development committee that serves as the Instructional Leadership Team (ILT) tasked to improve instructional practice across the school. Go to NYSED's guidance on Assembling Your Team to learn more.

- List the names of additional stakeholders in the first column on the chart below.
- Specify the individual's position and constituent group represented.
- Stakeholders should review this document and sign in the Signature column. If the stakeholder does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of the additional stakeholders indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.

Section 4: School Summary

Accountability Status

Accountability Status: **LSI**

School Summary

Directions: Complete this CEP Summary to serve as the "at-a-glance" narrative that provides contextual information about your school's unique characteristics. This summary and the entire Comprehensive Education Plan (CEP) should be shared with your school community. Please note that this summary and the CEP will be made available to the public through the iPlan Portal, an online space where school stakeholders can go to collaborate in the development of the school's education plans.

Provide your school's mission statement:

We carefully guide and support the socio-emotional development of our learners, leading to confidence and awareness that their classroom extends beyond the walls of the school building and out into the city. Our intentional content-driven fieldwork ensures graduating students achieve success with all academic and core competencies through interdisciplinary approaches, while also learning to swim, bike, be independent, ask questions, know themselves as learners, grow vegetables and cook with them, and get what they need as humans in an ever-changing world.

Develop a narrative summary that includes contextual information about your school's community and its unique/important characteristics and partnerships:

Include demographic information about your school's student population.

We are a community of learners dedicated to an inquiry-based, hands-on curriculum, focused on cultivating problem solvers who apply the skills & knowledge gained to collectively create something new. We foster a joyful school community - students, families, teachers and administrators - where every intersection of diversity is uniquely acknowledged and celebrated each and every day - in what our students learn and how they interact with one another; and how our educators and parents engage, with a shared purpose: student success.

At BE, we believe that communities that trust their members have limitless possibilities. Trust allows for true collaboration to exist and risk-taking to happen. Collaboration allows our collective strengths to shine. Authentic experiences ensure students take ownership and find joy in learning, and value the process.

We strive to create an inclusive culture where listening and acceptance creates the truest sense of belonging; where we always challenge the paradigms and perceived notions of equality and equity; where we speak up for and against any forms and acts of racism; where we manifest the deepest and most profound new reality that all of our differences, whether ethnicity, race, gender identity, sexual orientation, physical ability, age, religious beliefs, language preference or socio-economic status are a reflection of the beautiful tapestry of the 456 community.

The Elizabeth Jennings School for Bold Explorers is a Progressive School. We use interdependent and collaborative inquiry-based learning directly connected to all children's lives; seeing their race, ethnicity, and culture as central to their shared educational experience, leading to democratic practices that disrupt and transform institutional ways of being. We honor the way children learn best - exploring and asking questions to make learning their own. We believe in mutual respect for all regardless of role, addressing everyone by first name knowing that the title isn't what garners respect.

BE is outdoor focused. Our saying is, "There is no bad weather, there are only bad clothing choices." Traditions and

routines play an important part in the building of community life at 456. Fresh air and physical activity are daily parts of BE. Extra time for outdoor learning, play, and recess keep our children moving.

Briefly summarize the key initiatives your school will implement this school year.

- Weekly "Town Sings" on Wednesday mornings for 20 minutes
- Family Meetings by grade band twice yearly
- Intervisitations with partner schools
- Performance Based Assessments for Kindergarten
- Double prep blocks weekly for teacher team planning
- Art History Atelier focused on visual arts creation inspired by African American historical figures. This library will include facsimiles of primary sources such as manuscripts and letters that have relevance to local and national history. The collection will be curated with a lens of liberatory/anti-oppressive teaching and learning, with a vision of illuminating Black history through a special collection that draws from the Beinecke's James Weldon Johnson, Langston Hughes and Frederick Douglass collections starting with Elizabeth Jennings (the school's namesake). Special care will be taken to ensure that unheard and previously unpublished voices find the light of day, so that children can engage with stories that may have previously been erased. The library will function in collaboration with Yale's Beinecke Rare Book & Manuscript Library, which houses an extensive digital library of archival material.
- Outdoor learning education taking place through Fort Greene Park and Prospect Park making particular nature spaces second classrooms
- Partnering with Brooklyn Arts Exchange to infuse movement and theater performance skills as enrichment
- Using the 4Rs Social Emotional Curriculum for Kindergarten

What are the primary digital and/or print curricula/programs used for ELA and Math:

Indicate the content area, grade band and any adaptations made.

Content Area (Indicate ELA and Math Only)	Grade Band	Digital and/or Print Curricula/Program	Adaptations
Ortin Gillingham	K	Print	
HMH Into Reading/Arriba Lectura	K	Digital and Print	
Illustrative	K	Print and Digital	

Section 5: Priority 1 – All students learn to read well

Priority 1 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
According to Acadience Results from 2024-25	Varying Phonemic Awareness Approaches	One streamlined program

Priority 1

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for literacy outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Literacy

- Implement the strategies outlined in NYC Reads, including foundational phonics curriculum for grades K-2
- Implement dyslexia screening, professional learning, and program pilots (as applicable)
- Support literacy development through the integration of culturally responsive-sustaining texts and content

Priority 1 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	55%	By June, 2026, literacy for All Students will improve, as measured by a 25% Increase, from 55% to 80%, of percentage of students scoring at or above benchmark for phoneme segmentation on the Acadience.

Priority 1 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

Acadience (BOY MOY EOY) Progress Monitoring (Heggerty Phonemic Awareness, Orton-Gillingham Progress Monitoring Tools, Core Word Assessments

Enter a Key Performance Indicator

By June 2026 the percentage of K students performing at or above benchmark in reading (as measured by Acadience EOY Assessment) will increase by at least 50% compared to the BOY baseline.

Priority 1 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Screen and Benchmark Students:
Administer BOY MOY EOY to all K students to identify reading levels and instructional needs.

Target Small Group Instruction:
Implement literacy intervention using Heggerty for Phonemic Awareness and Orton-Gillingham for decoding and phonics in small groups based on the Acadience data.

Ongoing Progress Monitoring :
Conduct bi-weekly or monthly progress monitoring for students identified as strategic or intensive using tools from acadience , heggerty, and CORE
Phonics Survey.

Professional Learning :
Provide Staff on implementing science of reading practices including effective use of Orton-Gillingham ,Heggerty routines, and data analyis using acadience reports.

Data Review and Adjustments: Conduct monthly data meeting to analyze progress, adjust groupings, and modify interventions based on student performance

Root Cause Addressed:

Streamlined phonemic awareness instruction using Edwards OG

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Administer Acadience Reading Assessments (BOY, MOY, EOY)
Implement Daily Edwards Orton Gillingham / Heggerty Lessons
Conduct Small Group Instruction for Tier 2 & 3 support
Use Core Assessments to diagnose phonics gaps
Provide Professional Learning for Teachers

Key Strategy 2 (Optional):

Root Cause Addressed:

Students are entering school with gaps in foundational literacy skills , particularly in phonemic awareness, phonics and decoding.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Implement consistent literacy instruction
Engange in weekly grade team meeting to discuss progress
Offer professional development for teachers
Progress Monitor

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Teachers will administer acadience assessment on time and informally will complete progress monitoring Logs, teacher will update the progress monitoring logs on a weekly and bi-weekly basis based on the skills being assessed. Agenda and notes from weekly team meeting will be kept to document collaboration and instructional decision-making.

Priority 1 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/26/2026	Family as Learnings Partners Meetings	

Priority 1 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Literacy Coaching from the District, MLL Coaching Partnership, & Edwards OG Coaches & Teaching Matters Coaching

Instructional Resources

Edwards OG Materials for each class

Schedule Adjustments

Literacy Block

Other Resources Needed

Section 5: Priority 2 – All students are physically and emotionally safe

Priority 2 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
OORS Report Percentages / 2024-2025	Developing self regulation and social emotional skills	4Rs, Teddy Bear Curriculum

Priority 2

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for physical and emotional safety** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Physical and Emotional Safety

- Develop safety infrastructure and systems, including staff training, collaboration with external partners, and implementation of safety and security best practices
- Expand social emotional and mental health supports via restorative justice, Project Pivot, screeners, and other district or school-based initiatives (as applicable)
- Expand implementation of physical and mental wellness supports, including Physical and Health Education that meets NYSED requirements and related initiatives
- Improve supports and outcomes for socially vulnerable student populations (Students in Temporary Housing, Students in Foster Care)

Priority 2 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	40	By June, 2026, physical and mental wellness for All Students will improve, as measured by a 15% Increase, in percentage of positive student responses to survey questions about personal attention/safety/bullying from 40 to 70, per the NYC School Survey Results.

Priority 2 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 2 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

Enter a Key Performance Indicator

Baseline:

Enter the date for the baseline data:

Enter Period 1: Beginning of Year (BOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

Enter Period 2: Middle Of Year (MOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

Enter Period 3: End of Year (EOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

Priority 2 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Students in kindergarten and first grade children have direct social emotional instruction through 4Rs and Emotional Responsive Practice: Bears, Bears, Bears Curriculum. OT provide professional development for teachers to support the incorporation of regulation strategies into daily routines.

Root Cause Addressed:

Developing self regulation and social emotional skills

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Purchase Teddy Bears
Make sure teachers have the curriculum
Partner with ERP Coaching Support

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Priority 2 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/26/2026	PTCs & Classroom Newsletters	

Priority 2 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Sub Teachers to cover teachers while they have intervisitation and/or attend PDs.

Instructional Resources

Teddy Bears, Restorative Circle PD, Emotionally Responsive Practice PD

Schedule Adjustments

Other Resources Needed

Section 5: Priority 3 – All students have a high-quality academic experience

Priority 3 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Math Acadience 24-25SY	Varying Math Awareness Approaches	One Streamlines Program

Priority 3

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for high-quality academics** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Academics

- Strengthen mathematics instruction, including via screener administration and Multi-Tiered Systems of Support (MTSS)
- Embed culturally responsive-sustaining texts and content (e.g., Hidden Voices, Black Studies Curriculum, etc.) in history, literature, and arts curricula to deepen civic engagement, enhance understanding of diverse cultures and provide relevant and affirming interventions in literacy development
- Ensure multilingual language learners (MLLs) are served and progressing in appropriate settings; expand bilingual programming and professional learning for educators who support MLLs
- Ensure students with disabilities are served and progressing in the least restrictive and most appropriate settings; improve delivery of mandated services and expand specialized programs
- Ensure that Students in Temporary Housing (STH) and Students in Foster Care access opportunities to receive tutoring and are purposefully engaged in new programs developed in the school
- Elevate health and physical education and activities for a reimagined and engaged student academic experience promoting social, emotional, and physical wellness and wellbeing
- Ensure teachers attend Physical Education and Health Education professional learning in order to provide quality instruction to be able to support and address the physical, mental, social, and emotional needs of the whole child in a safe and supportive learning environment
- Strengthen Early Childhood Education program utilization, quality, and ability to serve all students
- Elevate arts and civics for a reimagined and more engaged student academic experience
- Increase school staff diversity and retention
- Create new programs/schools in response to community need; expand high quality seats

Priority 3 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	33%	<School Name> will address Priority 3: All students have a high-quality academic experience with the following SMART Goal: By June, 2026, the Students in Kindergarten will Increase by 25% from 33% to 83%, for All Students, as measured by Acadience.

Priority 3 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

Math Acadience (BOY MOY EOY) Progress Monitoring (Illustrative Assessments)

Enter a Key Performance Indicator

By June 2026 the percentage of K students performing at or above benchmark in math (as measured by Acadience EOY Assessment) will increase by at least 50% compared to the BOY baseline.

Priority 3 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Screen and Benchmark Students:
Administer BOY MOY EOY to all K students to identify reading levels and instructional needs.

Target Small Group Instruction:
Illustrative Assessments, Acadience

Ongoing Progress Monitoring :
Conduct bi-weekly or monthly progress monitoring for students identified as strategic or intensive using tools from acadience

Professional Learning :
Provide Staff on implementing science of math practices including effective use using acadience reports.

Data Review and Adjustments: Conduct monthly data meeting to analyze progress, adjust groupings, and modify interventions based on student performance

Root Cause Addressed:

They are 5

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Administer Acadience Math Assessments (BOY, MOY, EOY)
Implement Daily : Illustrative, Acadience
Conduct Small Group Instruction for Tier 2 & 3 support
Use Assessments to diagnose mathematical gaps
Provide Professional Learning for Teachers

Key Strategy 2 (Optional):

Root Cause Addressed:

Students are entering school with gaps in foundational math skills, particularly in numerical skills.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Implement consistent math progress
Engange in weekly grade team meeting to discuss progress
Offer professional development for teachers

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Teachers will administer acadience assessment on time and informally will complete progress monitoring Logs, teacher will update the progress monitoring logs on a weekly and bi-weekly basis based on the skills being

assessed. Agenda and notes from weekly team meeting will be kept to document collaboration and instructional decision-making.

Priority 3 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Priority 4 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:

1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
oral presentation & group project skills	teacher observations, family conversations	presentation skills

Priority 4

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for **college and career readiness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for College and Career Readiness

- Expand career pathways and work-based learning, opportunities for early college credit and industry credentials, and college/career advising and awareness, including via the Career Readiness Modern Youth Apprenticeship and FutureReadyNYC (as applicable)
- Schools serving students in early childhood, elementary, and middle school settings should consider how they expose students to and prepare them for advanced (Regents-level) coursework, Specialized High School Admission Test (SHSAT) preparation, college awareness, career studies, etc.
- Integrate historical and contemporary contributions of culturally diverse professionals, scholars, and entrepreneurs into career readiness programs, ensuring students see diverse pathways to success
- Incorporate lessons on wealth-building strategies, cooperative economics, and financial independence to equip students with tools for long-term economic security
- Ensure the implementation of specialized support programs tailored for Students in Temporary Housing and/or Foster Care, addressing their unique educational needs and challenges

Priority 4 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	80 or 66%	<School Name> will address Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security with the following SMART Goal: By June, 2026, the number of details students recall about the unit as measured by PBA rubrics for All Students will Increase by 12% from 80 or 66% to 155 or 78% as measured by PBA Participation.

Priority 4 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Priority 4 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Integrate financial literacy into instruction in Kindergarten.

Root Cause Addressed:

Students have limited exposure to real-world financial concepts and problem solving opportunities, which impacts their engagement and understanding of how math applies to everyday life.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Implement Financial Literacy in Kindergarten

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Students will have reflect on lessons about Financial Literacy and will learn real-world financial concepts.

Priority 4 Family and Community Engagement

Family and Community Engagement

Priority 5 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
School Survey	Communication	Variety of communication channels

Priority 5

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for parent, family, community and system responsiveness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Focus Areas for System Responsiveness to Parents, Families and Communities

- Engage more deeply with families to understand their needs and plan new, high-quality programs
- Build community trust and bolster engagement, including via improved language access and increased family engagement and participation
- Implement the newly updated NYCPS School Wellness Policy, which provides a framework for all members of the school community, including families and students, to come together and assess and coordinate wellness efforts for their community
- Implement and lead strategies that support community involvement and increase Minority and Women Owned Business Enterprises (MWBE) utilization

Priority 5 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Parents of Black Students	50%	<School Name> will address Priority 5: All districts and schools are more inclusive and responsive for Parents of Black Students with the following SMART Goal: By June, 2026, the percentage of families that feel they someone has helped them figure out which schools/programs are best for their child next year will Increase by 30% from 50% to 80% as measured by NYC School Survey Results.

Priority 5 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Priority 5 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Surveys are regularly distributed to student families to ensure students are thriving and receiving the support they need. This feedback also helps identify areas where families may need additional assistance and guide the planning of future parent and student workshops. This process allows for proactively addressing concerns and better serving the school community.

Root Cause Addressed:

Proactively addressing potential issues that could lead to student disengagement or dissatisfaction.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Family 4Rs Workshops
Students learning about the 4Rs
Teddy Bears with Family workshops

Key Strategy 2 (Optional):

Classroom Teacher Feedback	Lack of Awareness of Impact	Links to progress

Attendance/Chronic Absenteeism

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal aligned to our systemwide focus on improving attendance and **reducing chronic absenteeism**.

Systemwide Focus Area for Attendance/Chronic Absenteeism: Develop and implement strengthened practices to improve attendance, combat chronic absenteeism and center equity. Note: For ESSA accountability purposes, NYSED will replace the Chronic Absenteeism indicator with the Attendance indicator, beginning in the 2025-26 school year. Learn more about the new Attendance indicator by reviewing this Fact Sheet.

Attendance/Chronic Absenteeism SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	41%	By June, 2026, the Percentage of Chronically Absent Students for All Students will decrease by 20%, from 41% to 21%, as measured by the Insight Chronic Absenteeism Reports.

Attendance/Chronic Absenteeism Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Attendance/Chronic Absenteeism Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

- Family Meetings
- Teacher Messaging
- Orientation
- Family & Student Playbook
- PAC & SLT Support
- PTA support

Root Cause Addressed:

Lack of Knowledge & Impact on Socio-emotional & academic growth

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Share importance in summer letter
Reiterate in Orientation on first day of school
Have PTA, SLT & PAC follow up in messaging
Educate on impact

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Attendance/Chronic Absenteeism Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
08/07/2025	06/26/2026	- Family Meetings - Teacher Messaging - Orientation - Family & Student Playbook - PAC & SLT Support - PTA support	

Attendance/Chronic Absenteeism Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities

High Quality Inclusive & Accessible Learning for Students with Disabilities Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs (NYCPS Systemwide Needs for all schools noted below.)
Support EA's with documentation	New Paras	IEP Development and Fidelity of Implementation
		Transition Planning and Compliance
		Referral Process and Equity

		Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities

Directions: After conducting a comprehensive needs assessment by analyzing school data trends including IEP Review Surveys; exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop outcome-focused SMART goals for identified priority need(s) and the relevant systemwide focus areas for **High Quality Inclusive & Accessible Learning for Students with Disabilities** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Inclusive and Accessible Learning for Students with Disabilities:

- IEP Development and Implementation
- Transition Planning and Compliance
- Referral Process and Equity
- Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Students with Disabilities (SWD)	0	By June, 2026, to strengthen the quality and implementation of IEPs for Students with Disabilities (SWD), we will improve Appropriate implementation of BIPs by a 100 Increase, from 0 to 100, as measured by BIP documentation.

High Quality Inclusive & Accessible Learning for Students with Disabilities Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. High Quality Inclusive & Accessible Learning for Students with Disabilities Family and Community Engagement

Family and Community Engagement

Directions: Indicate the multi-tiered supports (strategies & activities) that will be implemented to support and engage families (including foster parents, birth parents, and families with limited English proficiency) and plans for community collaboration in the implementation of this action plan, surrounding the four priority needs. Include:

1) a description of the school's supports and processes for students with disabilities;
2) a coherent mechanism is implemented for updating families on their child's progress towards measurable annual and post-secondary transition goals;
3) a procedure to ensure families are involved during decision-making for IEP development and implementation.

Start Date	End Date	Multi-tiered Supports to Engage Family & Community	Partners/CBOs Leveraged
09/04/2025	06/26/2026	Communication goals towards BIP

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Schools are encouraged to think critically and strategically when considering resources that can support progress towards CEP goals for students with IEPs. This includes utilizing Title I funding for at-risk speech and/or counseling services, all-staff training in supporting students with autism, sensory materials, summer institute geared at the development of executive functioning skills, and/or inclusion coaching support. Schools may also consider utilizing Title II funds to reduce the ratio of students with IEPs to typically developing peers in ICT classes.

Human Resources:

IEP Coordinator, District Support, Paraprofessional Training

Instructional Resources

Schedule Adjustments

Other Resources Needed

Section 6: Multi-Tiered Systems of Support (MTSS)

Academic Support

NYCPS Multi-Tiered Systems of Support (MTSS) align with NYSED guidelines for providing Academic Intervention Services (AIS) to students who have not yet met state standards or are considered to be at-risk of not meeting state standards. The Multi-tiered Systems of Support (MTSS) framework, organizes **supports** into three tiers:

Tier 1 provides schoolwide, high-quality programming for all students, including SWDs;

Tier 2 offers data informed small-group interventions for at-promise students; and

Tier 3 delivers intensive, individualized support for students with persistent needs.

This facilitates the strategic planning and necessary resource alignment to ensure their school community appropriately and adequately serves all students well, in partnership with students and families.

MTSS identifies the academic support services to be provided and ensures that students receive Response to Intervention (RtI) and Positive Behavioral Interventions and Support (PBIS) strategies as needed. See NYSED's memo to view the criteria for determining AIS services. The Supportive Environment Framework (SEF) offers a wide range of evidence-based Tier 2 and Tier 3 interventions and supports for student social-emotional, behavioral, physical and mental wellness, with particular attention to the unique needs of students in Temporary Housing and/or Foster Care, who may face additional challenges related to school stability, trauma and access to educational resources. A culturally responsive-sustaining approach to intervention embeds culturally relevant texts and historical narratives into literacy and social studies interventions, ensuring students receive the support that reflects their identities and lived experiences, increasing engagement and achievement.

Use the charts below and a Multi-Tiered System of Support (MTSS) to match academic, social/emotional, behavioral and instructional resources with student needs to provide targeted support for all learners, especially at-risk students who experience difficulty meeting state standards, including those living in Temporary Housing and/or residing in Foster Care placements. Indicate specialized materials, technology-based tools and/or extra instruction, including Expanded Learning Time that supplement school-wide systems & supports and/or classroom level supports. Ensure that interventions address the unique social-emotional, behavioral and academic challenges faced by culturally and linguistically diverse students, as well as those impacted by housing instability and child welfare system involvement.

Directions: Complete the chart and identify Tier 2 or 3 MTSS Academic supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Academic Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Small Group Instruction	Well-Below Benchmark	Edwards OG/Heggerty	small group	During school	no

Student Social/Emotional Support

Directions: Complete the chart and identify Tier 2 or 3 MTSS Student Social/Emotional supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Student Social/Emotional Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Friendship Groups	OORS Incidents	Counseling Group	Small Group	During School	No

Family and Community Engagement Around MTSS

Describe how the school's essential components of MTSS are shared with families.

Families will have their children's progress shared with them at strategic points in the school year. They will have family meetings by grade to be made aware of the curriculum being used, the format of instruction, and directly informed if their child is receiving small group instruction outside of the literacy block.

Describe how families receive updates on the progress of their child(ren) who receive Tier 2 targeted, or Tier 3 intensive interventions.

Families will be informed about their child's need in order to give consent for more intensive support. They will then receive updates on the progress of their children every 8 weeks or more frequently if needed. These updates include data on Phonemic Awareness.

Describe how families are involved during decision making regarding the progress of students receiving Tier 3 intensive intervention.

Families are involved in the continuing, modifying or exiting of the Tier 3 .

Students in Temporary Housing (STH) Support

As included in your school's Office of School and Youth Development Consolidated Plan-STH Section and in accordance with the federal McKinney-Vento Homeless Assistance Act and Chancellor's Regulation A-780, schools must identify, serve, and report on students living in temporary housing (STH). All Title I and non-Title I schools receive a Title I allocation for STH students. The Students in Temporary Housing (STH) website provides guidance on STH pupils and how these funds can be used to meet their needs, as well as restrictions. For more information on acceptable uses of the mandated Title I, Part A set-aside to support your STH population, please refer to the Title I STH Funds Toolkit.

Identify the number of Students in Temporary Housing who are currently attending your school and provide a breakdown of their temporary housing status. Since the number of STH children can change regularly, schools must carefully track this number to determine whether there has been an increase in need.

Number of students in temporary housing who are:

- Doubled up (with friends or relatives because they cannot find or afford housing):
- Living in a shelter or transitional shelter:
- Living in a hotel/motel:
- Other

*Note: In keeping with established practices regarding personally identifiable information, use the letter "s" to identify a number less than five (5).

S

After a careful analysis of historical demographic, attendance and achievement data for your STH population, what trends do you notice, and how can these trends inform the services and support provided for this population?

Since there are less than 5 students who fit this category, our plan is tailored to support the families in need.

Describe the services you are planning to provide to the STH population. How were those services selected to best meet students' needs? How will you (or did you) utilize the STH Title I Survey to select services aligned to need?

Direct outreach to families via STHY liaisons, visual assessments of winter gear, clothing for outdoor trips, etc.

Prioritizing Students in Foster Care

As included in your school's Office of School and Youth Development Consolidated Plan-Child Child Abuse and Neglect Intervention and Prevention School Plan and in accordance with the federal Education Law 3244 – Education of Children in Foster Care (Effective 2018) establishes the rights of students placed, or moved, in foster care to:

- Continue attending school of origin if determined to be in their best interest, or, if not, attend school near foster care placement,
- Immediate enrollment, and
- Transportation, if necessary to attend school of origin

Please respond to the questions below.

How many students in foster care are currently enrolled at your school? Provide a detailed breakdown of the social-emotional and academic supports available to them.

As of right now, we have no students in Foster Care. If some join our school community, we will sure their teacher tracks the impact of the Emotionally Responsive Practice curriculum.

What targeted supports are in place for students in foster care, including those newly transitioning into the foster care system? How does your school ensure these students receive the necessary interventions to promote stability and success?

As of right now, we have no students in Foster Care. If some join our school community, we will sure their teacher tracks the impact of the Emotionally Responsive Practice curriculum. We will ensure those families and students are frequently supported by the STH liaison.

After analyzing historical demographic, attendance, and achievement data for students in foster care, what trends have emerged? How can these insights be used to improve the services and support provided to this population?

n/a

What specific strategies does your school implement to ensure students in foster care, particularly those in transitional grades, receive targeted Social-Emotional Learning (SEL) support? How do these strategies help address academic and behavioral challenges?

As of right now, we have no students in Foster Care. If some join our school community, we will sure their teacher tracks the impact of the Emotionally Responsive Practice curriculum with the Teddy Bear Curriculum.

Section 7: Parent and Family Engagement Policy and School-Parent Compact

Parent and Family Engagement Policy

Directions: The Parent and Family Engagement Policy should describe how your school will plan and implement effective parent and family engagement activities and/or strategies to improve student academic achievement and school performance. The School-Parent Compact (SPC) is a component of the Parent and Family Engagement Policy (PFEP) that outlines how parents, the entire school staff, and students will share this responsibility.

The activities and/or strategies included in your school's Parent and Family Engagement Policy should align with current Comprehensive Education Plan (CEP) goals for improving student achievement and should be developed or updated with input and feedback from parent leaders and the Parent Coordinator. In addition, if the school community will be engaged in central parent engagement initiatives, such as Parent Academy, which will provide training for school communities to help strengthen family-school partnerships, please be sure to include these activities in the school's policy.

In Title I schools, the Title I Parent Advisory Council (PAC) represents the Title I parent community in supporting parent and family engagement. The Title I PAC Chairperson will serve in a consultative role with the SLT representing the school's Title I parents. Schools are encouraged to use the sample Parent and Family Engagement and SPC templates below (which meet federal Title I parent and family engagement requirements) as guidance for updating the school's current policy.

Parent and Family Engagement Policy

Educational research shows a positive correlation between effective parental engagement and student achievement. The overall aim of this policy is to develop a parent and family engagement policy that will establish expectations and objectives for meaningful parent and family engagement in the school community. The Elizabeth Jennings School for Bold Explorers PS 456, in compliance with Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is responsible for creating and implementing a parent and family engagement policy to strengthen the connection and support of student achievement between the school and the families. The school's policy is designed to keep parents informed by actively involving them in planning and decision-making in support of the education of their children. Parents are encouraged to actively participate on the School Leadership Team, Parent Association (or Parent-Teacher Association), and welcomed members of the school community.

Support for Parents and Family Members of Title I Students

The Elizabeth Jennings School for Bold Explorers PS 456 will support parents and family members of Title I students by:

- providing materials and training to help parents work with their children to improve their achievement level, e.g., literacy, math and use of technology;
- providing parents with the information and training needed to effectively become involved in planning and decision making in support of the education of their children;
- fostering a caring and effective home-school partnership to ensure that parents can effectively support and monitor their child's progress;
- providing assistance to parents in understanding City, State and Federal standards and assessments;
- sharing information about school and parent related programs, meetings and other activities in a format, and in languages that parents can understand;
- providing professional learning opportunities for school staff with the assistance of parents to improve outreach, communication skills and cultural competency in order to build stronger ties between parents and other members of the school community;

Parental Involvement and School Quality

The school's Parent and Family Engagement Policy was designed based upon a careful assessment of the needs of all parents/guardians, including parents/guardians of Multilingual Learners/English Language Learners (ML/ELL), and students with disabilities. The school community, with the meaningful involvement of parents and family members, will conduct an annual evaluation of the content and effectiveness of this parent and family engagement policy with Title I parents to improve the academic quality of the school. The findings of the evaluation through school surveys and feedback forms will be used to design strategies to more effectively meet the needs of parents and family members and enhance the school's Title I program. This information will be maintained by the school.

In developing the Title I Parent and Family Engagement Policy, parents of Title I participating students, parent members of the school's Parent Association (or Parent-Teacher Association), as well as parent members of the School Leadership Team, were consulted on the proposed Title I Parent and Family Engagement Policy and asked to survey their members for additional input. To increase and improve parent involvement and school quality, the school will:

? actively involve and engage parents and family members in the planning, review and evaluation of the effectiveness of the school's Title I program as outlined in the School Comprehensive Education Plan, including the implementation of the school's Title I Parent and Family Engagement Policy and School-Parent Compact;

? engage all parents in discussion and decisions regarding the required Title I, 1% set-aside funds, which are allocated directly to the school to supplement parent and family engagement activities, including family literacy and parenting skills;

? ensure that the Title I funds allocated for parent and family engagement are utilized to implement activities and strategies as described in the school's Parent and Family Engagement Policy and the School-Parent Compact;

? support school-level committees that include parents who are members of the School Leadership Team, the Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council. This includes providing technical support and ongoing professional learning, especially in developing leadership skills;

? maintain a Parent Coordinator (or a dedicated staff person) to serve as a liaison between the school and families. The Parent Coordinator or a dedicated staff person will provide parent workshops based on the assessed needs of the parents of children who attend the school and will work to ensure that the school environment is welcoming and inviting to all parents. The Parent Coordinator will also maintain a log of events and activities planned for parents each month and file a report with the central office.;

? conduct parent workshops with topics that may include: parenting skills, understanding educational

accountability grade-level curriculum and assessment expectations; literacy, accessing community and support services; and technology training to build parents' capacity to help their children at home;
? provide opportunities for parents to help them understand the accountability system, e.g., ESSA/State accountability system, student proficiency levels, Annual School Report Card, School Quality Report, Quality Review Report, NYC School Survey Report;
? host the required Annual Title I Parent Meeting each school year to advise parents of children participating in the Title I program about the school's Title I funded program(s), their right to be involved in the program and the parent and family engagement requirements under Title I, Part A, Section 1116 and other applicable sections under ESSA;
? schedule additional parent meetings, e.g., quarterly meetings, with flexible times, such as meetings in the morning or evening, to share information about the school's educational program and other initiatives of the Chancellor and allow parents to provide suggestions;
? translate all critical school documents and provide interpretation during meetings and events as needed.

Encouraging School-Level Parental Involvement

The school will further encourage school-level parent and family engagement by:
- hosting educational family events/activities during Parent-Teacher Conferences and throughout the school year;
- encouraging meaningful parent participation on School Leadership Teams, Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council;
- supporting or hosting Family Day events;
- establishing a Parent Resource Center/Area or lending library; instructional materials for parents;
- encouraging more parents to become trained school volunteers;
- providing written and verbal progress reports that are periodically given to keep parents informed of their children's progress;
- developing and distributing a school newsletter or web publication designed to keep parents informed about school activities and student progress;
- providing school planners/folders for regular written communication between /teacher and the home in a format, and to the extent practicable in the languages that parents can understand.

School-Parent Compact (SPC)

School-Parent Compact (SPC)

The Elizabeth Jennings School for Bold Explorers PS 456 , in compliance with the Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is implementing a School-Parent Compact to strengthen the connection and support of student achievement between the school and the families. Staff and parents of students participating in activities and programs funded by Title I, agree that this Compact outlines how parents, the entire school staff and students will share responsibility for improved academic achievement and the means by which a school-parent partnership will be developed to ensure that all children achieve State Standards on assessments.

I. School Responsibilities: High Quality CurriculumI. School Responsibilities: High Quality Curriculum

Provide high quality curriculum and instruction consistent with State Standards to enable participating children to meet the State's Standards and Assessments by:

- using academic learning time efficiently;
- respecting cultural, racial and ethnic differences;
- implementing a curriculum aligned to the State Learning Standards;
- offering high quality instruction in all content areas;
- providing instruction by highly qualified teachers and when this does not occur, notifying parents as required by the Every Student Succeeds Act (ESSA);

I. School Responsibilities: Supporting Home-School Relationships

Support home-school relationships and improve communication by:

- conducting parent-teacher conferences each semester during which the individual child's achievement will be discussed as well as how this Compact is related;
- convening an Annual Title I Parent Meeting each school year for parents and family members of students participating in the Title I program to inform them of the school's Title I status and funded programs and their right to be involved;
- arranging additional meetings at other flexible times, e.g., morning, evening and providing (if necessary and funds are available) transportation or child care for those parents who cannot attend a regular meeting;
- respecting the rights of limited English proficient families to receive translated documents and interpretation services in order to ensure participation in the child's education;
- providing information related to school and parent programs, meetings and other activities is sent to parents of participating children in a format and to the extent practicable in a language that parents can understand;
- involving parents in the planning process to review, evaluate and improve the existing Title I programs, Parent and Family Engagement Policy and this Compact;
- providing parents with timely information regarding performance profiles and individual student assessment results for each child and other pertinent individual school information;
- ensuring that the Parent and Family Engagement Policy and School-Parent Compact are distributed and discussed with parents each year;

I. School Responsibilities: Providing Parents Reasonable Access to Staff

Provide parents reasonable access to staff by:
- ensuring that staff will have access to interpretation services in order to effectively communicate with limited English speaking parents;
- notifying parents of the procedures to arrange an appointment with their child's teacher or other school staff member;
- arranging opportunities for parents to receive training to volunteer and participate in their child's class, and to observe classroom activities;
- planning activities for parents during the school year, e.g., Parent-Teacher Conferences;

I. School Responsibilities: Providing General Support to Parents

Provide general support to parents by:
- creating a safe, supportive and effective learning community for students and a welcoming respectful environment for parents, and guardians;
- assisting parents in understanding academic achievement standards and assessments and how to monitor their child's progress by providing professional learning opportunities (times will be scheduled so that the majority of parents can attend);
- sharing and communicating best practices for effective communication, collaboration and partnering with all members of the school community;
- supporting parental involvement activities as requested by parents and family members;
- ensuring that the Title I funds allocated for parent involvement are utilized to implement activities as described in this Compact and the Parent and Family Engagement Policy;
- advising parents of their right to file a complaint under the Department's General Complaint Procedures and consistent with the Title I requirement for Every Student Succeeds Act (ESSA) and Title I programs;

II. Parent/Guardian Responsibilities

- monitor my child's attendance and ensure that my child arrives to school on time as well as follow the appropriate procedures to inform the school when my child is absent;
- ensure that my child comes to school rested by setting a schedule for bedtime based on the needs of my child and his/her age;
- check and assist my child in completing homework tasks, when necessary;
- read to my child and/or discuss what my child is reading each day (for a minimum of 15 minutes);
- set limits to the amount of time my child watches television or plays video games;
- promote positive use of extracurricular time such as, extended day learning opportunities, clubs, team sports and/or quality family time;
- encourage my child to follow school rules and regulations and discuss this Compact with my child;
- volunteer in my child's school or assist from my home as time permits;
- participate, as appropriate, in the decisions relating to my child's education;
- communicate with my child's teacher about educational needs and stay informed about their education by prompting reading and responding to all notices received from the school or district;
- respond to surveys, feedback forms and notices when requested;
- become involved in the development, implementation, evaluation and revision to the Parent and Family Engagement Policy and this Compact;
- participate in or request training offered by the school, district, central and/or State Education Department to learn more about teaching and learning strategies whenever possible;
- take part in the school's Parent Association or Parent-Teacher Association or serve to the extent possible on

advisory groups, e.g., Title I Parent Advisory Council, School or District Leadership Teams;

- share responsibility for the improved academic achievement of my child;

III. Student Responsibilities

- attend school regularly and arrive on time;
- complete my homework and submit all assignments on time;
- follow the school rules and be responsible for my actions;
- show respect for myself, other people and property;
- try to resolve disagreements or conflicts peacefully;
- inform a trusted adult in school if I need help with something related to my school or home life;
- always try my best to learn.

Submission Assurances

Submission Assurances

- ☐ The Comprehensive Education Plan (CEP) has been developed in consultation with parents, school staff, and others in accordance with the requirements of Shared-Decision Making (CR 100.11) to provide a meaningful opportunity for stakeholders to participate in the development of the plan and comment on the plan before it is approved.
- ☐ As part of the root cause analysis process, the school reviewed inequities, including resource inequities within the school, and investigated areas of low performance to identify strategies to address inequities within the school and promote improved student outcomes.
- ☐ The CEP School Leadership Team (SLT)/Stakeholder Signature Page will be printed, scanned, and submitted with the signatures of those that participated in the development of the CEP. DocuSign may also be used to secure electronic signatures for the CEP SLT/Stakeholder Signature Page. If the school was unable to obtain a signature of an individual that participated in the development of the CEP, the school has written “Addendum Attached” and provided supplemental documentation to explain why the school was unable to obtain the individual’s signature.
- ☐ The CEP will be implemented no later than the beginning of the first day of regular student attendance.
- ☐ Professional development will be provided to teachers and school leaders that will fully support the strategic efforts described within this plan.

Language Allocation Policy Outline

Language Allocation Policy Outline

2025-26 Language Allocation Policy (LAP)

This submission form supports schools with organizing a well-conceived school-based Language Allocation Policy (LAP) that describes high quality programs for Multilingual Learners/English Language Learners (MLs/ELLs). This is an annual plan of how your school will support the linguistic and academic needs of MLs/ELLs and must be completed yearly. The Language Allocation Policy (LAP) is a part of schools' Comprehensive Education Plan (CEP).

This is a living document. Any school-wide changes involving the instruction of MLs/ELLs, such as the addition or expansion of a Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE) program, should be updated in this form.

Agenda, minutes of LAP meetings, and LAP team members' attendance at meetings should be kept readily available on file in the school with all other ML/ELL critical documents. When preparing your school's submission, provide extended responses in the available spaces.

For additional information, refer to the NYC DOE Policy and Reference Guide for MLs/ELLs. For additional support with ML/ELL policy, please reach out to your respective ML/ELL Director or ELL Compliance Performance Specialist; for support with ML/ELL instruction, please contact your ML/ELL Services Administrator.

Part I: School ML/ELL Profile

This section should reflect the school's demographics for the 2025-26 school year. If completing before the 2025-26 school year begins, questions should be based on the anticipated population served by the school.

A. Language Allocation Policy Team Composition

The members of the school's LAP team are listed below. A school's LAP team must consist of at least one: principal, assistant principal (where applicable), an English as a New Language (ENL) teacher, an additional teacher (bilingual teacher if the school has a bilingual program or a teacher from a content area other than bilingual education or ENL) and a parent/guardian.

Required LAP team members are denoted with an asterisk (*) below. Please do not leave any fields blank. If a role is not represented on the LAP team, include "N/A" below.

Member Title	Name
Principal*	Malika Johnson-Willis
Assistant Principal (Where Applicable)*	n/a
English as a New Language (ENL) Teacher*	n/a
Teacher (if school has a bilingual program must be a bilingual teacher)*	Miarangely Santiago-Jimenez
Parent/Guardian*	Chandler Miranda
Teacher	Jennifer Garcia
Parent Coordinator	Amelia McKenzie
School Counselor	
Related-Service Provider	Haley-Jo Kenny
Other (Name and Title)	
Other (Name and Title)	

B. Teacher Qualifications

Please review all certifications for all staff members at your school, and indicate the number of certified staff for each category.

1. English to Speakers of Other Languages (ESOL) Certified Teacher

Number of ESOL certified teachers currently teaching ENL:

2

Number of teachers currently teaching a stand-alone ENL class who hold both a common branch license and ESOL certification [applicable to grades K–6]:

n/a

Number of certified ESOL teachers not currently teaching ENL:

n/a

Number of teachers who hold both content area/common branch and ESOL certification:

n/a

Number of ESOL certified teachers with a bilingual extension:

n/a

2. Certified Teachers with a Bilingual Extension

Number of certified teachers with a bilingual extension currently teaching in a bilingual program:

4

Number of certified teachers with a bilingual extension not currently teaching in a bilingual program:

0

Number of teachers certified to teach students with disabilities that also have a bilingual extension:

1

3. Language Other than English (LOTE)/World Language Certified Teachers:

Total number of teachers with LOTE certification:

n/a

Total number of teachers with LOTE certification providing World Language instruction:

n/a

Total number of teachers with LOTE certification providing Home Language Arts (HLA) to students in bilingual programs:

n/a

C. Student Demographics

Please review the student demographics at your school and complete the number and percentage for each category.

Total number of students (excluding pre-K):

145

Total number and percentage (%) of current ELLs:

1

Total number and percentage (%) of former ELLs:

0

Total number and percentage (%) of ELLs who are Newcomers (0-3 years of service):

1

Total number and percentage (%) of ELLs who are Developing ELLs (4-6 years of service):

0

Total number and percentage (%) of ELLs who are Long-Term ELLs (7 or more years of service):

0

Total number and percentage (%) of ELLs who are Students with Inconsistent/Interrupted Formal Education (SIFE):

0

Total number and percentage (%) of ELLs with an Individualized Education Program (IEP):

0

Part II: Bilingual Programs

Does your school have a bilingual program (Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)?

Yes

Provide the number of classrooms for each bilingual program, by grade, at your school for the 2025-26 school year. If submitted before the 2025-26 school year begins, this should be the anticipated number of classrooms based on anticipated enrollment. Each language and program model--Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)--is considered a separate program. In the second column, please indicate if the program is General Education (GE), Integrated Co-Teaching (ICT) special education, Special Class (SC), or Mixed-Group Class (MGC) special education. If a classroom bridges two grades, list as 0.5 classrooms for both grades.
Please include the total number of classrooms for each bilingual program in the last column.

	Program Type	Language	School Yr Opened	k	1	2	3	4	5	6	7	8	9	10	11	12	Totals
TBE																	0
TBE																	0
TBE																	0
DLBE	Dual Language	Spanish	2024	1													1
DLBE	ICT- Dual Language	Spanish	2025	1													1
DLBE	Dual Langauge	Spanish	2025		1												1
				total: 2	total: 1	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	

Part III: ML/ELL Programming

Please refer to New York State **Commissioner's Regulation (CR) Part 154 Units of Study Tables** as you describe academic programming for MLs/ELLs at your school below. Please do not leave any fields blank and indicate "N/A" for any fields that are not applicable.

Describe your English as a New Language (ENL), and if applicable Dual Language Bilingual Education (DLBE), and Transitional Bilingual Education (TBE) programs. For each program, include:

- How stand-alone ENL is implemented as per CR Part 154
- How integrated ENL is implemented as per CR Part 154
- How students are grouped (e.g., block [class travels together as a group], ungraded [all students regardless of grade are in one class], heterogeneous [mixed proficiency levels], homogenous [proficiency level is the same in one class]).

a. English as a New Language (ENL)
Stand-alone ENL:

Certified ENL teacher will provide 180 minutes of standalone for all EN and EM students in heterogenous groups of students in no more than 2 contiguous grades.

Integrated ENL:

Integrated ENL services will occur by the ENL teacher co-teaching in the ELA classroom, providing 180 minutes to EN-EM students per week. Students will be heterogeneously grouped with no more than 2 contiguous grades in each grouping.

b. Bilingual Education (If applicable)
Transitional Bilingual Education (TBE):

n/a

Dual Language Bilingual Education (DLBE):

Integrated will happen in ELA, and standalone will happen in small group time throughout the week for a total of 180 minutes for all EN. Students in ELA/ENL integrated, and 180 minutes of standalone small group time for all EN-EM students.

2. How does your school ensure the mandated number of instructional minutes are provided according to students' English language proficiency levels in each program model?

Students in the Dual Language Spanish class receive an alternating day or week schedule where the minutes are the same as ELA the required minutes. We program our students based on their proficiency levels with 180 minutes of stand alone and integrated. Our transitioning and expanding students will receive 180 of integrated ELA. When we have commanding students are getting integrated time in a content area and if they are in the gen ed class they will receive their stand along minutes by their classroom teacher.

3. How are ENL, English Language Arts (ELA) and if applicable, Home Language Arts (HLA) instructional minutes delivered in each program model?

Students will receive equal time in Spanish HLA and English ELA.

4. For schools with Dual Language Bilingual Education (DLBE) programs:

a. Which Dual Language Bilingual Education model is implemented? Explain how much of the instructional day (percentage) English proficient students and ELLs are integrated.

Students in the Dual Language Spanish self-contained 50/50 class receive an alternating day or week schedule where the minutes are the same as ELA the required minutes.

b. In which language(s) is each core content area taught?

ELA- English; Math- English and Spanish; Social Studies- English and Spanish
HLA- Spanish; Science- English

5. For schools with Transitional Bilingual Education (TBE) programs:

a. Which core content areas are taught bilingually?

N/A

Part IV: Data Analysis

Data Analysis

After reviewing and analyzing school demographic and assessment data, answer the following questions. The ELL Data Analysis Tool (EDAT) provided by the Office of Multilingual Learners can assist with identifying these data points.

For additional information, refer to Data Analysis Professional Learning Module and ELL Data Analysis Tool (EDAT) Professional Learning Module.

1. What is the composition of the ELL subgroups at your school?
What percentage of ELLs are Newcomers? How does effective instruction for Newcomers differ from those provided to Developing or Long-Term ELLs?

Effective instruction for new comers is comprehensive and holistic, Integrating language development with social emotional support, academic rigor and cultural responsiveness. Children will be provide opportunities for outdoor learning as well.

What percentage of ELLs are Students with Inconsistent/Interrupted Formal Education (SIFE)? How do you differentiate effective instruction for SIFE?

At P.S.456 we have planned to create a supportive environment and use specific scaffolding strategies to build literacy and academic skills if we were ever to have ELLs are SIFE. The differentiation strategy must focus on simultaneously addressing three major gaps:
1. Language Gap: Learning English (social/academic).
2. Literacy Gap: Developing foundational literacy skills (phonics, decoding, fluency, even handwriting) in any language.
3. Content/Skills Gap: Catching up on missed grade-level content knowledge and academic routines (study skills, note-taking, critical thinking).

As a school which focuses on the whole child we will also ensure to have meetings with their families to learn more about the kind of learner the student is and ensure that there are learning experiences which allow for the child to have hands on learning.

What percentage of ELLs are Long-Term ELLs? How does effective instruction for Long-Term ELLs differ from instruction designed for Developing ELLs?

We currently do not have any developing or long-term ELLs. The school is not projected to have any developing ELLs until at least SY27-28.

What percentage of students are former ELLs? How is your school providing mandated instruction to former ELLs?

When instructing a former ELL student, we will provide clear, direct instructions and support their language development by using visuals, pre teaching vocabulary, and building on their background knowledge. We will also incorporate opportunities for peer interactions and collaborations to build fluency in a supportive environment.

2. Examine all at-risk levels that might adversely affect ELLs at your school. What trends do you notice about the at-risk levels of ELLs at your school?

ELLs who have strong conversational (oral) language but weak in academic language, the primary risk is that their surface-level fluency masks deep academic deficits.

3. Examine all at-risk levels that might adversely affect former ELLs at your school. What trends do you notice about the at-risk levels of former ELLs at your school?

The school currently does not have any fELLs, nor is there historic data to analyze.

4. What are the home languages of ELLs with the largest representation at your school? What staff, structures, and processes does your school have to support communication and learning that values these home languages?

The one ELL student we have has a home language of Spanish. We share all information with the family in both languages. The teacher and staff members communicate with the family in their preferred language.

5. What are the racial and ethnic classifications of ELLs at your school? How are ELLs being included in planning and delivery of Culturally Responsive and Sustaining Education (CR-SE)?

Hispanic/Latino ; ELLs are included in planning and delivery of CR-SE by incorporating their cultural and linguistic backgrounds into the curriculum, connecting learning to their lives and communities, and employing collaborative and linguistically supportive teaching strategies.

6. What trends do you notice in reviewing English Language Proficiency (ELP) growth at your school? How many students met ELP sufficient progress? How many students did not meet ELP sufficient progress?

The school currently does not have any ELP data, nor is there historic data to analyze.

7. When you look at the results of the New York State English as a Second Language Achievement Test (NYSESLAT), what stands out? What trends are there for each modality?

ELL students score remained the same.

8. What is the relationship between students' performance on the NYSESLAT and other state assessments such as the ELA assessment, the Math assessment, and the Regents exams?

We have not received the results. We will look at them and consider the next steps based on the data.

9. What are trends reflected in the NYSESLAT results of ELL subgroups such as ELLs with IEPs and SIFE? What do you think is impacting the results for these subgroups?

We have not received the results. We will look at them and consider the next steps based on the data.

10. (For grades 9-12 only) Please review your data in the Insight Tool and STARS to answer the following questions:
a. How many ELLs are on-track towards graduation?

n/a

b. How many ELLs in grades 11-12 have a documented postsecondary plan in STARS or ATS?

n/a

c. What targeted strategies and interventions are in place to support ELLs who are currently off-track to graduate in four years?

We have not received the results. We will look at them and consider the next steps based on the data.

d. What specific strategies, engaging approaches, and interventions are implemented to support and retain students who are not on track to graduate within four years, ensuring they remain enrolled and are guided towards a successful graduation in the future?

We have not received the results. We will look at them and consider the next steps based on the data.

Part V: ML/ELL Instruction

Tier 1: Core Instruction

For additional information, refer to ML/ELL Instruction Professional Learning Module.

Tier 1 Core Instruction

1. How does your school provide ELLs with a high-quality academic experience that leads to deeper learning?

Our school's approach to providing English Language Learners with a high-quality academic experience is rooted in equitable access and scaffolded support. All of our students, including our ELLs, engage in the same robust, interdisciplinary, project-based curriculum. For our ELL students, this approach is particularly effective because it provides hands-on, collaborative, and authentic learning opportunities that accelerate language acquisition in a meaningful and contextualized way.

2. How does your school's leadership team ensure ELLs have access to core instruction/curriculum?

Our SLT considers the multiple ways students can demonstrate learning and supports initiatives that provide greater access to content area learning.

3. Describe how core content is delivered in each program model. Specify language, and the instructional approaches and methods to foster language development and meet the demands of the Next Generation Learning Standards.

Math- All classes from Kindergarten through Fifth Grade will deliver Illustrative Math program as the core instructional program. This programs combine to create a comprehensive mathematics program that is aligned to the Next Gen Learning Standards, integrates and solidifies a progression of skills with conceptual learning practices to help all students master 21st Century math skills. PS456 Mathematics Expectations are aligned to the National Council of Teachers of Mathematics Recognize that each and every student, is able to solve challenging mathematical tasks successfully. Build in each student positive mathematical identity and a sense of agency. Illustrative Math: This program offers teachers the opportunity to differentiate learning experiences for all students. By teaching mathematics as a "story", Illustrative Math builds students' knowledge logically and thoroughly to help them achieve a deep understanding. This program incorporates a balanced approach of fluency activities, concept development, and applications, to support the development of an increasingly complex understanding of mathematical skills. It is not enough for students to know the process for solving a problem; they need to understand

why that process works. Student problem solving experiences are a progression of the pedagogical approach of the concrete, pictorial, and abstract stages of learning in combination with writing with reasoning to express their mathematical thinking. The instructional design of Illustrative Math develops engaging learning experiences of our students that are more inclusive, culturally responsive and supportive of special populations (SWDs, and MLLs). As students engage in the learning, lessons and modules increase exponentially in mathematical rigor to help students build enduring math knowledge. More specifically, Illustrative Math, provides SWOA's and MLLs with increased opportunities of intentional student discourse and a deliberate progression of engagement. The language support embedded in all lessons, across all grades, provides ideas to support students with receiving (reading and listening) and producing (speaking and writing) English in mathematical contexts. Suggestions may include ways to promote student-to-student discourse, support new and familiar content-specific terminology or academic language, or support students with multiple meaning words. The IM program promotes student discourse by employing routines that encourage student-to-student dialogue, using open-ended questions and scenarios to generate opportunities for authentic class discussion, and suggesting when students might use the leveled sentence starters provided in the Talking Tool to participate in discussions. The instructional guidance that appears in the lesson's blue margin notes provides information about facilitation, differentiation, and coherence and supports teachers to plan for learner variability for SWOAs and MLLs. Within each lesson, across all grade levels, there are six types of instructional guidance: teacher notes (inform pedagogical choices), Universal Design for Learning (UDL), language support, differentiation to challenge and support, mathematical practices, math past. The Universal Design for Learning (UDL) framework guides the construction of the entire curriculum, informing its use of math models, simple-to-complex progressions, routines, and discourse so that all students can understand the why behind the math and productively engage in math learning. Ultimately, the IM Squared program prioritizes student engagement by maximizing the number of students actively participating at any given time. Finally, All IM materials are translated in both English and Spanish.

Science & Sustainability: Through collaboration of the science and sustainability teacher, we will foster an interdisciplinary approach that focuses on PBLs. As students engage in authentic projects of their choice, they will be provided opportunities to extend topic knowledge by engaging in deeper research and developing authentic project showcases. In addition to students developing content reading, writing, listening and speaking skills, they will also understand and integrate the authenticity of real-life mathematical connections and skills that align to the authentic projects of their choice. Each unit of Amplify Science engages students in a relevant, real-world problem where they investigate scientific phenomena, engage in collaboration and discussion, and develop models or explanations in order to arrive at solutions. Students are: introduced to a phenomenon and a related problem, provided opportunities to collect evidence from multiple sources (digital, text, simulations, hands-on, and observations), build increasingly complex explanations, and apply knowledge to solve a different problem. Students are taught through a multimodal approach, which allows students to experience learning in a variety of ways to create diverse learning styles. All Amplify units, chapters, and lessons are grounded in the Do, Talk, Read, Write, Visualize approach. PBL is integrated into each unit. Students are exposed to a real world phenomena and investigate this phenomena throughout the unit using hands-on activities, multimedia resources, research, field trips, discourse, and writing to apply their learning and solve a similar real world problem. Students show their learning by creating models, visuals, and writing pieces. After completing a project, students present their projects to other students and/or parents and peer assess and self-assess their work. Students not only understand content more deeply but also learn how to take responsibility, build confidence, solve problems, work collaboratively, communicate ideas, and be creative innovators. This year, we will continue to integrate an interdisciplinary approach with PBLs through Science by engaging children in projects that provide opportunities to extend topic knowledge while building research, writing, listening, speaking, and collaboration skills in ELA. Using inquiry and research through an interdisciplinary curriculum, learners will use their thinking skills to formulate questions about the world, find appropriate and accurate information, and make thoughtful judgments about their findings. In each module, students complete a focused, inquiry-based project paced over several weeks. Children research, collaborate, and complete a project about the topic of the module. Through inquiry and research projects, children can practice these critical skills and learn that the process of finding answers to their questions can be joyful, reflective and inquisitive. Project based learning aligns with and allows for students to strengthen their Science and Engineering practices. Amplify Science allows project based learning to be taught through a 3 dimensional approach, with a broad range of

experiences. 3-D learning engages students, allows them to build their science and engineering practices, and apply cross-cutting concepts to develop understanding and solve challenging problems connected to disciplinary core ideas. Students will be: Asking questions (for science) and defining problems (for engineering) Developing and using models Planning and carrying out investigations Analyzing and interpreting data Using mathematics and computational thinking Constructing explanations (for science) and designing solutions (for engineering) Engaging in arguments from evidence Obtaining, evaluating, and communicating information Amplify Science is designed with diversity and equity in mind. They believe “diversity in the science and engineering classroom is an asset. It offers countless opportunities for creativity and innovation and opens the door to multiple perspectives and cross-cultural understanding.” With this belief in mind they have designed the curriculum to provide quality and supportive materials for teachers so that every student regardless of their background, where they live, the language they speak at home, or their learning characteristics — has access to and benefits from deep and engaging science and engineering learning opportunities. Two overarching conceptual frameworks informed Amplify Science’s approach to ensuring access and equity for all students: Universal Design for Learning and Culturally and Linguistically Responsive Teaching. This year our STEM program has been integrated with Social Emotional Learning and a focus on the 4Rs competencies. Students will be provided opportunities to strengthen their self-awareness, self-management, social awareness, relationship skills, and responsible decision making. Students will have multiple times throughout a unit to revisit and enhance social emotional skills. Unit PBL/ projects have been modified to allow for students to use their social emotional learning when solving real world problems particularly in the areas of social awareness, relationship skills, and responsible decision making. Amplify Science-Supporting Students with other Abilities (SWDs) and Multilingual Learners Amplify Science provides multiple supports to meet the needs of all learners, and includes multiple access points for students throughout the unit. Amplify Science aligns to Hallmark 4 of Advance Literacy in studying a small set of high utility words. Amplify Science understands that language development involves understanding the meanings of words and phrases heard or read, as well as using those words and phrases to communicate effectively in speech or writing. Students are provided repeated opportunities to develop strategies for learning academic vocabulary through the use of instructional strategies and supports to help students establish connections and develop their knowledge of content specific language. Students are provided word relationship activities, repeated exposure to content specific vocabulary through texts, videos, and hands on activities. Amplify Science provides multiple supports to meet the needs of all learners, and includes multiple access points for students throughout the unit. Students are provided digital texts, print materials, videos, picture supports, language stems/frames, and multilingual glossary. Each unit of Amplify science has a differentiation section in the lesson brief for each lesson. This section provides embedded supports for diverse learners and tools for differentiation, as well as specific differentiation strategies for English Learners. These sections are tailored to each lesson. Students are provided a multimodal approach. A Multimodal learning approach teaches concepts using multiple modes to provide information to students including but not limited to the sue of pictures, texts, modeling, hands on activities, and videos. Monitoring Student Learning All students will engage in formal and informal assessment opportunities to demonstrate understanding and for teachers to gather information throughout the unit. Students have the opportunity to take a Pre-Unit / End of unit Assessment for every unit. The pre-unit assessment is an opportunity for students to articulate their initial ideas and understanding about the unit topic. It allows for teachers to see what concepts students already understand and what misconceptions the students have. The end of unit assessment will be graded with the end of unit rubric. The end of unit assessment written explanations show each student’s level of understanding of the core concepts from the unit, as well as provide evidence of growth over time when compared with their pre-unit assessments. In each grade, there are multiple opportunities to monitor student progress through the use of the Critical Juncture assessments and On the Fly assessments. Critical Juncture assessments signify points in the unit at which it is especially important that all students understand the content before continuing. They are designed to provide formative information about the actual level at which each student understands the content by the end of each of the lessons indicated.

Social Studies curriculum has been enhanced in order to not only include the Passports to Social Studies curriculum, Civics for All, and Social-Emotional CASEL Competencies curriculum, but we have also integrated the equity framework from Cultivating Genius named the Historically Responsive Literacy (HRL) Framework by Dr. Gholdy Muhammad, which addresses students’ Identities, Skills, Intellect, Criticality, and Joy. The Passports to Social

Studies program aligns to the NYC Social Studies Scope & Sequence and integrates the New York State Social Studies Framework to support effective and engaging social studies teaching and learning. Most importantly, students use rich content, themes, and big ideas to learn history, geography, economics, civics, citizenship, and government. They also use important skills to "think like historians." The Passports to Social Studies program units of study are guided by an essential question. The essential question is multi-faceted and is designed for open discussion and interpretation and can be applied beyond the content of one specific unit. Each lesson from the Passports to Social Studies program and Civics for All is guided by a focus question to direct students on developing the relevant skills, practices, and knowledge objectives that lead to historical understanding. Students are challenged to think like historians and encouraged to raise questions, think critically, consider many perspectives, and gather evidence in support of their interpretations through the practice of chronological processing, decision-making, and historical research and analysis. These real-world skills will serve students well as participating citizens of a democracy and as productive adults in the future. Passports are translated to Chinese and Spanish, and we follow the 50 – 50 model for our dual-language programs. Social Studies uses: Passports for Social Studies units and lessons to cultivate civic responsibility and awareness in our students to become active and informed participants of our democratic society. The Historically Responsive Literacy (HRL) Framework from Cultivating Genius by Dr. Gholdy Muhammad is a universal teaching and learning model that helps teachers cultivate the genius within students and within themselves and teach in ways that create space for mutual empowerment, confidence, and self-reliance. The Historically Responsive Literacy (HRL) Framework is an equity framework that believes every time children of color come together to read, write, think, and learn, they are making sense of who they are through Identity, developing their proficiencies in the content they are learning within through Skills, becoming smarter about something or gaining new knowledge and concepts in the world through Intellect, and developing the ability to read texts to understand power, authority and anti-oppression through Criticality. These five goals or pursuits are connected to the body of literacy research on cognitive and sociocultural perspectives of literacy development and what youth need to attain personal and academic success: Identity: It is composed of who we are, who others say we are, and who we desire to be. Youth need opportunities in school to explore multiple facets of selfhood, but also learn about the identities of others who may differ. Knowing about the cultures of other people teaches them how to respect, love, and live in harmony with others who don't look or know the world as they do. As an educator, ask yourself, "How will my instruction help students to learn something about themselves and/or about others?" Skills: It is essential for today's youth to read, write, and think about diverse sets of literature in multimodal forms in order to develop their literacy skills. It is important that students develop the skills necessary in not only literacy but in all content areas. In particular, the skill of writing development should be cultivated in each content area because it entails the act of reading something, thinking about the content, considering new ideas to set on paper, and then communicating those words to an intended audience. Skills give across areas of learning students access and tools for education. As an educator, ask yourself, "How will my instruction build students' skills for the content area?" Intellect: Intellect or knowledge is what we learn or understand about various topics, concepts, and paradigms. Through the pursuit of Identity and Skills, the possibility is created for Intellect, and when students develop intellectualism, they can express their ideas, work through justice-centered solutions to the world's problems and expand their mental capacities. Intellect is not only about academics, but also emotional intelligence and self-and social awareness. As an educator, ask yourself, "How will my instruction build students' knowledge and mental powers?" Criticality: It is the capacity to read, write, and think in ways of understanding how power, privilege, social justice, equity, and oppression operate throughout society particularly for populations who have been historically marginalized in the world. It enables students to question both the world and texts within it to better understand the truth in history, power, and equity. Teaching criticality humanizes instruction and makes it more compassionate. It begins to give students the tools they need to respond to injustice in and around schools and to tell the difference between facts and truths. As an educator, ask yourself, "How will my instruction engage students' thinking about power and equity and the disruption of oppression?" Joy: This is another aspect of the framework because it's essential to maintain one's journey. All the pursuits are collaborative and encourage others to participate. When we offer a variety of subjects to excite students' interest, bring joy and pleasure from reading, and stimulate their minds to think and debate about significant issues, we create an environment that affords students the opportunity to shape their own ideas through acts of literacy. It is our job as educators to not just teach skills, but teach students to know, validate, & celebrate who they are. As an educator, ask yourself, "How am I elevating beauty in humanity?" By implementing Passports to Social Studies, SocialEmotional 4R's and the Historically Responsive Literacy (HRL)

Framework we will prepare our students to be productive citizens of a global community and to nurture and promote global awareness. For our students to be globally aware citizens, students must understand and be able to: connect the local and the global, understanding of how the actions of people around the planet have an economic, technological, and cultural influence on all peoples of the world. participate in local and global economies. be open-minded, especially in understanding one's own cultural lens as well as others' distinct cultural lenses. celebrate similarities among different groups of people. understand and respect peoples' differences. use electronic technologies in order to research people and cultures in every world region. understand the importance of cross-cultural communication, both within the United States and across borders. recognize and reduce stereotypes and prejudices. have compassion for all peoples of the world. assume responsibility for the ways in which they process information and read the world with a critical eye, refusing to accept unexamined information as factual or truth. This school year Passports to Social Studies and has been integrated with Social Emotional 4R's As students engage in historical explorations, global perspectives, historical literacies, and cultural studies, they will be able to deepen their connections and strengthen their personal social emotional skills in the areas of self-awareness, self-management, social awareness, relationships skills, and responsible decision making. This year Social Studies units of study maps will continue to have an essential question along with a social emotional focus question aligned to the content as well as SEL competency.

Project-Based Learning PBL is an effective and enjoyable way to learn and develop deeper learning competencies required for success in college, career and civic life. Students are active, not passive; a project engages their hearts and minds, and provides real world relevance for learning. PBL engages students in experiential learning, they work on projects that are aligned to content grade expectations as they work together solving a problem that has relevance to the real world. After completing a project, students present their projects to other students and/or parents and peer assess and self-assess their work. Students who gain content knowledge with PBL are better able to apply what they know and can do to new situations. Students not only understand content more deeply but also learn how to take responsibility and build confidence, solve problems, work collaboratively, communicate ideas, and be creative innovators. The Next Generation standards emphasize real-world application of knowledge and skills, and the development of 21st century competencies such as critical thinking, communication in a variety of media, and collaboration. PBL provides an effective way to address such standards. Modern technology – which students use so much in their lives – is a perfect fit with PBL. With technology, teachers and students can connect with experts, partners, and audiences around the world, and use tech tools to find resources and information, create products, and collaborate more effectively. PBL is integrated throughout the units of study and our learning maps. PBL is an effective and enjoyable way to learn and develop deeper learning competencies required for success in college, career and civic life. Students are active, not passive; a project engages their hearts and minds, and provides real-world relevance for learning. PBL engages students in experiential learning, they work on projects that are aligned to content grade expectations as they work together solving a problem that has relevance to the real world. During in-person, synchronous and asynchronous instruction students can demonstrate their learning by creating models, visuals, and writing pieces through student-led research projects intended to reinforce, extend or apply lesson objectives or independent student goals. After completing a project, students present their projects to other students and/or parents and peer assess and self-assess their work. Students not only understand content more deeply but also learn how to take responsibility and build confidence, solve problems, work collaboratively, communicate ideas, and be creative innovators. Project based learning aligns and allows students to strengthen their Social Studies and Civics practices. This year, we will continue to integrate an interdisciplinary approach with PBLs through Social Studies by engaging children in projects that provide opportunities to extend topic knowledge while building research, writing, listening, speaking, and collaboration skills in ELA. Using inquiry and research through an interdisciplinary curriculum, learners will use their thinking skills to formulate questions about the world, find appropriate and accurate information, and make thoughtful judgments about their findings. In each module, students complete a focused, inquiry-based project paced over several weeks. Children research, collaborate, and complete a project about the topic of the module. Through inquiry and research projects, children can practice these critical skills and learn that the process of finding answers to their questions can be joyful, reflective and inquisitive. We will continue to incorporate Mathematics into our PBLs. Math is easy to link to economics, but it can be connected to history, civics, and geography. The study of human social relationships is studied using mathematical models. Mathematical analysis is also used to analyze social networks, how humans are connected to each other, and how they behave in various social situations. It is important not to think of integration as using the particular

subject to solve math problems, but as a way to use math to solve problems and answer questions about those topics in Social Studies. Both disciplines use words such as compare, explain, articulate, analyze, predict, demonstrate and interpret and should be used to make connections between both disciplines. Some ways we will integrate mathematics into our Social Studies PBLs is through map skills (latitude and longitude), shapes in our community, calculating distances (fractions), number sense (ability to analyze numbers), and different nationalities and their number systems. Students who can make connections between Math and Social Studies are able to think critically and understand history, culture, and politics. Teachers will engage in ongoing collaboration to develop PBLs that are aligned to both Social Studies and Mathematics. Passports to Social Studies. Supporting Students with Other Abilities (SWOAs) and Multilingual Learners Passports to Social Studies and provides multiple supports to meet the academic, language, and learning style needs of all learners. Students are provided repeated opportunities to develop strategies for learning academic vocabulary through the use of instructional strategies and visual support to help students establish connections and develop their content knowledge. In addition, students are provided with supports to meet the needs of all learners, and includes multiple access points. Where available, students are provided digital texts, videos, picture supports, language stems, sentence starters, sentence frames, virtual field trips, and multilingual glossaries. Hallmark 4 of Advanced Literacies research indicates that Social Studies instruction provides students repeated opportunities to develop strategies for learning academic vocabulary through the use of research based word-learning strategies (eg. think alouds) and supports to help students establish connections and develop their bank of content specific vocabulary. English Language Learners and Multilingual Learner Students are provided with Passports to Social Studies workbooks in English and in the student's home native language. Assessing Students and Monitoring Student Learning Assessments of students are essential in monitoring student learning and growth. Students will engage in formal and informal assessment opportunities to demonstrate understanding and for teachers to gather assessment data throughout the unit. Informal assessment examples may include, but are not limited to teacher created checklists, student/teacher created questionnaires, writing samples, class discussions, and student portfolios. Students will take Pre-Unit Assessment and End-of-Unit Assessment for every unit. The pre-unit assessment will be administered prior to the start of a new unit. It is an opportunity for students to articulate their initial ideas and understanding about the unit topic. It allows for teachers to see what concepts students already understand and what misconceptions students may have. The end of unit assessment may consist of Performance Tasks, Formative Assessments, or Extension Activities as outlined in Passports to Social Studies Teachers Guide In a Performance Task Assessment at the end of units, students are assessed based on their abilities to: compare/contrast, illustrate similarities and differences, illustrate bias or point of view, describe change over time, discuss issues categorically: socially, economically, politically, explain causes and effects of historic events, and or examine contending perspectives on an issue. In a Formative Assessment, students are assessed based on their abilities to successfully complete a project illustrating understanding of the unit topic. Extension Activities assessments are units which include relevant PBL projects. These end of unit assessments provide evidence of growth over time when compared with their pre-unit assessments data. All students will use iLearnNYC portfolios to monitor their growth. Digital portfolios will be used to document the learning process and/or growth of students, and for formative assessments. To manage or import evidence, students and or teachers can use the portfolio tool within iLearnNYC, or through the mobile App. to submit work digitally. Students or teachers may include the following into the paper and/or digital portfolios: Samples of work Writing samples Workbook pages Student self-reflection. Photographs of work Video recordings Pre and end of unit assessments / Performance Tasks / Extension Activities.

Core Content Is Delivered Using HMH ELA Curriculum Across ELL Program Models. Teachers use the HMH Into Reading curriculum to introduce vocabulary, reading strategies, and writing skills. Lessons support grade-level expectations by integrating literacy standards by identifying the skills in each module, while gradually building access through scaffolds. HMH's emphasis on authentic texts, scaffolded questions, and writing frames helps ELLs meet both language and literacy goals. Lessons are scaffolded using visual supports, sentence frames, graphic organizers, and realia. Emphasis is placed on listening, speaking, reading, and writing in context, with guided practice and repetition. Oral language is built through structured discussion routines, choral reading, and interactive read-alouds. ELLs develop academic vocabulary and syntax through close reading, collaborative discussions, and writing tasks. Teachers may use side-by-side texts, glossaries, or home language mentors to bridge concepts across languages building biliteracy and metalinguistic awareness by comparing how language works across

English and the home language. Home language support accelerates conceptual understanding, while English instruction gradually increases in complexity. Teachers adapt content using intentional language supports and differentiated strategies to ensure that English learners develop both the language proficiency and academic skills required to meet the Next Generation Learning Standards.

To support the equitable and inclusive instruction we use tabletop Mini lessons to support language development and language acquisition and use in listening, speaking, reading, writing, and collaborative problem-solving. They are provided with multiple embedded supports to meet their learning needs, including multiple access points, as well as scaffolded differentiation strategies and learning throughout the Modules in the Reading and Writing curriculum. They are provided with carefully selected, content-rich text sets to help them build topic knowledge and reading skills, digital texts, videos, graphic organizers, picture supports, language stems, sentence frames, multilingual glossary, and lists of cognates. Scaffold talking and writing about a text by providing word banks, sentence stems, and sentence frames. They are provided word relationship activities, repeated exposure to content specific vocabulary through texts, videos, and experiential learning. The student is also provided repeated opportunities to develop strategies for learning academic vocabulary through the use of instructional strategies and supports to help them establish connections and develop their knowledge of content specific vocabulary.

Integrating the Edwards Orton-Gillingham approach helps students build foundational literacy skills, especially when combined with strategies that support language development and background gaps. To ensure ELLs have access to explicit, systematic instruction in phonics, phonemic awareness, and decoding, essential for reading success, Edwards Orton Gilingham's structured, explicit, and multisensory approach helps students at different proficiency levels break down the complex code of English. It provides clear, systematic instruction in phonology, orthography, and syntax—all of which are critical for ELLs learning a new language. It helps students transfer literacy skills across languages, reinforcing foundational literacy skills alongside English acquisition.

4. What instructional strategies and grade-level materials, including technology, do teachers of MLs/ELLs use to provide access to grade level academic content areas and accelerate English language development? Include core content area and language materials with consideration to specific ELL subgroups.

a. ELLs with IEPs

Curriculum Maps Assessment materials ELA-Supporting Students with other Abilities and Multilingual Learners to support the equitable and inclusive instruction of MLs and ELLs, Tabletop Minilessons support language development and language acquisition and use in listening, speaking, reading, writing, and collaborative problem-solving. Students are provided with multiple embedded supports to meet the needs of all learners, including multiple access points, as well as scaffolded differentiation strategies and learning throughout the Modules in the HMH Reading and Writing curriculum. Students are provided with carefully selected, content-rich text sets to help students build topic knowledge and reading skills, digital texts, videos, graphic organizers, picture supports, language stems, sentence frames, multilingual glossary, and lists of cognates. Scaffold talking and writing about a text by providing word banks, sentence stems, and sentence frames. Students are provided repeated opportunities to develop strategies for learning academic vocabulary through the use of instructional strategies and support to help students establish connections and develop their knowledge of content specific vocabulary. ELA instruction provides students repeated opportunities to develop strategies for learning academic vocabulary through the use of research based word-learning strategies (eg. think alouds, vocabulary center, vocabulary games) and supports to help students establish connections and develop their bank of content specific vocabulary. Teachers can use small-group instruction, leveled readers, and tiered tasks to meet each student's needs. Many core and supplemental texts are available in audio versions and interactive eBooks with text-to-speech features. Visual supports, annotations, and summaries make complex content more accessible to students with processing or reading difficulties. Graphic organizers and visual charts support comprehension and organization of ideas. ELA Assessment and Monitoring for Student Learning and ongoing assessment is an essential aspect of teachers and are recommended to have a data

tracking system of students' instructional needs, skills and strategies taught in reading and writing, student assessment data in reading, writing, and phonics. Students keep a reading log whether digitally or on paper. Students use writing checklists and teachers use writing rubrics aligned to the Next Generation English Language Arts Learning Standards (NGLS). Reading end of module assessments measure student progress toward grade-level standards at the conclusion of a module and provide formative data to guide instruction, intervention, or enrichment. They also assess both foundational reading skills (in early grades) and higher-order comprehension and writing skills (in upper grades). It also includes a constructed response or extended writing prompt requiring students to apply writing skills and cite text evidence (e.g., opinion, narrative, or explanatory writing). Leveled versions or scaffolded supports may be provided for English Language Learners (ELLs) and students with IEPs. Teachers can offer oral administration, extra time, or use of bilingual glossaries, depending on student accommodations. Students pre-writing prompt engage students in authentic, high-level work that is aligned to curricular standards so that teachers can carefully plan targeted instruction that meets students' needs, and are conducted to determine students' growth and what supports are still needed in regards to standards-based skills. These prompts often appear before the End-of-module writing assessment. Formative assessment data along with observational data of how students learn best is used to plan accessible and meaningful school instruction. Data is used to provide students with tiered supports and actionable and meaningful mastery-oriented feedback. The following components will be used as Summative assessments:

Acadience (K-2) Screener Beginning of Year Assessment
Acadience (K-2) Screener Middle of Year Assessment
Acadience (K-2) Screener End of Year Assessment

The Edwards Orton-Gillingham (OG) approach will be used to support the development of foundational literacy skills for students who require explicit, multisensory instruction—particularly English Language Learners (ELLs), students with reading difficulties, and those identified for Tier 2 and Tier 3 interventions. This structured, sequential, and diagnostic approach will help students build phonemic awareness, decoding skills, encoding (spelling), and reading fluency, while reinforcing language acquisition. By incorporating OG into small-group and targeted instruction, the school will ensure that all learners, especially those with diverse needs, are given equitable access to the tools they need to become successful, confident readers. In alignment with the New York State Next Generation Learning Standards, the OG approach will help ensure that all students are equipped with strong foundational reading skills, particularly in phonemic awareness, decoding, fluency, vocabulary, and spelling. Teachers will deliver OG-aligned lessons in small-group settings, where instruction can be closely matched to students' specific literacy needs, as identified through formative assessments, i-Ready data, and MTSS referral processes.

Our science and sustainability coordinator uses Amplify Science, for grades K-5. Amplify Science aligns to the Next Generation Learning Standards by blending hands-on investigations, literacy-rich activities, and interactive digital tools to empower students to think, read, write, and argue like real scientists and engineers. Each unit of Amplify Science engages students in a relevant, real-world problem where they investigate scientific phenomena, engage in collaboration and discussion, and develop models or explanations in order to arrive at solutions. Students are: introduced to a phenomenon and a related problem, provided opportunities to collect evidence from multiple sources (digital, text, simulations, hands-on, and observations), build increasingly complex explanations, and apply knowledge to solve a different problem. Students are taught through a multimodal approach, which allows students to experience learning in a variety of ways to create diverse learning styles. All Amplify units, chapters, and lessons are grounded in the Do, Talk, Read, Write, Visualize approach. PBL is integrated into each unit. Students are exposed to a real world phenomena and investigate this phenomena throughout the unit using hands-on activities, multimedia resources, research, field trips, discourse, and writing to apply their learning and solve a similar real world problem. Students show their learning by creating models, visuals, and writing pieces. After completing a project, students present their projects to other students and/or parents and peer assess and self-assess their work. Students not only understand content more deeply but also learn how to take responsibility, build confidence, solve problems, work collaboratively, communicate ideas, and be creative innovators. Project based learning aligns with and allows for students to strengthen their Science and Engineering practices. Amplify Science allows project based learning to

be taught through a 3 dimensional approach, with a broad range of experiences. 3-D learning engages students, allows them to build their science and engineering practices, and apply cross-cutting concepts to develop understanding and solve challenging problems connected to disciplinary core ideas. Students will be: Asking questions (for science) and defining problems (for engineering) Developing and using models Planning and carrying out investigations Analyzing and interpreting data Using mathematics and computational thinking Constructing explanations (for science) and designing solutions (for engineering) Engaging in arguments from evidence Obtaining, evaluating, and communicating information Amplify Science is designed with diversity and equity in mind. They believe “diversity in the science and engineering classroom is an asset. It offers countless opportunities for creativity and innovation and opens the door to multiple perspectives and cross-cultural understanding.” With this belief in mind they have designed the curriculum to provide quality and supportive materials for teachers so that every student regardless of their background, where they live, the language they speak at home, or their learning characteristics — has access to and benefits from deep and engaging science and engineering learning opportunities. Two overarching conceptual frameworks informed Amplify Science’s approach to ensuring access and equity for all students: Universal Design for Learning and Culturally and Linguistically Responsive Teaching. This year our STEM program has been integrated with Social Emotional Learning and a focus on the CASEL competencies. Students will be provided opportunities to strengthen their self-awareness, self-management, social awareness, relationship skills, and responsible decision making. All units have integrated the HEART Curriculum, everyday circle cards, Humane Education Resource Guide, Kindness for all guide, and the Mood Meter.

Students will have multiple times throughout a unit to revisit and enhance social emotional skills. Unit PBL/ projects have been modified to allow for students to use their social emotional learning when solving real world problems particularly in the areas of social awareness, relationship skills, and responsible decision making. Amplify Science- Supporting Students with other Abilities (SWDs) and Multilingual Learners Amplify Science provides multiple supports to meet the needs of all learners, and includes multiple access points for students throughout the unit. Amplify Science aligns to Hallmark 4 of Advance Literacy in studying a small set of high utility words. Amplify Science understands that language development involves understanding the meanings of words and phrases heard or read, as well as using those words and phrases to communicate effectively in speech or writing. Students are provided repeated opportunities to develop strategies for learning academic vocabulary through the use of instructional strategies and supports to help students establish connections and develop their knowledge of content specific language. Students are provided word relationship activities, repeated exposure to content specific vocabulary through texts, videos, and hands on activities. Amplify Science provides multiple supports to meet the needs of all learners, and includes multiple access points for students throughout the unit. Students are provided digital texts, print materials, videos, picture supports, language stems/frames, and multilingual glossary. Each unit of Amplify science has a differentiation section in the lesson brief for each lesson. This section provides embedded supports for diverse learners and tools for differentiation, as well as specific differentiation strategies for English Learners. These sections are tailored to each lesson. Students are provided a multimodal approach. A Multimodal learning approach teaches concepts using multiple modes to provide information to students including but not limited to the sue of pictures, texts, modeling, hands on activities, and videos. Monitoring Student Learning All students will engage in formal and informal assessment opportunities to demonstrate understanding and for teachers to gather information throughout the unit. Students have the opportunity to take a Pre-Unit / End of unit Assessment for every unit. The pre-unit assessment is an opportunity for students to articulate their initial ideas and understanding about the unit topic. It allows for teachers to see what concepts students already understand and what misconceptions the students have. The end of unit assessment will be graded with the end of unit rubric. The end of unit assessment written explanations show each student’s level of understanding of the core concepts from the unit, as well as provide evidence of growth over time when compared with their pre-unit assessments. In each grade, there are multiple opportunities to monitor student progress through the use of the Critical Juncture assessments and On the Fly assessments. Critical Juncture assessments signify points in the unit at which it is especially important that all students understand the content before continuing. They are designed to provide formative information about the actual level at which each student understands the content by the end of each of the lessons indicated. Each Critical Juncture Assessment includes specific suggestions for how to tailor instructional opportunities so they are targeted to a student’s current level of understanding. On the Fly assessments are quick checks for understanding designed to help the teacher monitor and support students’ progress throughout the unit.

On-the-Fly Assessments are provided for nearly every lesson. Each On-the-Fly Assessment indicates the specific concepts and practices to look for (or listen for) as students engage with the learning experiences, followed by suggestions to the teacher of what to do, based on what was observed. These formative assessments are embedded in the instruction and do not require formal scoring of students' work. Students should have a STEM folder that highlights their work. In their folders students should have the opportunity to include: Samples of work from key learning areas Writing samples Investigation pages Student self-reflections Photographs of work Pre and End of unit assessments Final Projects Social Studies How do we teach Social Studies at P.S.456 -Historically Responsive Literacy Framework For the 2025-2026 school year, as per 2025-2026 school year, we will continue to use the Passports to Social Studies program in kindergarten through fifth grade. Our Social Studies curriculum has been enhanced in order to not only include the Passports to Social Studies curriculum, , and 4Rs curriculum, but we have also integrated the equity framework from Cultivating Genius named the Historically Responsive Literacy (HRL) Framework by Dr. Gholdy Muhammad, which addresses students' Identities, Skills, Intellect, Criticality, and Joy. The Passports to Social Studies program aligns to the NYC Social Studies Scope & Sequence and integrates the New York State Social Studies Framework to support effective and engaging social studies teaching and learning. Most importantly, students use rich content, themes, and big ideas to learn history, geography, economics, civics, citizenship, and government. They also use important skills to "think like historians." The Passports to Social Studies program units of study are guided by an essential question. The essential question is multi-faceted and is designed for open discussion and interpretation and can be applied beyond the content of one specific unit. Each lesson from the Passports to Social Studies program and Civics for All is guided by a focus question to direct students on developing the relevant skills, practices, and knowledge objectives that lead to historical understanding. Students are challenged to think like historians and encouraged to raise questions, think critically, consider many perspectives, and gather evidence in support of their interpretations through the practice of chronological processing, decision-making, and historical research and analysis. The Historically Responsive Literacy (HRL) Framework from Cultivating Genius by Dr. Gholdy Muhammad is a universal teaching and learning model that helps teachers cultivate the genius within students and within themselves and teach in ways that create space for mutual empowerment, confidence, and self-reliance. The Historically Responsive Literacy (HRL) Framework is an equity framework that believes every time children of color come together to read, write, think, and learn, they are making sense of who they are through Identity, developing their proficiencies in the content they are learning within through Skills, becoming smarter about something or gaining new knowledge and concepts in the world through Intellect, and developing the ability to read texts to understand power, authority and anti-oppression through Criticality.

These five goals or pursuits are connected to the body of literacy research on cognitive and sociocultural perspectives of literacy development and what youth need to attain personal and academic success: Identity: It is composed of who we are, who others say we are, and who we desire to be. Youth need opportunities in school to explore multiple facets of selfhood, but also learn about the identities of others who may differ. Knowing about the cultures of other people teaches them how to respect, love, and live in harmony with others who don't look or know the world as they do. As an educator, ask yourself, "How will my instruction help students to learn something about themselves and/or about others?" Skills: It is essential for today's youth to read, write, and think about diverse sets of literature in multimodal forms in order to develop their literacy skills. It is important that students develop the skills necessary in not only literacy but in all content areas. In particular, the skill of writing development should be cultivated in each content area because it entails the act of reading something, thinking about the content, considering new ideas to set on paper, and then communicating those words to an intended audience. Skills give across areas of learning students access and tools for education. As an educator, ask yourself, "How will my instruction build students' skills for the content area?" Intellect: Intellect or knowledge is what we learn or understand about various topics, concepts, and paradigms. Through the pursuit of Identity and Skills, the possibility is created for Intellect, and when students develop intellectualism, they can express their ideas, work through justice-centered solutions to the world's problems and expand their mental capacities. Intellect is not only about academics, but also emotional intelligence and self-and social awareness. As an educator, ask yourself, "How will my instruction build students' knowledge and mental powers?" Criticality: It is the capacity to read, write, and think in ways of understanding how power, privilege, social justice, equity, and oppression operate throughout society particularly for populations who have been historically marginalized in the world. It enables students to question both the world and texts within it to better understand the truth in history, power, and equity. Teaching criticality

humanizes instruction and makes it more compassionate. It begins to give students the tools they need to respond to injustice in and around schools and to tell the difference between facts and truths. As an educator, ask yourself, “How will my instruction engage students’ thinking about power and equity and the disruption of oppression?” Joy: This is another aspect of the framework because it’s essential to maintain one’s journey. All the pursuits are collaborative and encourage others to participate. When we offer a variety of subjects to excite students’ interest, bring joy and pleasure from reading, and stimulate their minds to think and debate about significant issues, we create an environment that affords students the opportunity to shape their own ideas through acts of literacy. It is our job as educators to not just teach skills, but teach students to know, validate, & celebrate who they are. As an educator, ask yourself, “How am I elevating beauty in humanity?” By implementing Passports to Social Studies, 4R's, and the Historically Responsive Literacy (HRL) Framework we will prepare our students to be productive citizens of a global community and to nurture and promote global awareness. For our students to be globally aware citizens, students must understand and be able to: connect the local and the global, understanding of how the actions of people around the planet have an economic, technological, and cultural influence on all peoples of the world. participate in local and global economies. be open-minded, especially in understanding one’s own cultural lens as well as others’ distinct cultural lenses. celebrate similarities among different groups of people. understand and respect peoples’ differences. use electronic technologies in order to research people and cultures in every world region. understand the importance of cross-cultural communication, both within the United States and across borders. recognize and reduce stereotypes and prejudices. have compassion for all peoples of the world. assume responsibility for the ways in which they process information and read the world with a critical eye, refusing to accept unexamined information as factual or truth. As students engage in historical explorations, global perspectives, historical literacies, and cultural studies, they will be able to deepen their connections and strengthen their personal social emotional skills in the areas of self-awareness, self-management, social awareness, relationships skills, and responsible decision making. This year Social Studies units of study maps will continue to have an essential question along with a social emotional focus question aligned to the content as well as SEL competency. Students will have multiple opportunities throughout a unit to revisit and enhance social emotional skills using complimentary lessons from 4Rs. Students with disabilities must be provided testing accommodations as per the IEP/504 when teachers administer classroom assessments. Topic Tickets - Grades 1-2 A Topic Ticket replaces the Exit Ticket in the final lesson of each topic. Topic Tickets are short sets of items that assess proficiency with the major concepts and skills from the topic. Many items allow students to show evidence of one or more of the Standards for Mathematical Practice (MPs). You may use the Standards and Achievement Descriptors at a Glance charts to find which MPs you may be more likely to see from your students on a given assessment item in relation to the content that is assessed. For example, you may be likely to see evidence of MP1, MP2, MP4, MP5, and MP6 on Module 1 Topic A Quiz as those are the MPs explicitly identified in the lessons of that topic. Students complete Topic Tickets independently, with directions or problems read aloud as necessary. You may find it useful to score Topic Tickets and analyze the data to progress monitor region. understand the importance of cross-cultural communication, both within the United States and across borders. recognize and reduce stereotypes and prejudices. have compassion for all peoples of the world. assume responsibility for the ways in which they process information and read the world with a critical eye, refusing to accept unexamined information as factual or truth. This school year Passports to Social Studies and Civics for All has been integrated with Social Emotional CASEL Competencies. As students engage in historical explorations, global perspectives, historical literacies, and cultural studies, they will be able to deepen their connections and strengthen their personal social emotional skills in the areas of self-awareness, self-management, social awareness, relationships skills, and responsible decision making. This year Social Studies units of study maps will continue to have an essential question along with a social emotional focus question aligned to the content as well as SEL competency. Mathematics Assessments All illustrative math are considered formative because they are intended to inform instruction. The assessments may also be considered summative when you choose to use the data to produce a grade or report. On its own, a single assessment does not show a complete picture of student progress. For example, a short assessment might use a single question to assess student understanding of part of a standard, thus producing a limited perspective. Use a combination of observational and scored assessments to understand and report on overall student performance. The following images show the various assessments that are included in the illustrative math core curriculum. As the images suggest: Exit Tickets are designed for use at the end of each lesson. A Topic Ticket or Topic Quiz replaces the Exit Ticket in the final lesson of each topic. Make intentional choices about when to give Topic Tickets. You might give

them right after teaching the lessons in the topic or wait a day or two as students internalize their recent learning. The Module Assessment is typically given when module instruction is complete. Exit Tickets - Grades 1-5 Exit Tickets are short assessments that close lessons. These assessments use at least one problem or question to assess whether a student has learned the basic skills and concepts needed for success in upcoming lessons. Items reflect the minimum that students must demonstrate to meet the lesson objective. In a typical classroom, most students with basic understanding can finish within 3–5 minutes. In some settings, honoring the timeframe is more important than requiring students to finish. For example, a student's inability to finish within 5 minutes may be valuable information. In other settings, you may extend the time to allow all students to finish as appropriate. Students with disabilities must be provided testing accommodations as per the IEP/504 when teachers administer classroom assessments. Module Assessments - Grade K Typical Module Assessments consist of 3–5 interview-style items that assess proficiency with the major concepts, skills, and applications taught in the module. Module Assessments represent the most important content, but they may not assess all the strategies and standards taught in the module. Module Assessments provide suggested language for the interview-style items. As needed, and if possible, consider assessing students in their home language. When students are unable to answer or they respond incorrectly to the first few questions, end the assessment, and retry after more instruction. Students with disabilities must be provided testing accommodations as per the IEP/504 when teachers administer classroom assessments. You may find it useful to grade Module Assessments and analyze the data to progress monitor your students proficiency with major concepts and skills from the topic.. Module Assessments - Grades 1- 5 Typical Module Assessments consist of 6–10 items that assess proficiency with the major concepts, skills, and applications taught in the module. Module Assessments represent the most important content, but they may not assess all the strategies and standards taught in the module. Many items allow students to show evidence of one or more of the MPs. You may use the Standards and Achievement Descriptors at a Glance charts to find which MPs you may be more likely to see from your students on a given assessment item in relation to the content (AD) that is assessed. Students complete Module Assessments independently, with directions or problems read aloud as necessary. Students with disabilities must be provided testing accommodations as per the IEP/504 when teachers administer classroom assessments. Module Assessments take up to one class period to complete in a typical setting. You may find it useful to grade Module Assessments and analyze the data to progress monitor your students proficiency with major concepts and skills from the topic.

b. SIFE

To support the equitable and inclusive instruction of our SIFE students instructional supports include:
• Academic Intervention Services during the day
• Home Language Intervention and support
• New Language Intervention for students that scored Entering or Emerging in NYSESLAT/NYSITELL for grades 1-5
• Use tabletop Minilessons to support language development and language acquisition and use in listening, speaking, reading, writing, and collaborative problem-solving.

They are provided with multiple embedded supports to meet their learning needs, including multiple access points, as well as scaffolded differentiation strategies and learning throughout the HMH Modules in the Reading and Writing curriculum. They are provided with carefully selected, content-rich text sets to help them build topic knowledge and reading skills, digital texts, videos, graphic organizers, picture supports, language stems, sentence frames, multilingual glossary, and lists of cognates. Scaffold talking and writing about a text by providing word banks, sentence stems, and sentence frames. They are provided word relationship activities, repeated exposure to content specific vocabulary through texts, videos, and experiential learning. The student is also provided repeated opportunities to develop strategies for learning academic vocabulary through the use of instructional strategies and supports to help them establish connections and develop their knowledge of content specific vocabulary.

• Integrating the Edwards Orton-Gillingham approach helps SIFE students build foundational literacy skills, especially when combined with strategies that support language development and background gaps.

• Rosetta Stone is used as a supplemental tool for supporting SIFE students to build oral language, listening comprehension, and everyday vocabulary. It plays a valuable role in language acquisition and confidence-building for newcomers with limited or interrupted schooling.

c. Newcomers

During the intake process newcomers and their families are given a tour of the school. Parent coordinators meet with parents and share community resources and assess the needs the families may have so we can address their need of support. When a newcomer first arrives in the classroom, they are partnered strategically with a learning partner that will support his/hers/their transition. They help them get familiar with our building as well as the classroom flow of the day and student resources. Newcomers students receive instructional support in the program they are enrolled in: ENL or dual language. Additionally, they are invited to participate in our English language arts after school program designed to develop vocabulary and address early reading strategies. They are also invited to participate in our weekend program focused on developing scaffolding strategies and vocabulary focus. Additionally, we also invite them to participate in our immigrant-newcomers theater after school program where they can explore the arts as they develop their understanding of the English language.

Instructional support for ELLs that are newly arrived include:

•Curriculum Compacting (providing instruction based on literacy level instead of grade) for a six week cycle
• Academic Intervention
• School Wide Enrichment grades K-5
• Students will receive small group instruction reading support in both, the new and the home languages Language
• New Language Intervention for students that scored Entering or Emerging in NYSESLAT/NYSITELL for grades 1-5

d. Long Term ELLs

Our school is new (opened in SY 24-25) and currently serves only First Grade students. Given that compulsory education begins at age six in New York State, and most of our students attend kindergarten, we do not currently have students identified as SIFE (Students with Inconsistent/Interrupted Formal Education).

However, as our school grows one grade level per year (reaching the grades where SIFE students are more commonly identified in approximately four years), we are using this time to proactively plan and build staff capacity.

Our current instructional approach is already built upon best practices that will benefit all emerging bilingual students and prepare us for SIFE students in the future:
Oral Language Development- Strong focus on speaking and listening (Standard 1 of the WIDA ELD Standards) builds the communicative foundation essential for SIFE students.
Explicit Literacy Skills- Systematic instruction in phonological awareness, phonics, and print concepts in 1st grade ensures teachers are skilled in the foundational literacy necessary for SIFE students who may lack those skills.
Visual and Kinesthetic Learning- Utilizing Total Physical Response (TPR), manipulatives, and realia (real objects) to teach content now creates a teaching methodology that reduces the language barrier for future SIFE students.
Establishing Academic Routines- Teaching clear classroom expectations, organizational skills, and group work procedures now establishes consistent instructional practices that are critical for SIFE students to feel safe and succeed later.

5. What supports does your school provide to ELLs with IEPs to achieve their IEP goals and attain English language proficiency within the least restrictive environment?

The first and most important step to promoting the academic growth of our ELL's with IEP's is by promoting a growth mindset among our staff and students. Without first developing the belief that these students can and will achieve their IEP goals any other curricular, instructional, and scheduling modifications are viewed pejoratively rather than restorative and necessary actions that promote equity and access to our most vulnerable student population. The IEP's of our differently abled ELL's are written by classroom teachers and service providers with the guidance of an IEP teacher and finalized by the assistant principal in charge of SWD's. By engaging a team of educators in writing these IEP's, each student's goals, recommendations, task, assessment and testing modifications are developed holistically and collaboratively, ensuring that each IEP is inclusive and reflective of the whole child including their social, emotional, physical, linguistic and academic needs. Once the IEP is in place, the student's needs are clearly communicated to service providers, cluster teachers and other staff as necessary. Every effort is made to educate the student in the least restrictive environment and maintain the same level of quality and rigor as our students without IEP's. We accomplish this by maintaining a level of flexibility when it comes to programming, task modification, and lesson delivery. One example is that our paraprofessionals are present for many of the same professional development sessions our teachers attend; this allows them to fully engage their students with an expectation for the same level of academic excellence as the classroom teacher. Additionally, the testing accommodations written in the IEP's are considered when creating formative and summative assessments throughout the school year. These testing accommodations are also reflected in both formal and informal task modification in each content area. Furthermore, our ELL's with IEP's receive all the same technological and instructional supports as our ELL's without IEP's, this ensures that no matter the environment, we are enabling our students with the skills, strategies, and knowledge to achieve their IEP goals and English language proficiency.

6. How is home language assessed in each program model (DLBE, TBE, and ENL)?

The ELLs that are identified as in need of related services receive them as prescribed by their Individualized Educational Plan (IEP). Those students that do not have an IEP are reviewed by the Response to Intervention Team (RTI), where an educational action plan is developed based on age, grade, and proficiency levels. The action plans are reviewed every 6 weeks to determine its success and to create any necessary revisions. Home language support is provided throughout the day during content areas such science, social studies and mathematics. Teachers provide support through the analysis of their language proficiency levels and through the home language arts progression to provide the proper scaffolds. We support our ELLs with specific materials to support second language acquisition. We all follow the SIOP model. All Dual language and ENL classes in grades K-5 use Rosetta Stones, and Raz Kids. Curriculum materials such as maps, charts, posters, and videos are available in English as well as in other languages. Manipulatives for mathematics and science instruction are also used. In addition, our SETSS teacher uses SPIRE for intervention to support our ELLS during one-to-one intervention in English.

All classrooms have:
- Culturally responsive classroom libraries that include books and other printed materials
- Word Wall with pictures in the lower grades and content vocabulary with pictures in all grades
- Multilingual and multicultural libraries
- Listening Centers
- Strategy and language charts related to current unit of study in Reading, Writing and Math
- Charts modeling language usage
- Flow of the Day with pictures

In addition, all classrooms are equipped with Smart Boards and Document cameras to enhance visual aspects of learning for ELLs. Home language support is offered to our Dual Language and ENL students throughout the day

through the curriculum, materials and interventions. Dual Language teachers support home language development by teaching literacy in the home language. Home language support is provided through all components of the Science of Reading. The Dual Language program hires teachers who are home language speakers or fluent speakers to reinforce ELLs mastery of their first language. All students, starting in Kindergarten, take books home in the home language to read independently. Our ENL teachers support home language development by providing books in home language for students to take home and read with their families. Home language dictionaries, glossaries and text books are also in every classroom. We strongly believe in respecting and recognizing the importance of language and culture and are fully committed to preparing our students to become citizens of the world. Students are taught according to their age and grade level. All ELL students receive required services and resources corresponding to their age, grade level and proficiency level.

7. (For grades 6-12 only) What language electives are offered to MLs/ELLs? How is your school preparing MLs/ELLs to obtain the New York State Seal of Biliteracy?

n/a

8. Describe systems and structures for supporting co-teaching and collaboration among teachers for all ELL program models available at your school (e.g. integrated co-teaching, Dual Language Bilingual Education teacher partnerships, etc.).

Our Dual Language teacher is partnered with several Dual Language teachers in a variety of schools for intervisitation and support. There is also the support of the district and additional PD outside of school.

9. Describe how your overall, annual professional learning plan ensures that all staff – including administrators, teachers and -non-pedagogical staff – incorporates learning specifically related to the academic and social emotional needs of MLs/ELLs. Professional learning topics might include co-teaching strategies, or integrating language and content instruction.

PL topics ensure that all teachers get what they need. The topics include social emotional learning, race and equity, language learning, unpacking curriculum, and opportunities to attend outside PD.

10. Describe your school's professional development plan in order to meet the mandated Continuing Teacher and Leader Education (CTLE) ELL specific hours for certification renewal as per CR Part 154 (15% of total hours for all certified faculty [holders of professional certificates in the classroom teaching service, educational leadership service and level III teaching assistant certificate holders] and 50% of total hours for bilingual education/ENL teachers receive ELL-specific professional development).

At the beginning of the school year, P.S.456's principal analyzes the MOSL data, as well as, the overall rating of teachers to identify the professional development needs of the staff for the school year. Additionally, we use the results of the NYSESLAT and previous year's assessments to reflect on the students' scores and the support teachers are going to need to improve their teaching practice to effectively target instruction and supports for our English language learners at P.S.456. Additionally, during the Initial Planning Conferences, administrators discuss all data (students' and teacher's) with each teacher and work on identifying priority areas of improvement together.

Finally, our Professional Development committee works with the staff and administration to align professional development sessions with the ELL language development needs of our school. The professional development committee meets and makes recommendations regarding professional development for the teachers to the Principal, together we ensure that the focus of the professional development teachers receive at P.S.456 is in accordance with the CR-Part 154 requirements {15% ELL-Specific professional development sessions for all teachers and 50% Ell-specific professional development session for all ENL/Bilingual teachers). The Professional development plan (including agenda and attendance) is in the Principal's office and is revised monthly to adjust the sessions to the needs of our school. To ensure that we meet the requirements of CR Part 154.2, we document all professional development sessions and instructional support provided through agendas and attendance. Specific activities include training workshops in and out of school building, lunch and learns, grade meetings and staff meetings are all geared to provide ELL language support. All notes are forwarded to all teachers. Records will be kept in the Principal's office.

Assessment

SCREENERS

11. Which screening assessments (e.g.iReady, MAP Growth, Acadience, or STAR Reading) does your school use to guide instructional planning for your ELLs?

Acadience

12. For all grades, list and describe your targeted intervention programs for ELLs in ELA, Math, and other core content areas (specify ELL subgroups targeted). Include the language(s) in which the intervention services are offered.

We only have Kindergarten. We have 1 ELL student. Our ELL is in a targeted intervention group for ELA only. He is repeating Kindergarten as only had 2/3 of the school year in K last year.

P.S.456 will be administering Acadience Reading and Math Screener for grades K-1. P.S.456 will continue also continue to use CORE, ECLASS and Illustrative Math assessments for grades K & 1st grade. Considerations will be made to assess them using EOG summative assessments or Acadience. In addition to the annual data provided by the NYSESLAT, our school collects data on a daily, weekly and monthly basis, both formally and informally. Conference notes from small group instruction and whole group checks for understanding. Module pre and post assessments in Math, and end of module assessments in ELA end of module assessments also provide a complex picture of a student's needs on a month to month or biweekly basis. At the end of each module, students complete a formal writing task that serves as a summative assessment. Grade-Level Writing genres by module vary, but include: Narrative (personal narrative, story retell, fiction), Informative/Explanatory (how-to, research report, explanatory paragraph), Opinion/Argumentative (opinion letters, persuasive essays). These writing tasks measure how well students apply writing skills taught throughout the module (e.g., structure, content development, grammar, and conventions). After these summative assessments we provide staff with time to examine student work using rubrics that provide teachers with concrete data about their student’s strengths and areas for improvement. By facilitating teacher to teacher, grade level, and content area collaboration and data analysis on a monthly basis we have been able to guide instructional planning and specialized Tier 1 interventions for our ELL’s of every language proficiency. We firmly believe that collaboration is the key to quality curriculum alignment and modification; often our teachers find that there are similar subgroups of student needs across classrooms and by pooling time and resources, all those diverse needs can be met in real time. These deep dives into skills and strategies assessments allow administration the opportunity to reallocate resources such as instructional coaches, Tier 2 and Tier 3 interventions and other instructional supports (eg. before and after school programs) . Furthermore these benchmark assessments and progress monitoring provide specific data and next steps for the in-house instructional coaches, MTSS and SETTS teachers who assist in Tier 2 and Tier 3 interventions so that they can collaborate with classroom teachers to hit the ground running.

13. For all grades, describe how your school uses data to guide instruction for ELLs within a Multi-Tiered System of Supports (MTSS). Refer to the Instructional Leadership Tool for MLs and ELLs and MTSS Guide for MLs and ELLs to help in the development and implementation of your school's plan for MLs/ELLs.

We used the initial acadience assessment to make our original groups along with teacher observations. The progress of students is monitored regularly to ensure progress is being made.

FORMATIVE

14. Which formative assessments (e.g. NYC performance Tasks, ELL Periodic Assessment, HLA Assessment, DRA, teacher-created assessments, etc.) are used to inform and drive instruction?

Acadience, FUNdations, Heggerty, HMH

15. How do you ensure that MLs/ELLs are appropriately evaluated in their home languages throughout the year?

This is our first school year. On any test that is needed to be given to our ELL student in the home language, we provide it.

SUMMATIVE

16. Which summative assessments (e.g. NYSESLAT, ELA, Math, Regents, etc.) are used to evaluate the effectiveness of your ML/ELL programs and how does it inform instructional design and curricular decisions? (Refer to the ELL Data Analysis Tool).

We will administer the NYSESLAT to our ELL student in the spring.

17. What is your NYSESLAT administration plan? How does your school ensure that all ELLs are tested with the NYSESLAT annually? Include the titles of the staff that will administer and score the assessment. Please describe your plan to ensure that all ELLs and former ELLs continue to receive mandated instruction during the testing period.

NYSESLAT administration plan is as follows: we follow the state guidelines and schedule the administration of all sessions as indicated.

The following school staff members will administer and/or score the New York State English as a Second Language Achievement Test (NYSESLAT):

Miarangely Santiago-Jimenez: Teacher
Sally Marana: Teacher

Jennifer Gracia: Special Education Liaison

We will ensure that these staff member get trained as proctors.

All students receive their mandated services during testing because their classroom teachers do not interrupt instruction or delivery of services during the testing sessions.

18. How does your school ensure that current and former ELLs receive necessary accommodations for state assessments, including the Specialized High School Admissions Test (SHSAT) if applicable?

To ensure all current and former ELLs receive necessary and compliant accommodations for state assessments we will:
-Identify and Document Eligibility: determine Eligibility: Ensure all current ELLs and all former ELLs (who are monitored for the first two years after achieving Commanding on the NYSESLAT) are flagged for accommodation eligibility.
-Documentation: Maintain a current record (often via the ATS system) that clearly lists the specific accommodations each eligible student is entitled to receive (e.g., Time Extension, Separate Location, Bilingual Glossary).
-Mandatory Test Administrator Training: Ensure all teachers administering state assessments are trained not only on general security protocols but specifically on the NYS testing accommodations for ELLs (Part 154 regulations).
-Accommodations listed on a student's IEP or 504 Plan are permitted.

Part VI: Family Partnership

Family Partnership

Required Meetings Under CR Part 154

Describe your schools' plan to ensure families of ELLs are provided with the required meetings specified below as per CR Part 154. Include:

- Topics discussed during these meetings
- How your school ensures families receive necessary translation/interpretation supports to meaningfully engage in the meetings
- How your school schedules these meetings to facilitate attendance, and how your school maintains evidence of these meetings as required per the NYC DOE Policy and Reference Guide for MLs/ELLs.

a. ELL Program Orientation to inform parents/guardians of newly identified ELLs of ELL program options, including the program goals and requirements for all three ML/ELL program models: Dual Language Bilingual Education, Transitional Bilingual Education and English as a New Language regardless of whether the school currently has either type of bilingual program and provide a high-quality orientation section on the Next Generation Learning Standards, assessments, and school expectations for English Language Learners.

When parents first come to register their children, P.S.456's registration team—consisting of the principal, a licensed pedagogue, the Parent Coordinator, and a secretary—meets with each family to complete the Home Language Identification Survey (HLIS). In compliance with CR Part 154, this survey is always administered by a licensed and trained pedagogue, who conducts the mandated in-person interview with the parent and student to determine the child's home language and NYSITELL eligibility.

Once the HLIS process is complete, families participate in the required ELL Parent Orientation. During this orientation, the team provides a high-quality overview of:

The ELL program models available (Dual Language Bilingual Education- Gen. Ed & ICT), including each program's goals, instructional model, and benefits. P.S.456 currently offers Dual Language Programs and ENL programs.

Next Generation Learning Standards, expectations for academic progress, and the assessments that monitor English language development (NYSITELL and NYSESLAT).

Language rights, interpretation and translation services, and parent options to select or transfer between ELL program models.

We also share how P.S.456 integrates ELL instruction within its dual-language program to support multilingualism

and academic rigor.

To ensure equitable participation, interpretation and translation are provided in all major school languages (Spanish and English). Documents, surveys, and consent forms are distributed in families' preferred language, as required by DOE policy. When needed, a qualified interpreter/translator—as defined in CR Part 154—is available for additional language support

The orientation takes place in-person when families register and is scheduled flexibly during school hours, with evening and virtual options offered during the year to ensure maximum access. Parents are encouraged to ask questions and review sample bilingual materials.

To maintain evidence of compliance, P.S.456:

Keeps a visitor logbook signed by attending parents.

Maintains agendas and sign-in sheets from each orientation.

Retains copies of translated materials and parent program selection forms in students' cumulative folders.

Uploads documentation of ELL parent meetings into ATS and STARS as part of the annual compliance verification process.

Additionally, the Assistant Principal or Principal meets with each family to confirm placement and enter data in ATS, ensuring the student is enrolled in the appropriate bilingual or ENL program. Families also receive their Parent Notification and Program Agreement Letters in their preferred language and are invited to a follow-up orientation at the beginning of the school year to review program progress and supports.

In summary:
P.S.456 ensures full compliance with CR Part 154 by conducting all required orientations with fidelity—led by licensed pedagogues, supported by interpreters, and documented through signed logs, agendas, and program agreements. These procedures ensure that every family of an ELL is informed, engaged, and meaningfully included in their child's educational journey from the moment of registration.

b. Annual Individual Meeting to discuss goals of the program, language development progress, language proficiency assessment results, and language development needs in all content areas. Note: this meeting is separate from and does not include the mandated ELL program orientation meeting and DOE-scheduled parent-teacher conferences.

We will have one with families in September. This meeting will include school staff necessary to sufficiently inform parents/guardians about their child's language development in all content areas in English and the child's home language for students enrolled in a bilingual education program. This meeting must be conducted with a qualified interpreter/translator in the language or mode of communication the parent or guardian best understands. Any newly admitted ELLs after September we will conduct them on an as needed basis throughout the year. Teachers and the parent coordinator have documentation of the meetings with families along with notes which they have saved electronically.

Family Engagement

2. Beyond the mandated meetings and orientations, describe how your school:
a. Ensures families receive all school communications and documents in the language they best understand. How are families able to respond or initiate communications in languages other than English?

Our school is committed to ensuring effective communication with all families. At P.S.456 we have bilingual/biliterate school staff who are available and who can communicate with families in both English and Spanish when support is needed.

Support for Other Languages For families who require support in a language other than English or Spanish, we utilize the resources provided by the NYC Department of Education's Office of Language Access (OLA).

The OLA supports NYC Public Schools (NYCPS) by providing:

Written translation of documents.

Interpretation services (in-person, virtual, and over-the-phone) for meetings and conversations.

This partnership assists in the development and implementation of a comprehensive approach to effectively engage and communicate with all families, ensuring equitable access to information and support.

b. Develops activities that foster empowerment for families of MLs/ELLs. Include how your school determines the needs of your community.

Our parent coordinator works closely with our families to keep open lines of communication for their needs and empowers them to know we are here to make sure they are served to the fullest capacity. We are building strong, empowering relationships with the families of Multilingual Learners (MLs)/ELLs which is rooted in an asset-based approach, recognizing and utilizing the linguistic, cultural, and experiential capital families bring. Since our school is new and currently only serves from 3K to First Grade, this plan focuses on laying the foundational structure for asset-based family engagement that will scale up as your student body grows.

Our parent coordinator sends out questionnaires to families to ensure that we get formal assessments on what the families need. With this information we have been able to implement some PS456 meetings which are unique to us as a school which spends time doing outdoor learning. Currently we have town sings weekly on Wednesdays where families learn songs that are taught in the child's native language as well as in English. We have recitals where parents are invited to come into the classroom and learn more about what the students are learning in the classroom. Families are invited to: BE Parent Cafe, BE Winter Swap, PTA meetings, SLT meetings. Our parent coordinator also sends out questionnaires to families to ensure that we get formal assessments on what families need.

c. Ensures families of MLs/ELLs are aware of family leadership opportunities (such as Parent Association (PA), School Leadership Team (SLT), Community Education Council (CEC), etc.)

The parent coordinator makes sure all PTA, SLT, and CEC meetings are made known to our ELL family so they know they wanted at each of these governing bodies.

3. What culturally and linguistically responsive partnerships do you currently have that support the needs of your school community?

We are partnered with Brooklyn Arts Exchange and Spellbound Theatre which brings in music and movement for students. We have a family events committee that plans all the school-wide events that incorporate cultural celebrations and sharing for the wider parent community.

Part VII: Additional Information

Additional Information

Include any additional information that is relevant to your LAP and would further explain and highlight how your school supports MLs/ELLs. This form does not allow graphics and charts to be pasted.

All the information has already been provided in the previous sections.

Part VIII: ELL Identification Attestation and Principal Certification

Identification Plan

For additional information, refer to ELL Identification Attestation Professional Learning Module.

1. What are the titles of the members of your ELL identification team? Note: Members of the ELL identification team must be pedagogues.

Sally Maraña - Special Education Bilingual Kindergarten Teacher
Miarangely Santiago - Jimenez - Bilingual Kindergarten Teacher

2. Describe the structures and process in place for identification of ELLs year-round as required by the NYC DOE Policy & Reference Guide for MLs/ELLs, including your school's identification plan for any incoming students with an Individualized Education Plan (IEP). Include:

- **How your school proactively plans for the ELL identification process so that it does not interrupt the provision of mandated ENL and/or bilingual instruction to current, former and potential ELLs,**
- **Who is responsible for each step of the ELL identification process, and**
- **School's plan for ensuring ELLs and former ELLs will continue to receive mandated instruction.**

We do the following things:
- We determine the student's enrollment status and have a teacher on the LPT who is trained administer the Home Language Identification Survey (HLIS)
- the teacher interviews the student and parent to determine the student's home language, including a review of the student's abilities and/or work samples
• the teacher makes a determination of eligibility to take the NYSITELL
• If the student has an IEP, we convene the respective LPT and complete the NYSITELL determination form
• students who are eligible take the NYSITELL
• the Spanish LAB is administered to newly identified ELLs whose home language is Spanish
• the LPT notifies parents and completes the parent orientation in their preferred language
• the student is then placed in an ELL program
We have all components ready so that students have this completed in their first ten enrolled school days

Principal Certification

In accordance with New York State's Commissioner's Regulations Part 154 as outlined and implemented in the NYC DOE Policy and Reference Guide for MLs/ELLs, I, attest that the following ELL identification procedures and activities are adhered to, and staff are trained on the items listed below.

- The ELL Identification Process is completed for each student within 10 school days of enrollment (20 school days for students entering with IEPs).
- Enrollment status of each newly admitted student is determined:
  a. If a student has been in New York State public schools within the past 2 years, our school contacts the previous school to obtain ELL status, relevant assessment scores, and English language proficiency level.
  b. If a student has been outside of New York State public schools for more than 2 years, our school administers the ELL Identification Process as part of reentry.

- The home language of the student is determined by a trained and licensed pedagogue.
  a. The parent completes the Home Language Identification Survey in the parent's preferred language; translation services are provided by a bilingual staff member, the DOE's over-the-phone translation services, or an alternative, high quality translation service.

- An interview with parents and students in English and the home language is conducted. This includes reviewing documents, prior assessments, and academic experience. An assessment of the student's abilities and/or work samples determines the student's literacy and math level in his/her home language.
- Eligibility for the NYSITELL is determined.
  a. If the newly enrolled student is entering with an IEP, the school's Language Proficiency Team (LPT) recommends eligibility to the principal, who obtains final approval from the superintendent.

- Students are administered the NYSITELL, if eligible.
- Notification letters are sent to the parent/guardian in their preferred language.
  a. Parent is notified of their child's ELL status and results of the NYSITELL.

- If the student is identified as an ELL and the student's home language is Spanish, the student is administered the Spanish Language Assessment Battery (LAB).
- Student with Interrupted/Inconsistent Formal Education (SIFE) status is determined using New York State's resources.
- If a student is a newly identified ELL, the parent is invited to the parent orientation meeting.
  a. The parent orientation meeting provides parents/guardians with an explanation of each ELL program model offered in NYC; the parent video describing the three programs is presented (in parent's preferred language); parents/guardians are encouraged to ask questions so that they are

informed about all ELL programs; translation and interpretation services are provided throughout the meeting.

- ELL is placed in the ELL program that the parent selected.
  a. If the bilingual program that the parent selected is not available, the parent is offered a transfer to a school with that bilingual program in accordance with NYC DOE transfer policies.
  b. If the ELL remains in the school, the ELL is placed in English as a New Language and our school keeps track of parent selection so that when minimum thresholds are met, we can open the ELL program of choice.

- Parents are notified that they have 45 days to appeal the ELL status of their child (ELL Re-identification Process).
- If the ELL Re-identification Process is implemented for any student, the principal reviews the decision of any student whose ELL status was changed because of the ELL Re-identification Process within 6 to 12 months.
- Copies of documentation regarding ELL identification, including letters and parent notifications are kept in the students' cumulative files.

Principal Name:

Malika Johnson-Willis

Part IX: LAP Assurances

LAP Assurances Page

For additional information, refer to LAP Assurances Professional Learning Module.

Download a blank LAP assurances page.

LTI Overview and Part A: Designation of a LAC

Chancellor's Regulation A-663 establishes procedures for ensuring that Limited-English-Proficient (LEP) parents of students enrolled in the New York City public schools are provide with a meaningful opportunity to participate in and have access to programs and services critical to their child's education. To this end, schools must review and complete the annual LTI Plan to address its language assistance needs consistent with the requirements of this regulation.

The LTI Plan requires information on the following:

- Name of person designated as the Language Access Coordinator (LAC).
- Identification and assessment of LEP parent population.
- Identification of Critical Communications and standing, in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.
- Plan to ensure staff awareness of language access requirements and available resources.
- Provision of notice to parents on the available language assistance services.

Methods for the school to solicit and implement feedback on its provision of language assistance services.

Office of Language Access (OLA) Contact:

- **Contact Information:**
  - **Cunneely Elena, ECunneely@schools.nyc.gov**
  - **Rivera Ricardo, RRivera60@schools.nyc.gov**
  - **Williams Robert. RWilliams32@schools.nyc.gov**

Please do not edit

Robert Williams

Designation of a LAC
Name of person designated and trained as the LAC.
At the start of each school year, each principal is required to designate at least one staff member to serve as the Language Access Coordinator (LAC), responsible for overseeing language assistance services within the school.

We have pre-populated the following information based on our records. Please confirm that the designated staff member(s) are your school's Galaxy-designated LAC(s) and provide the date(s) they attended the OLA Language Access Coordinator Training. Note that this training is in addition to the mandatory asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform. If any information is missing, please provide the requested details.

As a reminder, LACs are internal staff designations and are not meant to serve as the primary point of contact for families regarding language access-related matters. The Parent Coordinator, or another designated staff member, should remain the main contact for families regarding all issues, including language access.

First Name	Last Name	Title	Date attended OLA Language Access Coordinator Professional Learning Opportunity	Confirmed (Y/N)
Shanita	Smith	Sub Assigned - School Secretary	12/05/2024	

Part B: Parents' Preferred Languages

Parents' Preferred Languages

Language identification and assessment of parent population.

1. Check the resources your school staff uses to identify parents' preferred languages:

,Automate The System (ATS) reports / Next Generation Student Information System (NGSIS),Student Emergency Contact cards,Surveys conducted by your school,Part III of the Home Language Identification Survey (HLIS)

If Other was selected, describe the resource here:

2. We have pre-populated the following information from the Parent's Preferred Language Report (RCPL) in ATS. For the last two columns, please indicate the number of school staff members who are comfortable using their language skills to communicate with parents and regularly assist other staff members and families with translation and/or interpretation. If none, enter "0".

Language (Description within RCPL)	Written Preferred Count	Written Preferred Percentage	Oral Preferred Count	Oral Preferred Percentage	No. of Staff to Help with Written Translation	No. of Staff to Help with Oral Interpretation
ENGLISH	112	95.73%	110	95.65%	12	12
SPANISH	5	4.27%	5	4.35%	4	8

Part C: Parent Communications and Engagement

Parent Communication and Engagement

Identification of written critical communications and in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.

1. List the documents your school typically distributes each year that require translation, along with your plan for translating these documents.

Document Type (e.g. parent flyers, IEPs, etc.)	How do you plan to implement the translation process? Please include procedures and resources to ensure the timely delivery of translated documents to parents.
Letters from Leadership	Staff Member
BE Newsletters	Konstella
Class Newsletter	Class Dojo & Bloomz
PTA Newsletter	Parent

2. List the meetings, both in-person and virtual, that your school typically holds with parents throughout the school year, along with your plans for providing interpretation services at those meetings.

Meeting Type (e.g. parent workshops, PTCs)	How do you plan to offer interpretation services? Please outline the procedures and resources in place to ensure timely access to interpretation for parents.

PTC	Teacher translates
Orientation	Teacher translates
Town Sing	Teacher translates

3. Describe the resources and processes your school will use to communicate with parents who speak a language other than English during an emergency (e.g., lockdown, fire, student attendance, nurse/hospital visit, etc.), or when a parent needs to contact the school in an emergency, ensuring communication is in their preferred language.

We use Gama.

Part D: Staff Awareness

Staff Awareness

Plan to ensure staff awareness of language access requirements and available resources.

1. Describe how your school will ensure that all staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform, and are familiar with the Best Practices for When to Provide Translation of Critical Written Communications to Parents and Best Practices for When to Provide Interpretation for Critical Oral Communications with Parents. Additionally, explain how your Galaxy-designated LAC will disseminate future language access resources and updates to all staff members.

The staff members receive all of their awareness from the school secretary. She attends all of the designated training and shares the expectations and available resources with staff.

Part E: Parental Notification

Parental Notification

Provision of notice to parents on the available language assistance services.

1. Describe how your school will inform parents about available language assistance services in their preferred language. Include any of the following:

- **Translated signage**
- **Brochures, flyers, or letters shared with parents**
- **Parent engagement events where language assistance services are highlighted (e.g., PTA meetings, international parents' night, etc.)**
- **Messaging applications**

- Language Access for NYC Public Schools Families brochure

We have translated signage, brochures, letters, and messaging.

Part F: Monitoring

Monitoring

Methods for soliciting and implementing feedback on language assistance services.

1. In addition to the feedback received from parents via OLA's Translation & Interpretation Feedback Survey, describe the methods your school will use to gather feedback from parents regarding the language assistance services they receive in their preferred language.

We have translation services available a phone call away to support families upon arrival. Our parent coordinator will meet with the family to make sure the know how this family prefers communication orally and written for community engagement.

2. How has your school worked to improve its language assistance services? Share any feedback results and outline your plans for further improvements in the upcoming school year.

Our language assistance services have proved successful.
