Receivership School 2026-2027 Continuation Plan

This document is not considered an evaluation by the New York State Education Department (NYSED). All sections of this document should be completed by the Superintendent Receiver and/or their designee, in collaboration with the school leader. Responses should be reflective of the outcomes achieved through the implementation of the prior year's improvement plan to build upon areas of progress and adjust strategies and structures as the need presents. The content of the plan must also be informed by input obtained through *verified engagement* with the school's Community Engagement Team.

The Continuation Plan serves as a *blueprint* to comprehensively plan for the continuum of improvement moving from the completion of one school year into the next.

- School- and district-based decisions for 2026-2027 should be made using a wide range of reliable data sources while examining outcomes from the 2025-2026 school year.
- Decisions should be rooted in evidence based on the results of the completed needs assessment and aligned with district goals for continuous improvement.
- The plan should include a clear focus on *how data and evidence will guide the selection and implementation of Lead Strategies,* how these strategies will be monitored for impact, as well as how teaching and learning will be supported via district systems, structures and resources to ensure Demonstrable Improvement Indicator (DII) target attainment.

The completed Continuation Plan must be approved by the Superintendent Receiver prior to submission. Once approved, the plan should be submitted electronically to OISR@NYSED.gov **by June 30, 2026.** Prior to the start of the school year, the plan should also be approved by the Board of Education. After this document is reviewed and approved by NYSED, it ***must be posted*** in a conspicuous location on the district website in applicably dominant languages.

Leadership & Systems for Continuous Improvement

Building sustainable systems, strong leadership and a culture of efficacy that drives ongoing school improvement.

High-Quality Core Instructional Programs

Ensuring all students have daily access to rigorous, standards-aligned, coherent instruction across subjects.

Culture: Connectedness & Belonging

Building inclusive, safe, and supportive environments where both students and staff experience belonging, agency, and collective responsibility for success.

Family & Community Partnerships

Creating authentic, two-way partnerships that strengthen student success and well-being.

Directions

The Continuation Plan will be organized around **Lead Strategies and systems and/or structures to support those strategies.** Structures are the intentional routines and practices that strengthen a school's core Tier 1 instructional program for teaching and learning in daily work. Strong structures ensure that effective practices and standards aligned instruction are **consistent across the school**, **clear to all staff**, and **sustained even as leadership or initiatives change**. Improvement, in this frame, is not about launching new programs but about strengthening the systems, structures, and habits that enable great teaching and learning to happen reliably, every day.

This Continuation Plan should demonstrate how leadership is driving continuous improvement and aligning efforts to achieve the school's Demonstrable Improvement (DI) Indicator targets. To build this work on a sustainable foundation, schools must ground their planning in the core components of an ***Integrated Multi-Tiered System of Supports*** (MTSS-I). This improvement plan focuses specifically on establishing and strengthening the systems and structures that ensure high-quality Tier 1 instruction is intentionally designed and delivered in every learning space.

School leaders and improvement planning teams are strongly encouraged to review the MTSS-I Framework published by NYSED to deepen their understanding of a comprehensive MTSS-I system: *NYSED MTSS-I Pilot Framework (October 2023).* Additional information and useful resources for MTSS-I are available through the American Institutes for Research.

Within each part of this plan template, school and district leadership should provide a concise summary of each lead strategy and the structures that will be developed to implement, support, and monitor the progress of those strategies.

After reflecting on and analyzing the results of the completed needs assessment and outcomes of the prior year's improvement plan, the Continuation Plan should include:

- Systems, structures or processes to be used to monitor fidelity of the implementation of Lead Strategies.
- Actions to measure impact inclusive of data, observations, and/or stakeholder feedback.
- Resource allocation to implement the plan with fidelity.
- Adjustments made in response to findings to strengthen outcomes.

Part I: Summarizing Findings from the Needs Assessment

Executive Summary: *Where are We Now?*

Briefly summarize the findings of the recently completed needs assessment.
At a minimum, please use the following prompts to outline your findings.

- *What do you know now about this school that needs to be addressed to better serve the learner community?*
- *What is the most important student learning challenge that appears across multiple data sources? What strengths can you leverage?*
- *What specific, high-leverage skills or misunderstandings are limiting students' ability to progress?*
- *What common themes emerge across attendance data, student voice, observations, and climate surveys regarding belonging?*
- *Which aspects of family and community partnership appear to influence attendance, engagement, behavior, or academic outcomes?*

The summary should be written in terms easily understood by the community-at-large. Please avoid terms and acronyms that are unfamiliar to the public. Limit the summary to *no more than 500 words*. All links included in the summary must be made publicly accessible *prior to submitting the plan.*

Seymour Dual Language Academy currently serves 553 students in grades PreK-5. Over 50% of the student population is identified as English as a New Language Learner. The school enter Year 1 of Receivership status following a designation of Comprehensive Support and Improvement due to historical underperformance in Level 1 and Level 2 ELA and mathematics data.

What do we know about this school that needs to be addressed to better serve the learner community?

To better serve our community, Seymour must address a significant gap between instructional intent and student experience, consistency across expectations, proactive attendance follow-up, and the effectiveness of Professional Learning communities (PLCs) in driving classroom implementation.
After reviewing survey data from students, families, and staff, several consistent themes emerged that highlight both strengths and areas for growth at Seymour Dual Language Academy.

Across all stakeholder groups, there is a strong and shared perception that the school fosters a supportive, inclusive, and welcoming environment. Students report feeling supported, held to expectations, and motivated to attend school regularly. Teachers believe the school helps every student feel seen, valued, and part of the community, while families indicate that their children feel known and welcomed at school.

Despite these strengths, a key area of concern across all groups is the clarity and consistency of expectations. Families express less confidence that students are consistently treated fairly or held to high expectations. Teachers acknowledge challenges in ensuring expectations are clearly communicated and applied consistently. Students report receiving mixed messages about what it means to work hard and produce high-quality work, suggesting a need for greater alignment in messaging and practice.

What common themes emerge across attendance data, student voice, observations, and climate surveys regarding belonging?

Attendance and follow-up practices also emerged as an area for improvement. Students are unsure whether someone will check in when they are absent, and families report inconsistent outreach following absences. Teachers note that while attendance is monitored, follow-up often occurs only after patterns of concern develop, rather than through consistent and proactive systems. Notably, 19% of students report that no one checks in with them after they have been absent, indicating a gap in student support systems.

What is the most important student learning challenge that appears across multiple data sources? What strengths can you leverage?

Perceptions of academic rigor and instructional impact are mixed across stakeholder groups. While teachers believe that instructional tasks promote higher-order thinking, students report fewer consistent opportunities to think deeply, explain their reasoning, and learn from mistakes. Families echo these mixed perceptions, suggesting that while the intention for rigorous instruction exists, its implementation is not consistently experienced by students.

Differences in perspective also point to a gap between instructional intent and student experience. Teachers describe a shared understanding of high-quality instruction within PLCs; however, 17% of teachers strongly disagree that systems prevent students from “falling through the cracks,” indicating ongoing concerns about student support. Additionally, students report limited opportunities for critical thinking and productive struggle, reinforcing that collaborative planning is not yet consistently translating into classroom practice or improved student outcomes.

What specific, high-leverage skills or misunderstandings are limiting students’ ability to progress?

Across our reading and math diagnostic data (NWEA and DIBELS) and classroom evidence, the highest-leverage needs are foundational reading skills and academic vocabulary in both English and Spanish, and the ability to explain reasoning in mathematics. Because more than half of our students are learning English as a new language, limited opportunities to speak, write, and reason using academic language slow progress in every subject. In addition, students report receiving mixed messages about what it means to produce high-quality work, so some students equate finishing quickly with working hard. Strengthening language development, setting clear expectations for quality work, and providing regular opportunities to think deeply and learn from mistakes will unlock progress across content areas.

Which aspects of family and community partnership appear to influence attendance, engagement, behavior, or academic outcomes?
Family partnership most directly influences attendance and engagement. Families report that outreach after student absences has been inconsistent, and 19% of students say no one checks in when they miss school; when follow-up does occur, students report a stronger sense of belonging and greater motivation to attend. Our needs assessment also identified the partnership among the school, families, and community organizations as an area requiring stronger coordination, so that academic, behavioral, social-emotional, and attendance supports reach families in a timely way. Two-way communication in families' home languages and well-coordinated community partnerships are the aspects most likely to improve attendance, engagement, and academic outcomes.

Overall, the findings suggest that while Seymour has established a strong foundation of belonging and community, there is a need to strengthen consistency across expectations, attendance follow-up, and instructional practices. In particular, enhancing the effectiveness of PLCs—through deeper data analysis and a stronger connection between planning and classroom implementation—will be critical to ensuring that all students experience rigorous, equitable, and high-quality instruction every day. These findings shape the four Lead Strategies in this plan, which work together as one system: a single building-wide dual-language curriculum gives teachers a common foundation; collaborative teacher teams use that foundation to plan cognitively demanding tasks for every student; proactive attendance and belonging supports ensure students are present and connected to that instruction; and the community school model equips families and community partners to reinforce the same goals at home.

Part II: Building a Shared Vision for High Quality Teaching and Learning

The Continuation Plan should be grounded in a shared understanding of what high quality Tier 1 instruction and student learning look like in practice. Refer to NYSED's Portrait of a Graduate when considering what will be included in the vision for high quality teaching and learning.

Vision for High Quality Instruction: *Where Do We Want to Be?*

What do we expect Tier 1 *instruction* to look and feel like in every classroom?	District Definition of T1 Instruction: High-quality Tier 1 instruction is cognitively engaging, grounded in grade-level standards, and creates a learning environment that is uplifting with a strong sense of belonging. Instruction and learning experiences are informed by assessment data and provide meaningful, rigorous, and authentic opportunities for students to demonstrate their learning, growth, and overall academic improvement through multiple means.

Vision for High Quality Learning: *Where Do We Want to Be?*

What do we expect Tier 1 *learning* to look and feel like in every classroom?	Tier 1 learning at Seymour Dual Language Academy is grounded in a respectful and joyful environment where all students feel valued, safe, and motivated to engage. Classrooms are conducive and language-rich, designed to foster communication, collaboration, and a strong sense of belonging.

	Instruction is centered on grade-level content that is both rigorous and accessible, with clear access points to ensure all learners can engage meaningfully. Students regularly participate in independent and group practice, building both confidence and collaboration skills. Teachers provide modeling and guided practice to support understanding before releasing responsibility to students. Learning experiences promote student ownership, with a balance of teacher facilitation and student voice. Classrooms emphasize accountable talk, where students explain their thinking, listen to peers, and engage in meaningful discussions. Opportunities for risk-taking and productive struggle are intentionally built into instruction, allowing students to deepen their understanding and learn from mistakes. Impact on Learning - Engage in productive struggle as they work through challenging tasks and problems. - Participate in rich, high-level discussions and academic conversations that promote critical thinking and deeper understanding. - Collaborate with peers to explore ideas, justify reasoning, and learn from multiple perspectives. - Demonstrate understanding and mastery of content through meaningful application of knowledge and skills. - Develop increasing independence and confidence as learners through the gradual transfer of responsibility from teacher to student. In daily learning, students experience choice and variety: they may learn with their teacher in a small group, collaborate with classmates, or practice independently — including with technology — and they set goals, monitor their own progress, and choose how to show what they have learned. Across all classrooms, students are expected to think critically, communicate effectively, and actively engage in their learning every day.

Part III: Lead Strategies for Improvement and Writing the Plan

Core Instructional Framework: *Essential Systems and Structures*

Prior to selecting Lead Strategies, and in alignment with the instructional vision, **schools should consider the foundational systems and structures that guide all classrooms to ensure every student has access to appropriately challenging, high-quality learning that prioritizes deep thinking and application.**

For sustainable and effective improvement planning and implementation, the school must assess its current state with respect to foundational *systems* and *structures*.

In the context of this plan, **systems** are defined as a set of interrelated components working together for a common purpose or function ("the what"), and **structures** are defined as the way components are arranged, organized, or built to support the systems ("the how", i.e., weekly common planning time to perform data cycles). In this sense, systems are the processes or framework that drive results and ensure the work gets done. Structures provide the parts, routines, and supports necessary for systems to function.

The following list of systems and structures will serve as a resource for improvement planning. Each of the lead strategies identified will need to be implemented through a structure. It can be one listed below or the district can select a different one with NYSED approval.

Essential Systems and Structures for Effective Improvement Planning and Implementation:

Systems/Structures		Guiding Question
Clear, shared expectations for high-quality Tier 1 instruction	A schoolwide framework for high-quality, grade level standards aligned instruction grounded in learning science that the leadership team and instructional staff regularly review, refine and reinforce.	To what extent do all educators consistently understand, implement, and reinforce our shared expectations for high-quality, grade-level instruction grounded in standards and learning science?
Curriculum Monitoring Routines	Consistent processes for adopting, adapting, reviewing and monitoring curriculum use, including pacing, task quality, and alignment to identify variation, inconsistency and opportunities to strengthen rigor.	How effectively and consistently is our curriculum being implemented across classrooms, and what does monitoring reveal about pacing, task quality, and opportunities to strengthen rigor and alignment?
Collaborative Teacher Teams that Drive Rigorous Instruction	Normed teacher-team routines (e.g., lesson study, PLCs, instructional rounds), including analysis of student work, task selection, and planning upcoming lessons, to assess whether teacher teams are maintaining rigor and coherence across classrooms occurring weekly or biweekly.	How well are teacher teams using structured protocols to analyze student work, plan upcoming lessons, and ensure rigorous, coherent instruction across classrooms?
Schoolwide Inquiry Cycles	Leadership and teacher led inquiry routines that study evidence of implementation, analyze trends across classrooms, refine instructional practices, track the impact of strategies and inform professional learning, coaching and resource allocation.	What trends emerge from our implementation evidence, and how are we using these insights to refine practice, allocate resources, and drive continuous professional learning?

District and School Practices to Ensure Equitable Access to Rigorous Learning	Transparent, equity-focused routines for student placement, scheduling, staffing, grouping, and monitoring of task quality across settings to guarantee all students have access to grade-level, challenging learning opportunities.	How do our placement, scheduling, staffing, and grouping decisions ensure every student has equitable access to grade-level, challenging tasks across all learning settings?
Multi-Tiered Systems of Support for Instructional Capacity-Building (MTSS-I)	A coherent MTSS-I framework that supports Tier 1 instructional improvement, facilitates systems change and establishes sustainable cycles of continuous improvement for all learners including adults.	How effectively does our MTSS-I framework build Tier 1 instructional capacity, support systems change, and sustain continuous improvement for all learners—students and adults?
Balanced "Just in Time" Assessment Systems	A clearly defined assessment system that uses formative feedback, interim and common assessments (each have an explicit purpose and use) to provide timely, actionable data that drive instructional adjustments and support student learning.	How well does our assessment system provide timely, actionable information that meaningfully informs instructional adjustments and supports student learning?
Leadership Team Monitoring and Coherence	Normed leadership routines, including walkthroughs, feedback, communication structures, and tracking systems, that assess implementation, reduce conflicting initiatives, maintain coherence, and keep staff focused on core instructional priorities.	How effectively do our leadership monitoring routines (walkthroughs, feedback, communication, tracking) maintain coherence, reduce competing initiatives, and keep the focus on core instructional priorities?
Coordinated Feedback and Responsiveness Cycles	Structures that integrate student voice, teacher feedback, observation data, and implementation evidence to refine instructional supports, strengthen alignment, ensure timely, actionable feedback connected to priorities and professional learning.	How are we integrating student voice, teacher feedback, and observational evidence to refine instructional supports and ensure feedback cycles are timely, actionable, and aligned to priorities?

Community Engagement Team	The community engagement team (CET) shall be comprised of community stakeholders with direct ties to the school including, but not limited to, the school principal, parents of or persons in parental relation to students attending the school, teachers and other school staff assigned to the school, and students attending the school. The central function of the CET is to develop recommendations for improvement of the school and to solicit input through public engagement.	How will you leverage the CET's input and perspectives, as community liaisons to the school, to increase the quality and effectiveness of family and community partnerships in order to better support student success?

Writing the Plan: *How Do We Close the Gap? How Do We Know if We're Staying on Track?*

Based on the findings noted in the executive summary, what are the shifts in practice that need to happen *to close the gap* between where the school is now and where you want the school to be to achieve a shared vision for high quality teaching and learning?

After reflecting on the Lead or Key Strategies that were implemented during the 2025-2026 school year, the school's shared vision for teaching and learning, the Executive Summary, and the list of Essential Systems and Structures for Effective Improvement Planning and Implementation included above, identify **no more than 4 Lead Strategies** for your school that will guide the improvement plan in the 2026-2027 school year.

These strategies will serve to **strengthen the instructional core and ultimately Tier 1 instruction**. These priorities are not programs or initiatives, but enduring areas of practice where the school commits to deeper collective work for improving student outcomes. They should be intentionally aligned with needs assessment results, data outcomes and district-based improvement goals to **advance progress towards specific Demonstrable Improvement Indicators (DIIs).**

Requirements:

- **Identify 4 Lead Strategies as described for the following areas and aligned to the Four Core Dimensions:**
  - **2 strategies focused on strengthening the Instructional Core/Tier 1 instruction.**
  - **1 strategy that addresses attendance through culture, connectedness and belonging.**
  - **1 strategy to increase the quality and impact of family and community partnerships.**

Lead Strategies should be:

- Grounded in the **instructional core,** not programmatic in design.
- **Broad enough** to apply across grades/content but **focused enough** to drive clear and intentional changes in instructional practice and to serve as a roadmap for teacher learning.
- Stable enough to allow for **deeper learning and improvement over time,** yet flexible enough to respond to emerging evidence about student needs.

Each Lead Strategy should represent a change in the upcoming year compared to previous years. The Lead Strategy should fall into one of the following categories:

1. Something that is **new** to the school; or
2. An existing strategy **that is being refined** or adjusted from previous years.

All Lead Strategies chosen should be high-impact, evidence-based and aligned with the Four Core Dimensions. School and district teams will explain the rationale for each Lead Strategy selected on the provided template.

To ensure the chosen Lead Strategies are evidence-based, refer to the New York State Supported Evidence-Based Interventions and resources at: https://www.nysed.gov/accountability/state-supported-evidence-based-strategies. Schools may also find the Diagnostic Tool for School and District Effectiveness (DTSDE) Framework and Phases of Implementation to be useful.

Lead Strategy Identification and Rationale

- In column 1, identify a **necessary shift in practice** revealed after reflecting and analyzing the needs assessment results and/or data outcomes.
- In column 2, provide a brief **rationale why** this was identified using data results and evidence.
- In column 3, identify **2 strategies centered around Tier 1 instruction in core subject areas to provide high quality teaching and learning**, **1 strategy that addresses attendance through culture, connectedness and belonging, and 1 strategy to increase the quality and impact of family and community partnerships.**
- In column 4, specify whether the strategy is new or being refined.

Necessary Shifts in Practice	Why is this identified as a necessary shift in practice? Provide data and evidence.	Lead Strategy to address this necessary shift in practice.	How does this selection compare to practices addressed in 2025-26?
One necessary shift in practice identified is the need to move away from predominantly teacher-led instruction to a more student-centered engaging approach where students will practice cognitively demanding tasks that require higher level thinking, and problem-solving. Using the Gradual Release of Responsibility (GRR) or "I do, we do, y'all do together, you do" framework as an implementation model will help us achieve this.	Historically underperformance in Level 1 and Level 2 ELA and mathematics data suggests the current teacher centered approach is ineffective. Additionally, the needs assessment revealed that there is confusion around what it means to produce high-quality work, as well as mixed perceptions around academic	Engage students in cognitively demanding tasks that require reasoning, sense-making, and problem-solving.	☐ *New* ☒ *Refined*

	and instructional rigor.		
Another necessary shift in practice identified is moving away from a traditional teacher-led model toward a gradual release framework that integrates English and Spanish literacy strategies to develop proficiency in both languages. This transition will require intentional collaboration planning throughout our PLCs structure to ensure students receive personalized support, opportunities for language development, and meaningful practice in both languages as well as opportunities for students to experience productive struggle, engage in rich, high-level discussion and deepen their critical thinking. Through active participation, collaboration and reflection, students will demonstrate their understanding and mastery of content while taking increasing ownership of their learning. This shift also includes adopting one building-wide bilingual dual-language curriculum — HMH Into Reading (English) and HMH ¡Arriba la Lectura! (Spanish) — implemented with initial training for all instructional staff (unit unpacking and curriculum internalization), so that every classroom works from the same high-quality	Based on our Level 1 and Level 2 ELA and Mathematics data suggest that the intentionality when planning instruction as a grade level team can and must improve using best practices protocols for data analysis and instructional planning. Additionally, the needs assessment indicates the need to provide students with more opportunities to think deeply, explain their reasoning, and learn from mistakes. We also noted the need for teachers to offer students additional access points to grade-level curriculum to ensure equitable learning opportunities. Although teachers describe a shared understanding of high-quality instruction within their teams, students are experiencing fewer opportunities for critical thinking, explanation of reasoning, and productive struggle. This indicates a gap	EQUITY & ACCESS: Ensure equitable access to grade-level content, especially for multilingual learners and students with disabilities, by coordinating with colleagues and aligning instruction to shared learning goals.	☒ *New* ☐ *Refined*

materials and shared expectations.	between instructional intent and classroom practice. Additionally, the current curriculum does not align with the needs and values of a dual language program. In short, this shift is necessary because ELA and mathematics performance remains at Levels 1 and 2; multilingual learners and students with disabilities need stronger, more consistent access to grade-level content; and expectations for high-quality work vary from classroom to classroom. One building-wide dual-language curriculum, with training for all staff, directly addresses these gaps.		
A necessary shift in practice identifies is the need to revise and strengthen our attendance protocols, procedures, and student belonging protocol (welcome back school-wide initiative). Specifically, students who arrived late were at times marked absent despite being present, and in some cases, students were not captured in attendance when they transitioned out of their homeroom within the first ten minutes of arrival.	Our attendance data revealed inconsistencies in how student presence was being recorded. Similar concerns around late arrivals being inaccurately recorded have been noted in attendance communications as well. Additionally our data showed that our level 2 attendance concerns were not being addressed	The “Proactive Belonging and Attendance (PBA) Strategy Tiered Support Structure that utilizes and leverages predictive data to strengthen follow-up practices and foster a culture of connectedness.	☐ *New* ☒ *Refined*

We have to adjust and refined our attendance protocols and procedures to ensure greater accuracy and consistency in reporting. This shift also means implementing a Tiered Support Structure that uses predictive data for early, proactive follow-up — moving the school from reacting to chronic absence toward preventing it.	until they became more chronic shifting into level ones. After reviewing our attendance data, we identified several areas within our current protocols and procedures We also considered student survey feedback indicating that a sense of belonging increases when staff check in with students after they have been absent. Additionally, based on the needs assessment survey, 19% of students report that no one checks in with them after they have been absent.		
A shift in practice identified is to Strengthen relationships with CBO's and collaboratively as one unit to support students and families' specific needs (academic, behavior, socio-emotional and attendance).	Based on our needs-assessment analysis, we identified the partnership between our community-based organizations, families, and the school as an area requiring stronger collaboration and support. Our goal is to build a more meaningful and consistent connection between home and school in order to enhance family engagement and strengthen overall collaboration.	Community School Model: Equip families and community members with the specific tools, data, and social-emotional strategies needed to co-lead student success. Resources and services will be better aligned to meet the needs of our families, helping ensure they receive timely and coordinated support.	☒ *New* ☐ *Refined*

	Strengthening these partnerships will help us positively impact students' academic performance, behavior, attendance, and social-emotional well-being. Evidence from the needs assessment supports this shift: families report inconsistent outreach after student absences; 19% of students say no one checks in with them when they miss school; and services from community partners are not yet aligned closely enough with families' academic, behavioral, social-emotional, and attendance needs.		

Schools selecting "Other" should type the Lead Strategy directly in the drop down after the word "Other." This strategy should be approved by the Superintendent Receiver or designee as well as NYSED.

Implementation, Progress Monitoring & Impact

Instructional Lead Strategy 1:	Engage students in cognitively demanding tasks that require reasoning, sense-making, and problem-solving.

School Improvement Plan: Implementation

Identify ***process-based*** implementation benchmarks for **Lead Strategy 1** during the 2026-2027 school year.

- What will be done?
- Who will do it?
  - Grade level team
  - Building team
  - District team
- When will it be done?

What will be done?	Who will do it?	Target Date
Launch the 15-Day Challenge: the leadership team will finalize the 15-Day Challenge cycle and communicate the rationale, timeline, and expectations to all staff during opening professional development days.	Building Leaders Instructional Coach Bilingual Instructional Coach	9/4/26
Provide professional development on the PLC components, Gradual Release of Responsibility model, Accountable Talk, and explicit instruction so teachers can bring cognitively demanding tasks to life in every classroom.	Instructional Coach Bilingual Instructional Coach District Professional Learning Staff	9/18/26 and ongoing monthly
Implement PLC's that focuses on the 15-Day Challenge; Identify, unpack, and prioritize standards Create common formative assessments Pace unit Analyze student work Make instructional adjustments	Instructional Coach Bilingual Instructional Coach Teachers Building Leaders	9/30/26 and ongoing bi-monthly.
Conduct leadership walkthroughs throughout PLTs and instructional time, focused on evidence of cognitively demanding tasks (reasoning, sense-making, and problem-solving) and share timely feedback with teacher teams.	Building Leaders Instructional Coach Bilingual Instructional Coach	9/18/26 and ongoing bi-weekly

School Improvement Plan: Structures

List a minimum of one new or current structure that will support **Lead Strategy 1**. Table rows can be added if the school will utilize more than two structures to support **Lead Strategy 1.**

What structures will support Lead Strategy 1?		How does this compare to 2025-26?
Structure 1 *Provide a one sentence description.*	PLC's ELA/SLA, Math, and 5th grade science Collaborative Teacher Teams that Drive Rigorous Instruction structure: weekly grade-level Professional Learning Communities (teacher teams) in English/Spanish Language Arts, Math, and 5th grade Science.	☐ New X Refined
When and how often will this take place?	Weekly-Tues., Wed., and Thurs. during related studies planning time	
How will this be used to implement and monitor Lead Strategy 1?	Through the implementation of the 15-day challenge, teachers will ensure all students face tasks that meet the depth of knowledge (the level of thinking required) and rigor of the standard.	
Structure 2 *Provide a one sentence description.*	Leadership Team Monitoring and Coherence Conduct weekly leadership walkthroughs using a shared look-for tool focused on evidence of	X New ☐ Refined

	cognitively demanding tasks (reasoning, sense-making, and problem-solving).	
When and how often will this take place?	Weekly walkthroughs; the leadership team reviews trend every two weeks.	
How will this be used to implement and monitor Lead Strategy 1?	Walkthrough evidence will show whether students are doing high level thinking during lessons. Trends will be shared with teacher teams as timely feedback and studied in school-wide inquiry cycles to plan coaching and professional learning, keeping implementation of Lead Strategy 1 consistent across classrooms.	

School Improvement Plan: Progress Monitoring and Impact

Identify Early Progress Indicator benchmarks for measuring evidence of change and impact of **Lead Strategy 1.** These benchmarks can be process-based. ***As the year progresses, subsequent benchmarks will be provided by schools within each Quarterly Report.***

***Guiding Questions*:**

- What DIIs are aligned with this strategy?
- What data sources will be used? Include quarterly benchmark, formative, common, and interim assessments.
- What changes will you look for in teacher practice, behavior and related student outcomes that prove this strategy is having its desired impact?

Aligned DIIs	Data Sources	Early Progress Indicator(s)
3-8 ELA All Students Core Subject PI 3-8 Math All Students Core Subject PI Grades 5 and 8 Science All Students Core Subject PI 3-8 ELP Success Ratio - All Students 3-8 Math ELL Core Subject PI 3-8 ELP Success Ratio - SWD Students	I-Ready Beginning of Year, Middel of Year and End of Year DIBELS 3-5- MCLASS	Proposed target: at least 60% of students will meet or exceed their typical growth target on the i-Ready reading and math diagnostics by the end-of-year administration. Proposed target: the percentage of students scoring at grade-level proficiency on i-Ready reading and math will increase by at least 5 percentage points from fall to spring. (Stretch and Typical Data)
3-8 ELA All Students Core Subject PI 3-8 Math All Students Core Subject PI Grades 5 and 8 Science All Students Core Subject PI	Professional Learning Community agendas and minutes; student work samples; walkthrough notes	By October 16, 2026, 100% of Professional Learning Communities will have completed at least one full 15-Day Challenge cycle, including analysis of student work. By December 2026, at least 80% of walkthrough data will show students

3-8 ELP Success Ratio - All Students 3-8 Math ELL Core Subject PI 3-8 ELP Success Ratio - SWD Students		engaged in cognitively demanding tasks during walkthroughs.

District Support: Powers of The Receiver

NYS Education Law 211-f and Commissioners Regulation §100.19 grant certain powers to the Superintendent Receiver to be used to manage and operate a school in areas that include, but are not limited to, curriculum, programming, staffing and scheduling.

- List the Powers of the Receiver that will be utilized to specifically support the school in implementing **Lead Strategy 1**.
- Describe how the impact will be monitored and measured throughout the school year.

Powers of the Receiver	Evidence of Impact
The power of the Receiver for Seymour involves several components. ▪ Staffing. Through a Memorandum of Understanding with the Teachers' Association, all Seymour teachers had to reapply for their position. Teachers selected received a $10,000 stipend. ▪ New Start Time. Based on feedback during the Needs Assessment process, the district explored moving Seymour's start time from 9:00am to 7:30am. This adjustment will allow teachers to engage in afterschool learning activities and will better align with the needs of parents. ▪ After-School Staff Learning. Related to the new start time, and the MOU, teachers will engage in two hours of afterschool professional learning each week. ▪ Impact Coaches. Seymour teachers in grades 3-5 will each have an "Impact Coach." This coach is an expert in Personalized Learning. This coach will support Seymour's teachers in executing personalized learning in ELA, Math, and Science.	▪ The major impact will be an increase in the percentage of certified teachers at the school. During the 2025-26 school year, approximately 40% of the teaching staff were long-term subs. While challenges exist with securing Multi-Language Teaching staff, we are striving for at least 90% of all core teachers to be certified teachers. ▪ Acknowledging the research on the impact of teachers, we expect the increase in certified staff to result in an increase in student outcomes. ▪ Specifically, during Quarterly Data Presentations, benchmark assessments and progress monitoring results will be monitored. The goal is that quarterly increases in Math and Reading will be seen, leading to at least 60% of students showing expected growth. Although I-Ready will be a new assessment tool from last year, the measure of expected growth will be comparable. ▪ Ultimately, end of year summative (state assessment results) will confirm the impact of having more certified teachers at Seymour than previously. ▪ The new start time is expected to improve student attendance at school. ▪ Along with improved academic outcomes, classroom walkthrough

	data and collaboration time documentation will be used to confirm that the two hours of afterschool professional learning is translating into improved classroom instruction.

District Support: Equitable Resource Allocation

List the resources you will need to allocate to **Lead Strategy 1** for implementation.

Guiding Questions:

- What will the building leader, teachers, and students need (staffing, funding, programs, services, materials)?

Leader Resources	Teacher Resources	Student Resources
Training for new instructional curriculum	Training in the new instructional curriculum	Training for i-Ready Pathway and Student goal sheets and conferences.
Access to HMH Admin virtual and in-person trainings.	Access to HMH coach virtual and in-person.	
	Training for i-Ready Diagnostic testing and reports.	
Staffing: an instructional coach and a bilingual instructional coach assigned to support teacher teams.	Protected weekly collaborative planning time; HMH Into Reading and HMH ¡Arriba la Lectura! teacher materials; i-Ready licenses and reports.	i-Ready student licenses and goal-setting folders; bilingual classroom libraries and learning materials in English and Spanish.

District Support: Progress Monitoring and Impact

Describe the **specific district-level supports to be provided to the school, as well as what district-level structures and systems** will ensure the school is positioned to meet its Demonstrable Improvement (DI) Indicator targets and how these supports will be progress monitored for impact.

Guiding Questions:

- How will the district ensure students at this school have access to effective teachers, high-quality instruction, and meaningful learning opportunities?
- What data will be analyzed to demonstrate the impact of district support on the school's progress toward its Demonstrable Improvement (DI) Indicators?
  - Provide concrete examples (e.g., student performance data, teacher retention/improvement, access to programs, attendance, or engagement metrics).
- How will resources (staffing, funding, programs, services, materials) be distributed to meet the unique needs of this school?

Specific District Supports, Structures & Systems	Evidence of Impact
As a part of the district's Elevate 3-1-5 Initiative, four components will drive Seymour's work: ▪ Family & Community Engagement ▪ Climate & Culture ▪ School Leadership ▪ Core Instruction (Personalized Learning)	Four major monitoring and impact approaches will be used: ▪ Quarterly Accountability Presentations (school will be responsible for detailing their

Aligned to the four components above, district support to Seymour's will include: ▪ Reimagined Role of Assistant Superintendent ▪ Cross Department Support & Accountability Structure ☐ Teaching & Learning ☐ Student Supports (with added focus from the district's ENL Department) ☐ Human Resources ☐ Information Technology & Accountability ▪ Alignment of External Partners (CBO's) ▪ BOCES Regional Support – Special Education	progress toward DI indicators and overall outcomes). ▪ I-Ready and Benchmark Assessments (an assessment calendar and strategy is being finalized for Elevate 3-1-5 that will provide a clear cadence of student outcome data. ▪ Weekly School Visits (by District). A structured school visit process will be used to support and promote accountability toward DI Indicators and overall progress. The major focus of school visits will be to visit classrooms, calibrate on what is being seen, and establish next steps toward ensuring high-quality Tier I instruction is taking place in all classrooms. ▪ PLT Hub. An electronic platform is being developed to house all collaboration time agendas, notes, etc. District leaders will monitor and offer feedback on how collaboration time is being used and potential adjustments to better maximize this time.

Instructional Lead Strategy 2:	Ensure equitable access to grade-level content, especially for multilingual learners and students with disabilities, by coordinating with colleagues and aligning instruction to shared learning goals.

School Improvement Plan: Implementation

Identify process-based implementation benchmarks for **Lead Strategy 2** during the 2026-2027 school year.

- What will be done?
- Who will do it?
  - Grade level team
  - Building team
  - District team
- When will it be done?

What will be done?	Who will do it?	Target Date

Use a structured bilingual planning framework to support collaborative planning.	Grade level team Building team	9/28/26
Design, implement, and refine inclusive, personalized instructional models grounded in bilingual education principles.	Grade level team Building team District team	9/30/26
Progress monitor to ensure students access grade-level content, including how they use skills from their first language when they lack vocabulary in the second language.	Grade level team Building team	10/09/26 and ongoing
Use data to adjust instruction for all students, recognizing and building on their multilingual strengths and needs, including those with disabilities.	Grade level team Building team District team	10/21/26 and ongoing 2x a month
Teachers will receive engaging and meaningful professional development, including unit unpacking and lesson internalization sessions. This will be a year-long support structure designed to ensure effective implementation of the new curriculum. In addition, teachers will participate in ongoing coaching cycles to strengthen instructional practice and provide targeted, job-embedded support.	HMH PD support Instructional Coach Dual Language Coach	8/27 & 28, full days And ongoing
Distribute HMH Into Reading and HMH ¡Arriba la Lectura! classroom materials and complete an initial unit-unpacking session for 100% of instructional staff (Tier 1 training for all).	District team Building Leaders HMH trainers	By 9/4/26 (opening professional development days)
Finalize the structured bilingual planning framework and communicate expectations for weekly collaborative planning to all staff.	Building team Instructional Coach Dual Language Coach	9/14/26

School Improvement Plan: Structures

List a minimum of one new or current structure that will support **Lead Strategy 2**. Table rows can be added if the school will utilize more than two structures to support **Lead Strategy 2.**

What structures will support Lead Strategy 2?		**How does this compare to 2025-26?**
Structure 1 *Provide a one sentence description.*	Collaborative Teacher Teams that Drive Rigorous Instruction structure, applied through co-planning among the classroom teacher, the English as a New Language teacher, and the special education teacher.	☐ New X Refined
When and how often will this take place?	Weekly, during protected grade-level co-planning time. 80% of classrooms with CT/ ENL/ SNL where each teacher knows their role and evidence that each subgroup is being supported. 100% of students, including MLs and SWD, access grade-level content daily	
How will this be used to implement and monitor Lead Strategy 2?	Analyze data disaggregated by student groups monthly.	

Structure 2 *Provide a one sentence description.*	Ensure IEP/504/ELP accommodations support access to grade-level standards Hold weekly/biweekly PLTs focused specifically on accommodations that will be used to support subgroups of students in upcoming lessons. District and School Practices to Ensure Equitable Access to Rigorous Learning structure: weekly Professional Learning Team meetings make sure the supports written in students' Individualized Education Programs (IEPs), 504 plans, and English language learning plans are built into upcoming grade-level lessons.	☐ New X Refined
When and how often will this take place?	PLTs Schedule, 1x a week during PLT	
How will this be used to implement and monitor Lead Strategy 2?	ENL/ SNL/ CT teachers will be assigned to grade levels and ensure accommodations, lessons provide students with grade level access and meets students' learning needs without grade-level content dilution.	

School Improvement Plan: Progress Monitoring and Impact

Identify Early Progress Indicator benchmarks for measuring evidence of change and impact of **Lead Strategy 2.** These can be process-based. ***As the year progresses, subsequent benchmarks will be provided by schools within each Quarterly Report.***

***Guiding Questions*:**

- What DIIs are aligned with this strategy?
- What data sources will be used? Include quarterly benchmark, formative, common, and interim assessments.
- What changes will you look for in teacher practice, behavior and related student outcomes that prove the strategy is having its desired impact?

Aligned DIIs	Data Sources	Early Progress Indicator(s)
Grade 5 Science All Students Core Subject PI 3 – 5 ELP Success Ratio all Students 3-5 Math ELL Core Subject PI 3-5 ELP Success Ration – SWD Students	Walkthroughs PLT/PLC minutes I-Ready BOY, MOY, EOY (beginning, middle, and end of year)	By November 6, 2026, 100% of grade-level teams will use the structured bilingual planning framework weekly, as evidenced by team agendas and minutes. By the mid-year i-Ready diagnostic, at least 55% of multilingual learners and students with disabilities will meet or exceed their typical growth target in reading and mathematics. By January 2027, at least 80% of walkthrough observations will show all students — including multilingual learners and students with disabilities — working on grade-level tasks with appropriate language supports.

District Support: Powers of The Receiver

List the Powers of the Receiver that will be utilized to specifically support the school in implementing **Lead Strategy 2**.

- Describe how the impact will be monitored and measured throughout the school year.

Powers of the Receiver	Evidence of Impact
The power of the Receiver for Seymour involves several components. ▪ Staffing. Through a Memorandum of Understanding with the Teachers' Association, all Seymour teachers had to reapply for their position. Teachers selected received a $10,000 stipend. ▪ New Start Time. Based on feedback during the Needs Assessment process, the district explored moving Seymour's start time from 9:00am to 7:30am. This adjustment will allow teachers to engage in afterschool learning activities and will better align with the needs of parents. ▪ After-School Staff Learning. Related to the new start time, and the MOU, teachers will engage in two hours of afterschool professional learning each week. ▪ Impact Coaches. Seymour teachers in grades 3-5 will each have an "Impact Coach." This coach is an expert in Personalized Learning. This coach will support Seymour's teachers in executing personalized learning in ELA, Math, and Science.	▪ The major impact will be an increase in the percentage of certified teachers at the school. During the 2025-26 school year, approximately 40% of the teaching staff were long-term subs. While challenges exist with securing Multi-Language Teaching staff, we are striving for at least 90% of all core teachers to be certified teachers. ▪ Acknowledging the research on the impact of teachers, we expect the increase in certified staff to result in an increase in student outcomes. ▪ Specifically, during Quarterly Data Presentations, benchmark assessments and progress monitoring results will be monitored. The goal is that quarterly increases in Math and Reading will be seen, leading to at least 60% of students showing expected growth. Although I-Ready will be a new assessment tool from last year, the measure of expected growth will be comparable. ▪ Ultimately, end of year summative (state assessment results) will confirm the impact of having more certified teachers at Seymour than previously. ▪ Along with improved academic outcomes, classroom walkthrough data and collaboration time documentation will be used to confirm that the two hours of afterschool professional learning is translating into improved classroom instruction.

District Support: Equitable Resource Allocation

List the resources you will need to allocate to **Lead Strategy 2** for implementation.

- What will the building leader, teachers and students need (staffing, funding, programs, services, materials)?

Building Leader Resources	Teacher Resources	Student Resources
PLC Training	PLC Training	Opportunities to use all their languages as learning tool
High-quality curriculum and instructional materials (HMH Curriculum)	PLC structures and protected collaboration time	Students need materials that allow them to engage with grade-level content regardless of language proficiency or disability.
Instructional coaching and professional learning	Instructional coaching and professional learning	Accommodations and modifications aligned to their IEPs Consistent implementation of supports across classrooms
Staffing: a Bilingual Impact Coach; funding for Spanish-language instructional materials and assessments.	Weekly accommodation-focused team meetings; English as a New Language and special education specialists assigned to each grade level.	Bilingual texts, glossaries, and language scaffolds; the accommodations and assistive supports written in students' learning plans.

District Support: Progress Monitoring and Impact

Describe the **specific district-level supports to be provided to the school, as well as what district-level structures and systems** will ensure the school is positioned to meet its Demonstrable Improvement (DI) Indicator targets and how these supports will be progress monitored for impact.

Guiding Questions:

- How will the district ensure students at this school have access to effective teachers, high-quality instruction, and meaningful learning opportunities?
- What data will be analyzed to demonstrate the impact of district support on the school's progress toward its Demonstrable Improvement (DI) Indicators?
    - Provide concrete examples (e.g., student performance data, teacher retention/improvement, access to programs, attendance, or engagement metrics).
- How will resources (staffing, funding, programs, services, materials) be distributed to meet the unique needs of this school?

Specific District Support	Evidence of Impact
As a part of the district's Elevate 3-1-5 Initiative, four components will drive Seymour's work: ▪ Family & Community Engagement ▪ Climate & Culture ▪ School Leadership ▪ Core Instruction (Personalized Learning) Aligned to the four components above, district support to Seymour will include:	Monitoring and Impact: ▪ Quarterly Accountability Presentations (school will be responsible for detailing their progress toward DI indicators and overall outcomes. ▪ I-Ready and Benchmark Assessments (an assessment calendar and strategy is being finalized for Elevate 3-1-5 that will provide a clear cadence of student outcome data. ▪ Weekly School Visits (by District). A structured school visit process will be

▪ Reimagined Role of Assistant Superintendent ▪ Cross Department Support & Accountability Structure ☐ Teaching & Learning ☐ Student Supports ☐ Human Resources ☐ Information Technology & Accountability ▪ Alignment of External Partners (CBO's) ▪ BOCES Regional Support – Special Education	used to support and promote accountability toward DI Indicators and overall progress. The major focus of school visits will be to visit classrooms, calibrate on what is being seen, and establish next steps toward ensuring high-quality Tier I instruction is taking place in all classrooms. ▪ PLT Hub. An electronic platform is being developed to house all collaboration time agendas, notes, etc. District leaders will monitor and offer feedback on how collaboration time is being used and potential adjustments to better maximize this time

Culture and Connectedness (Attendance) Lead Strategy 3:	The "Proactive Belonging and Attendance (PBA) Strategy" Seymour Dual Language Academy will implement is a Tiered Support Structure that utilizes predictive data to foster a culture of connectedness.

School Improvement Plan: Implementation

Identify process-based implementation benchmarks for **Lead Strategy 3** during the 2026-2027 school year.

- What will be done?
- Who will do it?
  - Grade level team
  - Building team
  - District team
- When will it be done?

What will be done?	Who will do it?	Target Date
Conduct a comprehensive review of our current attendance protocols and procedures, strengthening the processes for taking, monitoring, and auditing attendance. Any steps requiring improvement will be revised or redesigned to ensure a more accurate, efficient, and reliable system for managing attendance across the school.	Administrators Attendance Team	8/24/26 – 9/4/26 (completed before the first day of school)
Create or adopt a tiered support structure.	Administrators Attendance Team	9/11/26
Train all staff on the revised attendance protocols and the tiered support structure, including how predictive data flags students for early outreach.	Administrators Attendance Team	9/18/26

Launch the school-wide welcome back belonging initiative, including warm greetings and re-entry check-ins for students returning from an absence.	All staff, led by the Attendance Team	First week of school (9/8/26) and ongoing daily
Begin the daily double audit of attendance accuracy and the weekly review of predictive attendance data against tier thresholds.	Attendance Team	9/14/26 and ongoing daily/weekly

School Improvement Plan: Structures

List a minimum of one new or current structure that will support **Lead Strategy 3**. Table rows can be added if the school will utilize more than two structures to support **Lead Strategy 3.**

What structures will support Lead Strategy 3?		**How does this compare to 2025-26?**
Structure 1 *Provide a one sentence description.*	Tier support structure A structure that utilizes predictive data for monitoring daily and weekly attendance, with clear thresholds that trigger early outreach, intervention, and if necessary intensive support. This is our tiered system of support for attendance: universal supports for all students, targeted intervention for students showing early risk, and intensive support with wrap-around care for students with chronic absence.	☐X New ☐ Refined
When and how often will this take place?	Daily & Weekly	
How will this be used to implement and monitor Lead Strategy 3?	This structure supports the strategy by: - Gives us data to provide personalized support based on student/family need. - Provides clear cut points to support families early before their attendance becomes chronic - Three levels of support ○ Tier 1 (Universal) ○ Tier 2 (Targeted Intervention) ○ Tier 3 (Intensive Support & Wrap Around Care) - Increases feeling of connectedness between school and families - Increased connectedness between school and CBO providers	
Structure 2 *Provide a one sentence description.*	Daily attendance protocol and accurate attendance keeping	☐ New X Refined
When and how often will this take place?	Daily	
How will this be used to implement and monitor Lead Strategy 3?	• Daily Double Audit (attendance recorded by the classroom teacher is verified a second time by the attendance team the same day)	

	• Clear roles and responsibilities for staff members on the attendance team

School Improvement Plan: Progress Monitoring and Impact

Identify Early Progress Indicator benchmarks for measuring evidence of change and impact of **Lead Strategy 3.** These can be process-based. ***As the year progresses, subsequent benchmarks will be provided by schools within each Quarterly Report.***

***Guiding Questions*:**

- What DIIs are aligned with this strategy?
- What data sources will be used? Include quarterly benchmark, formative, common, and interim assessments.
- What changes will you look for in teacher practice, behavior and related student outcomes that prove the strategy is having its desired impact?

Aligned DIIs	Data Sources	Early Progress Indicator(s)
- EM Attendance All Students	- Daily Absences - Consecutive Day Audit - Last year's target (benchmark)	- Target students have attendance of 95% or greater for the first quarter - 100% of students with five consecutive day absences have received phone call and home visit - 100% of students who miss school will receive an attendance post card in L1 of dominance (in the family's home language) - Chronic absenteeism for the first semester will decrease by at least 5 percentage points compared with the first semester of 2025-26.

District Support: Powers of The Receiver

List the Powers of the Receiver that will be utilized to specifically support the school in implementing **Lead Strategy 3**.

- Describe how the impact will be monitored and measured throughout the school year.

Powers of the Receiver	Evidence of Impact
New Start Time. Based on feedback during the Needs Assessment process, the district explored moving Seymour's start time from 9:00am to 7:30am. This adjustment will improve student attendance and will allow teachers to engage in after-school learning activities.	The new start time is expected to improve student attendance at school. Specifically, chronic absenteeism for the first semester will decrease by at least 5 percentage points compared with the first semester of 2025-26.

District Support: Equitable Resource Allocation

List the resources you will need to allocate to **Lead Strategy 3** for implementation.

- What will the building leader, teachers and students need (staffing, funding, programs, services, materials)?

Building Leader Resources	Teacher Resources	Student Resources
Clear data protocols for how teams review, discuss, and act on predictive indicators.	Instructional coaches to support Tier 1 classroom belonging practices and Tier 2 targeted supports.	Advisory or morning meeting structures that build relationships
Early-warning attendance dashboards (flagging trends such as chronic absenteeism risk, sudden drops in attendance, or patterns by subgroup)	Belonging-centered classroom practices (warm greetings, relationship-building routines, culturally responsive teaching).	Student leadership opportunities (ambassadors, attendance mentors, peer buddies).
		Clubs, after-school programs, and interest-based groups to increase motivation and attachment to school.
	Professional learning and support from the district's Office of Family & Community Engagement related to Academic Parent Teacher Teams (APTT).	
Staffing: a designated Attendance Team, including bilingual home–school outreach; funding for attendance postcards, mailings, and home visits.	Weekly time to review the early-warning attendance dashboard; professional learning on belonging-centered classroom practices.	Attendance recognition materials; free access to after-school clubs, programs, and interest-based groups.

District Support: Progress Monitoring and Impact

Describe the **specific district-level supports to be provided to the school, as well as what district-level structures and systems** will ensure the school is positioned to meet its Demonstrable Improvement (DI) Indicator targets and how these supports will be progress monitored for impact.

Guiding Questions:

- How will the district ensure students at this school have access to effective teachers, high-quality instruction, and meaningful learning opportunities?
- What data will be analyzed to demonstrate the impact of district support on the school's progress toward its Demonstrable Improvement (DI) Indicators?
    - Provide concrete examples (e.g., student performance data, teacher retention/improvement, access to programs, attendance, or engagement metrics).
- How will resources (staffing, funding, programs, services, materials) be distributed to meet the unique needs of this school?

Specific District Support	Evidence of Impact

As a part of the district's Elevate 3-1-5 Initiative, four components will drive Seymour's work: ▪ Family & Community Engagement ▪ Climate & Culture ▪ School Leadership ▪ Core Instruction (Personalized Learning) Aligned to the four components above, district support to Seymour will include: ▪ Reimagined Role of Assistant Superintendent ▪ Cross Department Support & Accountability Structure ○ Teaching & Learning ○ Student Supports ○ Human Resources ○ Information Technology & Accountability ▪ Alignment of External Partners (CBO's) ▪ BOCES Regional Support – Special Education	▪ Weekly Attendance Reviews. ▪ Quarterly Accountability Presentations (school will be responsible for detailing their progress toward DI indicators and overall outcomes). ▪ I-Ready and Benchmark Assessments (an assessment calendar and strategy is being finalized for Elevate 3-1-5 that will provide a clear cadence of student outcome data. ▪ Weekly School Visits (by District). A structured school visit process will be used to support and promote accountability toward DI Indicators and overall progress. The major focus of school visits will be to visit classrooms, calibrate on what is being seen, and establish next steps toward ensuring high-quality Tier I instruction is taking place in all classrooms. ▪ PLT Hub. An electronic platform is being developed to house all collaboration time agendas, notes, etc. District leaders will monitor and offer feedback on how collaboration time is being used and potential adjustments to better maximize this time.

Family and Community Partnerships Lead Strategy 4:	Equip families and community members with the specific tools, data, and social-emotional strategies needed to co-lead student success.

School Improvement Plan: Implementation

Identify process-based implementation benchmarks for **Lead Strategy 4** during the 2026-2027 school year.

- What will be done?
- Who will do it?
  - Grade level team
  - Building team
  - District team
- When will it be done?

What will be done?	Who will do it?	Target Date

We will do five large-scale family engagement events that incorporate Academics for the first hour and Social Emotional for the second hour.	Grade Level Teams Family Engagement Team Community Engagement Team Building Leaders	September '26 November '26 January '27 March '27 May '27
Confirm the Community Schools Coordinator's role in planning and hosting the five family engagement events; set the event calendar, the academic-hour and social-emotional-hour themes, and the roles of community-based organization partners.	Community Schools Coordinator Building Leaders Family Engagement Team	9/11/26
Publicize each event in families' home languages through flyers, texts, phone calls, and social media.	Family Engagement Team Main Office Staff	At least two weeks before each event
Collect family feedback surveys at every event and review the results with the Family Engagement Team and the Community Engagement Team to improve the next event.	Family Engagement Team Community Engagement Team	Within two weeks after each event

School Improvement Plan: Structures

List a minimum of one new or current structure that will support **Lead Strategy 4**. Table rows can be added if the school will utilize more than two structures to support **Lead Strategy 4.**

What structures will support Lead Strategy 4?		**How does this compare to 2025-26?**
Structure 1 *Provide a one sentence description.*	To develop and implement an effective Family Engagement Team and a Community Engagement Team	☐ New X Refined
When and how often will this take place?	Family Engagement Team will meet bi-weekly. Family Engagement Team and Community Engagement Team will meet monthly.	
How will this be used to implement and monitor Lead Strategy 4?	The team's goals are to: (1) increase family participation in school events and Academic Parent Teacher Team meetings; (2) connect families with the academic tools, student data, and social-emotional strategies they need to support learning at home; and (3) use family feedback to shape the school's improvement work. The team will review event attendance, family survey results, and student attendance data at each meeting and report progress to the Community Engagement Team monthly.	
Structure 2 *Provide a one sentence description.*	Plan for and implement Community School Model	X New ☐ Refined
When and how often will this take place?	5 times a year (September '26, November '26, January '27, March '27 May '27)	
How will this be used to implement and monitor Lead Strategy 4?	Attendance, Family Surveys Each event will combine practical academic strategies for families during the first hour with social-emotional and community-building activities during the second hour, in partnership with community-based organizations. Success will be measured through event attendance —	

	with the goal of engaging at least 200 families across the five events — and through family surveys collected at every event.

School Improvement Plan: Progress Monitoring and Impact

Identify Early Progress Indicator benchmarks for measuring evidence of change and impact of **Lead Strategy 4.** These can be process-based. ***As the year progresses, subsequent benchmarks will be provided by schools within each Quarterly Report.***

***Guiding Questions*:**

- What DIIs are aligned with this strategy?
- What data sources will be used? Include quarterly benchmark, formative, common, and interim assessments.
- What changes will you look for in teacher practice, behavior and related student outcomes that prove the strategy is having its desired impact?

Aligned DIIs	Data Sources	Early Progress Indicator(s)
Plan for and implement Community School Model Family and Community Engagement (DTSDE Tenet 6) (Diagnostic Tool for School and District Effectiveness)	Attendance and Engagement Data Social Emotional Learning Data (Panorama Survey, BMAS, — Family Surveys, Climate and belonging surveys, student interviews.	At least 100 families will attend each of the first two family engagement events (September and November 2026), building toward at least 200 different families engaged across the five events. At least 70% of attending families will complete the post-event survey, and at least 75% of respondents will report that they received tools they can use to support their child's learning at home. The *Family Engagement Team* will hold 100% of its scheduled weekly meetings with documented minutes, and event data will be reviewed at every monthly *Community Engagement Team* meeting.

District Support: Powers of The Receiver

List the Powers of the Receiver that will be utilized to specifically support the school in implementing **Lead Strategy 4**.

- Describe how the impact will be monitored and measured throughout the school year.

Powers of the Receiver	Evidence of Impact
None at this time.	Not applicable at this time.

District Support: Equitable Resource Allocation

List the resources you will need to allocate to **Lead Strategy 4** for implementation.

- What will the building leader, teachers and students need (staffing, funding, programs, services, materials)?

Building Leader Resources	Teacher Resources	Student Resources
Training in family engagement frameworks (Dual Capacity-Building Framework, Community Schools Model).	SEL and trauma-informed practice training for all staff.	
A Community Resources Coordinator or liaison to manage partnerships and outreach.	Coaching cycles with instructional coaches to strengthen Tier 1 belonging practices.	
Budget for family workshops, materials, and translation services.		
Funding for community events that build belonging and trust.		
	Family Program Aide that will be responsible for partnering with teachers to develop Academic Parent Teacher Teams (APTT)	
Event budget for space, food, materials, interpretation, at the five family engagement events.	Planning time and materials to prepare the academic hour of each family event, aligned with Academic Parent Teacher Team resources.	Translated take-home materials in families' home languages; transportation and childcare support so families can attend; opportunities for students to present their learning at each event; and access to health, counseling, and food resources through community-school partners.

District Support: Progress Monitoring and Impact

Describe the **specific district-level supports to be provided to the school, as well as what district-level structures and systems** will ensure the school is positioned to meet its Demonstrable Improvement (DI) Indicator targets and how these supports will be progress monitored for impact.

Guiding Questions:

- How will the district ensure students at this school have access to effective teachers, high-quality instruction, and meaningful learning opportunities?
- What data will be analyzed to demonstrate the impact of district support on the school's progress toward its Demonstrable Improvement (DI) Indicators?
    - Provide concrete examples (e.g., student performance data, teacher retention/improvement, access to programs, attendance, or engagement metrics).
- How will resources (staffing, funding, programs, services, materials) be distributed to meet the unique needs of this school?

Specific District Support	Evidence of Impact
As a part of the district's Elevate 3-1-5 Initiative, four components will drive Seymour's work: ▪ Family & Community Engagement **(Academic Parent Teacher Team)** ▪ Climate & Culture ▪ School Leadership ▪ Core Instruction (Personalized Learning) Aligned to the four components above, district support to Seymour will include: ▪ Reimagined Role of Assistant Superintendent ▪ Cross Department Support & Accountability Structure ○ Teaching & Learning ○ Student Supports ○ Human Resources ○ Information Technology & Accountability ▪ Alignment of External Partners (CBO's) ▪ BOCES Regional Support – Special Education	▪ Weekly Attendance Reviews. ▪ Quarterly Accountability Presentations (school will be responsible for detailing their progress toward DI indicators and overall outcomes). ▪ I-Ready and Benchmark Assessments (an assessment calendar and strategy is being finalized for Elevate 3-1-5 that will provide a clear cadence of student outcome data. ▪ Weekly School Visits (by District). A structured school visit process will be used to support and promote accountability toward DI Indicators and overall progress. The major focus of school visits will be to visit classrooms, calibrate on what is being seen, and establish next steps toward ensuring high-quality Tier I instruction is taking place in all classrooms. ▪ PLT Hub. An electronic platform is being developed to house all collaboration time agendas, notes, etc. District leaders will monitor and offer feedback on how collaboration time is being used and potential adjustments to better maximize this time.

Part IV: Building Strong Family and Community Partnerships: The Community Engagement Team (CET)

Background and Requirements: Who Else Can Help to Advance Our Plan?

The Community Engagement Team (CET) is a representative body designed to foster and support public engagement. The CET serves as an *active thought partner* contributing to and supporting the development of recommendations for school improvement as outlined by the school and district.

As such, respond to prompts in the following sections to provide a Community Engagement Plan that will be implemented through the work of the CET.

Selection

- Outline the process by which members of the CET will be identified and selected[1].

Summary of CET Selection Process
The Community Engagement Team is a representative body designed to foster and support public engagement. The CET serves as an active thought partner for schools under Receivership by contributing to and supporting the development of recommendations for school improvement. When recruiting and selecting CET members, care and consideration was given to identifying stakeholders, staff members, parents, community members, etc. who could bring unique perspectives to the team with the goal of improving outcomes for all. Email, Parent Square, and a public meeting were utilized to recruit team members. The team included members listed below. There are some anticipated changes for the 2026-2027 school year based on VP Guiffre and Mrs. Brooks moving on to new roles.

Membership

- When listing active and new members, include roles/titles.

Continuing Members
James Nieves: Principal Ilianatacha Rosa: Vice Principal Gloria Kimmich: Instructional Coach Sandra McKenney: Dual Language Coach Hannah Macko: First Grade Teacher Elizabeth Hernandez: Fifth Grade Teacher Evelyn Gonzalez: Spanish as a New Language Teacher Kristine Kolbasook: Teaching Assistant Laurie Black: Community Partner, United Ways Fanny Villareal: Executive Director, YWCA of Syracuse and Onondaga County Edgardo Clemente: Parent Luz Parilla: Parent Andrew Nolan: Assistant Superintendent Lyda Ragonese: Supervising Director of Multilingual and Cultural Education Kristina Crehan: Assistant Director of Multilingual and Cultural Education

New Members for 2026-2027
Marimar Nunez: Vice Principal Additional new members TBD

[1] Administrative, teacher, and parent representative members of the CET must be selected through the process as established in Commissioner's Regulations 100.11(b).

Participation

- Describe action steps to increase participation of parents/family members and students.

Action Steps to Increase Participation
• **Expand Outreach Efforts** — Use multiple communication channels (texts, calls, social media, flyers, and personal invitations) to ensure families and students receive clear, accessible information about CET opportunities, meeting times, and the impact of their involvement. When possible, ensure that communication is personalized. • **Create Welcoming Engagement Opportunities** — Host informal listening sessions, student-voice circles, and family meet-and-greets to build comfort and trust. Provide childcare, translation, transportation support, and flexible meeting times to remove participation barriers. • **Highlight Roles and Value** — Clearly communicate how stakeholders influence decision-making. Share examples of past contributions, celebrate member input publicly, and invite families and students to take on meaningful leadership roles within CET initiatives. When possible, share specific data points related to the Community Engagement Team and Schol Improvement.

Communication

- Identify the methods that will ensure the CET will have the necessary information and key data to analyze the impact of lead strategies and/or department-approved intervention and turnaround model in a timely manner.

CET Communication
The CET will have monthly meetings where necessary information and key data will be shared.

Progress Monitoring and Impact

- Outline the school's plan for ensuring the CET's engagement and contributions are represented in decisions made about the school's improvement plan and implementation.
  - How will the CET make its recommendations public?
  - How will the CET solicit public input?
  - How will the **school and the district** monitor the engagement of the CET?
  - What data and related evidence will be used to measure the impact of the CET on 2026-2027 plan implementation?

CET Engagement Plan	Evidence of Impact
CET meetings will be scheduled monthly with the purpose to provide feedback, recommendations, and input. Minutes of the meeting will be available to stakeholders. The CET will be able to request input from the school community as well when invited to specific meetings How recommendations will be made public: CET recommendations and meeting minutes will be posted on the school webpage (https://seymour.syracusecityschools.com/), shared in family newsletters in English and	Attendance rates at events increases Responses in family surveys increases Number of community partnerships increases Measurable targets: at least 80% average member attendance at monthly CET meetings; 100% of meetings documented with publicly available minutes; and every Quarterly Report documents at least one CET recommendation and how it was addressed.

Spanish, and presented publicly to the Board of Education as required. How public input will be solicited: each monthly meeting will include time for public comment; input will also be gathered through public hearings and community meetings as required by Regulation §100.19, family surveys, listening sessions held during the five family engagement events, and messages to the main office — always available in families' home languages. How the school and the district will monitor engagement: attendance and minutes will be kept for every meeting; the district's Office of Family and Community Engagement will review minutes and verify engagement each quarter; and CET input will be documented in each Quarterly Report. Data and evidence to measure impact: meeting attendance rates, the number of CET recommendations reflected in plan implementation, family survey response rates, and attendance and belonging survey trends.
