Comprehensive Educational Plan Outline

Table of Contents

Main Sections (Customized Based on School Accountability Status):

- Section 1: Overview of Comprehensive Education Planning
- Section 2: School Information
- Section 3: CEP SLT/Stakeholder Signature Page
- Section 4: School Summary
- Section 5: Priority 1 – All students learn to read well
- Section 5: Priority 2 – All students are physically and emotionally safe
- Section 5: Priority 3 – All students have a high-quality academic experience
- Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security
- Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools
- Section 5: Attendance/Chronic Absenteeism
- Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities
- Section 6: Multi-Tiered Systems of Support (MTSS)
- Section 7: Parent and Family Engagement Policy and School-Parent Compact
- Submission Assurances
- Language Allocation Policy Outline
- Part I: School ML/ELL Profile
- Part II: Bilingual Programs
- Part III: ML/ELL Programming
- Part IV: Data Analysis
- Part V: ML/ELL Instruction
- Part VI: Family Partnership
- Part VII: Additional Information
- Part VIII: ELL Identification Attestation and Principal Certification
- Part IX: LAP Assurances
- LTI Overview and Part A: Designation of a LAC
- Part B: Parents' Preferred Languages
- Part C: Parent Communications and Engagement
- Part D: Staff Awareness

- Part E: Parental Notification
- Part F: Monitoring

Appendices (Reflecting Additional Requirements for Specific Groups of Schools):

F

Section 1: Overview of Comprehensive Education Planning

Overview of Comprehensive Education Planning

Comprehensive Education Planning (CEP) is a structured, data-driven process that guides schools in assessing their needs, identifying areas for growth, setting strategic goals and implementing targeted actions to improve student outcomes. Collaboratively developed by the School Leadership Team (SLT) in accordance with the requirements of Chancellor's Regulation A-655, the CEP meets New York State Education Department (NYSED) requirements under the Every Student Succeeds Act (ESSA) and aligns with NYC Public Schools' (NYCPS) system-wide priorities. By engaging all stakeholders—school leaders, teachers, families, students and community members—schools can create a data-informed, equity-focused roadmap for student success and continuous improvement.

Schools should focus their CEP on the five system-wide priorities below, connecting their planning to the data discussions and conversations with stakeholders held as part of the school's needs assessment:

- Priority 1: All students learn to read well
- Priority 2: All students are physically and emotionally safe
- Priority 3: All students have a high-quality academic experience
- Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security
- Priority 5: All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

The Education Planning Process

The CEP follows an equity-driven, continuous improvement cycle, rooted in the system-wide priorities. This begins with a comprehensive needs assessment of the school's most current data to identify priority needs and root causes. Next, the SLT establishes **s**pecific, **m**easurable, **a**ttainable, **r**elevant, and **t**imely—SMART goal(s) aligned to each priority and determines targets to measure progress toward meeting the annual goals.

The SLT and instructional leaders define key evidence-based key strategies, professional learning activities and parent, family and community empowerment efforts. They monitor the implementation of those strategies and activities and track progress through measurable targets. Then, the SLT aligns the school-based budget with human and instructional resources to support action plans.

As schools set goals, develop key strategies, and plan action steps, they provide opportunities for all children to meet NYSED's proficient and advanced levels of student academic achievement. These include evidence based instructional strategies that address the educational needs of historically underserved populations and tackle structural inequities. Schools indicate how the plan addresses the needs of Multilingual/English Language Learners (ML/ELL) through development of the school's Language Allocation Policy (LAP) & Title III Application (if applicable) and the Language Translation and Interpretation (LTI) Plan, that are required as part of the CEP. Schools also address the needs of Students with Disabilities (SWD) through the High Quality Inclusive & Accessible Learning for Students with Disabilities section of the plan. SLTs also develop a plan to improve attendance and reduce chronic absenteeism.

Guidance on Conducting a Comprehensive Needs Assessment

Directions: Conduct a comprehensive needs assessment for each Priority. The information below provides guidance for reviewing and analyzing student and school performance trends to uncover root causes for low student achievement.

1. Review Multiple Data Sources: Use the most current and available information including, but not limited to, the following sources of formative and summative data, as applicable:

- Qualitative and quantitative data, including enrollment and class size trends
- 2024-25 ESSA Accountability Data
- Instructional Leadership Framework (ILF), Supportive Environment Framework (SEF) Inventories, and NYC School Survey results
- Quality Review Reports, NYSED and NYCPS CSI or A/TSI Support Visits, Receivership Quarterly Reports, and Diagnostic Tool for School and District Effectiveness Framework (DTSDE)
- NYC School Quality Guide, Insight, New Visions, NWEA MAP and/or other formative assessment data, IEP Review Survey Data, Progress on IEP Goals Data, Program (SESIS-STARS Linkage) Reports, Mandated (Related) Services Reports, and NYCPS Tools for Understanding Your Data for student subgroup information

2. Analyze Data Trend(s) to Identify Areas of Strength and Need: Identify data trends by grade, cohort, and content area(s) to surface gaps and inequities. Compare data sets to identify instructional and school practices that are impacting student performance. Guiding questions to consider:

- What does the data reveal about improving and declining student performance trends within grades, cohorts, and student subgroups?
- What inequities are evident between highest and lowest performing student subgroups? Which subgroup(s) scored at Level 1 based on NYSED ESSA accountability indicators?
- What does the data suggest regarding the effectiveness (or ineffectiveness) of current school programs, practices, and/or strategies/initiatives? What areas may need to be strengthened?
- Are there any differences in student performance between program delivery models for ML/ELL and SWD? (e.g., for special education: special class, ICT, SETSS, related services only; for ML/ELL: Transitional Bilingual Education (TBE) vs. Dual Language, etc.)
- How does delivery of instruction factor into data trends? What are the implications for teacher quality and professional learning?
- What inequities in special education referral and school disciplinary practices (e.g. suspensions, removals) are evident between student subgroups with IEPs?

3. Identify Root Cause(s): After analyzing the data, engage in a process for uncovering root causes or contributing factors for low student and school performance. Develop theories or hypotheses to explain

why these needs exist and why your school is getting its current outcomes. Root causes could be related to gaps and inequities in areas such as curriculum & instruction, school systems & structures, student support services, school climate & safety, and family & community engagement. Focus on the causes, rather than the symptoms. Use the 5 Whys Method or other methods for identifying root causes. Consider the questions below:

- What theories or hypotheses explain the current student and school outcomes?
- Are there root causes specific to certain subgroups, grades, cohorts, or content area(s)?

Additional resources and supports are available below.

- Use this CEP Needs Assessment Worksheet to help your SLT and stakeholders identify appropriate data sources, data trends, root causes and priority needs.
- For guidance and best practices on engaging stakeholders in a comprehensive needs assessment and root cause analysis, see this deck.
- A current list of all CEP/Title I resources can be found on the iPlan Portal Public Resources Page.

Section 3: CEP SLT/Stakeholder Signature Page

School Leadership Team (SLT) Signature Page

All School Leadership Team (SLT) members are expected to sign this page to confirm their participation in the development of this Comprehensive Education Plan (CEP) and that they have been consulted regarding the alignment of the school-based budget to support this school's educational program, which includes annual goals and action plans, Multi-Tiered Systems of Support (MTSS), the Parent and Family Engagement Policy (PFEP) and the School-Parent Compact (SPC). The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with Chancellor's Regulation A-655. The SLT also serves as the Core Community Engagement Team (CET) for Receivership Schools. Additional information and resources are available on the School Leadership Team Resources page. Under the Federal Every Student Succeeds Act (ESSA), NYS Education Law and Commissioner's Regulations, stakeholder participation in the development of the CEP must include multiple constituencies who represent the school community. Note: Stakeholders participating in the development of the CEP who are not listed on the SLT page sign the section below entitled Additional Stakeholder Participation on CEP Development.

Directions: List the names of each SLT member in the first column on the chart below.

- Specify the position and constituent group represented, e.g., parent-PTA, staff-UFT, student. Note: Two student minimum required for high schools; SED requires Middle Schools identified for the CSI/ATSI/TSI support model to have student representation.
- Community Based Organization (CBO), and any position held by the team member. Core mandatory SLT members are indicated by an asterisk*. Note: The Core SLT members also serve as the CET for Receivership schools.
- SLT members should review this document and sign in the Signature If an SLT member does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of SLT member indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.
- Schools may modify their SLT bylaws as needed to address additional school and/or ESSA requirements for stakeholder engagement.

SLT Member Name	Position and Constituent Group Represented	Signature
Eva Cieloszyk	Principal or Designee*	
Allison Fazio	United Federation of Teachers (UFT) Chapter Leader or Designee*	
Charlene Barkulis & Giri Parameswaran	Parents' Association (PA)/Parent-Teach Association (PTA) President or Designated Co-President*	
	District Council 37 (DC 37) Representative (staff), if applicable	
	Title I Parent Advisory Council Chairperson (or alternate)	
	Student Representative (Required for middle and high schools)	
	Student Representative (Required for middle and high schools)	
	CBO Representative, if applicable	
Natalia Hadjigeorgiou	Member/UFT	
Lynda Brock	Member/UFT

Yulia Schneyderman	Member/Parent	
Tamara Wood-Brahms	Member/Parent	
	Member/	
	Member/	

Additional Stakeholder Signature Page

Directions: Stakeholders participating in the development of the CEP who are not listed on the SLT page may sign below. Additional stakeholders may include, but not be limited to, school and district leaders, school staff, parents/families/guardians, students, community organizations, additional Core Community Engagement Team (CET) members (if applicable), members of the School Implementation Team (SIT), and/or school-based staff development committee that serves as the Instructional Leadership Team (ILT) tasked to improve instructional practice across the school. Go to NYSED's guidance on Assembling Your Team to learn more.

- List the names of additional stakeholders in the first column on the chart below.
- Specify the individual's position and constituent group represented.
- Stakeholders should review this document and sign in the Signature column. If the stakeholder does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of the additional stakeholders indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.

Section 4: School Summary

Accountability Status

Accountability Status: **LSI**

School Summary

Directions: Complete this CEP Summary to serve as the "at-a-glance" narrative that provides contextual information about your school's unique characteristics. This summary and the entire Comprehensive Education Plan (CEP) should be shared with your school community. Please note that this summary and the CEP will be made available to the public through the iPlan Portal, an online space where school stakeholders can go to collaborate in the development of the school's education plans.

Provide your school's mission statement:

Mission Statement
At PS 110, we cultivate a community of LEARNERs by providing a rigorous, engaging, and equitable learning experience.
Our dynamic, high-quality education is grounded in hands-on, inquiry-based learning that sparks curiosity, fosters critical thinking, and nurtures creativity. We empower students to become self-reflective, lifelong learners.
Rooted in empathy and kindness, we foster meaningful collaboration and celebrate the diverse strengths of our community—recognizing the shared humanity that unites us all.

Develop a narrative summary that includes contextual information about your school's community and its unique/important characteristics and partnerships:

Include demographic information about your school's student population.

School Narrative Summary

At PS 110, "The Monitor School," we cultivate a community of LEARNERs—where every child is supported to Lead, Empathize, Ask, Repair, and Nurture. Grounded in our mission to provide a rigorous, equitable, and engaging education, we are committed to educating the whole child through hands-on, inquiry-based learning that sparks curiosity, fosters critical thinking, and nurtures creativity.

We balance academics with a strong emphasis on arts, environmental education, social justice, and civic engagement. As a Green Team School, students explore environmental issues and sustainability practices, including through our hydroponics lab and garden-based learning, which is maintained with the support of the PTA's Greening Committee. We've partnered with Wellness in the Schools (WITS), and North Brooklyn Development Corporation (NBDC) to deepen student learning in health, nutrition, movement, and environmental responsibility.

Student voice and engagement are core values at PS 110. We are committed to civic learning through professional development for teachers with Banks College CRE and student engagement opportunities offered through district initiatives. Our goal is to create authentic spaces for students to reflect on their experiences, express their perspectives, and contribute meaningfully to their school and community. As the world continues to re-examine historical and present-day injustices, PS 110 fosters a learning environment that encourages students to engage with the past—and the present—through a lens of equity, inclusion, and empathy.

Our current enrollment is 450+ students for the 2025–2026 school year. We serve a diverse population that includes 2% English Language Learners (ELLs) and 13% students with disabilities, with a significant portion—190 students—participating in our robust French Dual Language Program.

Our PTA is deeply involved in school life, supporting arts residencies, maintaining the school library, and organizing enrichment events. Through partnerships with organizations like Dance Espana, Potash Theater and Theater for a New Audience, students engage in Latin dance, musical theater and Shakespearean studies. Fee-based afterschool providers and our DYCD-funded NBDC Compass program further enrich the student experience for over 100 children.

At PS 110, we believe that all students can learn and thrive when high expectations, meaningful relationships, and inclusive practices guide our work. Through collaborative leadership and community engagement, we are growing both hearts and minds.
PTA committees support school activities. For example, the library is parent-run, the greening committee in collaboration with our science teachers assists in running gardening classes for all PreK-5 students each spring. The greening committee also maintains the garden with the help of the community. PS 110 also partners with WITS, Wellness in the Schools, for nutrition education, chef support in the lunchroom and coach-led movement classes. We have partnered with Solar One and have an established hydroponics lab.

Briefly summarize the key initiatives your school will implement this school year.

Every child must learn to read and be on grade level by the end of kindergarten or first grade. This year we will continue to implement strong phonemic, foundational teaching to our youngest students, utilizing Fundations, Heggerty, and Into Reading ELA curriculum. We will provide tier 2 and tier 3 interventions to the subgroups which need to progress and achieve grade level proficiency in reading. We will continue to provide explicit math instruction to increase student growth in the area of mathematics to align with the NYC Solves shifts. Station teaching will also be fine-tuned to allow students to access rigorous curriculum with appropriate scaffolds and differentiation. Students will continue to utilize rubrics to self-assess and set goals. Peer assessment will also be utilized and refined, so that students can self-monitor their learning and know the specific skills they need to develop in order to progress.

What are the primary digital and/or print curricula/programs used for ELA and Math:

Indicate the content area, grade band and any adaptations made.

Content Area (Indicate ELA and Math Only)	Grade Band	Digital and/or Print Curricula/Program	Adaptations
ELA	K-5	Into Reading	Fundations, Heggerty
Math	K-5	Envision	Math Exemplars
Social Studies	K-5	Passport to Social Studies	Civics for All Materials
Science	K-5	Amplify Science	Science Standards

Section 5: Priority 1 – All students learn to read well

Priority 1 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Acadience EOY data (2024–2025): 15% of K–2 students remained below grade level in foundational literacy skills —down from 21% at MOY—highlighting improvement but still highlighting a need for improvement.	Within Tier 1 - explicit differentiated scaffolded instruction is lacking to support Tier 2 and 3 students.	Strengthen Tier 1 core instruction and Tier 2/Tier 3 interventions in foundational reading skills, especially in K–2 utilizing through data driven station teaching.
Based on iReady EOY data 2024–2025, 26% of students in Grades 3–5 scored below grade level in the informational text domain. This data reflects a significant gap in students' ability to comprehend and	Students have limited structured opportunities to develop academic reading stamina, analyze nonfiction	This indicates a critical need to strengthen upper-grade students' comprehension of informational texts through targeted instructional support and increased opportunities to engage with nonfiction reading tasks—led by the new library and

analyze nonfiction texts, which are essential for success across content areas.	texts, and conduct research using informational sources.	research cluster teacher serving Grades 3–5.

Priority 1

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for literacy outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Literacy

- Implement the strategies outlined in NYC Reads, including foundational phonics curriculum for grades K-2
- Implement dyslexia screening, professional learning, and program pilots (as applicable)
- Support literacy development through the integration of culturally responsive-sustaining texts and content

Priority 1 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	15	By June 2026, 95% of K-2 students will be at or above benchmark as measured by the EOY Acadience screener.
All Students	74%	By June 2026, 90% of grade 3-5 students will be at or above grade level in the informational text domain as measured by the iReady EOY diagnostic.

Priority 1 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

Priority 1 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Action Steps (K–2 Focus – Foundational Literacy Growth):

Implement targeted Tier 2 and Tier 3 interventions using Acadience data and progress monitoring to identify and monitor students below benchmark.

Continue to support and provide professional learning on differentiated instruction in a data driven station teaching model within the Tier 1 core (NYC Reads)

Use weekly grade team meetings to analyze student progress, adjust instruction and create data driven stations.

Conduct learning walks, intervisitations and coaching cycles focused on foundational literacy practices.

Build capacity of interventionists and classroom teachers through collaborative planning with literacy coach or instructional lead.

Action Steps (Grades 3–5 Focus – Informational Text & Research Cluster):

Launch a dedicated Library and Research Cluster for all students in Grades 3–5, led by a teacher trained in the Into Reading curriculum.

Integrate inquiry-based projects aligned with content areas (e.g., social studies, science) to deepen comprehension.

Select and sequence nonfiction texts that are culturally responsive and grade-appropriate.

Use iReady instructional groupings to provide targeted support during library sessions.

Offer PD for cluster teacher on scaffolding informational text skills, aligned with district and NYCPS resources.

Root Cause Addressed:

Key Strategy 1 (K–2 Focus – Foundational Literacy Growth)
Root Cause Addressed:
Tier 1 instruction lacks sufficient explicit, differentiated scaffolding to meet all learners' foundational literacy needs.

Key Strategy 2 (Grades 3–5 Focus – Informational Text & Research Cluster)
Root Cause Addressed:
Students lack structured opportunities to engage with complex informational texts and develop academic reading stamina and research skills.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Implement targeted Tier 2 and Tier 3 interventions using Acadience data to identify and monitor students below benchmark.
Provide professional learning on differentiated instruction within the Tier 1 core (NYC Reads) phonics program.
Use weekly grade team meetings to analyze student progress and adjust instruction.
Conduct learning walks and coaching cycles focused on foundational literacy practices.
Build capacity of interventionists and classroom teachers through collaborative planning with literacy coach or instructional lead.
Launch a dedicated Library and Research Cluster for all students in Grades 3–5, led by a teacher trained in the Into Reading curriculum.
Integrate inquiry-based projects aligned with content areas (e.g., social studies, science) to deepen comprehension.
Select and sequence nonfiction texts that are culturally responsive and grade-appropriate.
Use iReady instructional groupings to provide targeted support during library sessions.
Offer PD for cluster teacher on scaffolding informational text skills, aligned with district and NYCPS resources.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To monitor the effectiveness of our foundational literacy and informational text strategies, PS 110 will use the following structures and data sources:

Grade Team Data Meetings (biweekly): Review iReady (Grades 3–5) and Acadience (Grades K–2) progress monitoring reports to adjust instruction and intervention supports as well as set up rigorous data driven stations for small group targeted instruction.

Instructional Leadership Team (ILT) reviews: Monthly analysis of growth trends, intervention coverage, and alignment to NYC Reads and comprehension priorities.

Classroom Observations & Learning Walks: Focused on foundational phonics (K–2) and informational text engagement and research practices (3–5), with actionable feedback to teachers.

Student Work Protocols: Used in professional learning communities to analyze reading comprehension and nonfiction writing artifacts.

Library/Research Cluster Logs & Exit Slips: Monitor student participation and track skill growth in Grades 3–5 informational text comprehension.

Progress Monitoring Tools: These tools will be used to track individual student progress toward end-of-year goals and guide instructional decisions throughout the year.

Acadience Progress Monitoring (Grades K–2)

iReady Progress Monitoring (Grades 3–5)

Priority 1 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/09/2025	06/19/2026	Share Acadience and iReady progress updates with families during parent-teacher conferences and workshops	Teachers
09/09/2025	06/19/2026	Provide families with home literacy strategies through monthly newsletters and ParentSquare posts	Parent Coordinator, Assistant Principal
10/15/2026	05/19/2025	Invite families into the Library & Research Cluster to showcase student projects and share reading routines	Inquiry Research Cluster, PTA

Priority 1 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Staff - teachers, paraprofessionals, school aides, administration, instructional coaches

n/a

Section 5: Priority 2 – All students are physically and emotionally safe

Priority 2 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:

1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.

2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?

3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
According to the 2024 NYC School Survey, 91% of staff agreed that the school works to develop strong social-emotional supports for students. However, internal data and stakeholder feedback indicate that implementation of SEL practices remains inconsistent across classrooms, and that communication with families about SEL programming and student well-being could be strengthened. These trends point to the need for more structured and schoolwide approaches to SEL delivery and family engagement.	Inconsistent scheduling and implementation of SEL instruction across classrooms, leading to uneven student access to social-emotional learning experiences and limited reinforcement of SEL competencies schoolwide.	Implement and program a 10-minute morning restorative circle routine into the master schedule for all classrooms to build consistency in Tier 1 SEL practices. These circles will support community building, emotional check-ins, and reinforce core SEL competencies. Likewise, set up a School Wellness Committee to monitor SEL implementation, surface needs, and support schoolwide planning.

According to the 2024–2025 OORS data, the most frequent infraction was A33 – Engaging in physically aggressive behavior, highlighting a need for more proactive SEL supports and consistent de-escalation strategies to reduce physical incidents and promote student safety.	Staff have limited access to consistent, school-wide training on trauma-informed de-escalation techniques, leading to varied responses to student dysregulation and a lack of shared strategies for preventing and managing physically aggressive behavior.	Provide professional development for teachers and support staff focused on de-escalation techniques and crisis response. These sessions will build staff capacity to apply trauma-informed practices that help manage student dysregulation and reduce physically aggressive behaviors, as reflected in OORS incident trends. Implement a school-wide PBIS framework built around the school's mission statement & LEARNer acronym.

Priority 2

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for physical and emotional safety** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Physical and Emotional Safety

- Develop safety infrastructure and systems, including staff training, collaboration with external partners, and implementation of safety and security best practices
- Expand social emotional and mental health supports via restorative justice, Project Pivot, screeners, and other district or school-based initiatives (as applicable)
- Expand implementation of physical and mental wellness supports, including Physical and Health Education that meets NYSED requirements and related initiatives
- Improve supports and outcomes for socially vulnerable student populations (Students in Temporary Housing, Students in Foster Care)

Priority 2 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	91% feel that the school works to develop strong social-emotional supports for students	By June, 2026, physical and mental wellness for all students will improve, as measured by a 9% increase, in teacher perception around social-emotional support for students from 91% favorable to 100% per the 2025 NYC School Survey .
All Students	10	By June, 2026, physical and mental wellness for all students will improve by 50%, as measured by OORS 2025-2026 data, from 10 to 5 A33 incident reports.

Priority 2 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 2 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Key Strategy 1: Strengthen Tier 1 SEL Programming and Staff Capacity

Action Steps:

Implement a daily 10-minute restorative circle routine during morning meetings across all classrooms to provide consistent Tier 1 SEL instruction.

Provide professional development for teachers and support staff focused on de-escalation techniques and crisis response to ensure staff are equipped with trauma-informed strategies for managing student behavior.

Establish a School Wellness Committee (including staff and families) to monitor SEL implementation, surface needs, and support schoolwide planning.

Integrate SEL learning expectations into grade-level planning meetings, using Child Mind Institute (CMI) lesson plans and SEL-aligned Sanford Harmony resources.

Increase communication with families through quarterly ParentSquare highlighting SEL topics, strategies, and the impact of push-in supports posted by school social worker and guidance counselor.

Key Strategy 2: Improve Tier 2 Supports to Prevent Escalation and Reduce Physical Incidents

Action Steps:

Create a staffed sensory resource room where students can take calming breaks or be de-escalated before behaviors escalate into physical aggression.

Monitor OORS data monthly as part of crisis team meetings and adjust staffing or supports based on incident trends.

Incorporate debriefing sessions after incidents, ensuring staff reflect and align on shared de-escalation practices.

Implement a school-wide PBIS framework built around the school's mission statement & LEARNer acronym.

Root Cause Addressed:

Root Cause Addressed:
Inconsistent scheduling and implementation of SEL instruction across classrooms; limited staff training in de-escalation and trauma-informed responses.

Root Cause Addressed:
Lack of designated, structured support spaces for students in crisis and inconsistent classroom-level strategies for escalation prevention.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Implement a daily 10-minute restorative circle routine during morning meetings across all classrooms to provide consistent Tier 1 SEL instruction.
Provide professional development for teachers and support staff focused on de-escalation techniques and crisis response to ensure staff are equipped with trauma-informed strategies for managing student behavior.
Establish a School Wellness Committee (including staff and families) to monitor SEL implementation, surface needs, and support schoolwide planning.
Integrate SEL learning expectations into grade-level planning meetings, using Child Mind Institute (CMI) lesson plans and SEL-aligned curriculum.
Increase communication with families through quarterly ParentSquare posts highlighting SEL topics, strategies, and the impact of push-in supports.
Create a staffed sensory resource room where students can take calming breaks or be de-escalated before behaviors escalate into physical aggression.
Monitor OORS data monthly as part of crisis team meetings and adjust staffing or supports based on incident trends.
Incorporate debriefing sessions after incidents, ensuring staff reflect and align on shared de-escalation practices.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To track implementation and impact of both Tier 1 SEL strategies and Tier 2 behavior supports, PS 110 will use the following structures and data sources:

SEL Team and Crisis Team Meetings (monthly): Review OORS data trends, sensory room usage logs, and identify patterns in student behavior to adjust Tier 2 interventions.

Grade Team Planning Meetings (biweekly): Monitor fidelity of SEL lesson implementation (e.g., morning circles) and reflect on student needs using CMI lessons and classroom experiences.

Instructional Leadership Team (ILT) Reviews: Monitor progress toward NYC School Survey goals by conducting informal teacher feedback checks on SEL supports and perceived student safety.

Walkthroughs & Classroom Observations: Focused on the quality and consistency of SEL routines and restorative practices during morning meetings and throughout the day.

Professional Development Feedback Forms: Collected after each training session to evaluate staff confidence and skill in applying de-escalation techniques.

School Wellness Committee (monthly): Composed of staff and parents, this group will review SEL implementation progress, analyze sensory room data, gather stakeholder feedback, and make recommendations to leadership.

Priority 2 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
10/01/2025	06/19/2026	Quarterly posts on ParentSquare from the school social worker highlighting SEL topics, conflict resolution tips, and updates on SEL push-in supports.	Social Worker, Parent Coordinator
11/03/2025	05/29/2026	Host Family Wellness Events to share SEL practices used at school and offer strategies families can use at home.	Wellness Committee, PTA
10/20/2025	06/15/2026	Post monthly meeting minutes and action steps from the School Wellness Committee to increase transparency and family partnership.	School Wellness Committee

Priority 2 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Section 5: Priority 3 – All students have a high-quality academic experience

Priority 3 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Based on end-of-year i-Ready diagnostic results, 23% of students in Grades 3–5 are performing one grade level below expectations in math. While overall proficiency improved significantly, this subgroup of nearly one-quarter of students has not yet reached proficiency, despite showing movement out of the "two or more grade levels below" band.	Students performing one grade level below often benefit from more consistent and targeted Tier 2 instruction. While they may not require intensive intervention, they still need structured opportunities for acceleration to successfully reach grade-level proficiency.	Implement a consistent, data-driven Tier 2 plan for students performing one grade level below.

Based on end-of-year i-Ready diagnostic results, 30% of students in Grades K-2 are performing one to two grade levels below expectations in math. While overall proficiency improved significantly, this subgroup of students has not yet reached proficiency, despite showing improvements in proficiency.	Early learners in Grades K–2 are continuing to build foundational numeracy and problem-solving skills. While Tier 1 instruction is in place, students performing below grade level often require more frequent, developmentally appropriate, and differentiated small group instruction. Additionally, Tier 2 supports may not be introduced early enough in the year or consistently sustained, particularly for students who are just below grade level and do not require intensive intervention.	Strengthen Tier 2 instructional systems in K–2 to ensure that students who are approaching proficiency receive timely, targeted small group support.

Priority 3

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for high-quality academics** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Academics

- Strengthen mathematics instruction, including via screener administration and Multi-Tiered Systems of Support (MTSS)
- Embed culturally responsive-sustaining texts and content (e.g., Hidden Voices, Black Studies Curriculum, etc.) in history, literature, and arts curricula to deepen civic engagement, enhance understanding of diverse cultures and provide relevant and affirming interventions in literacy development
- Ensure multilingual language learners (MLLs) are served and progressing in appropriate settings; expand bilingual programming and professional learning for educators who support MLLs
- Ensure students with disabilities are served and progressing in the least restrictive and most appropriate settings; improve delivery of mandated services and expand specialized programs
- Ensure that Students in Temporary Housing (STH) and Students in Foster Care access opportunities to receive tutoring and are purposefully engaged in new programs developed in the school
- Elevate health and physical education and activities for a reimagined and engaged student academic experience promoting social, emotional, and physical wellness and wellbeing
- Ensure teachers attend Physical Education and Health Education professional learning in order to provide quality instruction to be able to support and address the physical, mental, social, and emotional needs of the whole child in a safe and supportive learning environment
- Strengthen Early Childhood Education program utilization, quality, and ability to serve all students
- Elevate arts and civics for a reimagined and more engaged student academic experience
- Increase school staff diversity and retention
- Create new programs/schools in response to community need; expand high quality seats

Priority 3 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	77%	By June, 2026, students performing at or above grade level proficiency will Increase by 10% from 77% to 87% in grades 3-5, as measured by I-Ready Diagnostics .
All Students	70%	By June, 2026, students at or above grade-level proficiency will Increase by 10% from 70% to 80 students in grades K-2, measured by I-Ready Math Diagnostics.

Priority 3 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). Priority 3 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Implement a schoolwide Tier 2 math intervention system for Grades K–5 that uses i-Ready data and formative assessments to identify students one grade level below, provide consistent small group instruction, and monitor progress through ongoing collaboration and coaching cycles.

Root Cause Addressed:

Students performing one grade level below in Grades 3–5, and those one to two grade levels below in K–2, often benefit from more consistent and targeted Tier 2 instruction. These students may not require intensive interventions but still need structured acceleration opportunities that are developmentally appropriate and data-driven to reach proficiency.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Develop and Launch a Tier 2 Framework (K–5)
Establish Consistent Tier 2 Instructional Blocks in Every Grade
Implement Biweekly Progress Monitoring
Provide Ongoing Professional Learning and Coaching Cycles
Implement Collaborative Planning Time for Tier 2 Instruction

Engage Families of Tier 2 Students

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To effectively monitor the implementation of our Tier 2 math intervention system across Grades K–5, we will establish multiple progress monitoring structures focused on both fidelity of implementation and impact on student learning.

Data Team Meetings & Collaborative Planning:

Monthly grade-level and intervention team meetings will analyze i-Ready diagnostic data, formative assessment results, and progress monitoring data to evaluate the effectiveness of Tier 2 instruction.

Coaching and Classroom Observations:

Instructional leaders will conduct bi-weekly classroom visits focused on Tier 2 small group instruction fidelity, providing feedback and support to teachers.

Observation data and coaching notes will be used to refine instructional practices and identify professional development needs.

Formative Assessment Cycles:

In addition to the triannual i-Ready diagnostics, teachers will administer targeted formative assessments every 4–6 weeks to monitor student growth within Tier 2 groups.

The data will be used to make immediate instructional adjustments.

Use of Data for Determining Progress and Impact:

Data from these multiple sources will be triangulated during monthly and quarterly data team meetings to evaluate the effectiveness of Tier 2 supports.

Adjustments to instructional strategies and resource allocation will be made based on data trends to ensure continuous improvement.

Progress will be reported formally in the PRT, aligning with district reporting requirements, ensuring transparency and accountability.

Impact on student learning will be measured by the movement of students from below grade level toward proficiency, aiming for the targeted 10% increase by June 2026.

Priority 3 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
		Provide regular multilingual communication updating families on student progress, intervention plans, and ways to engage at home.	Classroom Teachers
	06/12/2026	Train staff on culturally responsive family engagement practices to strengthen trust and communication with all families, including foster and birth parents.	School Leadership

3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Based on 2024–2025 Advance ratings, only 35.5% of teachers were rated Effective or Highly Effective in Danielson Domain 3B (Questioning and Discussion Techniques) and 3D (Using Assessment in Instruction). This indicates that while some classrooms promote peer collaboration and student self-reflection, these	Although college-ready skills are embedded in daily instruction, students are not consistently encouraged to reflect on their development	PS 110 needs to implement a schoolwide structure that helps students recognize, reflect on, and demonstrate growth in key college- and career-ready skills such as self-monitoring, collaboration, and perseverance. Developing a

practices are not yet consistent schoolwide. Strengthening these components offers an opportunity to build students' college-ready skills, such as self-monitoring and academic discourse.	in these areas, which may limit their ownership, awareness, and long-term growth in lifelong learning habits.	consistent system for assessing these skills will ensure all students have opportunities to build lifelong learning habits and see themselves as capable, independent learners.

Priority 4

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for **college and career readiness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for College and Career Readiness

- Expand career pathways and work-based learning, opportunities for early college credit and industry credentials, and college/career advising and awareness, including via the Career Readiness Modern Youth Apprenticeship and FutureReadyNYC (as applicable)
- Schools serving students in early childhood, elementary, and middle school settings should consider how they expose students to and prepare them for advanced (Regents-level) coursework, Specialized High School Admission Test (SHSAT) preparation, college awareness, career studies, etc.
- Integrate historical and contemporary contributions of culturally diverse professionals, scholars, and entrepreneurs into career readiness programs, ensuring students see diverse pathways to success
- Incorporate lessons on wealth-building strategies, cooperative economics, and financial independence to equip students with tools for long-term economic security
- Ensure the implementation of specialized support programs tailored for Students in Temporary Housing and/or Foster Care, addressing their unique educational needs and challenges

Priority 4 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	35.5%	PS 110 The Monitor School will address Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security with the following SMART Goal: By June, 2026, the percentage of teachers rated effective and highly effective in Danielson Framework 3b and 3d domains for All Students will Increase by 24.5% from 35.5% to 60% as measured by Advance Teacher Ratings Component 3b and 3d.

Priority 4 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

Priority 4 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Action Steps:
Provide targeted professional development on Danielson Domains 3B and 3D, with a focus on student questioning techniques, academic discourse, and self- and peer-assessment using rubrics.

Develop and share look-for tools for administrators and instructional leaders to guide walkthroughs focused on effective questioning and assessment strategies.

Facilitate collaborative planning sessions during grade team meetings, where teachers co-plan lessons that include peer collaboration, academic discussion, and student reflection opportunities.

Create schoolwide learner habit rubrics (e.g., self-monitoring, collaboration, perseverance) to embed in classroom instruction and student work.

Integrate reflection practices into classroom routines using journals, conferencing, or student goal-setting aligned to learner habits and college-ready skills.

Coach and support teachers through feedback cycles, aligned to Domains 3B and 3D, with action-oriented follow-ups and opportunities for peer observation.

Root Cause Addressed:

Inconsistent Use of Reflection and Rubrics
While college-ready skills like collaboration and self-monitoring are embedded in instruction, students are not consistently engaged in structured self- or peer-reflection, which limits the visibility and intentional development of these skills.

Lack of Targeted Support for 3B and 3D Practices
Teachers have varying levels of support and professional development in advanced questioning techniques (3B) and formative assessment practices (3D), leading to inconsistencies in the quality of student discussion and reflection across classrooms.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Provide targeted professional development on Danielson Domains 3B and 3D, with a focus on student questioning techniques, academic discourse, and self- and peer-assessment using rubrics.
Develop and share look-for tools for administrators and instructional leaders to guide walkthroughs focused on effective questioning and assessment strategies.
Facilitate collaborative planning sessions during grade team meetings, where teachers co-plan lessons that include peer collaboration, academic discussion, and student reflection opportunities.
Create schoolwide learner habit rubrics (e.g., self-monitoring, collaboration, perseverance) to embed in classroom instruction and student work.
Integrate reflection practices into classroom routines using journals, conferencing, or student goal-setting aligned to learner habits and college-ready skills.
Coach and support teachers through feedback cycles, aligned to Domains 3B and 3D, with action-oriented follow-ups and opportunities for peer observation.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To track progress toward improving teacher effectiveness in Domains 3B and 3D, PS 110 will use the following structures and evidence sources:

Instructional Leadership Team (ILT) Reviews: Quarterly analysis of Advance observation data, focusing on growth in Domains 3B and 3D across classrooms.

Administrator Walkthroughs: Monthly informal observations using a custom 3B/3D “look-for” tool to monitor questioning strategies, student discussion, and assessment use in instruction.

Coaching and Feedback Logs: Document and review teacher progress from individualized feedback cycles, with a focus on applying 3B/3D practices.

Teacher Reflection and PD Exit Tickets: After each professional development session, staff will complete reflection forms identifying which 3B/3D strategies they will implement.

Grade Team Collaborative Planning: Track implementation of student self-reflection tools and learner habit rubrics through planning minutes and review of classroom artifacts.

Rubric Implementation Checks: Review student use of learner habit rubrics during classroom visits and student work reviews to assess depth of reflection and engagement.

Priority 4 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
10/01/2025	06/12/2026	Share information with families about college-ready skills (e.g., self-monitoring, collaboration) in newsletters and at curriculum events.	Parent Coordinator, Teachers
10/01/2025	06/12/2025	Post monthly classroom highlights on ParentSquare showcasing how students are developing and applying learner habits.	PTA, Classroom Teachers
02/01/2025	05/15/2026	Offer a family workshop on growth mindset and goal-setting to align school and home practices that support lifelong learning habits.	Guidance Counselor, Wellness Team

Priority 4 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

n/a

Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

Priority 5 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:

1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.

2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?

3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs

The 2024 NYC School Survey results show that fewer than 60% of families felt included in decision-making	While the school regularly communicates with families and provides important updates, opportunities for shared leadership and collaborative input into school decisions are limited in structure and visibility. As a result, families may not always recognize or feel ownership over the ways their voices can shape school priorities, programming, or culture.	Establish intentional, visible structures for family voice and shared decision-making—such as family co-led committees, parent advisory groups, and inclusive planning processes—so that families feel more meaningfully involved in shaping school priorities, programs, and culture.

Priority 5

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for parent, family, community and system responsiveness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Focus Areas for System Responsiveness to Parents, Families and Communities

- Engage more deeply with families to understand their needs and plan new, high-quality programs
- Build community trust and bolster engagement, including via improved language access and increased family engagement and participation
- Implement the newly updated NYCPS School Wellness Policy, which provides a framework for all members of the school community, including families and students, to come together and assess and coordinate wellness efforts for their community
- Implement and lead strategies that support community involvement and increase Minority and Women Owned Business Enterprises (MWBE) utilization

Priority 5 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Parents of All Students	57%	By June 2026, there will be a 13% increase in the percentage of parents and families who report feeling included in school decision-making from 57% to 70%, as measured by the 2025 NYC School Survey, by expanding family-led decision-making structures, offering multilingual engagement opportunities, and co-planning culturally responsive events that reflect the community's voice and needs.

Priority 5 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

NYC School Survey Results

Enter a Key Performance Indicator

Percentage of families who report feeling included in school decision-making.

Baseline:

57%

Enter the date for the baseline data:

June 2024

Enter Period 1: Beginning of Year (BOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

School will increase participation in family decision-making activities, aiming for at least 25% of families to attend at least one school-led or co-led planning or input session (e.g., SLT, family forum, or focus group). Qualitative family feedback will reflect improved awareness of decision-making opportunities.

Enter Period 2: Middle Of Year (MOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

At least 45% of families will have participated in two or more inclusive engagement opportunities (e.g., family planning committees, culturally responsive events), with family feedback surveys indicating a 10% increase in positive responses to feeling heard by the school.

Enter Period 3: End of Year (EOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

Internal family engagement data and feedback will show continued upward trends, with a projected NYC School Survey response rate of 65–70% reporting families feel included in school decision-making — on track to meet the June 2026 goal of 70%.

Priority 5 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 5 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Establish and promote visible, inclusive family leadership structures that empower caregivers to co-plan and co-lead school initiatives and decision-making efforts.

Root Cause Addressed:

While the school maintains regular communication with families, opportunities for shared leadership and visible collaboration in school decisions are limited in structure and scope. As a result, families may not perceive their input as valued or impactful.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Launch new Family Advisory Councils composed of diverse caregiver representatives, including multilingual families, parents of students in temporary housing, and those new to the school.
Shift from school-led events to co-planned family engagement activities that reflect cultural traditions, community interests, and student needs.
Gather input through surveys, listening circles, and family forums.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Family Engagement Team Meetings:

A cross-representative team including administrators, parent leaders, and staff will meet monthly to review implementation progress, share feedback, and refine practices.

Meeting minutes and participation logs will be collected to document collaboration and accountability.

Family Advisory Council and Committee Feedback:

Implementation of co-led family committees will be tracked for frequency, participation diversity, and alignment to school priorities.

These groups will submit quarterly feedback reports to school leadership, documenting family-generated input and how it was integrated into school planning.

Multilingual Outreach and Event Logs:

Data on communication (e.g., flyers, translations, messages sent), participation rates at events, and language

accessibility will be tracked to ensure inclusive outreach practices.

Priority 5 Family and Community Engagement

Family and Community Engagement

2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Upon analysis of attendance data from the 2024-2025 school year, sourced from NYCPS' Student Population Report and internal ATS daily attendance tracking, we observed that approximately 4% were identified as severely chronically absent and approximately 16% were chronically absent. This results in nearly 20% of the school population experiencing chronic or severe absenteeism.	Inconsistent tiered attendance interventions, including personalized outreach for Tier 2 and Tier 3 students.	Early identification and intervention systems to flag students trending toward chronic absenteeism, with regular monitoring protocols and case management.
Upon analysis of attendance data from the 2024-2025 school year, sourced from NYCPS' Student Population Report and internal ATS daily attendance tracking, approximately 32% of the student population are identified	Limited tiered prevention strategies for students who are	Strengthening school-wide climate and SEL structures, including restorative circle morning meetings, interest-

as at risk for chronic absenteeism, defined as students with attendance between 90–95%.	approaching chronic absenteeism but have not yet triggered intervention thresholds.	based learning experiences, and build student belonging and motivation to attend consistently.

Attendance/Chronic Absenteeism

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal aligned to our systemwide focus on improving attendance and **reducing chronic absenteeism**.

Systemwide Focus Area for Attendance/Chronic Absenteeism: Develop and implement strengthened practices to improve attendance, combat chronic absenteeism and center equity. Note: For ESSA accountability purposes, NYSED will replace the Chronic Absenteeism indicator with the Attendance indicator, beginning in the 2025-26 school year. Learn more about the new Attendance indicator by reviewing this Fact Sheet.

Attendance/Chronic Absenteeism SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	Severely chronically absent 4% chronically absent 16%, and 34% at risk	By June, 2026, severely chronically absent students will decrease from 4% to 2%, chronically absent students will decrease from 16% to 12%, and students at-risk for chronic absenteeism will decrease from 32% to 25% as measured by the Chronic Absenteeism Reports.

Attendance/Chronic Absenteeism Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). Attendance/Chronic Absenteeism Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

With 32% of students identified as at risk for chronic absenteeism, the school needs a proactive, data-driven system to identify and intervene before students reach chronic absenteeism thresholds.

Action Steps:

Design and launch a tiered attendance system using ATS and internal attendance tracking to flag students in the 90–95% range by mid-September 2025.

Establish an Attendance Intervention Team (AIT) responsible for reviewing flagged student data weekly and assigning Tier 2 or Tier 3 supports.

Develop a system of tiered communication, including personal phone calls, text check-ins, and home visits for Tier 2 and Tier 3 students, beginning October 2025.

Recognize and celebrate improved attendance through shout-outs, certificates, and family events (e.g., breakfast with the principal).

Root Cause Addressed:

The school's high percentage of students who are chronically absent or at risk of chronic absenteeism is primarily due to the lack of consistent, tiered interventions for students before they reach chronic levels, limited family engagement structures to address attendance-related barriers, and student disengagement stemming from weak connections to school and insufficient social-emotional supports.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Design and launch a tiered attendance system using ATS and internal attendance tracking to flag students in the 90–95% range by mid-September 2025.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Weekly Attendance Team Meetings
Purpose: Track implementation of early warning systems and intervention plans.

Evidence Collected:

Weekly ATS attendance reports, broken down by overall %, chronic, and at-risk categories.

Dashboard logs of flagged students and Tier 2/Tier 3 intervention assignments.

Monitor school-wide trends and determine if actions are having a system-level impact.

NYCPS Student Population Report attendance snapshots.

Comparative analysis of chronic absenteeism rates by grade level, subgroup (e.g., ELLs, SWDs), and intervention status.

Trends over time in at-risk student attendance.

Logs of phone calls, texts, and home visits (organized by tier).

Increased family participation and reduced absenteeism among students whose families received Tier 2+ outreach.

Ensure SEL practices are implemented with fidelity and driving student connection to school.

Attendance/Chronic Absenteeism Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/09/2025	06/26/2026	Distribute multilingual “Attendance Toolkits” to all families (including foster and temporary housing families) explaining attendance expectations and available supports.	NYCPS Translation & Interpretation Unit, Parent Coordinator, DOE Students in Temporary Housing Team
09/09/2025	06/12/2026	Implement a tiered family communication system, including phone calls, home visits, and attendance progress updates for at-risk and chronically absent students.	Attendance Teacher, Social Worker, DOE Students in Temporary Housing, Parent Coordinator

Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities

High Quality Inclusive & Accessible Learning for Students with Disabilities Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs (NYCPS Systemwide Needs for all schools noted below.)
Based on the 2024-2025 school-based special education progress monitoring logs, approximately 80% of families attended the scheduled six-week IEP progress monitoring	Inconsistent follow-up or reminders leading up to meetings, resulting in missed	IEP Development

meetings. While this reflects a strong engagement rate, 20% of families were either unable to attend or did not respond to meeting invitations, resulting in incomplete collaboration in monitoring IEP goal progress and adjusting supports as needed.	communication and scheduling gaps.	and Fidelity of Implementation
In the 2024–2025 school year, internal compliance tracking and SESIS service logs indicate that at least one student did not receive a scheduled assistive technology evaluation due to multiple missed appointments between the family and the outside service provider. As a result, the recommended assistive technology was not implemented, leading to a lapse in IEP compliance and a delay in the student's access to required supports.	Lack of a clear communication and follow-up protocol between the school, external providers, and families to ensure appointments are confirmed and attended.	Transition Planning and Compliance
During the 2024–2025 school year, school-based referral data shows that 15 students were referred for initial special education evaluations. A review of student intervention records indicates that a significant portion of these referrals were made before students had received sustained, targeted Tier 2 or Tier 3 interventions, such as SPIRE or Phonics for Reading. This trend suggests a need to build greater consistency and depth in the pre-referral intervention process to support students more effectively within general education settings.	Inconsistent implementation and progress monitoring of Tier 2 and Tier 3 interventions prior to initiating referrals.	Referral Process and Equity
During the 2024–2025 school year, school discipline records from the Online Occurrence Reporting System (OORS) show that 23 out of 57 total behavioral incident reports (approximately 40%) involved students with disabilities. This percentage is disproportionately high when compared to the overall percentage of students with disabilities in the school population, indicating a need to examine and improve behavior support systems and interventions for this group of students.	Inconsistent implementation of behavior intervention plans (BIPs) and positive behavior supports for students with IEPs A reactive school-wide approach to behavior management, rather than a preventive one grounded in restorative and inclusive practices.	Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities

Directions: After conducting a comprehensive needs assessment by analyzing school data trends including IEP Review Surveys; exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop outcome-focused SMART goals for identified priority need(s) and the relevant systemwide focus areas for **High Quality Inclusive & Accessible Learning for Students with Disabilities** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Inclusive and Accessible Learning for Students with Disabilities:

- IEP Development and Implementation
- Transition Planning and Compliance
- Referral Process and Equity
- Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Students with Disabilities (SWD)	80%	By June, 2026, to strengthen the quality and implementation of IEPs for Students with Disabilities (SWD), we will improve family participation by 20%, from 80% to 100%, as measured by SESIS.
Students with Disabilities (SWD)	98%	By June, 2026, to strengthen the quality and implementation of IEPs for Students with Disabilities (SWD), we will improve Alignment of IEPs across recommended programs and services by a 2% Increase, from 98% to 100%, as measured by SESIS.
Students with Disabilities (SWD)	15	By June, 2026, to strengthen the quality and implementation of IEPs for Students with Disabilities (SWD), we will improve Reduction of IEP initial referrals by 33%, from 15 to 10 students per year, as measured by SESIS.

High Quality Inclusive & Accessible Learning for Students with Disabilities Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

High Quality Inclusive & Accessible Learning for Students with Disabilities Action Plan

Key Strategy 1 (Required):

Strengthen the development and implementation of high-quality, compliant IEPs through targeted professional learning, progress monitoring, and pre-referral intervention practices that ensure all students with disabilities receive aligned, effective services and supports.

Root Cause Addressed:

Lack of a clear communication and follow-up protocol between the school, external providers, and families to ensure appointments are confirmed and attended.

Inadequate implementation and documentation of Tier 2 and Tier 3 interventions prior to referral, leading to unnecessary or premature evaluations.

Limited structures for collaboration among general education teachers, special education providers, and related service staff in developing and implementing IEPs with fidelity.

A reactive school-wide approach to behavior management, rather than a preventive one grounded in restorative and inclusive practices.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Launch professional development cycle on high-quality IEP development (focus on alignment between PLOPs, goals, and services).
Implement monthly IEP Quality Review Protocols to audit IEPs for alignment and compliance. Feedback shared during grade team meetings.
Introduce intervention tracking system to document and monitor Tier 2/3 progress for students under consideration for referral.
Embed collaborative planning sessions for general education and special education teachers to co-plan and co-implement IEP services.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To ensure consistent progress toward our goals of improving IEP quality and reducing unnecessary referrals, we will use a combination of data tools, collaborative structures, and ongoing review protocols to monitor the implementation of key strategies and action steps.

Monthly IEP Quality Review Protocol:

A school-based team will audit a sample of IEPs each month using a rubric that assesses alignment between Present Levels of Performance (PLOPs), goals, accommodations, and recommended services.

Trends from these reviews will be discussed in leadership and grade team meetings to inform staff development and practice.

Referral Data Reviews (Bi-Monthly):

RTI/MTSS teams will review all new referrals to ensure students have received and documented Tier 2 or Tier 3 supports prior to evaluation.

Patterns in referral reasons and service history will be analyzed to identify any disproportionality or gaps in intervention delivery.

Intervention Fidelity Logs:

Teachers and intervention providers will use standardized logs to track student participation and progress in targeted supports such as SPIRE and Phonics for Reading.

Logs will be reviewed monthly by the RTI team to assess the effectiveness of interventions and support referral decision-making.

Professional Learning Participation & Coaching Feedback:

Attendance records, coaching notes, and staff feedback surveys will be used to monitor engagement with PD sessions on IEP development and intervention strategies.

Instructional leaders will use this data to target follow-up support where needed.

High Quality Inclusive & Accessible Learning for Students with Disabilities Family and Community Engagement

Family and Community Engagement

Directions: Indicate the multi-tiered supports (strategies & activities) that will be implemented to support and engage families (including foster parents, birth parents, and families with limited English proficiency) and plans for community collaboration in the implementation of this action plan, surrounding the four priority needs. Include:

1) a description of the school's supports and processes for students with disabilities;
2) a coherent mechanism is implemented for updating families on their child's progress towards measurable annual and post-secondary transition goals;
3) a procedure to ensure families are involved during decision-making for IEP development and implementation.

Start Date	End Date	Multi-tiered Supports to Engage Family & Community	Partners/CBOs Leveraged
09/08/2025	06/26/2026	Implement structured IEP meeting prep forms to involve families in shaping IEP goals, accommodations, and services before meetings take place.	Special Education Support Services
09/08/2025	06/26/2026	Provide ongoing multilingual communication regarding IEP timelines, services, and student progress.	Special Education Support Services

High Quality Inclusive & Accessible Learning for Students with Disabilities Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Schools are encouraged to think critically and strategically when considering resources that can support progress towards CEP goals for students with IEPs. This includes utilizing Title I funding for at-risk speech and/or counseling services, all-staff training in supporting students with autism, sensory materials, summer institute geared at the development of executive functioning skills, and/or inclusion coaching support. Schools may also consider utilizing Title II funds to reduce the ratio of students with IEPs to typically developing peers in ICT classes.

Human Resources:

Staff - teachers, paraprofessionals, school aides, administration, instructional coaches

Section 6: Multi-Tiered Systems of Support (MTSS)

Academic Support

NYCPS Multi-Tiered Systems of Support (MTSS) align with NYSED guidelines for providing Academic Intervention Services (AIS) to students who have not yet met state standards or are considered to be at-risk of not meeting state standards. The Multi-tiered Systems of Support (MTSS) framework, organizes **supports** into three tiers:

Tier 1 provides schoolwide, high-quality programming for all students, including SWDs;

Tier 2 offers data informed small-group interventions for at-promise students; and

Tier 3 delivers intensive, individualized support for students with persistent needs.

This facilitates the strategic planning and necessary resource alignment to ensure their school community appropriately and adequately serves all students well, in partnership with students and families.

MTSS identifies the academic support services to be provided and ensures that students receive Response to Intervention (RtI) and Positive Behavioral Interventions and Support (PBIS) strategies as needed. See NYSED's memo to view the criteria for determining AIS services. The Supportive Environment Framework (SEF) offers a wide range of evidence-based Tier 2 and Tier 3 interventions and supports for student social-emotional, behavioral, physical and mental wellness, with particular attention to the unique needs of students in Temporary Housing and/or Foster Care, who may face additional challenges related to school stability, trauma and access to educational resources. A culturally responsive-sustaining approach to intervention embeds culturally relevant texts and historical narratives into literacy and social studies interventions, ensuring students receive the support that reflects their identities and lived experiences, increasing engagement and achievement.

Use the charts below and a Multi-Tiered System of Support (MTSS) to match academic, social/emotional, behavioral and instructional resources with student needs to provide targeted support for all learners, especially at-risk students who experience difficulty meeting state standards, including those living in Temporary Housing and/or residing in Foster Care placements. Indicate specialized materials, technology-based tools and/or extra instruction, including Expanded Learning Time that supplement school-wide systems & supports and/or classroom level supports. Ensure that interventions address the unique social-emotional, behavioral and academic challenges faced by culturally and linguistically diverse students, as well as those impacted by housing instability and child welfare system involvement.

Directions: Complete the chart and identify Tier 2 or 3 MTSS Academic supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Academic Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Providing various tools to provide multiple points of entry Tier 2	On-going formative assessments	enVision Math Into Reading I-Ready instruction Phonics for Reading SPIRE Fundations	Small group	During school	Yes
Intense one-on-one teacher and para supports - Tier 3	Formative and summative assessments & classroom observations	SPIRE Phonics for Reading Fundations	One-to one	During school	No
				school	

Student Social/Emotional Support

Directions: Complete the chart and identify Tier 2 or 3 MTSS Student Social/Emotional supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Student Social/Emotional Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Journal writing Tier 2	Observation	Self-reflection	one student	During school	no
Self-awareness chart Tier 3	Performance in classroom	self-reflection	one-to-one with teacher, guidance counselor, social worker	During school	no
Personal checklist - to keep focus, to prioritize their tasks Tier 3	Can student stay on task	Self-monitoring tool	one-to-one with teacher, guidance counselor, social worker	During school	no
SEL small group supports - Tier 2 & 3	On-going observations by crisis team	Harmony Child Mind Institute PD Early Childhood PD	small group and one-on-one by guidance counselor and social worker	During school	No

Family and Community Engagement Around MTSS

Describe how the school's essential components of MTSS are shared with families.

Tiered Support Overviews at Family Conferences

During parent-teacher conferences and Student Support Team (SST) meetings, teachers and support staff explain how MTSS is used to identify and respond to student needs.

Families receive summaries of the supports in place and are encouraged to share insights to help tailor interventions.

Families of students receiving Tier 2 or Tier 3 interventions receive regular progress updates and are invited to participate in review meetings.

Staff use multiple methods (calls, notes, in-person, digital platforms) to ensure families have input in goal-setting and next steps.

Describe how families receive updates on the progress of their child(ren) who receive Tier 2 targeted, or Tier 3 intensive interventions.

Families of students receiving Tier 2 or Tier 3 supports are kept informed and engaged in their child's progress through consistent, personalized, and multilingual communication. The school uses the following practices to ensure families are active partners in the intervention process such as:

During parent-teacher conferences and parent engagement time, the school schedules periodic meetings (virtual or in-person) with families of Tier 2 and Tier 3 students to review data, share insights, and make adjustments to supports as needed.

Intervention providers (e.g., teachers, counselors, related service providers) participate to answer questions and explain strategies.

Teachers and support staff maintain ongoing communication through ParentSquare, emails, phone calls, or home-school notebooks, allowing families to ask questions and share observations from home.

Describe how families are involved during decision making regarding the progress of students receiving Tier 3 intensive intervention.

Families are recognized as essential partners in the decision-making process for students receiving Tier 3 intensive interventions. The school prioritizes transparency, collaboration, and cultural responsiveness to ensure families are meaningfully involved in every step. Key ways families are engaged include:

-Families are invited to participate in School Based Support Team meetings where their child's academic, behavioral, or social-emotional progress is reviewed.

During these meetings, intervention data is shared, and families have the opportunity to contribute their insights, ask

questions, and help determine next steps.

Families are actively involved in the development and review of Tier 3 intervention plans, including identifying goals and suggesting supports that may be effective based on their child's needs, home experiences, or cultural background.

All communication and meetings are conducted in the family's preferred language, with translation/interpretation services provided to ensure full understanding and participation.

Families receive regular progress updates and are invited to meet again to determine whether the intervention is effective, needs adjustment, or should be continued or phased out.

These follow-ups help build trust and reinforce the partnership between families and sc

Students in Temporary Housing (STH) Support

As included in your school's Office of School and Youth Development Consolidated Plan-STH Section and in accordance with the federal McKinney-Vento Homeless Assistance Act and Chancellor's Regulation A-780, schools must identify, serve, and report on students living in temporary housing (STH). All Title I and non-Title I schools receive a Title I allocation for STH students. The Students in Temporary Housing (STH) website provides guidance on STH pupils and how these funds can be used to meet their needs, as well as restrictions. For more information on acceptable uses of the mandated Title I, Part A set-aside to support your STH population, please refer to the Title I STH Funds Toolkit.

Identify the number of Students in Temporary Housing who are currently attending your school and provide a breakdown of their temporary housing status. Since the number of STH children can change regularly, schools must carefully track this number to determine whether there has been an increase in need.

Number of students in temporary housing who are:

- Doubled up (with friends or relatives because they cannot find or afford housing):
- Living in a shelter or transitional shelter:
- Living in a hotel/motel:
- Other

*Note: In keeping with established practices regarding personally identifiable information, use the letter "s" to identify a number less than five (5).

1

After a careful analysis of historical demographic, attendance and achievement data for your STH population, what trends do you notice, and how can these trends inform the services and support provided for this population?

At P.S. 110 The Monitor (DBN: 14K110), our Assistant Principal will act as the primary point of contact for any families identified as living in temporary housing. Each family will receive targeted outreach at least twice per month to ensure their basic needs, such as consistent food availability, and housing accommodations are being met. During these check-ins, if a family expresses a specific need (e.g., food assistance), the Assistant Principal, in collaboration with our attendance team and parent coordinator, will connect them with appropriate local organizations and resources, such as nearby food banks. Additionally, STH (Students in Temporary Housing) funds will be used to purchase hygiene kits, school supplies, transportation, clothes, and any other items identified by families as necessary. STH students will be closely monitored to ensure they receive the support and resources they need to thrive.
After analyzing historical data on attendance, academic achievement and demographic for our Student in Temporary Housing (STH), we identified the one student listed that despite his transportation accommodations, student is at risk with 15 absences as of June 25, 2025, and academically is preforming far below grade level in ELA and in math student is performing two grade levels behind.
A support strategy has been implemented with expanding the use of Tier 2 and Tier 3 academic interventions.

Student recently received an initial evaluation and was recommended a self-contained setting. We strive to provide targeted academic interventions alongside supportive resources to address factors hindering attendance and overall academic performance.

Describe the services you are planning to provide to the STH population. How were those services selected to best meet students' needs? How will you (or did you) utilize the STH Title I Survey to select services aligned to need?

At P.S. 110 The Monitor (DBN: 14K110), our Assistant Principal will serve as the primary point of contact for any families identified as Students in Temporary Housing (STH). Each family will receive targeted outreach at least twice per month to ensure their basic needs, such as consistent food availability and stable housing accommodations, are being met. During the outreach, if a family expresses a specific need (e.g., food assistance, clothing, laundry card, etc.), the Assistant Principal, in collaboration with our attendance team and parent coordinator, will identify and connect them with local organizations that can provide the appropriate support, such as nearby food banks. Additionally, STH funds will be used to purchase hygiene kits, school supplies, transportation assistance, clothing, and any other items families identify as necessary. STH students will be closely monitored for both academic and social-emotional needs to ensure they receive the full range of support necessary to thrive.
To ensure that the services provided are aligned with the most needs of our families, we also utilize feedback from the STH Title I Parent Survey, which is distributed to families three times during the school year. Survey responses consistently confirm that families face significant barriers related to food insecurity, hygiene access, lack of school supplies, and a need for more reliable communication with the school. This feedback directly informed our decision to allocate Title I funds toward essential items and to designate the Assistant Principal as a directed point of contact for all STH families.

Prioritizing Students in Foster Care

As included in your school's Office of School and Youth Development Consolidated Plan-Child Child Abuse and Neglect Intervention and Prevention School Plan and in accordance with the federal Education Law 3244 – Education of Children in Foster Care (Effective 2018) establishes the rights of students placed, or moved, in foster care to:

- Continue attending school of origin if determined to be in their best interest, or, if not, attend school near foster care placement,
- Immediate enrollment, and
- Transportation, if necessary to attend school of origin

Please respond to the questions below.

How many students in foster care are currently enrolled at your school? Provide a detailed breakdown of the social-emotional and academic supports available to them.

There is currently one student in foster care at our school. Students in foster care often face unique challenges that can impact their academic progress and social-emotional well-being. To support our student success, the school provides targeted academic and social-emotional interventions designed to address these barriers. Student receives individual counseling to meet her specific needs and support overall development.

Students in foster care often experience instability, trauma, or frequent transitions that can present significant challenges to their academic achievement and emotional well-being. Recognizing these unique needs, our school implements a comprehensive support system that includes both academic and social-emotional interventions.

Our student receives individual counseling on a regular basis, which provides a safe space to process emotions, build resilience, and develop coping strategies. Social Worker collaborates closely with teachers, support staff, and the foster family to ensure a consistent and coordinated approach to her care. Academically, student benefits from targeted instructional support, differentiated instruction, and regular progress monitoring to address any learning gaps and promote steady academic growth.

In addition, student is included in small group sessions that focus on social skills, emotional regulation, and peer relationships. These interventions aim to foster a sense of belonging and connection within the school community. Our school also maintains open communication with child welfare professionals to ensure the student's needs are continually reassessed and addressed in a timely and sensitive manner.

Through these combined efforts, we strive to create a stable, supportive, and inclusive environment that empowers the student to thrive both academically and personally.

What targeted supports are in place for students in foster care, including those newly transitioning into the foster care system? How does your school ensure these students receive the necessary

interventions to promote stability and success?

Our school is committed to ensuring that the student in foster care receives consistent, compassionate support through a combination of school-based practices and collaborative efforts with external partners. We prioritize educational stability by maintaining clear communication and coordination with the child welfare agency, caregivers, and school staff. Social Work worker, who is a a designated point of contact facilitates this collaboration to ensure the student's academic and emotional needs are met seamlessly.

To promote success, the school provides access to a range of support services, including counseling, academic interventions, and mentoring. Monitoring systems are in place to track key indicators such as attendance, academic performance, and behavioral incidents. This data-driven approach allows staff to identify concerns early and intervene effectively. Frequent check-ins with the student ensure ongoing connection and support, while tiered interventions are reviewed and adjusted on a weekly basis to align with the student's evolving needs.

Through these intentional and structured efforts, we aim to create a stable, nurturing school environment that promotes the well-being and academic progress of the student in foster care.

After analyzing historical demographic, attendance, and achievement data for students in foster care, what trends have emerged? How can these insights be used to improve the services and support provided to this population?

Emerging trends indicate that the student requires additional support to address trauma-related experiences and social-emotional needs. Ongoing check-ins have proven essential in monitoring her progress, both academically and socially. These regular touchpoints help build trust, identify challenges early, and adjust interventions as needed to support her continued growth.

Insights gained from these observations are instrumental in maintaining consistent communication among the guardian, child welfare agency, and school-based staff. This collaborative approach ensures that everyone involved is informed and actively engaged in the student's development. Additionally, these findings can serve as an important foundation for advocating for further mental health support if needed, ensuring that the student has access to the full range of services necessary for her overall well-being and success.

Emerging trends suggest that student in foster care requires continued and enhanced support to address the effects of trauma in order to develop stronger social-emotional skills. Ongoing check-ins have been vital in tracking her progress, allowing staff to identify early signs of emotional distress or academic difficulty and respond with timely intervention.

What specific strategies does your school implement to ensure students in foster care, particularly those in transitional grades, receive targeted Social-Emotional Learning (SEL) support? How do these strategies help address academic and behavioral challenges?

Our school we recognize that students in foster care—particularly those in transitional grades are especially vulnerable to social-emotional and academic disruption. To ensure our student receive the targeted support that is needed, school has implemented a variety of evidence-based Social-Emotional Learning (SEL) strategies, tailored to the student's unique circumstances.

Specific SEL Strategies Implemented

Individualized SEL Counseling Plans
Our student in foster care is paired with a school counselor who develops a personalized SEL plan. This includes one-on-one sessions focused on self-awareness, emotional regulation, resilience, and goal setting.

Tiered SEL Interventions (MTSS Framework)
Using our Multi-Tiered System of Supports (MTSS), school provides universal SEL instruction to all students, while foster care student receives more intensive, targeted small-group or individual supports, especially during periods of transition.

Transition Support Programs
For our student entering new grade levels, she will continue to receive ongoing emotional check-ins. These are designed to build familiarity, ease anxiety, and promote connectedness to school.

Trauma-Informed Practices
Staff are trained in trauma-informed practices, which guide how we interact with and support student impacted by adverse childhood experiences. This includes using de-escalation techniques, restorative practices, and creating emotionally safe classroom environments.

These strategies are critical in creating a supportive, responsive, and structured environment that meets the academic and emotional needs of student, particularly as she navigates major school transitions. Regular review and collaboration with caregivers and child welfare agencies ensure that supports evolve with the student’s changing needs.

Section 7: Parent and Family Engagement Policy and School-Parent Compact

Parent and Family Engagement Policy

Directions: The Parent and Family Engagement Policy should describe how your school will plan and implement effective parent and family engagement activities and/or strategies to improve student academic achievement and school performance. The School-Parent Compact (SPC) is a component of the Parent and Family Engagement Policy (PFEP) that outlines how parents, the entire school staff, and students will share this responsibility.

The activities and/or strategies included in your school's Parent and Family Engagement Policy should align with current Comprehensive Education Plan (CEP) goals for improving student achievement and should be developed or updated with input and feedback from parent leaders and the Parent Coordinator. In addition, if the school community will be engaged in central parent engagement initiatives, such as Parent Academy, which will provide training for school communities to help strengthen family-school partnerships, please be sure to include these activities in the school's policy.

In Title I schools, the Title I Parent Advisory Council (PAC) represents the Title I parent community in supporting parent and family engagement. The Title I PAC Chairperson will serve in a consultative role with the SLT representing the school's Title I parents. Schools are encouraged to use the sample Parent and Family Engagement and SPC templates below (which meet federal Title I parent and family engagement requirements) as guidance for updating the school's current policy.

Parent and Family Engagement Policy

Educational research shows a positive correlation between effective parental engagement and student achievement. The overall aim of this policy is to develop a parent and family engagement policy that will establish expectations and objectives for meaningful parent and family engagement in the school community. In compliance with Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is responsible for creating and implementing a parent and family engagement policy to strengthen the connection and support of student achievement between the school and the families. The school's policy is designed to keep parents informed by actively involving them in planning and decision-making in support of the education of their children. Parents are encouraged to actively participate on the School Leadership Team, Parent Association (or Parent-Teacher Association), and Title I Parent Advisory Council as trained volunteers and welcomed members of the school community.

Support for Parents and Family Members of Title I Students

PS 110 will support parents and family members of Title I students by:
- providing materials and training to help parents work with their children to improve their achievement level, e.g., literacy, math and use of technology;
- providing parents with the information and training needed to effectively become involved in planning and decision making in support of the education of their children;
- fostering a caring and effective home-school partnership to ensure that parents can effectively support and monitor their child’s progress;
- providing assistance to parents in understanding City, State and Federal standards and assessments;
- sharing information about school and parent related programs, meetings and other activities in a format, and in languages that parents can understand;
- providing professional learning opportunities for school staff with the assistance of parents to improve outreach, communication skills and cultural competency in order to build stronger ties between parents and other members of the school community;

Parental Involvement and School Quality

The school's Parent and Family Engagement Policy was designed based upon a careful assessment of the needs of all parents/guardians, including parents/guardians of Multilingual Learners/English Language Learners (ML/ELL), and students with disabilities. The school community, with the meaningful involvement of parents and family members, will conduct an annual evaluation of the content and effectiveness of this parent and family engagement policy with Title I parents to improve the academic quality of the school. The findings of the evaluation through school surveys and feedback forms will be used to design strategies to more effectively meet the needs of parents and family members and enhance the school's Title I program. This information will be maintained by the school.

In developing the Title I Parent and Family Engagement Policy, parents of Title I participating students, parent members of the school's Parent Association (or Parent-Teacher Association), as well as parent members of the School Leadership Team, were consulted on the proposed Title I Parent and Family Engagement Policy and asked to survey their members for additional input. To increase and improve parent involvement and school quality, the school will:
- actively involve and engage parents and family members in the planning, review and evaluation of the effectiveness of the school's Title I program as outlined in the School Comprehensive Education Plan, including the implementation of the school's Title I Parent and Family Engagement Policy and School-Parent Compact;
- engage all parents in discussion and decisions regarding the required Title I, 1% set-aside funds, which are allocated directly to the school to supplement parent and family engagement activities, including family literacy and parenting skills;
- ensure that the Title I funds allocated for parent and family engagement are utilized to implement activities and strategies as described in the school's Parent and Family Engagement Policy and the School-Parent Compact;
- support school-level committees that include parents who are members of the School Leadership Team, the Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council. This includes providing technical support and ongoing professional learning, especially in developing leadership skills;
- maintain a Parent Coordinator (or a dedicated staff person) to serve as a liaison between the school and families. The Parent Coordinator or a dedicated staff person will provide parent workshops based on the assessed needs of the parents of children who attend the school and will work to ensure that the school environment is welcoming and inviting to all parents. The Parent Coordinator will also maintain a log of events and activities planned for parents each month and file a report with the central office.;
- conduct parent workshops with topics that may include: parenting skills, understanding educational accountability grade-level curriculum and assessment expectations; literacy, accessing community and support services; and technology training to build parents' capacity to help their children at home;

- provide opportunities for parents to help them understand the accountability system, e.g., ESSA/State accountability system, student proficiency levels, Annual School Report Card, School Quality Report, Quality Review Report, Learning Environment Survey Report;
- host the required Annual Title I Parent Meeting each school year to advise parents of children participating in the Title I program about the school's Title I funded program(s), their right to be involved in the program and the parent and family engagement requirements under Title I, Part A, Section 1116 and other applicable sections under ESSA;
- schedule additional parent meetings, e.g., quarterly meetings, with flexible times, such as meetings in the morning or evening, to share information about the school's educational program and other initiatives of the Chancellor and allow parents to provide suggestions;
- translate all critical school documents and provide interpretation during meetings and events as needed.

Encouraging School-Level Parental Involvement

The school will further encourage school-level parent and family engagement by:
- hosting educational family events/activities during Parent-Teacher Conferences and throughout the school year;
- encouraging meaningful parent participation on School Leadership Teams, Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council;
- Hosting Coffee Hour In School yard
  Inviting Parents to join many PTA committees
- establishing a Parent Resource Center/Area or lending library; instructional materials for parents;
- encouraging more parents to become trained school volunteers;
- providing written and verbal progress reports that are periodically given to keep parents informed of their children's progress;
- developing and distributing a school newsletter or web publication designed to keep parents informed about school activities and student progress;
- providing school planners/folders for regular written communication between /teacher and the home in a format, and to the extent practicable in the languages that parents can understand.

School-Parent Compact (SPC)

School-Parent Compact (SPC)

PS 110 in compliance with the Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is implementing a School-Parent Compact to strengthen the connection and support of student achievement between the school and the families. Staff and parents of students participating in activities and programs funded by Title I, agree that this Compact outlines how parents, the entire school staff and students will share responsibility for improved academic achievement and the means by which a school-parent partnership will be developed to ensure that all children achieve State Standards on assessments.

I. School Responsibilities: High Quality CurriculumI. School Responsibilities: High Quality Curriculum

Provide high quality curriculum and instruction consistent with State Standards to enable participating children to meet the State's Standards and Assessments by:

- using academic learning time efficiently;
- respecting cultural, racial and ethnic differences;
- implementing a curriculum aligned to the State Learning Standards;
- offering high quality instruction in all content areas;
- providing instruction by highly qualified teachers and when this does not occur, notifying parents as required by the Every Student Succeeds Act (ESSA);

I. School Responsibilities: Supporting Home-School Relationships

Support home-school relationships and improve communication by:

- conducting parent-teacher conferences each semester during which the individual child's achievement will be discussed as well as how this Compact is related;
- convening an Annual Title I Parent Meeting each school year for parents and family members of students participating in the Title I program to inform them of the school's Title I status and funded programs and their right to be involved;
- arranging additional meetings at other flexible times, e.g., morning, evening and providing (if necessary and funds are available) transportation or child care for those parents who cannot attend a regular meeting;
- respecting the rights of limited English proficient families to receive translated documents and interpretation services in order to ensure participation in the child's education;
- providing information related to school and parent programs, meetings and other activities is sent to parents of participating children in a format and to the extent practicable in a language that parents can understand;
- involving parents in the planning process to review, evaluate and improve the existing Title I programs, Parent and Family Engagement Policy and this Compact;
- providing parents with timely information regarding performance profiles and individual student assessment results for each child and other pertinent individual school information;
- ensuring that the Parent and Family Engagement Policy and School-Parent Compact are distributed and discussed with parents each year;

I. School Responsibilities: Providing Parents Reasonable Access to Staff

Provide parents reasonable access to staff by:
- ensuring that staff will have access to interpretation services in order to effectively communicate with limited English speaking parents;
- notifying parents of the procedures to arrange an appointment with their child's teacher or other school staff member;
- arranging opportunities for parents to receive training to volunteer and participate in their child's class, and to observe classroom activities;
- planning activities for parents during the school year, e.g., Parent-Teacher Conferences;

I. School Responsibilities: Providing General Support to Parents

Provide general support to parents by:
- creating a safe, supportive and effective learning community for students and a welcoming respectful environment for parents, and guardians;
- assisting parents in understanding academic achievement standards and assessments and how to monitor their child's progress by providing professional learning opportunities (times will be scheduled so that the majority of parents can attend);
- sharing and communicating best practices for effective communication, collaboration and partnering with all members of the school community;
- supporting parental involvement activities as requested by parents and family members;
- ensuring that the Title I funds allocated for parent involvement are utilized to implement activities as described in this Compact and the Parent and Family Engagement Policy;
- advising parents of their right to file a complaint under the Department's General Complaint Procedures and consistent with the Title I requirement for Every Student Succeeds Act (ESSA) and Title I programs;

II. Parent/Guardian Responsibilities

- monitor my child's attendance and ensure that my child arrives to school on time as well as follow the appropriate procedures to inform the school when my child is absent;
- ensure that my child comes to school rested by setting a schedule for bedtime based on the needs of my child and his/her age;
- check and assist my child in completing homework tasks, when necessary;
- read to my child and/or discuss what my child is reading each day (for a minimum of 15 minutes);
- set limits to the amount of time my child watches television or plays video games;
- promote positive use of extracurricular time such as, extended day learning opportunities, clubs, team sports and/or quality family time;
- encourage my child to follow school rules and regulations and discuss this Compact with my child;
- volunteer in my child's school or assist from my home as time permits;
- participate, as appropriate, in the decisions relating to my child's education;
- communicate with my child's teacher about educational needs and stay informed about their education by prompting reading and responding to all notices received from the school or district;
- respond to surveys, feedback forms and notices when requested;
- become involved in the development, implementation, evaluation and revision to the Parent and Family Engagement Policy and this Compact;
- participate in or request training offered by the school, district, central and/or State Education Department to learn more about teaching and learning strategies whenever possible;
- take part in the school's Parent Association or Parent-Teacher Association or serve to the extent possible on

advisory groups, e.g., Title I Parent Advisory Council, School or District Leadership Teams;

- share responsibility for the improved academic achievement of my child;

III. Student Responsibilities

- attend school regularly and arrive on time;
- complete my homework and submit all assignments on time;
- follow the school rules and be responsible for my actions;
- show respect for myself, other people and property;
- try to resolve disagreements or conflicts peacefully;
- always try my best to learn.

Submission Assurances

Submission Assurances

- ☐ The Comprehensive Education Plan (CEP) has been developed in consultation with parents, school staff, and others in accordance with the requirements of Shared-Decision Making (CR 100.11) to provide a meaningful opportunity for stakeholders to participate in the development of the plan and comment on the plan before it is approved.
- ☐ As part of the root cause analysis process, the school reviewed inequities, including resource inequities within the school, and investigated areas of low performance to identify strategies to address inequities within the school and promote improved student outcomes.
- ☐ The CEP School Leadership Team (SLT)/Stakeholder Signature Page will be printed, scanned, and submitted with the signatures of those that participated in the development of the CEP. DocuSign may also be used to secure electronic signatures for the CEP SLT/Stakeholder Signature Page. If the school was unable to obtain a signature of an individual that participated in the development of the CEP, the school has written “Addendum Attached” and provided supplemental documentation to explain why the school was unable to obtain the individual’s signature.
- ☐ The CEP will be implemented no later than the beginning of the first day of regular student attendance.
- ☐ Professional development will be provided to teachers and school leaders that will fully support the strategic efforts described within this plan.

Language Allocation Policy Outline

Language Allocation Policy Outline

2025-26 Language Allocation Policy (LAP)

This submission form supports schools with organizing a well-conceived school-based Language Allocation Policy (LAP) that describes high quality programs for Multilingual Learners/English Language Learners (MLs/ELLs). This is an annual plan of how your school will support the linguistic and academic needs of MLs/ELLs and must be completed yearly. The Language Allocation Policy (LAP) is a part of schools' Comprehensive Education Plan (CEP).

This is a living document. Any school-wide changes involving the instruction of MLs/ELLs, such as the addition or expansion of a Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE) program, should be updated in this form.

Agenda, minutes of LAP meetings, and LAP team members' attendance at meetings should be kept readily available on file in the school with all other ML/ELL critical documents. When preparing your school's submission, provide extended responses in the available spaces.

For additional information, refer to the NYC DOE Policy and Reference Guide for MLs/ELLs. For additional support with ML/ELL policy, please reach out to your respective ML/ELL Director or ELL Compliance Performance Specialist; for support with ML/ELL instruction, please contact your ML/ELL Services Administrator.

Part I: School ML/ELL Profile

This section should reflect the school's demographics for the 2025-26 school year. If completing before the 2025-26 school year begins, questions should be based on the anticipated population served by the school.

A. Language Allocation Policy Team Composition

The members of the school's LAP team are listed below. A school's LAP team must consist of at least one: principal, assistant principal (where applicable), an English as a New Language (ENL) teacher, an additional teacher (bilingual teacher if the school has a bilingual program or a teacher from a content area other than bilingual education or ENL) and a parent/guardian.

Required LAP team members are denoted with an asterisk (*) below. Please do not leave any fields blank. If a role is not represented on the LAP team, include "N/A" below.

Member Title	Name
Principal*	Eva Cieloszyk
Assistant Principal (Where Applicable)*	Jeannette Adon
English as a New Language (ENL) Teacher*	Tina Lin
Teacher (if school has a bilingual program must be a bilingual teacher)*	Cynthia Rotella
Parent/Guardian*	Antoinette Babino Sneed
Teacher	N/A
Parent Coordinator	N/A
School Counselor	N/A
Related-Service Provider	N/A
Other (Name and Title)	N/A
Other (Name and Title)	N/A

B. Teacher Qualifications

Please review all certifications for all staff members at your school, and indicate the number of certified staff for each category.

1. English to Speakers of Other Languages (ESOL) Certified Teacher

Number of ESOL certified teachers currently teaching ENL:

1

Number of teachers currently teaching a stand-alone ENL class who hold both a common branch license and ESOL certification [applicable to grades K–6]:

1

Number of certified ESOL teachers not currently teaching ENL:

1

Number of teachers who hold both content area/common branch and ESOL certification:

2

Number of ESOL certified teachers with a bilingual extension:

2

2. Certified Teachers with a Bilingual Extension

Number of certified teachers with a bilingual extension currently teaching in a bilingual program:

4

Number of certified teachers with a bilingual extension not currently teaching in a bilingual program:

1

Number of teachers certified to teach students with disabilities that also have a bilingual extension:

0

3. Language Other than English (LOTE)/World Language Certified Teachers:

Total number of teachers with LOTE certification:

0

Total number of teachers with LOTE certification providing World Language instruction:

0

Total number of teachers with LOTE certification providing Home Language Arts (HLA) to students in bilingual programs:

0

C. Student Demographics

Please review the student demographics at your school and complete the number and percentage for each category.

Total number of students (excluding pre-K):

422

Total number and percentage (%) of current ELLs:

15 (3.6%)

Total number and percentage (%) of former ELLs:

4 (0.9%)

Total number and percentage (%) of ELLs who are Newcomers (0-3 years of service):

13 (86.7%)

Total number and percentage (%) of ELLs who are Developing ELLs (4-6 years of service):

2 (13.3%)

Total number and percentage (%) of ELLs who are Long-Term ELLs (7 or more years of service):

0 (0%)

Total number and percentage (%) of ELLs who are Students with Inconsistent/Interrupted Formal Education (SIFE):

0 (0%)

Total number and percentage (%) of ELLs with an Individualized Education Program (IEP):

3 (20%)

Part II: Bilingual Programs

Does your school have a bilingual program (Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)?

Yes

Provide the number of classrooms for each bilingual program, by grade, at your school for the 2025-26 school year. If submitted before the 2025-26 school year begins, this should be the anticipated number of classrooms based on anticipated enrollment. Each language and program model--Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)--is considered a separate program. In the second column, please indicate if the program is General Education (GE), Integrated Co-Teaching (ICT) special education, Special Class (SC), or Mixed-Group Class (MGC) special education. If a classroom bridges two grades, list as 0.5 classrooms for both grades.
Please include the total number of classrooms for each bilingual program in the last column.

	Program Type	Language	School Yr Opened	k	1	2	3	4	5	6	7	8	9	10	11	12	Totals
TBE																	0
TBE																	0
TBE																	0
DLBE	GE	French	2012-2013	2	2	2	1	1	1								9
DLBE																	0
DLBE																	0
				total: 2	total: 2	total: 2	total: 1	total: 1	total: 1	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	

Part III: ML/ELL Programming

Please refer to New York State **Commissioner's Regulation (CR) Part 154 Units of Study Tables** as you describe academic programming for MLs/ELLs at your school below. Please do not leave any fields blank and indicate "N/A" for any fields that are not applicable.

Describe your English as a New Language (ENL), and if applicable Dual Language Bilingual Education (DLBE), and Transitional Bilingual Education (TBE) programs. For each program, include:

- How stand-alone ENL is implemented as per CR Part 154
- How integrated ENL is implemented as per CR Part 154
- How students are grouped (e.g., block [class travels together as a group], ungraded [all students regardless of grade are in one class], heterogeneous [mixed proficiency levels], homogenous [proficiency level is the same in one class]).

a. English as a New Language (ENL)
Stand-alone ENL:

Stand Alone: Students are grouped by grade band (within 2 grade bands) and proficiency level based on the most recent NYSESLAT and NYSITELL data. The ENL teacher meets with these homogenous small groups for targeted instruction to build vocabulary and skills in the 4 modalities in a pullout setting. As much as possible, the ENL teacher coordinates with classroom teachers to continue and build upon concepts addressed in students' regular content classes. However, for newcomers, the ENL teacher focuses on interpersonal vocabulary and language structures needed to engage in basic conversations.

-Entering students: receive 180 minutes of stand-alone ENL instruction per week with a focus on interpersonal vocabulary and language structures needed to engage in basic conversations.
-Emerging students: receive 180 minutes of stand-alone ENL instruction per week with a focus on strengthening basic vocabulary and language structures, and developing literacy skills.
-Transitioning students: 90 minutes of stand-alone ENL instruction per week with a focus on building academic language and strengthening literacy skills .

Integrated ENL:

The ENL teacher partners with classroom teachers to plan, co-teach and scaffold lessons for ELLs in their mainstream classroom. For the most part, the ENL teacher supports students in their English Language Arts class. However, sometimes exceptions are made and the ENL teacher pushes into other core content areas if scheduling challenges arise. The ENL teacher ensures that students are able to access and comprehend the content and strategies taught by the content teacher by providing students with translations, bilingual word banks, visuals, graphic organizers, as well as supports for more sophisticated vocabulary and sentence structures. During independent work time, the ENL teacher works with ELLs in a small group to further explore and apply the content, skills and strategies of the lesson.

-Entering students: receive 180 minutes of integrated ENL instruction per week.
-Emerging students: receive 180 minutes of integrated ENL instruction per week.
-Transitioning students: receive 90 minutes of integrated ENL instruction per week.
-Expanding students: receive 180 minutes of integrated ENL instruction per week.
-Commanding students/former ELLs: receive 90 minutes of small group instruction per week (Option A) for 2 years after they test out.

Currently we have two teachers who are common branch and ESOL-certified. For the 2025-2026, we will only be utilizing our ENL teacher to support ELL students and while it is possible for her to provide integrated minutes in a separate location, she will not be doing so.

b. Bilingual Education (If applicable)

Transitional Bilingual Education (TBE):

N/A

Dual Language Bilingual Education (DLBE):

Our dual language program includes the following:
-an ENL component designed to develop skills in listening, speaking, reading, and writing in English.
-content-area courses/subjects taught in both the home language and English.
-a home language arts component designed to develop skills in listening, speaking, reading, and writing in the students' home language while cultivating an appreciation of their history and culture.

In our dual language program, students receive instruction in both English and French equally. In self-contained bilingual classes, teachers alternate between English and French within each school day. In side by side classes, students transition between their two classrooms and languages every other day, receiving one full day of English followed by a full day of French. In each class, there is a mix of students of varying proficiency levels in English as well as in French so that students may serve as language models for others in either English or French.

During the ELA components of the curriculum, reading, writing and word work, as well as math, instruction is delivered whole group, small group and one-on-one. Students are assessed often and the results inform instruction and new groups are created as needed. For example, based on running records, students are grouped and receive the targeted instruction to move them to the next level in independent reading. In Kindergarten, first, and second grade, we are utilizing the side-by-side model while in third grade the class is self-contained. In 4th and 5th grade, one period of French is offered each day.

In our K-3 dual language program, students receive instruction in both English and French equally while our 4th and 5th grade program provides one period of French instruction per day since the upper grades are departmentalized. In self-contained bilingual classes, such as our 3rd grade dual language class this year, the bilingual classroom teacher provides the integrated ENL instruction, but the ENL teacher still provides the stand alone portion of ENL instruction to ensure more targeted small group instruction for ELLs. In side by side bilingual classes, the ENL teacher provides both the stand alone and the integrated ENL instruction since the bilingual teachers only provide French instruction and the English classroom teachers are not bilingual or ESOL certified.

2. How does your school ensure the mandated number of instructional minutes are provided according to students' English language proficiency levels in each program model?

At the beginning of the school year, the ENL teacher uses data from the RLAT to see ELL students' proficiency levels on the NYSESLAT and NYSITELL. Students are then programmed to receive their mandated minutes of ENL instruction as per the CR Part 154:

-Entering students receive 360 minutes of ENL instruction: 180 minutes stand-alone and 180 minutes integrated.
-Emerging students receive 360 minutes of ENL instruction: 180 minutes stand-alone and 180 minutes integrated.
-Transitioning students receive 180 minutes of ENL instruction: 90 minutes stand-alone and 90 minutes integrated.
-Expanding students receive 180 minutes of ENL instruction: 180 minutes integrated.
-Commanding students receive 90 minutes of integrated ENL instruction or approved alternative approaches such as small group instruction or project based learning designed by the classroom teacher in collaboration with the ENL teacher.

In order to ensure that all students receive the mandated number of instructional minutes, students are grouped within grade bands by proficiency level for stand alone ENL sessions. Students' NYSESLAT proficiency level in the four modalities (listening/speaking strands, and their reading/writing strands) are also taken into account. Integrated ENL sessions are co-planned by the ENL teacher and the classroom teacher so that ELL students can receive support and scaffolding within the context of their English Language Arts as well as content area instruction. In the dual language program, instruction alternates between English and French equally. However, students who are at lower proficiency levels in either language receive support and scaffolding in their dominant language.

Programming is completed by Frank Viscuso in STARS in collaboration with Tina Lin (ENL Teacher).

3. How are ENL, English Language Arts (ELA) and if applicable, Home Language Arts (HLA) instructional minutes delivered in each program model?

In both our ENL and dual language program models, ELLs receive their mandated ENL minutes through integrated periods in which the ENL teacher partners with the classroom teacher during ELA instruction to co-teach and better support them. In addition, students receive stand alone periods in which the ENL teacher provides small group instruction tailored to their specific language and literacy needs, including but not limited to building oral language, vocabulary development, phonics, reading comprehension, writing fluency.

In the dual language program for K-3 students, HLA instruction in French is provided 50% of the time, with alternating days of English and French for side by side classes and alternating half-days for self-contained dual language classes. In Kindergarten, 1st grade, and 2nd grade, we have side by side classes so students have a full day of English instruction followed by a full day of French instruction with two alternating teachers. Since 3rd grade is a self-contained bilingual class this year, the bilingual certified teacher teaches half of the day in English and half of the day in French. 4th and 5th grades are departmentalized, so French is taught by a bilingual teacher for one period each day.

4. For schools with Dual Language Bilingual Education (DLBE) programs:

a. Which Dual Language Bilingual Education model is implemented? Explain how much of the instructional day (percentage) English proficient students and ELLs are integrated.

Our French dual language program is a two-way DLBE model that uses both the side-by-side model and the self-contained model, depending on if we have two classes on a given grade or one class on a given grade based on student enrollment. For the 2025-2026 school year, we have two side-by-side classes in K, 1, and 2 while we have 1 self-contained bilingual French class in grade 3. In the case of the side-by-side models, the language of instruction alternates on a daily basis. Students go between their English and French teachers, receiving instruction in one language for a full day before switching to the other language of instruction the next day. In our self-contained classes, half of the day is in English, while the other half of the day is in French. In 4th and 5th grade, students receive one period of French instruction per day. In all cases, English proficient students and ELLs are integrated 100% of the day, except for when ELLs are pulled out for stand-alone ENL services.

b. In which language(s) is each core content area taught?

In grades K-3, reading, writing, math, science and social studies are taught both in English and French. In Grades 4 and 5, students learn core subjects in their homerooms with French and non-French program students. French is only used during one period of stand alone French instruction each day.

5. For schools with Transitional Bilingual Education (TBE) programs:

a. Which core content areas are taught bilingually?

N/A

Part IV: Data Analysis

Data Analysis

After reviewing and analyzing school demographic and assessment data, answer the following questions. The ELL Data Analysis Tool (EDAT) provided by the Office of Multilingual Learners can assist with identifying these data points.

For additional information, refer to Data Analysis Professional Learning Module and ELL Data Analysis Tool (EDAT) Professional Learning Module.

1. What is the composition of the ELL subgroups at your school?
What percentage of ELLs are Newcomers? How does effective instruction for Newcomers differ from those provided to Developing or Long-Term ELLs?

86.7% of our ELLs are Newcomers who have received ENL services between 0-3 years while 13.3% of our ELLs are Developing ELLs. All our ELLs are supported with small group ENL instruction that incorporates visual support, multimedia, realia and builds social and academic vocabulary. However, the focus for Newcomers is to first build basic conversational language so that they are able to feel more comfortable and confident in everyday contexts in the classroom and community. In our stand alone classes, we incorporate a lot of role play and games to lower student inhibitions and to encourage oral language development. In addition, depending on the level of transfer from their home language for letter-sound correspondence, we also incorporate phonics instruction as they develop more oral language. Newcomer students are provided with more linguistic scaffolding than Developing or Long-Term ELLs in the form of sentence frames and sentence starters as well as bilingual dictionaries or glossaries in their home language and English. As students shift from being Newcomers to being Developing or Long-Term ELLs, the instruction shifts to a stronger focus on academic language and strengthening their literacy skills.

What percentage of ELLs are Students with Inconsistent/Interrupted Formal Education (SIFE)? How do you differentiate effective instruction for SIFE?

0% are Students with Inconsistent/Interrupted Formal Education. In the event that we do have SIFE students, however, we will differentiate instruction by having the ENL teacher and classroom teachers collaborate in designing a structured immersion program based on the Mutually Adaptive Learning Paradigm as outlined by DeCapua and Marshall (2009). The paradigm emphasizes designing for interconnectedness, learning for immediate relevance, and combining familiar and new processes by building in a strong component of oral language and social interaction with peers while acknowledging the importance of SIFE students' funds of knowledge. This would entail hands-on and collaborative activities that build on students' background knowledge and scaffold the written word through oral interaction while simultaneously supporting students with foundational literacy skills such as letter-sound recognition and phonics.

What percentage of ELLs are Long-Term ELLs? How does effective instruction for Long-Term ELLs differ from instruction designed for Developing ELLs?

0% of our ELLs are Long-Term ELLs, students who have received ENL services for 7 or more years, because we are an elementary school and we would only have Long-Term ELLs in the event that an ELL has been held back. However, 13.3% of our ELLs are Developing ELLs who have received 4-6 years of ENL services. We determine student needs based on data from the NYSESLAT, iReady, and/or Acadience, and then target student needs with small group instruction. Effective services for Developing ELLs include a strong focus on developing Tier 2 and Tier 3 vocabulary as well as deepening students' grasp of language and text structures to better set students up for academic success. We draw upon the English Language Development Tabletop Lessons and Multilingual Learner Toolbox found in the Into Reading curriculum to further support students.

The same applies for Long-Term ELLs. However, Long-Term ELLs require even more intensive intervention to target their specific needs and to make sure that they are able to make progress in their language development. For further intervention, we would use the Read and Respond Journal and the Foundational Skills and Word Study Studio resources and Blend It Book section found in the HMH Into Reading program in conjunction with the Wilson and Recipe for Reading program. We would also take steps to distinguish between language learning needs and language disabilities or disorders so that students receive all the support that they need.

What percentage of students are former ELLs? How is your school providing mandated instruction to former ELLs?

0.9% of our school population consists of former ELLs. Former ELLs continue to be supported through 90 minutes of integrated ENL per week during their English Language Arts periods or through small group instruction with their classroom teacher. Our school does not currently use project based learning as our alternative pathway for former ELLs because we follow published curricula approved by the district such as Into Reading, Envision Math, and Amplify Science for instruction in our core subjects.

2. Examine all at-risk levels that might adversely affect ELLs at your school. What trends do you notice about the at-risk levels of ELLs at your school?

All of our ELLs have at least 1 at-risk indicator: 9 of our ELLs (60%) have 1 at-risk indicator; 3 of our ELLs (20%) have 2; 1 ELL (6.7%) has 4 at-risk indicators; another (6.7%) has 5 at risk indicators, and another (6.7%) has 6 at-risk level indicators. The at-risk indicator attributed to the highest number of students (13) is that they are Newcomers followed by the number of students who did not make sufficient ELP progress (5 students).4 students' at risk indicator was scoring a 1 or 2 on the ELA exam and 3 scoring a 1 or 2 on the math exam. 2 students are potential long term ELLs and 1 student lives in temporary housing.

3. Examine all at-risk levels that might adversely affect former ELLs at your school. What trends do you notice about the at-risk levels of former ELLs at your school?

Only 1 of our former ELLs has 1 at risk indicator. Even though she passed the NYSESLAT, she scored a 2 on the ELA last year.

4. What are the home languages of ELLs with the largest representation at your school? What staff, structures, and processes does your school have to support communication and learning that values these home languages?

The home languages of ELLs with the largest representation at our school are Spanish followed by Arabic and French, then Georgian, Japanese, and Korean.

Supporting communication:
We have speakers of Spanish, French, and Arabic on our school staff who are able to translate for parent communication purposes, but we are also able to utilize NYCDOE's resources for translations in other languages, whether it be for newsletters or parent meetings. During interactions with parents, our office staff and teachers enlist the help of other staff members who are multilingual to provide interpretation. If interpretation or translation is needed for a language not covered by our staff members, we utilize the Office of Language Access's services.

Supporting learning:
Our school has an Equity Team that has compiled text collections that highlight the cultures and experiences of characters who represent the same backgrounds as our diverse student population. We shared these texts with our schoolwide staff for everyone to integrate into their classroom libraries as well as to highlight during specific months that honor and celebrate specific heritages, such as AAPI and Hispanic Heritage month. In addition, school funding has been used to expand our classroom libraries and the cultures, perspectives, and experiences represented. We have planned French book fairs so that families in our French Dual Language program can strengthen their bilingualism. We ensure that all students have a voice in our classroom and look for opportunities for our ELLs to share their background, experiences, and knowledge with others. Our school emphasizes the importance of celebrating and valuing all cultures and backgrounds and we communicate this message in our classrooms by seeing additional languages as valuable assets.

5. What are the racial and ethnic classifications of ELLs at your school? How are ELLs being included in planning and delivery of Culturally Responsive and Sustaining Education (CR-SE)?

American Indian or Alaskan Native and 75% are white. Of our non-Hispanic ELLs, 54.4% are white, 27.3% are black, and 18.2% are Asian. The backgrounds of our ELLs are taken into consideration in our implementation of Culturally Responsive and Sustaining Education. We are intentional in selecting texts that are mirrors for our diverse student population so that they can see their cultures and experiences represented in addition to windows that shed light on other cultures and experiences. We draw on the expertise of our ELLs/MLs and their families to share their background, experiences, and knowledge with the rest of the school community.

6. What trends do you notice in reviewing English Language Proficiency (ELP) growth at your school? How many students met ELP sufficient progress? How many students did not meet ELP sufficient progress?

4 ELLs (44.4%) met progress by exiting ELL status, but 5 ELLs (55.6%) did not meet their annual progress target.

7. When you look at the results of the New York State English as a Second Language Achievement Test (NYSESLAT), what stands out? What trends are there for each modality?

On the May 2024 NYSESLAT, 4 out of 11 students (33.3%) achieved the commanding level, 2 students (16.7%) achieved the expanding level, 3 students (25%) scored at the transitioning level, 3 students (25%) scored at the emerging level and 0 (0%) scored at the entering level. The data patterns across proficiency levels and grades reveal that our ELLs' strength is speaking followed by reading and then listening. The greatest area of need for our ELLs is in writing.

8. What is the relationship between students' performance on the NYSESLAT and other state assessments such as the ELA assessment, the Math assessment, and the Regents exams?

6 of our ELLs and former ELLs took the ELA and Math State Exams last year. 2 of our 3 students who scored Commanding got a 4 on the ELA exam. 1 student who scored Commanding on the NYSESLAT got a 2 on the ELA exam. In addition, 3 students who each scored at a different NYSESLAT level (Emerging, Transitioning, and Expanding) scored a 1 on the ELA exam.

On the Math State Exam, 1 of our 3 students who scored Commanding scored a 4 while the other 2 students scored a 3. Our other 3 students who each scored at a different NYSESLAT level (Emerging, Transitioning, and Expanding) all scored a 1 on the math exam.

Generally, these results show a correlation between students' English proficiency level as demonstrated on the NYSESLAT and how close to grade level they are in terms of the ELA Exam and math exam, with the ELA exam seeming to be more challenging than the NYSESLAT since some students who performed well on the NYSESLAT did not perform as well on the ELA exam.

9. What are trends reflected in the NYSESLAT results of ELL subgroups such as ELLs with IEPs and SIFE? What do you think is impacting the results for these subgroups?

None of our ELLs are SIFE students, but 2 out of the 12 ELLs who took the NYSESLAT last year have IEPs. On the 2024 NYSESLAT, 1 of our ELLs with IEPs scored at the Emerging level while another scored at the Transitioning level. Among our ELLs with IEPs, writing was the weakest modality, while speaking was the strongest modality. This seems to suggest that tasks that require more literacy skills pose more challenges for these students compared to tasks that are based on conversational skills.

10. (For grades 9-12 only) Please review your data in the Insight Tool and STARS to answer the following questions:

a. How many ELLs are on-track towards graduation?

N/A

b. How many ELLs in grades 11-12 have a documented postsecondary plan in STARS or ATS?

N/A

c. What targeted strategies and interventions are in place to support ELLs who are currently off-track to graduate in four years?

N/A

d. What specific strategies, engaging approaches, and interventions are implemented to support and retain students who are not on track to graduate within four years, ensuring they remain enrolled and are guided towards a successful graduation in the future?

N/A

Part V: ML/ELL Instruction

Tier 1: Core Instruction

For additional information, refer to ML/ELL Instruction Professional Learning Module.

Tier 1 Core Instruction

1. How does your school provide ELLs with a high-quality academic experience that leads to deeper learning?

Our school provides ELLs with a high quality academic experience that leads to deeper learning by knowing the areas of strength and need of our students and differentiating our instruction and how our ELLs demonstrate their understanding based on that. Classroom teachers, service providers, and the ENL teacher frequently share observations with one another of student progress, interests, and needs as well as how to better support students collectively in integrated settings as well as in stand alone sessions. In class, we try to bring in our ELLs' background knowledge and build on it to deepen understanding. In addition, we scaffold our lessons and tasks with linguistic supports that students may need such as frontloading key vocabulary or providing students with word banks, sentence frames, or visuals on an as needed basis.

2. How does your school's leadership team ensure ELLs have access to core instruction/curriculum?

Our school's Instructional Leadership Team meets to discuss how we as a school can continually grow and improve in our implementation of advanced literacies instruction, which empowers ELLs and all students to develop stronger academic literacy skills by engaging more deeply with rich, complex text, having deeper discussions, writing to build language and knowledge, and building a rich repertoire of vocabulary and language structures. The school's ILT also focuses on ways we can continue to deepen our culturally responsive sustaining education practices so that our students, especially our MLs/ELLs, can feel welcomed, included, and challenged academically no matter what their backgrounds or experiences.

In planning for instruction and differentiation for our MLs and ELLs, we incorporate a wide range of language learning strategies to allow students different access points and different ways to demonstrate their understanding. For example, we use visual thinking strategies to build background knowledge and vocabulary with our students as well as to deepen their inference and critical thinking skills in tandem with their ability to participate in collaborative discussions. We use sheltered instruction by building background knowledge through rich and engaging texts and multimedia; providing students with comprehensible input; employing a range of strategies and scaffolds to support students in engaging with the content, skills, and linguistic demands at hand; incorporating a range of interaction structures between teachers and students; building in activities that engage students in practicing new concepts;

and inviting students to share and review their learning with the class. Throughout the process, we try to offer students a range of options in how they explore the content, practice the skills and show their mastery. They are able to show their understanding through written responses, oral presentations, models, and drama among other formats.

3. Describe how core content is delivered in each program model. Specify language, and the instructional approaches and methods to foster language development and meet the demands of the Next Generation Learning Standards.

In our ENL program, the language of instruction is English with the support of students' home languages through bilingual dictionaries, texts, or multimedia on a needs-based basis. In our DL program, English is used half of the time and French is used for the other half, with support in the other language on a needs-based basis.

In both ENL program and the DL program, core content is delivered through sheltered instruction, where teachers (content teachers in collaboration with the ENL teacher or bilingual teachers, respectively) plan lessons and units using the Next Generation Learning Standards and the NYS World Language Standards; build background knowledge through rich and engaging texts and multimedia; provide students with comprehensible input; employ a range of strategies and scaffolds to support students in engaging with the content, skills, and linguistic demands at hand; incorporate a range of interaction structures between teachers and students; build in activities that engage students in practicing new concepts; and invite students to share and review their learning with the class.

The following are some examples of how teachers use the NYS World Language Standards to plan and assess language:

Differentiate linguistic scaffolds, specific to student proficiency levels.
Determine specific scaffolds that target the content area demand, such as graphic organizers and sentence starters that target the content area standard and match the students' language ability in the new or home language.
Develop formative assessments according to levels and create benchmarks and rubrics to measure progress.
Develop specific language objectives, including academic language structures and key vocabulary.

In the French dual language program, English and French are used on a 50-50 basis, while in the ENL program, core content will be taught primarily in English with some home language support used on a needs-based basis.

4. What instructional strategies and grade-level materials, including technology, do teachers of MLs/ELLs use to provide access to grade level academic content areas and accelerate English language development? Include core content area and language materials with consideration to specific ELL subgroups.

a. ELLs with IEPs

The ENL teacher, classroom teachers, and service providers of ELLs with IEPs meet to discuss student progress and needs. The ENL and special education teachers support students in small groups with special attention to the accommodations and scaffolds outlined in students' IEPs to better support them in accessing and engaging with instruction. Teachers utilize the resources that Into Reading, Envision Math, and Amplify Science provide for differentiation and scaffolding for multilingual learners and students with IEPS. Teachers also create their own scaffolds that will best address student needs and provide the necessary scaffolds. These may include but not be limited to providing students with more visuals, graphic organizers, sentence starters, and choices for

demonstrating mastery. Students can also have access to audiobooks or read-along books on digital platforms such as Sora or Epic to provide them with alternate modes of learning, especially if their accommodations call for them to have directions and texts read to them.

b. SIFE

We have not yet had any SIFE students, but in the event that we do, the ENL teacher and classroom teachers will collaborate in designing a structured immersion program based on the Mutually Adaptive Learning Paradigm as outlined by DeCapua and Marshall (2009). The paradigm emphasizes designing for interconnectedness, learning for immediate relevance, and combining familiar and new processes by building in a strong component of oral language and social interaction with peers while acknowledging the importance of SIFE students' funds of knowledge. We would combine hands-on and collaborative activities that build on students' background knowledge and scaffold the written word through oral interaction while simultaneously supporting students with foundational literacy skills such as letter-sound recognition and phonics.

We will find meaningful texts that represent the cultures, perspectives, and experiences of our SIFE students to share with the class and invite our SIFE students to compare and contrast their own experience with that as a way to acknowledge their experiences and to set them up in the role of expert in addition to using English for authentic purposes. We will design activities that require them to use their developing language and literacy skills to accomplish authentic tasks such as following a recipe to create a delicious snack, playing a game, or teaching others how to do something they excel at.

c. Newcomers

Newcomers will be supported with daily instruction that seeks to build social and academic language through the use of visual support, multimedia, realia, sentence frames and sentence starters, as well as approaches that include total physical response and communicative language teaching. Providing newcomers with these supports will help them in making more meaning and accessing content in different ways. Newcomer students at the entering and emerging levels will also have access to bilingual dictionaries or glossaries in their home language and English. When possible, they may also have language buddies who are able to translate for them. The focus of stand alone sessions for newcomers is on interpersonal vocabulary and language structures needed to engage in basic conversations.

d. Long Term ELLs

Long term ELLs will continue to receive academic support through small group intervention. The ENL teacher and classroom teachers will analyze the performance of long term ELLs on the NYSESLAT, iReady, unit reading assessment and on-demand writing to pinpoint their specific needs and tailor instruction to best support them.

For ELLs who need additional support in phonics, we use SPIRE in conjunction with Fundations' differentiated materials for lower grades and Phonics for Reading in conjunction with Wilson for upper grades. We also utilize the Foundational Skills and Word Study Studio, Blend It Books, and Start Right Readers available through the Into Reading program. For ELLs who need intervention in terms of reading comprehension and building writing skills, we use teacher-created lessons and materials as well as Into Reading's English Language Development resource and Read and Respond Journal. For other subject areas, we utilize the differentiation resources provided by Amplify Science and Envision Math in addition to the Spanish and French version of texts.

5. What supports does your school provide to ELLs with IEPs to achieve their IEP goals and attain English language proficiency within the least restrictive environment?

The school utilizes curricular, instructional and scheduling flexibility to enable ELL with IEPs to achieve their IEP goals and attain English proficiency within the least restrictive environment as follows:

All facets of the curricula are implemented and modified to meet the needs of these students, so that instructional objectives are attained as per the Next Generation Standards. Both our ELA and math curricula, Into Reading (ELA) and Envision Math, respectively, provide many differentiated resources that teachers can utilize to better support students' needs. While we have pacing calendars for each grade level that outline the timeframe for each unit as well as the core standards each unit addresses, teachers are trusted to tailor lessons and instructional activities to what best supports their students.

Special education teachers, the ENL teacher, and related service providers collaborate in scheduling to ensure that ELLs with IEPs in ICT classes are supported by all without any schedule conflicts in both integrated and stand alone sessions. For ELLs who are in self-contained special education classes, the ENL teacher works with special education teachers and related service providers to ensure that integrated ENL happens during ELA instruction and that stand alone ENL does not happen during core academic periods. All staff are in 408 compliance and are aware of the academic, socio-emotional needs of our ELLs with IEPs.

6. How is home language assessed in each program model (DLBE, TBE, and ENL)?

In the K-2 dual language classes, instruction is delivered utilizing a side-by-side method of instruction. In Grade 3, there is a self-contained dual language class, where French is used for 50% of the time. In Grades 4 and 5, students learn core subjects in their homerooms with French and non-French program students. French is only used during one period of stand alone French instruction each day. In the Dual Language Program, French home language materials include French classroom libraries and the Bien Lire Et Aimer Lire: La Méthode Phonétique et Gestuelle Créée par Suzanne Borel-Maisonny. Home language support in English or in French is delivered as needed to support the language of instruction and to facilitate bilingualism and biliteracy in French. Teacher-designed formative and summative assessments in both French (with English support as needed) are used to assess students' progress in French proficiency.

In the ENL program, native language dictionaries and glossaries as well as peer-translators and Google Translate are utilized for home language support. Home language support is provided as-needed to help students access content areas being taught in English. At initial intake, ELLs who are Spanish speakers are assessed in the Spanish LAB to determine their home language literacy level while ELLs who speak other home languages are assessed in their home language when possible based on whether our school has staff members who share the students' home language. Assessment of students' home language provides us with valuable insight into how we can build on students' existing language and literacy skills to help them acquire English.

7. (For grades 6-12 only) What language electives are offered to MLs/ELLs? How is your school preparing MLs/ELLs to obtain the New York State Seal of Biliteracy?

N/A

8. Describe systems and structures for supporting co-teaching and collaboration among teachers for all ELL program models available at your school (e.g. integrated co-teaching, Dual Language Bilingual Education teacher partnerships, etc.).

Classroom teachers and the ENL teacher meet during common preps, weekly grade level meetings, and PLC time to discuss student progress, unit goals and expectations, and to plan for instruction together so that students are supported strategically in both their integrated and stand alone ENL sessions. The ENL teacher aligns her stand alone instruction with the units and genres of study in students' classrooms as much as possible while targeting specific linguistic needs, skills and modalities that students require more support in.

French dual language teachers meet weekly to align the French program to the NYS World Language Standards. They determine end of year linguistic goals or 'I can statements' for students based on American Council on the Teaching of Foreign Languages (ACTFL)'s proficiency guidelines by grade level. Finally, they create units of study related to NYSED's Themes & Topics for Modern Languages.

9. Describe how your overall, annual professional learning plan ensures that all staff – including administrators, teachers and -non-pedagogical staff – incorporates learning specifically related to the academic and social emotional needs of MLs/ELLs. Professional learning topics might include co-teaching strategies, or integrating language and content instruction.

Teachers of ELLs participate in professional learning communities whereby they study topics that will support their teaching of ELLs. 50% of ELL teachers' PD will be on topics about best practices for ELL instruction, while the entire staff will be provided with PDs on ELL strategies as well for 15% of their PD time to specifically address how best to support ELLs across varied subjects.

Pedagogical staff as well as non-pedagogical staff attend professional development opportunities offered both through the Borough Field Office and Central, where applicable. ELLs and bilingual teachers are provided with various opportunities to attend professional development offered by both the district and city-wide conferences and symposiums. These professional development opportunities include: workshops, lectures, and intra/inter-class visitations. The French Embassy also hosts many lectures on topics of bilingualism, and language acquisition. In addition, we have PD sessions from the Child Mind Institute on SEL and from Bank Street Education Center's on Culture, Race, and Equity to better support all our students, especially our ML/ELLs.

10. Describe your school's professional development plan in order to meet the mandated Continuing Teacher and Leader Education (CTLE) ELL specific hours for certification renewal as per CR Part 154 (15% of total hours for all certified faculty [holders of professional certificates in the classroom teaching service, educational leadership service and level III teaching assistant certificate holders] and 50% of total hours for bilingual education/ENL teachers receive ELL-specific professional development).

Our school will provide professional development to all teachers and administrators that specifically addresses the needs of ELLs. A minimum of 15% of the required professional development hours for all teachers prescribed by CR Part 154.2 will be dedicated to language acquisition, including a focus on best practices for co-teaching strategies and integrating language and content instruction for ELLs. For all bilingual and ENL teachers, a minimum of 50% of the required professional development hours will be dedicated to language acquisition in alignment with core content area instruction, including a focus on best practices for co-teaching strategies and integrating language and

content instruction for ELLs. All professional development activities will directly benefit ELLs as teachers continue to learn so that students develop and achieve English proficiency and academic goals.

Assessment

SCREENERS

11. Which screening assessments (e.g.iReady, MAP Growth, Acadience, or STAR Reading) does your school use to guide instructional planning for your ELLs?

Our school uses NYSITELL/NYSESLAT results, Acadience, iReady, on-demand writing pieces as our screening tools to assess the levels at which students are able to perform. The data that we obtain from these assessments guide the instructional groups that we make and help us provide strategic and targeted instruction to students. NYSITELL and NYSESLAT provide us information on students' strengths and needs in terms of modalities (speaking, listening, speaking, listening), while the other assessments provide us insight into students' strengths and needs in terms of phonics, fluency, vocabulary, comprehension, and level of writing.

12. For all grades, list and describe your targeted intervention programs for ELLs in ELA, Math, and other core content areas (specify ELL subgroups targeted). Include the language(s) in which the intervention services are offered.

Our school structures instruction by using the Multi-Tiered System of Support framework. The three-tiered model for instruction and support ensures students in each of the three tiers are receiving the necessary intervention with appropriate frequency and duration to address needs. For our Tier 2 (small group intervention) and Tier 3 students (individual intervention) who need additional support in ELA, math and other content areas, we use teacher created materials as well as the differentiation resources embedded into the district-approved curricula and programs that we follow to scaffold what is being taught so that our ELLs can access the content and skills being taught.

For ELLs who need additional support in phonics, we use SPIRE in conjunction with Fundations' differentiated materials for lower grades and Phonics for Reading in conjunction with Wilson for upper grades. We also utilize the Foundational Skills and Word Study Studio and Blend It Books available through the Into Reading program. For ELLs who need intervention in terms of reading comprehension and building writing skills, we use teacher-created lessons and materials as well as Into Reading's English Language Development resource and Read and Respond Journal. For other subject areas, we utilize the differentiation resources provided by Amplify Science and Envision Math in addition to the Spanish and French version of texts. Intervention provided by French bilingual teachers happens in both English and French. However, intervention provided by other teachers happens in English with the support of translated texts, bilingual dictionaries, and other modes of home language on a needs-based basis.

13. For all grades, describe how your school uses data to guide instruction for ELLs within a Multi-Tiered System of Supports (MTSS). Refer to the Instructional Leadership Tool for MLs and ELLs and MTSS Guide for MLs and ELLs to help in the development and implementation of your school's plan for MLs/ELLs.

Our school uses data from NYSESLAT, Acadience, iReady, and state exams as well as formative and summative assessment data across subject areas to identify the strengths and needs of our students and to inform our instruction using the MTSS framework. All our students receive quality Tier 1 instruction that is culturally responsive and develops our students' literacy and critical thinking skills. In addition, students may receive Tier 2 targeted small group instruction if they need additional support in a specific area or skill that will help them achieve greater success in Tier 1. Lastly, highly intensive individualized Tier 3 instruction is offered to students who need even more support to succeed. Within each tier of instruction, we use ongoing data to monitor student progress, evaluate the effectiveness of our instruction and intervention, and determine if any adjustments need to be made.

FORMATIVE

14. Which formative assessments (e.g. NYC performance Tasks, ELL Periodic Assessment, HLA Assessment, DRA, teacher-created assessments, etc.) are used to inform and drive instruction?

Our school uses a variety of formative assessments to help inform our instruction. Grade teams customize quizzes and end of unit tests from our core curriculum that assess students' mastery of the priority standards and skills in different subject areas. Reading quizzes and tests include comprehension questions in the format of both multiple choice questions and short response questions that are aligned with different reading standards. For each writing unit, teachers use on demand writing pieces at the beginning and end of the unit to see what students are able to write independently, using rubrics to gather information about their level of organization, elaboration and development of ideas, and use of language and conventions. We also use Acadience and iReady to assess students in reading and math at the beginning, middle, and end of the year. For students who need phonics intervention, we use SPIRE's and Phonics for Reading's assessments to gauge their progress as well.

15. How do you ensure that MLs/ELLs are appropriately evaluated in their home languages throughout the year?

MLs and ELLs are evaluated in their home languages during mandated content-based assessments through the use of translated versions. Students in the French dual language program are assessed on their French level through teacher-created beginning of the year diagnostic evaluations and end of unit tests. Some of these evaluations include dictation for the upper grades and French letter-sound correspondence and number identification for the lower grades. In addition, informal assessments in reading and writing are frequently used within the French classroom to gauge students' progress in French literacy.

SUMMATIVE

16. Which summative assessments (e.g. NYSESLAT, ELA, Math, Regents, etc.) are used to evaluate the effectiveness of your ML/ELL programs and how does it inform instructional design and curricular decisions? (Refer to the ELL Data Analysis Tool).

The NYSESLAT, ELA State Exam, and Math State Exam, are used to evaluate the effectiveness of our ML/ELL programs. Based on the data from the ELL Data Analysis Tool and the correspondence between our ELLs NYSESLAT levels and performance on state exams, we are able to see trends in how our ML/ELL population performed. Based

on the most recent ELL Data Analysis Tool, our programs would benefit from a stronger focus on writing, since this was the weakest modality for our ELL students.

17. What is your NYSESLAT administration plan? How does your school ensure that all ELLs are tested with the NYSESLAT annually? Include the titles of the staff that will administer and score the assessment. Please describe your plan to ensure that all ELLs and former ELLs continue to receive mandated instruction during the testing period.

Our NYSESLAT administration team includes the ENL teacher as well as other classroom teachers who are trained in administering the NYSESLAT. In order to ensure that all ELLs and former ELLs continue to receive mandated services during the testing period, the NYSESLAT will only be administered in the morning, so that the afternoons are fully available for ENL instruction. During the testing period, students at the commanding level will participate in small groups and project based learning that are set up with ENL scaffolds beforehand so the ENL teacher can focus scheduling efforts during that time to current ELLs at the entering, emerging, transitioning, and expanding levels.

18. How does your school ensure that current and former ELLs receive necessary accommodations for state assessments, including the Specialized High School Admissions Test (SHSAT) if applicable?

We ensure that ELLs and former ELLs receive as much time as they need to complete assessments. In addition, for content exams such as the NY State Math Exam and NY State Science Exam, ELLs receive state-approved bilingual glossaries or oral interpretation for less common languages.

Part VI: Family Partnership

Family Partnership

Required Meetings Under CR Part 154

Describe your schools' plan to ensure families of ELLs are provided with the required meetings specified below as per CR Part 154. Include:

- Topics discussed during these meetings
- How your school ensures families receive necessary translation/interpretation supports to meaningfully engage in the meetings
- How your school schedules these meetings to facilitate attendance, and how your school maintains evidence of these meetings as required per the NYC DOE Policy and Reference Guide for MLs/ELLs.

a. ELL Program Orientation to inform parents/guardians of newly identified ELLs of ELL program options, including the program goals and requirements for all three ML/ELL program models: Dual Language Bilingual Education, Transitional Bilingual Education and English as a New Language regardless of whether the school currently has either type of bilingual program and provide a high-quality orientation section on the Next Generation Learning Standards, assessments, and school expectations for English Language Learners.

Parents and guardians of newly identified ELLs are invited to attend the ELL Program Orientation via the DOE approved notification letter in their preferred language. The ENL teacher also follows up on ParentSquare, our school's parent communication app schedules a time that is convenient for families after school to meet, either in person or via Zoom. During the orientation meeting, Over the Phone Interpretation services are used if they are families who need interpretation. Parents are shown the DOE-created video that explains the difference between transitional, dual language, and ENL programs. The ENL teacher then describes in depth the programs that are available at our school (French dual language and ENL) and other available bilingual programs in the district so that parents can make an informed decision about the placement of their child. Parents are also given an overview of the academic expectations and assessments for the school year and strategies and resources which are curated for them on a Google Classroom for how to support their child at home are shared. After the orientation session, families are asked to complete and return the ELPC form, which denotes their program selection and the information is entered into ATS and a copy of the form is kept for records. The school maintains evidence of this event through an attendance sheet.

b. Annual Individual Meeting to discuss goals of the program, language development progress, language proficiency assessment results, and language development needs in all content areas. Note:

this meeting is separate from and does not include the mandated ELL program orientation meeting and DOE-scheduled parent-teacher conferences.

In addition to the scheduled parent-teacher conferences, teachers communicate with families about student progress. Additional individual conferences are arranged and take place after school or before school depending on what is more convenient for working parents. Parents also make individual appointments to discuss their child's progress throughout the school year. Ever since remote learning, teachers offer parents the option to meet in person or remotely on platforms such as Google Meets or Zoom. Interpreters are invited to join meetings based on need and may be staff from our school who speak the language, family members of students who are able to translate, or members of the DOE's translation services department.

During these individual meetings with parents, the ENL teacher and classroom teachers share their observations of and data on the student's strengths and areas needing improvement. They discuss the student's grasp of content and skills as well as the student's progress in language development and how their mastery of related academic language in math, ELA, science, and social studies affects their performance across subject areas. The ENL teacher and classroom teachers explain the ways the student is supported linguistically in class and suggest ways and resources for families to continue to support their child at home. The school maintains evidence of the event and participation through attendance sheets.

Family Engagement

2. Beyond the mandated meetings and orientations, describe how your school:
a. Ensures families receive all school communications and documents in the language they best understand. How are families able to respond or initiate communications in languages other than English?

The DOE offers translated copies of newsletters for families, which we are able to share with families based on their stated language of preference as documented by the RAPL report in ATS. In addition, our parent communication tool, ParentSquare offers direct in-app translations. When parents initiate or respond, they are able to write in their language of choice and ParentSquare automatically translates it for the teacher. Parents who prefer phone calls or hand-written notes have their communication interpreted or translated by in-school staff who speak their language or by the use of the Office of Language Access Over the Phone Interpretation services.

b. Develops activities that foster empowerment for families of MLs/ELLs. Include how your school determines the needs of your community.

The ENL teacher and bilingual teachers share with families the principles of language acquisition so that families have an understanding of the general progression of language learning, the importance of maintaining and valuing their home language and how their child's home language literacy transfers to their second language development.

The ENL teacher and bilingual French teachers also share activities, online resources, and multilingual books from classroom lending libraries that families can use at home to support their child's language development in English or French.

We determine the needs, topics, and themes of the activities and resources based on needs and interests shared by ML/ELL families via ongoing conversations with teachers and the PTA.

c. Ensures families of MLs/ELLs are aware of family leadership opportunities (such as Parent Association (PA), School Leadership Team (SLT), Community Education Council (CEC), etc.)

Announcements for family leadership opportunities within the school are always sent to families via our parent communication tool, ParentSquare, which has built-in translation capabilities so that families receive the notices in their preferred language. If there are district level family leadership opportunities, we send home translated versions of notices provided by the district.

3. What culturally and linguistically responsive partnerships do you currently have that support the needs of your school community?

Our school often partners with arts organizations that help our students participate in and appreciate the beauty of different cultures. For example, we have had schoolwide performances by organizations such as the Redhawk Arts Council and La Troupe Zetwal, whose educational programs serve to help students and educators gain a better understanding of Indigenous American history and of the diverse cultures represented within Indigenous America.

We have also had Haitian folk dance and drumming performances. In addition, we have a residency that teaches students Latin dance.

We have bolstered our classroom libraries with culturally responsive books that students can borrow and share with their families to ensure that all our students can see their identities and experiences reflected in the books as well as understand diverse identities and experiences that may differ from their own.

Our school also has a French task force composed of parents and French dual language teachers who meet periodically to discuss how families and staff can work together to better support our students who are learning French. Additionally, we have partnerships with afterschool programs that specifically support the French language development of students in our dual language program.

Part VII: Additional Information

Additional Information

Include any additional information that is relevant to your LAP and would further explain and highlight how your school supports MLs/ELLs. This form does not allow graphics and charts to be pasted.

ELL families and families in our French Dual Language program have access to a compilation of language learning resources provided by teachers to support students' language acquisition in English and French at home. We also have a working group of families who collaborate with our administration and teachers in the Dual Language Program to discuss ways to better support students in their language learning.

Part VIII: ELL Identification Attestation and Principal Certification

Identification Plan

For additional information, refer to ELL Identification Attestation Professional Learning Module.

1. What are the titles of the members of your ELL identification team? Note: Members of the ELL identification team must be pedagogues.

Our identification team includes our ENL teacher, our pre-K teachers, and our other multilingual teachers (fluent in French, Spanish, Arabic, Polish, Korean, and Italian) who have been trained in our ELL identification process.

2. Describe the structures and process in place for identification of ELLs year-round as required by the NYC DOE Policy & Reference Guide for MLs/ELLs, including your school's identification plan for any incoming students with an Individualized Education Plan (IEP). Include:

- **How your school proactively plans for the ELL identification process so that it does not interrupt the provision of mandated ENL and/or bilingual instruction to current, former and potential ELLs,**
- **Who is responsible for each step of the ELL identification process, and**
- **School's plan for ensuring ELLs and former ELLs will continue to receive mandated instruction.**

-When a new student enrolls, our secretary determines if the student was enrolled in NYS public schools within the past 2 years. If so, she requests their records and information from the previous school.
-If a student is new to NYS public schools or is re-entering NYS public schools after a 2 year hiatus, the ELL identification team administers the Home Language Identification Survey to determine whether or not the families speak languages other than English. If so, then the ENL teacher will conduct an individual interview in English and a teacher who speaks the family's language will interview the child and parents in the other language to gauge the child's proficiency level in said language.
-If a student is determined to speak a primary language other than English and based on their English oral interview is determined to be eligible for NYSITELL testing, the ENL teacher will administer the NYSITELL. In the event that such a child has an IEP, the ENL teacher will defer to the LPT, who will determine if the child should take the NYSITELL or if he or she should be exempt because second language acquisition is not the issue.
-The ENL teacher will notify parents of ELL eligibility.
-One of our Spanish speaking classroom teachers will administer the Spanish LAB to Spanish speaking ELLs.
-The ENL teacher (or a bilingual teacher if necessary) will administer the SIFE questionnaire and diagnostic to any student who was previously flagged as a potential SIFE.
-The results of these assessments will be shared with parents within 5 days of a student being identified as an ELL and a parent orientation will be held for all new ELL families so that parents can indicate their choice for ELL programming for their child.

To ensure that the ELL identification process does not interfere with mandated ENL and bilingual instruction for ELLs, the ELL identification team consists of many classroom teachers who have co-teachers who can continue instruction while they administer the HLIS and interview parents and students. When administering the NYSITELL, the ENL teacher tries to utilize her prep periods so as not to interfere with instruction.

Principal Certification

In accordance with New York State's Commissioner's Regulations Part 154 as outlined and implemented in the NYC DOE Policy and Reference Guide for MLs/ELLs, I, attest that the following ELL identification procedures and activities are adhered to, and staff are trained on the items listed below.

- The ELL Identification Process is completed for each student within 10 school days of enrollment (20 school days for students entering with IEPs).
- Enrollment status of each newly admitted student is determined:
  a. If a student has been in New York State public schools within the past 2 years, our school contacts the previous school to obtain ELL status, relevant assessment scores, and English language proficiency level.
  b. If a student has been outside of New York State public schools for more than 2 years, our school administers the ELL Identification Process as part of reentry.

- The home language of the student is determined by a trained and licensed pedagogue.
  a. The parent completes the Home Language Identification Survey in the parent's preferred language; translation services are provided by a bilingual staff member, the DOE's over-the-phone translation services, or an alternative, high quality translation service.

- An interview with parents and students in English and the home language is conducted. This includes reviewing documents, prior assessments, and academic experience. An assessment of the student's abilities and/or work samples determines the student's literacy and math level in his/her home language.
- Eligibility for the NYSITELL is determined.
  a. If the newly enrolled student is entering with an IEP, the school's Language Proficiency Team (LPT) recommends eligibility to the principal, who obtains final approval from the superintendent.

- Students are administered the NYSITELL, if eligible.
- Notification letters are sent to the parent/guardian in their preferred language.
  a. Parent is notified of their child's ELL status and results of the NYSITELL.

- If the student is identified as an ELL and the student's home language is Spanish, the student is administered the Spanish Language Assessment Battery (LAB).
- Student with Interrupted/Inconsistent Formal Education (SIFE) status is determined using New York State's resources.
- If a student is a newly identified ELL, the parent is invited to the parent orientation meeting.
  a. The parent orientation meeting provides parents/guardians with an explanation of each ELL program model offered in NYC; the parent video describing the three programs is presented (in parent's preferred language); parents/guardians are encouraged to ask questions so that they are

informed about all ELL programs; translation and interpretation services are provided throughout the meeting.

- ELL is placed in the ELL program that the parent selected.
  a. If the bilingual program that the parent selected is not available, the parent is offered a transfer to a school with that bilingual program in accordance with NYC DOE transfer policies.
  b. If the ELL remains in the school, the ELL is placed in English as a New Language and our school keeps track of parent selection so that when minimum thresholds are met, we can open the ELL program of choice.

- Parents are notified that they have 45 days to appeal the ELL status of their child (ELL Re-identification Process).
- If the ELL Re-identification Process is implemented for any student, the principal reviews the decision of any student whose ELL status was changed because of the ELL Re-identification Process within 6 to 12 months.
- Copies of documentation regarding ELL identification, including letters and parent notifications are kept in the students' cumulative files.

LTI Overview and Part A: Designation of a LAC

Chancellor's Regulation A-663 establishes procedures for ensuring that Limited-English-Proficient (LEP) parents of students enrolled in the New York City public schools are provide with a meaningful opportunity to participate in and have access to programs and services critical to their child's education. To this end, schools must review and complete the annual LTI Plan to address its language assistance needs consistent with the requirements of this regulation.

The LTI Plan requires information on the following:

- Name of person designated as the Language Access Coordinator (LAC).
- Identification and assessment of LEP parent population.
- Identification of Critical Communications and standing, in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.
- Plan to ensure staff awareness of language access requirements and available resources.
- Provision of notice to parents on the available language assistance services.

Methods for the school to solicit and implement feedback on its provision of language assistance services.

Office of Language Access (OLA) Contact:

- **Contact Information:**
  - **Cunneely Elena, ECunneely@schools.nyc.gov**
  - **Rivera Ricardo, RRivera60@schools.nyc.gov**
  - **Williams Robert. RWilliams32@schools.nyc.gov**

Please do not edit

Robert Williams

Designation of a LAC
Name of person designated and trained as the LAC.
At the start of each school year, each principal is required to designate at least one staff member to serve as the Language Access Coordinator (LAC), responsible for overseeing language assistance services within the school.

We have pre-populated the following information based on our records. Please confirm that the designated staff member(s) are your school's Galaxy-designated LAC(s) and provide the date(s) they attended the OLA Language Access Coordinator Training. Note that this training is in addition to the mandatory asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform. If any information is missing, please provide the requested details.

As a reminder, LACs are internal staff designations and are not meant to serve as the primary point of contact for families regarding language access-related matters. The Parent Coordinator, or another designated staff member, should remain the main contact for families regarding all issues, including language access.

First Name	Last Name	Title	Date attended OLA Language Access Coordinator Professional Learning Opportunity	Confirmed (Y/N)
Tina	Lin	ENL Teacher	10/23/2025	Y

Part B: Parents' Preferred Languages

Parents' Preferred Languages

Language identification and assessment of parent population.

1. Check the resources your school staff uses to identify parents' preferred languages:

,Student Emergency Contact cards,Automate The System (ATS) reports / Next Generation Student Information System (NGSIS),Part III of the Home Language Identification Survey (HLIS)

If Other was selected, describe the resource here:

2. We have pre-populated the following information from the Parent's Preferred Language Report (RCPL) in ATS. For the last two columns, please indicate the number of school staff members who are comfortable using their language skills to communicate with parents and regularly assist other staff members and families with translation and/or interpretation. If none, enter "0".

Language (Description within RCPL)	Written Preferred Count	Written Preferred Percentage	Oral Preferred Count	Oral Preferred Percentage	No. of Staff to Help with Written Translation	No. of Staff to Help with Oral Interpretation
ARABIC	2	0.25%	2	0.25%	2	2
FRENCH	6	0.74%	6	0.74%	5	5
ENGLISH	804	98.53%	803	98.41%	NA	NA
ONEIDA	0	0.00%	1	0.12%	0	0
POLISH	1	0.12%	1	0.12%	4	4
SPANISH	3	0.37%	3	0.37%	5	5

Part C: Parent Communications and Engagement

Parent Communication and Engagement

Identification of written critical communications and in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.

1. List the documents your school typically distributes each year that require translation, along with your plan for translating these documents.

Document Type (e.g. parent flyers, IEPs, etc.)	How do you plan to implement the translation process? Please include procedures and resources to ensure the timely delivery of translated documents to parents.
Parent Teacher Conference Notice	For languages members of our staff are proficient in, translations are done in house. For any other languages, we will use the NYCDOE Translation Services.
Letters from DOE	Distribute translated versions provided by the DOE to families as needed. If translations are not available, either our staff or the NYCDOE Translation Services will translate.
Special PTA or School Event Notice	For languages members of our staff are proficient in, translations are done in house. For any other languages, we will use the NYCDOE Translation Services. Our parent communication app also has translation capabilities for digital notices.
IEPs	For languages members of our staff are proficient in, translations are done in house. For any other languages, we will use the NYCDOE Translation Services.

2. List the meetings, both in-person and virtual, that your school typically holds with parents throughout the school year, along with your plans for providing interpretation services at those meetings.

Meeting Type (e.g. parent workshops, PTCs)	How do you plan to offer interpretation services? Please outline the procedures and resources in place to ensure timely access to interpretation for parents.
Parent Teacher Conferences	School personnel who speak parents' preferred languages interpret as needed. If parents need a language that is not represented by school staff, our school will call the Over-the-Phone Interpretation Services.
IEP Meetings	School personnel who speak parents' preferred languages interpret as needed. If parents need a language that is not represented by school staff, our school will call the Over-the-Phone Interpretation Services.
Parent Engagement Meetings	School personnel who speak parents' preferred languages interpret as needed. If parents need a language that is not represented by school staff, our school will call the Over-the-Phone Interpretation Services.
Special PTA Events	School personnel or PTA members who speak parents' preferred languages interpret as needed. If parents need a language that is not represented by school staff, our school will call the Over-the-Phone Interpretation Services.

3. Describe the resources and processes your school will use to communicate with parents who speak a language other than English during an emergency (e.g., lockdown, fire, student attendance, nurse/hospital visit, etc.), or when a parent needs to contact the school in an emergency, ensuring communication is in their preferred language.

The office will maintain a list of families who need to receive information in a non-English language. Staff members who speak those languages will reach out via phone to families and relay the message. The office will also maintain a list of parents who are bilingual and can get the needed message out to families who need to be contacted in their home language. If needed, the Over-the-Phone Interpretation Services will be utilized. In addition, messages that are automatically translated through ParentSquare, our parent communication app, will be sent.

If a parent has an emergency and needs to contact the school, they can call the office and identify the language they need. For example, "Spanish, Polish, etc." and a staff member who speaks that language will be called to help with the communication. If parents need a language that is not represented by school staff, our school will call the Over-the-Phone Interpretation Services to do a three way call with the parent.

Part D: Staff Awareness

Staff Awareness

Plan to ensure staff awareness of language access requirements and available resources.

1. Describe how your school will ensure that all staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform, and are familiar with the Best Practices for When to Provide Translation of Critical Written Communications to Parents and Best Practices for When to Provide Interpretation for Critical Oral Communications with Parents. Additionally, explain how your Galaxy-designated LAC will disseminate future language access resources and updates to all staff members.

Staff members will be given time during PLC time at the beginning of the year to complete the asynchronous NYCPS Language Access Training for School-Based Staff. Throughout the year, our language access coordinator will forward all language access resources and updates to staff members through email as well as make them readily available on our staff Google Classroom. Prior to each parent engagement session, the language access coordinator will send out reminders to the staff about utilizing the Over-the-Phone Interpretation Services.

Part E: Parental Notification

Parental Notification

Provision of notice to parents on the available language assistance services.

1. Describe how your school will inform parents about available language assistance services in their preferred language. Include any of the following:

- **Translated signage**
- **Brochures, flyers, or letters shared with parents**
- **Parent engagement events where language assistance services are highlighted (e.g., PTA meetings, international parents' night, etc.)**
- **Messaging applications**

- Language Access for NYC Public Schools Families brochure

Parents will be made aware of their right to receive information in their preferred language through teachers and through parent engagement events such as curriculum nights, PTA meetings, and parent teacher conferences. In addition, families will see signage in their language through the Language Access for NYC Public Schools brochure and welcome packets at the school's entrance and main office informing them of their right to receive information in their preferred language.

Part F: Monitoring

Monitoring

Methods for soliciting and implementing feedback on language assistance services.

1. In addition to the feedback received from parents via OLA's Translation & Interpretation Feedback Survey, describe the methods your school will use to gather feedback from parents regarding the language assistance services they receive in their preferred language.

Parents will be surveyed in their preferred language as to the accessibility of information made available to them. Surveys may be conducted through our parent digital communication tool - ParentSquare. Anecdotal evidence from the parent coordinator, teachers, and staff members can also help facilitate the gathering of the feedback.

2. How has your school worked to improve its language assistance services? Share any feedback results and outline your plans for further improvements in the upcoming school year.

Some of the feedback we've received is that navigating the initial setup of our communication app, ParentSquare, and of NYCSA accounts is challenging for families whose preferred language is not English. We will create a welcome document for families in different languages that walks them through the process better. We can also continue to improve on the degree to which all staff utilizes translation and interpretation services to communicate with LEP families. We will review with staff the importance of providing all families with language access and in making sure that everyone is aware of and comfortable utilizing the available resources for this endeavor.
