Comprehensive Educational Plan Outline

Table of Contents

Main Sections (Customized Based on School Accountability Status):

- Section 1: Overview of Comprehensive Education Planning
- Section 2: School Information
- Section 3: CEP SLT/Stakeholder Signature Page
- Section 4: School Summary
- Section 5: Priority 1 – All students learn to read well
- Section 5: Priority 2 – All students are physically and emotionally safe
- Section 5: Priority 3 – All students have a high-quality academic experience
- Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security
- Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools
- Section 5: Attendance/Chronic Absenteeism
- Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities
- Section 6: Multi-Tiered Systems of Support (MTSS)
- Section 7: Parent and Family Engagement Policy and School-Parent Compact
- Submission Assurances
- Language Allocation Policy Outline
- Part I: School ML/ELL Profile
- Part II: Bilingual Programs
- Part III: ML/ELL Programming
- Part IV: Data Analysis
- Part V: ML/ELL Instruction
- Part VI: Family Partnership
- Part VII: Additional Information
- Part VIII: ELL Identification Attestation and Principal Certification
- Part IX: LAP Assurances
- LTI Overview and Part A: Designation of a LAC
- Part B: Parents' Preferred Languages
- Part C: Parent Communications and Engagement
- Part D: Staff Awareness

- Part E: Parental Notification
- Part F: Monitoring

Appendices (Reflecting Additional Requirements for Specific Groups of Schools):

F

Section 1: Overview of Comprehensive Education Planning

Overview of Comprehensive Education Planning

Comprehensive Education Planning (CEP) is a structured, data-driven process that guides schools in assessing their needs, identifying areas for growth, setting strategic goals and implementing targeted actions to improve student outcomes. Collaboratively developed by the School Leadership Team (SLT) in accordance with the requirements of Chancellor's Regulation A-655, the CEP meets New York State Education Department (NYSED) requirements under the Every Student Succeeds Act (ESSA) and aligns with NYC Public Schools' (NYCPS) system-wide priorities. By engaging all stakeholders—school leaders, teachers, families, students and community members—schools can create a data-informed, equity-focused roadmap for student success and continuous improvement.

Schools should focus their CEP on the five system-wide priorities below, connecting their planning to the data discussions and conversations with stakeholders held as part of the school's needs assessment:

- Priority 1: All students learn to read well
- Priority 2: All students are physically and emotionally safe
- Priority 3: All students have a high-quality academic experience
- Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security
- Priority 5: All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

The Education Planning Process

The CEP follows an equity-driven, continuous improvement cycle, rooted in the system-wide priorities. This begins with a comprehensive needs assessment of the school's most current data to identify priority needs and root causes. Next, the SLT establishes **s**pecific, **m**easurable, **a**ttainable, **r**elevant, and **t**imely—SMART goal(s) aligned to each priority and determines targets to measure progress toward meeting the annual goals.

The SLT and instructional leaders define key evidence-based key strategies, professional learning activities and parent, family and community empowerment efforts. They monitor the implementation of those strategies and activities and track progress through measurable targets. Then, the SLT aligns the school-based budget with human and instructional resources to support action plans.

As schools set goals, develop key strategies, and plan action steps, they provide opportunities for all children to meet NYSED's proficient and advanced levels of student academic achievement. These include evidence based instructional strategies that address the educational needs of historically underserved populations and tackle structural inequities. Schools indicate how the plan addresses the needs of Multilingual/English Language Learners (ML/ELL) through development of the school's Language Allocation Policy (LAP) & Title III Application (if applicable) and the Language Translation and Interpretation (LTI) Plan, that are required as part of the CEP. Schools also address the needs of Students with Disabilities (SWD) through the High Quality Inclusive & Accessible Learning for Students with Disabilities section of the plan. SLTs also develop a plan to improve attendance and reduce chronic absenteeism.

Guidance on Conducting a Comprehensive Needs Assessment

Directions: Conduct a comprehensive needs assessment for each Priority. The information below provides guidance for reviewing and analyzing student and school performance trends to uncover root causes for low student achievement.

1. Review Multiple Data Sources: Use the most current and available information including, but not limited to, the following sources of formative and summative data, as applicable:

- Qualitative and quantitative data, including enrollment and class size trends
- 2024-25 ESSA Accountability Data
- Instructional Leadership Framework (ILF), Supportive Environment Framework (SEF) Inventories, and NYC School Survey results
- Quality Review Reports, NYSED and NYCPS CSI or A/TSI Support Visits, Receivership Quarterly Reports, and Diagnostic Tool for School and District Effectiveness Framework (DTSDE)
- NYC School Quality Guide, Insight, New Visions, NWEA MAP and/or other formative assessment data, IEP Review Survey Data, Progress on IEP Goals Data, Program (SESIS-STARS Linkage) Reports, Mandated (Related) Services Reports, and NYCPS Tools for Understanding Your Data for student subgroup information

2. Analyze Data Trend(s) to Identify Areas of Strength and Need: Identify data trends by grade, cohort, and content area(s) to surface gaps and inequities. Compare data sets to identify instructional and school practices that are impacting student performance. Guiding questions to consider:

- What does the data reveal about improving and declining student performance trends within grades, cohorts, and student subgroups?
- What inequities are evident between highest and lowest performing student subgroups? Which subgroup(s) scored at Level 1 based on NYSED ESSA accountability indicators?
- What does the data suggest regarding the effectiveness (or ineffectiveness) of current school programs, practices, and/or strategies/initiatives? What areas may need to be strengthened?
- Are there any differences in student performance between program delivery models for ML/ELL and SWD? (e.g., for special education: special class, ICT, SETSS, related services only; for ML/ELL: Transitional Bilingual Education (TBE) vs. Dual Language, etc.)
- How does delivery of instruction factor into data trends? What are the implications for teacher quality and professional learning?
- What inequities in special education referral and school disciplinary practices (e.g. suspensions, removals) are evident between student subgroups with IEPs?

3. Identify Root Cause(s): After analyzing the data, engage in a process for uncovering root causes or contributing factors for low student and school performance. Develop theories or hypotheses to explain

why these needs exist and why your school is getting its current outcomes. Root causes could be related to gaps and inequities in areas such as curriculum & instruction, school systems & structures, student support services, school climate & safety, and family & community engagement. Focus on the causes, rather than the symptoms. Use the 5 Whys Method or other methods for identifying root causes. Consider the questions below:

- What theories or hypotheses explain the current student and school outcomes?
- Are there root causes specific to certain subgroups, grades, cohorts, or content area(s)?

Additional resources and supports are available below.

- Use this CEP Needs Assessment Worksheet to help your SLT and stakeholders identify appropriate data sources, data trends, root causes and priority needs.
- For guidance and best practices on engaging stakeholders in a comprehensive needs assessment and root cause analysis, see this deck.
- A current list of all CEP/Title I resources can be found on the iPlan Portal Public Resources Page.

Section 2: School Information

School Information

School Name:

P.S. 316 The Elijah G. Stroud Elementary International Baccalaureate School

Section 3: CEP SLT/Stakeholder Signature Page

School Leadership Team (SLT) Signature Page

All School Leadership Team (SLT) members are expected to sign this page to confirm their participation in the development of this Comprehensive Education Plan (CEP) and that they have been consulted regarding the alignment of the school-based budget to support this school's educational program, which includes annual goals and action plans, Multi-Tiered Systems of Support (MTSS), the Parent and Family Engagement Policy (PFEP) and the School-Parent Compact (SPC). The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with Chancellor's Regulation A-655. The SLT also serves as the Core Community Engagement Team (CET) for Receivership Schools. Additional information and resources are available on the School Leadership Team Resources page. Under the Federal Every Student Succeeds Act (ESSA), NYS Education Law and Commissioner's Regulations, stakeholder participation in the development of the CEP must include multiple constituencies who represent the school community. Note: Stakeholders participating in the development of the CEP who are not listed on the SLT page sign the section below entitled Additional Stakeholder Participation on CEP Development.

Directions: List the names of each SLT member in the first column on the chart below.

- Specify the position and constituent group represented, e.g., parent-PTA, staff-UFT, student. Note: Two student minimum required for high schools; SED requires Middle Schools identified for the CSI/ATSI/TSI support model to have student representation.
- Community Based Organization (CBO), and any position held by the team member. Core mandatory SLT members are indicated by an asterisk*. Note: The Core SLT members also serve as the CET for Receivership schools.
- SLT members should review this document and sign in the Signature If an SLT member does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of SLT member indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.
- Schools may modify their SLT bylaws as needed to address additional school and/or ESSA requirements for stakeholder engagement.

SLT Member Name	Position and Constituent Group Represented	Signature
Karen Weekes	*Principal

Additional Stakeholder Signature Page

Directions: Stakeholders participating in the development of the CEP who are not listed on the SLT page may sign below. Additional stakeholders may include, but not be limited to, school and district leaders, school staff, parents/families/guardians, students, community organizations, additional Core Community Engagement Team (CET) members (if applicable), members of the School Implementation Team (SIT), and/or school-based staff development committee that serves as the Instructional Leadership Team (ILT) tasked to improve instructional practice across the school. Go to NYSED's guidance on Assembling Your Team to learn more.

- List the names of additional stakeholders in the first column on the chart below.
- Specify the individual's position and constituent group represented.
- Stakeholders should review this document and sign in the Signature column. If the stakeholder does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of the additional stakeholders indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.

Section 4: School Summary

Accountability Status

Accountability Status: **LSI**

School Summary

Directions: Complete this CEP Summary to serve as the "at-a-glance" narrative that provides contextual information about your school's unique characteristics. This summary and the entire Comprehensive Education Plan (CEP) should be shared with your school community. Please note that this summary and the CEP will be made available to the public through the iPlan Portal, an online space where school stakeholders can go to collaborate in the development of the school's education plans.

Provide your school's mission statement:

PS 316 Elijah G Stroud Elementary School is an an International Baccalaureate World School. Our Mission Statement is to ensure that children leave P.S. 316 with a set of moral and social-emotional values so that they can make the world a better place. We will do this by encouraging students to be inquisitive, knowledgeable, thoughtful, communicative, principled, open-minded, caring, risk-taking, balanced and reflective. This is accomplished through concept and standards-based inquiry units of study that incorporate all subject areas. Our students are taught in an environment that shows an appreciation and respect for cultures and diversity in our school, in our community, and in the world. We strive to nurture a community of students and adult learners who are internationally minded and show this through their leadership and how they take action. Our students grow in an environment that promotes partnership that exist between the school, family, community and throughout the world.

Develop a narrative summary that includes contextual information about your school's community and its unique/important characteristics and partnerships:

Include demographic information about your school's student population.

PS 316 Elijah G Stroud Elementary is an International Baccalaureate school located in Crown Heights, Brooklyn, NY. The student demographics are 53% Black, 15% Hispanic or Latinx, 15% White, 3% Asian, <1% American Indian, >%Native Hawaiian/Pacific Islander, 3% Multiracial 8%, English language learners 3%, Students with disabilities 15%, 51% Female, Male 49%, Economically Disadvantaged 54%, Homeless 7%.

As an International Baccalaureate School, we use the IB inquiry-based learning is the framework which is implemented school-wide and across all subject areas. The IB emphasis is on developing young people who will create a better and more peaceful world through intercultural understanding and respect. The IB Learner Profile fosters attributes which encourage children to strive to be open-minded, caring, reflective, good communicators, thinkers, etc. such as that are evident throughout the school members. The IB program encourages students to become active, compassionate, lifelong learners who understand that other people, with their differences, can also be right. Students direct their own inquiry which results in a project, often leading to active contributions in the community.

Our goal at PS 316 is to teach young children to be self-directed lifelong learners, critical thinkers, and well-adjusted individuals, prepared to be active citizens who think in terms of both local and global perspectives. We strive to create an environment that helps students find their voices. As an official accredited International Baccalaureate (IB) school, we emphasize a transdisciplinary inquiry-based approach. A goal of all IB Units is to lead to student-initiated action, grounded in their learning during the unit. As a result of the recent increase in visible protests against racial injustices, many of us as a staff have expressed the belief that it is important to address social issues more directly with our students who have witnessed injustices and protests in their lives.

One of our goals is to build individual and collective capacity to collaborate with civic advocacy organizations and to implement actions. We want to expand our students' knowledge and skills. We want them to learn to identify valuable and achievable needs, research them, understand the dynamics of power, develop and implement an action plan, be able to reflecting on its impact, and to make constructive revisions.

A desired outcome would be for our students to acquire a solid foundation of exposure, experience, knowledge, and skills in civics. We want students to develop a sense of belonging in their community and to realize that they have the agency to contribute to the communities that they inhabit, such as the classroom, the school, their family, and their neighborhood community.

Some examples of possible activities that we have considered include participatory budgeting in the school, providing more useful technology and tech support for families, installing solar panels, reducing our school's carbon footprint, sustainable food gardening, partnering with the nursing home across the street, and participating in the Soapbox NYC public speaking event.

Two strands of our Instructional Focus are: 1) to develop our students' social and emotional wellbeing, and 2) deepen our students' cognitive engagement. We aim to foster strong engagement in authentic activities that build awareness of and sense of community into the school experience.

A strong belief among all staff (teachers, administration, paraprofessionals, educational assistants, cafeteria, security, etc.) and families is that we celebrate and support the development of the whole child - socially, emotionally, physically, academically, and cognitively. We want children to want to come to school and to feel they belong there; this is their school. Too often children are discounted or not appreciated for the developing complete human beings that they are. We recognize that building social and emotional skills can empower students' ability to identify and address the inequities experienced by too many of our students and families.

Our school upholds the social emotional competencies in multiple ways. We have a full Mental Health Wellness Center with a social worker, a guidance counselor, a school psychologist, and a mental health counselor who works with individual students and families. We use the PBIS Framework to address behavior instruction in a positive rather than punitive way. We have partnered with the Child Mind Institute on several occasions for staff support and family workshops. We offer five different classroom models: Integrated Co-Teaching, General Education, Spanish-English Dual Language, Gifted and Talented, and the NEST classes for students with Autism Spectrum Disorder. The NEST class teachers receive intensive training in best practices for interacting with students and their successes in creating a positive classroom environment have been adopted by many other classrooms in the school. We believe in helping kids develop a Growth Mindset (the work of Carol Dweck) and also perseverance and grit (the work of Angela Duckworth).

We have determined that an area of growth would be that while we believe social and emotional awareness is embedded throughout the school, we want a stronger, more prominent presence of social and emotional learning, especially after this year of anxiety and disruption caused by the pandemic and unrest due to social and racial injustice. We have currently already begun training to implement a specific curriculum, the Four Pillars of Wellbeing (Mindfulness, Community, Self-Curiosity, and Contentment) from the Contentment Foundation, which is partnered with UC Berkley Social Interaction Lab and Yale Center for Emotional Intelligence. The four pillars overlap the five competency areas of the CASEL SEL Framework (Self-Awareness, Self-Management, Social Awareness, Relationship Skills, and Responsible Decision-Making). It is important for students to learn about the CBT (Cognitive Behavior Therapy) triangle of thoughts, emotions, and behavior. Our thoughts affect our emotions, which affect our behavior. We can learn ways to manage our thoughts and our emotions and our behavior. We do not have to be dominated by them. We can avoid negative behaviors and can learn to recognize what is helpful to us and what is not.

We have confidence that our existing structures in the school can help us achieve our desired outcomes of building student knowledge of and skills in civics, as well as instilling in our students a sense of belonging and a belief in

their own agency to impact their communities.

We have a stable, experienced staff and well-established team routines and protocols. Long-standing teams include the Instructional Leadership Team, the Multi-Tiered System of Supports Team, and a nine-member Book Club currently studying the book Cultivating Genius, by Gholdy Muhammed. We have horizontal teams across each grade to provide consistency and differentiation. Each grade level teacher team is composed of all teachers on a grade along with out-of-classroom subject teachers (such as Art, Music, Drama, Physical Education, Science) that meets on a regular basis to plan curricula, grade-level projects, and events, and to resolve grade-level needs. As a grade, they plan the curricula for the IB units - creating, reflecting on, and revising them throughout the year. We also have a horizontal team, the International Baccalaureate Team with a member from each grade level, Pre-Kindergarten to Fifth Grade, to ensure a unified comprehensive and rich elementary school learning experience. In addition, every grade has a grade leader teacher who oversees the grade communications. We have an exceptionally dedicated and hard-working staff.

Very are very fortunate to have a strong and engaged PTA and SLT – truly partners in nurturing and educating our children. We have long-term partnerships with a variety of community organizations, including Community Word project, Alvin Ailey dance residency, NY Historical Society Artifact exploration, Museum of Contemporary African Diaspora Art, and 826 Writing program.

The school community reflects on the quality of our school culture by monitoring attendance at school events and functions. We also closely analyze results of the annual school survey, when parents and teachers provide extensive feedback about the school. One of the school's shared expectations is that students will know their own learning goals and will strive to meet those goals. This expectation is communicated through Interim Student Progress Reports, which are completed with the student and teacher and shared with parents. Another expectation is the importance of ongoing progress monitoring across all subjects. Professional development sessions offered by consultants from National Training Network, iReady, HMH Into Reading, VTS, Junior Great books support teachers and staff in our educational organization. In addition, Professional Development from our IB Coordinator and staff members target the impact of formative assessments on teaching and on student performance.

Communication with families occurs in multiple ways including DOE Messenger -GAMA, Class Dojo, School Website, and backpack information. As a school we ensure the development of the whole child by integrating the Arts, Music, Drama, Science, STEAM, Project Based Learning, Technology and Social Emotional Learning in the daily academic lives of our students.

Briefly summarize the key initiatives your school will implement this school year.

Class Gaga Math Pilot- To support students in the understanding of Math conceptual understanding, problem solving and math fluency using AI.

Cognimoves

ST Math

Personalized Hydroponic Lab Kits/Hydroponics Lab

What are the primary digital and/or print curricula/programs used for ELA and Math:

Indicate the content area, grade band and any adaptations made.

Math	K-5	Gaga Math	individual remote instruction

Section 5: Priority 1 – All students learn to read well

Priority 1 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Data Source: Acadience Reading Screener 2023- 2024 Based on a review of school-level data from the 2023-2024 Acadience Reading Measures Beginning of Year (BOY), Middle of Year (MOY), and preliminary End of Year (EOY) data, 19% of the students in grades kindergarten, first grade, and second grade are performing at level 1. K-2 MOY Acadience data reveals that there is a slight decrease in the percentage of	An in-depth root cause analysis revealed that students struggle with early literacy acquisition, needing strategic instructional support to meet early literacy reading goals and acquire fluency and comprehension due to insufficient decoding and language comprehension skills. Teachers may not have the foundational knowledge and skills to deliver high-quality instruction in the 5 pillars of early literacy and reading instruction due to the need to implement a coherent, research-based Tier I reading curriculum. Teachers have not received high-quality professional development to strategically teach the 5 pillars of	Strengthen foundational literacy skills.Students in grades K-2 need to acquire basic early literacy skills to master the New York State reading standards to

students performing at level 1. The progress monitoring data points are trending in the right direction with students in grades K-2 acquiring basic early literacy skills, such as: first sound fluency, phoneme segmentation fluency, nonsense word fluency, oral reading fluency, letter name fluency (which is essential for pre-K and kindergarten students as a strong predictor of future reading success). The BOY data revealed that 21% of K-2 students were performing at Level 1; current data shows that 19% are performing at level 1; level 1 is trending down. 17% of kindergarten students are performing at level 1. 23% of first-grade students are performing at level 1. 16% of second grade students are performing at level 1. 69 percent of students overall in grades K through 2 are meeting (level 3) and/or exceeding (level 4) benchmark expectations. However, a further disaggregation of the data reveals that 40% of the K-2 students with IEPs are performing at level 1. 83% of English language learners (ELLs) are performing at level 1.	literacy, specifically to support at-risk students, students with IEPs and ELLS. Teachers have not received comprehensive training, coaching, and support from literacy program providers. Teachers need more time to develop and plan explicit instruction to support students' knowledge and skill development in the 5 literacy areas, with a specific focus on phonemic awareness. Teachers need to create and implement engaging activities to develop students' skills in phonemic awareness and the 5 pillars of literacy. Recognizing the challenges in early literacy acquisition, a shift from the TC Reading and Writing Workshop Model to a more comprehensive, research-based core curriculum is needed. In 2024-2025, aligned with D17, Houghton Mifflin Harcourt (HMH) will be implemented, which, is coherent and closely supports the Haggerty Foundational Skills curriculum (emphasizing systematic phonemic awareness intervention) and Fundations (which is grounded in the Science of Reading). The implementation of a an aligned Tier I curriculum closely coupled with Tier 2 and 3 interventions will support teachers with comprehensively addressing the diverse needs of learners and deepening their knowledge and skills in addressing the explicit teaching of the five pillars of literacy: phonemic awareness, phonics, fluency, vocabulary, and comprehension.	read with fluency and comprehension. K-2 students struggle with skills acquisition in the five pillars of literacy: phonics, phonemic awareness, fluency, vocabulary, and comprehension.
Data Source: iReady Reading 2023-2024 Based on a review of school-level data from the 2023-2024 iReady Reading Beginning of Year (BOY),Middle of Year (MOY), and preliminary End of Year (EOY) data, 19% of General Education students in grades 3-5 are performing at level 1, 27% at level 2, 34% at level 3, and 21% at level 4. A further disaggregation of the data shows that 21% of third-grade students are performing at level 1, 18% of fourth-grade students are performing at level 1, and 17% of fifth-grade students are performing at level 1. While the data shows that the percentage of General Education students overall performing at level 1 in grades 3 through 5 is decreasing, the breakdown for students with IEPs shows that 44% of students with IEPs are performing at	To provide context, as part of an in-depth root cause analysis, grades 3-5 students spent their primary years learning in a virtual setting and in blended models due to the COVID pandemic. As a result, students need more opportunities to strengthen basic literacy skills with an emphasis on skills attainment to achieve grade-level reading proficiency. There is a need for teachers to take a deeper dive into the item skill analysis data from iReady and HMH next generation standards based module assessments to create individual learning plans for students as well as for groups of students. As a team, teachers need to unpack the item skills analysis from the New York State exams to better guide instructional practices. Teachers need to conduct a gap analysis to assess student performance and make modifications to ensure that each student has the necessary support to improve literacy skills. Teacher teams should work in teacher teams to create action plans that are monitored through inquiry cycles to support and progress monitor student work. There is further need for explicit instruction and differentiation of lessons.	3-5 grade-level reading proficiency Students in grades 3-5 need to read with fluency and comprehension, specifically focusing on reading grade level texts across content areas.

level 1 and 67% of English language learners (ELLs) are performing at level 1. 55% of all General Education students tested at (34% at level 3) orabove (21% at level 4) the proficient level for reading.	There is a need for teachers to refer back to the IEPs to inform instructional planning and lesson delivery, progress monitoring of annual goals to assess student mastery of targeted learning goals. Teachers need to implement UDL, ENL and MLL curriculum and strategies to support SWDs, ELLS and sub groups. Further professional development is needed in the new HMH Into Reading Curriculum to support teachers with standards based, lesson implementation, progress monitoring, and ongoing assessment and inquiry cycle based approaches.	

Priority 1

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for literacy outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Literacy

- Implement the strategies outlined in NYC Reads, including foundational phonics curriculum for grades K-2
- Implement dyslexia screening, professional learning, and program pilots (as applicable)
- Support literacy development through the integration of culturally responsive-sustaining texts and content

Priority 1 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	73%	By June, 2026, literacy for all students in grades K-2, will improve, as measured by a 8 percentage points increase, from 73% to 81%, of students scoring at levels 3 and 4 at or above proficency on the Acadience Diagnostic Data.
All Students	79%	By June, 2026, literacy for all students in grade 3-5 will improve, as measured by a 5 percentage points increase, from 79% to 84%, of students scoring level 3 & 4 on NYS ELA Exam.

Priority 1 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 1 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Teachers will provide a daily 30-minute AIS (Academic Intervention Services) period to provide individualized and small group supports and instruction in grades K - 2. Teachers will also provide an additional 30 minutes of daily instruction in the morning before school (Early Bird) to address students who are performing below or approaching grade-level standards.

Root Cause Addressed:

Students need more instructional support in phonics. The daily frequency and dedicated 30 minute time period allows for supplemental instruction in phonics, as guided by Acadience Screener Data.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Administer Acadience Screeners diagnostics to collect baseline BOY data to support with instruction. Provide ongoing inquiry cycles and progress monitor based on BOY, MOY and EOY diagnostic assessments to analyze data, make necessary modifications, and plan for differentiated instruction to meet the needs of students in individual classrooms and across the grades K-2.
Teacher teams will meet weekly to engage in a thoughtful, collaborative data inquiry process focused on analyzing available data from BOY, MOY, and EOY assessments to develop, plan, and implement individual student learning plans to address student learning needs.
Teachers will use curriculum resources to progress monitor students every six to eight weeks and analyze this data to

guide further instructional goals and prioritize students who still require additional supports, in alignment with schoolwide MTSS guidelines.
Teachers will also provide an additional 30 minutes of daily instruction in the morning before school (Early Bird) to address students who are performing below or approaching grade-level standards.
Teachers developed Individualized Learning Plans to address students who are below or approaching grade level. Teachers monitor progress every six to eight weeks and in the beginning and middle of progress cycles.

Key Strategy 2 (Optional):

Teachers will provide a daily 30-minute AIS (Academic Intervention Services) period to provide individualized and small group supports and instruction in grades 3 - 5.

Root Cause Addressed:

Students need more instructional support in reading fluency, vocabulary, and comprehension. The daily frequency and dedicated 30 minute time period allows for supplemental instruction in reading fluency, vocabulary, and comprehension, as guided by iReady Screener Data.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Teacher teams will meet weekly to engage in a thoughtful, collaborative data inquiry process focused on analyzing available data from BOY, MOY, and EOY assessments to develop, plan, and implement individual student learning plans to address student learning needs.
Teachers will attend high-quality professional development to support them with teaching reading comprehension, to help them incorporate research-based practices of literacy instruction in their lesson plans, and to ensure that they can implement the new reading curriculum HMH with fidelity.
Teachers will use curriculum resources to progress monitor students every six weeks and analyze this data to guide further instructional goals and prioritize students who still require additional supports, in alignment with school-wide MTSS guidelines.

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Grades 3-5: The primary structures our school will use to progress monitor implementation of key strategies and action steps include the following: iReady (BOY, MOY, EOY) data will be used to progress monitor. Teachers will meet in grade-level teams weekly to perform data analysis and discuss implications for future instruction. Teachers will identify students to participate in Tier 2 and Tier 3 learning cycles where needed. Teachers will progress monitor students in six week learning/inquiry cycles. Students will be referred to the MTSS team to gain insight in creating a plan of action for students in need of support, as well as next steps if a student is not progressing and may need an IEP. Tier 3 supports will be provided for students performing at least two grade levels below their current grade level for the BOY and MOY diagnostic assessment. Ongoing parent outreach and recommendations will be made throughout the year.

Priority 1 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/15/2025	06/26/2026	In the beginning of the school year, teachers meet with their class parents to outline curriculum programs, objectives, and resources to support their students. As the year progresses, classroom teachers and the parent coordinator will work together to identify and provide additional support to families who need it. Classroom Teachers send home newsletters to inform parents of current units of study and work with the parents of students who require more instructional support, as shown through class assessment and screener data. Parents are encouraged to use the iReady Student Path to provide supplemental support to their child.	Classroom Teachers, Administrators/Administration, Parent Coordinator
09/15/2025	06/26/2026	Teachers will monitor and share iReady student progress to parents, including a breakdown of how to understand the information presented. Updates are provided as students progress through the course of the year	Classroom Teachers, Administrators/Administration, Parent Coordinator

Priority 1 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Teachers, Educational Assistants, Consultants, In-House Coaches, IB Coordinator, NEST Coach, Grade Level Team Leaders, CUNY Reading Corps

Instructional Resources

HMH, IB Units of Study, myON, EPIC, iReady, S.P.I.R.E, Heggerty, iXL, Fundations, VTS, HMH Rigby Readers

Schedule Adjustments

Bulit in 30 minute AIS period. Sixth prep for teacher collaboration

Other Resources Needed

HMH consumables, decodable books, and technology resources. Professional development based on teacher survey shared three times per year. Funding for teacher collaboration outside of the school day.

Section 5: Priority 2 – All students are physically and emotionally safe

Priority 2 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
OORS incidents were significantly higher in September, and October, including a rise in Level 3+ serious incidents	Behavioral expectations may not be effectively re-established after summer break.	Early intervention efforts to re-teach behavioral expectations and increase SEL to reduce OORS incidents after school breaks
NYC School Survey statistics for "Preventing Bullying" is below the district average, but rising, as based on reports from	Lack of visibility of SEL programs for students, and need easier ways to share current moods/temperature Need for structure during recess on the playground Messaging for	Implement a clear, school-wide bullying prevention and response framework. More assemblies + specific respect for all + PBIS initiatives Introducing new programs around emotional control like ruler. includes check-ins before/after transitions Introduce programs like

15% of staff members who answered the survey.	families that we have onsite support - but maybe more focused on bullying	Playworks or CBO programs that introduce more structure in the school yard
NYC School Survey statistics related to respect between students in the classroom (e.g. How many students in your classes... show that they respect each other's ideas?) decreased significantly year-over-year.	Need ways to express self in a constructive way including modeling. Mentoring + modeling from older grades. Need continuous monitoring Need more granularity by class type/grade, etc.	Facilitating inclusive, respectful discussions and implementing school-wide norms for student discourse to promote emotional safety and peer respect.

Priority 2

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for physical and emotional safety** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Physical and Emotional Safety

- Develop safety infrastructure and systems, including staff training, collaboration with external partners, and implementation of safety and security best practices
- Expand social emotional and mental health supports via restorative justice, Project Pivot, screeners, and other district or school-based initiatives (as applicable)
- Expand implementation of physical and mental wellness supports, including Physical and Health Education that meets NYSED requirements and related initiatives
- Improve supports and outcomes for socially vulnerable student populations (Students in Temporary Housing, Students in Foster Care)

Priority 2 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	93 incidents in OORS	By June, 2026, physical and mental wellness for All Students will improve, as measured by a 15% decrease, in Reduce the number of level 3-5 incidents as reported in OORS. The percentage of incidents during recess and in the classroom. from 93 incidents in OORS to 79, per the OORS Reports, NYC School Survey.

Priority 2 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 2 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

By June 2026, reduce the number of Level 3, 4, or 5 OORS incidents by 15%—to 79 incidents—compared to the same period in 2025. This reduction will be achieved through targeted early intervention efforts, with a particular focus on the weeks leading up to the start of school and during the early and mid-fall semesters.

Root Cause Addressed:

Behavioral expectations may not be effectively re-established after summer break, leading to challenges with safe play and conflict resolution. Students will need support in rebuilding skills and strategies for positive interactions.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
At the start of the school year, we'll share our documented behavior expectations with all families. For more details, please see the Parent/Family Handbook, which includes all school rules and policies.
Throughout the school year, staff will engage in professional development on classroom management, social-emotional learning (SEL), and community-building practices, including programs such as Kikori (began in January) and utilizing the Mood Meter (SEL tool).
School will monitor behavior trends, including OORS incidents, and adjust supports as needed (e.g. using the Nest strategies in classes with higher level of incidents and across all classrooms in the school)
Utilize NEST strategies and supports to proactively reduce incidents involving students with sensory needs. Establish

a recess room/game room for students to engage in during indoor recess.
Implement recess rules and routines to engage students in play and build SEL skills.
Box it Out Bullying organizations will be coming into the school building to complete workshops with students.
Administration will meet with the parent body and/or create a voice-over video that walks parents through the OORS self-reporting process. We are also adding the Parent Handbook to the school's website.
Based on survey data, administration will lead parent workshops (MorningSide, Theo) around the topics of bullying and conflict resolution, e.g. the difference between the two, how to report these incidents, timelines for response from the school.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

The school will review OORS reports monthly. The SLT will conduct an in-depth analysis of OORS incident data three times per year—at the beginning, middle, and end of the year. Data will be monitored for patterns related to incident location, time, and severity, and adjustments will be made as needed. The school will strengthen supports through RULER, SEL initiatives, and assemblies as appropriate. Additionally, biweekly SBST meetings will be established to review OORS data, and findings will also be discussed during monthly safety meetings.

Priority 2 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/08/2025	06/26/2026	SEL parent workshops, Guidance Counselors are working with students on safe play routines and creating small groups	SBST, Guidance Counselors

Priority 2 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

CBO, SBST, Teachers, para professionals, family worker, parent coordinator, parents, Guidance Counselors

Instructional Resources

SEL curriculum (Ruler, Brainpower)

Schedule Adjustments

Biweekly meetings with SBST, Bi-monthly Assemblies, PDs during the school day or Afterschool

Other Resources Needed

Curriculum materials, Student Initiatives, Safe Play recess video - PS 316 students, parent volunteers

Section 5: Priority 3 – All students have a high-quality academic experience

Priority 3 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Data Source: New York State ELA exam, iReady Math Grades 3-5 A review of the 2024 NYS Math Assessment data revealed that 25% of students in grades 3-5 scored at levels 1 and 2. iReady Math MOY 2025 data showed the following results for students in grades 3- 5: All Students: 24% level 1 and 37% level 2; 36% level 3 and 3% at	In accordance with research on elementary school teachers, "teacher knowledge and understanding of mathematics, promotes student learning and achievement in mathematics." High-quality, targeted professional development and coaching are necessary. Teachers may lack the deep conceptual understanding of mathematics to stretch students and teach students to achieve mastery at the highest levels in mathematics. Teachers lack consistent, intentional coaching and support with deepening mathematics content knowledge and an understanding of research and evidence-based pedagogical practices in mathematics grades K-5 and	Priority Need: Students in grades K-5 need to meet grade-level benchmarks in mathematics. Students struggle with a conceptual

level 4 Kindergarten: 55% level 1 and 0% level 2; 41% level 3 and 4% level 4 1st Grade: 6% level 1 and 67% level 2; 24% level 3 and 3% level 4 2nd Grade: 20% level 1 and 49% level 2; 29% level 3 and 1 % level 4 3rd Grade: 19% level 1 and 44% level 2; 36% level 3 and 0% level 4 4th Grade: 21% level 1 and 30% level 2; 48% level 3 and 15 level 4 5th Grade: 18% level 1 and 32% level 2; 39% level 3 and 10% level 4 Further disaggregation of student sub-group data revealed the following data results: Students with IEPs: 46% level 1 and 30% level 2; 18% level 3 and 65 level 4 English language Learners (ELLs): 44% level 1 and 39% level 2; 17% level 3 and 0% level 4	opportunities to collaborate on the analysis of data. An in-depth root cause analysis revealed that students did not have sufficient small group instructional learning experiences. An AIS teacher for mathematics is needed for 6-week cycle intervention and skills support. Tracking of attendance of students who scored levels 1 and 2 is required to address chronic absenteeism and the impact on math learning. There is a need to deepen and strengthen the home-school connection and supports to address the diverse needs of students, and to provide parents with workshops on how to introduce math concepts at home beginning at the early grades. Tiered interventions are not organized by skill level, specifically for struggling students, SWDS and ELLs. The demands of student IEPs in terms of related services are not always adequately addressed with precision and collaboration. Progress monitoring has not occurred with a regular rhythm and cadence on a bi-weekly basis when students receive intervention services. An intentional, thoughtful follow up with attendance and progress of students attending the grades 3-5 ELA after-school and Saturday academies have not been established and addressed systematically.	understanding in mathematics, specifically “applying and adapting prior knowledge” and persevering in solving complex math problems through “productive struggle.”

Priority 3

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for high-quality academics** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Academics

- Strengthen mathematics instruction, including via screener administration and Multi-Tiered Systems of Support (MTSS)
- Embed culturally responsive-sustaining texts and content (e.g., Hidden Voices, Black Studies Curriculum, etc.) in history, literature, and arts curricula to deepen civic engagement, enhance understanding of diverse cultures and provide relevant and affirming interventions in literacy development
- Ensure multilingual language learners (MLLs) are served and progressing in appropriate settings; expand bilingual programming and professional learning for educators who support MLLs
- Ensure students with disabilities are served and progressing in the least restrictive and most appropriate settings; improve delivery of mandated services and expand specialized programs
- Ensure that Students in Temporary Housing (STH) and Students in Foster Care access opportunities to receive tutoring and are purposefully engaged in new programs developed in the school
- Elevate health and physical education and activities for a reimagined and engaged student academic experience promoting social, emotional, and physical wellness and wellbeing
- Ensure teachers attend Physical Education and Health Education professional learning in order to provide quality instruction to be able to support and address the physical, mental, social, and emotional needs of the whole child in a safe and supportive learning environment
- Strengthen Early Childhood Education program utilization, quality, and ability to serve all students
- Elevate arts and civics for a reimagined and more engaged student academic experience
- Increase school staff diversity and retention
- Create new programs/schools in response to community need; expand high quality seats

Priority 3 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	75%	P.S. 316 will address Priority 3: All students have a high-quality academic experience with the following SMART Goal: By June 2026, the Percentage of students in grades 3 through 5 scoring at level 3 & 4 on the NYS Math Exam will Increase by 5 percentage points from 75% to 80%.
All Students	23%	<School Name> will address Priority 3: All students have a high-quality academic experience with the following SMART Goal: By June 2026, the percentage of students in grades K through 2 scoring on or above grade level will Increase by 35 percentage points from 23% to 58%, for All Students, as measured by iReady Math Screener Results .

Priority 3 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 3 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Teachers will use ClassGaga, an online math instructional program, to provide individualized support and instruction in grades K - 5.
.
Teachers will provide a daily 30-minute AIS (Academic Intervention Services) period to provide individualized and small group supports and instruction in grades K - 5.

The school will establish and maintain a clearly designed system for student/teacher support through MTSS. This work will be facilitated by the MTSS Team Leads. Meetings will be held bi-weekly.

Root Cause Addressed:

There was a need for daily dedicated time for teachers to engage in supplemental instruction with their students.

There was a need for dedicated meeting time for grade-level teams to meet and discuss data trends and outcomes and discuss implications for future instruction.

Weekly progress monitoring will be maintained for students identified to participate in 6 week inquiry cycles.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Intentional administration of iReady BOY, MOY, and EOY diagnostic. Teacher teams will analyze standards, multiple choice questions, trends and patterns for planning inquiry cycles and the creation of student learning plans.

Bi-weekly progress monitoring will be maintained for students identified to participate in 6 week math inquiry cycles.
Monitor attendance and progress of student attendance in grades 3-5 who attend ELA/Math after-school Academy and Saturday academy to create an alignment between the school day and after school to provided targeted, tired instructional support for students.
MTSS- To establish and maintain a clearly designed system for student/teacher support through MTSS. This work will be facilitated by the MTSS Team leads. Meetings will be held bi-weekly. Teachers will sign up through the MTSS Google Request Form.

Key Strategy 2 (Optional):

Brooklyn College Math Slam - This is a District initiative to bring college students math support directly into the classrooms. They will provide 25 hours of additional math class instruction. They will work in small groups with students and be mentored by the classroom teachers.

District 17 Math Coaching - The DIstrict is sending in a coach to work with Grade 3-5 teachers to provide additional math instructions.

NTN - This is an outside organization that provides planning and instructional support to classroom teachers to improve math instruction and student outcomes.

Root Cause Addressed:

Teachers may lack the deep conceptual understanding of mathematics to stretch students and teach students to achieve mastery at the highest levels in mathematics.

Teachers lack consistent, intentional coaching and support with deepening mathematics content knowledge and an understanding of research and evidence-based pedagogical practices in mathematics grades K-5 and opportunities to collaborate on the analysis of data.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
High-quality professional development and coaching will be provided to teachers and educational assistants by NTN. Teacher self selected math professional development offered by NYCDOE and District 17.

Brooklyn College Math Slam program will send college students to work with classroom teachers and students in small-group math instruction

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Grades K-5: The primary structures our school will use to progress monitor implementation of key strategies and action steps include the following: iReady (BOY, MOY, EOY) data will be used to progress monitor. Teachers will meet in grade-level teams weekly to perform data analysis and discuss implications for future instruction. Teachers will identify students to participate in Tier 2 and Tier 3 learning cycles where needed. Teachers will progress monitor students in six week learning/inquiry cycles. Students will be referred to the MTSS team to gain insight in creating a plan of action for students in need of support, as well as next steps if a student is not progressing and may need an IEP. Tier 3 supports will be provided for students performing at least two grade levels below their current grade level for the BOY and MOY diagnostic assessment. Ongoing parent outreach and recommendations will be made throughout the year.

Priority 3 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/15/2025	06/26/2026	In the beginning of the school year, teachers meet with their class parents to outline curriculum programs, objectives, and resources to support their students. As the year progresses, classroom teachers and the parent coordinator will work together to identify and provide additional support to families who need it. Classroom Teachers send home newsletters to inform parents of current units of study and work with the parents of students who require more instructional support, as shown through class assessment and screener data. Parents are encouraged to use the iReady Student Path to provide supplemental support to their child.	Classroom Teachers, Administrators/Administration, Parent Coordinator
09/15/2025	06/26/2026	Teachers will monitor and share iReady student progress to parents, including a breakdown of how to understand the information presented. Updates are provided as students progress through the course of the year	Classroom Teachers, Administrators/Administration, Parent Coordinator

Priority 3 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Teachers, Educational Assistants, Administration, Guidance Counselor, NEST Coach, Parent Coordinator, Math consultants, District math leads, Instructional Coaches

Instructional Resources

Next Generation Math Learning Standards, Pacing Calendars, Envision Math Curriculum Guides, KEMS, SOLVE, Math Manipulatives

Schedule Adjustments

30 Minutes AIS period daily

Other Resources Needed

Inter-visitation schedule for teachers to visit model math classrooms.

Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security

Priority 4 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
As of May 23, 2025, 47.3% of eligible students in grades K-3 had activated their NYC Rise accounts and completed the first building block. The data shows that activation levels	Lack of clear understanding about how the program works, especially the matching component and free deposits for completing building blocks. It's likely that some families don't understand that it's free to sign up and accomplish the first building block, which gives each student	We need to inform more families about the benefits of the program and how to sign up for it. We need to explain to them that by not signing up for the program,

are higher for the lower grades (66.7% in K and 52.4% in first grade) and lower in the higher grades (44.1% in second grade and 29.1% in third grade). As of May 23, 2025, our school's students had $53,841 invested in NYC Scholarship Accounts.	$125 for free. The second building block requires families to set up their own college/career savings account, which might be challenging for some families to accomplish without support. The third building block requires that families deposit as little as $5 into their college/career savings account. We need to be sure that people understand they can take care of this step with just a few dollars.	they are essentially throwing away free money- they are passing up on the program's building block incentives (free deposits into their accounts for completing the various building blocks) and the investment gains.

Priority 4

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for **college and career readiness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for College and Career Readiness

- Expand career pathways and work-based learning, opportunities for early college credit and industry credentials, and college/career advising and awareness, including via the Career Readiness Modern Youth Apprenticeship and FutureReadyNYC (as applicable)
- Schools serving students in early childhood, elementary, and middle school settings should consider how they expose students to and prepare them for advanced (Regents-level) coursework, Specialized High School Admission Test (SHSAT) preparation, college awareness, career studies, etc.
- Integrate historical and contemporary contributions of culturally diverse professionals, scholars, and entrepreneurs into career readiness programs, ensuring students see diverse pathways to success
- Incorporate lessons on wealth-building strategies, cooperative economics, and financial independence to equip students with tools for long-term economic security
- Ensure the implementation of specialized support programs tailored for Students in Temporary Housing and/or Foster Care, addressing their unique educational needs and challenges

Priority 4 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	47.3 percentage points	<School Name> will address Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security with the following SMART Goal: By June, 2026, the percentage of active NYC RISE college savings account. for All Students will Increase by 12.7 percentage points from 47.3 percentage points to 60% as measured by NYC RISE Enrollment Reports.

Priority 4 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 4 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Provide family workshops on Benefits of College Saving Account at different points throughout the school year like during parent-teacher conferences to provide information on being more involved in the saving process.

Root Cause Addressed:

Not enough families are enrolling in the NYC Rise Savings Account. Lack of clear understanding about how the program works, especially the matching component and free deposits for completing building blocks, most notably the initial $125 per student.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Provide family workshops on Benefits of College Saving Account, and during parent-teacher conferences to provide information on being more involved in the saving process.
Distribute detailed handouts (backpacks and distribution in front of the school) that explain in simple language that each eligible child has $125 waiting for them if they simply sign up for the program. It should also explain that it takes as little as $5 to complete the second building block. Use QR codes that go directly to activation instructions in their native language.
Host a workshop where kids can engage in fun financial literacy-themed activities (games, making piggy banks etc.) and parents can enroll their children in Kids RISE, ask questions and get 1-on1 support to complete the various building blocks.

Enlist financial literacy experts to come and speak in classrooms about how investing works and tie that discussion into Kids RISE and explain kids have a chance to invest themselves in their future. Presentations could be tailored to each grade level.
Offer some sort of small prize (ex. voucher at ice cream shop or free backpack etc.) for signing up.

Key Strategy 2 (Optional):

Provide students with opportunities to learn about what programs other schools are offering that can support their future careers.

Root Cause Addressed:

Students did not have access to information about middle and high schools as well as colleges/universities that can support their future career goals.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
The school will collaborate with other educational institutions such as middle schools, high schools and colleges to build/ promote college readiness for our students. This is about sparking curiosity, building foundational skills, and helping them understand that education is a pathway to their dreams. It is not about pressure or specifics about admissions—rather, it is about planting seeds. Here's how you can approach it in a developmentally appropriate, and engaging way.
The school will continue to have intentional career day so that students can be fully exposed to careers in the real world. Take students to visit local college campus, host a "College Day informational sessions" or a "Career Fair" and invite families to participate.
Have students set age-appropriate academic or personal goals. Provide families with resources to help them make informed decisions about programs their child might want to pursue.

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

KIDS RISE
We will monitor the evolution of Kids RISE activation rates from the program operators on a semi-monthly basis to ensure we are meeting our targets.

Priority 4 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/08/2025	06/26/2026	Host a workshop where kids can engage in fun financial literacy-themed activities (games, making piggy banks etc.) and parents can enroll their children in Kids RISE, ask questions and get 1-on1 support to complete the various building blocks	Kids RISE organization, parents and staff - Parent Coordinator, Community, volunteers. Afterschool providers (CCM, TEiAM etc.) might be able to help with activities for kids.
09/08/2025	06/26/2026	The school will collaborate with other educational institutions such as middle schools, high schools and colleges to build/ promote college readiness for our students. This is about sparking curiosity, building foundational skills, and helping them understand that education is a pathway to their dreams. It is not about pressure or specifics about admissions—rather, it is about planting seeds. Here's how you can approach it in a developmentally appropriate, and engaging way	middle schools, high schools, colleges, trade schools

Priority 4 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Parent Coordinator, Teachers, School Aides, Social Workers, Guidance Counselors and Families, PTA, outside organization

Instructional Resources

Financial Literacy program/NYC Kids Rise training

Schedule Adjustments

Morning/Afterschool/Evening workshop sessions.

Other Resources Needed

Materials, school outreach by parent coordinator, Prizes, supplies for workshop etc.

Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

Priority 5 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
45% of parents indicate they have attended a school-led family engagement event	Need for additional multilingual promotion, timely communication of events, both virtual and in-person options, content can	Increased parental engagement in school-wide initiatives

	be based on specific family needs/interests	
In the 2024-2025 school year, 29% of parents/ families responded to the NYC School Survey	Need for additional promotion, timely communication of events	Increased parental engagement in feedback survey
39% of teachers/staff reported trust in school leadership on the 2024 NYC School Survey. 58% of teachers/staff (15% survey completion rate) reported trust in school leadership on the 2025 NYC School Survey a gain of 19 percentage points from 2025.	Leadership transitions during the survey period, without interim sentiment tracking and no way to clearly distinguish between concerns with the prior administration vs current administration. Delays in establishing the leadership team.	More frequent staff feedback opportunities to identify needs and concerns that will improve engagement.
At the May 28th, 2025 PS 316 Town Hall, the district leadership team highlighted a key theme from community feedback: a desire among families for clearer communication, increased transparency, and stronger collaboration.	Opportunities to improve school-to-home communication. Need for follow up and family engagement.	Strengthen family-school trust. Improve transparent communication Increase collaboration with Families, PTA, SLT.

Priority 5

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for parent, family, community and system responsiveness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Focus Areas for System Responsiveness to Parents, Families and Communities

- Engage more deeply with families to understand their needs and plan new, high-quality programs
- Build community trust and bolster engagement, including via improved language access and increased family engagement and participation
- Implement the newly updated NYCPS School Wellness Policy, which provides a framework for all members of the school community, including families and students, to come together and assess and coordinate wellness efforts for their community
- Implement and lead strategies that support community involvement and increase Minority and Women Owned Business Enterprises (MWBE) utilization

Priority 5 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Parents of All Students	29%	PS 316 will address Priority 5: All districts and schools are more inclusive and responsive for Parents of All Students with the following SMART Goal: By June, 2026, the percentage of parental response to surveys, parents/families engaging in parent-teacher conferences will Increase by 20% increase from 29% to 49% as measured by Parent Surveys, Parent Teacher Conference Registration Reports, Parent/ Family feedback, and NYC School Survey Results.

Priority 5 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Priority 5 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Design events based on family needs, cultural celebrations and expressions of identity, using pre-event surveys from the PTA, and track attendance.

Identify key actions to improve community trust, develop a plan for increased communications, and share in key community forums (e.g. PTA meetings, coffee & conversation with the principal, school-led parent events, parent surveys).

Upgrade the school website to provide timely, clear, and accessible information on curriculum, policies, priorities, upcoming events, and key contacts.

Root Cause Addressed:

Need for promotion, timely communication of events, and content based on specific family needs/interests. Additionally, an increased need for structured meetings as well as more feedback needed from an increases number of families.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Maintain a DEI Committee for the 2025-26 SY
Share meeting agenda and minutes with the SLT. Provide ongoing updates.

Parent Surveys 3 times per year.

Key Strategy 2 (Optional):

Work collaboratively to develop systems for clear communication that can be shared with the school community. Systems and strategies will be reviewed and modified were needed throughout the year based on parent/family feedback.

Root Cause Addressed:

Opportunities to improve school-to-home communication, especially around incident follow-up and family engagement.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
The SLT can support this effort by developing self-service resources for families to quickly answer common questions.
In addition, the SLT should foster collaboration by establishing a consistent practice of sharing key materials and findings ahead of meetings to support informed and collaborative decision-making, and by modeling the tone for broader community engagement.

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Parent survey data, ongoing conversation with leadership and families, and reflection on celebrations and initiatives.

Track attendance at school-led events and collect post-event surveys.

Reflections on school-led events and celebrations.

Priority 5 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/08/2025	01/31/2026	Open house for PreK and K families. Parent Coordinator and administration will plan dates for meetings about Middle School Selection. Educate the Prek and upper elementary staff on the NYCDOE Kindergarten and Middle School application processes so they can answer questions families may have or turnkey information they learn to families. Invite and involve 5th and 4th grade teacher to Middle School Information sessions with the Middle School Coordinator. Make sure everyone knows the deadlines for the application process in September. School survey sent out for PreK parents and 4th and 5th grade parents about application processes that will ask how they want information shared with them, when is the best time to share information.	PTA, Class parent, Parent Coordinator, Community Coordinator, Classroom Teachers
02/02/2026	06/26/2026	Ensure timely communication about Middle School Selection, Open houses and Tours will be provided to families. Ensuring timely communication about Kindergarten options (ie...NEST, ICT, Dual, G&T). Survey PreK parents about their interest in remaining at P.S. 316 for Kindergarten, what are they looking for in a Kindergarten class? Providing open house opportunities for Kindergarten during day for for families of PreK students so can see all the different programs.	PTA, Class parent, Parent Coordinator, Community Coordinator, Classroom Teachers

Priority 5 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Parent coordinator, Community coordinator, guidance counselor, social worker interns, PreK staff, and 5th grade staff, parents, families.

Instructional Resources

Classroom Teachers will send home newsletters and online communication updates of opportunities for parents to visit the classroom.

Schedule Adjustments

Teachers will allocate dedicated times for parent engagement, including opportunities for in-person classroom visits as schedules allow, and will actively participate in parent surveys to strengthen school-home partnerships.

Other Resources Needed

NYC Survey data - 2025

Section 5: Attendance/Chronic Absenteeism

Attendance/Chronic Absenteeism Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
In the 2024-2025 CEP, we set a target that by June 2025, the percentage of students chronically absent would decrease from 36.6% to 26.6% as measured by the 2024-25 NY State Report Card. As of	Transportation challenges: Families may lack reliable transportation or funds for public transit. Health issues: Limited access to healthcare can lead to untreated illnesses, both physical and mental, that keep students out of school. Unstable housing: Families may move frequently due to eviction or job changes, disrupting school attendance. Lack of access to essentials: Inconsistent access to clean clothes, food, or hygiene facilities can cause students to stay home out of embarrassment or discomfort. Mental health challenges: Trauma and stress from housing instability can contribute to anxiety, depression, or behavioral issues that hinder attendance. Language barriers: For students and parents with limited English proficiency,	Most of the subgroups improved but there are three subgroups that notably underperformed. The chronically absent rates for Hispanic students in 2024-2025 increased to 49%

May 2025, 32% of total students are chronically absent, according to school data. While the overall trend has been improving, we have fallen short of meeting our original goal.	communication might be difficult, leading to misunderstandings about attendance policies or missed opportunities for support. Immigration-related stress: Fear of deportation or legal status uncertainty can create anxiety or family instability, affecting school attendance. Cultural differences: In some households, differing cultural norms or school expectations (e.g., prioritizing family obligations) may lead to absences.	from 43% indicating a need for more targeted outreach. Economically disadvantaged students have a chronically absent rate of 46% while those in temporary housing have a chronically absent rate of 54%.

Attendance/Chronic Absenteeism

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal aligned to our systemwide focus on improving attendance and **reducing chronic absenteeism**.

Systemwide Focus Area for Attendance/Chronic Absenteeism: Develop and implement strengthened practices to improve attendance, combat chronic absenteeism and center equity. Note: For ESSA accountability purposes, NYSED will replace the Chronic Absenteeism indicator with the Attendance indicator, beginning in the 2025-26 school year. Learn more about the new Attendance indicator by reviewing this Fact Sheet.

Attendance/Chronic Absenteeism SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Students in Temporary Housing (STH)	57%	By June, 2026, the A 10 percentage point reduction of the chronic absenteeism rate among Students in Temporary Housing (STH), which will decrease by 10%, from 57% to 47%, as measured by the New Vision Chronic Absenteeism Reports.
All Students	31.5%	By June, 2026, the The percentage of chronically absent students should decrease for All Students by 5 percentage points, from 31.5% to 26.5%, as measured by the Progress monitoring data entered in ATS .

Attendance/Chronic Absenteeism Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Attendance/Chronic Absenteeism Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

The establishment of a dedicated attendance team staff member to be responsible for family outreach, teacher communication, and ATS/iLogging of all attendance data.

Root Cause Addressed:

The capacity limitations of staff to address attendance issues on a consistent basis.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Have regular attendance checks; Early alerts to parents via phone calls, messages, and emails; Individual meetings with students to discuss attendance patterns.
Continue attendance incentives such as field trips, special treats, fun activities, attendance certificates and other shout outs.
Ensure adequate counseling and mental health services are available for students in need.
Set up a discreet “mornings essentials” station where economically disadvantaged students and those living in temporary housing can access clean clothes, hygiene supplies (toothbrushes, wipes), and snacks.
Pair students who struggle with attendance with a consistent adult mentor (e.g., librarian, custodian, office staff) who

checks in weekly.
Designate a school staff member as a "transportation troubleshooter" to help families resolve travel logistics quickly and be sure this figure is well known and reachable to the school community.
Use communication channels that are popular with subgroups we are targeting. WhatsApp is popular in Hispanic communities
Offer monthly in-person or virtual meetings for families on topics like attendance importance, navigating the school system, and how to get support. Needs to be offered with simultaneous Spanish translation.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Weekly attendance team meetings will focus on data-driven discussions on chronic absenteeism among all students as well as with subgroups. Attendance will be tracked daily and analyzed on an ongoing basis. The school based support team will work with the attendance coordinator to monitor trends and adjust interventions as needed.

Attendance/Chronic Absenteeism Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/26/2026	Offer monthly in-person or virtual meetings for families on topics like attendance importance, navigating the school system, and how to get support. Needs to be offered with simultaneous Spanish translation.	District or local/school organization to facilitate simultaneous translation.

Attendance/Chronic Absenteeism Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Establish a dedicated attendance coordinator. Designate transportation troubleshooter. Establish and assign mentors to chronically late students. Ensure translation services are available.

Instructional Resources

SOLVE Data Tracker, District Support,

Schedule Adjustments

Adjusted school programming for 100% attendance celebrations

Attendance games and materials

Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities

High Quality Inclusive & Accessible Learning for Students with Disabilities Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs (NYCPS Systemwide Needs for all schools noted below.)
As of 2024-2025 school year, there were a total of 15 initial referrals for Special Education evaluations, a	Parents write letters asking for an evaluation without utilizing intervention planning through MTSS. Teachers, while aware of MTSS plan, were limited in	IEP Development

reduction from 22 in the 2023-2024 school year.	implementation by the parental referrals during the 2023-2024 school year.	and Fidelity of Implementation
As of June 2024 school year progress monitoring was reported at 71.1% on average from all providers. As of June 2025, this rate was reported at 88%.	Providers need to enter encounters in a timely fashion. Also, providers need to go back and progress monitor previous IEP goals. Finally, teachers need to document goals that are completed outside of school with language, indicating that services were not received on site.	Transition Planning and Compliance
During the 2024– 2025 school year, 25 RSA's were issued for students needing services that could not be accommodated within the school building because all providers had already reached capacity.	Increased enrollment, including new students admitted throughout the year, and students receiving initial evaluations that result in new IEPs, result in on-site service providers reaching capacity and RSA's being issued for students to receive mandatory services outside of school.	Referral Process and Equity
		Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities

Directions: After conducting a comprehensive needs assessment by analyzing school data trends including IEP Review Surveys; exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop outcome-focused SMART goals for identified priority need(s) and the relevant systemwide focus areas for **High Quality Inclusive & Accessible Learning for Students with Disabilities** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Inclusive and Accessible Learning for Students with Disabilities:

- IEP Development and Implementation
- Transition Planning and Compliance
- Referral Process and Equity
- Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Students with Disabilities (SWD)	88%	By June, 2026, to strengthen the quality and implementation of IEPs for Students with Disabilities (SWD), we will improve The goal is to increase the percentage of IEP goals completed by the end of the school year by 7 percentage points, from a baseline of 88% in June 2025 to 95% in June 2026. by a 7 percentage points Increase, from 88% to 100%, as measured by Progress Monitoring in IEPs.

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Special Education meetings (local and district)

School Based Support Team meetings

Monitoring of progress reporting in SESIS

Family workshops on special education.

High Quality Inclusive & Accessible Learning for Students with Disabilities Family and Community Engagement

Family and Community Engagement

Directions: Indicate the multi-tiered supports (strategies & activities) that will be implemented to support and engage families (including foster parents, birth parents, and families with limited English proficiency) and plans for community collaboration in the implementation of this action plan, surrounding the four priority needs. Include:

1) a description of the school's supports and processes for students with disabilities;
2) a coherent mechanism is implemented for updating families on their child's progress towards measurable annual and post-secondary transition goals;
3) a procedure to ensure families are involved during decision-making for IEP development and implementation.

Start Date	End Date	Multi-tiered Supports to Engage Family & Community	Partners/CBOs Leveraged
09/08/2025	06/26/2026	Family Workshops, parent outreach	D17, Parent Coordinator, Sped Teachers
09/08/2025	06/26/2026	Affinity Groups for SWD	Administration, SBST, MTSS Team, Sped Teachers

High Quality Inclusive & Accessible Learning for Students with Disabilities Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Schools are encouraged to think critically and strategically when considering resources that can support progress towards CEP goals for students with IEPs. This includes utilizing Title I funding for at-risk speech and/or counseling services, all-staff training in supporting students with autism, sensory materials, summer institute geared at the development of executive functioning skills, and/or inclusion coaching support. Schools may also consider utilizing Title II funds to reduce the ratio of students with IEPs to typically developing peers in ICT classes.

Human Resources:

SBSS, Assigned AP, D17 Personnel

Instructional Resources

OT,PT, Speech, SETTS, Counseling, Sensory Rooms

Schedule Adjustments

N/A

Other Resources Needed

Section 6: Multi-Tiered Systems of Support (MTSS)

Academic Support

NYCPS Multi-Tiered Systems of Support (MTSS) align with NYSED guidelines for providing Academic Intervention Services (AIS) to students who have not yet met state standards or are considered to be at-risk of not meeting state standards. The Multi-tiered Systems of Support (MTSS) framework, organizes **supports** into three tiers:

Tier 1 provides schoolwide, high-quality programming for all students, including SWDs;

Tier 2 offers data informed small-group interventions for at-promise students; and

Tier 3 delivers intensive, individualized support for students with persistent needs.

This facilitates the strategic planning and necessary resource alignment to ensure their school community appropriately and adequately serves all students well, in partnership with students and families.

MTSS identifies the academic support services to be provided and ensures that students receive Response to Intervention (RtI) and Positive Behavioral Interventions and Support (PBIS) strategies as needed. See NYSED's memo to view the criteria for determining AIS services. The Supportive Environment Framework (SEF) offers a wide range of evidence-based Tier 2 and Tier 3 interventions and supports for student social-emotional, behavioral, physical and mental wellness, with particular attention to the unique needs of students in Temporary Housing and/or Foster Care, who may face additional challenges related to school stability, trauma and access to educational resources. A culturally responsive-sustaining approach to intervention embeds culturally relevant texts and historical narratives into literacy and social studies interventions, ensuring students receive the support that reflects their identities and lived experiences, increasing engagement and achievement.

Use the charts below and a Multi-Tiered System of Support (MTSS) to match academic, social/emotional, behavioral and instructional resources with student needs to provide targeted support for all learners, especially at-risk students who experience difficulty meeting state standards, including those living in Temporary Housing and/or residing in Foster Care placements. Indicate specialized materials, technology-based tools and/or extra instruction, including Expanded Learning Time that supplement school-wide systems & supports and/or classroom level supports. Ensure that interventions address the unique social-emotional, behavioral and academic challenges faced by culturally and linguistically diverse students, as well as those impacted by housing instability and child welfare system involvement.

Directions: Complete the chart and identify Tier 2 or 3 MTSS Academic supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Academic Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
ELA Tier 2	Student has not responded to Fundations and Heggerty in Tier 1 whole class instruction (grades k to 2) evident by upon benchmark assessments PLA, Acadience, and F&P.	Fundations Double Dose Heggerty Double Dose Sound Sensible SPIRE, AIS	Small Group Instruction (3-5 students) at least 3 times a week	During, Before and After (depending on grade level)	No

Math Tier 3	According to progress monitoring data, student in grades K-6 has not responded to the Tier 2 interventions adequate progress in math fluency	Envisions Math Online ST Math IReady	1:1, Targeted Small Group Instruction, Afterschool Academy, Saturday Academy	During, Before and After (depending on grade level)	Yes
Math Tier 3	According to progress monitoring data, student in grades K-6 has not responded to the Tier 2 interventions adequate progress in problem solving	Envisions Math Online, ST Math, IReady	1:1, Targeted Small Group Instruction, Afterschool Academy, Saturday Academy	During, Before and After (depending on grade level)	Yes

Student Social/Emotional Support

Directions: Complete the chart and identify Tier 2 or 3 MTSS Student Social/Emotional supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Student Social/Emotional Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
At-Risk Counseling Tiers 2 and 3	Teacher referral and/or parent referral	Therapeutic intervention (groups are determined by focus: improving peer relationships, bereavement, girls/boys group for socialization, ENL students, anger management, adjustment to school, newly registered students, middle school transition, etc.)	Individual and small group	During school	No
Group Counseling for SITH Tier 2	Student in temporary housing	Therapeutic intervention groups are determined by focus: temporary housing status and related stressers	Small group	During school	No
Alignment and Cohesion of BIPs and progress monitoring Tier 3	Annual BIP reviews at the annual IEP meeting	IEP related service	as described on BIP (i.e work with parent/para)	During school	No
Transition counseling (post-IEP mandates) Tier 2	Students progressed out of IEP mandated counseling but student still needs some supports	Therapeutic intervention groups are determined by focus: improving peer relationships, bereavement, girls/boys group for socialization, ENL students, anger management, adjustment to school, etc.)	Individual or group	During school	No
Counseling provided through	Parent referral and enrollment	Therapeutic intervention provided by community	Individual	During school or	Yes

community partnership Tier 3	in consultation with the teacher, administration, and/or counseling staff	partner mental health provider CCM		after school	

Family and Community Engagement Around MTSS

Describe how the school's essential components of MTSS are shared with families.

The school's core components of MTSS are communicated to families through Curriculum Night, the 2025–2026 Family Handbook, and individual family conferences when academic intervention is needed.

Describe how families receive updates on the progress of their child(ren) who receive Tier 2 targeted, or Tier 3 intensive interventions.

Parents receive regular updates through teacher conferences, daily communication with teachers through electronic platforms, and the sharing of diagnostic and summative testing reports (iReady, Acadience, NYS Testing Program)

Describe how families are involved during decision making regarding the progress of students receiving Tier 3 intensive intervention.

Tier 3 intensive intervention decision making is done in collaboration with parents as often as possible, usually through academic intervention conferences with Tier 2 students. Our Tier 3 interventions require parental permission for student participation.

Students in Temporary Housing (STH) Support

As included in your school's Office of School and Youth Development Consolidated Plan-STH Section and in accordance with the federal McKinney-Vento Homeless Assistance Act and Chancellor's Regulation A-780, schools must identify, serve, and report on students living in temporary housing (STH). All Title I and non-Title I schools receive a Title I allocation for STH students. The Students in Temporary Housing (STH) website provides guidance on STH pupils and how these funds can be used to meet their needs, as well as restrictions. For more information on acceptable uses of the mandated Title I, Part A set-aside to support your STH population, please refer to the Title I STH Funds Toolkit.

Identify the number of Students in Temporary Housing who are currently attending your school and provide a breakdown of their temporary housing status. Since the number of STH children can change regularly, schools must carefully track this number to determine whether there has been an increase in need.

Number of students in temporary housing who are:

- Doubled up (with friends or relatives because they cannot find or afford housing):
- Living in a shelter or transitional shelter:
- Living in a hotel/motel:
- Other

*Note: In keeping with established practices regarding personally identifiable information, use the letter "s" to identify a number less than five (5).

30

After a careful analysis of historical demographic, attendance and achievement data for your STH population, what trends do you notice, and how can these trends inform the services and support provided for this population?

The primary challenges facing the STH population are transportation and access to essential resources. In response, the school has implemented extensive supports for STH students, discreetly providing instructional materials and personal care items to families at no cost. Transportation remains a persistent challenge, which we address indirectly by connecting families with relevant community resources.

Describe the services you are planning to provide to the STH population. How were those services selected to best meet students' needs? How will you (or did you) utilize the STH Title I Survey to select services aligned to need?

We provide the following services for students in Temporary Housing:

We provide at-risk counseling for our students.

We provide Parent engagement for our families.

Our Parent Coordinator offers Parent training opportunities.

Community resources such as linking families to preventative services.

Provide After School services through CCM and Trailblazers.

Provide Metro Cards to those families that require them.

The parent Coordinator works to prepare families for job interviews.

We provide lists of local food pantries to assist our families.

We provide Winter coats for those families in need.

Constant review of the IEP's and ensure that all recommended services are being adequately provided.

We link teachers and families to outside agencies that provide medical necessities such as glasses.

Prioritizing Students in Foster Care

As included in your school's Office of School and Youth Development Consolidated Plan-Child Child Abuse and Neglect Intervention and Prevention School Plan and in accordance with the federal Education Law 3244 – Education of Children in Foster Care (Effective 2018) establishes the rights of students placed, or moved, in foster care to:

- Continue attending school of origin if determined to be in their best interest, or, if not, attend school near foster care placement,
- Immediate enrollment, and
- Transportation, if necessary to attend school of origin

Please respond to the questions below.

How many students in foster care are currently enrolled at your school? Provide a detailed breakdown of the social-emotional and academic supports available to them.

What targeted supports are in place for students in foster care, including those newly transitioning into the foster care system? How does your school ensure these students receive the necessary interventions to promote stability and success?

After analyzing historical demographic, attendance, and achievement data for students in foster care, what trends have emerged? How can these insights be used to improve the services and support provided to this population?

What specific strategies does your school implement to ensure students in foster care, particularly those in transitional grades, receive targeted Social-Emotional Learning (SEL) support? How do these strategies help address academic and behavioral challenges?

Section 7: Parent and Family Engagement Policy and School-Parent Compact

Parent and Family Engagement Policy

Directions: The Parent and Family Engagement Policy should describe how your school will plan and implement effective parent and family engagement activities and/or strategies to improve student academic achievement and school performance. The School-Parent Compact (SPC) is a component of the Parent and Family Engagement Policy (PFEP) that outlines how parents, the entire school staff, and students will share this responsibility.

The activities and/or strategies included in your school's Parent and Family Engagement Policy should align with current Comprehensive Education Plan (CEP) goals for improving student achievement and should be developed or updated with input and feedback from parent leaders and the Parent Coordinator. In addition, if the school community will be engaged in central parent engagement initiatives, such as Parent Academy, which will provide training for school communities to help strengthen family-school partnerships, please be sure to include these activities in the school's policy.

In Title I schools, the Title I Parent Advisory Council (PAC) represents the Title I parent community in supporting parent and family engagement. The Title I PAC Chairperson will serve in a consultative role with the SLT representing the school's Title I parents. Schools are encouraged to use the sample Parent and Family Engagement and SPC templates below (which meet federal Title I parent and family engagement requirements) as guidance for updating the school's current policy.

Parent and Family Engagement Policy

Educational research shows a positive correlation between effective parental engagement and student achievement. The overall aim of this policy is to develop a parent and family engagement policy that will establish expectations and objectives for meaningful parent and family engagement in the school community. PS 316 Elijah G Stroud, in compliance with Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is responsible for creating and implementing a parent and family engagement policy to strengthen the connection and support of student achievement between the school and the families. The school's policy is designed to keep parents informed by actively involving them in planning and decision-making to support their children's education. Parents are encouraged to actively participate on the School Leadership Team, and Parent Association (or Parent-Teacher Association) as trained volunteers and welcomed members of the school community.

Support for Parents and Family Members of Title I Students

PS316 Elijah G. Stroud is not a Title I school, but it serves a diverse population of students, including those who are identified as Title I students. Title I students can be found in both Title I and non-Title I schools throughout the district. These students are eligible for additional academic support and services aimed at promoting educational equity and closing achievement gaps. Although PS316 does not receive Title I funding schoolwide, it remains committed to providing high-quality instruction and support to meet the needs of all learners.

Parental Involvement and School Quality

The school's Parent and Family Engagement Policy was designed based upon a careful assessment of the needs of all parents/guardians, including parents/guardians of Multilingual Learners/English Language Learners (ML/ELL), and students with disabilities. The school community, with the meaningful involvement of parents and family members, will conduct an annual evaluation of the content and effectiveness of this parent and family engagement policy with Title I parents to improve the academic quality of the school. The findings of the evaluation through school surveys and feedback forms will be used to design strategies to more effectively meet the needs of parents and family members and enhance the school's Title I program. The school will maintain this information. In developing the Title I Parent and Family Engagement Policy, parents of Title I participating students, parent members of the school's Parent Association (or Parent-Teacher Association), as well as parent members of the School Leadership Team, were consulted on the proposed Title I Parent and Family Engagement Policy and asked to survey their members for additional input to increase and improve parent involvement and school quality.

- Support school-level committees that include parents who are members of the School Leadership Team, the Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council. This includes providing technical support and ongoing professional learning, especially in developing leadership skills;
- Maintain a Parent Coordinator (or a dedicated staff person) to serve as a liaison between the school and families. The Parent Coordinator or a dedicated staff person will provide parent workshops based on the assessed needs of the parents of children who attend the school and will work to ensure that the school environment is welcoming and inviting to all parents. The Parent Coordinator will also maintain a log of events and activities planned for parents each month and file a report with the central office.;
- Conduct parent workshops with topics that may include: parenting skills, understanding educational accountability grade-level curriculum and assessment expectations; literacy, accessing community and support services; and technology training to build parents' capacity to help their children at home;
- Provide opportunities for parents to help them understand the accountability system, e.g., ESSA/State accountability system, student proficiency levels, Annual School Report Card, School Quality Report, Quality Review Report, Learning Environment Survey Report;
- Schedule additional parent meetings, e.g., quarterly meetings, with flexible times, such as meetings in the morning or evening, to share information about the school's educational program and other initiatives of the Chancellor and allow parents to provide suggestions;
- Translate all critical school documents and provide interpretation during meetings and events as needed.

Encouraging School-Level Parental Involvement

The school will further encourage school-level parent and family engagement by:

- Hosting educational family events/activities during Parent-Teacher Conferences and throughout the school year;
- Encouraging meaningful parent participation on School Leadership Teams and Parent-Teacher Association
- Encouraging and supporting school-led family events that address specific community needs based on parent feedback and supporting PTA events through collaboration, outreach, and resource sharing
- Establishing a Parent Resource Center/Area or lending library; instructional materials for parents;

- Encouraging more parents to become trained school volunteers and classroom parents. encouraging parents to join communication, fundraising, diversity, equity, and inclusion, and other committees that support the students, staff, and caregivers of PS 316
- Providing a clear and easily accessible grading policy that outlines how participation, attendance, and other factors are measured and weighted
- Providing written and verbal progress reports that are periodically given to keep parents informed of their children's progress;
- Developing and distributing a school newsletter or web publication designed to keep parents informed about school activities and student progress;
- Providing school planners/folders for regular written communication between /teacher and the home in a format, and to the extent practicable in the languages that parents can understand.

School-Parent Compact (SPC)

School-Parent Compact (SPC)

PS 316 Elijah G Stroud, in compliance with the Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is implementing a School-Parent Compact to strengthen the connection and support of student achievement between the school and the families. Staff and parents of students participating in activities and programs funded by Title I, agree that this Compact outlines how parents, the entire school staff and students will share responsibility for improved academic achievement and the means by which a school-parent partnership will be developed to ensure that all children achieve State Standards on assessments.

PS 316 Elijah G. Stroud is committed to fostering strong partnerships between families, students, and staff to support every child's academic and personal growth. Although our school is no longer designated as a Title I school, we continue to uphold the principles of collaboration and shared responsibility that guide effective family engagement. This School–Parent Compact outlines how parents, the entire school staff, and students will work together to promote improved academic achievement and ensure that all children reach high standards of learning.

I. School Responsibilities: High Quality Curriculuml. School Responsibilities: High Quality Curriculum

Provide high quality curriculum and instruction consistent with State Standards to enable participating children to meet the State's Standards and Assessments by:

- Using academic learning time efficiently;
- Actively celebrating and affirming all aspects of student and staff identity including cultural, racial, ethnic, linguistic, gender, sexual orientation, neurological, and disability status;
- Ensuring educational resources and lessons reflect and positively represent diverse identities, family structures, and lived experiences;
- Implementing a curriculum aligned to the State Learning Standards;
- Offering high quality instruction in all content areas;
- Providing instruction by highly qualified teachers and when this does not occur, notifying parents as required by the Every Student Succeeds Act (ESSA)

I. School Responsibilities: Supporting Home-School Relationships

Support home-school relationships and improve communication by:

- conducting parent-teacher conferences each semester during which the individual child's achievement will be discussed as well as how this Compact is related;

  Providing a clear and easily accessible grading policy that outlines how participation, attendance, and other factors are measured and weighted
- convening an Annual Title I Parent Meeting each school year for parents and family members of students participating in the Title I program to inform them of the school's Title I status and funded programs and their right to be involved;
- arranging additional meetings at other flexible times, e.g., morning, evening and providing (if necessary and funds are available) transportation or child care for those parents who cannot attend a regular meeting;
- respecting the rights of limited English proficient families to receive translated documents and interpretation services in order to ensure participation in the child's education;
- providing information related to school and parent programs, meetings and other activities is sent to parents of

participating children in a format and to the extent practicable in a language that parents can understand;
- involving parents in the planning process to review, evaluate and improve the existing Title I programs, Parent and Family Engagement Policy and this Compact;
- providing parents with timely information regarding performance profiles and individual student assessment results for each child and other pertinent individual school information;
- ensuring that the Parent and Family Engagement Policy and School-Parent Compact are distributed and discussed with parents each year;

I. School Responsibilities: Providing Parents Reasonable Access to Staff

Provide parents reasonable access to staff by:
- Ensuring that staff will have access to interpretation services in order to effectively communicate with limited English speaking parents;
- Notifying parents of the procedures to arrange an appointment with their child's teacher or other school staff member;
- Arranging opportunities for parents to receive training to volunteer and participate in their child's class, and to observe classroom activities;
- Planning activities for parents during the school year, e.g., Parent-Teacher Conferences

I. School Responsibilities: Providing General Support to Parents

Provide general support to parents by:
- Creating a safe, supportive and effective learning community for students and a welcoming respectful environment for parents, and guardians;
- Assisting parents in understanding academic achievement standards and assessments and how to monitor their child's progress by providing professional learning opportunities (times will be scheduled so that the majority of parents can attend);
- Sharing and communicating best practices for effective communication, collaboration and partnering with all members of the school community;
- Supporting parental involvement activities as requested by parents and family members;
- Ensuring that the Title I funds allocated for parent involvement are utilized to implement activities as described in this Compact and the Parent and Family Engagement Policy;
- Advising parents of their right to file a complaint under the Department's General Complaint Procedures and consistent with the Title I requirement for Every Student Succeeds Act (ESSA) and Title I programs
- Ensuring that grading policies do not disadvantage neurodivergent students by relying solely on traditional behavioral expectations that may not account for diverse learning and communication styles;
- Where applicable, providing explicit support and instruction on Social-Emotional Learning (SEL) to help all students develop the skills needed to engage in classroom participation in a way that aligns with their individual needs;

II. Parent/Guardian Responsibilities

- Monitor my child's attendance and ensure that my child arrives to school on time as well as to notify my child's teacher via ClassDojo or call the office when my child is absent;
- Ensure that my child comes to school rested by setting a schedule for bedtime based on the needs of my child and his/her age;

- Check and assist my child in completing homework tasks, when necessary;
- Read to my child and/or discuss what my child is reading each day (for a minimum of 15 minutes);
- Help my child develop healthy screen time habits by setting clear guidelines for television, video games, social media, and other digital content;
- Promote positive use of extracurricular time such as, extended day learning opportunities, clubs, team sports and/or quality family time;
- Encourage my child to follow school rules and regulations and discuss this Compact with my child;
- Volunteer in my child's school or assist from my home as time permits;
- Actively participate in decisions related to my child's education by attending meetings, sharing feedback, and collaborating with school staff;
- Communicate with my child's teacher about educational needs and stay informed about their education by prompting reading and responding to all notices received from the school or district;
- Respond to surveys, feedback forms and notices when requested;
- Become involved in the development, implementation, evaluation and revision to the Parent and Family Engagement Policy and this Compact;
- Participate in or request training offered by the school, district, central and/or State Education Department to learn more about teaching and learning strategies whenever possible;
- Take part in the school's Parent Association or Parent-Teacher Association or serve to the extent possible on advisory groups, e.g., Title I Parent Advisory Council, School or District Leadership Teams;
- Share responsibility for the improved academic achievement of my child
- Respectfully interact with members of our school community and understand that the various backgrounds, experiences, family types, and expressions of identity make us a stronger learning community

III. Student Responsibilities

- Attend school regularly and arrive on time, ready to learn;
- Stay engaged by exploring my interests, asking questions, and challenging myself to grow;
- Take responsibility for my learning by completing assignments, managing my time, and always doing my best;
- Treat classmates, teachers, and staff with kindness and respect, creating a welcoming and inclusive school community;
- Work to resolve conflicts peacefully, take responsibility for my actions, and seek help when needed;
- Use technology and social media responsibly, being mindful of my privacy and how my actions affect others;
- Take care of my school, the environment, and shared spaces by being responsible and respectful.

Submission Assurances

Submission Assurances

- ☐ The Comprehensive Education Plan (CEP) has been developed in consultation with parents, school staff, and others in accordance with the requirements of Shared-Decision Making (CR 100.11) to provide a meaningful opportunity for stakeholders to participate in the development of the plan and comment on the plan before it is approved.
- ☐ As part of the root cause analysis process, the school reviewed inequities, including resource inequities within the school, and investigated areas of low performance to identify strategies to address inequities within the school and promote improved student outcomes.
- ☐ The CEP School Leadership Team (SLT)/Stakeholder Signature Page will be printed, scanned, and submitted with the signatures of those that participated in the development of the CEP. DocuSign may also be used to secure electronic signatures for the CEP SLT/Stakeholder Signature Page. If the school was unable to obtain a signature of an individual that participated in the development of the CEP, the school has written “Addendum Attached” and provided supplemental documentation to explain why the school was unable to obtain the individual’s signature.
- ☐ The CEP will be implemented no later than the beginning of the first day of regular student attendance.
- ☐ Professional development will be provided to teachers and school leaders that will fully support the strategic efforts described within this plan.

Language Allocation Policy Outline

Language Allocation Policy Outline

2025-26 Language Allocation Policy (LAP)

This submission form supports schools with organizing a well-conceived school-based Language Allocation Policy (LAP) that describes high quality programs for Multilingual Learners/English Language Learners (MLs/ELLs). This is an annual plan of how your school will support the linguistic and academic needs of MLs/ELLs and must be completed yearly. The Language Allocation Policy (LAP) is a part of schools' Comprehensive Education Plan (CEP).

This is a living document. Any school-wide changes involving the instruction of MLs/ELLs, such as the addition or expansion of a Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE) program, should be updated in this form.

Agenda, minutes of LAP meetings, and LAP team members' attendance at meetings should be kept readily available on file in the school with all other ML/ELL critical documents. When preparing your school's submission, provide extended responses in the available spaces.

For additional information, refer to the NYC DOE Policy and Reference Guide for MLs/ELLs. For additional support with ML/ELL policy, please reach out to your respective ML/ELL Director or ELL Compliance Performance Specialist; for support with ML/ELL instruction, please contact your ML/ELL Services Administrator.

Part I: School ML/ELL Profile

This section should reflect the school's demographics for the 2025-26 school year. If completing before the 2025-26 school year begins, questions should be based on the anticipated population served by the school.

A. Language Allocation Policy Team Composition

The members of the school's LAP team are listed below. A school's LAP team must consist of at least one: principal, assistant principal (where applicable), an English as a New Language (ENL) teacher, an additional teacher (bilingual teacher if the school has a bilingual program or a teacher from a content area other than bilingual education or ENL) and a parent/guardian.

Required LAP team members are denoted with an asterisk (*) below. Please do not leave any fields blank. If a role is not represented on the LAP team, include "N/A" below.

Member Title	Name
Principal*	Karen Weekes
Assistant Principal (Where Applicable)*	Kevin Coyne
English as a New Language (ENL) Teacher*	Ellen Pratt
Teacher (if school has a bilingual program must be a bilingual teacher)*	Carina Salvi/Gr.1 Dual Teacher
Parent/Guardian*	R
Teacher	
Parent Coordinator	
School Counselor	
Related-Service Provider	
Other (Name and Title)	
Other (Name and Title)	

B. Teacher Qualifications

Please review all certifications for all staff members at your school, and indicate the number of certified staff for each category.

1. English to Speakers of Other Languages (ESOL) Certified Teacher

Number of ESOL certified teachers currently teaching ENL:

1

Number of teachers currently teaching a stand-alone ENL class who hold both a common branch license and ESOL certification [applicable to grades K–6]:

0

Number of certified ESOL teachers not currently teaching ENL:

1

Number of teachers who hold both content area/common branch and ESOL certification:

0

Number of ESOL certified teachers with a bilingual extension:

2

2. Certified Teachers with a Bilingual Extension

Number of certified teachers with a bilingual extension currently teaching in a bilingual program:

2

Number of certified teachers with a bilingual extension not currently teaching in a bilingual program:

0

Number of teachers certified to teach students with disabilities that also have a bilingual extension:

0

3. Language Other than English (LOTE)/World Language Certified Teachers:

Total number of teachers with LOTE certification:

0

Total number of teachers with LOTE certification providing World Language instruction:

0

Total number of teachers with LOTE certification providing Home Language Arts (HLA) to students in bilingual programs:

0

C. Student Demographics

Please review the student demographics at your school and complete the number and percentage for each category.

Total number of students (excluding pre-K):

600

Total number and percentage (%) of current ELLs:

17, 2%

Total number and percentage (%) of former ELLs:

5, 1%

Total number and percentage (%) of ELLs who are Newcomers (0-3 years of service):

13, 2%

Total number and percentage (%) of ELLs who are Developing ELLs (4-6 years of service):

4, 1%

Total number and percentage (%) of ELLs who are Long-Term ELLs (7 or more years of service):

0

Total number and percentage (%) of ELLs who are Students with Inconsistent/Interrupted Formal Education (SIFE):

0

Total number and percentage (%) of ELLs with an Individualized Education Program (IEP):

4, 1%

Part II: Bilingual Programs

Does your school have a bilingual program (Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)?

Yes

Provide the number of classrooms for each bilingual program, by grade, at your school for the 2025-26 school year. If submitted before the 2025-26 school year begins, this should be the anticipated number of classrooms based on anticipated enrollment. Each language and program model--Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)--is considered a separate program. In the second column, please indicate if the program is General Education (GE), Integrated Co-Teaching (ICT) special education, Special Class (SC), or Mixed-Group Class (MGC) special education. If a classroom bridges two grades, list as 0.5 classrooms for both grades.
Please include the total number of classrooms for each bilingual program in the last column.

	Program Type	Language	School Yr Opened	k	1	2	3	4	5	6	7	8	9	10	11	12	Totals
TBE	na																0
TBE	na																0
TBE	na																0
DLBE	GE	Spanish	2017	1	1	1	2	1	1								7
DLBE	na																0
DLBE	na																0
				total: 1	total: 1	total: 1	total: 2	total: 1	total: 1	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	

Part III: ML/ELL Programming

Please refer to New York State **Commissioner's Regulation (CR) Part 154 Units of Study Tables** as you describe academic programming for MLs/ELLs at your school below. Please do not leave any fields blank and indicate "N/A" for any fields that are not applicable.

Describe your English as a New Language (ENL), and if applicable Dual Language Bilingual Education (DLBE), and Transitional Bilingual Education (TBE) programs. For each program, include:

- How stand-alone ENL is implemented as per CR Part 154
- How integrated ENL is implemented as per CR Part 154
- How students are grouped (e.g., block [class travels together as a group], ungraded [all students regardless of grade are in one class], heterogeneous [mixed proficiency levels], homogenous [proficiency level is the same in one class]).

a. English as a New Language (ENL)
Stand-alone ENL:

At P.S. 316, ML/ELL students are provided Stand-Alone and Integrated ENL instruction according to CR Part 154 requirements for Units of Study, K-8. Entering and Emerging students receive 180 minutes per week of Stand-Alone. Transitioning students receive 90 minutes of Stand-Alone.

For Stand-Alone instruction ENL students are pulled out of their main homeroom classroom to the ENL classroom. They are grouped in grade bands (K-1, 2-3, 4-5) with heterogeneous proficiency levels.

Integrated ENL:

At P.S. 316, ML/ELL students are provided Stand-Alone and Integrated ENL instruction according to CR Part 154 requirements for Units of Study, K-8. Entering and Emerging student receive 180 minutes per week of Integrated. Transitioning students receive 90 minutes of Integrated. Expanding students receive 180 minutes of Integrated. Commanding/former ELL students receive 90 minutes of Integrated ENL instruction.

For Integrated ENL, the ENL Teacher goes to the students' main classroom and co-teaches the lesson with the main classroom teacher (or teachers in the case of ICT). The ENL teacher provides scaffolding and differentiation (incorporating home language, visuals, sentence frames, graphic organizers, etc.) that will support the ENL students in that class in accessing the lesson. When it is part of the lesson format, the ENL teacher may work with a small group of the ENL students in the class, or an individual student, as needed. We have 24 students receiving Integrated ENL. They are located in 13 different classrooms. Within their own classroom, for Integrated ENL, students are grouped according to their learning needs, typically according to their proficiency levels.

b. Bilingual Education (If applicable)
Transitional Bilingual Education (TBE):

N/A

Dual Language Bilingual Education (DLBE):

PS 316 has a Two-Way Spanish-English DUAL Language Program in grades K-5. The majority of our DL students are monolingual English who are learning Spanish as a second language. All Spanish speaking ELL students are placed in one of our DL classes, unless the parent chooses otherwise, or, the student's IEP stipulates ICT.

ELL students enrolled in the DL Program receive Stand-Alone ENL instruction from the ENL teacher, pulled out of their main classroom to the ENL classroom. They are grouped in grade bands (K-1, 2-3, 4-5) with heterogeneous proficiency levels.

They receive Integrated ENL instruction during their ELA lessons from their Bilingual DL teacher, in their main classroom.

They receive a minimum of 1 class of HLA (Spanish) instruction from the DL Spanish-language teacher, and a minimum of two content area classes, including science and social studies, also from the DL Spanish-language teacher, in their main classroom.

2. How does your school ensure the mandated number of instructional minutes are provided according to students' English language proficiency levels in each program model?

The Administration and the ENL teacher arrange the ENL schedule so that ELL students are scheduled for the correct amount of time, according to their proficiency levels, following requirements outlined in the NYS CR Part 154-2 K-8 ENL Units of Study Table.

Students enrolled in the Dual Language Program are schedule for ENL, HLA, and Bilingual Content classes following requirements outlined in the NYS CR Part 154-2 K-8 TBE Program Units of Study Table.

3. How are ENL, English Language Arts (ELA) and if applicable, Home Language Arts (HLA) instructional minutes delivered in each program model?

ENL
For Stand-Alone ENL instruction all ELL students whether in a monolingual class or a dual language class are pulled out of their main classroom to the ENL classroom. Groups are heterogeneous proficiency levels, mixed home languages, and limited to two contiguous grade levels.

ELA
Integrated ENL instruction is delivered during ELA lessons. Students in a monolingual class are instructed by the ENL teacher and the main classroom teacher co-teaching in the main classroom. Students in dual language classes receive integrated ENL during their ELA lessons from their bilingual DL teacher in their dual classroom.

HLA
Home Language (Spanish) Arts lessons are provided to students in the Dual Language classrooms, provided by DL Spanish-language teachers.

4. For schools with Dual Language Bilingual Education (DLBE) programs:

a. Which Dual Language Bilingual Education model is implemented? Explain how much of the instructional day (percentage) English proficient students and ELLs are integrated.

PS 316 has a Two-Way Spanish-English DUAL Language Program in grades K-5. The Spanish-English Dual Language Program at P.S. 316 consists of one DL class per grade level in all grades, except for grade 3, which has two DL classrooms - one is GenEd Dual and one is Gifted and Talented Dual. Our Two-Way Dual program places both English-proficient/Spanish-learner students together with English-learner/Spanish-proficient students in the same classroom. Our dual classrooms are self-contained; all students stay in one classroom with two teachers – one who teaches ELA (English Language Arts) and the other who teaches SLA (Spanish Language Arts). The English-proficient students and the English-learner students are together the whole school day except when the ELLs leaves the dual classroom to go to the ENL classroom for stand-alone ENL instruction. The amount of time they are out of the classroom is determined by their English proficiency level. Entering and Emerging students have 180 minutes per week of stand-alone ENL. Transitioning students have 90 minutes per week of stand-alone ENL. Thus, the Entering and Emerging students are with the class 88% of the time and the Transitioning students are with the class 94% of the time. The Expanding and Commanding students are with their DL classes 100% of the time.

b. In which language(s) is each core content area taught?

ELA is taught in English with home language support as needed for ELL students (Integrated ENL). SLA is taught in Spanish. Math is taught in English with English and Spanish materials and HL support for ML/ELLs. Social Studies and Science are taught in Spanish and English.

5. For schools with Transitional Bilingual Education (TBE) programs:

a. Which core content areas are taught bilingually?

N/A

Part IV: Data Analysis

Data Analysis

After reviewing and analyzing school demographic and assessment data, answer the following questions. The ELL Data Analysis Tool (EDAT) provided by the Office of Multilingual Learners can assist with identifying these data points.

For additional information, refer to Data Analysis Professional Learning Module and ELL Data Analysis Tool (EDAT) Professional Learning Module.

1. What is the composition of the ELL subgroups at your school?
What percentage of ELLs are Newcomers? How does effective instruction for Newcomers differ from those provided to Developing or Long-Term ELLs?

ENL instruction for our ELL subgroups is, tailored toward their grade level, their English proficiency level, home language and culture, and their learning needs and strengths.
13 of our 24 ELLs and f-ELLs are Newcomers. Their instruction emphasizes oral language development in English, and vocabulary with use of cognates as much as possible.
Foundational reading skills are heavily emphasized: Heggerty for phonemic awareness, use of a sound wall with mouth pictures for instruction in proper articulation of sounds, letter name and sound knowledge, blending and segmenting, use of decodables for application practice, letter formation.
Reading comprehension is developed through dialogic read-alouds with questioning and discussion and knowledge building.
Academic language is developed through writing and close reading, learning about syntax (SVO, parts of speech, phrasing, grammar, punctuation).
Instruction for Newcomers will typically have heavier language scaffolding (visuals, sentence frames, use of home language), with gradual release, to facilitate their access to grade level material, than will instruction for Developing or Long-Term ELLs.

What percentage of ELLs are Students with Inconsistent/Interrupted Formal Education (SIFE)? How do you differentiate effective instruction for SIFE?

We rarely have any SIFE students and as is typical, we have none this year. If and when we would receive any, their instruction
would emphasize school skills, oral language development in English, vocabulary, writing including letter formation as needed, letter name and sound knowledge. SIFE instruction is differentiated from non-SIFE by including practical school, academic, and learning behaviors that SIFE students may not have had the opportunity to acquire, such as following class routines, how to hold a pencil, how to play with classmates at recess, etc. SIFE students will often receive Tier 3 intervention AIS to help them learn academic skills that may be lacking.

What percentage of ELLs are Long-Term ELLs? How does effective instruction for Long-Term ELLs differ from instruction designed for Developing ELLs?

As an elementary school, we very seldom have any long-term ELLs since if they begin in Kindergarten and continue up through 5th grade they would only have received 6 years of ENL services. In the rare case that a student would be held over, or overage, there is a chance that s/he might be a long-term ELL. In that case, their instruction would be very targeted to their needs, as determined by assessment data. We would provide academic intervention, utilizing a supplemental program, rather than double-dosing with the same instruction or curricula.

What percentage of students are former ELLs? How is your school providing mandated instruction to former ELLs?

We currently have 5 former-ELLs who are all in the grades 1, 4, and 5. We provide instruction to them through Integrated ENL. The ENL teacher accesses i-Ready to monitor f-ELLs' diagnostic results, and following students' individual reports, uses flexible grouping to form groups and provide targeted instruction.

2. Examine all at-risk levels that might adversely affect ELLs at your school. What trends do you notice about the at-risk levels of ELLs at your school?

The at-risk indicator with the largest percentage of ELL students is Newcomers at 94%.
The at-risk indicator with the second largest percentage of ELL students is ELLs who did not demonstrate sufficient progress on NYSESLAT, at almost 30%.
The at-risk indicator with the third largest percentage of ELL students is ELLs in Temporary Housing at 24%.

3. Examine all at-risk levels that might adversely affect former ELLs at your school. What trends do you notice about the at-risk levels of former ELLs at your school?

There is only one former ELL who has an at-risk indicator, who scored a 1 or 2 on ELA.

4. What are the home languages of ELLs with the largest representation at your school? What staff, structures, and processes does your school have to support communication and learning that values these home languages?

The home language with the largest representation among our ELL population is Spanish, at about 60%. This is one of the factors that prompted our school to start a Spanish-English Dual Language program in 2017. In addition to the Dual Language program, we also have a dedicated Spanish language teacher at our school who provides regular Spanish lessons to every monolingual language (non-Dual) class in the school. This approach has elevated use of the Spanish language amongst the entire school community. As an International Baccalaureate school, incorporation of diverse cultures and languages in our environment is one of our major tenets. The ENL teacher, the Office, and the PTA all take steps to include communication to families in their preferred languages. We use Google translate for documents, over-the phone interpretation, and the DOE translation unit. The PTA creates What's app groups in the most frequent languages of our school - Spanish, Haitian Creole and French, and Arabic.

5. What are the racial and ethnic classifications of ELLs at your school? How are ELLs being included in planning and delivery of Culturally Responsive and Sustaining Education (CR-SE)?

Ethnic classification of our ELL population is 60% Hispanic and 40% non-Hispanic. Racial classification is 53% Black, 24% Multiracial, 12% White, and 12% American Indian/Alaska Native. As an accredited IB school, we proactively emphasize CRSE for every single student when planning curriculum and instruction. The IB approach explicitly embeds instruction inclusive of global-mindedness and learning about other cultures and peoples. Students see their family's background and culture highlighted by the class and are able to share their knowledge and experiences. Our classroom libraries are stocked with books representing a wide range of cultures, families, and lifestyles from around the globe. We want children's learning experiences to be both a reflection of themselves, as well as a window into the experiences of others. All four principles of CRSE are addressed to support ELLs. 1) We endeavor to provide a very warm and welcoming environment to ELL families. The ENL teacher meets with all incoming ELL families, spending time to give a tour and share info about the school and answer questions, as well as providing written info including best ways to contact the ENL teacher. 2) We have high expectations for all students, including ELLs. We meet them where they are in their learning and provide rigorous instruction that will promote growth. 3) Our curricula and classroom climates are strongly inclusive, especially as described above as an IB school. 4) Our teachers are encouraged to pursue professional learning that will support them in improving their craft. The ENL teacher shares with all teachers opportunities for PDs related to ENL students.

6. What trends do you notice in reviewing English Language Proficiency (ELP) growth at your school? How many students met ELP sufficient progress? How many students did not meet ELP sufficient progress?

We have 17 ELL students in total.
7of them have either no NYSESLAT scores at all yet, or do not have two NYSESLAT scores for comparison.
3 of them exited.
2 student met the annual growth target.
5 did not meet the target.

7. When you look at the results of the New York State English as a Second Language Achievement Test (NYSESLAT), what stands out? What trends are there for each modality?

In 2024, 18 students took the NYSESLAT exam. 78% of them increased their proficiency level by at least one level. 22%
stayed at the same proficiency level, and none decreased their proficiency level. Of the four ELL students with disabilities, 2 of them increased (one by one level, and one by 3 levels) and two of them remained at the same level.
Overall, Writing was the weakest modality. The other three modalities, Speaking, Reading, Listening, were approximately equal, with Listening being the weakest by a small degree.
In general, lower grade students (K-2) show little or no strengths (defined as scoring at least 90% in a modality). They tend to be beginner English learners. Upper grade students are the ones that show strengths.
In general, lower grade students show more areas of need (scoring less than 15% in a modality) than upper grade students. Again, this makes sense since they are more likely to be the students with fewer years of service and less exposure to the English language.

8. What is the relationship between students' performance on the NYSESLAT and other state assessments such as the ELA assessment, the Math assessment, and the Regents exams?

1 Commanding ELL student recived a 3 on ELA, and one Commanding ELLs tduent receivbed a 4.

ELL students took the ELA.

9. What are trends reflected in the NYSESLAT results of ELL subgroups such as ELLs with IEPs and SIFE? What do you think is impacting the results for these subgroups?

10. (For grades 9-12 only) Please review your data in the Insight Tool and STARS to answer the following questions:
a. How many ELLs are on-track towards graduation?

b. How many ELLs in grades 11-12 have a documented postsecondary plan in STARS or ATS?

c. What targeted strategies and interventions are in place to support ELLs who are currently off-track to graduate in four years?

d. What specific strategies, engaging approaches, and interventions are implemented to support and retain students who are not on track to graduate within four years, ensuring they remain enrolled and are guided towards a successful graduation in the future?

Part V: ML/ELL Instruction

Tier 1: Core Instruction

For additional information, refer to ML/ELL Instruction Professional Learning Module.

Tier 1 Core Instruction

1. How does your school provide ELLs with a high-quality academic experience that leads to deeper learning?

Our ENL teacher pursues a robust professional learning schedule, focusing on structured literacy approaches specifically for ELLs (webinars presented by Claude Goldenberg and Elsa Cardenas-Hagan) as well as professional learning event about the cognitive learning science (Daniel Willingham, Mark Seidenberg, Stanislas DeHaene). Utilizing the information from these professional learnings, such as spaced practice, spiral review, frequent small quizzes, explicit instruction, multi-sensory instruction, all support deeper learning. Our IB approach to learning, with the Program of Inquiry around central questions, with project based learning, provides a high-quality academic experience with ongoing opportunities to develop critical thinking skills.

2. How does your school's leadership team ensure ELLs have access to core instruction/curriculum?

Our school's Leadership Team considers ML/ELL students in the school's instructional design first by recognizing that the ML/ELL population at 17K316 fluctuates between 15 and 20 students annually, in all six grade levels from Kindergarten to 5th Grade, and all five English proficiency levels from Entering to Commanding. These students are placed across 12 different classrooms. The ENL teacher is a continuing member of several school teams including Literacy, MTSS, Testing, and provides ELL data (EDAT, NYSESLAT, Acadience Reading, i-Ready, etc), phonemic awareness data, and core phonics assessment data to inform decisions about ELL's learning needs and choosing/designing instructional strategies and approaches, bearing in mind one of the tenets of the school is strengthening core instruction. The Leadership teams recognize and value the cultural and linguistic assets that multilingual students and families contribute to our community. Students and families who have additional languages at home and/or who come from other countries bring with them a knowledge base of cultures, traditions, viewpoints, linguistic features that greatly enrich our school community. The school staff and the PTA work together as a team to actively include families who are from different backgrounds.

3. Describe how core content is delivered in each program model. Specify language, and the instructional approaches and methods to foster language development and meet the demands of the

Next Generation Learning Standards.

ENL program model:
Core content (ELA, Math, Science, Social Studies) is delivered primarily in English with Home language and ENL supports (providing texts in the home language, use of cognates, pairing students with same home language speakers, bilingual classroom paras, comparative language instruction) and scaffolding appropriate to ELL learners (eliciting and enhancing background knowledge, frontloading vocabulary, adjusting Lexile level of text, implementing comprehension routines, etc.).

DL program model:
Core Content is delivered in English and/or Spanish depending on the subject, as described earlier. Bilingualism and biliteracy is celebrated as a valuable asset. Spanish language Arts (HLA), Science, and Social Studies employ Spanish language texts. The ENL teacher and the Dual co-teachers plan together for instructional approaches.

In both models, oral language is fostered through turn-taking conversations, and oral activities. Oral language abilities and language comprehension are essential for reading comprehension. Instructional activities such as interactive read-alouds, discourse analysis, and vocabulary instruction support development of language comprehension.

4. What instructional strategies and grade-level materials, including technology, do teachers of MLs/ELLs use to provide access to grade level academic content areas and accelerate English language development? Include core content area and language materials with consideration to specific ELL subgroups.

a. ELLs with IEPs

A wide range of instructional strategies and grade-level materials are used to provide access to grade-level academic content and to accelerate English Language development for all ELLs.

For ELL students with IEPs, using IEP goals as a guide, as well as assessment data from Acadience and iReady, instruction is designed and individualized to accelerate English language development.

In general, instructional approaches are designed using the I do, We do, You do, as well as Think-Aloud formats to scaffold student learning. As much as possible, we incorporate multisensory activities throughout the day to reinforce learning, especially in reading and listening. A frequent approach is activating and building content knowledge, which can serve as an anchor for building new knowledge. In all content areas we employ multi-media, such as video, audio, images, texts, and read-alouds to present content and to reinforce learning. Another way to reinforce learning is to always include review at varying time-intervals.

For young ELLs, a priority is to develop oral language - speaking and talking as much as possible. Two new curricula were just purchased to facilitate that. Colors and Shapes for Oral Language and Listening Comprehension from Neuhaus.org has teacher-led structured activities that include naming, describing, listening/questioning, retelling, summarizing. From Alegra Learning we purchased on online program, Joy School English, that elicits spoken responses from students which are then evaluated with the use of speech recognition, and adapted to the student's proficiency. Other technology programs that we utilize include MyOn, Epic, Brain Pop, Sora, and videos (with captions) paired with texts. The use of text to speech feature can scaffold ELL access to content.

Connected closely to oral language is vocabulary acquisition as essential for ELLS. Regular daily vocabulary instruction is important, with the use of images, writing the word, saying it, using it in a sentence, spelling it verbally, and, returning to it at spaced intervals.

Foundational skills in learning the English language are critical for ELLs and for all students. Learning the sounds and names of the letters of the alphabet, the 44 sounds of the English language and how those sounds are articulated in our mouth (sound wall, Kid Lips), decoding, use of decodables for practice, encoding (speech to print), and the many phonograms used to spell those 44 sounds. Finally, syntax is an important component of reading comprehension and of writing.

b. SIFE

We do not currently have any students identified as SIFE, though the school is prepared to meet the needs of prospective SIFE students by administering the NYSITELL, the SIFE Oral Interview Questionnaire, the Multilingual Literacy SIFE Screener and the Writing Screener. Practices that would facilitate access and engagement with grade level content would include: providing individual attention, explanation and demonstration of typical school routines and expectations for learning tasks, activating prior knowledge, building new knowledge, use of home language materials including videos, modifying lexile levels of texts, forming cooperative groups and pairings of same-language students, use of visuals.

c. Newcomers

Newcomer ELL students (0-3 years) is our largest subgroup. They often (not always) have lower levels of English proficiency. They are provided with individual attention to help them feel comfortable and acclimate to the school routine. They receive intensive instruction in basic language skills such as phonological awareness, alphabet knowledge, phonics, letter formation, writing, and vocabulary development. Newcomers in upper grades, who will be required to take the ELA after their first year, receive ELA test instruction, including test-taking skills, practice exams, and specific instruction during class time. Practices that facilitate access and engagement with grade level content include: Leveraging the student's home language, provide texts, audio, and video in the student's home language, modify lexile level, pair with students of the same language, employ staff with the same language to provide explanation in the students' home language, visuals, graphic organizers, sentence starters, activate prior knowledge, build new knowledge, engage students in collaborative learning projects.

d. Long Term ELLs

We currently do not have any long-term ELLs (6 or more years) since we have only 6 grade levels, K-5. Nonetheless, instruction for these students would include intensive structured literacy sessions and use of Rewards Reading Intervention. Long-term ELLs often possess fluency in BICS (Basic Interpersonal Communication Skills) but are weak in CALP (Cognitive Academic Language Proficiency) . A strong focus on academic language, sentence structure, vocabulary, and higher level thinking skills would be provided to address these deficiencies. Practices that facilitate access and engagement with grade level content include: Judicious use of scaffolds, withdraw scaffolds as mastery grows, read-talk-write-talk routines, build student agency, encourage student self-directed learning skills, expand academic language learning, facilitate critical thinking skills and metacognition.

5. What supports does your school provide to ELLs with IEPs to achieve their IEP goals and attain English language proficiency within the least restrictive environment?

ELLs with IEPs are provided texts in both languages and at varying Lexile levels as much as possible to foster acquisition of content knowledge. When beneficial for student learning, we have been able to take advantage of scheduling flexibility. For example, a student in grade 2 who needs extra support in phonics, can be sent to join a grade 1 class just for Fundations. The ENL teacher has an active collaborative working relationship with the speech providers in the school, and consults regularly with them. For students with IEPs, the ENL teacher meets with the student's classroom teachers to develop in-depth learning profile in order to allow for ongoing adaptation of scaffolds (introducing different ones, or judicious removal of scaffolds), as determined by the student's progress.

6. How is home language assessed in each program model (DLBE, TBE, and ENL)?

For both DL and ENL programs, the Dual Language Teacher team (including the ENL teacher) will perform brief colleague classroom visits to observe classroom practices, and identify ways that HL support is evident and where it could be added. They then collect suggestions as to how to increase HL support where needed, and estimate which of the ways could be most impactful. The teacher will set a goal and timeframe to implement the new practice(s), after which success is assessed, reflected upon, and adjusted as needed.
In addition, when the ENL teacher is providing integrated ENL in the main classroom, she observes evidence of HL support or lack thereof, and provides suggestions or materials to the main classroom teacher as needed. Our Spanish/English DL classes use two Spanish-language curricula (Estrellita and Arriba la Lectura) to deliver home languages support for SLA. To evaluate the strengths and weaknesses of home language support we administer Spanish Acadience and iReady in Spanish.

7. (For grades 6-12 only) What language electives are offered to MLs/ELLs? How is your school preparing MLs/ELLs to obtain the New York State Seal of Biliteracy?

na

8. Describe systems and structures for supporting co-teaching and collaboration among teachers for all ELL program models available at your school (e.g. integrated co-teaching, Dual Language Bilingual Education teacher partnerships, etc.).

All teachers are scheduled for 6 preps per week, one of which is devoted to weekly grade-level team meetings. The ENL teacher attends at least one of them each week, with a focus on grade-level lessons and methods for supporting ELLs. This applies to both Dual Language and GenEd classrooms. Because a large number of ELLs students are in Dual language classes, the ENL teacher is integrally involved in the Dual Language Teacher and works closely with the DL team.

9. Describe how your overall, annual professional learning plan ensures that all staff – including administrators, teachers and -non-pedagogical staff – incorporates learning specifically related to the

academic and social emotional needs of MLs/ELLs. Professional learning topics might include co-teaching strategies, or integrating language and content instruction.

Our school has a Professional Learning Team. We ask teachers, administrators, and other staff to complete a survey about which topics and types of professional learning they would like the school to provide. In addition, data from teacher observations and from school assessments informs which areas of professional learning would be useful. The team considers data from subgroups of students – including ML/ELL subgroups – to determine needs for professional learning. A large majority of our classrooms have two teachers and Administration provides PD on best practices for co-teaching. Additionally, the ENL teacher regularly shares current research articles to all staff members for discussion as well as information about available PDs related to English language acquisition. This year there will be an emphasis on the science of reading - this includes both the science of two students learn to read as well as the science of how to teach reading, as well as the science of learning. Some of the research that we consult includes the work of Stanislas DeHaene, Linneah Ehri, Claude Goldenberg, Elsa Cardenas-Hagan, Louisa Moats, Mark Seidenberg, Daniel Willingham, among others.

10. Describe your school's professional development plan in order to meet the mandated Continuing Teacher and Leader Education (CTLE) ELL specific hours for certification renewal as per CR Part 154 (15% of total hours for all certified faculty [holders of professional certificates in the classroom teaching service, educational leadership service and level III teaching assistant certificate holders] and 50% of total hours for bilingual education/ENL teachers receive ELL-specific professional development).

The Professional Learning Team distributes information to all pedagogues, Level III Teaching Assistants, paraprofessionals, and Educational Assistants to inform and remind them of the CTLE requirements, including the 15% for all faculty and 50% for ENL teachers. The ENL teacher subscribes to MLL Monthly published by the Multilingual Department, the NYC Reads professional learning lists, and outside professional organizations such as NYSED's calendar of ML/ELL PDs (http://www.nysed.gov/bilingual-ed/continuing-teacher-and-leader-education-ctle-requirements-ell-and-ml-educators), Nassau BOCES, RBERN at Fordham, and distributes that information to all staff so they are able to access ELL PDs for their 15%. Our school utilizes a system in which we record all our PDs, with reflections on our professional learning.

Assessment

SCREENERS

11. Which screening assessments (e.g.iReady, MAP Growth, Acadience, or STAR Reading) does your school use to guide instructional planning for your ELLs?

For screeners, (BOY-Beginning of Year, MOY,-Middle of Year, EOY-End of Year), we use Acadience Reading and iReady Math for grades K-2 and i-Ready Reading and Math for grade 3-5. These assessments are administered in both English and Spanish for bilingual students. This helps us identify students who are at or above grade level, just below, or far below. Other assessments used at the beginning of the year (envision Math BOY assessment, BOY writing samples, and a school-created foundational literacy skills assessment also contribute data to the screening process. Once data is triangulated and these groups are identified, further diagnostic assessment is administered if needed to inform design of targeted instruction.

12. For all grades, list and describe your targeted intervention programs for ELLs in ELA, Math, and other core content areas (specify ELL subgroups targeted). Include the language(s) in which the intervention services are offered.

There is a range of targeted intervention programs in our school. Outside of the school day, we have three primary intervention programs.
The Early Bird Readers program is for emergent readers in K and 1 who need additional support that uses Heggerty for phonemic awareness, phoneme-grapheme mapping activities (described by Linnea Ehri's research), and decodables for practice. We have our Learning Together After School program for Grade 2 and 3 students who need support in foundational reading skills and/or comprehension skills. For grades 3-5 ELA and Math we have an After-School Academy and a Saturday Academy that use i-Ready. During the school day, during whole-class independent reading, small groups are formed and ELLs in grades 3-5 receive Tier 2 targeted intervention in the class. For alphabet letter knowledge, we use Sounds Sensible. For phonics/reading/word recognition (decoding and spelling) support we use SPIRE. Most of our lower grade ELL students also receive instruction from our AIS teacher, to support their literacy. ELL subgroups that are enrolled in these programs include ELL students with IEPs, Newcomer ELLs, Developing ELLs, ELL students far below grade level and those just below grade level. This will be our third year in year in partnership with CUNY Reading Corps tutors. During the school day, they provide free one-to-one in-person literacy tutoring for three or four half-hour sessions each week. All of our ELL students who would benefit receive this tutoring. CUNY Reading Corps uses their own curricula, titled Reading Ready and Reading Go, based on the Reading Rescue curriculum designed by Nora Hoover. This tutoring is also provided to some students after school, directly to their home, on zoom. During the summer we are a host site for CUNY Reading Corps at our school during Summer Rising. About 50 of our students, receive this same kind of high dosage tutoring with in-person tutors. In addition, we have scheduled about 30 students to receive Direct-to-Home tutoring on zoom over the summer. Nearly all of our ELL students are signed up. Tutoring is available from bilingual tutors, and nearly all of our ELL students are registered, and will participate even from outside of NYC, including from the Dominican Republic. Summer tutoring will not only help prevent summer slide but also help accelerate their English language development.

13. For all grades, describe how your school uses data to guide instruction for ELLs within a Multi-Tiered System of Supports (MTSS). Refer to the Instructional Leadership Tool for MLs and ELLs and MTSS Guide for MLs and ELLs to help in the development and implementation of your school's plan for MLs/ELLs.

We have a robust MTSS system. The ENL teacher is a permanent member of the MTSS team. All classrooms utilize small group interventions within their Tier 1 instruction. Tier 2 and Tier 3 are provided in a variety of ways, as mentioned above. Acadience grouping feature and iReady data are utilized to form small groups with similar targeted learning needs, These groups are flexible and progress-monitored every 6 weeks, using assessments relevant to the intervention instructional program being used.

FORMATIVE

14. Which formative assessments (e.g. NYC performance Tasks, ELL Periodic Assessment, HLA Assessment, DRA, teacher-created assessments, etc.) are used to inform and drive instruction?

All students, including ML/ELLs are assessed regularly throughout the school year. We use a wide variety of assessments for formative purposes, administered at multiple points throughout the school year: ELL periodic assessments, ELL Micro-bundle assessments, HLA periodic assessments, Estrellita and Arriba la Lectura assessments in Spanish, Acadience Reading in English and Spanish, iReady in English and Spanish, on-demand writing samples, enVision Math embedded assessments, Science periodic assessment, embedded assessments in Heggerty, Sounds Sensible, SPIRE, and a Mock ELA and Mock Math exam in January. Data is collated and analyzed by the grade-level teacher teams, and the ENL teacher, who use it to modify instructional practices and provide interventions, to create flexible groupings, and differentiated instruction. The ENL teacher assesses and groups ML/ELLs according to learning needs, e.g., for targeted instruction in reading. Staff continue to access information from the Institute for Multisensory Education, which provides useful resources for methods to support structured literacy.

15. How do you ensure that MLs/ELLs are appropriately evaluated in their home languages throughout the year?

The school understands the importance of evaluating students in their home language in order to gauge their acquisition of knowledge and skills without a language barrier, in order to better address their learning needs.

For content area subjects, other than tests of the English language, most assessments, such as HLA, Estrellita phonics, Arriba la Lectura for reading and writing in Spanish, Acadience Reading and Math, enVision Math, NYS Math, and NYS Science, are available in Spanish. State assessments, such as NYS Science and Math are available in other languages such as Arabic and Haitian Creole. When needed, we use bilingual staff (Arabic, Creole, Spanish, French, etc.) or hire an interpreter for assessments.

The ENL Teacher monitors the progress of each ML/ELL student, and works directly with school staff to ensure that ML/ELL students are properly assessed in their home language throughout the school year. Results are collected, organized, and shared with the MTSS Team, Dual Language teachers, all Classroom teachers, and the ENL teacher.

SUMMATIVE

16. Which summative assessments (e.g. NYSESLAT, ELA, Math, Regents, etc.) are used to evaluate the effectiveness of your ML/ELL programs and how does it inform instructional design and curricular decisions? (Refer to the ELL Data Analysis Tool).

Summative assessments are used to evaluate the effectiveness of our ML/ELL program. They include NYSELAT, NYS ELA, NYS Math, NYS Science, Into Reading, Arriba la Lectura, EOY administration of Acadience and i-Ready, enVision EOY assessment, and EOY writing samples. The data from these assessments is compared to data obtained from BOY assessments to see which areas of instruction and which student subgroups show growth or a lack of sufficient growth. The EOY summative data is also compared to the EOY summative data from the previous year as well to discern possible trends – successful or unsuccessful. This analysis informs decisions about possible curricular changes or instructional approaches.

17. What is your NYSESLAT administration plan? How does your school ensure that all ELLs are tested with the NYSESLAT annually? Include the titles of the staff that will administer and score the assessment. Please describe your plan to ensure that all ELLs and former ELLs continue to receive mandated instruction during the testing period.

NYSESLAT administration is organized by the Test Coordinator and ENL teacher, with Administrative approval. Based on scheduling logistics, a selection of pedagogical staff are trained in administration and scoring. The ENL teacher and students' own classroom teachers do not administer/score the Speaking portion or score the Writing sections. Student results are shared with families in the following Fall when scores are available. ELLs continue to receive their mandated units of study with programs and scheduling designed by Administration.

18. How does your school ensure that current and former ELLs receive necessary accommodations for state assessments, including the Specialized High School Admissions Test (SHSAT) if applicable?

ELL students receive ELL accommodations and IEP accommodations both during the school year in the classroom as well as during state assessments such as NYSITELL, NYSESLAT, ELA, Math, and Science. The ENL Teacher is a member of the Testing team and the MTSS team, so is frequently involved in examining IEPs and testing arrangements. At the beginning of the school year and periodically throughout the year, teachers are informed of which accommodations specific students receive. As a member of the testing team, the ENL teacher creates groups of students for testing, based on their accommodations to ensure that all students receive their accomodations.

Part VI: Family Partnership

Family Partnership

Required Meetings Under CR Part 154

Describe your schools' plan to ensure families of ELLs are provided with the required meetings specified below as per CR Part 154. Include:

- Topics discussed during these meetings
- How your school ensures families receive necessary translation/interpretation supports to meaningfully engage in the meetings
- How your school schedules these meetings to facilitate attendance, and how your school maintains evidence of these meetings as required per the NYC DOE Policy and Reference Guide for MLs/ELLs.

a. ELL Program Orientation to inform parents/guardians of newly identified ELLs of ELL program options, including the program goals and requirements for all three ML/ELL program models: Dual Language Bilingual Education, Transitional Bilingual Education and English as a New Language regardless of whether the school currently has either type of bilingual program and provide a high-quality orientation section on the Next Generation Learning Standards, assessments, and school expectations for English Language Learners.

The families of students who are identified as ELLs by the NYSITELL are invited to Orientation meetings , grouped by preferred language (Spanish, Haitian, Arabic, English, etc). Because we have a small ELL population, these meetings are small or sometimes individual. We use bilingual staff interpreters or if necessary request outside interpreters either from the Translation and Interpretation unit or a DOE-approved vendor. Parents are surveyed in advance to schedule times that are convenient for them - sometime just after school dismissal, or before the school day, or in afternoons or evenings. Documents are retained in a file. The agenda includes handouts (translated) with discussion about Next Gen standards, instruction, and assessments.

b. Annual Individual Meeting to discuss goals of the program, language development progress, language proficiency assessment results, and language development needs in all content areas. Note: this meeting is separate from and does not include the mandated ELL program orientation meeting and DOE-scheduled parent-teacher conferences.

Annual Individual Meetings take place at various times during the school year, depending on student needs or parent preferences. We use bilingual staff interpreters or if necessary request outside interpreters either from the Translation and Interpretation unit (possibly Over -the-phone or on zoom) or a DOE-approved vendor. Parents are surveyed in advance to schedule times that are convenient for them - sometime just after school dismissal, or before

the school day, or in afternoons or evenings. Documents are retained in a file. The agenda includes handouts (translated) with discussion about instructional goals, English language progress, assessment results and any particular strengths and needs of their child.

Family Engagement

2. Beyond the mandated meetings and orientations, describe how your school:
a. Ensures families receive all school communications and documents in the language they best understand. How are families able to respond or initiate communications in languages other than English?

We emphasize Language Access for our ML/ELL families as well as for families whose adults are ELLs but whose children are not. At the beginning of each year as well as periodically throughout the year, using the ATS RAPL report to identify the preferred oral and written languages of families, we distribute information about the DOE's Family Access interpreter service Hello@schools.nyc.gov, 718-935-2013. For non-English speaking families whose child receives an IEP, the IEP is provided in their preferred language. The school office maintains a list of families whose preferred language is other than English, and provides documents, flyers, and letters home in those languages.

b. Develops activities that foster empowerment for families of MLs/ELLs. Include how your school determines the needs of your community.

Two important factors in family empowerment are 1) strong relationships with the student and their family, and 2) ready access to information about the school and their child's educational experience.

The ENL Teacher, the Parent Coordinator and Classroom teachers all perform direct outreach to ELL families, and make themselves readily available via email, DoJo, telephone, and in-person at dismissal and arrival.

c. Ensures families of MLs/ELLs are aware of family leadership opportunities (such as Parent Association (PA), School Leadership Team (SLT), Community Education Council (CEC), etc.)

The PTA works closely with the ENL teacher to reach out to families with child or adults ELLs to ensure they are encouraged to join and participate. Notices of PTA, SLT, and CEC activities, membership, and events are in translated languages.

3. What culturally and linguistically responsive partnerships do you currently have that support the needs of your school community?

Our school emphasizes and fosters inclusiveness and cultural awareness We strive to understand the many cultures that enrich our school community as well as learn about cultures that are far afield. We encourage a willingness to recognize and transcend whatever cultural biases we might have. Accepting and navigating the dynamics of difference can be both challenging and highly rewarding. our adherence the IB mindset embraces languages and cultures. We have a number of partnerships to enrich our community. Alvin Ailey residency has been a partner for over a decade. The same is true of the Student Shakespeare Festival. Last year, our 4th grade class performed their play in Spanish to an audience from around the city. We have a partnership with a violin school who provides lessons twice a week. We have a steel drum class. MOCADA (Museum of Contemporary

African Diaspora Arts) conducts an after-school art project twice a week, culminating in an exhibition of student work at the museum. For Cinquo de mayo, we have had a mariachi band, a pinata party, SEA artists, and Latina author visits. There is not enough time to do as much as we would like!

Part VII: Additional Information

Additional Information

Include any additional information that is relevant to your LAP and would further explain and highlight how your school supports MLs/ELLs. This form does not allow graphics and charts to be pasted.

The ENL teacher has a close working relationship with the PTA and works with them to ensure that ML/ELL families know they are welcome and are valued as members of the school fabric.

Part VIII: ELL Identification Attestation and Principal Certification

Identification Plan

For additional information, refer to ELL Identification Attestation Professional Learning Module.

1. What are the titles of the members of your ELL identification team? Note: Members of the ELL identification team must be pedagogues.

ENL teacher, Dual Language Teachers, and bilingual classroom teachers and paras.

2. Describe the structures and process in place for identification of ELLs year-round as required by the NYC DOE Policy & Reference Guide for MLs/ELLs, including your school's identification plan for any incoming students with an Individualized Education Plan (IEP). Include:

- **How your school proactively plans for the ELL identification process so that it does not interrupt the provision of mandated ENL and/or bilingual instruction to current, former and potential ELLs,**
- **Who is responsible for each step of the ELL identification process, and**
- **School's plan for ensuring ELLs and former ELLs will continue to receive mandated instruction.**

The ENL teacher has formed and trained an HLIS Intake Team, together with the office staff. We have created an HLIS Team Handbook
containing all relevant information about the HLIS intake procedures, interview materials and questions for the student and family, HLIS forms in different languages, OTELE HL codes, etc. The HLIS team consists of several members, including certified pedagogues who are trained in the HLIS process:
ENL Teacher (ESOL-certified)
Dual Language Teacher (ESOL-certified, Spanish-speaking)
Guidance Counselor (certified pedagogue and School Counselor-certified, Arabic-speaking)
Parent Coordinator – family outreach and orientation
Family Liaison – Registration paperwork and welcome
Educational Assistant (Haitian-Creole)
When a family enters the school to register, the Family Liaison or Parent Coordinator contact an HLIS team member to meet with the child and parent to complete the HLIS form, and to welcome them to the school.

Principal Certification

In accordance with New York State's Commissioner's Regulations Part 154 as outlined and implemented in the NYC DOE Policy and Reference Guide for MLs/ELLs, I, attest that the following ELL identification procedures and activities are adhered to, and staff are trained on the items listed below.

- The ELL Identification Process is completed for each student within 10 school days of enrollment (20 school days for students entering with IEPs).
- Enrollment status of each newly admitted student is determined:
  a. If a student has been in New York State public schools within the past 2 years, our school contacts the previous school to obtain ELL status, relevant assessment scores, and English language proficiency level.
  b. If a student has been outside of New York State public schools for more than 2 years, our school administers the ELL Identification Process as part of reentry.

- The home language of the student is determined by a trained and licensed pedagogue.
  a. The parent completes the Home Language Identification Survey in the parent's preferred language; translation services are provided by a bilingual staff member, the DOE's over-the-phone translation services, or an alternative, high quality translation service.

- An interview with parents and students in English and the home language is conducted. This includes reviewing documents, prior assessments, and academic experience. An assessment of the student's abilities and/or work samples determines the student's literacy and math level in his/her home language.
- Eligibility for the NYSITELL is determined.
  a. If the newly enrolled student is entering with an IEP, the school's Language Proficiency Team (LPT) recommends eligibility to the principal, who obtains final approval from the superintendent.

- Students are administered the NYSITELL, if eligible.
- Notification letters are sent to the parent/guardian in their preferred language.
  a. Parent is notified of their child's ELL status and results of the NYSITELL.

- If the student is identified as an ELL and the student's home language is Spanish, the student is administered the Spanish Language Assessment Battery (LAB).
- Student with Interrupted/Inconsistent Formal Education (SIFE) status is determined using New York State's resources.
- If a student is a newly identified ELL, the parent is invited to the parent orientation meeting.
  a. The parent orientation meeting provides parents/guardians with an explanation of each ELL program model offered in NYC; the parent video describing the three programs is presented (in parent's preferred language); parents/guardians are encouraged to ask questions so that they are

informed about all ELL programs; translation and interpretation services are provided throughout the meeting.

- ELL is placed in the ELL program that the parent selected.
  a. If the bilingual program that the parent selected is not available, the parent is offered a transfer to a school with that bilingual program in accordance with NYC DOE transfer policies.
  b. If the ELL remains in the school, the ELL is placed in English as a New Language and our school keeps track of parent selection so that when minimum thresholds are met, we can open the ELL program of choice.

- Parents are notified that they have 45 days to appeal the ELL status of their child (ELL Re-identification Process).
- If the ELL Re-identification Process is implemented for any student, the principal reviews the decision of any student whose ELL status was changed because of the ELL Re-identification Process within 6 to 12 months.
- Copies of documentation regarding ELL identification, including letters and parent notifications are kept in the students' cumulative files.

LTI Overview and Part A: Designation of a LAC

Chancellor's Regulation A-663 establishes procedures for ensuring that Limited-English-Proficient (LEP) parents of students enrolled in the New York City public schools are provide with a meaningful opportunity to participate in and have access to programs and services critical to their child's education. To this end, schools must review and complete the annual LTI Plan to address its language assistance needs consistent with the requirements of this regulation.

The LTI Plan requires information on the following:

- Name of person designated as the Language Access Coordinator (LAC).
- Identification and assessment of LEP parent population.
- Identification of Critical Communications and standing, in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.
- Plan to ensure staff awareness of language access requirements and available resources.
- Provision of notice to parents on the available language assistance services.

Methods for the school to solicit and implement feedback on its provision of language assistance services.

Office of Language Access (OLA) Contact:

- **Contact Information:**
  - **Cunneely Elena, ECunneely@schools.nyc.gov**
  - **Rivera Ricardo, RRivera60@schools.nyc.gov**
  - **Williams Robert. RWilliams32@schools.nyc.gov**

Please do not edit

Elena Cunneely

Designation of a LAC
Name of person designated and trained as the LAC.
At the start of each school year, each principal is required to designate at least one staff member to serve as the Language Access Coordinator (LAC), responsible for overseeing language assistance services within the school.

We have pre-populated the following information based on our records. Please confirm that the designated staff member(s) are your school's Galaxy-designated LAC(s) and provide the date(s) they attended the OLA Language Access Coordinator Training. Note that this training is in addition to the mandatory asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform. If any information is missing, please provide the requested details.

As a reminder, LACs are internal staff designations and are not meant to serve as the primary point of contact for families regarding language access-related matters. The Parent Coordinator, or another designated staff member, should remain the main contact for families regarding all issues, including language access.

First Name	Last Name	Title	Date attended OLA Language Access Coordinator Professional Learning Opportunity	Confirmed (Y/N)
Karen	Jenkins	Parent Coordinator - Annual	March 2025	y
Ellen	Pratt	Teacher - Regular Grades	11/15/2023	y

Part B: Parents' Preferred Languages

Parents' Preferred Languages

Language identification and assessment of parent population.

1. Check the resources your school staff uses to identify parents' preferred languages:

,Automate The System (ATS) reports / Next Generation Student Information System (NGSIS),Part III of the Home Language Identification Survey (HLIS),New York City Schools Account (NYCSA) Student Profile,Student Emergency Contact cards

If Other was selected, describe the resource here:

2. We have pre-populated the following information from the Parent's Preferred Language Report (RCPL) in ATS. For the last two columns, please indicate the number of school staff members who are comfortable using their language skills to communicate with parents and regularly assist other staff members and families with translation and/or interpretation. If none, enter "0".

Language (Description within RCPL)	Written Preferred Count	Written Preferred Percentage	Oral Preferred Count	Oral Preferred Percentage	No. of Staff to Help with Written Translation	No. of Staff to Help with Oral Interpretation
AMHARIC (AKA ETHIOPIAN)	1	0.12%	2	0.25%	0	
ARABIC	4	0.50%	4	0.50%	1	
BOSNIAN	1	0.12%	1	0.12%	0	0
CHINESE ANY	2	0.25%	2	0.25%	0	0
HAITIAN CREOLE	6	0.74%	6	0.74%	5	5

HEBREW	1	0.12%	1	0.12%	0	0
ITALIAN	1	0.12%	1	0.12%	0	0
JAPANESE	1	0.12%	2	0.25%	0	0
ENGLISH	757	93.80%	752	93.18%	70	70
RUSSIAN	1	0.12%	1	0.12%	0	
SPANISH	32	3.97%	35	4.34%	10	10

Part C: Parent Communications and Engagement

Parent Communication and Engagement

Identification of written critical communications and in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.

1. List the documents your school typically distributes each year that require translation, along with your plan for translating these documents.

Document Type (e.g. parent flyers, IEPs, etc.)	How do you plan to implement the translation process? Please include procedures and resources to ensure the timely delivery of translated documents to parents.
Welcome back to school documents	We utilize translated templates on the DOE website when applicable, Translation Interpretation Unit services for all-school parent documents, bilingual staff, and Google Translate sometimes with review by bilingual staff for accuracy.
Beginning of Year Open House Curriculum Night notice	We utilize translated templates on the DOE website when applicable, Translation Interpretation Unit services for all-school parent documents, bilingual staff, and Google Translate sometimes with review by bilingual staff for accuracy.
Principal Letters	We utilize translated templates on the DOE website when applicable, Translation Interpretation Unit services for all-school parent documents, bilingual staff, and Google Translate sometimes with review by bilingual staff for accuracy.
Report Cards	We utilize translated templates on the DOE website when applicable, Translation Interpretation Unit services for all-school parent documents, bilingual staff, and Google Translate sometimes with review by bilingual staff for accuracy.
Progress Reports	We utilize translated templates on the DOE website when applicable, Translation Interpretation Unit services for all-school parent documents, bilingual staff, and Google Translate sometimes with review by bilingual staff for accuracy.
PID Letters	We utilize translated templates on the DOE website when applicable, Translation Interpretation Unit services for all-school parent documents, bilingual staff, and Google Translate sometimes with review by bilingual staff for accuracy.
IEP documents	We utilize translated templates on the DOE website when applicable, Translation

	Interpretation Unit services for all-school parent documents, bilingual staff, and Google Translate sometimes with review by bilingual staff for accuracy.
School Calendar	We utilize translated templates on the DOE website when applicable, Translation Interpretation Unit services for all-school parent documents, bilingual staff, and Google Translate sometimes with review by bilingual staff for accuracy.

2. List the meetings, both in-person and virtual, that your school typically holds with parents throughout the school year, along with your plans for providing interpretation services at those meetings.

Meeting Type (e.g. parent workshops, PTCs)	How do you plan to offer interpretation services? Please outline the procedures and resources in place to ensure timely access to interpretation for parents.
Back to School Orientation Events	In order to provide interpretation services, we employ a number of services: bilingual staff or PTA members, DOE Translation and Interpretation services such as on-site interpreters, and Over-thePhone Interpretation. When necessary, we utilize DOE-approved vendors for Interpretation.
Whole-school community zoom meetings	In order to provide interpretation services, we employ a number of services: bilingual staff or PTA members, DOE Translation and Interpretation services such as on-site interpreters, and Over-thePhone Interpretation. When necessary, we utilize DOE-approved vendors for Interpretation.
Parent Teacher Student Conferences	In order to provide interpretation services, we employ a number of services: bilingual staff or PTA members, DOE Translation and Interpretation services such as on-site interpreters, and Over-thePhone Interpretation. When necessary, we utilize DOE-approved vendors for Interpretation.
Student of the Month Celebrations	In order to provide interpretation services, we employ a number of services: bilingual staff or PTA members, DOE Translation and Interpretation services such as on-site interpreters, and Over-thePhone Interpretation. When necessary, we utilize DOE-approved vendors for Interpretation.
Breakfast with the Principal	In order to provide interpretation services, we employ a number of services: bilingual staff or PTA members, DOE Translation and Interpretation services such as on-site interpreters, and Over-thePhone Interpretation. When necessary, we utilize DOE-approved vendors for Interpretation.
Parent Workshops	In order to provide interpretation services, we employ a number of services: bilingual staff or PTA members, DOE Translation and Interpretation services such as on-site interpreters, and Over-thePhone Interpretation. When necessary, we utilize DOE-approved vendors for Interpretation.
Middle School Info	
School Tours	In order to provide interpretation services, we employ a number of services: bilingual staff or PTA

	members, DOE Translation and Interpretation services such as on-site interpreters, and Over-thePhone Interpretation. When necessary, we utilize DOE-approved vendors for Interpretation.

3. Describe the resources and processes your school will use to communicate with parents who speak a language other than English during an emergency (e.g., lockdown, fire, student attendance, nurse/hospital visit, etc.), or when a parent needs to contact the school in an emergency, ensuring communication is in their preferred language.

For school-wide emergencies, our multi-lingual voice blast service has the ability to reach all families within minutes. Messages that are sent out will be received in different languages by phone. Also our DoJo app can be received by parents in their language of choice. For individual student emergencies, we use our bilingual staff or the Over-the - Phone Interpretation service, as well
as multilingual DoJo. If a parent has an emergency and needs to contact the school, we use bilingual staff or the Over the Phone service.
Further, we inform parents of the Hello contact at NYCPS.

Part D: Staff Awareness

Staff Awareness

Plan to ensure staff awareness of language access requirements and available resources.

1. Describe how your school will ensure that all staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform, and are familiar with the Best Practices for When to Provide Translation of Critical Written Communications to Parents and Best Practices for When to Provide Interpretation for Critical Oral Communications with Parents. Additionally, explain how your Galaxy-designated LAC will disseminate future language access resources and updates to all staff members.

The LAC prepares a document with info about CR A-663 and the resources available to them. This is emailed to all staff, as well as reviewed at an all-staff PD meeting.

Part E: Parental Notification

Parental Notification

Provision of notice to parents on the available language assistance services.

1. Describe how your school will inform parents about available language assistance services in their preferred language. Include any of the following:

- **Translated signage**
- **Brochures, flyers, or letters shared with parents**
- **Parent engagement events where language assistance services are highlighted (e.g., PTA meetings, international parents' night, etc.)**
- **Messaging applications**

- Language Access for NYC Public Schools Families brochure

In order to inform parents of their right to receive information in their preferred language, we display all posters and signage received from the LAC Department in the main entrance and in the main office. The Parent Coordinator has multilingual pamphlets and flyers which she distributes to parents. At the Back-to-School events, parents are provided with multilingual I Speak cards as well as information about how to reach the NYCPS Hello resources on the website or by phone or by email, where they can request to speak to someone in their preferred language and get information they need. Our use of classroom DoJo also provides multilingual communication.

Part F: Monitoring

Monitoring

Methods for soliciting and implementing feedback on language assistance services.

1. In addition to the feedback received from parents via OLA's Translation & Interpretation Feedback Survey, describe the methods your school will use to gather feedback from parents regarding the language assistance services they receive in their preferred language.

Our Parent Coordinator conducts a multilingual survey to parents parents that includes questions regarding language assistance provided during the school year. Feedback is used to monitor and improve this aspect.

2. How has your school worked to improve its language assistance services? Share any feedback results and outline your plans for further improvements in the upcoming school year.

We strive to continually improve multilingual access to our larger school community, including families, students, staff, and others. As an IB school this is an important part of our mission. Feedback from surveys guide our steps to improve, by providing more and more communication in more and more languages. For instance, most recently, for our CUNY Summer Reading Corps free tutoring program, for students who are selected for this service their families' preferred languages were determined and notices were sent in their preferred languages as well as in English, and DoJo and Telephone communication was made bilingually, in order to enroll as many students as possible.
