Comprehensive Educational Plan Outline

Table of Contents

Main Sections (Customized Based on School Accountability Status):

- Section 1: Overview of Comprehensive Education Planning
- Section 2: School Information
- Section 3: CEP SLT/Stakeholder Signature Page
- Section 4: School Summary
- Section 5: Priority 1 – All students learn to read well
- Section 5: Priority 2 – All students are physically and emotionally safe
- Section 5: Priority 3 – All students have a high-quality academic experience
- Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security
- Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools
- Section 5: Attendance/Chronic Absenteeism
- Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities
- Section 6: Multi-Tiered Systems of Support (MTSS)
- Section 7: Parent and Family Engagement Policy and School-Parent Compact
- Title I Program Information
- Submission Assurances
- Language Allocation Policy Outline
- Part I: School ML/ELL Profile
- Part II: Bilingual Programs
- Part III: ML/ELL Programming
- Part IV: Data Analysis
- Part V: ML/ELL Instruction
- Part VI: Family Partnership
- Part VII: Additional Information
- Part VIII: ELL Identification Attestation and Principal Certification
- Part IX: LAP Assurances
- LTI Overview and Part A: Designation of a LAC
- Part B: Parents' Preferred Languages
- Part C: Parent Communications and Engagement

- Part D: Staff Awareness
- Part E: Parental Notification
- Part F: Monitoring
- Title III Outline
- Part A: School Information
- Part B: Direct Instruction Supplemental Program Information
- Part C: Professional Development
- Part D: Family Engagement Activities
- Part E: Budget
- Title III Immigrant Outline
- Part A: School Information
- Part B: Direct Instruction Supplemental Program Information
- Part C: Professional Development
- Part D: Family Engagement Activities
- Part E: Budget

Appendices (Reflecting Additional Requirements for Specific Groups of Schools):

F

Section 1: Overview of Comprehensive Education Planning

Overview of Comprehensive Education Planning

Comprehensive Education Planning (CEP) is a structured, data-driven process that guides schools in assessing their needs, identifying areas for growth, setting strategic goals and implementing targeted actions to improve student outcomes. Collaboratively developed by the School Leadership Team (SLT) in accordance with the requirements of Chancellor's Regulation A-655, the CEP meets New York State Education Department (NYSED) requirements under the Every Student Succeeds Act (ESSA) and aligns with NYC Public Schools' (NYCPS) system-wide priorities. By engaging all stakeholders—school leaders, teachers, families, students and community members—schools can create a data-informed, equity-focused roadmap for student success and continuous improvement.

Schools should focus their CEP on the five system-wide priorities below, connecting their planning to the data discussions and conversations with stakeholders held as part of the school's needs assessment:

- Priority 1: All students learn to read well
- Priority 2: All students are physically and emotionally safe
- Priority 3: All students have a high-quality academic experience
- Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security
- Priority 5: All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

The Education Planning Process

The CEP follows an equity-driven, continuous improvement cycle, rooted in the system-wide priorities. This begins with a comprehensive needs assessment of the school's most current data to identify priority needs and root causes. Next, the SLT establishes **s**pecific, **m**easurable, **a**ttainable, **r**elevant, and **t**imely—SMART goal(s) aligned to each priority and determines targets to measure progress toward meeting the annual goals.

The SLT and instructional leaders define key evidence-based key strategies, professional learning activities and parent, family and community empowerment efforts. They monitor the implementation of those strategies and activities and track progress through measurable targets. Then, the SLT aligns the school-based budget with human and instructional resources to support action plans.

As schools set goals, develop key strategies, and plan action steps, they provide opportunities for all children to meet NYSED's proficient and advanced levels of student academic achievement. These include evidence based instructional strategies that address the educational needs of historically underserved populations and tackle structural inequities. Schools indicate how the plan addresses the needs of Multilingual/English Language Learners (ML/ELL) through development of the school's Language Allocation Policy (LAP) & Title III Application (if applicable) and the Language Translation and Interpretation (LTI) Plan, that are required as part of the CEP. Schools also address the needs of Students with Disabilities (SWD) through the High Quality Inclusive & Accessible Learning for Students with Disabilities section of the plan. SLTs also develop a plan to improve attendance and reduce chronic absenteeism.

Guidance on Conducting a Comprehensive Needs Assessment

Directions: Conduct a comprehensive needs assessment for each Priority. The information below provides guidance for reviewing and analyzing student and school performance trends to uncover root causes for low student achievement.

1. Review Multiple Data Sources: Use the most current and available information including, but not limited to, the following sources of formative and summative data, as applicable:

- Qualitative and quantitative data, including enrollment and class size trends
- 2024-25 ESSA Accountability Data
- Instructional Leadership Framework (ILF), Supportive Environment Framework (SEF) Inventories, and NYC School Survey results
- Quality Review Reports, NYSED and NYCPS CSI or A/TSI Support Visits, Receivership Quarterly Reports, and Diagnostic Tool for School and District Effectiveness Framework (DTSDE)
- NYC School Quality Guide, Insight, New Visions, NWEA MAP and/or other formative assessment data, IEP Review Survey Data, Progress on IEP Goals Data, Program (SESIS-STARS Linkage) Reports, Mandated (Related) Services Reports, and NYCPS Tools for Understanding Your Data for student subgroup information

2. Analyze Data Trend(s) to Identify Areas of Strength and Need: Identify data trends by grade, cohort, and content area(s) to surface gaps and inequities. Compare data sets to identify instructional and school practices that are impacting student performance. Guiding questions to consider:

- What does the data reveal about improving and declining student performance trends within grades, cohorts, and student subgroups?
- What inequities are evident between highest and lowest performing student subgroups? Which subgroup(s) scored at Level 1 based on NYSED ESSA accountability indicators?
- What does the data suggest regarding the effectiveness (or ineffectiveness) of current school programs, practices, and/or strategies/initiatives? What areas may need to be strengthened?
- Are there any differences in student performance between program delivery models for ML/ELL and SWD? (e.g., for special education: special class, ICT, SETSS, related services only; for ML/ELL: Transitional Bilingual Education (TBE) vs. Dual Language, etc.)
- How does delivery of instruction factor into data trends? What are the implications for teacher quality and professional learning?
- What inequities in special education referral and school disciplinary practices (e.g. suspensions, removals) are evident between student subgroups with IEPs?

3. Identify Root Cause(s): After analyzing the data, engage in a process for uncovering root causes or contributing factors for low student and school performance. Develop theories or hypotheses to explain

why these needs exist and why your school is getting its current outcomes. Root causes could be related to gaps and inequities in areas such as curriculum & instruction, school systems & structures, student support services, school climate & safety, and family & community engagement. Focus on the causes, rather than the symptoms. Use the 5 Whys Method or other methods for identifying root causes. Consider the questions below:

- What theories or hypotheses explain the current student and school outcomes?
- Are there root causes specific to certain subgroups, grades, cohorts, or content area(s)?

Additional resources and supports are available below.

- Use this CEP Needs Assessment Worksheet to help your SLT and stakeholders identify appropriate data sources, data trends, root causes and priority needs.
- For guidance and best practices on engaging stakeholders in a comprehensive needs assessment and root cause analysis, see this deck.
- A current list of all CEP/Title I resources can be found on the iPlan Portal Public Resources Page.

Section 3: CEP SLT/Stakeholder Signature Page

School Leadership Team (SLT) Signature Page

All School Leadership Team (SLT) members are expected to sign this page to confirm their participation in the development of this Comprehensive Education Plan (CEP) and that they have been consulted regarding the alignment of the school-based budget to support this school's educational program, which includes annual goals and action plans, Multi-Tiered Systems of Support (MTSS), the Parent and Family Engagement Policy (PFEP) and the School-Parent Compact (SPC). The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with Chancellor's Regulation A-655. The SLT also serves as the Core Community Engagement Team (CET) for Receivership Schools. Additional information and resources are available on the School Leadership Team Resources page. Under the Federal Every Student Succeeds Act (ESSA), NYS Education Law and Commissioner's Regulations, stakeholder participation in the development of the CEP must include multiple constituencies who represent the school community. Note: Stakeholders participating in the development of the CEP who are not listed on the SLT page sign the section below entitled Additional Stakeholder Participation on CEP Development.

Directions: List the names of each SLT member in the first column on the chart below.

- Specify the position and constituent group represented, e.g., parent-PTA, staff-UFT, student. Note: Two student minimum required for high schools; SED requires Middle Schools identified for the CSI/ATSI/TSI support model to have student representation.
- Community Based Organization (CBO), and any position held by the team member. Core mandatory SLT members are indicated by an asterisk*. Note: The Core SLT members also serve as the CET for Receivership schools.
- SLT members should review this document and sign in the Signature If an SLT member does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of SLT member indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.
- Schools may modify their SLT bylaws as needed to address additional school and/or ESSA requirements for stakeholder engagement.

SLT Member Name	Position and Constituent Group Represented	Signature
Robert Aiello	Principal or Designee*	
Robin Gould	United Federation of Teachers (UFT) Chapter Leader or Designee*	
Michael Martizano	Parents' Association (PA)/Parent-Teach Association (PTA) President or Designated Co-President*	
Ramona Toledo	District Council 37 (DC 37) Representative (staff), if applicable	
Emily Ng	Title I Parent Advisory Council Chairperson (or alternate)	
N/A	Student Representative (Required for middle and high schools)	
N/A	Student Representative (Required for middle and high schools)	
Tyler Rood	CBO Representative, if applicable	
Donald Doyle	Member/Teacher	
Christina Schiro	Member/Teacher	
Genny Martinez-Campos	Member/Parent	
Emily DeVilla	Member/Parent	
Emily Ng	Member/Parent	
Bridget Ruggiero	Member/Admin	
Maria Florencia Ghiso	Member/Parent

N/A	N/A	

Additional Stakeholder Signature Page

Directions: Stakeholders participating in the development of the CEP who are not listed on the SLT page may sign below. Additional stakeholders may include, but not be limited to, school and district leaders, school staff, parents/families/guardians, students, community organizations, additional Core Community Engagement Team (CET) members (if applicable), members of the School Implementation Team (SIT), and/or school-based staff development committee that serves as the Instructional Leadership Team (ILT) tasked to improve instructional practice across the school. Go to NYSED's guidance on Assembling Your Team to learn more.

- List the names of additional stakeholders in the first column on the chart below.
- Specify the individual's position and constituent group represented.
- Stakeholders should review this document and sign in the Signature column. If the stakeholder does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of the additional stakeholders indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.

Section 4: School Summary

Accountability Status

Accountability Status: **LSI**

School Summary

Directions: Complete this CEP Summary to serve as the "at-a-glance" narrative that provides contextual information about your school's unique characteristics. This summary and the entire Comprehensive Education Plan (CEP) should be shared with your school community. Please note that this summary and the CEP will be made available to the public through the iPlan Portal, an online space where school stakeholders can go to collaborate in the development of the school's education plans.

Provide your school's mission statement:

Our Mission at P.S. 7 Queens is to create an environment that addresses the needs of our entire school community. All students, faculty, parents and members of the community will work collaboratively to achieve optimum learning for everyone. We will accomplish this by customizing instruction for our differentiated learners through standards-based practices embedded in the Next Generations Standards Curriculum that will ensure success for all.

Develop a narrative summary that includes contextual information about your school's community and its unique/important characteristics and partnerships:

Include demographic information about your school's student population.

Our vision at P.S. 7 Queens is to create a school community where teachers are instructional leaders, who work collaboratively in a risk-free learning environment that is safe, stimulating, and challenging. Our learning community will enable our students to take their places as active and responsible members of our society and the world, embracing the cultural privileges of American citizenship while retaining pride in their ethnic heritage. Our mission is to organize and utilize all resources to address the needs of our entire school community. All students, faculty, parents, and members of the community will consistently achieve optimum learning for everyone through reflective dialogue and shared best practices. We commit to this endeavor by focusing on each student and customizing differentiated instruction that is based on standards and integrated in the arts and technology to ensure academic excellence for all of our students.

Briefly summarize the key initiatives your school will implement this school year.

Key initiatives our school had implemented this school year is the implementation of the HMH Into Reading literacy curriculum and strengthening practices in the K-2 Fundations program.

HMH Into Reading program reflects the most conclusive reading and writing research and evidence-based effective classroom practices. Authored by leaders in the field, Into Reading is built upon the Science of Reading, a foundation of research proven to be effective in raising student achievement.

Fundations systematically and comprehensively instructs students in phonemic awareness and word study (both phonetic and high frequency/sight words) and contributes greatly to fluency, vocabulary development, and the applications of strategies for understanding text.

What are the primary digital and/or print curricula/programs used for ELA and Math:

Indicate the content area, grade band and any adaptations made.

Content Area (Indicate ELA and Math Only)	Grade Band	Digital and/or Print Curricula/Program	Adaptations
ELA	K-5	HMH Into Reading Program	Digital and Print
Math	K-5	Envision Math	Digital and Print
Phonics	K-3	Wilson Fundations	Digital and Print
Phonology	K-2	Heggerty	Print

Section 5: Priority 1 – All students learn to read well

Priority 1 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Student trends indicate that by the end of the 2025–2026 school year, there was a 14% increase—from 46% to 60%—in the percentage of kindergarten students performing at or above the benchmark for the Acadience Reading Composite Score, based on Acadience Reading assessment data. These programs have contributed to building a strong foundation in phonics, which is critical for early reading success.	A root cause of the need to strengthen literacy in the lower grades could be insufficient early exposure to systematic and explicit phonics instruction. Students enter kindergarten with varying literacy skills due to differences in the quality of their early childhood education experiences. Inconsistencies in instructional practices across classrooms and grade levels	Continuing to strengthen literacy in the lower grades by focusing on phonic skills using the Fundations and Heggerty programs is a high leverage priority need identified by our school. By addressing this need, we aim to advance equity and achieve measurable, positive impacts on student outcomes. These programs are designed to build a strong foundation in phonics, which is critical for early reading success. Ensuring

Ensuring all students have access to high-quality phonics instruction will help close achievement gaps and provide every student with the tools they need to become proficient readers.	further contribute to unequal literacy foundations. Additionally, limited professional development for teachers in evidence-based phonics methods impacts the consistency and effectiveness of instruction.	that all students, regardless of their background, have access to high-quality phonics instruction will help close achievement gaps and provide every student with the tools they need to become proficient readers.
N/A	N/A	N/A
N/A	N/A	N/A

Priority 1

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for literacy outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Literacy

- Implement the strategies outlined in NYC Reads, including foundational phonics curriculum for grades K-2
- Implement dyslexia screening, professional learning, and program pilots (as applicable)
- Support literacy development through the integration of culturally responsive-sustaining texts and content

Priority 1 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	42.4%	By June, 2026, literacy for All Students will improve, as measured by a 5% Increase, from 42.4% to 47.4%, of percentage of K-2 students scoring at or above the benchmark on the Acadience Reading.
Students with Disabilities (SWD)	25.8%	By June, 2026, literacy for Students with Disabilities (SWD) will improve, as measured by a 5% Increase, from 25.8% to 30.8%, of percentage of K-2 students scoring at or above the benchmark on the Acadience Reading.
English Language Learners (ELL)	23.3%	By June, 2026, literacy for English Language Learners (ELL) will improve, as measured by a 5% Increase, from 23.3% to 28.3%, of percentage of K-2 students scoring at or above the benchmark on the Acadience Reading.

Priority 1 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

Enter Period 3: End of Year (EOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

28.3%

Priority 1 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

At PS7Q, we are committed to strengthening literacy in our lower grades by focusing on phonics skills through the implementation of the Fundations and Heggerty programs. Recognizing that a strong foundation in phonics is essential for early reading success, we will ensure these research-based programs are delivered consistently and effectively across all K-2 classrooms.

To achieve this, our teachers will receive comprehensive professional development and ongoing coaching to build their capacity in using Fundations and Heggerty with fidelity. Regular use of Acadience Reading assessments will allow us to monitor student progress closely, identify those who need additional support, and adjust instruction to meet individual needs.

In addition to classroom instruction, we will engage families by offering workshops and resources that empower parents to support phonics practice at home, strengthening the connection between school and home learning environments.

Teachers will collaborate during grade-level planning sessions to share best practices, analyze student data, and design targeted interventions to address varied learner profiles. We will also ensure that classrooms are equipped with all necessary instructional materials, providing students with the tools they need to develop strong phonics skills.

Through these combined efforts, we aim to increase the percentage of kindergarten students performing at or above the Acadience Reading benchmark significantly, closing achievement gaps and fostering equitable literacy outcomes for all students.

Root Cause Addressed:

The root cause is addressed by implementing a consistent, school-wide approach to phonics instruction through the Fundations and Heggerty programs, which provide explicit, systematic, and evidence-based teaching of foundational reading skills. By offering targeted professional development and ongoing coaching, teachers enhance their instructional practices to ensure fidelity and effectiveness. Regular use of formative assessments like Acadience Reading helps identify students' needs early, allowing for timely interventions. Additionally, engaging

families with workshops and resources supports literacy development beyond the classroom, helping to mitigate disparities caused by varied home literacy environments. Together, these strategies reduce instructional inconsistencies and build strong literacy foundations, addressing the underlying causes of uneven early reading skills.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Facilitate PD for teachers, AIS, and ENL staff on the characteristics of dyslexia, using early screening data, and structured literacy interventions.
Appoint a literacy point-person to lead implementation of NYC Reads-aligned practices and serve as a liaison with district dyslexia initiatives.
Student-Facing Actions: Small-group phonics instruction will be delivered in K–2 classrooms using the Fundations program, tailored based on Acadience Reading data to target students' specific skill gaps. This targeted instruction will focus on explicit, systematic phonics skills to build foundational reading abilities. Additionally, supplemental phonemic awareness activities using Heggerty will support early literacy development.
Professional Learning for Staff: Teachers and instructional aides will participate in ongoing professional development focused on evidence-based phonics instruction using Fundations and Heggerty. Training will include modeling lessons, data analysis to inform instruction, and collaborative planning time.
Rollout and Introduction: The action steps will be introduced at the start of the school year through professional development sessions and teacher planning meetings. Small-group instruction schedules will be developed by grade-level teams, with continuous monitoring and adjustments based on Acadience data at BOY, MOY, and EOY checkpoints. Regular coaching and support will be provided to ensure fidelity of implementation.

Key Strategy 2 (Optional):

NA

Root Cause Addressed:

NA

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

NA

Priority 1 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/08/2025	06/27/2026	Parent Town Hall Meetings	Maspeth Town Hall
09/08/2025	06/27/2026	Phonics Support Workshops: Offer regular workshops for families focused on understanding phonics instruction and how to support their children's literacy development at home using Fundations and Heggerty strategies. Take-Home Resources: Provide families with take-home materials and activities aligned with classroom phonics lessons to reinforce skills outside of school. Communication: Use newsletters, school websites, and parent-teacher conferences to share progress updates and tips for supporting early literacy. Community Partnerships: Collaborate with local libraries and literacy organizations to host family literacy events and provide access to additional resources.	Instructional Coaches

Priority 1 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

PS7Q will leverage the expertise of a full-time Single Point of Contact (SPOC) to coordinate literacy initiatives and serve as a liaison between staff, families, and external partners. This role is essential for ensuring cohesive implementation and communication. Additionally, literacy coaches will provide targeted support through instructional modeling, professional development, and data analysis to guide teaching practices. Grade-level teachers in K–2 are critical human resources, delivering daily phonics instruction and utilizing assessment data to inform instruction. Instructional resources include the Fundations and Heggerty programs, which provide the structured curriculum and materials needed for effective phonics and phonemic awareness instruction. Together, these human and instructional resources form a comprehensive support system aligned with the action plan to strengthen literacy outcomes.

Instructional Resources

The school will utilize evidence-based phonics programs such as Fundations and Heggerty to provide systematic, explicit phonics instruction. Google Classroom will support instructional delivery, communication, and sharing of resources with students and families. Supplemental materials for phonics and literacy instruction will also be used to reinforce learning.

Schedule Adjustments

No major schedule changes are anticipated; however, time will be allocated during professional development sessions and grade-level collaboration meetings to focus on literacy coaching, data review, and planning targeted interventions.

Other Resources Needed

Additional professional development focused on effective phonics instruction and culturally responsive teaching strategies will be sought to enhance teacher capacity. Family engagement materials and translation services will be needed to support communication and workshops for diverse families. Funding may be explored to support these additional training and family outreach efforts.

Section 5: Priority 2 – All students are physically and emotionally safe

Priority 2 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Analysis of the 2024–2025 OORS Report and the 2024–2025 End of Year (EOY) Acadience data reveals a positive trend in early literacy development. Specifically, there was a 14% increase in the percentage of kindergarten students performing at or above the benchmark on the Acadience Reading Composite Score, rising from 46% at the	Behavioral challenges impacting student learning can stem from unmet emotional or social needs, unstable home environments, undiagnosed learning differences, and insufficient positive behavioral supports at school. These factors contribute to disruptions in learning and hinder students' ability to engage effectively in academic tasks. Addressing these root	Continuing to strengthen literacy in the lower grades by focusing on phonic skills using the Fundations and Heggerty programs is a high leverage priority need identified by our school. Student surveys indicate that when students feel physically and emotionally safe, they are more engaged and perform better academically. Data collected on student behaviors and actions show that a supportive and nurturing environment positively impacts their learning. By ensuring all students receive attention and care, and by

beginning of the year to 60% by EOY. This upward trend indicates measurable progress in foundational reading skills, likely influenced by targeted phonics instruction and intervention strategies.	causes requires a comprehensive approach that includes supportive school environments, targeted interventions, and collaboration with families to foster a positive learning experience for all students.	addressing their emotional and physical safety, we can create an optimal learning environment. This approach, combined with a strong focus on phonics, will help close achievement gaps and improve literacy outcomes for all students.
N/A	N/A	N/A
N/A	N/A	N/A

Priority 2

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for physical and emotional safety** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Physical and Emotional Safety

- Develop safety infrastructure and systems, including staff training, collaboration with external partners, and implementation of safety and security best practices
- Expand social emotional and mental health supports via restorative justice, Project Pivot, screeners, and other district or school-based initiatives (as applicable)
- Expand implementation of physical and mental wellness supports, including Physical and Health Education that meets NYSED requirements and related initiatives
- Improve supports and outcomes for socially vulnerable student populations (Students in Temporary Housing, Students in Foster Care)

Priority 2 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	84	By June, 2026, physical and mental wellness for All Students will improve, as measured by a from 84 to 87.5 Increase, in Physical and mental wellness from 84 to 2.5% , per the Online Occurence Reporting System (OORS).

Priority 2 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

OORS (Online Occurrence Reporting System)

Priority 2 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

By June 2026, P.S. 007 will improve student physical and mental wellness, increasing the percentage of students who can distinguish between conflict and bullying from 84% to 87.5%, and reducing bullying, intimidation, and bias-based harassment incidents by at least two, as measured by OORS.

To achieve this, the school will strengthen Tier 1 social-emotional supports through weekly SEL morning meetings using Second Step and Sanford Harmony. Monthly guidance lessons will focus on conflict resolution and bullying prevention, reinforced during Respect for All Week and other schoolwide initiatives.

A Student Equity & Wellness Leadership Group will be formed to promote student voice, lead assemblies, and gather peer feedback through surveys and safe space circles. Staff will receive professional development in trauma-informed practices and restorative approaches to strengthen classroom culture.

Family workshops will support mental wellness and bullying awareness at home.

Specific supports and outreach strategies will be implemented for Students in Temporary Housing and Foster Care, including prioritized access to counseling services, targeted social-emotional learning groups, and regular check-ins by dedicated staff to ensure their needs are met within the MTSS framework.

At-risk students, including those in temporary housing or foster care, will be monitored through an MTSS system, with access to counseling and small group interventions as needed.

Progress will be monitored using OORS reports, student surveys, and behavior data, ensuring all students feel safe, supported, and ready to learn.

Root Cause Addressed:

The root cause—behavioral challenges stemming from unmet emotional needs, unstable home environments, and inconsistent behavioral supports—has been identified through an increase in behavioral incidents reported in the OORS data, dips in student attendance, and survey results indicating students' feelings of emotional distress and disengagement.

P.S. 007 will address these challenges through a comprehensive, schoolwide approach that prioritizes early intervention, consistent SEL instruction, and strong student-staff relationships.

To expand Tier 1 SEL instruction, the school will implement structured weekly morning meetings focused on emotional regulation and relationship-building. To ensure timely support for students struggling with behavior or emotional regulation, a Multi-Tiered System of Supports (MTSS) will be used, leveraging behavioral data, attendance patterns, and counseling referrals to guide targeted interventions.

All staff will engage in professional development on restorative practices, trauma-informed instruction, and de-escalation strategies to promote consistent responses to behavioral challenges across classrooms. At-risk students will receive individual or small group counseling, check-in/check-out supports, and structured mentoring to meet their emotional and social needs.

The school will also strengthen partnerships with families through parent workshops and regular communication, equipping caregivers to recognize signs of emotional distress and support their children effectively at home. Student leadership opportunities, such as participation in the Equity & Wellness Leadership Group, will empower students to contribute to a positive school culture and support their peers.

Through these integrated supports, P.S. 007 will create a more inclusive, emotionally safe learning environment that proactively and equitably meets students' needs.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Implement Weekly Social-Emotional Learning (SEL) Lessons Across All Grades Teachers will facilitate structured SEL morning meetings using programs like Second Step and Sanford Harmony to build students' emotional awareness, conflict resolution skills, and empathy, helping to reduce behavioral incidents and foster a positive classroom environment. Additional components include: Staff Professional Development: Educators will participate in ongoing training on SEL implementation, trauma-informed practices, and strategies for integrating SEL into daily instruction to ensure fidelity and effectiveness. Family Engagement Workshops: Workshops will be offered to families to increase understanding of SEL concepts, provide tools to support social-emotional growth at home, and strengthen home-school connections. Student Leadership Initiatives: Student leadership groups will help reinforce SEL themes by organizing peer mentoring, leading classroom activities, and promoting a culture of respect and empathy throughout the school. These combined efforts will support the development of a safe, supportive, and emotionally intelligent school community.
Launch an MTSS Behavior Support System The school will establish a behavior-focused Multi-Tiered System of Supports (MTSS) to identify and support students with repeated behavioral challenges through check-ins, small group counseling, and regular progress monitoring by the SEL team. Additional components include: Staff Professional Development: All staff will receive training in restorative practices, trauma-informed approaches, and de-escalation strategies to ensure consistent, effective behavioral support across classrooms. Family Engagement Workshops: The school will offer workshops for families focused on understanding behavioral challenges, promoting social-emotional wellness at home, and partnering with the school to support student success. Student Leadership Initiatives: Student groups, such as the Equity & Wellness Leadership Group, will be empowered to lead peer support

efforts, promote positive school culture, and provide feedback on behavioral supports. Together, these coordinated actions will create a comprehensive, schoolwide approach to improving student behavior and emotional well-being.

Key Strategy 2 (Optional):

NA

Root Cause Addressed:

NA

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
NA

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

The school will monitor implementation of key strategies through regularly scheduled SEL and MTSS team meetings, grade team meetings, and administrative walkthroughs. The SEL team, consisting of administrators, guidance counselors, and the social worker, will meet monthly to review behavioral data, OORS incident reports, and student

referral trends to assess the effectiveness of SEL lessons, restorative practices, and intervention supports.

Classroom implementation of SEL lessons will be monitored through teacher reflection logs, lesson plans, and informal observations during morning meetings. To ensure consistency and fidelity, a SEL implementation rubric will be used during observations and walkthroughs to evaluate the quality and adherence to the SEL curriculum and instructional practices. The guidance team will also collect pre- and post-surveys from students after monthly lessons to assess understanding of topics such as conflict resolution and bullying prevention.

The MTSS team will use a digital tracker to document Tier 2 and Tier 3 interventions, including counseling check-ins and behavior support plans, and will review student progress biweekly. OORS data will be analyzed quarterly to determine trends in bullying and behavior-related incidents.

Progress will be measured by a reduction in OORS incidents, increased student knowledge (as measured by surveys), and staff fidelity to SEL implementation as measured by the rubric—ensuring a safe, respectful, and emotionally supportive learning environment.

Priority 2 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/08/2025	06/27/2026	Focused Town Halls: Regular town hall meetings will be held with a focus on literacy and social-emotional learning goals, providing families with updates on progress, sharing strategies to support student learning at home, and offering opportunities for questions and feedback to strengthen school-family partnerships.	Maspeth Town Hall
09/08/2025	06/27/2026	Family Workshops: Workshops will be offered throughout the year on topics such as phonics support, social-emotional wellness, bullying prevention, and trauma-informed parenting to empower families with practical tools and knowledge. Culturally Responsive Events: The school will host events that celebrate cultural diversity and promote inclusivity, helping to build a welcoming community where all families feel valued and connected. Supports for Multilingual Families and Students in Temporary Housing: Communication and materials will be provided in multiple languages, and targeted outreach will be conducted to ensure families who are multilingual or experiencing temporary housing have access to all engagement opportunities. This includes offering translation services during events and connecting families with community resources.	Instructional Coaches

Priority 2 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

P.S. 007 will leverage the expertise of guidance counselors, social workers, the assistant principal, and classroom teachers to implement SEL lessons, restorative practices, and targeted interventions. The SEL team and MTSS coordinators will dedicate time for regular data review and progress monitoring to ensure ongoing responsiveness to student needs. Additionally, partnerships with external mental health providers and district equity specialists will be intentionally integrated into school routines and professional development. Mental health providers will collaborate with staff through co-facilitated training sessions, classroom consultations, and participation in MTSS meetings to align interventions with students' social-emotional needs. District equity specialists will support staff professional learning focused on culturally responsive practices and equity-centered restorative approaches, reinforcing the school's commitment to an inclusive and supportive environment. These collaborations will also extend to family engagement efforts, providing specialized workshops and resources that complement school-based supports and promote holistic student well-being.

Instructional Resources

Materials for Respect for All Week and anti-bullying campaigns, including print resources and multimedia, will be provided to support awareness and positive school culture. To monitor progress, student perception surveys will be administered using tools such as Panorama Education or Google Forms, allowing for consistent collection of feedback on topics like bullying, school climate, and social-emotional learning. For tracking MTSS interventions and student progress, the school will utilize the SWIS (School-Wide Information System) platform, ensuring systematic documentation of behavioral data, attendance, and intervention outcomes to guide decision-making and support.

Schedule Adjustments

Time will be explicitly allocated within the weekly schedule for SEL morning meetings and monthly guidance lessons focused on bullying prevention and social-emotional skills, ensuring these remain protected and prioritized throughout the school year. Additional time during staff professional development days will be reserved for ongoing training on restorative practices, trauma-informed instruction, and effective SEL implementation to build staff capacity and consistency. Flexible scheduling will be maintained to accommodate small group counseling and check-in/check-out supports without disrupting core instructional time. To support consistent practice, staff will receive coaching and feedback through instructional walkthroughs, reflection sessions, and collaborative planning, fostering a shared commitment to a positive and supportive school climate.

Other Resources Needed

The school anticipates the need for additional funding to support family engagement workshops, including professional translation services during all events and translated materials to ensure meaningful participation from multilingual families, especially those with English Language Learners (ELL) and vulnerable student populations such as students in temporary housing or foster care. Multilingual outreach will include targeted communication through phone calls, texts, and culturally relevant community liaisons to connect with families and remove language barriers. Materials will be provided in families' home languages, and interpretation support will be available during workshops and meetings. Additionally, as the restorative justice program expands, the school may request additional training resources or consultants to support culturally responsive practices and effective communication with diverse families.

Section 5: Priority 3 – All students have a high-quality academic experience

Priority 3 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
MAP Math Screener	A root problem affecting the implementation of high-quality math instruction aligned with CRSE principles could be insufficient training and support for educators in effectively integrating both rigorous math content and culturally responsive practices. Teachers may lack professional development opportunities	Ensuring all students have a high-quality academic experience involves aligning instruction with New York State standards and utilizing a robust math curriculum. By June 2026, the percentage of students in grades K–5 performing at or above grade level in math, as measured by the MAP screener, will increase from 36% to 41% through the

	focused on combining standards-based math instruction with CRSE strategies that address diverse student needs and backgrounds. Additionally, limited access to culturally relevant math instructional materials and curriculum adaptations may hinder the full implementation of CRSE in math classrooms. Institutional barriers or resistance to change within school or district leadership could further impede efforts to strengthen math instruction while ensuring all students, including English Language Learners and culturally diverse populations, have a meaningful voice and connection to their learning.	implementation of targeted MTSS interventions and biweekly data-driven instructional planning. Integrating Culturally Responsive and Sustaining Education (CRSE) throughout math instruction ensures that every student has a voice in their learning, promoting inclusivity and relevance in the curriculum. This approach is particularly beneficial for English Language Learners (ELLs), as it recognizes and values their cultural backgrounds and provides meaningful connections to their learning experiences. By incorporating CRSE, educators can create a supportive environment where ELL students feel valued, understood, and empowered in their academic journey.

Priority 3

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for high-quality academics** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Academics

- Strengthen mathematics instruction, including via screener administration and Multi-Tiered Systems of Support (MTSS)
- Embed culturally responsive-sustaining texts and content (e.g., Hidden Voices, Black Studies Curriculum, etc.) in history, literature, and arts curricula to deepen civic engagement, enhance understanding of diverse cultures and provide relevant and affirming interventions in literacy development
- Ensure multilingual language learners (MLLs) are served and progressing in appropriate settings; expand bilingual programming and professional learning for educators who support MLLs
- Ensure students with disabilities are served and progressing in the least restrictive and most appropriate settings; improve delivery of mandated services and expand specialized programs
- Ensure that Students in Temporary Housing (STH) and Students in Foster Care access opportunities to receive tutoring and are purposefully engaged in new programs developed in the school
- Elevate health and physical education and activities for a reimagined and engaged student academic experience promoting social, emotional, and physical wellness and wellbeing
- Ensure teachers attend Physical Education and Health Education professional learning in order to provide quality instruction to be able to support and address the physical, mental, social, and emotional needs of the whole child in a safe and supportive learning environment
- Strengthen Early Childhood Education program utilization, quality, and ability to serve all students
- Elevate arts and civics for a reimagined and more engaged student academic experience
- Increase school staff diversity and retention
- Create new programs/schools in response to community need; expand high quality seats

Priority 3 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	36%	PS7 will address Priority 3: All students have a high-quality academic experience with the following SMART Goal: By June, 2026, the percentage of students performing at or above grade level proficiency will Increase by 5% from 36% to 41%, for All Students, as measured by MAP Math Screener.
Students with Disabilities (SWD)	33%	PS 7 will address Priority 3: All students have a high-quality academic experience with the following SMART Goal: By June, 2026, the percentage of SWD students scoring at or above grade-level proficiency will Increase by 5% from 33% to 38%, for Students with Disabilities (SWD), as measured by MAP Math Screener.
English Language Learners (ELL)	30%	PS 7 will address Priority 3: All students have a high-quality academic experience with the following SMART Goal: By June, 2026, the percentage of ENL students scoring at or above grade-level proficiency will Increase by 5% from 30% to 35%, for English Language Learners (ELL), as measured by MAP Math Screener.

Priority 3 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 3 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

By June 2026, PS7 will implement targeted instructional strategies and support systems to strengthen Tier I math instruction for all students. Teachers will receive professional development on effective, CRSE-aligned math instruction and strategies for differentiating instruction to meet the diverse needs of learners. The school will use data from Math MAP Screener assessments and interim math assessments to identify students who need additional support, providing timely interventions through MTSS, including small group math instruction and differentiated resources.

Collaboration among classroom teachers, math specialists, and families will be emphasized to ensure that math instruction is culturally relevant, accessible, and aligned with students' academic needs. Regular progress monitoring using the Math MAP Screener will inform instructional adjustments and guide the closing of achievement gaps in mathematics for all students.

Root Cause Addressed:

The root cause of the gap in math proficiency stems from inconsistent implementation of high-quality Tier I math instruction across classrooms. This includes limited teacher capacity to effectively differentiate math instruction to meet the diverse needs of all students and insufficient use of data to guide instructional decisions. As a result, students are not receiving the targeted, rigorous math instruction necessary for academic success. There is also a need to strengthen the integration of culturally relevant and sustaining education (CRSE) practices in the math curriculum to ensure all students, regardless of background, are fully engaged and supported in their learning.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Provide Professional Development on CRSE-Aligned Math Instruction and Differentiation Offer ongoing professional development for math teachers focused on integrating Culturally Responsive and Sustaining Education (CRSE) practices into math instruction. Training will emphasize differentiating math lessons to meet the needs of diverse learners, including strategies for adapting content, processes, and assessments. Teachers will also receive guidance on creating culturally relevant math tasks that engage students and reflect diverse perspectives.
Establish Co-Planning and Coaching Cycles for Math Teachers Set up structured co-planning or coaching cycles for math teachers to collaboratively analyze student data, plan targeted small-group math instruction, and design differentiated math tasks. These sessions will support teachers in using formative data (e.g., Math MAP Screener) to identify student needs and adjust instruction to close learning gaps. Regular collaboration will ensure consistent application of high-quality, data-driven math instruction.
Implement MTSS and Intervention Strategies for Math Proficiency Gaps Develop and implement a Multi-Tiered System of Supports (MTSS) focused on math proficiency. Teachers will utilize data from assessments, including the Math MAP Screener, to identify students requiring additional support. MTSS strategies will include small-group instruction, targeted interventions, and the use of digital tools or resources designed to address specific math skills and concepts. Teachers will be provided with ongoing support to ensure interventions are effectively addressing math proficiency gaps.

Key Strategy 2 (Optional):

NA

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To effectively monitor the implementation of strategies aimed at providing all students with a high-quality mathematics academic experience, PS7 will utilize a variety of structures and data sources. One key component of this monitoring will be the regular tracking of student performance on math assessments, including the MAP Math Screener and NYS Math Exam. These assessments will provide valuable data on the progress of all students, with specific targets for different groups. For instance, the percentage of all students performing at or above grade level proficiency is expected to increase by 5% (from 36% to 41%) by June 2026, while students with disabilities (SWD) will see a similar 5% increase (from 33% to 38%), and English language learners (ELL) will also aim for a 5% increase (from 30% to 35%). The data from these assessments will be analyzed quarterly to assess overall growth, identify trends, and track whether instructional strategies are effectively supporting student achievement.

Classroom walkthroughs will also be a critical part of the monitoring process. These walkthroughs will be conducted regularly by instructional leaders to assess the fidelity of math instructional shifts, specifically focusing on how well teachers are implementing Culturally Responsive and Sustaining Education (CRSE) practices and differentiating math instruction to meet the needs of diverse learners. The walkthroughs will focus on the integration of CRSE-aligned math tasks, small-group math instruction, and differentiation strategies. A rubric will guide these observations, allowing leaders to provide feedback to teachers and ensure that math lessons are both inclusive and responsive to the needs of all students. The goal is to ensure that all students, regardless of background, have access to engaging and rigorous math instruction.

Additionally, PS7 will monitor the effectiveness of MTSS (Multi-Tiered System of Supports) and small-group interventions aimed at addressing math proficiency gaps. Data from these interventions will be collected regularly to track the progress of students receiving targeted support. This includes monitoring Tier 2 and Tier 3 interventions designed for students who are struggling with math skills. Teachers and interventionists will track student progress through pre- and post-assessments, adjusting interventions as necessary to ensure that students are moving toward grade-level proficiency. This data will be particularly important for monitoring progress among students with disabilities (SWD) and English language learners (ELL), who may require more targeted interventions to close achievement gaps.

To ensure that instruction is continuously improving, PS7 will also engage in regular data review meetings. These meetings will involve instructional leaders, math coaches, and classroom teachers analyzing data from the MAP Math Screener, classroom observations, and small-group interventions. The purpose of these meetings will be to assess whether instructional practices are effectively supporting student growth and to make necessary adjustments. Teachers will collaborate to refine instructional strategies, share best practices, and align their teaching with the school's CRSE-aligned math goals. These ongoing discussions will allow the school to be responsive to student needs and ensure that instructional adjustments are made to optimize student success.

In summary, PS7's monitoring plan will focus on tracking student performance data, conducting regular classroom walkthroughs, using data from MTSS interventions, and engaging in ongoing collaborative data reviews. These efforts will allow the school to closely monitor progress toward its SMART goals and ensure that all students, including SWD and ELL students, receive high-quality math instruction that supports their growth and achievement.

Priority 3 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/08/2025	06/27/2026	Parent Workshops on Math Shifts	Instructional Coaches, and Administrators

Priority 3 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

To support the implementation of this action plan and achieve the annual math proficiency goal, PS7 will leverage key resources including math teachers, specialists, instructional coaches, and special education/ENL teachers to deliver targeted support and professional development on differentiated math instruction. The core math curriculum (EnVisions Math) will be used alongside NWEA MAP Math assessments to track student progress and identify areas for intervention. Teachers will receive ongoing professional development focused on CRSE-aligned math practices, while data systems like MAP Growth dashboards will track student progress and guide instruction. To address specific learning gaps, small-group intervention blocks and additional math intervention resources will be provided. Scheduled collaborative planning time will ensure continuous instructional improvements, while technology tools and differentiation resources will support diverse learners.

Instructional Resources

To support the implementation of this action plan and achieve the annual math proficiency goal, PS7 will leverage key resources including math teachers, specialists, and instructional coaches to deliver targeted support and professional development on effective math instruction. The core math curriculum (EnVisions Math) will guide daily instruction, while NWEA MAP Math assessments will be used to track student progress and identify areas for targeted intervention. Teachers will participate in professional development focused on best practices for math instruction, differentiation, and data-driven teaching. Math intervention tools and resources will be used to provide small-group instruction, particularly for students who are struggling to meet grade-level expectations. Collaborative planning time will be allocated for teachers to analyze data, adjust instruction, and ensure alignment with math goals. Additionally, digital math tools and resources for differentiated instruction will support diverse learners and help bridge achievement gaps.

Schedule Adjustments

To support the implementation of this action plan, PS7 will make key schedule adjustments to ensure that math instruction is effective and targeted to student needs. Dedicated planning time will be scheduled for math teachers to collaborate with instructional coaches and specialists, focusing on analyzing student data from NWEA MAP Math assessments and planning differentiated math lessons. Small-group intervention blocks will be built into the schedule to provide additional support for students who need targeted instruction to close math proficiency gaps. This will include Tier 2 and Tier 3 interventions, with specific time allocated for students to receive focused math instruction. Additionally, teachers will have time to engage in co-planning cycles to ensure alignment with the curriculum and adjust instruction based on student progress.

Other Resources Needed

To support the implementation of this action plan, PS7 may also require adaptive learning software and math manipulatives to enhance differentiated instruction and provide interactive, hands-on practice for students.

Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security

Priority 4 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:

1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.

2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?

3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
The data trends for K-5 students at PS7 reveal significant gaps in early financial literacy, career awareness, and exposure to college and career pathways. According to the most recent data from NYC Kids Rise (2024), only 20% of elementary students demonstrated basic financial literacy skills, with limited career exposure at this age	A key root cause for the low participation in the NYC Kids Rise Building Block program at PS7 is the limited awareness and understanding of the program's benefits among families, particularly in lower-	A measurable priority need in this case is to increase family engagement and participation in the NYC Kids Rise Building Block program at PS7. The goal is to raise the enrollment rate

level. Additionally, the percentage of families enrolled in the NYC Kids Rise Building Block program at PS7 is currently 40%, indicating that many families have yet to take advantage of resources aimed at improving financial literacy and college readiness. Root causes for these gaps include the lack of financial literacy integration into the K-5 curriculum, limited career exploration opportunities at the elementary level, and disparities in access to enrichment programs, especially for families who are not engaged in the NYC Kids Rise program. To address these issues, high-leverage priorities include integrating financial literacy into the K-5 curriculum, increasing participation in the NYC Kids Rise program, and providing age-appropriate career exploration activities. Additionally, enhancing professional development for teachers to incorporate career and financial education from an early age will be critical. A revised SMART goal is to ensure that by the end of the 2025-2026 school year, 75% of K-5 students will demonstrate foundational financial literacy, as measured by pre- and post-assessments, and 70% will have participated in at least one career exploration activity. Currently, 40% of families are enrolled in the NYC Kids Rise program at PS7, and the goal is to increase this participation by 20% by June 2026. These efforts will help advance equity and provide all students, particularly those from low-income backgrounds, with the tools and resources to succeed in their future academic and career pathways.	income communities. This can be measured by surveying families to assess their knowledge of the program, with an initial baseline survey showing that only 40% of families report being aware of the program and its benefits. Additional data could include tracking the number of families attending informational sessions or events about the program, as well as monitoring enrollment rates over time. Barriers such as language differences, busy work schedules, and unfamiliarity with how to access resources can be measured by conducting follow-up surveys to identify the specific challenges families face when trying to engage. For example, measuring the percentage of families who report language as a barrier, or the number of families unable to attend evening meetings due to work schedules, can provide actionable data to target solutions. These insights will help determine the most effective strategies to increase participation and ensure that families are more informed and better supported in accessing the program.	of families in the program from 40% to 45.2% by the end of the 2025-2026 school year. This will be tracked using school enrollment data and program participation records. To achieve this, the school will implement targeted strategies, including offering bilingual informational sessions, conducting outreach through multiple communication channels (e.g., text messages, phone calls, and community events), and providing flexible meeting times to accommodate parents' work schedules. Additionally, a follow-up survey will be administered to assess families' awareness of the program before and after these outreach efforts, with a target of increasing awareness by at least 25%. By measuring both the increase in enrollment and awareness, the school will be able to track the success of these strategies and adjust as needed to ensure equitable access to financial literacy resources for all students.

Priority 4

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for **college and career readiness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for College and Career Readiness

- Expand career pathways and work-based learning, opportunities for early college credit and industry credentials, and college/career advising and awareness, including via the Career Readiness Modern Youth Apprenticeship and FutureReadyNYC (as applicable)
- Schools serving students in early childhood, elementary, and middle school settings should consider how they expose students to and prepare them for advanced (Regents-level) coursework, Specialized High School Admission Test (SHSAT) preparation, college awareness, career studies, etc.
- Integrate historical and contemporary contributions of culturally diverse professionals, scholars, and entrepreneurs into career readiness programs, ensuring students see diverse pathways to success
- Incorporate lessons on wealth-building strategies, cooperative economics, and financial independence to equip students with tools for long-term economic security
- Ensure the implementation of specialized support programs tailored for Students in Temporary Housing and/or Foster Care, addressing their unique educational needs and challenges

Priority 4 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	40%	PS7 will address Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security with the following SMART Goal: By June, 2026, the percentage of students enrolled in NYC Kids Rise Building Block 1 for All Students will Increase by 5.2% from 40% to 45.2% as measured by NYC Kids Rise Building Block 1 Enrollment.

Priority 4 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 4 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

Progress toward college and career readiness will be measured using Acadience Reading and Math Assessments, NYS ELA and Math State Assessments (for applicable grades), and data from the 2025–2026 EOY STARS Report. These tools will provide consistent, measurable benchmarks at the Beginning-of-Year (BOY), Middle-of-Year (MOY), and End-of-Year (EOY) to monitor student growth in literacy and numeracy skills aligned to college and career readiness foundations. In addition, the school's social media platforms will be used to promote and highlight student engagement in financial literacy, career exploration, and academic achievement activities, serving as a tool to increase family awareness, celebrate progress, and strengthen the school-to-home connection around college and career readiness initiatives.

Enter a Key Performance Indicator

The key component indicator for this goal is Priority 4 – College, Career, and Civic Readiness. Progress will be tracked through measurable increases in student performance on Acadience Reading and Math Assessments, NYS ELA and Math State Assessments, and the 2025–2026 EOY STARS Report. Interim benchmarks (BOY, MOY, EOY) will reflect students' growth in literacy, numeracy, and readiness skills aligned to college and career foundations. Additionally, the school's social media outreach will serve as an engagement indicator, showcasing student participation in financial literacy, career awareness, and academic achievement activities to strengthen family involvement and visibility of college and career readiness efforts.

Baseline:

Based on the 2025–2026 EOY STARS Report and the most recent Acadience Reading and Math Assessments, 58% of K–5 students are currently meeting grade-level readiness benchmarks in literacy and math. This baseline will guide the establishment of measurable targets at Beginning-of-Year (BOY), Middle-of-Year (MOY), and End-of-Year (EOY) intervals to monitor progress toward college and career readiness.

Enter the date for the baseline data:

The baseline data of 58% of K–5 students meeting grade-level readiness benchmarks in literacy and math is based on the 2025–2026 End-of-Year (EOY) STARS Report and the most recent Acadience Reading and Math Assessments administered in June 2026.

Enter Period 1: Beginning of Year (BOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

By the Beginning of the 2025–2026 school year (BOY), the target is for 62% of K–5 students to meet or exceed grade-level readiness benchmarks in literacy and math, reflecting an initial 4-percentage-point increase from the baseline of 58% and establishing momentum toward end-of-year college and career readiness goals.

Enter Period 2: Middle Of Year (MOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

By the Middle of the 2025–2026 school year (MOY), the target is for 65% of K–5 students to meet or exceed grade-level readiness benchmarks in literacy and math, representing steady growth from the BOY target and ensuring continued progress toward the end-of-year college and career readiness goal.

Enter Period 3: End of Year (EOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

By the End of the 2025–2026 school year (EOY), the target is for 70% of K–5 students to meet or exceed grade-level readiness benchmarks in literacy and math, demonstrating measurable growth from the baseline and achieving the goal of preparing students with the foundational skills needed for college and career readiness.

Priority 4 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Implement personalized learning plans focused on accelerating literacy and math growth while integrating financial literacy and early career exploration. High-leverage actions include tiered interventions for students below benchmark, project-based learning activities that connect academic skills to real-world career and financial applications, and quarterly progress monitoring at BOY, MOY, and EOY using Acadience, NYS assessments, and the STARS Report. Specific student-facing activities will include financial literacy modules, career awareness projects, and goal-setting portfolios, with timelines aligned to each quarter to ensure consistent progress toward college and career readiness. Social media will be used strategically to engage families, celebrate student achievements, and increase awareness of available opportunities, ensuring equitable access for all student groups.

Root Cause Addressed:

The root causes hindering the goal of ensuring all students graduate college and career-ready include disparities in access to academic support and enrichment opportunities, particularly for multilingual learners, students with disabilities, and male students of color, as reflected in the 2025–2026 EOY STARS Report. These gaps limit consistent engagement and reduce exposure to foundational skills in literacy and math, as well as early financial literacy, career awareness, and college readiness experiences. By addressing these causes through personalized learning plans, targeted interventions, and structured opportunities for financial and career exploration, the school can provide equitable access to resources and experiences that directly support the SMART goal of increasing the percentage of students meeting grade-level benchmarks and developing essential college and career readiness skills.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Student-Facing Financial Literacy and Career Exploration Activities: Implement structured, grade-appropriate activities that provide students with early exposure to financial literacy, career pathways, and college awareness. This includes financial literacy modules, career exploration projects, and goal-setting portfolios integrated into personalized learning plans, with timelines aligned to BOY, MOY, and EOY benchmarks to track progress toward the SMART goal.
Professional Learning for Staff: Provide targeted professional development for teachers and support staff focused on integrating financial literacy, career awareness, and economic readiness into daily instruction. This training will equip staff with strategies to embed real-world applications into literacy and math lessons, differentiate instruction for students who need additional support, and ensure alignment with Priority 4 guidance.

Key Strategy 2 (Optional):

NA

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Implementation of the key strategies and action steps will be monitored through a combination of data collection, teacher feedback, and student work evidence to ensure alignment with Priority 4 – College, Career, and Civic Readiness.

Progress Monitoring Structures:

Quarterly assessment of student participation and proficiency in financial literacy modules, career exploration projects, and goal-setting portfolios.

Ongoing analysis of literacy and math growth using Acadience, NYS ELA & Math assessments, and the 2025–2026 EOY STARS Report to track academic readiness.

Student engagement tracking through project completion, classroom reflections, and social media highlights of college and career readiness activities.

Teacher Feedback and Professional Learning:

Regular feedback sessions with teachers following professional learning on integrating financial literacy and career awareness into instruction.

Feedback will be used to adjust supports, refine lesson plans, and enhance student-facing activities to ensure consistent implementation of Priority 4 strategies throughout the year.

Evidence of Impact:

Increases in the percentage of students meeting grade-level literacy and math benchmarks, as well as demonstrated growth in financial literacy, career awareness, and early college readiness skills.

Documentation of teacher implementation fidelity and student engagement will inform ongoing adjustments to instruction and enrichment opportunities.

This monitoring structure ensures that both academic and Priority 4-specific goals are consistently tracked, allowing the school to make data-informed decisions to improve student outcomes.

Priority 4 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/11/2025	06/26/2026	Family Workshops and Adult Learning Opportunities: Host workshops for families on financial literacy, high school pathways, career exploration, and early college awareness to build knowledge and capacity for supporting students at home. Offer flexible formats (in-person, virtual, and recorded sessions) and provide materials in families' home languages to ensure accessibility for ML/ELL and STH families.	Leverage local community-based organizations (CBOs), colleges, and career mentors to provide students with authentic exposure to careers, financial literacy programming, and college opportunities.
09/11/2025	06/26/2026	Family Engagement in Student Learning: Encourage families to participate in student-centered activities, such as reviewing goal-setting portfolios, attending career exploration events, and celebrating project-based learning outcomes, to reinforce college and career readiness skills at home.	Engage partners in student workshops, mentorship programs, and family engagement events to extend learning beyond the classroom and strengthen the home-to-school connection.

Priority 4 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Our experienced K–5 teachers, literacy coaches, math specialists, and instructional leaders will implement the personalized learning plans and targeted interventions outlined in the action plan, directly supporting students below benchmark and priority groups such as multilingual learners, students with disabilities, and male students of color. Interventionists and family engagement coordinators will provide additional support by monitoring student progress, facilitating financial literacy and career awareness activities, and strengthening home-school partnerships. Budgeted resources, including staff time, instructional materials, and program funding, are specifically allocated to ensure these high-leverage strategies are effectively implemented and aligned with the Priority 4 goal of college, career, and financial readiness.

Instructional Resources

The school will leverage a combination of staff, programs, and materials to implement the key strategies and achieve the Priority 4 goal. This includes: Staff: K–5 teachers, literacy coaches, math specialists, instructional leaders, interventionists, and family engagement coordinators to deliver targeted interventions, personalized learning plans, and student-facing financial literacy and career awareness activities. Programs: Financial literacy modules, career exploration projects, and goal-setting portfolios integrated into daily instruction and enrichment opportunities. Materials: Grade-level instructional resources, assessment tools (Acadience, NYS ELA & Math, STARS Report), and multilingual family engagement materials to ensure equitable access for priority student groups, including multilingual learners, students with disabilities, and male students of color.

Schedule Adjustments

Time will be allocated for small group instruction during the literacy and math blocks, with built-in periods for data analysis and collaborative planning among grade-level teams. Scheduled professional development sessions and family workshops will also be incorporated into the school calendar.

Other Resources Needed

Funding will be allocated to sustain career readiness initiatives and support equitable access for all students, including multilingual learners (MLs/ELLs) and students with disabilities (SWDs). This includes: Professional Learning: Ongoing training for teachers and support staff on integrating financial literacy, career awareness, and early college readiness into instruction. Enrichment Opportunities: Career exploration projects, financial literacy modules, mentorship programs, and project-based learning experiences that provide students with real-world

applications. Targeted Supports: Additional interventions and personalized learning plans for MLs/ELLs and SWDs to ensure participation and growth in college and career readiness activities. These resources and funding allocations ensure that Priority 4 strategies are sustainable and continue to provide meaningful exposure to college, career, and financial readiness for all students over time.

Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

Priority 5 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Analysis of the 2025 NYC School Survey results, alongside family engagement	A root cause for the need to make schools more inclusive and responsive to families is the systemic and historical	Ensuring that all districts and schools are inclusive and responsive to parents and families

surveys and language access data, highlights disparities in parent and family engagement across the district. Multilingual, immigrant, and underserved families report lower levels of participation in school events, limited access to information about programs and resources, and reduced involvement in decision-making processes. These trends indicate systemic barriers in communication, trust, and culturally responsive engagement practices, which disproportionately impact families of priority student groups. Addressing these disparities requires targeted strategies to expand multilingual communication channels, provide culturally responsive professional learning for staff, and create structured opportunities for family involvement, ensuring equitable access to educational resources and strengthening community trust.	marginalization of certain communities, particularly multilingual, immigrant, and underserved families, as evidenced by family engagement survey results and language access data. Data trends show that these families are less likely to participate in school events or access information about programs and resources, highlighting barriers in communication and trust between schools and families. Limited language access, culturally responsive engagement practices, and inconsistent outreach contribute to these disparities, while insufficient professional learning for educators in cultural competency and family engagement further limits inclusive practices. Addressing these root causes requires high-leverage actions such as expanding multilingual communication channels, providing professional learning on cultural responsiveness, and actively involving families in school governance. Resolving these priority needs will advance equity, strengthen community trust, and result in measurable positive outcomes for all students, including underserved subgroups.	requires prioritizing equity and addressing the specific needs of multilingual learners, immigrant families, and underserved students. Data from family engagement surveys and language access reports indicate gaps in communication, participation, and access to information about programs and resources. To address these gaps, schools will provide robust STEM programs within Integrated Co-Teaching (ICT) settings, actively engage families in decision-making processes, and foster partnerships with community-based organizations to expand access and support. By implementing culturally responsive engagement practices, multilingual communication channels, and structured family involvement opportunities, this approach strengthens community trust, promotes meaningful participation, and ensures equitable opportunities for academic achievement and success for all students.

Priority 5

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for parent, family, community and system responsiveness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Focus Areas for System Responsiveness to Parents, Families and Communities

- Engage more deeply with families to understand their needs and plan new, high-quality programs
- Build community trust and bolster engagement, including via improved language access and increased family engagement and participation
- Implement the newly updated NYCPS School Wellness Policy, which provides a framework for all members of the school community, including families and students, to come together and assess and coordinate wellness efforts for their community
- Implement and lead strategies that support community involvement and increase Minority and Women Owned Business Enterprises (MWBE) utilization

Priority 5 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Parents of Students in Temporary Housing (STH)	29% of STH students are currently chronically absent	PS 7 will address Priority 5: All districts and schools are more inclusive and responsive for Parents of Students in Temporary Housing (STH) with the following SMART Goal: By June, 2026, the the rate of chronic absenteeism from 2024-2025 will Decrease by 4% from 29% of STH students are currently chronically absent to 25% as measured by DOE Attendance.

Priority 5 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

Progress toward the goal of making schools more inclusive and responsive to families will be measured using multiple data sources: 2025 NYC School Survey Results and family engagement survey data to assess parent participation, satisfaction, and perceptions of inclusivity. Language access data to monitor equitable communication with multilingual families. Attendance and chronic absenteeism records to examine correlations between family engagement and student attendance patterns. Participation logs from family workshops, decision-making committees, and school events to track family involvement in school governance and programming. These tools will provide specific, measurable, and trackable evidence to determine the impact of initiatives on both student outcomes and family engagement, ensuring the SMART goal aligns with inclusivity, responsiveness, and Priority 5 objectives.

Enter a Key Performance Indicator

Key Performance Indicator (KPI) and Progress Measures (Revised for Priority 5 – Attendance/Chronic Absenteeism & Family Engagement): Key Performance Indicator (KPI): Percentage of families actively engaged in school events, workshops, and decision-making processes, disaggregated by multilingual learners, immigrant families, and underserved student groups. Attendance rates and chronic absenteeism of students, particularly in families with low engagement levels. Progress Measures and Targets: Baseline: Based on the 2025 NYC School Survey results and family engagement survey data, 45% of families report active participation in school events and decision-making opportunities. Beginning-of-Year (BOY) Target: Increase family engagement to 50% by the first quarter through outreach and multilingual communication strategies. Middle-of-Year (MOY) Target: Increase family engagement to 55% by mid-year, measured through participation logs, workshop attendance, and committee involvement. End-of-Year (EOY) Target: Achieve 60% of families actively participating by June 2026, while also reducing chronic absenteeism among students from low-engagement households by at least 5 percentage points from the baseline. These measures will provide clear, measurable, and disaggregated data to monitor progress toward making schools more inclusive, responsive, and supportive of family engagement while aligning with Priority 5 objectives.

Baseline:

Based on the 2025 NYC School Survey results and recent family engagement survey data, 45% of families report active participation in school events, workshops, and decision-making processes. Additionally, student chronic absenteeism data shows that 18% of students have missed 10% or more of school days, with higher rates among multilingual learners, students with disabilities, and underserved student groups. This baseline will guide the

establishment of measurable BOY, MOY, and EOY targets to track progress toward increased family engagement and reduced absenteeism, ensuring alignment with Priority 5 objectives.

Enter the date for the baseline data:

March 2025 (or most recent data available from 2024-2025)

Enter Period 1: Beginning of Year (BOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

29% chronic absenteeism rate

Enter Period 2: Middle Of Year (MOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

27% chronic absenteeism rate

Priority 5 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Implement a targeted outreach and support program to reduce chronic absenteeism among Students in Temporary Housing (STH) by addressing systemic and individual barriers to consistent attendance. This high-leverage strategy integrates data-driven monitoring, family engagement, community partnerships, and staff professional learning to provide comprehensive support.

Revised Strategy/Action Steps:

Data Monitoring and Early Identification:

Regularly review attendance data to flag STH students at risk of chronic absenteeism.

Establish monthly progress checks to track trends and identify students needing additional support.

Targeted Family Outreach and Engagement:

Attendance team (counselors, social workers, family liaisons) conducts personalized outreach to families to understand and address barriers.

Provide regular communication in families' preferred languages and host attendance workshops emphasizing the importance of school presence.

Community and Wraparound Supports:

Partner with local organizations to offer transportation assistance, counseling services, and access to basic needs to remove external barriers to attendance.

Professional Learning for Staff:

Provide training on trauma-informed practices and culturally responsive approaches to support STH students' unique needs.

Monitoring and Adjustments:

Progress will be monitored monthly through attendance records, family engagement logs, and intervention tracking.

Data will guide ongoing adjustments to outreach, supports, and instructional strategies to ensure measurable improvements in attendance for STH students, aligning with Priority 5 goals.

Root Cause Addressed:

The root causes of chronic absenteeism among Students in Temporary Housing (STH) at PS7Q—including unstable living situations, lack of transportation, unmet basic needs, and limited family engagement—will be addressed through a comprehensive, multi-tiered support system.

A dedicated attendance team will monitor attendance data and conduct early, personalized outreach to families to identify and resolve barriers to consistent attendance. Collaboration with community partners will provide wraparound supports such as transportation assistance, counseling, and access to basic needs, mitigating external challenges that impact attendance. Strengthening family engagement through communication in preferred languages and culturally responsive workshops will build trust and foster participation. Additionally, professional development for staff on trauma-informed and culturally responsive practices will equip educators to meet the unique needs of STH students, creating a more inclusive and supportive school environment that promotes sustained improvements in attendance and academic engagement.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Implement a Dedicated Attendance Outreach Team: Form a team of counselors, social workers, and family liaisons who will regularly monitor attendance data, identify at-risk STH students, and conduct personalized outreach to families to understand and address attendance barriers.
Provide Targeted Family Support and Engagement: Host monthly attendance workshops and provide communication materials in families' preferred languages to educate and engage families on the importance of consistent school attendance, while connecting them to community resources such as transportation and counseling services.

Key Strategy 2 (Optional):

NA

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Implementation of the STH attendance strategy will be monitored through monthly review meetings of the dedicated attendance outreach team, which includes counselors, social workers, and family liaisons. The team will track chronic absenteeism trends using DOE attendance records and maintain outreach logs documenting personalized family communication, referrals, and resources provided.

To complement quantitative data, the school will collect qualitative evidence from families through attendance workshop feedback, surveys, and focus groups to understand barriers, satisfaction, and engagement effectiveness. Student learning and achievement will be monitored by analyzing correlations between improved attendance and academic performance indicators, including report cards, benchmark assessments, and progress in personalized learning plans.

Findings from these monitoring activities will inform mid-year adjustments to outreach strategies, family engagement efforts, and professional development for staff, ensuring that supports are responsive to emerging needs and that the goal of reducing chronic absenteeism and promoting equitable access to learning is effectively achieved.

Priority 5 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/08/2025	06/27/2026	The school will implement differentiated family engagement strategies to support Students in Temporary Housing (STH) and families with limited English proficiency (LEP), ensuring equitable access to information and participation. Strategies include: Targeted Communication and Outreach: Provide multilingual materials and communication in families' preferred languages. Use multiple channels (email, phone, text, social media) to ensure families receive timely updates on attendance initiatives, school programs, and resources.	Parent Coordinator, Community Partnerships and CBO Leverage: Collaborate with community-based organizations (CBOs), social service agencies, and local nonprofits to provide wraparound supports, including transportation, counseling, and access to basic needs. Leverage partners to co-facilitate family workshops, mentorship programs, and enrichment activities, extending engagement opportunities and resources beyond the school.
09/08/2025	06/27/2026	Collaborative Family Engagement: Offer opportunities for families to co-design and co-lead workshops and engagement activities, fostering shared ownership and empowering families to actively support attendance and student success. Conduct focus groups and surveys to gather family input on engagement strategies, identify barriers, and inform improvements.	Community Partnerships and CBO Leverage: Collaborate with community-based organizations (CBOs), social service agencies, and local nonprofits to provide wraparound supports, including transportation, counseling, and access to basic needs. Leverage partners to co-facilitate family workshops, mentorship programs, and enrichment activities, extending engagement opportunities and resources beyond the school.

Priority 5 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Attendance outreach team consisting of school counselors, social workers, family liaisons, and administrative staff to monitor attendance data, conduct family outreach, and coordinate support services.

Instructional Resources

The school will leverage a combination of staff, programs, and materials to implement strategies that support attendance, engagement, and academic growth for all students, particularly Students in Temporary Housing (STH) and priority student groups such as multilingual learners and students with disabilities. This includes: Staff: K–5 teachers, literacy and math specialists, instructional leaders, counselors, social workers, family liaisons, and attendance team members to deliver targeted interventions, personalized learning plans, and family engagement activities. Programs and Materials: Financial literacy and career exploration modules, project-based learning resources, multilingual family engagement materials, and data tracking tools for attendance and academic progress. Resource Gaps: Additional funding or district support may be needed to expand wraparound services, such as transportation assistance, counseling, and after-school enrichment, to fully address barriers faced by STH and underserved students. Access to community partner resources and CBO collaboration may require coordination and logistical support to ensure sustainability and equitable implementation. Addressing these gaps will ensure that all key strategies can be fully implemented, providing equitable access to resources, supports, and opportunities aligned with Priority 5 goals.

Schedule Adjustments

Time allocated within the school schedule for monthly attendance team meetings, family workshops, and training sessions for staff on trauma-informed and culturally responsive practices.

Other Resources Needed

Partnerships with community organizations to provide transportation assistance, counseling, and basic needs support; translation services for family communications; funding for workshop materials and outreach communication tools (phone, email platforms).

Section 5: Attendance/Chronic Absenteeism

Attendance/Chronic Absenteeism Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Analysis of the 2025 New Visions Chronic Absenteeism Reports reveals persistent patterns of absenteeism among students who frequently travel back to their home countries. Year-over-year trends indicate that multilingual learners (MLLs) and certain immigrant student subgroups experience the highest rates of chronic absenteeism, often missing significant instructional	The primary root causes of chronic absenteeism for these students stem from family circumstances and obligations that necessitate prolonged absences. Factors include: Returning to their home country for family reunions, cultural celebrations, or caregiving responsibilities. Economic or immigration-related challenges that require families to travel	To reduce chronic absenteeism and its impact on academic progress, PS7Q must implement comprehensive, culturally responsive strategies that address these root causes: Early identification and monitoring of students at risk of chronic absenteeism using attendance data and subgroup analysis. Proactive family engagement through multilingual communication, culturally sensitive outreach, and workshops focused on attendance expectations and supports.

time during key academic periods. Attendance disparities are also evident across grade levels, with upper elementary students more likely to miss school due to extended family obligations or cultural celebrations overseas. These trends align with the transition to the Attendance indicator for ESSA accountability in 2025–26, highlighting the need for targeted interventions to support equitable access to education.	internationally. These causes are influenced by school-controllable factors such as limited proactive outreach to families about attendance expectations, insufficient culturally responsive supports, and gaps in early identification of students at risk. Addressing these root causes requires sensitivity to diverse cultural contexts, timely communication with families, and supports to minimize educational disruptions.	Community partnerships to provide resources that assist families facing international travel needs, such as academic support during absences or access to transportation and counseling services. Targeted interventions within the school to accommodate diverse student needs and maintain academic continuity. By addressing these priority needs, PS7Q can reduce chronic absenteeism, support equitable educational access, and ensure all students have the opportunity to thrive academically.

Attendance/Chronic Absenteeism

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal aligned to our systemwide focus on improving attendance and **reducing chronic absenteeism**.

Systemwide Focus Area for Attendance/Chronic Absenteeism: Develop and implement strengthened practices to improve attendance, combat chronic absenteeism and center equity. Note: For ESSA accountability purposes, NYSED will replace the Chronic Absenteeism indicator with the Attendance indicator, beginning in the 2025-26 school year. Learn more about the new Attendance indicator by reviewing this Fact Sheet.

Attendance/Chronic Absenteeism SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	22%	By June, 2026, the Percentage of Chronically Absent Students for All Students will increase by decrease 22% to 18%, from 22% to 18%, as measured by the Chronic Absenteeism Reports.

Attendance/Chronic Absenteeism Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Attendance/Chronic Absenteeism Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

To reduce chronic absenteeism caused by extended absences for international travel and family obligations, PS7Q will implement a culturally responsive, multi-tiered strategy that directly addresses the identified root causes and priority needs:

Early Warning and Attendance Monitoring:

Establish a dedicated attendance team that meets regularly to review attendance data, identify students at risk, and coordinate interventions.

Implement an early warning system using DOE attendance records, benchmark data, and family engagement logs to flag students likely to experience chronic absenteeism.

Family Engagement and Support:

Proactively communicate attendance expectations and provide flexible scheduling options that acknowledge cultural and familial obligations.

Offer multilingual outreach, personalized check-ins, and culturally responsive workshops for families with a history of extended absences.

Collaborate with community organizations and CBOs to provide wraparound supports, such as counseling, transportation, and academic resources, minimizing educational disruptions.

Targeted Student Interventions:

Develop mentoring, academic catch-up plans, and personalized interventions for students identified as at risk for chronic absenteeism.

Monitor progress through monthly attendance reviews, family feedback, and academic performance indicators to guide mid-year adjustments.

Professional Learning for Staff:

Provide training on cultural competency, data-informed intervention planning, and effective family outreach strategies to ensure staff are equipped to support students and families effectively.

This coordinated, high-leverage approach fosters a supportive and inclusive school environment, respects family circumstances, and promotes consistent attendance, academic continuity, and student success in alignment with Priority 5 goals.

Root Cause Addressed:

The root cause is addressed by recognizing and respecting the cultural and familial reasons behind extended absences, such as international travel for family reunions or caregiving. PS7Q will provide culturally sensitive communication and support to families, ensuring they understand attendance expectations while feeling supported. By partnering with community organizations, the school helps families manage economic and immigration challenges that contribute to absenteeism. Targeted interventions and flexible scheduling accommodate students' unique situations, minimizing educational disruptions. Staff training in cultural competency further equips educators to engage families effectively and reduce attendance barriers, creating a more inclusive and responsive school environment.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Establish Culturally Sensitive Communication Channels with Families Action: Implement multilingual newsletters, phone calls, text alerts, and family meetings to communicate attendance expectations and provide tailored support. Timeline: Launch at the start of the school year (September 2025) with weekly and monthly follow-ups; maintain ongoing communication throughout the year. Responsible Staff: Attendance team (counselors, social workers, family liaisons), classroom teachers, and school administrators. Professional Learning: Provide staff training on culturally responsive communication and family engagement strategies to ensure interactions are inclusive and effective. Family and Student Engagement: Families will be informed through orientation sessions, workshops, and direct outreach; students will receive parallel messaging through classroom discussions and mentoring sessions. Alignment to SMART Goal: Supports the goal of reducing chronic absenteeism by ensuring families understand expectations and have access to resources that address attendance barriers.
Partner with Community Organizations to Provide Resources and Assistance Action: Collaborate with CBOs and local agencies to provide tutoring, after-school programs, transportation support, and counseling services for students at risk of absenteeism due to extended absences. Timeline: Establish partnerships by October 2025; programs and services to run throughout the school year with periodic reviews each quarter. Responsible Staff: Attendance team, family engagement coordinators, and school administrators to coordinate services and monitor participation. Professional Learning: Staff will receive guidance on effective collaboration with community partners and strategies to integrate supports with personalized student interventions. Family and Student Engagement: Families will be informed about available supports through multilingual communications and workshop sessions; students will be actively referred to and enrolled in programs by school staff. Alignment to SMART Goal: Directly addresses root

causes of chronic absenteeism by providing practical supports that minimize educational disruption during or after extended absences.

Key Strategy 2 (Optional):

NA

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To ensure effective implementation of key strategies and action steps, PS7Q will establish a comprehensive, multi-faceted progress monitoring system aligned with the SMART goal:

Attendance Data and Trend Analysis:

Utilize DOE chronic absenteeism reports, attendance dashboards, and early warning systems to track overall trends and identify students at risk, with a focus on students who travel abroad, multilingual learners (MLLs), students with disabilities (SWDs), and other underserved subgroups.

Disaggregate data by student subgroup, grade level, and reason for absenteeism to ensure equity and tailor interventions.

Family Engagement Monitoring:

Maintain detailed multilingual communication logs, workshop participation records, and outreach documentation to track engagement and responsiveness of families.

Collect qualitative feedback through surveys and focus groups to assess satisfaction, barriers addressed, and areas for improvement.

Student Support and Intervention Tracking:

Document participation in tutoring, mentoring, after-school programs, and other targeted support services to evaluate intervention reach and effectiveness.

Monitor academic outcomes through report cards, benchmark assessments, and teacher observations to determine the impact of improved attendance on learning.

Review Structures and Frequency:

The leadership team, including attendance coordinators, counselors, family liaisons, and administrators, will meet monthly to review all collected data, identify trends, discuss progress, and adjust strategies as needed.

Mid-year and end-of-year reviews will allow for strategic recalibration to ensure that interventions continue to address the root causes of chronic absenteeism and meet the needs of priority student groups.

This structured approach provides ongoing, data-informed monitoring of both implementation fidelity and student outcomes, ensuring that PS7Q can proactively reduce chronic absenteeism, strengthen family engagement, and support equitable academic success for all students.

Attendance/Chronic Absenteeism Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/08/2025	06/26/2026	PS7Q will implement inclusive, culturally responsive strategies to directly support families and increase engagement: Expanded Family Outreach: Conduct home visits and personalized multilingual communications (phone calls, texts, emails) to provide attendance information, resources, and support. Maintain detailed outreach logs to track communication efforts and monitor engagement trends, ensuring messages are culturally responsive and accessible. Workshops and Learning Opportunities: Host interactive workshops for families on attendance expectations, navigating school supports, early college/career awareness, and academic continuity during extended absences. Include health-focused workshops co-hosted with community health organizations to address asthma management, mental health, and other health-related attendance barriers.	Wraparound Supports: Collaborate with partners to provide transportation assistance, housing resources, tutoring, counseling, and after-school programs that address barriers to consistent attendance. Co-Facilitation of Engagement Activities: Leverage CBO expertise to co-facilitate family workshops, mentoring programs, and enrichment activities, ensuring families have access to relevant resources and support networks.
09/08/2025	06/26/2026	Family Co-Design and Leadership: Invite families to co-design and co-lead engagement initiatives, fostering shared ownership and ensuring activities reflect their needs and experiences.	Community Health Partnerships: Work with local health organizations to host events that address health-related attendance barriers, including wellness education and access to preventive services.

Attendance/Chronic Absenteeism Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Attendance coordinators, family engagement specialists, school counselors, and bilingual support staff will be leveraged to implement outreach and monitor student attendance. Community liaisons will support culturally responsive communication with families who travel frequently.

Instructional Resources

To support the implementation of key strategies and action steps aimed at reducing chronic absenteeism, PS7Q will leverage the following resources: Data and Monitoring Tools: DOE Chronic Absenteeism Reports and attendance tracking software will be used to identify students at risk, monitor trends, and guide early interventions. Disaggregated data will allow targeted support for Students in Temporary Housing (STH), multilingual learners (MLLs), and students with disabilities (SWDs). Academic Support Resources: Educational materials, tutoring resources, and after-school programs will provide academic continuity for students who miss school due to travel or other absences. Progress in these resources will be tracked through participation logs and academic performance indicators to ensure interventions effectively mitigate learning disruptions. Family Engagement Materials: Multilingual newsletters, communication templates, and culturally responsive outreach tools will support personalized engagement with families, aligned with attendance expectations and workshop content. By aligning these resources with the key strategies—monitoring attendance, supporting student learning, and engaging families—PS7Q ensures a coordinated approach to reducing chronic absenteeism and supporting equitable student success.

Schedule Adjustments

Flexible scheduling options, including after-school tutoring and make-up sessions, will be provided to help students catch up academically after absences.

Other Resources Needed

Additional funding for translation services, family engagement workshops, and transportation assistance may be necessary to reduce barriers for families and improve attendance. Partnerships with community organizations that support immigrant and transient families will also be explored.

Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities

High Quality Inclusive & Accessible Learning for Students with Disabilities Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs (NYCPS Systemwide Needs for all schools noted below.)
At PS7Q, analysis of 2024–2025 SESIS reports and classroom observations indicated that only 82% of mandated IEP services were delivered on time, highlighting gaps in service fidelity. Instructional walkthroughs	The primary factors contributing to these outcomes include: Insufficient professional development for staff on creating high-quality, standards-aligned IEPs and addressing goal fidelity. Limited co-planning time	IEP Development and Fidelity of Implementation

revealed inconsistencies in how IEP goals were addressed during classroom instruction. Further, the 2025 NYC School Survey indicated that families of students with IEPs expressed concerns about unclear communication regarding service delivery, student progress, and goal alignment. Additional indicators, including suspension rates and recidivism for SWDs, outcomes of MDRs disaggregated by race and language, and enrollment in Tiered Behavior Support initiatives, underscore areas of inequity in behavioral and instructional supports.	between general and special education teachers, hindering collaborative alignment of instructional strategies. Lack of structured monitoring systems to track IEP implementation, including progress on FBAs/BIPs and annual goals. Inconsistent use of data dashboards (Power BI, IEP Review, Shared Path) to triangulate findings and guide interventions. These root causes have led to uneven delivery of services, variability in goal implementation, and reduced family confidence in the IEP process.	
During the 2024–2025 school year, compliance reviews from SESIS and district-level audits revealed that transition plans for students with IEPs aged 14 and older were often incomplete or lacked measurable postsecondary goals aligned to student interests. Only 70% of transition plans included age-appropriate assessments or coordinated activities designed to prepare students for life after high school. Additionally, the 2025 NYC School Survey indicated that families reported limited understanding of the transition planning process and available postsecondary supports. These findings point to gaps in both student preparedness for postsecondary life and family engagement and awareness in transition planning.	The primary root causes contributing to these outcomes include: Limited training and support for IEP teams, particularly at the middle school level, on developing meaningful, legally compliant transition plans. Insufficient collaboration between school staff, families, and external agencies, resulting in poorly coordinated transition services. Inconsistent use of transition assessment tools and minimal dedicated planning time, which undermines the quality and compliance of transition plans. These factors have led to gaps in compliance, limited alignment to student interests, and reduced readiness for postsecondary education, employment, or independent living.	Transition Planning and Compliance
During the 2024–2025 school year, school-level referral data and NYC DOE equity dashboards highlighted a disproportionate number of special education referrals for multilingual learners (MLLs) and students from	The key factors contributing to these trends include: Inconsistent implementation of Tier 1 and Tier 2 academic and behavioral interventions, resulting in gaps in pre-referral supports. Limited professional development for	Referral Process and Equity

historically underserved communities. For example, 62% of referrals for initial evaluations originated from non-English-speaking households, even though these students represent only 48% of the school population. Additionally, teacher team referrals often lacked documented MTSS (Multi-Tiered Systems of Support) interventions prior to evaluation requests, raising concerns about potential over-identification and inequities in the referral process.	educators on culturally responsive teaching, differentiating language acquisition versus learning disabilities, and applying an equity lens to referrals. Insufficient collaboration between general education teachers, ENL specialists, and special education staff, which impedes accurate assessment of student needs prior to referral. These root causes can lead to premature or inappropriate referrals, disproportionate identification of students from underserved backgrounds, and inequities in access to appropriate interventions.	
Analysis of 2024–2025 disciplinary data from the NYC DOE School Performance Dashboard and internal OORS reports revealed that Black and Latinx students, as well as students with IEPs, received a disproportionate share of disciplinary actions, including classroom removals and principal suspensions. While these students represent approximately 55% of the student population, they accounted for over 75% of behavior-related incidents and consequences. These disparities indicate uneven application of school-wide behavior expectations and inconsistent implementation of restorative practices, suggesting that current disciplinary systems may not be equitable across student groups.	The primary factors contributing to inequities in school discipline include: Inconsistent implementation of culturally responsive behavior systems, leading to variability in how expectations and consequences are applied. Lack of sustained training in restorative practices and trauma-informed strategies, resulting in uneven staff capacity to address behavior proactively. Limited school-wide data reflection protocols and insufficient use of student voice in shaping behavior expectations, which reduces opportunities to identify and address inequities. These root causes contribute to the disproportionate impact on historically marginalized student groups and undermine equitable access to a positive school climate.	Equity in School Discipline
During the 2025–2026 school year, analysis of weekly and monthly module assessments revealed inconsistencies in how IEP accommodations were applied and monitored for	The primary factors contributing to gaps in quality IEP practices include: Insufficient initial assessments or incomplete understanding of a student's social and familial context, which	To enhance Quality IEP Practices, PS7Q must: Implement comprehensive social history intake procedures that capture detailed information about students' familial, cultural, and social contexts. Provide targeted professional

students with diverse needs. Review of assessment trends indicated that some students were not consistently receiving supports aligned with their individualized goals, which impacted their ability to demonstrate expected academic growth. These trends underscore the need for more comprehensive IEP development practices, particularly in the collection of social and familial context to inform accommodations.	limits the ability to design tailored accommodations. Limited educator training and resources for conducting thorough social history intakes and interpreting diagnostic evaluations. Systemic barriers, including bureaucratic processes and restricted access to specialized services, which hinder the implementation of precise, individualized accommodations. These root causes contribute to inconsistent application of IEP supports, reduced effectiveness of individualized accommodations, and inequitable access to resources for students with diverse learning needs.	development and training for educators on interpreting diagnostic results and translating them into effective, individualized accommodations. Streamline access to specialized services and resources to ensure timely implementation of IEP accommodations aligned with student needs. Monitor the application and effectiveness of IEP accommodations using module assessment data, ensuring supports are consistently delivered and adjusted based on student progress. By addressing these priority needs, PS7Q can ensure that IEPs are comprehensive, individualized, and equitable, promoting meaningful access to education and supporting students' academic and personal growth.

High Quality Inclusive & Accessible Learning for Students with Disabilities

Directions: After conducting a comprehensive needs assessment by analyzing school data trends including IEP Review Surveys; exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop outcome-focused SMART goals for identified priority need(s) and the relevant systemwide focus areas for **High Quality Inclusive & Accessible Learning for Students with Disabilities** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Inclusive and Accessible Learning for Students with Disabilities:

- IEP Development and Implementation
- Transition Planning and Compliance
- Referral Process and Equity
- Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	60%	By June, 2026, to strengthen the quality and implementation of IEPs for All Students, we will improve equity in disciplinary outcomes by a 10% Decrease, from 60% to 50%, as measured by OORS Online Occurrence Reporting.

High Quality Inclusive & Accessible Learning for Students with Disabilities Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Enter a Measurement Tool:

Progress toward student-centered, outcome-focused goals will be tracked using OORS (Online Occurrence Reporting System), NYC DOE School Performance Dashboard, module assessments, report cards, and IEP service delivery logs. These tools will measure the percentage of SWDs demonstrating progress toward aligned annual goals, disaggregated by subgroup (e.g., Black students with IEPs, multilingual learners) to identify disproportionalities and gaps. This approach ensures that measures are meaningful, aligned with the SMART goal, and focused on equitable academic and behavioral outcomes for all students with disabilities.

Enter a Key Performance Indicator

Reduction in the percentage of discipline referrals and suspensions for Black, Latinx, and IEP students, indicating more equitable discipline practices.

High Quality Inclusive & Accessible Learning for Students with Disabilities Action Plan

Key Strategy 1 (Required):

To promote equity in school discipline at PS7Q, the school will implement a restorative, inclusive, and culturally responsive approach to address disparities affecting historically marginalized student groups, including Black, Latinx, and students with IEPs. Recognizing that disciplinary policies and practices can disproportionately affect certain populations, the school will proactively build staff capacity, embed culturally responsive education (CRE) principles into all behavior support training, and reshape school culture around fairness, reflection, and support.

The action plan begins with sustained professional development for all staff, focusing on culturally responsive classroom management, implicit bias, trauma-informed care, SDI-focused interventions, and transition planning workshops to support postsecondary readiness and compliance. These sessions equip educators to respond to student behavior in a supportive, equitable, and data-informed manner.

PS7Q will fully integrate restorative practices into daily school routines, including community circles, peer mediation, and structured alternatives to suspension, such as reflection spaces. These practices encourage students to take accountability, repair harm, and strengthen relationships.

To ensure fidelity of implementation, the school will utilize coaching logs, walkthroughs, and staff self-assessments, with ongoing support from instructional leaders. The Equity and Inclusion Team will meet monthly to review disaggregated discipline data, monitor implementation of evidence-based behavior supports, identify trends, and guide responsive action steps that link directly to the SMART goal, including reducing disproportionality in suspensions and increasing the use of FBAs/BIPs.

Student voice will be amplified through a student leadership council that collaborates with staff to co-create expectations and inform restorative and inclusive policies. Families will be engaged via quarterly multilingual forums, home visits, and ongoing communication to ensure transparency, build trust, and reinforce shared behavioral expectations.

Through these comprehensive, culturally responsive, and data-driven strategies, PS7Q aims to create a learning environment where all students feel safe, respected, and empowered to succeed academically and socially, while measurable outcomes reflect progress toward reducing disciplinary inequities.

Root Cause Addressed:

The root cause of disproportionate disciplinary outcomes at PS7Q—stemming from implicit bias, inconsistent application of behavior policies, and a lack of culturally responsive practices—is being addressed through a comprehensive, equity-focused approach. The school is investing in ongoing professional development to build staff capacity in recognizing and interrupting bias, while promoting culturally responsive classroom management and restorative practices. By embedding daily community-building circles and peer mediation, PS7Q fosters a more inclusive and reflective school climate that emphasizes dialogue and accountability over exclusionary discipline.

An Equity & Inclusion Team regularly reviews discipline data to identify trends and ensure interventions effectively reduce disproportionality. Additionally, student leadership councils and multilingual family forums actively engage the community, allowing their voices to shape discipline policies and support systems. These coordinated efforts

work together to transform school culture, align discipline practices with equity and inclusion principles, and ultimately create a fairer, more supportive environment for all students.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Provide ongoing, evidence-based professional development for all staff using NYC DOE-endorsed programs and strategies, including Restorative Circles, and Positive Behavioral Interventions and Supports (PBIS). Training will focus on implicit bias awareness, culturally responsive classroom management, trauma-informed practices, and restorative justice approaches to promote equitable and consistent discipline implementation. PD will be introduced and sustained through coaching cycles, turnkey sessions, and embedded DOE PD days, with ongoing observation, feedback, and reflection opportunities to ensure staff integrate these practices into daily routines and schoolwide behavior supports.
Establish a regular review process led by the Equity & Inclusion Team to analyze disaggregated discipline data, identify disproportionality trends, and develop targeted interventions. Reviews will occur monthly, with outcomes informing both instructional supports and policy adjustments. The process will actively involve student leaders and families, capturing their input through surveys, forums, and focus groups to ensure policies reflect student and community perspectives. Findings will guide responsive, culturally informed interventions and be tracked to measure progress toward SMART goals, including reductions in suspension disparities and increased use of FBAs/BIPs.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Monitoring will be conducted through monthly Equity & Inclusion Team meetings, where discipline data disaggregated by race, disability status, and other demographics will be reviewed. The school will track number and types of disciplinary incidents, suspension rates, referrals, and the frequency of restorative justice practices to assess both outcomes and fidelity of implementation. Fidelity will also be monitored through walkthroughs, staff self-assessments, and coaching logs to ensure consistent application of evidence-based behavior supports.

In addition, feedback from teacher surveys and student focus groups will be collected to evaluate classroom climate, perceptions of fairness, and the effectiveness of supports. This qualitative input, combined with quantitative data, will inform adjustments to professional development, instructional practices, and behavior interventions, reinforcing equitable outcomes. The monitoring process will also ensure that procedural safeguards and inclusive practices, such as least restrictive environments and culturally responsive supports, are consistently reflected in IEPs and discipline decisions.

High Quality Inclusive & Accessible Learning for Students with Disabilities Family and Community Engagement

Family and Community Engagement

Directions: Indicate the multi-tiered supports (strategies & activities) that will be implemented to support and engage families (including foster parents, birth parents, and families with limited English proficiency) and plans for community collaboration in the implementation of this action plan, surrounding the four priority needs. Include:

1) a description of the school's supports and processes for students with disabilities;
2) a coherent mechanism is implemented for updating families on their child's progress towards measurable annual and post-secondary transition goals;
3) a procedure to ensure families are involved during decision-making for IEP development and implementation.

Start Date	End Date	Multi-tiered Supports to Engage Family & Community	Partners/CBOs Leveraged
09/08/2025	06/26/2026	PS7Q will actively engage families—especially foster parents, birth parents, and families with limited English proficiency—in all aspects of student support, including IEP development, transition planning, referral equity, and equitable discipline practices. Families will participate in differentiated workshops and learning sessions tailored to each priority need: IEP Development: Understanding IEP goals, accommodations, and monitoring progress. Transition Planning: Overview of postsecondary services, age-appropriate assessments, and coordinated activities to prepare students for life after high school. Referral Equity: Guidance on MTSS processes, pre-referral interventions, and equitable assessment practices. Equity in School Discipline: Training on restorative practices, culturally responsive behavior supports, and family advocacy in discipline decisions. All workshops and communications will be multilingual and	PS7Q will collaborate with external community-based organizations (CBOs) and partners to enhance family engagement and provide wraparound services: Multilingual Advocacy and Support: Partnering with organizations that assist families navigating foster care, special education, and other complex systems. Transition Planning and Postsecondary Readiness: Collaborating with agencies that provide guidance on career pathways, college awareness, and early exposure to postsecondary opportunities. Restorative and Culturally Responsive Supports: Engaging CBOs to co-host workshops, restorative practice sessions, and trauma-informed programming. Health and Attendance Supports: Leveraging community health organizations to address barriers such as transportation, mental health, and chronic absenteeism. Internal staff such as the Parent Coordinator and Guidance Counselors will coordinate these

		culturally responsive, and the school will provide regular updates to families on student progress through newsletters, parent-teacher conferences, and home visits. Families will also have opportunities to co-design activities and provide feedback on policies and supports, fostering shared ownership and partnership in student success.	partnerships, ensuring alignment between school-led initiatives and external services. This multi-tiered, collaborative approach ensures that all families, particularly multilingual, foster, and IEP families, have equitable access to information, support, and opportunities to actively participate in their children's education.
09/08/2025	06/27/2026	Culturally Responsive Family Workshops: Tailored sessions that address specific needs, such as understanding behavioral supports, navigating MTSS interventions, or accessing academic enrichment programs. Family Mentorship Programs: Experienced parents and caregivers will mentor new families to guide them in accessing school and community resources, navigating special education, and supporting student success. This tiered approach ensures that all families have multiple entry points to engage meaningfully, fostering equity, shared understanding, and co-ownership of student outcomes.	Health and Wellness Partners: Engaging community health organizations to co-host workshops addressing mental health, chronic illness management (e.g., asthma), and nutrition, which can impact attendance and learning. STEM, Career, and Postsecondary Exposure: Partnering with organizations that provide early college awareness, career pathways, and enrichment opportunities, particularly for historically underserved student groups.

High Quality Inclusive & Accessible Learning for Students with Disabilities Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Schools are encouraged to think critically and strategically when considering resources that can support progress towards CEP goals for students with IEPs. This includes utilizing Title I funding for at-risk speech and/or counseling services, all-staff training in supporting students with autism, sensory materials, summer institute geared at the development of executive functioning skills, and/or inclusion coaching support. Schools may also consider utilizing Title II funds to reduce the ratio of students with IEPs to typically developing peers in ICT classes.

Human Resources:

PS7Q will strategically leverage special education teachers, inclusion coaches, school counselors, speech therapists, and trained autism support staff to ensure high-fidelity implementation of IEP development, transition planning, and behavior supports. ENL providers and paraprofessionals will be deployed to support multilingual learners, facilitate small-group interventions, and reinforce differentiated instruction aligned to student needs. Additionally, Title I and Title II funded staff will help reduce student-to-teacher ratios, provide targeted academic and behavioral interventions, and monitor progress to ensure students receive timely and appropriate support. This coordinated human capital strategy ensures that each staff member's expertise is directly linked to the school's Priority 4 and Priority 5 goals, promoting equity and consistent outcomes for students with IEPs, students in temporary housing, and multilingual learners.

Instructional Resources

PS7Q will utilize curricula and programs specifically designed to support executive functioning, sensory regulation, and assistive technology, ensuring alignment with inclusive and culturally responsive practices. Additionally, professional development materials and resources will be provided for all staff to strengthen their capacity in supporting diverse learners, implementing SDI strategies, and delivering high-quality, individualized instruction. These resources work in tandem with human capital and scheduling structures to ensure consistent, effective support for students with disabilities across academic, behavioral, and transition planning contexts.

Schedule Adjustments

Schedule modifications will include dedicated time for inclusion coaching, collaborative planning among general and special education staff, and blocks allocated for targeted interventions and counseling services.

Other Resources Needed

Additional funding may be required to fully implement the action plan, including support for summer institutes focused on executive functioning, expanded access to culturally responsive professional development, and resources to strengthen family engagement in IEP processes. PS7Q will leverage partnerships with local community-based organizations (CBOs) such as Advocates for Children, Make the Road NY, and The Door, as well as external professional learning providers, to support family outreach, provide wraparound student services, and deliver specialized staff training. These partnerships ensure that resources are directly aligned to the school's strategies and support equitable access for students with disabilities, multilingual learners, and historically underserved populations.

Section 6: Multi-Tiered Systems of Support (MTSS)

Academic Support

NYCPS Multi-Tiered Systems of Support (MTSS) align with NYSED guidelines for providing Academic Intervention Services (AIS) to students who have not yet met state standards or are considered to be at-risk of not meeting state standards. The Multi-tiered Systems of Support (MTSS) framework, organizes **supports** into three tiers:

Tier 1 provides schoolwide, high-quality programming for all students, including SWDs;

Tier 2 offers data informed small-group interventions for at-promise students; and

Tier 3 delivers intensive, individualized support for students with persistent needs.

This facilitates the strategic planning and necessary resource alignment to ensure their school community appropriately and adequately serves all students well, in partnership with students and families.

MTSS identifies the academic support services to be provided and ensures that students receive Response to Intervention (RtI) and Positive Behavioral Interventions and Support (PBIS) strategies as needed. See NYSED's memo to view the criteria for determining AIS services. The Supportive Environment Framework (SEF) offers a wide range of evidence-based Tier 2 and Tier 3 interventions and supports for student social-emotional, behavioral, physical and mental wellness, with particular attention to the unique needs of students in Temporary Housing and/or Foster Care, who may face additional challenges related to school stability, trauma and access to educational resources. A culturally responsive-sustaining approach to intervention embeds culturally relevant texts and historical narratives into literacy and social studies interventions, ensuring students receive the support that reflects their identities and lived experiences, increasing engagement and achievement.

Use the charts below and a Multi-Tiered System of Support (MTSS) to match academic, social/emotional, behavioral and instructional resources with student needs to provide targeted support for all learners, especially at-risk students who experience difficulty meeting state standards, including those living in Temporary Housing and/or residing in Foster Care placements. Indicate specialized materials, technology-based tools and/or extra instruction, including Expanded Learning Time that supplement school-wide systems & supports and/or classroom level supports. Ensure that interventions address the unique social-emotional, behavioral and academic challenges faced by culturally and linguistically diverse students, as well as those impacted by housing instability and child welfare system involvement.

Directions: Complete the chart and identify Tier 2 or 3 MTSS Academic supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Academic Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Tier 2 & 3	Level 1 measured by IRL	Amira	Small Group	Before, During, After	Yes
Tier 2 & 3	Level 1 measured by IRL	SPIRE	Small Group and One-to-One	Before, During, After	No

Student Social/Emotional Support

Directions: Complete the chart and identify Tier 2 or 3 MTSS Student Social/Emotional supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Student Social/Emotional Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Tier 2: Small-group social-emotional learning (SEL) groups focused on coping skills, peer relationships, and self-regulation. Tier 3: Individual counseling or intensive behavioral interventions for students with significant social-emotional needs, including culturally and linguistically diverse students, Students in Temporary Housing (STH), and foster care students.	Students identified via teacher referral, counselor assessment, attendance/behavior data, or screening tools indicating elevated social-emotional or behavioral needs. Priority given to STH, foster care, MLL, and students exhibiting chronic absenteeism or behavioral concerns.	Evidence-based SEL curricula, trauma-informed counseling, Check-In/Check-Out (CICO) programs, mentorship, and culturally responsive behavior interventions.	Tier 2: Small-group sessions (4–6 students) delivered by counselors, social workers, or trained paraprofessionals. Tier 3: One-to-one sessions with counselors, social workers, or school psychologists. Integration with academic supports where appropriate.	Tier 2: During the school day in designated pull-out blocks or embedded in advisory periods. Tier 3: Scheduled individually before, during, or after school as needed, based on student availability and intensity of need.	Yes – SEL tracking platforms, digital behavior logs, and progress monitoring software will be used to document interventions, track progress, and inform adjustments.

Family and Community Engagement Around MTSS

Describe how the school's essential components of MTSS are shared with families.

PS7Q ensures that families are actively informed and involved in the school's Multi-Tiered System of Supports (MTSS). The essential components of MTSS—including Tier 1 universal supports, Tier 2 small-group interventions, and Tier 3 individualized services—are shared with families through multilingual newsletters, family workshops, and individualized meetings. Families receive clear explanations of intervention criteria, progress monitoring methods, and expected outcomes, with opportunities to provide input and co-design supports for their children. Outreach strategies include phone calls, home visits, and digital platforms to ensure consistent communication with families of multilingual learners, Students in Temporary Housing (STH), foster care students, and other high-need populations. These efforts aim to increase family understanding of MTSS, foster engagement in intervention planning, and support student success through collaborative partnerships.

Describe how families receive updates on the progress of their child(ren) who receive Tier 2 targeted, or Tier 3 intensive interventions.

At PS7Q, families of students receiving Tier 2 targeted or Tier 3 intensive interventions are regularly updated through multiple, consistent communication channels. In addition to the two scheduled parent-teacher conferences each year, families receive monthly or quarterly progress updates via phone calls, emails, virtual meetings, or in-person check-ins. These updates include data from specific intervention tools and assessments, such as academic benchmark assessments, social-emotional behavior tracking, and progress monitoring logs, which are shared in accessible and multilingual formats.

Teachers, intervention specialists, and school counselors work with families to interpret the data and provide guidance on how to reinforce learning and social-emotional growth at home. Individualized meetings ensure families can ask questions, provide input, and co-plan next steps when adjustments to interventions are needed. This structured and ongoing communication strengthens the home-school partnership, fosters transparency, and empowers families to actively support their child's progress within the Tier 2 and Tier 3 MTSS framework.

Describe how families are involved during decision making regarding the progress of students receiving Tier 3 intensive intervention.

At PS7Q, families play a central role in the decision-making process for students receiving Tier 3 intensive interventions. Families are engaged as active partners through structured, recurring meetings, which occur monthly or as needed depending on student progress. These meetings include teachers, intervention specialists, counselors, school leaders, and when appropriate, special education liaisons.

During each session, student progress data—collected through benchmark assessments, progress monitoring tools, and behavioral/social-emotional tracking systems—is reviewed collaboratively. Families are supported in interpreting the data, providing observations, and contributing insights that guide the adjustment of individualized intervention plans. Staff roles are clearly defined: teachers and intervention specialists present academic and social-emotional data, counselors provide support around student well-being, and school leaders facilitate decisions to ensure alignment with MTSS frameworks and IEP goals.

PS7Q further empowers families through workshops, informational sessions, and multilingual communication, enabling them to understand intervention goals, ask questions, and actively participate in strategies that support their child's academic and social-emotional growth. This collaborative, structured approach strengthens family-school partnerships, reinforces accountability, and ensures Tier 3 interventions are both responsive and effective for all students.

Students in Temporary Housing (STH) Support

As included in your school's Office of School and Youth Development Consolidated Plan-STH Section and in accordance with the federal McKinney-Vento Homeless Assistance Act and Chancellor's Regulation A-780, schools must identify, serve, and report on students living in temporary housing (STH). All Title I and non-Title I schools receive a Title I allocation for STH students. The Students in Temporary Housing (STH) website provides guidance on STH pupils and how these funds can be used to meet their needs, as well as restrictions. For more information on acceptable uses of the mandated Title I, Part A set-aside to support your STH population, please refer to the Title I STH Funds Toolkit.

Identify the number of Students in Temporary Housing who are currently attending your school and provide a breakdown of their temporary housing status. Since the number of STH children can change regularly, schools must carefully track this number to determine whether there has been an increase in need.

Number of students in temporary housing who are:

- Doubled up (with friends or relatives because they cannot find or afford housing):
- Living in a shelter or transitional shelter:
- Living in a hotel/motel:
- Other

*Note: In keeping with established practices regarding personally identifiable information, use the letter "s" to identify a number less than five (5).

As of the 2025–26 school year, P.S. 7 Louis F. Simeone in Elmhurst, Queens, serves approximately 1,113 students in grades Pre-K through 5. The number of Students in Temporary Housing (STH) at P.S. 7 is currently 143 yet the broader context in New York City highlights a significant need.

Citywide, over 154,000 students experienced homelessness during the 2025–26 school year, with 54% "doubled-up" (temporarily sharing housing due to economic hardship) and 29% residing in shelters

In District 24, which encompasses Elmhurst, approximately 13% of students were identified as STH

Given these figures, it's reasonable to infer that a notable portion of P.S. 7's student body on any given day may be experiencing temporary housing instability. The school is committed to supporting these students through targeted interventions and community partnerships.

Total number of students in temporary housing currently attending PS7 Queens Elmhurst: 143 students.

After a careful analysis of historical demographic, attendance and achievement data for your STH population, what trends do you notice, and how can these trends inform the services and support

provided for this population?

Analyzing historical demographic, attendance, and achievement data for the 151 Students in Temporary Housing (STH) at P.S. 7 reveals key trends that inform targeted supports. These students often exhibit higher absenteeism rates and lower academic achievement compared to their peers, highlighting the need for tailored interventions. For example, addressing attendance challenges may involve implementing structured attendance improvement programs, proactive family outreach, and strengthened home-school partnerships to reduce barriers to consistent school participation. Academic supports may include personalized tutoring, small-group instruction, or extended learning opportunities designed to accelerate achievement among STH students.

The STH Title I Survey provides complementary, family-centered insights that inform service refinement. Survey feedback allows the school to identify specific challenges—such as needs for literacy support, social-emotional programming, or access to technology—and align Title I resources accordingly. For instance, survey results indicating a need for literacy interventions can guide allocation of funds to literacy specialists, targeted instructional materials, or structured reading programs.

Effectiveness of these services is continuously monitored through multiple mechanisms: attendance data dashboards, progress monitoring of academic interventions, participation logs for targeted programs, and follow-up surveys or family feedback sessions. Insights from both quantitative data and the STH Title I Survey are used to adjust strategies mid-year, ensuring that supports remain responsive, culturally relevant, and effective in promoting equitable outcomes for the STH population.

Describe the services you are planning to provide to the STH population. How were those services selected to best meet students' needs? How will you (or did you) utilize the STH Title I Survey to select services aligned to need?

At P.S. 7 Queens, the services provided to the 143 Students in Temporary Housing (STH) are intentionally selected based on historical trends in absenteeism, academic gaps, and family needs, as well as direct stakeholder input gathered through the STH Title I Survey. This data-driven approach ensures that supports are responsive to the unique challenges faced by STH students.

Planned services include:

Distribution of school supplies such as bookbags, lunch boxes, and classroom materials to ensure students are prepared for learning.

Provision of clothing including coats, jackets, gloves, and scarves to meet basic needs that may impact attendance and engagement.

Access to Before- and Afterschool programs to provide academic support, enrichment opportunities, and structured supervision.

Guidance Counselor services to address social-emotional needs and support consistent attendance.

Parental workshops designed to build family capacity to support learning and navigate school systems effectively.

These services were selected to directly address trends identified in the STH population, including higher absenteeism rates, gaps in academic achievement, and limited access to enrichment or social-emotional supports. Feedback from the STH Title I Survey helped refine these offerings, ensuring that interventions are culturally responsive, equitable, and aligned with the needs of both students and their families. Continuous monitoring of

service effectiveness, combined with ongoing family input, informs mid-year adjustments to maximize impact and promote academic progress and overall well-being for STH students.

Prioritizing Students in Foster Care

As included in your school's Office of School and Youth Development Consolidated Plan-Child Child Abuse and Neglect Intervention and Prevention School Plan and in accordance with the federal Education Law 3244 – Education of Children in Foster Care (Effective 2018) establishes the rights of students placed, or moved, in foster care to:

- Continue attending school of origin if determined to be in their best interest, or, if not, attend school near foster care placement,
- Immediate enrollment, and
- Transportation, if necessary to attend school of origin

Please respond to the questions below.

How many students in foster care are currently enrolled at your school? Provide a detailed breakdown of the social-emotional and academic supports available to them.

At PS7Q, the current enrollment includes students in foster care, consistent with district-wide trends. Exact enrollment numbers fluctuate, and the school maintains up-to-date records in coordination with the DOE's Office of School and Youth Development to ensure timely identification and support of these students.

PS7Q provides comprehensive social-emotional and academic supports tailored to the unique needs of students in foster care. Social-emotional supports include access to school counselors and social workers who provide individual counseling, crisis intervention, and coordination with external mental health services. Restorative practices and a nurturing school climate foster stability, belonging, and trust.

Academically, students in foster care receive targeted interventions aligned with their Individualized Education Programs (IEPs) or personalized academic plans when applicable. Supports include small group instruction, tutoring, and differentiated learning opportunities to promote academic progress. The school also ensures compliance with Education Law 3244 by facilitating immediate enrollment, transportation services, and prioritizing attendance in the school of origin when in the student's best interest.

Through collaboration with foster care agencies, families, and district support teams, PS7Q actively monitors student progress and adjusts supports to promote both well-being and academic success. This approach reflects the school's commitment to equity, responsiveness, and inclusive educational practices for all students.

What targeted supports are in place for students in foster care, including those newly transitioning into the foster care system? How does your school ensure these students receive the necessary interventions to promote stability and success?

At PS7Q, targeted supports for students in foster care, including those newly transitioning into the system, focus on creating a stable and nurturing environment to promote both social-emotional well-being and academic success.

Upon identification, these students are connected immediately with dedicated school counselors and social workers who provide personalized support, including trauma-informed counseling and crisis intervention as needed.

To ensure smooth transitions, PS7Q coordinates closely with foster care agencies, caseworkers, and families to facilitate immediate enrollment and, when appropriate, transportation to maintain continuity in the student's education. The school also conducts thorough needs assessments to develop individualized plans that address both academic and social-emotional needs, incorporating specialized interventions such as small group tutoring, differentiated instruction, and access to behavioral supports.

Regular progress monitoring and frequent communication with caregivers and external partners help ensure timely adjustments to interventions, promoting stability and fostering a sense of belonging. These comprehensive supports demonstrate PS7Q's commitment to equity and the success of students in foster care throughout their educational journey.

After analyzing historical demographic, attendance, and achievement data for students in foster care, what trends have emerged? How can these insights be used to improve the services and support provided to this population?

After analyzing historical demographic, attendance, and achievement data for students in foster care at PS7Q, several trends have emerged. These students often experience higher rates of chronic absenteeism compared to their peers, largely due to frequent placement changes and related disruptions. Academic performance data indicates that students in foster care may fall behind grade-level expectations, particularly in literacy and math, reflecting the compounded effects of instability and trauma. Social-emotional indicators also demonstrate increased need for counseling, behavioral supports, and interventions tailored to trauma-informed care.

To address these trends, PS7Q implements targeted interventions that are monitored for effectiveness using multiple tools and protocols. Attendance dashboards, academic progress reports, benchmark assessments, and individualized progress trackers are reviewed regularly—typically on a monthly basis—by counselors, social workers, and intervention teams. This data informs adjustments to individualized plans, ensuring timely and responsive support.

Staff receive ongoing training to recognize and respond to the unique needs of newly transitioning students, including trauma-informed practices, restorative approaches, and culturally responsive strategies. Cross-agency collaboration with foster care providers ensures immediate re-enrollment, transportation support, and continuity of services, minimizing the impact of placement changes on student learning.

By combining data-informed decision-making, staff professional development, and strong interagency collaboration, PS7Q fosters a responsive and inclusive environment that promotes academic growth, social-emotional well-being, and long-term success for students in foster care.

What specific strategies does your school implement to ensure students in foster care, particularly those in transitional grades, receive targeted Social-Emotional Learning (SEL) support? How do these strategies help address academic and behavioral challenges?

At PS7Q, we implement targeted strategies to ensure students in foster care, particularly those in transitional grades, receive comprehensive Social-Emotional Learning (SEL) support. Strategies include personalized SEL check-ins conducted by guidance counselors and social workers to assess emotional well-being and identify immediate needs. Small group counseling and peer support groups are provided to foster resilience, self-regulation, and social

skills in a safe, supportive environment.

Restorative practices and trauma-informed approaches are integrated throughout classrooms and the school community, promoting positive relationships and reducing behavioral incidents. Staff receive ongoing professional development on the unique challenges faced by students in foster care and the implementation of effective SEL interventions.

To monitor progress and ensure supports are having the intended impact, counselors and social workers track attendance, participation in SEL activities, behavioral referrals, and social-emotional indicators. Data is reviewed regularly during monthly SEL and student support team meetings, allowing staff to adjust interventions as needed.

These strategies create a stable, supportive foundation that addresses academic and behavioral challenges. Students who feel emotionally supported and connected are better able to focus on learning, engage in class, and build positive relationships. This holistic approach fosters improved attendance, reduces disciplinary referrals, and contributes to stronger academic outcomes for students in foster care.

Section 7: Parent and Family Engagement Policy and School-Parent Compact

Parent and Family Engagement Policy

Directions: The Parent and Family Engagement Policy should describe how your school will plan and implement effective parent and family engagement activities and/or strategies to improve student academic achievement and school performance. The School-Parent Compact (SPC) is a component of the Parent and Family Engagement Policy (PFEP) that outlines how parents, the entire school staff, and students will share this responsibility.

The activities and/or strategies included in your school's Parent and Family Engagement Policy should align with current Comprehensive Education Plan (CEP) goals for improving student achievement and should be developed or updated with input and feedback from parent leaders and the Parent Coordinator. In addition, if the school community will be engaged in central parent engagement initiatives, such as Parent Academy, which will provide training for school communities to help strengthen family-school partnerships, please be sure to include these activities in the school's policy.

In Title I schools, the Title I Parent Advisory Council (PAC) represents the Title I parent community in supporting parent and family engagement. The Title I PAC Chairperson will serve in a consultative role with the SLT representing the school's Title I parents. Schools are encouraged to use the sample Parent and Family Engagement and SPC templates below (which meet federal Title I parent and family engagement requirements) as guidance for updating the school's current policy.

Parent and Family Engagement Policy

Educational research demonstrates a strong correlation between effective parent and family engagement and student achievement. The overall aim of this policy is to establish a clear framework for meaningful parental and family engagement that directly supports students' academic goals.

P.S. 7 Q, District 24, in compliance with Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is responsible for developing and implementing a Parent and Family Engagement Policy (PFEP) that strengthens collaboration between the school and families to improve student outcomes. This policy outlines specific activities, timelines, and community partnerships designed to actively involve parents in supporting their children's education.

Parents are encouraged to participate in school governance and planning through the School Leadership Team,

Parent Association (or Parent-Teacher Association), and Title I Parent Advisory Council. Families are welcomed as trained volunteers and key contributors to school initiatives, ensuring that engagement is purposeful, structured, and aligned to academic achievement.

The PFEP further includes targeted strategies for communication, workshops, and events, including timelines and collaboration with community-based organizations (CBOs), to provide culturally responsive support and equitable access for all families.

Support for Parents and Family Members of Title I Students

P.S. 7Q provides structured, meaningful engagement opportunities for Title I families, aligned to academic goals and Title I requirements. Families participate in workshops and training on literacy, math, technology, and understanding city, state, and federal standards and assessments. Sessions are offered multiple times per year, in-person and virtually, to maximize accessibility.

Parents receive materials and guidance to actively support their child's learning and participate in planning and decision-making. Communication is ongoing through multilingual newsletters, emails, phone calls, and meetings, keeping families informed of programs, events, and student progress.

Staff professional development incorporates parent feedback and focuses on culturally responsive engagement, effective communication, and equity practices, ensuring strong home-school partnerships and empowering families to support academic success.

Parental Involvement and School Quality

P.S. 7Q's Parent and Family Engagement Policy is designed to actively involve all parents and guardians, including families of Multilingual Learners (ML/ELL) and students with disabilities, in supporting student academic achievement and school improvement. The policy is developed based on ongoing needs assessments and meaningful parent input, including feedback from school surveys, Title I evaluation data, and consultations with the Parent Association, School Leadership Team, and Title I Parent Advisory Council.

Parent Input & Evaluation of Title I Programs:

Parent feedback is used annually to evaluate the effectiveness of the engagement policy and Title I programs.

Input from surveys, focus groups, and meetings informs the design of strategies that align with CEP goals and respond to the unique needs of families, including literacy, math, and technology support.

Families are actively involved in decisions about the use of Title I 1% set-aside funds for parent engagement programs.

Engagement Activities & Timelines:

Annual Title I Parent Meeting to review programs, family rights, and engagement expectations.

Quarterly workshops and informational sessions on topics such as parenting skills, understanding academic assessments, curriculum guidance, literacy support, technology, and community resources.

Flexible meeting schedules, including morning and evening sessions, to maximize participation.

Regular multilingual communication via newsletters, emails, phone calls, and school events.

Building Parent Leadership Capacity:

Parents serve as active members of the School Leadership Team, Parent Association, and Title I Parent Advisory Council, contributing to planning, reviewing, and evaluating school programs.

Technical assistance and professional development are provided to help parents develop leadership and advocacy skills.

Parent Coordinators facilitate engagement, maintain logs of participation, and provide regular reports to school leadership to track effectiveness.

Accessibility & Inclusivity:

Translation and interpretation services are provided to ensure all parents can fully participate.

Workshops and communications are designed to be culturally responsive and accessible for families with diverse needs.

Through this comprehensive approach, P.S. 7Q ensures parent engagement strategies are explicitly linked to academic goals, provide meaningful opportunities for feedback, and strengthen family-school partnerships to improve student learning and well-being.

Encouraging School-Level Parental Involvement

P.S. 7Q is committed to strengthening parent and family engagement through structured, meaningful activities that directly support academic achievement and Title I/CEP goals. Parent input will be used to shape programming, evaluate effectiveness, and inform school-wide decisions.

Engagement Activities & Timelines:

Parent-Teacher Conferences: Held twice annually to discuss student progress, share strategies for home support, and gather feedback on Title I programming.

School Leadership Team, Parent Association, and Title I Parent Advisory Council Participation: Ongoing throughout the school year; parents provide input on school priorities, CEP goals, and the allocation of Title I resources.

Family Day Events & Workshops: Quarterly events focused on literacy, math, technology, and social-emotional learning strategies to support student achievement at home.

Parent Resource Center / Lending Library: Open throughout the year, providing instructional materials and guides to reinforce learning at home.

Volunteer & Leadership Opportunities: Parents receive training to serve as classroom and school volunteers, promoting leadership skills and active engagement.

Communication & Feedback:

Families receive written and verbal progress reports at regular intervals, supplemented by newsletters, web updates, and school planners/folders to ensure consistent information sharing.

All communication is provided in accessible formats and the languages most comfortable for families, ensuring inclusivity.

Parent feedback from conferences, surveys, and advisory council meetings is systematically collected and used to refine Title I programming, align supports to CEP goals, and guide the development of future engagement activities.

This structured approach ensures parents are not only informed but actively involved in shaping the educational experience, fostering collaboration that directly supports student success and the school's academic priorities.

School-Parent Compact (SPC)

School-Parent Compact (SPC)

P.S. 7Q, in compliance with Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), implements a School-Parent Compact to strengthen partnerships that support student achievement. The Compact clearly defines the shared responsibility of parents, students, and school staff in promoting academic success and ensuring all students meet State Standards.

Shared Responsibilities:

Parents: Support learning at home by reviewing assignments, attending parent workshops, monitoring progress through communication with teachers, and participating in decision-making through advisory councils and conferences.

Students: Take responsibility for completing assignments, actively participating in class, setting personal learning goals, and engaging in self-assessment and reflection.

School Staff: Provide high-quality instruction aligned to standards, offer targeted interventions, maintain open communication with families, and provide regular updates on academic progress.

Collaborative Review & Updates:

The Compact is reviewed and updated annually with input from parents, students, and staff during School Leadership Team meetings, Parent Association discussions, and Title I advisory council sessions.

Feedback collected from surveys, conferences, and workshops informs adjustments to the Compact to better reflect evolving academic goals, family needs, and CEP priorities.

This ongoing collaboration ensures alignment between the Compact, Title I objectives, and school-wide strategies for improving student outcomes.

By outlining clear roles and responsibilities and fostering continuous collaboration, P.S. 7Q promotes a unified approach to student success that actively engages families, empowers students, and strengthens instructional support.

I. School Responsibilities: High Quality CurriculumI. School Responsibilities: High Quality Curriculum

Provide high quality curriculum and instruction consistent with State Standards to enable participating children to meet the State's Standards and Assessments by:

- using academic learning time efficiently;
- respecting cultural, racial and ethnic differences;
- implementing a curriculum aligned to the State Learning Standards;
- offering high quality instruction in all content areas;
- providing instruction by highly qualified teachers and when this does not occur, notifying parents as required by the Every Student Succeeds Act (ESSA)

I. School Responsibilities: Supporting Home-School Relationships

P.S. 7Q, in compliance with Section 1116 of Title I, Part A of ESSA, implements a Parent and Family Engagement Policy and School-Parent Compact to strengthen collaboration between home and school and support student achievement.

School-Parent Compact
The Compact outlines how parents, students, and school staff share responsibility for student learning. It is reviewed annually with families, and their feedback informs improvements in academic strategies, Title I programming, and school-wide initiatives.

Parent Engagement and Communication
The school hosts an Annual Title I Parent Meeting to explain Title I services, funding, and parental rights. Parent-teacher conferences occur each semester, with additional meetings at flexible times, including mornings and evenings. Translation and interpretation services are provided to ensure equitable participation. Families are actively engaged in planning, reviewing, and evaluating Title I programs, the Parent and Family Engagement Policy, and the Compact. They serve on committees such as the School Leadership Team, Parent Association, and Title I Parent Advisory Council, with ongoing training to strengthen leadership capacity.

Differentiated Instruction and Academic Support
Instruction is tailored to meet the diverse needs of all students, including Multilingual Learners (MLs/ELLs) and students with disabilities, through scaffolded lessons, small-group instruction, IEP-aligned accommodations, and research-based strategies. Families are informed of instructional approaches during conferences, workshops, and written communications to support learning at home.

Family Workshops and Resources
P.S. 7Q offers workshops on literacy, math, technology, and parenting skills. Additional initiatives include Family Day events, instructional materials lending libraries, and opportunities for parent volunteers. Regular newsletters, web updates, and school planners facilitate ongoing communication.

Data and Continuous Improvement
Student progress and the effectiveness of engagement initiatives are monitored through conferences, surveys, and ongoing communications. Parent feedback informs adjustments to Title I programs and supports decision-making aligned with CEP goals.

Through these integrated strategies, P.S. 7Q fosters a welcoming, inclusive environment where families are empowered as partners, students receive personalized support, and the school community collaboratively promotes student achievement and well-being.

I. School Responsibilities: Providing Parents Reasonable Access to Staff

P.S. 7Q is committed to providing parents with meaningful access to school staff beyond scheduled conferences to foster ongoing communication and support student success. Families can schedule meetings with teachers, counselors, and specialists at convenient times, and staff are available for informal interactions, including phone calls, emails, and virtual check-ins. For families with limited English proficiency, interpretation services are provided to ensure all communication is clear, culturally responsive, and effective.

The school also offers training for parents to become classroom volunteers, observe instruction, and actively participate in their child's learning. Throughout the school year, structured opportunities such as Parent-Teacher Conferences, workshops, and family events are provided to promote engagement and partnership. These

interactions allow parents to stay informed about academic progress, social-emotional development, and school expectations, contributing directly to their child's achievement and overall success.

I. School Responsibilities: Providing General Support to Parents

P.S. 7Q is dedicated to providing meaningful support to parents by fostering a safe, inclusive, and effective learning community for students, while maintaining a welcoming and respectful environment for parents and guardians. We assist parents in understanding academic achievement standards, assessments, and strategies to monitor and support their child's progress. Professional learning opportunities and workshops are scheduled at times that maximize accessibility for families.

The school actively evaluates the effectiveness of parent support activities by collecting feedback through surveys, parent focus groups, and ongoing participation metrics. This information is used to refine and improve engagement strategies, ensuring alignment with the goals outlined in the CEP. Title I funds allocated for parent involvement are used strategically to build parent capacity through workshops, training sessions, resource materials, and events that directly support academic achievement and the priorities established in the School-Parent Compact and Parent and Family Engagement Policy.

Additionally, parents are informed of their right to file a complaint under the Department's General Complaint Procedures, in accordance with Title I and ESSA requirements, ensuring that families have a voice in the education process and that continuous improvement in parent engagement is maintained.

II. Parent/Guardian Responsibilities

Parents play a vital role in supporting their child's education and are encouraged to actively participate in a variety of ways. This includes monitoring attendance, ensuring timely arrival at school, and following proper procedures to notify the school of any absences. Parents are also encouraged to establish consistent routines, such as a regular bedtime, to help their child arrive well-rested and prepared for learning each day.

To support academic growth, parents are provided with resources and guidance for helping with homework, engaging in daily reading or discussions about reading for at least 15 minutes, and promoting positive use of extracurricular time, including clubs, sports, and extended learning opportunities. The school also offers guidance on setting reasonable limits on screen time and reinforcing the use of structured, enriching activities at home.

Parents are supported in reinforcing school rules, discussing the School-Parent Compact with their children, volunteering at school or assisting from home, and participating in educational decisions. Training and ongoing communication—including workshops, newsletters, and conferences—help families understand teaching and learning strategies, promote literacy and numeracy, and clarify their shared responsibilities in supporting student success.

Families are encouraged to provide feedback through surveys and focus groups, which directly inform the development, implementation, evaluation, and revision of the Parent and Family Engagement Policy and School-Parent Compact. Engagement opportunities also include participation in school leadership groups, such as the Parent Association, Parent-Teacher Association, Title I Parent Advisory Council, and School Leadership Teams.

Through these coordinated efforts, parents and the school share accountability for student achievement, ensuring that all children receive the support needed to thrive academically, socially, and emotionally.

III. Student Responsibilities

Students play a central role in their own education and are encouraged to take responsibility for both their learning and behavior. At the start of each school year, students are introduced to the School-Parent Compact through classroom discussions, assemblies, and guidance sessions, ensuring they understand their responsibilities and how their actions contribute to academic success. Teachers and counselors guide students in setting personal academic and social-emotional goals, helping them track progress and reflect on achievements throughout the year.

Students are expected to attend school regularly and arrive on time to maximize learning opportunities. Completing homework, participating in class, and submitting assignments on time reinforces learning and helps students stay on track with their goals.

Following school rules, demonstrating respect for themselves, peers, teachers, and school property, and taking accountability for their actions contribute to a safe, inclusive, and supportive school environment. When conflicts or disagreements arise, students are taught to use restorative practices and problem-solving strategies to resolve issues respectfully and constructively.

By engaging in these responsibilities and setting meaningful goals, students develop essential academic and social-emotional skills. They are encouraged to approach challenges with a growth mindset, maintain a positive attitude toward learning, and take ownership of their academic and personal growth, fostering long-term success.

Title I Program Information

Part 1: Title I Program Type

Title I Requirements and Strengthening Title I Parent Involvement: Under USDOE's Every Student Succeeds Act (ESSA), Title I schools are required to address professional learning and parent and family engagement in the Comprehensive Education Plan (CEP). To strengthen parent leadership in Title I schools, and increase the involvement of all parents of Title I eligible children in improving students' academic outcomes, all Title I schools are required to establish a Title I Parent Advisory Council (PAC) that will serve as the consultative and representative body for all Title I parents in the school to provide voice into the spending of Title I funds.

The SLT is responsible for facilitating consultation with the Title I Parent Advisory Council regarding the joint development of the CEP, Parent and Family Engagement Policy, School Parent Compact (SPC) and the use of the 1% parent involvement set-aside in Title I schools. The Title I Parent Advisory Council (PAC) Chairperson (or alternate) is expected to attend all regular meetings of the School Leadership Team (SLT). Title I parents, as represented by the Title I PAC Chairperson, must be consulted regarding the use of the Title I 1% set-aside for parent and family engagement. The Title I 1% set-aside funding is used to supplement parent and family engagement activities as described in the school's Parent and Family Engagement Policy and must be aligned with student achievement goals as outlined in the CEP. For additional guidance on the Title I Parent Advisory Council (PAC), go to the Protocols and Timeline for Title I Parent and Family Engagement Activities document.

Directions:

- All schools must indicate their Title I status in Part 1.
- All elements of the All Title I Schools section must be completed in Part 2.
- All Targeted Assistance (TA) Schools must also complete the TA Schools Only section in Part 3.
- All Schoolwide Program (SWP) schools must also complete the SWP Schools Only section in Part 4.
- If a required component is addressed elsewhere in this plan, you may refer to the section or Priority where the response can be found.
- For additional information, visit the Title I Program Description (US Department of Education).

Your school's Title I Program

Title I SWP

Part 2: All Title I Schools

High Quality and Ongoing Professional Learning: Please list below the Priority or section(s) that indicate strategies and activities for high quality professional learning for teachers, principals, staff, and paraprofessionals to enable all students to meet state standards.

Areas of Concentration for Professional Development (PD):

Early Literacy: PD will ensure that all teachers, principals, staff, and paraprofessionals understand the foundations of reading and are equipped to support students in developing emergent literacy skills and strategies. Training will include targeted instruction on identifying and supporting students with dyslexia and other learning disabilities.

Timeline: Initial PD sessions will occur at the start of the school year, with follow-up workshops and refresher sessions quarterly.

Coaching and Support: Inclusion coaches and literacy specialists will provide classroom modeling, co-teaching support, and ongoing observation/feedback cycles.

Connection to CEP Priorities: These activities align with Priority 1: Quality Instruction and Tiered Academic Supports, and are coordinated with Tier 2 and Tier 3 interventions described in the MTSS section, ensuring consistency in literacy support across all tiers.

Using Technology in the Classroom for Authentic Tasks, Assessment, and Progress Monitoring: Teachers and paraprofessionals will engage in ongoing PD to effectively integrate technology into instruction. Training will focus on leveraging digital tools for authentic learning experiences, formative and summative assessments, and individualized progress monitoring.

Timeline: PD sessions will be delivered during embedded PD days, with monthly coaching check-ins and walkthroughs to monitor application.

Coaching and Support: Tech coaches and instructional facilitators will provide in-class support, help design lessons incorporating technology, and track student engagement and learning outcomes.

Connection to CEP Priorities: This PD aligns with Priority 2: Data-Driven Instruction and Student Progress Monitoring, and is coordinated with SEL and Tier 2/Tier 3 MTSS supports to ensure technology is used to enhance both academic and social-emotional outcomes.

Social-Emotional Learning (SEL) and Tiered Intervention Integration: Staff will receive PD on embedding SEL strategies into academic instruction and implementing Tier 2 and Tier 3 behavioral and social-emotional interventions effectively.

Timeline: Initial SEL and MTSS-focused PD will occur in early fall, with ongoing coaching and monthly team review meetings to monitor fidelity of implementation.

Coaching and Support: School counselors, social workers, and inclusion coaches will provide modeling, data review support, and feedback cycles to reinforce implementation.

Connection to CEP Priorities: This is aligned with Priority 3: Equity in School Discipline and Tiered Behavioral

Supports, creating coherence with academic and SEL goals across the CEP.

Progress Monitoring and Data Use: Staff will be trained to use assessment and progress monitoring tools effectively, including formative assessments, intervention tracking tools, and technology-based platforms to inform instruction.

Timeline: Training will be provided at the start of the year, with follow-up sessions after each assessment cycle.

Coaching and Support: Data teams and instructional coaches will guide teachers in interpreting student data to adjust instruction and interventions.

Connection to CEP Priorities: This links directly to Priorities 1 and 2, ensuring that both academic and social-emotional interventions are informed by real-time, actionable data.

Summary:
By linking PD to specific CEP priorities, providing structured coaching, embedding SEL and MTSS strategies, and establishing clear timelines and progress monitoring, PS7Q ensures that professional development directly supports improved student outcomes and consistent implementation across classrooms.

3. Social Emotional Learning: Guidance counselors will continue to provide professional development to all staff, including school aides, on how to support students' social emotional wellness.

Part 4: Schoolwide Program (SWP)

Transition Plans to Assist Preschool Children (Elementary Schools Only): Describe the transition plans used to assist preschool children from early childhood programs to the elementary school program (e.g. aligned curriculum, joint PD & parent involvement activities, sharing of records/information, early intervention services, etc.).

Transition Plans for Incoming Pre-K and Kindergarten Students

PS 7Q has developed a thoughtful, multi-tiered transition plan to support incoming Pre-K and Kindergarten students, ensuring a smooth and successful start to their elementary school experience.

Welcome Orientations:
We host multiple “Welcome to Our School” orientations for incoming students and families. These sessions are offered twice—one in the morning and one in the evening—to accommodate diverse family schedules. During the orientations, parents and children meet their teachers, tour the school, and engage in Q&A sessions. Families are provided with information on school routines, academic expectations, and social-emotional supports, helping them feel prepared and confident as their children transition.

Aligned Curriculum:
Students in our Pre-K program are introduced to foundational skills, including the Fundations phonics and word study program, to develop early phonemic awareness. This curriculum alignment allows students to seamlessly continue literacy instruction in Kindergarten, fostering early academic success and confidence.

Social-Emotional Supports:
Transition activities include structured small-group sessions and interactive classroom visits to help students acclimate to the school environment. Teachers and counselors provide support to develop social skills, routines, and coping strategies, reducing anxiety and promoting positive peer interactions.

Family Engagement Strategies:
Parents are actively involved in preparing their children for the transition. Workshops and informational sessions provide guidance on supporting early literacy, social-emotional development, and school readiness at home. Families receive resources and strategies to reinforce learning, and they are encouraged to participate in school activities that build connections with staff and other families.

Connection to CEP Priorities:
These transition activities are linked to broader family engagement and Tiered Support strategies outlined elsewhere in the CEP. By integrating academic, social-emotional, and family engagement components, PS 7Q ensures that students entering Pre-K and Kindergarten are well-supported and ready to thrive academically and socially from the first day of school.

All students receive a "welcome packet" when they register for our school which includes free books, manipulatives, and tools such as a Fundations alphabet chart, Kindergarten Word List, hundreds chart, and other information about the school.

We will also provide a "Meet the Teacher" event over the summer for students to come and meet their teacher and their classmates. Date TBD.

Part 5: "Conceptual" Consolidation of Funds in SWP Schools

Directions: All Schoolwide Program (SWP) schools in NYC are conceptually consolidating their Federal, State, and Local funds, even though the Galaxy system reports the allocations in separate accounting codes1. To be eligible for the flexibility consolidation of Federal funds, a Schoolwide Program school must identify in its Schoolwide plan (CEP) which programs are included in its consolidation and the amount each program contributes to the consolidated Schoolwide pool. Additionally, the school plan must document that it has met the intent and purposes of each program whose funds are consolidated2. **On the chart below**, indicate which Federal, State, and/or local Tax Levy program funds that are consolidated in your school's Schoolwide Program, the amount each program contributes to the consolidated Schoolwide pool, and verification that the school has met the intent and purposes of each program whose funds are consolidated.
For the last two columns of this table: Place an (X) in Column A below to verify that the school has met the intent and purposes of each program whose funds are consolidated. Indicate in Column B, the Priority or section that references where a related program activity has been described in this plan.

Program Name	Fund Source (i.e. Federal, State or Local)	Funding Amount: Indicate the amount contributed to Schoolwide pool. (Refer to Galaxy for school allocation amounts)	Column A Verify with an (X)	Column B Section/Priority Reference(s)
Title I, Part A (Basic)	Federal	165,000	x	Afterschool programs align with the CEP priority to improve academic achievement and student engagement by providing extended learning opportunities beyond the school day. Activities described under this priority support goals outlined in the CEP by offering targeted academic interventions, enrichment experiences, and social-emotional supports. These programs help address identified student needs, reinforce classroom instruction, and promote equitable access to learning opportunities for all students.
Title I, School Improvement 1003(a)	Federal	50,000	x	Building upgrades align with the CEP priority to create a safe, supportive, and inclusive learning environment that fosters student success. Improvements to school facilities—such as enhanced lighting, updated classroom spaces, and upgraded technology or ventilation—support the CEP's

				focus on student well-being and engagement. These upgrades ensure that the physical environment promotes effective teaching and learning, accessibility for all students, and a positive school climate.
Title II, Part A	Federal	97508	x	Coaching, mentoring, and instructional supplies align with the CEP priority to strengthen instructional practices and improve student outcomes. These supports ensure that teachers receive ongoing professional development and individualized guidance to implement effective, data-driven strategies in the classroom. Providing necessary instructional materials and resources enhances lesson delivery, supports differentiated instruction, and helps address the diverse academic and social-emotional needs of all students.
Title III, Part A	Federal	44893	x	ENL programs, Arts, Afterschool programs, and instructional supplies align with the CEP priority to promote equitable access to high-quality instruction and enrich the whole-child learning experience. ENL services provide targeted language development and academic support for multilingual learners, ensuring progress toward English proficiency and grade-level standards. Arts and Afterschool programs extend learning beyond the classroom, fostering creativity, engagement, and social-emotional growth. Instructional supplies further support these initiatives by equipping classrooms with the resources needed to deliver rigorous, culturally responsive, and engaging instruction aligned to CEP goals.
Title III, Immigrant	Federal	11298	x	ENL programs, Arts, Afterschool programs, and instructional supplies align with the CEP priority to promote equitable access to high-quality instruction and enrich the whole-child learning experience. ENL services provide targeted language development and academic support for multilingual learners, ensuring progress toward English proficiency and grade-level standards. Arts and Afterschool programs extend learning beyond the classroom, fostering creativity, engagement, and social-emotional growth. Instructional supplies further support these initiatives by equipping classrooms with the resources needed to deliver rigorous, culturally responsive, and engaging instruction aligned to CEP goals.
Title IV, Part A	Federal	n/a	x	n/a
Tax Levy (Fair Student Funding)	Local	9,469,280	x	Salaries, per-diem staffing, Afterschool programs, supplies, furniture, and electronics align with the CEP priority to enhance the quality of instruction and ensure a supportive, well-resourced learning environment for all students.

				Funding in these areas supports extended learning opportunities, targeted academic interventions, and enrichment activities. Updated furniture and technology promote collaboration, accessibility, and engagement, while instructional supplies ensure teachers have the necessary tools to implement effective, standards-based instruction. Collectively, these resources advance the CEP's goals of improving student achievement, fostering equity, and creating a safe, inclusive, and dynamic school environment.

Explanation/Background

1. Explanation/Background:

Title I Schoolwide Program schools are expected to use the flexibility available to them to integrate services and programs with the aim of enhancing the entire educational program and helping all students reach proficient and advanced levels of achievement. In addition to coordinating and integrating services, Schoolwide Program schools may combine most Federal, State and local funds to provide those services. By consolidating funds from Federal, State, and local sources, a Schoolwide Program school can address its needs using all its available resources. This gives a school more flexibility in how it uses available resources to meet the identified needs of all its students.

Consolidating funds in a Schoolwide Program means that a school treats the funds it is consolidating like they are a single "pool" of funds. In other words, the funds from the contributing programs in the school lose their individual identity and the school has one flexible pool of funds. The school uses funds from this consolidated Schoolwide pool to support any activity of the Schoolwide Program without regard to which program contributed the specific funds used for a particular activity – so long as the use of funds meets the intent and purposes of the programs from which the funds originate. To consolidate funding in a Schoolwide Program, the school does not literally need to combine funds in a single account or pool with its own accounting code. Rather, the word "pool" is used conceptually to convey that a Schoolwide Program school has the use of all consolidated funds available to it for the dedicated function of operating a Schoolwide Program without regard to the identity of those funds.

Consolidating Federal funds in a Schoolwide Program has the following additional advantages:

- Consolidating Federal funds eases the requirements for accounting for funds from each specific program separately, because a Schoolwide school is not required to distinguish among funds received from different sources when accounting for their use.
- A school that consolidates Federal funds in its Schoolwide Program is not required to meet most of the statutory and regulatory requirements of the specific Federal programs included in the consolidation (e.g., semi-annual time and effort reporting for Title I). However, the school must ensure that it meets the intent and purposes of the Federal programs included in the consolidation so that the needs of the intended beneficiaries are met.

2. The intent and purposes of the Federal programs indicated on the chart above (Part 4c of this section) are as follows:

- **Title I, Part A – Schoolwide Programs:** To upgrade the entire educational program in the school in order to improve the academic achievement of all students, particularly the lowest-achieving students. This includes provision of services for Students in Temporary Housing (STH).
- **Title I 1003(a), School Improvement: Comprehensive Support and Improvement (CSI), Additional Targeted Support and Improvement (ATSI) and Targeted Support and Improvement (TSI) Funding:**

Support implementation of school improvement plans that aims to improve instruction and address the identified needs

Title II, Part A: Supplementary funding to improve student academic achievement by reducing class size in grades K, 1, 2, and 3, with an emphasis on grades with an average register greater than 20. If space is not available to form additional classes, funds may support push-in teacher(s) to supplement the instructional program. For schools that choose to reduce class size, priority must be given to reducing class size in general education settings and must demonstrate the following:

- Reduce class sizes to 15-18 students or fewer (including the use of co-teaching and floating teachers that bring the student to teacher ratio to one teacher per 15-18 students);
- Be accompanied by a rigorous curriculum, effective teachers, and a sustained, job-embedded professional development plan.

- **Title III, Part A:** To help ensure that children with limited English proficiency become proficient in English, develop high academic attainment in English, and meet the same challenging State academic content and achievement standards in the core academic subjects that all other children are expected to meet. Another purpose of this program is to increase the capacity of schools to establish, implement and sustain high-quality language instruction programs and English language development programs that assist schools in effectively teaching students with limited English proficiency. Title III, Part A is also designed to promote the participation of parents and communities of limited English proficient children in English language instruction programs.
- **Title III Immigrant**: Supplementary and enhanced services to immigrant students, in the areas of English language acquisition and content area achievement. Immigrant children and youth are defined as individuals who are aged 3 through 21, have not been attending school in any one or more states for more than three (3) full academic years, and were not born in any state. "State" means the 50 states of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. Children born to U.S. citizens abroad, the U.S. Virgin Islands, or any other U.S. territory that is not D.C. or Puerto Rico are to be considered immigrants.
- **Title IV, Part A**: Title IV funds are for schools that are among those with the greatest needs, have the highest numbers of students from low-income families, are identified for CS, ATSI or TSI, or are identified as persistently dangerous public schools. Allowable uses of funds under well-rounded education, safety and health, and educational technology include direct services for students, professional development for teachers and administrators, and supplemental educational resources. School allocations have been provided for well-rounded education, social emotional learning, cultural responsiveness awareness, professional development to support implementation of technology and blended learning environments, and community coordinators in schools with high rates of students in temporary housing

- Students in Temporary Housing (STH): Schools must describe their use of Title I STH funds in their consolidated application.

Important Note: The following funds may not be consolidated:

- **Title I Parent Involvement Set-aside:** Title I, Part A funds must support parent involvement activities and programs. Chancellor's Regulation A-655 requires School Leadership Teams to consult with Title I parent representatives regarding the Title I program and the use of these funds. Parent involvement activities funded through Title I must be included in the Parent and Family Engagement Policy and aligned with student achievement goals in the school comprehensive educational plan.
- **IDEA:** To ensure that all children with disabilities have available to them a free appropriate public education designed to meet their individual needs.
- **Grant funds awarded via a competitive process:** These funds must be used for the purposes specified by the Grantor, as described in the school's approved grant application.

Submission Assurances

Submission Assurances

- ☐ The Comprehensive Education Plan (CEP) has been developed in consultation with parents, school staff, and others in accordance with the requirements of Shared-Decision Making (CR 100.11) to provide a meaningful opportunity for stakeholders to participate in the development of the plan and comment on the plan before it is approved.
- ☐ As part of the root cause analysis process, the school reviewed inequities, including resource inequities within the school, and investigated areas of low performance to identify strategies to address inequities within the school and promote improved student outcomes.
- ☐ The CEP School Leadership Team (SLT)/Stakeholder Signature Page will be printed, scanned, and submitted with the signatures of those that participated in the development of the CEP. DocuSign may also be used to secure electronic signatures for the CEP SLT/Stakeholder Signature Page. If the school was unable to obtain a signature of an individual that participated in the development of the CEP, the school has written “Addendum Attached” and provided supplemental documentation to explain why the school was unable to obtain the individual’s signature.
- ☐ The CEP will be implemented no later than the beginning of the first day of regular student attendance.
- ☐ Professional development will be provided to teachers and school leaders that will fully support the strategic efforts described within this plan.

Language Allocation Policy Outline

Language Allocation Policy Outline

2025-26 Language Allocation Policy (LAP)

This submission form supports schools with organizing a well-conceived school-based Language Allocation Policy (LAP) that describes high quality programs for Multilingual Learners/English Language Learners (MLs/ELLs). This is an annual plan of how your school will support the linguistic and academic needs of MLs/ELLs and must be completed yearly. The Language Allocation Policy (LAP) is a part of schools' Comprehensive Education Plan (CEP).

This is a living document. Any school-wide changes involving the instruction of MLs/ELLs, such as the addition or expansion of a Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE) program, should be updated in this form.

Agenda, minutes of LAP meetings, and LAP team members' attendance at meetings should be kept readily available on file in the school with all other ML/ELL critical documents. When preparing your school's submission, provide extended responses in the available spaces.

For additional information, refer to the NYC DOE Policy and Reference Guide for MLs/ELLs. For additional support with ML/ELL policy, please reach out to your respective ML/ELL Director or ELL Compliance Performance Specialist; for support with ML/ELL instruction, please contact your ML/ELL Services Administrator.

Part I: School ML/ELL Profile

This section should reflect the school's demographics for the 2025-26 school year. If completing before the 2025-26 school year begins, questions should be based on the anticipated population served by the school.

A. Language Allocation Policy Team Composition

The members of the school's LAP team are listed below. A school's LAP team must consist of at least one: principal, assistant principal (where applicable), an English as a New Language (ENL) teacher, an additional teacher (bilingual teacher if the school has a bilingual program or a teacher from a content area other than bilingual education or ENL) and a parent/guardian.

Required LAP team members are denoted with an asterisk (*) below. Please do not leave any fields blank. If a role is not represented on the LAP team, include "N/A" below.

Member Title	Name
Principal*	Robert Aiello
Assistant Principal (Where Applicable)*	Cheralene Kondel
English as a New Language (ENL) Teacher*	Orit Sperber
Teacher (if school has a bilingual program must be a bilingual teacher)*	Ana Castillo
Parent/Guardian*	Michael Martizano
Teacher	Jennifer Caruana
Parent Coordinator	Tania Melito
School Counselor	Kitty Chu
Related-Service Provider	Argyro Vatougios
Activities Coordinator	Jennifer Galanga
Other (Name and Title)	

B. Teacher Qualifications

Please review all certifications for all staff members at your school, and indicate the number of certified staff for each category.

1. English to Speakers of Other Languages (ESOL) Certified Teacher

Number of ESOL certified teachers currently teaching ENL:

21

Number of teachers currently teaching a stand-alone ENL class who hold both a common branch license and ESOL certification [applicable to grades K–6]:

21

Number of certified ESOL teachers not currently teaching ENL:

1

Number of teachers who hold both content area/common branch and ESOL certification:

22

Number of ESOL certified teachers with a bilingual extension:

11

2. Certified Teachers with a Bilingual Extension

Number of certified teachers with a bilingual extension currently teaching in a bilingual program:

11

Number of certified teachers with a bilingual extension not currently teaching in a bilingual program:

0

Number of teachers certified to teach students with disabilities that also have a bilingual extension:

2

3. Language Other than English (LOTE)/World Language Certified Teachers:

Total number of teachers with LOTE certification:

0

Total number of teachers with LOTE certification providing World Language instruction:

0

Total number of teachers with LOTE certification providing Home Language Arts (HLA) to students in bilingual programs:

0

C. Student Demographics

Please review the student demographics at your school and complete the number and percentage for each category.

Total number of students (excluding pre-K):

1105

Total number and percentage (%) of current ELLs:

35.5%

Total number and percentage (%) of former ELLs:

9.4%

Total number and percentage (%) of ELLs who are Newcomers (0-3 years of service):

85.9%

Total number and percentage (%) of ELLs who are Developing ELLs (4-6 years of service):

14.1%

Total number and percentage (%) of ELLs who are Long-Term ELLs (7 or more years of service):

0.0%

Total number and percentage (%) of ELLs who are Students with Inconsistent/Interrupted Formal Education (SIFE):

0.3%

Total number and percentage (%) of ELLs with an Individualized Education Program (IEP):

21.7%

Part II: Bilingual Programs

Does your school have a bilingual program (Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)?

Yes

Provide the number of classrooms for each bilingual program, by grade, at your school for the 2025-26 school year. If submitted before the 2025-26 school year begins, this should be the anticipated number of classrooms based on anticipated enrollment. Each language and program model--Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)--is considered a separate program. In the second column, please indicate if the program is General Education (GE), Integrated Co-Teaching (ICT) special education, Special Class (SC), or Mixed-Group Class (MGC) special education. If a classroom bridges two grades, list as 0.5 classrooms for both grades.
Please include the total number of classrooms for each bilingual program in the last column.

	Program Type	Language	School Yr Opened	k	1	2	3	4	5	6	7	8	9	10	11	12	Totals
TBE																	0
TBE																	0
TBE																	0
DLBE	DLBE	SP	2010	1	1	1	1	1	1								6
DLBE	DLBE	CH	2010	1	1	1	1	1	1								6
DLBE																	0
				total: 2	total: 2	total: 2	total: 2	total: 2	total: 2	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	

Part III: ML/ELL Programming

Please refer to New York State **Commissioner's Regulation (CR) Part 154 Units of Study Tables** as you describe academic programming for MLs/ELLs at your school below. Please do not leave any fields blank and indicate "N/A" for any fields that are not applicable.

Describe your English as a New Language (ENL), and if applicable Dual Language Bilingual Education (DLBE), and Transitional Bilingual Education (TBE) programs. For each program, include:

- How stand-alone ENL is implemented as per CR Part 154
- How integrated ENL is implemented as per CR Part 154
- How students are grouped (e.g., block [class travels together as a group], ungraded [all students regardless of grade are in one class], heterogeneous [mixed proficiency levels], homogenous [proficiency level is the same in one class]).

a. English as a New Language (ENL)
Stand-alone ENL:

Our English as a New Language (ENL) program in grades K–5 provides a comprehensive combination of integrated and stand-alone instruction that is fully aligned with CR Part 154 requirements. This ensures that every English Language Learner receives the mandated instructional minutes, is taught by appropriately certified ENL staff, and participates in curriculum-aligned lessons designed to promote both language development and academic success. Our current ELL population includes 349 students across all proficiency levels, including 20 Entering, 60 Emerging, 97 Transitioning, 123 Expanding, and 49 Commanding students who receive continued support during their two-year extension period. Stand-alone ENL services are provided by grade level, with 63 kindergarten, 64 first-grade, 82 second-grade, 82 third-grade, 63 fourth-grade, and 43 fifth-grade students receiving direct, proficiency-based instruction.

Integrated ENL instruction is delivered through a co-teaching model in which ENL-certified teachers push into general education classrooms to support English Language Arts instruction using the HMH Into Reading curriculum. This approach satisfies CR Part 154 by embedding language development directly into grade-level content with a certified ENL teacher present. During these lessons, ENL teachers provide scaffolds such as visual supports, sentence frames, bilingual glossaries, and explicit vocabulary instruction, ensuring that students at all proficiency levels can meaningfully access the curriculum. For example, in a Grade 4 literacy block, an ENL teacher rotates through small-group literacy stations alongside the classroom teacher, supporting Entering through Expanding-level students during reading comprehension and vocabulary tasks. These heterogeneous groupings allow ELLs to work collaboratively with peers of varying proficiency levels, benefiting from rich language exposure and peer modeling.

Stand-alone ENL instruction complements the integrated model by providing focused, proficiency-level instruction that occurs separately from the core ELA block, in full compliance with CR Part 154 requirements. These sessions are taught by ENL-certified teachers and are scheduled according to each student's mandated minutes. Stand-alone instruction uses the Rigby Guided Reading program and language-focused lessons that target foundational literacy, oral language development, vocabulary building, grammar, and reading comprehension. In these settings, grouping is primarily homogeneous. For instance, a group of Entering-level Grade 2 students may work together in a small group to build oral language, practice phonics, and strengthen comprehension through structured, level-appropriate texts. Across the school, we maintain 16 homogeneous groups for stand-alone instruction and support 12 heterogeneous classes through integrated co-teaching.

Vocabulary development is intentionally embedded across both instructional models. ENL teachers pre-teach academic vocabulary aligned with upcoming content, helping students build the background knowledge necessary to fully engage with new material. Through visuals, concrete examples, hands-on activities, and explicit instruction in morphology—including prefixes, roots, and suffixes—students develop both the conceptual understanding, and the language structures needed for academic success.
Together, the integration of co-taught lessons, targeted stand-alone sessions, structured grouping practices, and explicit vocabulary instruction creates a strong, cohesive ENL program. This approach ensures that students receive comprehensive language support, consistent access to grade-level standards, and targeted instruction based on

their individual proficiency needs. As a result, our ELLs are well-prepared to make measurable progress in both English language acquisition and overall academic achievement.

Integrated ENL:

In grades K–5, our school offers 18 self-contained English as a New Language (ENL) classes taught by dually certified ENL and Common Branch teachers. These classrooms are intentionally structured as heterogeneous learning environments, bringing together students across all proficiency levels—including Entering, Emerging, Transitioning, Expanding, and Commanding—as well as Non-ELL students. This model allows language development to take place within a natural, interactive setting where students learn from one another while engaging in content-rich lessons. Across the school, we currently serve 349 students, with 20 Entering, 60 Emerging, 97 Transitioning, 123 Expanding, and 49 Commanding students represented.

All ENL classes follow the workshop model across content areas, ensuring that instruction is student-centered, interactive, and grounded in differentiated small-group teaching. Because these classes are heterogeneous by design, English Language Learners receive daily opportunities to practice language skills alongside English-proficient peers. In alignment with CR Part 154, Entering and Emerging ELLs receive 180 minutes of stand-alone ENL instruction and 180 minutes of integrated ENL instruction each week. When a classroom teacher holds ENL certification, these 360 minutes may be met entirely through integrated instruction without requiring pull-out services. Transitioning and Expanding ELLs receive 180 minutes of integrated ENL support, while Commanding students receive 90 minutes per week.

To meet these requirements, 80 Entering and Emerging students receive their 180 minutes of stand-alone instruction outside the regular classroom. These students are grouped by grade and proficiency level, with 63 kindergarten students, 64 first-grade students, 82 second-grade students, 82 third-grade students, 63 fourth-grade students, and 43 fifth-grade students receiving stand-alone instruction. Transitioning, Expanding, and Commanding students receive their mandated minutes through a combination of push-in and pull-out support, depending on individual student needs and the ENL teacher's schedule.

This service model ensures that all ELLs receive instruction targeted to their proficiency level while remaining active participants in a linguistically diverse classroom environment. By balancing stand-alone instruction with integrated, language-rich learning experiences, we provide students with comprehensive support that strengthens both language acquisition and academic achievement.

b. Bilingual Education (If applicable)
Transitional Bilingual Education (TBE):

N/A

Dual Language Bilingual Education (DLBE):

Our Dual Language Bilingual Education (DLBE) program includes one self-contained one-way Spanish Dual Language class and one self-contained one-way Chinese Dual Language class at every grade level from kindergarten through grade five. The Spanish DLBE program serves a total of 128 students, including 54 English Language Learners (ELLs) distributed as follows: 8 Entering, 15 Emerging, 7 Transitioning, 15 Expanding, and 9 Commanding. The Chinese DLBE program serves a total of 122 students, including 56 ELLs distributed as follows: 2

Entering, 4 Emerging, 7 Transitioning, 20 Expanding, and 23 Commanding. These heterogeneous classes are intentionally structured to promote bilingualism, biliteracy, and cross-linguistic transfer, providing daily opportunities for students to interact across varying levels of English and home-language proficiency.

Instruction in both the Spanish and Chinese DLBE programs is delivered through a 50/50 language allocation model. Our K–5 classrooms alternate the language of instruction daily to provide equal access to English and the target language across the week. English literacy instruction is provided through the HMH Into Reading program, while Spanish literacy instruction uses Arriba la Lectura! alongside Estrellita/Lunita for foundational skills. Chinese literacy instruction is delivered through Shared Reading with iChineseReader and the Chinese Made Easy program. Content areas, including Math, Science, and Social Studies, are also divided evenly across a five-day cycle to ensure that students develop academic vocabulary and conceptual understanding in both languages.

Within the DLBE model, ENL support is integrated directly into the bilingual classroom. All bilingual teachers are dually certified and deliver the mandated ENL services required under CR Part 154.2. This means that ELLs receive their required English language development minutes through a combination of English-medium instruction, explicit language scaffolds, and targeted ENL strategies embedded within the curriculum. Teachers incorporate vocabulary previews, sentence frames, language objectives, and targeted small-group instruction to ensure that ELLs strengthen their English proficiency while continuing to develop literacy and content knowledge in the partner language. This balanced approach allows bilingual instruction and ENL services to work in tandem, supporting students' language development in both English and their home language without removing them from the dual-language environment.

All bilingual classrooms maintain clear language separation through a consistent color-coding system—red for Spanish or Chinese and blue for English. Classroom libraries, anchor charts, word walls, and instructional materials are labeled accordingly, helping students develop metalinguistic awareness and reinforcing the designated language of instruction for each day.

2. How does your school ensure the mandated number of instructional minutes are provided according to students' English language proficiency levels in each program model?

The organization of our instructional staff ensures that all English Language Learners (ELLs) receive the mandated number of instructional minutes in full alignment with CR Part 154.2. Dual Language teachers are certified in Common Branch with a Bilingual Extension, and our self-contained ENL classes are taught by teachers who hold dual certification in Common Branch and TESOL. Students receive the appropriate number of ENL support units based on their NYSITELL or NYSESLAT proficiency levels, and all ELLs are placed in classes in accordance with the instructional requirements established by the state. Self-contained ENL classes are heterogeneously grouped to include students who require double service, single service, or half service, and they may also include English-proficient model students who support language-rich classroom interactions.

In the Free-Standing English as a New Language (ENL) program, students receive all core instruction in English with embedded language supports and scaffolds. Per CR Part 154.2, Entering and Emerging students receive 360 minutes of ENL instruction weekly—180 minutes of stand-alone ENL and one unit of integrated ENL/ELA instruction. Transitioning and Expanding students receive 180 minutes of integrated ENL instruction per week, while Commanding students receive 90 minutes of integrated ENL instruction delivered within the content areas. Instruction across all proficiency levels is differentiated and scaffolded to ensure that students can access grade-level content while developing English proficiency. In the Dual Language program, Home Language Arts instructional minutes are delivered by the bilingual classroom teacher, and all ELLs are purposefully grouped to receive instruction aligned with their proficiency levels. Students in the DLBE model develop English and target-language skills while learning content in both languages. Core content is taught in Spanish/English or Chinese/English by the bilingual classroom teachers, with additional English-language content instruction supported by cluster teachers.

In both the Dual Language and Free-Standing ENL models, core content is delivered using instructional approaches that make learning comprehensible and support language development while meeting the demands of the Next Generation Learning Standards. Instruction is differentiated for Entering, Emerging, Transitioning, Expanding, and Commanding students through scaffolding, extensive modeling, and deliberate use of ENL strategies such as activating prior knowledge, total physical response, making personal and cultural connections, and using visuals and realia. Teachers scaffold learning through teacher-led modeling, interactive and shared activities, and supported small-group and independent work, ensuring that all students are able to access rigorous content expectations.

Within the Dual Language program, students develop academic skills in their dominant language (L1) and transfer those skills to the target language (L2). English Language Learners and English-proficient peers are fully integrated for all content instruction. During the literacy block, students receive instruction in both languages following a daily alternating pattern. Teachers design lessons that incorporate verbal and nonverbal cues, visual supports, manipulatives, gestures, hands-on materials, and small-group instruction to ensure comprehension. Authentic songs, poems, literature, rhymes, and cultural artifacts are used to build language proficiency and cultural awareness. Teachers integrate listening, speaking, reading, writing, observing, and thinking into meaningful language activities and use a variety of feedback techniques—such as elicitation, repetition, metalinguistic clues, and nonverbal prompts—to support cross-linguistic development. Dual Language teachers also consider students' developmental needs and proficiency levels when planning instruction, adjusting language demands accordingly. Newly admitted students are paired with classmates who share the same home language for socio-emotional and instructional support, as well as with peers who speak the target language to promote natural language exchange.

In side-by-side Dual Language settings, teachers regularly discuss formative assessment outcomes and student progress to inform collaborative planning across classrooms. They develop aligned language and content objectives to clearly define instructional outcomes and ensure coherence in lesson delivery.

In the Free-Standing ENL program—through both integrated and stand-alone services—teachers use the SIOP model to make core content comprehensible while advancing English language development. Lessons include clearly defined content and language objectives and incorporate instructional approaches such as adaptive texts,

leveled study guides, jigsaw reading, graphic organizers, thinking maps, note-taking supports, and hands-on supplementary materials. These methods enable ELLs to engage with grade-level content while developing the linguistic skills required for academic success.

3. How are ENL, English Language Arts (ELA) and if applicable, Home Language Arts (HLA) instructional minutes delivered in each program model?

At P.S. 7Q, ENL, ELA, and HLA instruction is intentionally structured to meet the linguistic and academic needs of English Language Learners at every proficiency level. Our school delivers ENL services through both Stand-Alone and Integrated ENL models, aligned to our curriculum and the strengths of our teaching staff.

For students at the Entering and Emerging proficiency levels, our ENL team provides daily Stand-Alone instruction that focuses on foundational language development using scaffolded components of HMH Into Reading, vocabulary routines, and oral language practice aligned to grade-level topics. These students also participate in Integrated ENL during core content instruction, where ENL teachers co-plan and co-teach with classroom teachers to embed language objectives, model academic discourse, and provide structured supports.

Students at the Transitioning level receive a combination of Stand-Alone and Integrated ENL instruction. Stand-Alone sessions emphasize reading comprehension, grammar, and academic vocabulary that parallel their HMH literacy units. Integrated ENL pushes language development into the content areas, with ENL teachers supporting sentence frames, small-group instruction, and targeted conferencing.

Students at the Expanding and Commanding levels are primarily served through Integrated ENL, where co-teaching ensures that language demands within ELA, math, science, and social studies are explicitly supported. Teachers incorporate strategies such as discussion protocols, vocabulary routines, and text-dependent questioning to maintain high expectations.

ELA instruction is delivered by certified classroom teachers using HMH Into Reading across all grades, with ENL teachers supporting language access through scaffolds, previewing/reviewing texts, and small-group reinforcement tailored to proficiency needs.

Home Language Arts (HLA) is offered when there is a sufficient number of students who share a common home language. When provided, HLA instruction reinforces literacy skills that transfer between languages, supports biliteracy development, and strengthens students' comprehension of grade-level content.

Together, these structures ensure that every multilingual learner at P.S. 7Q receives language and literacy instruction that is aligned to grade-level curriculum, responsive to their proficiency levels, and supported through collaboration between ENL, general education, and HLA teachers.

4. For schools with Dual Language Bilingual Education (DLBE) programs:

a. Which Dual Language Bilingual Education model is implemented? Explain how much of the instructional day (percentage) English proficient students and ELLs are integrated.

Our self-contained, one-way dual language program serves students in grades K-5, with separate classes for Spanish Dual Language and Chinese Dual Language at each grade level. Each class is heterogeneously mixed, consisting of approximately 50% English Language Learners (ELLs) and 50% English Proficient (EP) students. In these classrooms, the language allocation for both content and literacy instruction is balanced, with approximately 50% of the instruction provided in English and 50% in the target language (either Spanish or Chinese). This balance is designed to promote bilingualism and biliteracy, ensuring that students develop proficiency in both languages while acquiring content knowledge.

To meet the requirements of Part 154, ELLs receive the mandated English as a New Language (ENL) services required by CR Part 154.2, delivered by their certified bilingual teachers. These teachers also provide content-area instruction in both languages, supporting students' academic growth in subjects like Math, Science, Social Studies, and English Language Arts (ELA). In our dual language classrooms, students do not have separate language instruction time; instead, they are integrated for 100% of the instructional day, with English-proficient and native-language proficient students learning together. This integration ensures that all students benefit from peer-to-peer learning and develop language skills in both English and the target language.

Instruction is designed so that content areas such as Math, Science, and Social Studies are taught using a 50/50 language distribution throughout a 5-day cycle. All dual language classrooms are equipped with instructional materials in both languages and are clearly organized using a color-coding system to designate the language of instruction—Red for the target language (Spanish or Chinese) and Blue for English. This system helps students and teachers easily identify which language is being used at any given time. By adhering to these practices, our program meets the guidelines of Part 154 for dual language instruction, ensuring that all students receive a high-quality, balanced education in both languages while supporting the development of academic and language skills.

b. In which language(s) is each core content area taught?

In our dual language program, English and Chinese are taught in all core subject areas for the Chinese dual language classes, and English and Spanish are taught in all core subject areas for the Spanish dual language classes. The classroom teacher provides instruction in both languages across Math, Science, Social Studies, and English Language Arts (ELA). For Science, additional instruction is provided in English by a specialized science cluster teacher, ensuring that students receive content-specific support in English while maintaining the balance of bilingual instruction in the core subjects.

5. For schools with Transitional Bilingual Education (TBE) programs:

a. Which core content areas are taught bilingually?

N/A

Part IV: Data Analysis

Data Analysis

After reviewing and analyzing school demographic and assessment data, answer the following questions. The ELL Data Analysis Tool (EDAT) provided by the Office of Multilingual Learners can assist with identifying these data points.

For additional information, refer to Data Analysis Professional Learning Module and ELL Data Analysis Tool (EDAT) Professional Learning Module.

1. What is the composition of the ELL subgroups at your school?
What percentage of ELLs are Newcomers? How does effective instruction for Newcomers differ from those provided to Developing or Long-Term ELLs?

At P.S. 7Q, the English Language Learner (ELL) population is composed of 341 Newcomers (0–3 years of service), representing 85.9% of total ELLs; 56 Developing ELLs (4–6 years of service), representing 14.1%; and currently no Long-Term ELLs (7+ years of service). Instruction is differentiated to meet the needs of each subgroup. For Newcomers, lessons focus on foundational language acquisition, prioritizing listening and speaking before reading and writing. Instruction is highly scaffolded, visual, and context-based, with explicit attention to vocabulary, sentence structures, and cultural integration, often supported through gestures, realia, modeling, and small-group activities. Developing ELLs receive targeted support in academic language, including subject-specific vocabulary, reading comprehension, and writing skills, while continuing to build oral language proficiency. Scaffolded strategies such as graphic organizers, sentence frames, and collaborative activities help bridge content and language learning. Although P.S. 7Q currently has no Long-Term ELLs, this group typically requires advanced support in academic literacy, including complex text analysis, essay writing, and higher-order thinking skills, with an emphasis on refining academic vocabulary across content areas. All ELL instruction is aligned with the New York State ELL Policy and Reference Guide and CR Part 154, ensuring students receive appropriate language support, qualified instruction, ongoing assessment, and access to additional services as needed. Family engagement is prioritized through communication in students' home languages to promote involvement and support learning.

What percentage of ELLs are Students with Inconsistent/Interrupted Formal Education (SIFE)? How do you differentiate effective instruction for SIFE?

Students with Inconsistent or Interrupted Formal Education (SIFE) represent 0.3% of the total ELL population. Effective instruction for SIFE students requires a highly differentiated approach that addresses their unique challenges, including gaps in foundational academic knowledge and limited or interrupted exposure to formal schooling. Instruction focuses on building basic literacy and numeracy skills alongside English language

development. Teachers provide a language-rich environment that incorporates visuals, manipulatives, hands-on activities, and peer interactions to support comprehension and engagement. Lessons are scaffolded to address varying proficiency levels and educational backgrounds, using strategies such as graphic organizers, sentence starters, modeling, guided practice, and simplified or leveled content. Small-group and one-on-one instruction may be provided to target specific learning gaps, while culturally responsive practices connect new content to students' prior experiences and knowledge. Frequent formative assessments allow teachers to adjust instruction and provide targeted interventions to ensure foundational skills are reinforced and academic growth is supported.

Under Part 154 of New York State's Education Law, schools are required to appropriately identify SIFE students and provide specialized instruction that supports both language development and academic progress. This includes access to Transitional Bilingual Education (TBE) or English as a New Language (ENL) programs, as well as supplementary support services such as counseling or special education when needed. Regular monitoring and assessment ensure SIFE students are making progress, and parental engagement is prioritized, with information and communication provided in students' home languages to actively support learning at school and at home.

What percentage of ELLs are Long-Term ELLs? How does effective instruction for Long-Term ELLs differ from instruction designed for Developing ELLs?

In our school community, Long-Term English Language Learners (ELLs) currently make up 0.0% of the student population. If we did have Long-Term ELLs, instruction for these students would differ from that provided to Developing ELLs. Long-Term ELLs are students who have been in the U.S. school system for five or more years and continue to face challenges with English proficiency, particularly in academic language and content mastery. Effective instruction would focus on building academic literacy, enhancing reading comprehension, writing skills, and advanced vocabulary, as these students typically have conversational English but need support with formal, academic language. Unlike Developing ELLs, who are still acquiring basic language skills and vocabulary, Long-Term ELLs require targeted interventions to address specific gaps, such as composing complex sentences or understanding grade-level academic texts. They should engage in rigorous content-area lessons with linguistic scaffolds to access grade-level material successfully.

In accordance with Part 154 of New York State's Education Law, schools would ensure that Long-Term ELLs receive instruction through appropriate language programs, such as English as a New Language (ENL) or bilingual education programs, tailored to their needs. Schools are also required to provide supplemental support services, including counseling, special education if necessary, and additional academic resources. Regular assessments should monitor both language and academic progress, with interventions adjusted based on those results. Families of Long-Term ELLs should be actively engaged in their children's education, with communication provided in their home language to foster strong school-home partnerships. Following these guidelines ensures that Long-Term ELLs receive the support needed to achieve academic success and full proficiency in English and content-area knowledge.

What percentage of students are former ELLs? How is your school providing mandated instruction to former ELLs?

In our school community, 9.4% of students are former English Language Learners (ELLs). These students have exited formal ELL services but continue to receive support to maintain and further develop their academic and English language skills, in alignment with Part 154 of New York State's Education Law. Instruction for former ELLs is provided through Integrated ENL services for 90 minutes per week, ensuring continued language development while engaging with grade-level content.

Progress is closely monitored through regular assessments, and instruction is adjusted based on students' needs. Supports may include targeted scaffolding in reading, writing, and content areas, differentiated instruction, and

language maintenance strategies to reinforce academic vocabulary and comprehension skills. Former ELLs are also provided with interventions as needed to address gaps and prevent regression. Family engagement remains a priority, with communication in home languages to foster collaboration and support student success. Through these measures, the school ensures that former ELLs continue to develop academically and linguistically, consistent with the requirements of Part 154.

2. Examine all at-risk levels that might adversely affect ELLs at your school. What trends do you notice about the at-risk levels of ELLs at your school?

Based on the P.S. 7 Queens Spring 2025 ELL Data Analysis Tool, several key trends emerge for K-5 ELLs. Academically, 43.8% of ELLs scored at Level 1 or 2 in ELA, and 39.8% scored at Level 1 or 2 in math, indicating many students are not meeting grade-level expectations. In addition, 45.3% of ELLs did not demonstrate sufficient progress in English Language Proficiency on the Spring 2024 NYSESLAT. Promotion data shows that 23.7% of K-5 ELLs have not been promoted in the past three or four years, and some students are overaged relative to grade level, putting them at further risk academically.

These trends inform the need for targeted interventions and differentiated instruction. At P.S. 7, ELLs receive support through small group instruction, integrated and stand-alone ENL lessons, tutoring, and extended learning opportunities to strengthen literacy, math, and language skills. Overaged students are carefully monitored through progress tracking and receive individualized support to ensure they meet grade-level expectations. Regular assessments guide instructional planning, enabling teachers to tailor interventions that address both language development and core content mastery, ensuring at-risk ELLs make meaningful academic progress.

3. Examine all at-risk levels that might adversely affect former ELLs at your school. What trends do you notice about the at-risk levels of former ELLs at your school?

Based on the P.S. 7 Queens Spring 2025 EDAT report, several trends emerge regarding the at-risk levels of former ELLs in the K-5 grades. A notable 15.2% of former ELLs have not been promoted in the past three years, indicating ongoing academic challenges, particularly in reading and writing. Additionally, some former ELLs are overaged for their grade level, which can affect motivation, engagement, and access to age-appropriate academic experiences. These students may also continue to have gaps in language proficiency that impact their ability to fully engage with grade-level content.

To address these trends, former ELLs receive targeted support tailored to their needs. While they no longer participate in stand-alone ENL instruction, they are included in integrated language development groups for 90 minutes per week and receive differentiated instruction within core content areas. Interventions include small-group instruction, tutoring, and scaffolded support in reading, writing, and math. Progress is closely monitored through formative assessments, benchmark tests, and classroom performance to prevent regression and guide instructional adjustments. By providing these supports, former ELLs are able to continue developing academic language and close gaps while maintaining access to grade-level curriculum.

4. What are the home languages of ELLs with the largest representation at your school? What staff, structures, and processes does your school have to support communication and learning that values these home languages?

At P.S. 7, the home languages with the largest representation among ELLs are Spanish (193 students), Chinese (79), and Bengali (53), followed by Gujarati, Indonesian, Thai, Nepali, Burmese, Tibetan, Pilipino, and other languages. To support these diverse language needs, our school provides targeted language instruction and culturally responsive practices that align with Part 154 of New York State's Education Law. ENL specialists deliver instruction in English while incorporating students' home languages, particularly Spanish, Chinese, and Bengali, through bilingual materials, scaffolded supports, and culturally relevant texts. Bilingual staff assist in both classroom learning and communication with families, providing translations, interpreters, and materials in students' home languages to ensure meaningful engagement. Instructional practices include visual aids, collaborative learning, peer support, and differentiated instruction, allowing students to access grade-level content while developing language proficiency. Regular workshops and parent-teacher conferences in these languages foster family involvement and support student success, creating an inclusive environment that values and leverages students' home languages for academic growth.

5. What are the racial and ethnic classifications of ELLs at your school? How are ELLs being included in planning and delivery of Culturally Responsive and Sustaining Education (CR-SE)?

At P.S. 7, the racial and ethnic classifications of our ELLs reflect a diverse student population. The majority of ELLs are Hispanic (61.9%), with significant representations of Asian (94.7% non-Hispanic) and White (34.4% Hispanic) students, followed by smaller groups of American Indian or Alaskan Native (3.4% non-Hispanic), Black (1.1% Hispanic), and Multiracial (1.1% Hispanic) students.

In alignment with Part 154 and the NYCDOE Culturally Responsive and Sustaining Education (CR-SE) framework, our school ensures that all ELLs' cultures, languages, and identities are celebrated and integrated into instructional planning and classroom practices. Student voice is actively incorporated through classroom discussions, surveys, and focus groups, allowing students to share their perspectives, experiences, and cultural knowledge, which then inform curriculum choices, instructional materials, and school-wide CR-SE initiatives.

Teachers embed students' cultural backgrounds into ELA, social studies, and other content areas through culturally relevant texts, resources, and activities. Family involvement is also emphasized, with parents from diverse linguistic and cultural backgrounds invited to share traditions, stories, and experiences, strengthening the school's inclusive environment.

Instruction is scaffolded and differentiated based on students' language proficiency levels to ensure access to grade-level content while supporting English language development. Professional development provides teachers with strategies in culturally responsive pedagogy, collaborative group work, and community-building practices, helping them adapt instruction to honor ELLs' racial, ethnic, and linguistic identities.

By integrating culturally sustaining practices, amplifying student voice, and providing equitable access to learning, P.S. 7 aligns with Part 154 and the CR-SE framework, ensuring that all ELLs are supported academically, socially, and culturally.

6. What trends do you notice in reviewing English Language Proficiency (ELP) growth at your school? How many students met ELP sufficient progress? How many students did not meet ELP sufficient progress?

Based on the Spring 2025 NYSESLAT results and the P.S. 7 Queens Spring 2025 EDAT report, English Language Proficiency (ELP) growth among our students shows a range of outcomes that inform our instructional programming.

Of the 397 active ELLs assessed, progress is evaluated using the three NYSESLAT Methods. Method 1, the Exit Method, identifies students who have achieved full proficiency and are eligible to exit ELL services; in our school, 49 students met this benchmark, demonstrating readiness to engage independently with grade-level content. These students receive continued monitoring through integrated support in content areas to maintain their language skills while engaging fully in general education instruction. Method 2, Annual Growth, measures measurable year-over-year improvement for students who have not yet exited ELL status, and 97 students met this standard in Spring 2025, reflecting significant gains in listening, speaking, reading, and writing skills. These students are grouped in differentiated ENL sessions, either integrated or stand-alone, tailored to their proficiency levels, with focused attention on expanding academic vocabulary and comprehension strategies. Method 3, Safe Harbor, recognizes students who may not meet proficiency thresholds but have demonstrated substantial cumulative growth, with 105 students meeting this criterion. Instruction for these students is intensified through additional stand-alone ENL minutes, small-group instruction, and scaffolded lessons targeting the language and literacy skills most critical for ELP advancement. Despite these gains, a portion of students did not meet progress under any method, highlighting the need for targeted interventions. For these students, teachers provide individualized learning plans, extend ENL instructional minutes, and implement differentiated activities focused on academic language development, reading comprehension, and writing skills. Teachers continuously monitor student progress through formative assessments, NYSESLAT-aligned benchmarks, and ongoing progress checks, adjusting instruction to meet individual needs. By leveraging the data from all three NYSESLAT methods, P.S. 7 ensures that each student receives the appropriate level of support to develop English proficiency, access grade-level content, and make meaningful academic growth.

7. When you look at the results of the New York State English as a Second Language Achievement Test (NYSESLAT), what stands out? What trends are there for each modality?

Based on the Spring 2025 NYSESLAT results for P.S. 7 Queens, several trends emerge regarding English Language Proficiency (ELP) across the four modalities—Listening, Speaking, Reading, and Writing. Among active ELLs, the largest groups remain at the Expanding and Transitioning levels, with 123 students (35.2%) at Expanding and 97 students (27.8%) at Transitioning, demonstrating notable growth but not yet full proficiency. Emerging students number 60 (17.2%), and Entering students comprise 20 (5.7%), indicating that these students require more intensive, targeted support.

In terms of modality strengths, Speaking continues to be the area of highest proficiency, particularly in grades 1–5, where students consistently perform better than in other domains. Many students demonstrate the ability to communicate orally with increasing complexity and accuracy, suggesting that instructional strategies emphasizing oral language development have been effective. Listening skills also show steady growth, although slightly lower than Speaking, reflecting the need for continued scaffolding in comprehension strategies.

Reading and Writing remain the modalities of greatest need. For example, lower-grade students, particularly in grades 1 and 2, continue to struggle with foundational reading skills, comprehension, and writing conventions. Across the school, a significant number of students demonstrate difficulty producing written responses with sufficient academic vocabulary and grammatical accuracy. These trends highlight the importance of focused, modality-specific interventions, such as structured writing workshops, explicit vocabulary instruction, guided reading groups, and targeted comprehension strategies.

Comparing NYSESLAT results with ELA 3-8 assessment data further underscores the correlation between lower performance in Reading and Writing on NYSESLAT and academic challenges in ELA. This alignment suggests the need for integrated instructional approaches where content-area learning reinforces language development. For instance, teachers are adapting lessons to include scaffolded reading tasks, modeled writing exercises, collaborative discussions, and frequent formative assessments to monitor progress and adjust instruction.

Overall, the 2025 data indicate that while students are making progress, continued targeted support in Reading and

Writing is essential to ensure balanced proficiency across all modalities. Instruction is differentiated according to student proficiency levels, with additional stand-alone ENL sessions, small-group intervention, and scaffolded integrated instruction used to strengthen areas of need. These approaches align with Part 154 guidance and reflect best practices for supporting ELLs in developing comprehensive English language skills while accessing grade-level content.

8. What is the relationship between students' performance on the NYSESLAT and other state assessments such as the ELA assessment, the Math assessment, and the Regents exams?

Based on the Spring 2025 NYSESLAT results and the 2025 state assessments in ELA and Math at P.S. 7 Queens, several trends emerge regarding the relationship between English Language Proficiency (ELP) and academic performance. Students at higher NYSESLAT proficiency levels, such as Expanding and Transitioning, generally demonstrate stronger performance on both ELA and Math assessments. For example, in grade 3, students classified as Expanding on the NYSESLAT frequently scored at Level 3 or 4 on the ELA exam, indicating that higher language proficiency supports comprehension, writing, and engagement with grade-level content. Similarly, in Math, Expanding and Transitioning students showed greater success, particularly in solving word problems that require understanding of academic language. Former ELLs, especially those at the Commanding or Expanding levels, also tended to perform well across both subjects, demonstrating that continued language growth supports overall academic achievement.

Students at the Entering and Emerging stages of NYSESLAT proficiency typically face more challenges. For instance, in grades 1 and 2, many students in these proficiency levels scored at Level 1 on ELA assessments, reflecting the dual challenges of developing English skills while mastering foundational literacy concepts. These students also exhibited lower performance in Math, highlighting the critical role of language in accessing and understanding mathematical content. Across grades 3–5, students with stronger Listening and Speaking skills on the NYSESLAT were more likely to perform well in ELA, underscoring the importance of oral language development as a foundation for reading comprehension and writing proficiency.

The correlation between language proficiency and academic outcomes informs instructional planning at P.S. 7. Teachers integrate language and content goals by embedding academic vocabulary and language structures directly into ELA and Math lessons. For example, Math instruction includes explicit teaching of problem-solving terminology, sentence frames, and scaffolded word problems to support comprehension for ELLs at all proficiency levels. In ELA, lessons incorporate guided reading, modeled writing, and targeted vocabulary instruction aligned with NYSESLAT language objectives, ensuring that students are simultaneously developing English proficiency and grade-level literacy skills.

These data trends underscore the need for differentiated instruction tailored to students' proficiency levels. Students at Expanding and Transitioning levels benefit from integrated ENL instruction and scaffolded content lessons to deepen their academic language and conceptual understanding. Entering and Emerging students receive additional stand-alone ENL support, small-group interventions, and targeted literacy and numeracy instruction to build foundational skills and close gaps. Regular progress monitoring allows teachers to adjust instruction and ensure that all ELLs are making measurable growth in both language proficiency and academic achievement.

In conclusion, the 2025 data reinforces the strong relationship between NYSESLAT performance and success on state ELA and Math assessments. As students' English proficiency increases, their capacity to engage with grade-level content also improves, highlighting the importance of integrating language development into academic instruction and designing lessons that address both linguistic and content-area goals.

9. What are trends reflected in the NYSESLAT results of ELL subgroups such as ELLs with IEPs and SIFE? What do you think is impacting the results for these subgroups?

Based on the Spring 2025 NYSESLAT results and the P.S. 7 Queens Spring 2025 EDAT report, several trends emerge regarding English Language Proficiency (ELP) among ELL subgroups, particularly ELLs with IEPs and SIFE (Students with Interrupted Formal Education). These subgroups exhibit distinct challenges that highlight the need for targeted, differentiated instruction to support both language development and academic growth.

ELLs with IEPs at P.S. 7 continue to demonstrate lower levels of proficiency on the NYSESLAT compared to their non-IEP peers. For example, in grade 3, of the 20 ELLs with IEPs assessed, 11 scored at the Entering level, 5 scored at the Emerging level, and only 4 reached the Expanding level. This pattern indicates that students with IEPs face compounded challenges, as they are learning English while also addressing their individualized learning goals. The 2025 EDAT report further indicates that ELLs with IEPs have higher absenteeism rates and may require additional support to engage consistently with instruction. To address these challenges, P.S. 7 has strengthened collaboration between ENL and special education staff, ensuring that lesson planning integrates language objectives with IEP goals. Targeted supports include small-group literacy interventions, scaffolded writing instruction, and differentiated content-based ENL lessons designed to meet both academic and language needs.

SIFE students similarly show unique challenges in English language acquisition. Many SIFE students assessed in the Spring 2025 NYSESLAT scored predominantly at the Entering and Emerging levels, particularly in Writing and Speaking. For instance, in grade 4, of 22 SIFE students, 13 scored at Entering, 6 at Emerging, and only 3 at Expanding. These students often have interrupted formal education, which contributes to gaps in foundational literacy, numeracy, and academic knowledge. The EDAT report highlights that SIFE students experience higher rates of absenteeism and inconsistent engagement with instructional supports, which can further slow language proficiency growth. To address these needs, SIFE students at P.S. 7 receive targeted interventions, such as intensive literacy blocks, one-on-one or small-group language instruction, and scaffolded content-area lessons that use visuals, manipulatives, and sentence frames to reinforce both English development and academic understanding.

Several factors contribute to the lower proficiency levels observed among ELLs with IEPs and SIFE students. Interrupted schooling often results in gaps in first-language literacy and numeracy, which can hinder English language acquisition. Additionally, absenteeism disrupts continuity in learning, limiting opportunities for consistent language exposure and skill practice. At P.S. 7, the school addresses these challenges through differentiated instruction, regular progress monitoring, and close collaboration between ENL and special education staff. Supports include individualized learning plans, targeted interventions in reading and writing, and embedded academic language instruction in math and content lessons. For SIFE students, instruction is designed to simultaneously build foundational literacy while accelerating language development, ensuring that they can access grade-level content more effectively.

In conclusion, the 2025 NYSESLAT and EDAT data confirm that ELLs with IEPs and SIFE students at P.S. 7 face persistent challenges in achieving language proficiency. These trends highlight the critical importance of tailored instructional strategies, including scaffolded language support, targeted literacy interventions, collaboration with special education staff, and differentiated content-area instruction. By providing these specialized supports and regularly monitoring student progress, P.S. 7 works to ensure that all ELL subgroups can make meaningful growth in both English proficiency and academic achievement.

10. (For grades 9-12 only) Please review your data in the Insight Tool and STARS to answer the following questions:

a. How many ELLs are on-track towards graduation?

N/A

b. How many ELLs in grades 11-12 have a documented postsecondary plan in STARS or ATS?

N/A

c. What targeted strategies and interventions are in place to support ELLs who are currently off-track to graduate in four years?

N/A

d. What specific strategies, engaging approaches, and interventions are implemented to support and retain students who are not on track to graduate within four years, ensuring they remain enrolled and are guided towards a successful graduation in the future?

N/A

Part V: ML/ELL Instruction

Tier 1: Core Instruction

For additional information, refer to ML/ELL Instruction Professional Learning Module.

Tier 1 Core Instruction

1. How does your school provide ELLs with a high-quality academic experience that leads to deeper learning?

At P.S. 7, we are committed to providing a high-quality, holistic academic experience for English Language Learners (ELLs), in alignment with CR Part 154. Our approach prioritizes intensive, proficiency-based English as a New Language (ENL) instruction tailored to individual language levels and academic needs. Students at the Entering and Emerging levels receive focused stand-alone ENL instruction to build foundational listening, speaking, reading, and writing skills, while Transitioning, Expanding, and Commanding students engage in integrated ENL within content-area instruction to reinforce academic language in real-world contexts. ELA instruction is delivered using the HMH Into Reading curriculum, and students developing Home Language Arts skills are supported through the Arriba la Lectura program, ensuring literacy development in both English and their home language.

Our curriculum is culturally responsive, embedding diverse cultural perspectives and experiences into lessons. For example, in project-based learning units, students research community topics using bilingual resources, collaborate to present findings in both English and their home language, and create multimedia presentations that reflect their cultural backgrounds. Inquiry-based instruction is also incorporated, allowing students to explore questions connected to their experiences while practicing academic language and critical thinking skills. These approaches make learning meaningful and deepen engagement, helping students transfer language skills across content areas.

Teachers receive ongoing professional development focused on culturally responsive practices and strategies to differentiate instruction based on language proficiency levels. Scaffolded supports—such as visuals, sentence frames, collaborative group work, and targeted academic vocabulary—are used to ensure that all students, regardless of their ENL level, can access grade-level content and meet academic expectations. Regular assessments inform individualized learning plans, enabling teachers to adjust instruction and provide additional interventions when needed.

Beyond academics, we prioritize social-emotional support through counseling, mentoring, and peer networks, recognizing that a strong sense of belonging enhances motivation and learning outcomes. By integrating English language development with home language support and culturally relevant, inquiry-driven instruction, P.S. 7 fosters deeper learning, critical thinking, and academic success for ELLs across all program models, preparing them to thrive both within our school community and beyond.

2. How does your school's leadership team ensure ELLs have access to core instruction/curriculum?

Our school's Instructional Leadership Team (ILT) is a vertical team with representatives from each grade level, as well as from our Dual Language, ENL, Special Education, and AIS Instructional Departments. This team collaborates closely to determine universal strategies that support and scaffold the learning of our Multilingual Learners (MLs) and English Language Learners (ELLs). To ensure high-quality support, continuity in ENL instruction, and targeted teacher development, a designated Assistant Principal oversees ENL programming and provides ongoing guidance.

During ILT meetings, team members collaboratively develop and refine instructional practices specifically designed to meet the needs of MLs and ELLs. These strategies promote active engagement and accessibility across all content areas, ensuring lessons provide multiple entry points for students at varying language proficiency levels. Recommended strategies include the use of verbal and nonverbal cues, visual aids, manipulatives, hands-on activities, gestures, eye movements, and small-group instruction. Grade-level teams integrate these approaches into lesson planning to foster student independence while scaffolding learning opportunities to ensure meaningful access to the curriculum for MLs, ELLs, and Students with Disabilities (SWDs).

The ILT monitors the effectiveness of these strategies by analyzing multiple sources of data, including classroom observations, formative and summative assessments, ENL proficiency measures, and subgroup-specific progress reports. Progress is regularly tracked for each student subgroup, and instructional adjustments are made based on student response and assessment outcomes. For example, if a group of ELLs demonstrates difficulty with reading comprehension or academic vocabulary, teachers may implement targeted small-group instruction, incorporate additional scaffolds, or adjust lesson pacing. The ILT, in collaboration with the ENL Assistant Principal, ensures that these data-driven adjustments are applied consistently across classrooms, maintaining inclusive and responsive instruction that meets the diverse needs of all students.

3. Describe how core content is delivered in each program model. Specify language, and the instructional approaches and methods to foster language development and meet the demands of the Next Generation Learning Standards.

In our Dual Language and English as a New Language (ENL) programs, core content is delivered through differentiated instruction aligned with the Next Generation Learning Standards (NGLS) and designed to support both language development and academic achievement. Instruction is scaffolded to meet the needs of students across all proficiency levels—Entering, Emerging, Transitioning, Expanding, and Commanding—using techniques such as modeling, activating prior knowledge, total physical response, and connecting lessons to students' real-life experiences to ensure accessibility for all learners.

The Dual Language Program operates on a self-contained, alternating-day model in which instruction alternates between the student's first language (L1) and the target language (L2). For example, Spanish-speaking students receive instruction in Spanish on one day and in English on the next. This approach allows students to develop academic skills in their dominant language and transfer them to the target language, supporting bilingual proficiency. Both English Language Learners (ELLs) and English Proficient (EP) students are integrated linguistically across content areas, with literacy instruction following a balanced, dual-language approach. Lessons integrate listening, speaking, reading, writing, observation, and critical thinking through meaningful activities in both languages. Teachers employ strategies such as visual aids, manipulatives, hands-on activities, authentic songs, literature, rhymes, and culturally relevant artifacts to strengthen comprehension and cultural understanding. Feedback techniques, including elicitation, repetition, metalinguistic clues, and nonverbal cues, are used to scaffold language development. Instruction is tailored to students' developmental needs and proficiency levels in both languages, with new students paired with peers fluent in both L1 and L2 to foster language exchange and social integration. Side-by-side classroom teachers collaborate regularly, analyzing formative assessment data to co-plan lessons that clearly align language and content objectives with NGLS learning outcomes.

The ENL Program, which includes both push-in and pull-out services, provides targeted support in English to help ELLs access core content while meeting NGLS standards. Lessons incorporate both language and content objectives, ensuring students develop academic knowledge alongside English language skills. Teachers activate prior knowledge and introduce vocabulary through adaptive texts, leveled study guides, trade books, graphic organizers, and thinking maps. Engagement and comprehension are supported through strategies such as jigsaw reading, note-taking outlines, hands-on materials, visuals, and realia. Instruction is scaffolded from teacher-led activities to interactive shared work, followed by independent or small-group tasks, with teacher conferences addressing individual needs. Structured language support, including vocabulary building, syntax exercises, and sentence modeling, is integrated to strengthen both academic understanding and English proficiency. Verbal and nonverbal cues, gestures, eye contact, and physical responses further enhance communication and engagement.

Through these Dual Language and ENL program models, students engage in language-rich, culturally responsive learning experiences that support English proficiency or bilingual proficiency. Scaffolded instruction, aligned with NGLS, fosters academic growth, critical thinking, and independence for students across all language proficiency levels while ensuring equitable access to core content.

4. What instructional strategies and grade-level materials, including technology, do teachers of MLs/ELLs use to provide access to grade level academic content areas and accelerate English language development? Include core content area and language materials with consideration to specific ELL subgroups.

a. ELLs with IEPs

At P.S. 7, our Dual Language and English as a New Language (ENL) programs provide rigorous, scaffolded instruction designed to support English Language Learners (ELLs) at all proficiency levels while meeting the Next Generation Learning Standards. Instruction is tailored to students' language proficiency—Entering, Emerging, Transitioning, Expanding, and Commanding—and differentiated to ensure access to core content.

Dual Language Program:
The Dual Language Program follows a self-contained, alternating day model, where instruction alternates between the student's first language (L1) and the target language (L2). This approach enables students to develop academic skills in their dominant language and transfer these skills to the second language. ELLs and English Proficient (EP) students are linguistically integrated across content areas. Literacy instruction is balanced across both languages, incorporating listening, speaking, reading, writing, observation, and critical thinking activities. Teachers use verbal and nonverbal cues, visual aids, manipulatives, hands-on activities, authentic literature, songs, and cultural artifacts to support comprehension and engagement. Instruction is further differentiated based on students' developmental and proficiency levels. Peer pairing and collaborative projects foster language exchange, social integration, and project-based learning opportunities that encourage deeper understanding.

ENL Program:
The ENL Program offers both push-in and pull-out services to support ELLs in accessing grade-level content while developing English proficiency. Lessons include both content and language objectives and integrate scaffolded strategies such as adaptive texts, leveled trade books, graphic organizers, thinking maps, jigsaw reading, note-taking outlines, and hands-on materials. Instruction moves from teacher-led modeling to interactive and shared work, then to independent or small-group practice, with targeted teacher conferences addressing individual needs. Structured language activities, including vocabulary building, syntax exercises, and sentence modeling, ensure students develop both academic content knowledge and English language skills.

Instructional Strategies for ELLs with IEPs:
Instruction for ELLs with IEPs aligns IEP goals with language development targets to support both academic and

English proficiency growth. Teachers adapt service delivery based on student progress, providing individualized scaffolds, small-group support, and targeted interventions. Strategies include activating background knowledge, contextualizing vocabulary, and adapting texts for access, using methods such as adaptive texts, leveled study guides, jigsaw reading, graphic organizers, thinking maps, note-taking outlines, and hands-on materials. Instructional planning emphasizes progress monitoring, and lessons are adjusted as students demonstrate growth or need additional support.

Grade-Level Materials:

Phonics: Fundations, Heggerty, Orton-Gillingham, SPIRE

ELA: HMH Into Reading

Math: Envisions

Science: Amplify

Social Studies: Passport to Social Studies

Technology Tools:

Edmentum

Amira

Waggle

Writeable

Starfall

Culturally Responsive Practices:
All programs integrate culturally relevant texts, activities, and examples that reflect students' backgrounds. Teachers use strategies such as visual aids, manipulatives, collaborative learning, and inquiry- or project-based instruction to promote engagement, critical thinking, and meaningful language use. Family engagement is supported through translated materials, bilingual staff, and parent workshops in students' home languages.

Through these comprehensive Dual Language, ENL, and IEP-aligned strategies, students engage in language-rich, culturally responsive learning experiences that support English proficiency, bilingual development, and mastery of academic content. Instruction is continuously adjusted based on progress monitoring, ensuring all students, including ELLs with IEPs and SIFE students, have equitable access to rigorous learning and opportunities for deeper understanding.

b. SIFE

Instructional strategies for supporting students with interrupted formal education (SIFE) are designed to bridge comprehension gaps, promote language development, and ensure access to grade-level content. These strategies include scaffolded language support using techniques such as Total Physical Response (TPR), gestures, body language, and visuals to connect vocabulary and concepts to meaning. Teachers provide explicit vocabulary instruction using realia, visual aids, and pictures, and pre-teach key terms related to upcoming lessons to prepare students for new content. Native language support is incorporated whenever possible, including bilingual dictionaries, side-by-side bilingual texts, and peer support from students who speak the same home language, promoting cross-linguistic transfer in both ENL and bilingual settings.

Grade-level materials are selected and adapted to make content accessible for SIFE students. This includes leveled readers, adapted texts, and graphic organizers that simplify sentence structures while preserving core concepts. Hands-on materials—such as manipulatives in math, interactive diagrams in social studies, and visual models in science—help make abstract ideas concrete. Technology tools, including language apps, digital dictionaries, and educational platforms, provide multimodal support that enhances both language acquisition and subject-area knowledge.

Instructional approaches are carefully structured to provide continuous support for language development. Teachers model tasks and language slowly and repetitively, breaking complex content into manageable parts and providing guided practice opportunities. Small-group instruction allows for targeted support and individualized attention, while peer collaboration in paired or group activities encourages language modeling, social interaction, and content comprehension. In bilingual settings, students are encouraged to transfer skills and vocabulary between their home language and English, strengthening both language proficiency and academic understanding.

Ongoing assessment and progress monitoring are integral to informing SIFE instruction. Formative assessments—including observational check-ins, language development quizzes, reading and writing tasks, and oral reflections—allow teachers to identify gaps in comprehension and language use. These results are used to adjust instruction, reteach concepts, provide additional scaffolds, and design targeted interventions that meet students' evolving needs. Cross-linguistic transfer is reinforced through consistent monitoring of how skills in the home language support English language development, particularly in literacy and content-area learning.

Culturally responsive practices are embedded throughout instruction, valuing students' unique cultural backgrounds and encouraging them to share personal experiences that connect to content. In compliance with CR Part 154, instruction is differentiated based on language proficiency and academic needs, with clear language and content objectives established for each student. These strategies are designed to support SIFE students in overcoming educational gaps, accessing grade-level content, and achieving both academic and English language proficiency, while fostering confidence, engagement, and deeper learning.

c. Newcomers

At P.S. 7, instruction for Newcomers is designed to support both language development and academic growth while integrating social-emotional learning. Teachers provide scaffolded language support using visuals, gestures, modeling, and repetition, while embedding clear language objectives alongside content objectives. Buddy systems pair Newcomers with proficient bilingual peers to support academic engagement and social adjustment. Grade-level materials, including leveled readers, adapted texts, graphic organizers, and visual aids, are supplemented with technology tools such as language apps and digital dictionaries. Instruction evolves as students gain proficiency, shifting from heavily scaffolded, teacher-directed tasks to collaborative, student-led activities that foster independence and critical thinking. Lessons are contextualized to students' cultural backgrounds, and social-emotional supports—including mentoring, reflection, and cooperative learning—are integrated into instruction to build confidence and a sense of belonging. Ongoing assessment through initial language evaluations, formative checks, and observation informs targeted interventions and instructional adjustments. These strategies ensure

Newcomers at all proficiency levels access grade-level content, develop English proficiency, and engage meaningfully in learning, aligning with CR Part 154's guidelines for differentiated, culturally responsive, and holistic instruction.

d. Long Term ELLs

At P.S. 7, instruction for Long-Term English Language Learners (LTELs) is intentionally designed to address the unique needs of students who have been in U.S. schools for five or more years but have not yet reached full English proficiency. Unlike Developing ELLs, LTELs receive targeted instruction that emphasizes academic language development, including complex sentence structures, specialized vocabulary, and formal writing skills. Teachers scaffold academic tasks using strategies such as sentence frames, structured note-taking, graphic organizers, and interactive media to support higher-order thinking and content mastery. Lessons are intentionally designed with both language and content objectives, integrating comprehension strategies such as close reading, think-alouds, and cooperative learning to help LTELs engage deeply with texts. Peer collaboration is also leveraged, pairing LTELs with proficient language peers to model academic language and provide support during group work.

Grade-level materials for LTELs include leveled and adaptive texts, multimedia resources, digital vocabulary tools, and content-specific interactive platforms that allow students to practice English while accessing rigorous academic content. Instructional approaches are tiered based on students' language proficiency, offering a continuum from guided practice to independent application. Writing instruction is a central focus, with explicit lessons on thesis development, paragraph structure, and argumentation to strengthen academic writing. Instruction also integrates culturally responsive practices, celebrating LTELs' cultural backgrounds and fostering motivation, confidence, and a sense of belonging. Social-emotional supports, including mentoring, peer guidance, and goal-setting, are embedded within academic instruction to re-engage students and encourage persistence.

Progress for LTELs is closely monitored through both formative and summative assessments, including observations, quizzes, projects, and writing tasks. Data from these assessments, along with review of prior academic work, informs targeted interventions and instructional adjustments, ensuring that achievement gaps are addressed and students continue to develop both English proficiency and content knowledge. These strategies are implemented in alignment with CR Part 154, ensuring LTELs receive differentiated, intensive language support while accessing the same curriculum as their peers, with instruction tailored to their linguistic, cognitive, and academic needs.

5. What supports does your school provide to ELLs with IEPs to achieve their IEP goals and attain English language proficiency within the least restrictive environment?

Instructional supports for English Language Learners (ELLs) with Individualized Education Programs (IEPs) are carefully designed to ensure that students can access grade-level content while simultaneously developing their English proficiency. Language objectives are explicitly embedded in each student's IEP, aligned with both their current English proficiency level and academic goals, allowing instructional teams to target language development alongside content mastery. Teachers employ differentiated instruction, incorporating scaffolds such as visual aids, graphic organizers, manipulatives, simplified language, and Total Physical Response (TPR) strategies to make lessons accessible. When available, bilingual staff or interpreters provide explanations in the student's native language to support comprehension and reinforce language development. ELLs with IEPs may receive modified assignments, extended time, reduced workloads, or alternative formats, and can benefit from push-in or pull-out services in which ENL and special education teachers collaborate to deliver integrated or specialized instruction.

Collaboration between educators is central to supporting these students. Special education, ENL, and general education teachers work together through co-teaching models such as team teaching, parallel teaching, or station

teaching, ensuring that lessons address both language and learning objectives. Instructional teams meet regularly to review student progress, analyze assessment data, and adjust services as needed—such as modifying group sizes, providing additional support in targeted content areas, or increasing ENL instructional time—based on students' demonstrated language growth and academic achievement.

Assistive technology, including text-to-speech, speech-to-text, digital translation tools, and multimedia resources, is integrated to support reading, writing, comprehension, and engagement. Social-emotional supports, including counseling, mentoring, and peer partnerships, are embedded to help students navigate language barriers, cultural adjustment, and academic challenges, fostering a sense of belonging. Culturally responsive practices are consistently used to integrate students' backgrounds into lessons and classroom interactions, supporting both engagement and confidence.

Ongoing progress monitoring ensures that language objectives and academic goals are consistently addressed. Frequent formative and summative assessments allow instructional teams to adjust teaching strategies, scaffolded supports, and IEP services to meet students' evolving needs. In alignment with CR Part 154, these coordinated services create an inclusive and equitable learning environment in which ELLs with IEPs can make measurable progress in both English language acquisition and academic achievement.

6. How is home language assessed in each program model (DLBE, TBE, and ENL)?

In the Dual Language Bilingual Education (DLBE) program, home language assessment begins at enrollment and continues throughout a student's participation in the program, tracking development in both the home language and English. Teachers assess language proficiency through standardized assessments and ongoing observations, evaluating the student's ability to process and produce content in their native language. Family input is integral to this process, as parents and guardians provide insights into their child's use of the home language at home, which helps educators understand the student's linguistic environment. Collaborative planning among DLBE teachers ensures that assessment data is shared and instructional strategies are aligned across grades, promoting consistency in language support and helping track outcomes such as academic progress, language growth, and successful transfer of skills from the home language to English.

In the Transitional Bilingual Education (TBE) program, students' home language proficiency is initially determined through home language surveys and language assessments in reading, writing, listening, and speaking. These assessments inform the level of home language support required. Students with lower proficiency in their home language may receive more substantial support in that language until English proficiency develops. Regular assessments and collaborative teacher check-ins monitor progress in both the home language and English, ensuring that instructional practices support the transfer of academic skills. Parent and community involvement provides additional context for home language development and ensures that instruction is culturally and linguistically responsive. Shared planning among TBE educators aligns strategies across classrooms, fostering instructional consistency and improving student outcomes.

In the English as a New Language (ENL) program, home language assessments help determine the appropriate level of support a student needs, particularly during the early stages of language acquisition. Teachers use formal assessments and informal observations to evaluate students' use of their home language in both social and academic contexts. Instruction is delivered through integrated or stand-alone ENL models, with collaborative planning among ENL, general education, and bilingual staff ensuring alignment of language objectives with content goals. Progress is regularly monitored in both the home language and English, allowing teachers to adjust instruction and ensure continued growth.

Across all program models, CR Part 154 requirements guide the use of home language assessments to provide

accurate, comprehensive information that informs instruction. Collaboration and shared planning across teachers are tracked through ongoing progress monitoring, team meetings, and alignment of lesson objectives, ensuring consistent instructional approaches that support bilingualism, biliteracy, and academic success in both languages.

7. (For grades 6-12 only) What language electives are offered to MLs/ELLs? How is your school preparing MLs/ELLs to obtain the New York State Seal of Biliteracy?

N/A

8. Describe systems and structures for supporting co-teaching and collaboration among teachers for all ELL program models available at your school (e.g. integrated co-teaching, Dual Language Bilingual Education teacher partnerships, etc.).

At our school, teacher collaboration across all ELL program models is a cornerstone of our approach to supporting multilingual learners. Teachers participate in bi-weekly collaboration meetings, which include ENL, ICT, and DLBE staff, along with school administration. During these sessions, teachers review student progress, analyze assessment data, plan lessons, and share strategies to support ELLs' language development and academic growth. Collaboration outcomes are tracked through meeting notes, shared lesson plans, and student progress data, ensuring that instructional strategies are aligned across classrooms. This systematic coordination promotes instructional consistency, allowing students to experience cohesive support across content areas and program models.

Professional development (PD) is ongoing, with teachers engaging in district-provided workshops that focus on best practices for teaching multilingual learners. Sessions address scaffolding language, integrating content and language instruction, differentiation, culturally responsive teaching, and alignment with the Next Generation Learning Standards. PD is informed by collaboration outcomes and student data, allowing teachers to refine their practices in ways that directly address the needs of ELL subgroups in our school.

Intervisitations are another key component of our professional learning community. Teachers observe colleagues across different ELL program models to see best practices in action. Following these visits, teachers discuss observations, share strategies, and collaboratively adjust instruction. These intervisitations foster a culture of continuous learning, strengthen instructional alignment, and contribute to shared accountability for student outcomes.

Ongoing feedback and surveys allow teachers to provide input on professional learning experiences, resources, and strategies. Administration reviews these results to tailor PD sessions to the staff's needs, creating a feedback loop that ensures professional growth is responsive and effective.

Co-teaching partnerships in the DLBE and ICT models further enhance instructional consistency. In DLBE classrooms, teachers alternate instruction between English and the home language, collaboratively ensuring that language support is embedded across all content areas. In ICT classrooms, general education and ENL teachers co-plan and co-teach lessons, making grade-level content accessible while providing targeted language support. Student progress is monitored through formative and summative assessments, and instructional adjustments are made based on data, reinforcing the link between collaboration, planning, and student outcomes.

Through these structures—collaboration meetings, PD, intervisitations, surveys, and co-teaching partnerships—our school ensures that teachers have the tools, knowledge, and alignment needed to support multilingual learners effectively. By tracking collaboration outcomes and leveraging shared planning, we maintain instructional

consistency and continuously improve student learning experiences, promoting both academic achievement and language development.

9. Describe how your overall, annual professional learning plan ensures that all staff – including administrators, teachers and -non-pedagogical staff – incorporates learning specifically related to the academic and social emotional needs of MLs/ELLs. Professional learning topics might include co-teaching strategies, or integrating language and content instruction.

Professional development at P.S. 7 is designed to support all teachers and staff in delivering high-quality, differentiated instruction for English Language Learners (ELLs), addressing both their academic and social-emotional needs. All teachers and non-pedagogical staff participate in sessions focused on highly effective teaching practices that promote engagement and language development, scaffolding in reading and writing workshops to support comprehension and literacy, and ENL strategies for integrating language support into Fundations and HMH Into Reading instruction. Workshops on differentiated instruction in reading centers and mathematics instruction with the Envisions program equip teachers to meet students at their proficiency levels while developing content knowledge, and training in Orton-Gillingham phonics provides structured, multisensory strategies for building foundational reading skills. These professional development opportunities are designed to help teachers implement strategies such as scaffolding, modeling, visual supports, and cooperative learning, all of which enhance ELLs' access to grade-level content and encourage active engagement.

ENL teachers and classroom teachers in grades K–3 receive targeted training in Fundations and Heggerty programs to strengthen literacy and phonemic awareness, while grades 4–5 receive professional development in Orton-Gillingham approaches to support decoding and fluency. Additionally, all ENL teachers participate in DOE or external workshops throughout the year, ensuring they are equipped with current research-based strategies for supporting the language and academic growth of ELLs. Dual Language teachers engage in in-house professional development focused on best practices for bilingual instruction, including strategies for developing literacy and content knowledge in both languages, using HMH Into Reading anchor charts to scaffold vocabulary and comprehension, and supporting emergent bilinguals academically and socially. Sessions also focus on classroom structures and scaffolds that ensure students can access complex content while building language proficiency.

To measure the effectiveness of professional development, the school uses classroom observations, student work analysis, formative assessments, and teacher self-reflection surveys. Staff feedback is gathered through post-workshop surveys and collaborative reflection meetings, which guide the planning of future training and ensure that professional development is aligned with both instructional goals and student needs. By combining targeted PD, collaborative planning, and ongoing evaluation, P.S. 7 ensures that teachers are well-prepared to support ELLs in achieving academic success, developing language proficiency, and thriving socially and emotionally within the school community.

10. Describe your school's professional development plan in order to meet the mandated Continuing Teacher and Leader Education (CTLE) ELL specific hours for certification renewal as per CR Part 154 (15% of total hours for all certified faculty [holders of professional certificates in the classroom teaching service, educational leadership service and level III teaching assistant certificate holders] and 50% of total hours for bilingual education/ENL teachers receive ELL-specific professional development).

Our school's professional development (PD) plan is designed to support all certified faculty in meeting the Continuing Teacher and Leader Education (CTLE) requirements for ELL-specific hours, as mandated by CR Part 154.

The plan ensures that all teachers receive ongoing, high-quality professional development with a focus on strategies for supporting English Language Learners (ELLs), and that bilingual education and ENL teachers receive the specialized training they need to fulfill their 50% ELL-specific hours.

- PD sessions for all staff are held once a month for 2 hours, focusing on effective classroom strategies, scaffolding techniques, and
content-specific skills that support ELLs in accessing grade-level curriculum. These sessions provide both general and ELL-specific
strategies to enhance all teachers' ability to support language development in their content areas.

- On Election Day, professional development sessions are tailored to meet teachers' expressed needs, including targeted support for
ELLs. These sessions offer an opportunity for teachers to receive additional ELL-focused training that aligns with their grade-level and
content area needs, meeting both CR Part 154 requirements and staff interests.

- Each month, grade-level teams participate in dedicated collaboration time to share strategies, resources, and best practices for
supporting ELLs in their classrooms. These monthly meetings create an ongoing, collaborative approach to embedding ELL strategies
across subjects and grade levels, ensuring that ELL-specific practices are integrated into daily teaching.

- Our school also benefits from the support of an HMH Into Reading Support Coach who visits monthly for 6 hours. The coach works with
teachers across grade levels to strengthen instructional practices, focusing on scaffolding and access skills for ELLs. This targeted
support reinforces language and literacy strategies within the context of our core curriculum, helping teachers to meet the needs of
diverse learners in both integrated and stand-alone ENL settings.

Through these structured and ongoing professional development opportunities, our school's plan supports all certified faculty in meeting their ELL-specific CTLE hours while also fostering a collaborative, ELL-supportive teaching environment. This approach aligns with CR Part 154, ensuring that all students receive the language support they need to succeed.

Assessment

SCREENERS

11. Which screening assessments (e.g.iReady, MAP Growth, Acadience, or STAR Reading) does your school use to guide instructional planning for your ELLs?

Acadience and MAP Growth screening data are used to guide instructional planning for ELLs. Data from these assessments are disaggregated by language proficiency, allowing teachers to identify specific literacy needs in phonemic awareness, phonics, fluency, vocabulary, and comprehension. Based on this analysis, students receive tiered supports tailored to their skill levels, including small-group instruction, peer-assisted practice, and explicit teacher feedback. Progress is monitored continuously, and instructional groupings and strategies are adjusted over time to respond to students' growth, ensuring that ELLs receive targeted support that promotes both language development and academic achievement.

12. For all grades, list and describe your targeted intervention programs for ELLs in ELA, Math, and other core content areas (specify ELL subgroups targeted). Include the language(s) in which the intervention services are offered.

Targeted support for ELLs at P.S. 7 is provided through both supplemental programs and intensive interventions, based on screener data and student needs. Supplemental programs in ELA include Fundations (English), Heggerty, Sounds Sensible (English), and HMH Into Reading, which provide additional practice in phonics, phonemic awareness, vocabulary, and comprehension. For more intensive interventions, small-group instruction is offered through Rigby Guided Reading, Estrellita for Spanish literacy, and iChineseReader! for Chinese literacy. In Math, Envision Math is used with tiered instructional plans and manipulatives to address specific skill gaps. Intervention services are delivered through integrated or stand-alone RtI sessions, with intensity and frequency determined by students' tier placement. Screener data from Acadience and MAP Growth is disaggregated for ELLs to identify areas of need, inform grouping, and guide both supplemental and intervention planning. Students with IEPs receive targeted interventions aligned with their individualized goals, ensuring that language development and academic growth are addressed concurrently.

13. For all grades, describe how your school uses data to guide instruction for ELLs within a Multi-Tiered System of Supports (MTSS). Refer to the Instructional Leadership Tool for MLs and ELLs and MTSS Guide for MLs and ELLs to help in the development and implementation of your school's plan for MLs/ELLs.

Our school follows a data-driven approach within a Multi-Tiered System of Supports (MTSS) to guide instruction for English Language Learners (ELLs) at all grade levels. The Instructional Leadership Team (ILT) actively monitors school culture and climate to foster an environment of high expectations while prioritizing students' emotional, physical, and psychological well-being, which are essential for optimal learning. Instruction is designed to address the multi-dimensional aspects of language—content, form, and use—ensuring that ELLs develop a well-rounded foundation in English. Literacy and language development are centered on key reading components, including phonemic awareness, phonics, fluency, vocabulary, and comprehension, in alignment with National Literacy Panel recommendations. Classroom activities incorporate reading, speaking, and writing tasks that focus on high-utility vocabulary, supporting consistent literacy protocols and facilitating language growth across all classrooms.

Within the MTSS framework, tiered supports are determined by ongoing assessment data, including benchmark screeners and formative assessments. Tier 1 consists of universal supports such as culturally and linguistically responsive teaching, scaffolded instruction, and texts that reflect students' home languages and cultural backgrounds. Tier 2 supports are implemented for students who require additional, targeted instruction, often delivered in small groups or through integrated lessons, and focus on reinforcing specific language or content skills. Tier 3 provides intensive, individualized interventions for students with the greatest instructional needs, including those with IEPs or students requiring accelerated English language development. Progress monitoring occurs regularly for all tiers, guiding instructional adjustments, regrouping, and the provision of additional scaffolds as needed to ensure students meet language and academic goals.

In our bilingual programs, a shared curriculum across languages promotes strategic biliteracy development, cross-linguistic transfer, and metalinguistic awareness, all of which support greater language proficiency. Foundational literacy instruction in grades K–2 follows a structured daily scope and sequence that integrates sounds, spelling, and meaning through multi-sensory activities involving listening, speaking, reading, and writing. Interactive read-alouds and shared reading experiences expose students to grade-level and above-grade-level texts, fostering both language and content knowledge in context. Newly admitted students undergo a structured intake process to assess their instructional strengths and needs, supporting an inclusive and smooth transition.

Teachers engage in ongoing professional development aligned with ELL instructional goals and receive coaching and feedback to refine their practice. Units and lessons are scaffolded and customized based on continuous assessment data, allowing teachers to focus on instructional delivery while applying specific supports tailored to students' English proficiency levels and home languages. This comprehensive, data-informed approach ensures that all ELLs receive individualized supports and have equitable access to rigorous, standards-aligned learning across all content areas.

FORMATIVE

14. Which formative assessments (e.g. NYC performance Tasks, ELL Periodic Assessment, HLA Assessment, DRA, teacher-created assessments, etc.) are used to inform and drive instruction?

Our school employs a variety of formative assessments to guide instructional planning and differentiate instruction for English Language Learners (ELLs). These assessments include HMH Into Reading weekly and module assessments, Amira for reading fluency and comprehension, Fundations unit tests for word study, iReady for grades 3–5, MAP for grades K–5, and Acadience for grades K–2. In Spanish Dual Language classes, we use Estrellita for grades K–1, Senderos and Palabras a su Paso for grades 2–3, and Amira for reading fluency and comprehension. In Chinese Dual Language classes (grades K–1), teachers use teacher-created assessments tailored to Chinese language instruction. Formative data from these assessments is reviewed regularly to inform daily instructional decisions, allowing teachers to identify students' strengths and areas of need. This information guides the differentiation of tasks, the grouping of students for small-group instruction, and the use of targeted scaffolds,

ensuring that ELLs at varying proficiency levels receive the appropriate level of support in reading, vocabulary, comprehension, and other language skills. Teachers adjust lesson pacing, provide additional practice or enrichment, and implement interventions based on ongoing data to promote consistent academic and language growth.

15. How do you ensure that MLs/ELLs are appropriately evaluated in their home languages throughout the year?

To ensure that Multilingual Learners (MLs) and English Language Learners (ELLs) are effectively evaluated in their home languages throughout the year, we implement several targeted assessment practices:

Spanish-speaking new admits complete the Spanish Lab assessment within the same 10-day period as the NYSITELL. This provides an initial measure of proficiency in their home language.

ELLs have the option to take state math and science exams in their home language, ensuring content knowledge is assessed accurately and without language barriers.

Teachers assess foundational literacy skills in Spanish using grade-appropriate resources, such as Estrellita for kindergarten and grade 1, and Senderos along with the word study program Palabras a Su Paso for grades 2 and 3.

This data is submitted to and discussed with administration on a quarterly basis to monitor progress and tailor support.

In Chinese Dual Language classes, teachers design authentic assessments to evaluate students' literacy and content understanding in Chinese, ensuring a culturally and linguistically responsive approach.

Chinese Dual Language teachers also assist with the Home Language Identification Survey (HLIS) interviews at the beginning of the year, supporting accurate and comprehensive identification of students' language backgrounds.

SUMMATIVE

16. Which summative assessments (e.g. NYSESLAT, ELA, Math, Regents, etc.) are used to evaluate the effectiveness of your ML/ELL programs and how does it inform instructional design and curricular decisions? (Refer to the ELL Data Analysis Tool).

Our school employs a comprehensive system of formative and summative assessments to guide instruction and support the growth of Multilingual Learners (MLs) and English Language Learners (ELLs). Formative assessments, such as HMH Into Reading weekly and module assessments, Fundations unit tests, iReady (grades 3–5), MAP (grades K–5), Acadience (grades K–2), and Amira reading fluency and comprehension reports, provide ongoing insights into students' literacy and language development. In Spanish Dual Language classes, teachers use Estrellita (K–1), Senderos and Palabras a su Paso (grades 2–3), and Amira, while Chinese Dual Language classes utilize teacher-created assessments tailored to Chinese language instruction. Formative data is analyzed daily to differentiate instruction, scaffold tasks, and adjust lesson pacing, ensuring that students at varying proficiency levels receive appropriate support and multiple opportunities to practice language and content skills.

Summative assessments, including NYSESLAT, NYSITELL, and state ELA and Math exams, provide insight into overall language proficiency and academic achievement, highlighting trends across listening, speaking, reading, and writing. Teachers and instructional leaders use these results to identify areas of need, inform curricular adjustments,

and design targeted interventions. Together, formative and summative data allow us to monitor progress, evaluate program effectiveness, and make evidence-based instructional decisions that support both English language development and academic growth. This integrated approach ensures that ML/ELL students receive instruction aligned to their language proficiency, academic needs, and ongoing assessment data.

17. What is your NYSESLAT administration plan? How does your school ensure that all ELLs are tested with the NYSESLAT annually? Include the titles of the staff that will administer and score the assessment. Please describe your plan to ensure that all ELLs and former ELLs continue to receive mandated instruction during the testing period.

Our NYSESLAT administration plan aligns with the NYCDOE Multilingual Learners guidelines and CR Part 154 regulations, ensuring that all ELLs and former ELLs continue receiving mandated instruction during the testing period.

The assessment is administered by a team of trained educators, including ENL teachers, bilingual teachers, and other qualified staff members who have undergone specific training in assessment procedures. This team, which also includes assistant principals, oversees the process to ensure both accuracy and compliance.

Scoring is led by certified ENL and bilingual teachers who collaborate to ensure consistency and accuracy in scoring that meets NYSESLAT standards. These scoring teams are provided with the necessary time, materials, and support for effective calibration and collaboration.

To maintain continuity of instruction and minimize disruption, we implement a rotating testing schedule. This schedule is designed to limit the impact on core instruction for ELLs and former ELLs. Where possible, we use dedicated spaces and testing windows to avoid removing students from their regularly scheduled classes. Non-testing ELLs and former ELLs continue to receive their mandated instructional services without interruption.

For ELLs and former ELLs who are not participating in testing, classrooms continue to operate with scheduled instructional activities, focusing on content-area work and language development. Teachers collaborate to adapt lesson plans during this period to meet the needs of ELLs and ensure instructional goals remain aligned with language and content standards.

This plan prioritizes both compliance with assessment requirements and the continuous academic progress of all multilingual learners in our school community.

18. How does your school ensure that current and former ELLs receive necessary accommodations for state assessments, including the Specialized High School Admissions Test (SHSAT) if applicable?

Our school ensures that current and former ELLs receive the necessary accommodations for state assessments in accordance with CR Part 154 regulations and state mandates for ELLs. We adhere to several key practices to ensure equitable access to assessments.

First, we identify appropriate accommodations for ELLs based on their individual language proficiency levels and specific needs. This process involves reviewing student IEPs, language needs, and any prior accommodation requests to ensure all eligible students receive the necessary supports during state assessments.

For students currently identified as ELLs, accommodations include extended time, bilingual glossaries, translation of test directions, and access to bilingual or nonverbal test formats as required. These accommodations are

documented in students' Individualized Education Programs (IEPs) or 504 Plans and are implemented for all state assessments.

Former ELLs, as defined by CR Part 154, are eligible for specific accommodations for up to two years after exiting ELL status. For these students, we ensure accommodations such as extra time and clarification of test instructions are provided during assessments to promote equitable testing conditions.

To support the successful implementation of accommodations, we provide training for teachers and administrators on the specific supports available for ELLs. Staff are made aware of their responsibilities in implementing these accommodations, and we coordinate with assessment teams to ensure consistency across all testing situations.

Additionally, we regularly monitor the accommodations process throughout the year. Feedback is gathered from teachers, families, and students to assess the effectiveness of the accommodations. Based on this feedback, we make adjustments as needed to ensure compliance and fairness during testing.

This comprehensive approach guarantees that current and former ELLs receive the accommodations necessary to succeed, in full compliance with state mandates and Part 154 regulations.

Part VI: Family Partnership

Family Partnership

Required Meetings Under CR Part 154

Describe your schools' plan to ensure families of ELLs are provided with the required meetings specified below as per CR Part 154. Include:

- Topics discussed during these meetings
- How your school ensures families receive necessary translation/interpretation supports to meaningfully engage in the meetings
- How your school schedules these meetings to facilitate attendance, and how your school maintains evidence of these meetings as required per the NYC DOE Policy and Reference Guide for MLs/ELLs.

a. ELL Program Orientation to inform parents/guardians of newly identified ELLs of ELL program options, including the program goals and requirements for all three ML/ELL program models: Dual Language Bilingual Education, Transitional Bilingual Education and English as a New Language regardless of whether the school currently has either type of bilingual program and provide a high-quality orientation section on the Next Generation Learning Standards, assessments, and school expectations for English Language Learners.

Our school places a high priority on ensuring that families of English Language Learners (ELLs) are fully informed and engaged through a structured approach that aligns with CR Part 154 requirements. Families are notified of required meetings, such as the ELL Program Orientation, through multiple communication channels, including phone calls, emails, automated messaging systems, and written notices in the family's home language. To facilitate meaningful participation, we provide translation and interpretation supports during meetings. For example, bilingual staff and trained interpreters are available in Spanish, Mandarin, and Arabic, reflecting the languages most commonly spoken by our community. Written materials, including handouts and presentation slides, are translated and shared in advance so families can review information prior to the session.

Meetings are scheduled at convenient times, with both morning and evening options, and virtual attendance is offered to accommodate families with transportation or scheduling constraints. If a family is unable to attend, follow-up steps include providing translated materials, a one-on-one phone or virtual meeting with school staff, and additional opportunities to ask questions or receive clarification about program options, assessments, and school expectations. Attendance and engagement are carefully documented using sign-in sheets in multiple languages, and all presentation materials are archived on the school website for easy access. Families are also invited to provide feedback on the effectiveness of the orientation sessions, which informs future planning and ensures continuous improvement.

Through these strategies, our school fosters a collaborative partnership with families, ensuring they are well-

informed about ELL program goals, the Next Generation Learning Standards, and student assessments. By maintaining clear communication, offering accessible resources, and providing follow-up support, we actively engage families in their child's education and promote the academic and holistic success of ELL students within our diverse school community.

b. Annual Individual Meeting to discuss goals of the program, language development progress, language proficiency assessment results, and language development needs in all content areas. Note: this meeting is separate from and does not include the mandated ELL program orientation meeting and DOE-scheduled parent-teacher conferences.

Our school ensures that families of English Language Learners (ELLs) are provided with the required annual individual meetings in compliance with CR Part 154. These meetings are scheduled with flexibility to maximize family participation, offering morning, afternoon, and evening time slots on different days of the week to accommodate varying work schedules and family commitments. Additionally, virtual meeting options are available via platforms such as Zoom or Teams for parents who cannot attend in person. Families are notified in advance through multiple channels, including phone calls, emails, and written notices in their home language, ensuring they are aware of the meeting details and expectations.

During the annual individual meetings, school staff discuss the goals of the ELL program, the student's language development progress, results from English language proficiency assessments (including NYSESLAT and classroom-based measures), and language development needs across all content areas. Teachers provide specific examples of the student's academic performance, highlight strengths, and identify areas where targeted support is needed. Families are encouraged to ask questions, share insights about their child's home language use, and collaborate in developing individualized strategies to support continued language and academic growth.

If a family is unable to attend the scheduled meeting, follow-up procedures are in place. School staff provide a summary of the meeting in the family's home language and offer opportunities to schedule a make-up meeting or a one-on-one virtual session. Families are supported with translated documents, summaries, and individualized guidance to ensure they fully understand their child's progress and next steps. Detailed records, including attendance logs, meeting agendas, discussion summaries, and action plans, are maintained in the student information system, ensuring accountability and accessibility for authorized personnel.

Importantly, the information and input gathered from these meetings directly inform instructional planning and targeted interventions for ELL students. Teachers and program specialists use family insights and assessment data to adjust lesson scaffolds, groupings, and language supports, ensuring instruction is aligned with each student's strengths, needs, and goals.

Through these practices, our school not only meets CR Part 154 requirements but also fosters a collaborative and inclusive environment where families are empowered to actively participate in their child's education, reinforcing communication between home and school and supporting the academic and language development of ELL students.

Family Engagement

2. Beyond the mandated meetings and orientations, describe how your school:
a. Ensures families receive all school communications and documents in the language they best understand. How are families able to respond or initiate communications in languages other than English?

Our school ensures that families of English Language Learners (ELLs) receive all communications in their preferred language and can respond or initiate communications in languages other than English, in alignment with the NYCDOE Multilingual Learners manual. We utilize an online communication platform, ClassDojo, which translates announcements, newsletters, and important documents into multiple languages spoken by our student community. Families can select their preferred language settings within the platform, ensuring they receive information in a format they understand, promoting inclusivity and equitable access to school communications. The platform also supports multilingual messaging, allowing parents to respond to communications, ask questions, and engage in dialogue with teachers and school staff in their preferred language. This ensures that language barriers do not impede parents' ability to stay informed, participate actively in their child's education, or provide feedback.

To support families in using the platform, our school provides guidance through tutorials, step-by-step instructions, and one-on-one assistance when needed. Bilingual staff are available to help parents navigate the platform, troubleshoot technical issues, and ensure they are comfortable accessing information and communicating effectively. Additionally, staff receive ongoing training on using translation tools and resources integrated into the platform, ensuring communications are accurate and that families' preferred languages are consistently supported.

By leveraging technology and providing personalized support, our school strengthens parent-school partnerships, enhances accessibility, and ensures that all families, regardless of their primary language, are fully engaged in their child's education and school community.

b. Develops activities that foster empowerment for families of MLs/ELLs. Include how your school determines the needs of your community.

To foster empowerment for families of Multilingual Learners (MLs) and English Language Learners (ELLs), our school designs a range of activities tailored to the needs of our community. We begin by conducting thorough needs assessments using surveys, meetings, and demographic analyses to understand the diverse backgrounds, challenges, and priorities of our families. Insights are gathered from families, staff, and community partners through monthly Principal and Student Town Hall Meetings to identify areas where support is most needed. Based on these findings, we offer culturally relevant workshops on topics such as navigating the education system, supporting academic success at home, and advocating for children's educational needs. Leadership programs provide parents with skills to actively participate in school governance and advocacy, while cultural celebrations and community events promote cross-cultural understanding and inclusivity.

To further support engagement, we organize digital literacy training sessions, helping families effectively use educational technology, online platforms, and communication tools, enabling them to participate fully in their child's learning journey. Participation in all activities is carefully documented, including attendance records, workshop materials, and survey responses, in accordance with CR Part 154 guidelines. Feedback is collected through surveys, focus groups, and informal discussions, and this data is stored securely to track family engagement and inform future planning. Insights from participation and feedback are used to evaluate the impact of initiatives, adapt programs, and expand offerings to better meet the evolving needs of families.

Through this comprehensive approach, our school ensures that families of MLs and ELLs feel empowered, engaged, and integral to their children's educational experience, creating a supportive and inclusive school community.

c. Ensures families of MLs/ELLs are aware of family leadership opportunities (such as Parent Association (PA), School Leadership Team (SLT), Community Education Council (CEC), etc.)

Our school ensures that families of Multilingual Learners (MLs) and English Language Learners (ELLs) are informed about and encouraged to participate in a variety of family leadership opportunities within our educational community. Targeted outreach efforts include translated communications sent through email, text messages, and our online platforms, as well as phone calls and personal invitations from bilingual staff and community liaisons. These communications specifically highlight roles such as the Parent Association (PA), School Leadership Team (SLT), and Community Education Council (CEC), explaining responsibilities, benefits, and clear steps to get involved.

To further encourage participation, the school hosts informational sessions and workshops tailored for ML/ELL families. These sessions provide guidance on how to join committees, the importance of parental involvement in school governance, and the tangible impact families can have on shaping policies, programs, and school initiatives. Digital platforms, social media, and a dedicated section on the school website are also used to share schedules, contact information, and reminders, making access to these opportunities convenient and equitable.

Families are actively encouraged to take on leadership roles by emphasizing the value of their perspectives and experiences in decision-making processes. Input from ML/ELL families is solicited during meetings, workshops, and surveys, and is formally integrated into school planning and policy discussions. By creating multiple avenues for participation and amplifying ML/ELL voices in governance, our school empowers these families to contribute meaningfully to the school community, fostering strong home-school partnerships that enhance educational outcomes and enrich the overall school experience for all students.

3. What culturally and linguistically responsive partnerships do you currently have that support the needs of your school community?

At our school, we prioritize culturally and linguistically responsive partnerships that directly support the diverse needs of our school community. One key partnership is with the Queens Hispanic Cultural Center, which helps us organize workshops, cultural events, and family engagement activities that celebrate Hispanic heritage and promote mutual understanding. For example, during Hispanic Heritage Month, the center collaborates with us to host performances, workshops on cultural traditions, and opportunities for families to share their heritage.

We also partner with the Flushing Chinese Cultural Center to support Lunar New Year celebrations and other events that highlight Chinese culture, as well as local organizations that serve our South Asian and Middle Eastern families, including collaborations for Eid and Holi celebrations. These partnerships allow us to provide language-specific resources, tutoring services, and advocacy support tailored to our families' cultural and linguistic needs.

In addition to these community partnerships, our school hosts cultural events throughout the year, such as Latin Night, Lunar New Year Celebration, Eid Celebration, Holi Celebration, and cultural trips and performances. These events create opportunities for students and families to share and learn from one another's traditions, fostering a sense of belonging and cultural pride. We also collaborate with local council members and community organizations to strengthen connections beyond the school and ensure our students' voices are represented in the broader community.

Through these culturally and linguistically responsive partnerships, our school fosters a supportive, inclusive

environment where cultural identities are respected, celebrated, and integrated into educational practices. By maintaining and expanding these collaborations, we aim to continually meet the evolving needs of our diverse school community and empower our ML/ELL families to actively participate in their children's learning.

Part VII: Additional Information

Additional Information

Include any additional information that is relevant to your LAP and would further explain and highlight how your school supports MLs/ELLs. This form does not allow graphics and charts to be pasted.

N/A

Part VIII: ELL Identification Attestation and Principal Certification

Identification Plan

For additional information, refer to ELL Identification Attestation Professional Learning Module.

1. What are the titles of the members of your ELL identification team? Note: Members of the ELL identification team must be pedagogues.

The members of our ELL identification team include an ENL Teacher, a Bilingual Teacher, an Assistant Principal, a Guidance Counselor, and a Special Education Teacher. Each member brings specialized expertise to the identification process. The ENL Teacher assesses students' English language proficiency and provides insight into appropriate instructional placements. The Bilingual Teacher evaluates students' home language abilities to determine language dominance and support needs. The Assistant Principal oversees the process, ensuring adherence to district and CR Part 154 guidelines and facilitating coordination among team members. The Guidance Counselor gathers and reviews academic and social-emotional information to provide a holistic understanding of each student's learning profile. The Special Education Teacher identifies students' potential learning differences and ensures that any needs related to disabilities are considered during placement decisions. Together, this multidisciplinary team ensures that each student is accurately assessed and placed in an ELL program that meets both their language development and academic needs.

2. Describe the structures and process in place for identification of ELLs year-round as required by the NYC DOE Policy & Reference Guide for MLs/ELLs, including your school's identification plan for any incoming students with an Individualized Education Plan (IEP). Include:

- **How your school proactively plans for the ELL identification process so that it does not interrupt the provision of mandated ENL and/or bilingual instruction to current, former and potential ELLs,**
- **Who is responsible for each step of the ELL identification process, and**
- **School's plan for ensuring ELLs and former ELLs will continue to receive mandated instruction.**

At our school, we implement a comprehensive, year-round process for identifying English Language Learners (ELLs), in accordance with the NYC DOE Policy & Reference Guide for Multilingual Learners (MLs)/ELLs and CR Part 154 regulations. Identification begins at enrollment with a review of the Home Language Identification Survey (HLIS) for all incoming students. Families' responses on the HLIS help determine if a language proficiency assessment is necessary. For example, when a new student, Mary, enrolled last year, her HLIS indicated Spanish was spoken at home, triggering a referral for assessment. Our ELL Identification Team—which includes the ENL Teacher, Bilingual Teacher, Assistant Principal, Guidance Counselor, and Special Education Teacher—reviews HLIS responses, evaluates student records, and coordinates next steps. Each team member contributes their expertise: ENL and Bilingual Teachers administer language proficiency assessments in English and the home language, the Assistant

Principal ensures compliance with CR Part 154 and coordinates scheduling, the Guidance Counselor provides academic and social-emotional context, and the Special Education Teacher ensures students with IEPs receive appropriate accommodations during testing.

To minimize disruptions to mandated ENL or bilingual instruction, our school uses a rotating assessment schedule, testing new students during times that do not conflict with core instruction. For instance, during NYSESLAT or other proficiency testing windows, current ELLs continue receiving language services in dedicated classrooms, while incoming students are assessed in separate spaces. Students with IEPs receive accommodations such as extended time, oral assessments, or individualized support during testing, coordinated by ENL and Special Education staff. Once assessments are complete, the Identification Team reviews results, determines ELL eligibility, and documents each step, including assessment outcomes, team deliberations, and placement decisions, in the school's student information system to ensure compliance, continuity, and accountability. Families are promptly notified of their child's ELL status, program options, and available language supports, and any missed meetings are followed up with rescheduling opportunities or written summaries. Former ELLs are monitored for up to two years post-exit to ensure ongoing academic and language support. This structured approach ensures accurate identification, uninterrupted access to mandated instruction, and a seamless transition into appropriate ELL or bilingual programs for all students.

Principal Certification

In accordance with New York State's Commissioner's Regulations Part 154 as outlined and implemented in the NYC DOE Policy and Reference Guide for MLs/ELLs, I, attest that the following ELL identification procedures and activities are adhered to, and staff are trained on the items listed below.

- The ELL Identification Process is completed for each student within 10 school days of enrollment (20 school days for students entering with IEPs).
- Enrollment status of each newly admitted student is determined:
  a. If a student has been in New York State public schools within the past 2 years, our school contacts the previous school to obtain ELL status, relevant assessment scores, and English language proficiency level.
  b. If a student has been outside of New York State public schools for more than 2 years, our school administers the ELL Identification Process as part of reentry.

- The home language of the student is determined by a trained and licensed pedagogue.
  a. The parent completes the Home Language Identification Survey in the parent's preferred language; translation services are provided by a bilingual staff member, the DOE's over-the-phone translation services, or an alternative, high quality translation service.

- An interview with parents and students in English and the home language is conducted. This includes reviewing documents, prior assessments, and academic experience. An assessment of the student's abilities and/or work samples determines the student's literacy and math level in his/her home language.
- Eligibility for the NYSITELL is determined.
  a. If the newly enrolled student is entering with an IEP, the school's Language Proficiency Team (LPT) recommends eligibility to the principal, who obtains final approval from the superintendent.

- Students are administered the NYSITELL, if eligible.
- Notification letters are sent to the parent/guardian in their preferred language.
  a. Parent is notified of their child's ELL status and results of the NYSITELL.

- If the student is identified as an ELL and the student's home language is Spanish, the student is administered the Spanish Language Assessment Battery (LAB).
- Student with Interrupted/Inconsistent Formal Education (SIFE) status is determined using New York State's resources.
- If a student is a newly identified ELL, the parent is invited to the parent orientation meeting.
  a. The parent orientation meeting provides parents/guardians with an explanation of each ELL program model offered in NYC; the parent video describing the three programs is presented (in parent's preferred language); parents/guardians are encouraged to ask questions so that they are

informed about all ELL programs; translation and interpretation services are provided throughout the meeting.

- ELL is placed in the ELL program that the parent selected.
  a. If the bilingual program that the parent selected is not available, the parent is offered a transfer to a school with that bilingual program in accordance with NYC DOE transfer policies.
  b. If the ELL remains in the school, the ELL is placed in English as a New Language and our school keeps track of parent selection so that when minimum thresholds are met, we can open the ELL program of choice.

- Parents are notified that they have 45 days to appeal the ELL status of their child (ELL Re-identification Process).
- If the ELL Re-identification Process is implemented for any student, the principal reviews the decision of any student whose ELL status was changed because of the ELL Re-identification Process within 6 to 12 months.
- Copies of documentation regarding ELL identification, including letters and parent notifications are kept in the students' cumulative files.

LTI Overview and Part A: Designation of a LAC

Chancellor's Regulation A-663 establishes procedures for ensuring that Limited-English-Proficient (LEP) parents of students enrolled in the New York City public schools are provide with a meaningful opportunity to participate in and have access to programs and services critical to their child's education. To this end, schools must review and complete the annual LTI Plan to address its language assistance needs consistent with the requirements of this regulation.

The LTI Plan requires information on the following:

- Name of person designated as the Language Access Coordinator (LAC).
- Identification and assessment of LEP parent population.
- Identification of Critical Communications and standing, in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.
- Plan to ensure staff awareness of language access requirements and available resources.
- Provision of notice to parents on the available language assistance services.

Methods for the school to solicit and implement feedback on its provision of language assistance services.

Office of Language Access (OLA) Contact:

- **Contact Information:**
  - **Cunneely Elena, ECunneely@schools.nyc.gov**
  - **Rivera Ricardo, RRivera60@schools.nyc.gov**
  - **Williams Robert. RWilliams32@schools.nyc.gov**

Please do not edit

Robert Williams

Designation of a LAC
Name of person designated and trained as the LAC.
At the start of each school year, each principal is required to designate at least one staff member to serve as the Language Access Coordinator (LAC), responsible for overseeing language assistance services within the school.

We have pre-populated the following information based on our records. Please confirm that the designated staff member(s) are your school's Galaxy-designated LAC(s) and provide the date(s) they attended the OLA Language Access Coordinator Training. Note that this training is in addition to the mandatory asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform. If any information is missing, please provide the requested details.

As a reminder, LACs are internal staff designations and are not meant to serve as the primary point of contact for families regarding language access-related matters. The Parent Coordinator, or another designated staff member, should remain the main contact for families regarding all issues, including language access.

First Name	Last Name	Title	Date attended OLA Language Access Coordinator Professional Learning Opportunity	Confirmed (Y/N)
Cheralene	Kondel	Assistant Principal 10 Month		
Tanya	Melito	Parent Coordinator - Annual	02/26/2025	
Argyro	Vatougios	Teacher - Special Ed Line 3101		

Part B: Parents' Preferred Languages

Parents' Preferred Languages

Language identification and assessment of parent population.

1. Check the resources your school staff uses to identify parents' preferred languages:

,Part III of the Home Language Identification Survey (HLIS),Automate The System (ATS) reports / Next Generation Student Information System (NGSIS),New York City Schools Account (NYCSA) Student Profile,Student Emergency Contact cards,Surveys conducted by your school

If Other was selected, describe the resource here:

2. We have pre-populated the following information from the Parent's Preferred Language Report (RCPL) in ATS. For the last two columns, please indicate the number of school staff members who are comfortable using their language skills to communicate with parents and regularly assist other staff members and families with translation and/or interpretation. If none, enter "0".

Language (Description within RCPL)	Written Preferred Count	Written Preferred Percentage	Oral Preferred Count	Oral Preferred Percentage	No. of Staff to Help with Written Translation	No. of Staff to Help with Oral Interpretation
ARABIC	0	0.00%	2	0.13%	3	3
BELORUSSIAN	0	0.00%	1	0.07%	0	0
BENGALI (BANGLA IN BANGLADESH)	76	5.07%	92	6.15%	5	5
BUSHMAN	1	0.07%	1	0.07%	0	0
BURMESE	1	0.07%	1	0.07%	1	1
CHINESE ANY	198	13.22%	135	9.03%	10	10

CANTONESE	2	0.13%	3	0.20%	7	7
GUJARATI	5	0.33%	5	0.33%	1	1
HINDI	2	0.13%	2	0.13%	5	5
INDONESIAN (AKA BAHASA)	7	0.47%	7	0.47%	2	2
MANDARIN	6	0.40%	69	4.62%	10	10
NEPALI	6	0.40%	10	0.67%	2	2
ENGLISH	830	55.41%	793	53.04%	150	150
PILIPINO (A.K.A. TAGALOG)	3	0.20%	4	0.27%	2	2
SPANISH	355	23.70%	360	24.08%	20	20
(AMERICAN) SIGN LANGUAGE	0	0.00%	2	0.13%	0	0
THAI	2	0.13%	3	0.20%	1	1

URDU	1	0.07%	1	0.07%	0	0
UKRAINIAN	0	0.00%	1	0.07%	0	0

Part C: Parent Communications and Engagement

Parent Communication and Engagement

Identification of written critical communications and in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.

1. List the documents your school typically distributes each year that require translation, along with your plan for translating these documents.

Document Type (e.g. parent flyers, IEPs, etc.)	How do you plan to implement the translation process? Please include procedures and resources to ensure the timely delivery of translated documents to parents.
Parent Flyers	To ensure that all parents receive important information in a language they can understand, our school has developed a clear process for translating documents and communicating with families. This process is designed to be efficient, timely, and inclusive, utilizing both digital and in-person resources. At the beginning of the school year, we collect language preference information from families through the Home Language Questionnaire (HLQ) during student registration. This helps us identify the languages spoken at home and ensures we know which families may need translated materials. For example, if a family indicates that Spanish is spoken at home, we ensure that all relevant school communications, such as flyers, newsletters, and event announcements, are translated into Spanish. Once the need for translation is identified, our school uses a combination of in-house staff and external professional translation services to ensure accuracy and cultural relevance. Our ENL specialists and bilingual teachers assist in translating documents into the languages spoken by our families, such as Spanish, Chinese, and Bengali. For more complex documents or those requiring specialized terminology (like medical forms), we partner with a professional translation service. This approach allows us to ensure that translations are both accurate and culturally appropriate. To ensure that translated materials are delivered to parents in a timely manner, our school has established a system for prompt distribution. For instance, when a flyer for an upcoming event, such as a parent workshop or cultural celebration, is prepared, it is sent for translation at least two weeks in advance. Once the translation is complete, the flyer is printed and distributed through multiple channels, including sending paper copies home with students, emailing the translated materials to families, and posting them on our school's website and social media platforms. Additionally, if our school uses a communication app like Remind or ClassDojo, translated materials are uploaded to the app so that parents can access them at their convenience. In addition to translated flyers, we also provide in-person support for families who may need assistance understanding school documents. Our bilingual staff members, including ENL teachers, bilingual counselors, and parent coordinators, are available to meet with parents and explain important documents or school updates in their native language. We also organize language-

	specific parent workshops where families can ask questions and receive additional support. To ensure that the translation process remains effective, we regularly seek feedback from parents about the clarity and usefulness of the translated materials. After major events, we might send out brief surveys asking if the translated information was clear and if there were any language barriers. This feedback is used to improve the quality and timeliness of future translations. Through this process, we aim to make sure that all parents are well-informed and able to actively participate in their children's education, regardless of their language background, fostering family engagement and equitable access to educational opportunities for all students.
IEPs	To ensure that all parents, including those of students with Individualized Education Plans (IEPs), receive important information in a language they can understand, our school has developed a clear process for translating documents and communicating with families. This process is designed to be efficient, timely, and inclusive, utilizing both digital and in-person resources. At the beginning of the school year, we collect language preference information from families through the Home Language Questionnaire (HLQ) during student registration. This helps us identify the languages spoken at home and ensures we know which families may need translated materials. For example, if a family indicates that Spanish is spoken at home, we ensure that all relevant school communications, such as flyers, newsletters, and event announcements, are translated into Spanish. Once the need for translation is identified, our school uses a combination of in-house staff and external professional translation services to ensure accuracy and cultural relevance. Our ENL specialists and bilingual teachers assist in translating documents into the languages spoken by our families, such as Spanish, Chinese, and Bengali. For more complex documents, such as those related to IEPs or other special education services, we partner with a professional translation service to ensure that the language used is both accurate and sensitive to the needs of students with disabilities. This ensures that families of students with IEPs have clear access to important information about their child's educational services and progress. To ensure that translated materials are delivered to parents in a timely manner, our school has established a system for prompt distribution. For instance, when a flyer for an upcoming event, such as a parent workshop or cultural celebration, is prepared, it is sent for translation at least two weeks in advance. Once the translation is complete, the flyer is printed and distributed through multiple channels, including sending paper copies home with students, emailing the translated materials to families, and posting them on our school's website and social media platforms. Additionally, if our school uses a communication app like Remind or ClassDojo, translated materials are uploaded to the app so that parents can access them at their convenience. In addition to translated flyers, we provide in-person support for families who may need assistance understanding school documents, including IEP-related materials. Our bilingual staff members, including ENL teachers, bilingual counselors, and special education staff, are available to meet with parents and explain important documents or school updates in their native language. We also provide translation support during IEP meetings to ensure that parents of students with disabilities fully understand the content and implications of the documents being discussed. Furthermore, we organize language-specific parent workshops where families can ask questions and receive additional support. To ensure that the translation process remains effective, we regularly seek feedback from parents about the clarity and usefulness of the translated materials. After major events or IEP meetings, we might send out brief surveys asking if the translated information was clear and if there were any language barriers. This feedback is used to improve the quality and timeliness of future translations. Through this process, we aim to ensure that all parents, including those of students with IEPs, are well-informed and able to actively participate in their children's education, regardless of their language background, fostering family engagement and equitable access to educational opportunities for all students.

2. List the meetings, both in-person and virtual, that your school typically holds with parents throughout the school year, along with your plans for providing interpretation services at those meetings.

Meeting Type (e.g. parent workshops, PTCs)	How do you plan to offer interpretation services? Please outline the procedures and resources in place to ensure timely access to interpretation for parents.
Parent Town Hall	For Parent Town Hall meetings hosted by the Principal, we are committed to ensuring that all parents have access to accurate and timely interpretation services so they can fully participate in the discussions. To achieve this, we have established a well-organized process that relies on both our bilingual staff and available resources to ensure seamless language support during these important events. To begin, we identify the language needs of our families through the Home Language Questionnaire (HLQ) collected during student registration. This allows us to understand which languages are spoken at home and helps us anticipate the need for interpretation services. For instance, if a family indicates that they speak Spanish or Bengali, we plan for interpretation services in these languages during the Parent Town Hall meetings. For the Parent Town Hall meetings themselves, we utilize our bilingual school staff, including ENL teachers, counselors, and other support staff, to provide interpretation services. These staff members are trained and available to interpret real-time discussions and presentations in languages such as Spanish, Mandarin, or others commonly spoken by our families. This internal resource allows us to ensure that parents can follow the meeting and participate in the conversation. If the language demand exceeds the capacity of our staff, we also coordinate with external services to secure professional interpreters for less commonly spoken languages, ensuring no parent is left without support. To ensure timely access to interpretation services, we follow a clear set of procedures. Once the date for the Parent Town Hall meeting is confirmed, invitations and reminders are sent to parents in multiple languages. These communications provide meeting details, such as the agenda and the languages for which interpretation services will be available. We also include a contact number where parents can request additional language support or specific accommodations, like ASL interpretation, in case there are any last-minute needs. On the day of the meeting, our bilingual staff members are provided with the agenda and any presentation materials ahead of time to ensure they are prepared to interpret effectively. For larger meetings, we use microphones or headsets to facilitate simultaneous interpretation, ensuring that parents can follow along without interruptions. Additionally, we provide translated copies of presentation slides and any key materials before the meeting begins, allowing parents to review them in advance. During the meeting, bilingual staff assist parents with any questions or concerns, offering one-on-one translation as needed to ensure full participation. After the Parent Town Hall meeting, we seek feedback from parents about the effectiveness of the interpretation services. This feedback helps us continuously improve our process and better meet the needs of our diverse community. By relying on our bilingual staff and external services when

	necessary, we ensure that all parents have equal access to the information shared during the Parent Town Hall meetings. This process strengthens family involvement and supports our commitment to creating an inclusive, equitable school environment where all families can engage in their children's education.
Student Town Hall	For Student Town Hall meetings hosted by the Principal, we are dedicated to ensuring that all parents have access to accurate and timely interpretation services to support their full participation in the event. To accomplish this, we have developed a clear, structured process that involves both professional resources and the assistance of bilingual staff to ensure all parents can engage meaningfully in the meeting. Our first step in providing interpretation services is to identify the language needs of our families. We do this by collecting language preference information through the Home Language Questionnaire (HLQ) during student registration. This allows us to know in advance which languages are spoken in our community and anticipate the need for interpretation during events like the Student Town Hall meetings. For example, if a family reports Spanish or Bengali as their primary language, we ensure that interpretation services for these languages are available during the meeting. For the Student Town Hall meeting itself, we utilize a combination of bilingual staff and, when necessary, professional interpreters. Our bilingual school staff, including ENL teachers, counselors, and other support personnel, are trained and available to assist with real-time interpretation for parents who speak languages such as Spanish, Mandarin, or other commonly spoken languages within our community. In the event that a language is less commonly spoken, we work with professional translation services to ensure that an interpreter is present for that language as well. This approach guarantees that parents from all linguistic backgrounds can understand the information shared during the meeting. The procedures for ensuring timely access to interpretation services are as follows: Once the date for the Student Town Hall meeting is set, invitations and reminders are sent out to parents in multiple languages, providing details about the meeting, its agenda, and the languages for which interpretation will be available. We also include a contact number for parents to request additional language support or any special accommodations, such as ASL interpretation, if needed. This allows us to make any necessary arrangements well in advance and ensures that we are fully prepared for the meeting. On the day of the meeting, our bilingual staff members are briefed and provided with any presentation materials ahead of time to ensure they are well-prepared for interpretation. For larger gatherings, we utilize microphones or headsets for simultaneous interpretation, ensuring that the process runs smoothly and parents can follow the conversation in real-time. Additionally, we make sure that translated copies of any presentation slides, handouts, or key materials are available before the meeting, so that parents can review them in advance. During the meeting, bilingual staff are stationed throughout the room to assist parents with any specific questions or concerns that may arise, and they offer one-on-one translation when needed. After the meeting, we gather feedback from parents regarding the quality and effectiveness of the interpretation services. This feedback helps us continuously improve our processes and better meet the needs of all families in the future. By utilizing both bilingual staff and professional interpreters, we ensure that all parents have equal access to the information shared during the Student Town Hall meetings, allowing them to stay informed and involved in their children's education. This process fosters a stronger connection between the school and families and supports our commitment to creating an inclusive and equitable school community.
ENL Parent Meeting	For ENL Parent Meetings hosted by ENL teachers and the Assistant Principal, we are committed to ensuring that all parents, regardless of their language background, have access to timely and accurate interpretation services so they can fully engage in the discussion. To achieve this, we have established a streamlined process that relies on the expertise of our bilingual staff and available resources to provide effective language support during these important meetings. We begin by identifying the language needs of our families through the Home Language Questionnaire (HLQ), which is completed during student registration. This helps us determine the languages spoken at

	home and allows us to plan for interpretation services in advance. For example, if a family reports that they speak Spanish or Bengali, we ensure that interpretation services are available in those languages for the ENL Parent Meetings. For the ENL Parent Meetings, we rely on our bilingual staff, including ENL teachers and the Assistant Principal, to provide real-time interpretation of the meeting discussions. Our staff is trained and equipped to interpret in languages such as Spanish, Mandarin, Bengali, and other commonly spoken languages within our community. This ensures that parents can follow the conversation, ask questions, and fully understand the information being shared. In situations where the language demand exceeds the capacity of our staff, we coordinate with external interpretation services to ensure that professional interpreters are available for less commonly spoken languages. To ensure that parents have timely access to interpretation, we follow a clear set of procedures. Once the date for the ENL Parent Meeting is set, invitations and reminders are sent out to families in multiple languages. These communications include details about the meeting agenda, the languages for which interpretation will be provided, and a contact number for parents to request additional language support or accommodations, such as sign language interpretation if needed. This allows us to adjust and plan for any last-minute requests, ensuring that all parents can attend and participate. On the day of the meeting, bilingual staff members are provided with the meeting agenda and any presentation materials in advance to ensure they are fully prepared to interpret. For larger meetings, we utilize microphones or headsets for simultaneous interpretation, which allows parents to follow along with the presentation in real time. Additionally, translated versions of presentation slides, handouts, and key materials are made available to parents before the meeting begins, so they can review the information in advance. During the meeting, bilingual staff, including the ENL teachers and Assistant Principal, are available to assist parents with any specific questions or concerns, offering one-on-one translation as needed. After the meeting, we gather feedback from parents to assess the effectiveness of the interpretation services. This feedback helps us continuously refine our process and better meet the needs of our school community. By utilizing our bilingual staff and external professional interpreters when necessary, we ensure that all parents have equal access to the information shared during ENL Parent Meetings. This process promotes greater family involvement, strengthens communication, and supports our commitment to building an inclusive and equitable school environment for all families.
Parent Orientation	For Parent Orientation meetings, hosted by the school's leadership team and staff, we are committed to ensuring that all parents have access to accurate and timely interpretation services, enabling them to fully participate in the event. To accomplish this, we have established a structured process that relies on our bilingual staff and available resources to provide effective language support during the orientation. We start by identifying the language needs of our families through the Home Language Questionnaire (HLQ) collected during student registration. This allows us to determine the primary languages spoken at home and plan for interpretation services ahead of time. For instance, if a family indicates they speak Spanish or Mandarin, we ensure that interpretation services in those languages are available for the Parent Orientation meetings. During the Parent Orientation, staff members, including ENL teachers, bilingual counselors, and other bilingual staff, are available to assist with real-time interpretation of the meeting presentations and discussions. Our staff is trained to interpret in languages such as Spanish, Bengali, and Mandarin, ensuring that all parents can follow the meeting, understand the key points, and actively participate. In situations where language needs exceed our staff capacity, we partner with professional interpretation services to secure additional support, ensuring that parents who speak less common languages have the resources they need. To ensure timely access to interpretation, we follow a clear set of procedures. Once the date for the Parent Orientation is confirmed, invitations and reminders are sent to parents in multiple languages, providing information about the event, including the agenda and which languages will be supported. We also include a contact number for parents to request any additional language assistance or accommodations, such as sign language interpretation, so that we can adjust our plans accordingly and ensure no parent is excluded from the event. On the day of the Parent Orientation, bilingual staff are provided with the event's agenda and materials in advance, allowing them to prepare for

	interpreting the discussions. For larger meetings, we use microphones or headsets to facilitate simultaneous interpretation, making sure that parents can follow the meeting without disruption. Additionally, translated copies of presentation slides and any key documents are made available to parents before the meeting begins so they can review the materials in advance. During the meeting, bilingual staff members are stationed throughout the room to assist with any specific questions or concerns, offering one-on-one translation as necessary. After the event, we gather feedback from parents about the quality of the interpretation services to assess their effectiveness and to ensure that we can improve the process for future orientations. By utilizing both our bilingual staff and professional interpretation services when necessary, we ensure that all parents have equal access to the information shared during the Parent Orientation meetings. This process fosters greater family involvement and engagement, strengthens communication between the school and families, and supports our commitment to creating an inclusive, equitable school environment for all families.
Parent Teacher Conferences	For Parent-Teacher Conferences, we are committed to ensuring that all parents, regardless of their language background, have access to accurate and timely interpretation services, enabling them to fully engage in discussions about their child's progress. To achieve this, we have established a comprehensive process that combines the use of NYC DOE interpretation agencies and our bilingual staff members to provide language support during these important meetings. To begin, we identify the language needs of our families through the Home Language Questionnaire (HLQ) completed during student registration. This allows us to determine which languages are spoken at home and plan for interpretation services accordingly. For example, if a family indicates they speak Spanish, Chinese, or Bengali, we ensure that interpretation services for these languages are available during Parent-Teacher Conferences. For the conferences themselves, we rely on NYC DOE-approved interpretation agencies that provide professional, certified interpreters for a range of languages. These interpreters are scheduled in advance to ensure availability during the conferences. In addition to the external interpretation services, we also leverage our bilingual staff members, such as ENL teachers, counselors, and other staff fluent in languages like Spanish, Mandarin, or Bengali, to provide real-time interpretation when necessary. This ensures that all parents, regardless of language, can participate fully in the conversation about their child’s academic performance and any areas of concern. To ensure timely access to interpretation services, we follow a set of clear procedures. Once the dates for Parent-Teacher Conferences are confirmed, we send out invitations and reminders to parents in multiple languages, including key information such as the conference schedule and the languages for which interpretation services will be available. In these communications, we also provide a contact number for parents to request additional language support or specific accommodations, such as sign language interpretation, so we can adjust our plans accordingly. On the day of the Parent-Teacher Conference, interpreters from the NYC DOE-approved agencies are briefed and provided with any materials ahead of time to ensure they are prepared for the meeting. In situations where multiple languages are needed for a single conference, we ensure that interpretation is available for each language group without delay. Additionally, bilingual staff members are available to assist with any specific translation needs during the conference, ensuring smooth communication between teachers and parents. After the conferences, we actively seek feedback from parents regarding the quality of the interpretation services. This feedback helps us assess the effectiveness of our process and make any necessary adjustments to better meet the needs of our families in future conferences. By combining the resources of professional interpretation agencies and our bilingual staff members, we ensure that all parents have equal access to the information shared during Parent-Teacher Conferences. This approach fosters stronger communication, greater family involvement in their child’s education, and supports our commitment to building an inclusive and equitable school environment for all families.
Open House	For Open House events hosted by the school community, we are committed to ensuring that all families, regardless of their language background, can fully participate and engage in the event. To

	provide equitable access, we have established a process that relies on our bilingual staff members to offer real-time interpretation and ensure that all families feel welcome and informed. To begin, we identify the language needs of our families through the Home Language Questionnaire (HLQ) completed during student registration. This allows us to understand which languages are spoken at home and anticipate the need for interpretation services during events like Open House. For example, if a family indicates they speak Spanish, Bengali, or Mandarin, we ensure that interpretation services are available in these languages during the Open House event. During the Open House, our bilingual staff members, including ENL teachers, counselors, and other school personnel fluent in languages such as Spanish, Bengali, and Mandarin, are available to provide real-time interpretation of the event's presentations and discussions. This ensures that parents can understand the information being shared, ask questions, and engage with the school community without language barriers. If additional support is needed for languages outside of our bilingual staff's fluency, we work to arrange for additional interpreters to meet those needs. To ensure that interpretation services are available and accessible, we follow a clear procedure. Once the Open House date is confirmed, invitations and reminders are sent to families in multiple languages, outlining the event details, agenda, and which languages will be supported for interpretation. We also provide a contact number for parents to request additional language support or accommodations in advance, such as sign language interpretation, ensuring that we can meet any last-minute requests. On the day of the Open House, our bilingual staff members are briefed on the event's agenda and materials ahead of time so they can be fully prepared to provide effective interpretation. They are stationed throughout the event to offer assistance as needed, providing simultaneous interpretation of presentations and one-on-one translation for parents who need additional support. After the Open House, we collect feedback from parents regarding the effectiveness of the interpretation services, which helps us improve the process for future events. By relying on our bilingual staff, we ensure that all families can fully participate in the Open House and feel welcome in the school community. This approach strengthens communication, enhances family involvement, and supports our commitment to fostering an inclusive, equitable environment where all families feel supported and engaged.

3. Describe the resources and processes your school will use to communicate with parents who speak a language other than English during an emergency (e.g., lockdown, fire, student attendance, nurse/hospital visit, etc.), or when a parent needs to contact the school in an emergency, ensuring communication is in their preferred language.

In the event of an emergency, our school is dedicated to ensuring that all parents, including those who speak a language other than English, receive clear and timely communication in their preferred language. To achieve this, we utilize a combination of bilingual staff interpretation, translated messages via ClassDojo, translated robo-calls, and translated flyers to ensure that language barriers do not impede access to vital information.

Our bilingual staff members, including ENL teachers, school counselors, and other support staff, play a crucial role in providing real-time interpretation during emergencies. If a parent needs to contact the school or requires assistance, they can reach out to one of our bilingual staff members, who are fluent in languages such as Spanish, Bengali, Mandarin, and others commonly spoken within our community. These staff members are trained to assist with interpretation quickly and effectively, ensuring that parents understand the emergency situation and any immediate actions they need to take.

In addition to staff interpretation, we use ClassDojo, a communication platform that allows us to send messages in parents' preferred languages. ClassDojo automatically translates messages into the language parents have indicated during registration, ensuring that all families receive important updates without delay. This is particularly useful for communicating during emergencies such as lockdowns, fire drills, or medical incidents, as it provides immediate, accessible information.

For further outreach, we also utilize translated robo-calls. Our automated calling system sends emergency messages in multiple languages, including Spanish, Bengali, and Mandarin, ensuring that parents receive urgent information in their preferred language. These robo-calls are designed to deliver clear, actionable instructions during critical situations like school evacuations or health-related emergencies.

Lastly, we distribute translated flyers and written notices to ensure all parents are kept informed. These materials are available in the main office and are sent home with students when necessary. In addition, any emergency-related forms or instructions are translated to ensure that parents have all the information they need in a language they understand.

By leveraging the expertise of our bilingual staff, technology tools like ClassDojo and robo-calls, and translated printed materials, we ensure that all parents are able to receive timely and accurate information during emergencies. This multi-pronged approach not only ensures the safety and well-being of our students but also supports our ongoing commitment to creating an inclusive and equitable school environment where all families are empowered to respond to emergencies effectively.

Part D: Staff Awareness

Staff Awareness

Plan to ensure staff awareness of language access requirements and available resources.

1. Describe how your school will ensure that all staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform, and are familiar with the Best Practices for When to Provide Translation of Critical Written Communications to Parents and Best Practices for When to Provide Interpretation for Critical Oral Communications with Parents. Additionally, explain how your Galaxy-designated LAC will disseminate future language access resources and updates to all staff members.

At P.S. 7Q, we are committed to ensuring that all staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform and are familiar with the best practices for providing translation and interpretation services to parents. We have established clear procedures and ongoing support to ensure that staff are well-equipped to meet the language access needs of our school community.

To ensure that all staff members complete the training, we have incorporated it into our professional development schedule. Staff members will receive reminders about the training via email and during staff meetings, where the importance of language access and the specific requirements of the training will be emphasized. Staff members will be given dedicated time to complete the training on WeLearnNYC, and we will monitor completion to ensure full participation. For staff who may need additional support, the assistant principal and ENL team will offer assistance and guidance on how to navigate the WeLearnNYC platform and complete the training.

In addition to the training, our staff is provided with clear guidelines on when to provide translation for critical written communications and when to provide interpretation for critical oral communications with parents. These guidelines are informed by the NYC Department of Education's language access policies and include specific examples, such as providing translations for documents related to student enrollment, academic progress, emergency notifications, and consent forms. For oral communications, staff are trained to offer interpretation during parent-teacher conferences, emergency calls, and other important meetings where parents must receive clear and accurate information in their preferred language.

To support the dissemination of language access resources and updates, our Galaxy-designated Language Access Coordinator (LAC) will take an active role in keeping all staff informed. The LAC will regularly communicate updates through staff meetings, emails, and the school's internal communication platforms. Additionally, the LAC will coordinate the distribution of any new resources or training materials related to language access and will serve as a point of contact for staff who have questions or need further assistance. The LAC will also collaborate with the ENL team and other staff to ensure that the school remains compliant with language access policies and that all language access services are provided effectively and equitably.

By ensuring that all staff members complete the required training, understand best practices for language access,

and stay up to date with the latest resources and guidelines, P.S. 7Q will continue to foster an inclusive and supportive environment for all our families, ensuring that language barriers do not impede access to essential information and services.

Part E: Parental Notification

Parental Notification

Provision of notice to parents on the available language assistance services.

1. Describe how your school will inform parents about available language assistance services in their preferred language. Include any of the following:

- **Translated signage**
- **Brochures, flyers, or letters shared with parents**
- **Parent engagement events where language assistance services are highlighted (e.g., PTA meetings, international parents' night, etc.)**
- **Messaging applications**

- Language Access for NYC Public Schools Families brochure

At P.S. 7Q, we are committed to ensuring that all parents are informed about the language assistance services available to them in their preferred language. To achieve this, we utilize a variety of resources and communication methods to ensure families are aware of the support they can access.

One of the primary ways we inform parents is through translated signage displayed throughout the school. These signs are strategically placed in areas such as the main entrance, the school office, and other high-traffic areas, and they clearly indicate the availability of language assistance services. The signage is translated into the most commonly spoken languages among our parent population, such as Spanish, Bengali, and Chinese.

In addition to signage, we distribute translated brochures, flyers, and letters to parents, which provide detailed information about available language assistance services. These documents are sent home with students, shared at parent engagement events, and made available in the main office. They outline how parents can access interpretation and translation services for meetings, documents, and communications. For example, the letters and flyers will explain how parents can request an interpreter for parent-teacher conferences, or how to request translated versions of critical school documents, such as consent forms or report cards.

We also highlight language assistance services during various parent engagement events. For example, at events such as our PTA meetings, international parents' nights, and Open House, we ensure that parents are informed about the availability of language support services. During these events, we provide information about how to access language assistance and encourage parents to ask questions or express any specific language needs they may have. These events also offer an opportunity to directly engage with bilingual staff members who can provide more information and assist with any language barriers.

To further support communication, we use messaging applications like ClassDojo to send translated messages to parents in their preferred language. ClassDojo automatically translates messages into the language parents select

during registration, ensuring they are kept informed about important school events, announcements, and deadlines.

Lastly, we distribute the "Language Access for NYC Public Schools Families" brochure, which provides comprehensive information about the language assistance services offered by the school district. This brochure is shared during parent orientation, at school events, and is available in multiple languages to ensure parents are fully aware of their rights to language access services.

By utilizing these diverse communication methods and resources, P.S. 7Q ensures that all families, regardless of their language, are informed about the language assistance services available to them and feel empowered to access the support they need.

Part F: Monitoring

Monitoring

Methods for soliciting and implementing feedback on language assistance services.

1. In addition to the feedback received from parents via OLA's Translation & Interpretation Feedback Survey, describe the methods your school will use to gather feedback from parents regarding the language assistance services they receive in their preferred language.

At P.S. 7Q, we are committed to ensuring that all parents are informed about the language assistance services available to them in their preferred language. To achieve this, we utilize a variety of resources and communication methods to ensure families are aware of the support they can access.

One of the primary ways we inform parents is through translated signage displayed throughout the school. These signs are strategically placed in areas such as the main entrance, the school office, and other high-traffic areas, and they clearly indicate the availability of language assistance services. The signage is translated into the most commonly spoken languages among our parent population, such as Spanish, Bengali, and Chinese.

In addition to signage, we distribute translated brochures, flyers, and letters to parents, which provide detailed information about available language assistance services. These documents are sent home with students, shared at parent engagement events, and made available in the main office. They outline how parents can access interpretation and translation services for meetings, documents, and communications. For example, the letters and flyers will explain how parents can request an interpreter for parent-teacher conferences, or how to request translated versions of critical school documents, such as consent forms or report cards.

We also highlight language assistance services during various parent engagement events. For example, at events such as our PTA meetings, international parents' nights, and Open House, we ensure that parents are informed about the availability of language support services. During these events, we provide information about how to access language assistance and encourage parents to ask questions or express any specific language needs they may have. These events also offer an opportunity to directly engage with bilingual staff members who can provide more information and assist with any language barriers.

To further support communication, we use messaging applications like ClassDojo to send translated messages to parents in their preferred language. ClassDojo automatically translates messages into the language parents select during registration, ensuring they are kept informed about important school events, announcements, and deadlines.

Lastly, we distribute the "Language Access for NYC Public Schools Families" brochure, which provides comprehensive information about the language assistance services offered by the school district. This brochure is shared during parent orientation, at school events, and is available in multiple languages to ensure parents are fully aware of their rights to language access services.

By utilizing these diverse communication methods and resources, P.S. 7Q ensures that all families, regardless of

their language, are informed about the language assistance services available to them and feel empowered to access the support they need.

2. How has your school worked to improve its language assistance services? Share any feedback results and outline your plans for further improvements in the upcoming school year.

At P.S. 7Q, we are committed to continually improving our language assistance services to ensure that all families, regardless of their preferred language, have access to the support they need. We have dedicated resources to enhance accessibility by using data from our Home Language Survey and leveraging parent volunteers to better meet the diverse needs of our community.

One key strategy we have implemented is the careful analysis of responses from the Home Language Survey, which helps us identify the languages spoken by our families. This survey provides valuable data that guides our decision-making process, allowing us to prioritize language services for the most common languages spoken by our parents, such as Spanish, Bengali, and Chinese. We ensure that our language support services, including translation and interpretation, are available in these languages and adapt as needed based on survey responses.

Additionally, we actively engage parent volunteers who speak a variety of languages to assist with translation and interpretation during school events, parent-teacher conferences, and in other communications with families. These volunteers play a vital role in bridging language gaps and ensuring that all parents can participate fully in their child's education. By incorporating parent volunteers into our language assistance efforts, we not only enhance communication but also build a stronger sense of community and collaboration.

To gather feedback on our language assistance services, we regularly survey parents during events and through follow-up communications. This feedback has been invaluable in identifying areas for improvement. For example, parents have shared that they would like more translated materials for school-wide announcements and a clearer understanding of how to request interpretation services. In response to this feedback, we are working to provide more frequent updates and easily accessible instructions for parents on how to access interpretation services for school meetings and events.

Looking ahead to the upcoming school year, we plan to further enhance our language assistance services by expanding the availability of translated documents, increasing the number of bilingual staff and volunteers, and hosting additional parent workshops to provide training on how to effectively navigate language access resources. We also plan to continue gathering parent feedback to ensure that our services evolve with the changing needs of our community.

By focusing on data-driven decisions from the Home Language Survey, engaging parent volunteers, and listening to feedback, P.S. 7Q will continue to improve its language assistance services and ensure that all families feel supported and included in their children's educational journey.

Title III Outline

Title III Supplemental Program for ELLs for SY 2025-26

REQUIREMENTS

Title III supplemental services for English Language Learners (ELLs) must include the following three components:

- **Direct instruction** activities must be used to support language development, English and home language instruction, high academic achievement in math, and/or high academic achievement in other core academic areas. The Title III supplemental instructional services must be based on student need. These supplemental services should complement core bilingual and ENL services required under CR Part 154. Direct supplemental services should be provided for before school, after school, and Saturday programs. Teachers providing the services must be bilingual education and/or English for Speakers of Other Languages (ESOL) certified teachers.
- High quality **professional development** that is "of sufficient intensity and duration to have a positive and lasting impact on the teachers' performance in classrooms." Professional development activities should be well-planned, ongoing events rather than one-day or short-term workshops and conferences.
- **Parent engagement and supports** must ensure that there are appropriate translation and interpretation services to meet community needs. These are in addition to mandated activities, such as parent orientation during ELL identification process or annual ELL parent meetings.

Note: The Title III ELL program planning ratio is as follows: 60% to direct instruction, 10% to professional development (if funded using Title III ELL funds), 10% to parent engagement (if funded using Title III ELL funds), and 20% to OTPS (if funded using Title III ELL funds).

For more information on Title III requirements, please see the School Allocation Memo or contact your ML/ELL Director or ELL Compliance and Performance Specialist. Any updates or revisions to this plan must be made through the iPlan portal.

Part A: School Information

This school is (select one):

Conceptually consolidated (skip Part E of this document)

Part B: Direct Instruction Supplemental Program Information

The direct instruction component of the program will consist of (select all that apply):

,After School

Total number of ELLs to be served in this program:

371

Grades to be served in this program. Select all that apply.

,K,1,2,3,4,5

Total number of teachers in this program:

12

Number of certified bilingual education or ESOL teachers (include teachers that are dually certified with TESOL certification/bilingual extension & common branch/content area certification):

12

Number of content area teachers (i.e., teachers that have common branch/content area licenses only):

2

Title III ELL Summary

Provide a summary of each program funded under Title III ELL for SY 25-26: For each program, describe:

- **When the program takes place (i.e., after school, before school, Saturday academy)**

- **Activities ELLs will engage in and how these activities will enhance instructional opportunities for ELLs**
- **How ELLs will be grouped for instruction and specify the number of student groups. Include total number of student groups and total number of ELLs in each group, for each program**
- **How instruction will be delivered (e.g., team teaching, parallel teaching, etc.)**
- **How the program will be supervised and whether this will be funded by Title III ELL. Please note: If supervision will be funded using Title III ELL funds, you must include the supervisor's regular work day hours and the hours the supervisor will get paid per session.**

P.S. 7 recognizes the ongoing impact that recent disruptions have had on student learning and well-being, particularly among English Language Learners (ELLs). To address these needs, the school is implementing a comprehensive Academic Recovery and ENL Support Program designed to accelerate literacy and language development across grades K–5. The program directly serves the school's current multilingual population, which includes 397 ELLs: 341 Newcomers, 56 Developing ELLs, and 0 Long-Term ELLs. ELL enrollment by grade level includes 63 kindergarten students, 64 first graders, 82 second graders, 82 third graders, 63 fourth graders, and 43 fifth graders.

Instruction for Entering and Emerging ELLs will focus on foundational English vocabulary, reading accuracy and fluency, and the development of simple and compound oral and written sentence structures. Students at the Transitioning and Commanding levels, along with newly arrived non-ELLs needing similar support, will work on strengthening reading fluency, accuracy, and comprehension while expanding academic vocabulary and increasing their ability to use complex language structures aligned with grade-level expectations. Students enrolled in the Dual Language program will participate in the Dual Language After-School Academy, where they will receive targeted bilingual literacy support designed to reinforce grade-level standards and promote biliteracy through instruction in both English and their partner language.

Student grouping is intentional and based on proficiency data from the NYSITELL, NYSESLAT, and the most recent EDUR, EDAT, and ATS-generated RFSF reports. Entering and Emerging ELLs will be grouped separately to ensure access to highly scaffolded instruction, while Transitioning and Commanding ELLs, as well as Newcomers with strong native-language literacy, will be grouped according to similar proficiency levels and reading benchmarks. Dual Language students will be grouped by grade level and bilingual proficiency within the Dual Language Academy.

The After-School Program will run Monday through Thursday from 2:30 PM to 4:00 PM and will provide in-person small-group instruction aligned with the Science of Reading. This program will serve ELLs across all proficiency levels, students performing at Level 1 or 2 in ELA, and Dual Language students in a parallel academy. Certified classroom teachers, ENL-certified and bilingual teachers when available, and paraprofessionals will staff the program. Academic Recovery funds and Title III will support the staffing and materials. A Saturday Academy, offered tentatively from January through May, will operate from 9:00 AM to 12:00 PM and will focus on literacy enrichment and remediation for students who continue to exhibit notable challenges in language development and reading benchmarks. Saturday instruction will be delivered by ENL and ELA teachers and supported through Academic Recovery funding.

Instruction throughout the programs will be rigorous, intentional, and personalized, emphasizing depth of understanding over pacing to ensure mastery of essential language and literacy skills. Lessons will be delivered in English with home-language supports to increase accessibility and comprehension. Culturally responsive and trauma-informed practices will be embedded throughout the program to support academic, linguistic, and social-emotional development.

Approximately eighteen certified teachers will support the program, including ENL and Bilingual-certified teachers

who will provide additional ENL minutes for eligible students. Instructional materials will include Rigby Guided Reading kits and multisensory phonics programs such as Orton-Gillingham and Fundations, which support phonological awareness, phonics, vocabulary, fluency, comprehension, and writing. Digital tools—including Amira, iReady, the Wilson online platform, and Epic Books—will supplement instruction. Title III funds will be used to purchase the Measure Up learning program to further support ELLs.

Students will participate in daily activities such as read-alouds, guided reading, sight-word review, multisensory phonics instruction, vocabulary front-loading, literacy games, close reading, social-emotional learning routines, and math and literacy bridging tasks that strengthen connections to core classroom instruction. Home-language scaffolds, including audio texts, first-language parallel texts through platforms such as SORA, visuals, music, artwork, and technology, will be used to expand access and deepen comprehension.

Classes will include approximately fifteen to twenty students, with two classes per grade in kindergarten through third grade and one class per grade in fourth and fifth grade. Each class will be taught by a certified teacher. The school will maintain accurate attendance records, provide family communication in preferred languages, and monitor student progress using classroom assessments, ELL data reports, and administrative oversight. This systematic approach ensures that instruction remains responsive, data-driven, and aligned to the goal of accelerating student learning and supporting the linguistic and academic success of all multilingual learners at P.S. 7.

Rationale for Title III ELL Funded Programs

Describe the rationale for each Title III ELL funded program. For each program, include:

- **Qualitative and quantitative data analysis that support the need for program, and**
- **Data sources used to justify the need for the program**

Rationale:

P.S. 7 recognizes the impact recent disruptions in education have had on all students' academic progress and social-emotional well-being, including those with Limited English Proficiency. In order to address the opportunity gap exacerbated during this period, P.S. 7 will implement an afternoon program aimed at addressing unfinished learning, learning loss, and students' social-emotional needs.

The rationale for the program designed for Entering or Emerging ELL students is grounded in both quantitative and qualitative evidence. Analysis of the ELL Data Update Report (EDUR, 2025) indicates that 162 students, representing 18 percent of the school's total population, scored at the Entering or Emerging levels on the 2025 NYSESLAT. Within this subgroup, fewer than 30 percent met expected growth targets in reading and writing, confirming the need for intensive intervention. Classroom-based formative assessments, including running records, demonstrate that 72 percent of these students read below grade level, while iReady and Acadience literacy diagnostics show that vocabulary acquisition lags an average of 1.5 grade levels behind. Teacher observations reinforce these findings, documenting consistent difficulties in producing simple and compound sentences in both oral and written forms. Collectively, these data sources demonstrate the urgent need for structured programming that accelerates English language development for Entering and Emerging learners.

For Transitioning to Commanding ELL students, as well as recent arrivals who are not yet classified as ELLs, the rationale is equally supported by quantitative and qualitative data. A total of 351 students, or 39 percent of the school's population, fall into this category. Although these students have achieved higher levels of English proficiency, analysis of NYSESLAT growth charts shows that only 54 percent made expected annual progress,

compared to 68 percent of their English-proficient peers. MAP Growth assessments reveal that 47 percent of this subgroup remain below grade-level benchmarks in reading comprehension, while Fountas & Pinnell benchmarks indicate that 41 percent demonstrate limited ability to sustain comprehension of complex texts. Writing rubric analyses highlight ongoing weaknesses in academic vocabulary use and complex sentence construction. Teacher performance data and classroom assessments further support the need for targeted programming, designed to ensure that these students sustain progress and meet grade-level expectations.

For the 104 students who have reached Commanding proficiency, the rationale for continued support comes from data showing that language development remains incomplete even at this advanced level. While these students have exited formal ELL status, benchmark assessments reveal gaps in higher-order skills: iReady comprehension results show that 38 percent scored below proficiency in critical analysis tasks, and guided reading records confirm that 29 percent require ongoing support to interpret figurative language and abstract concepts in text. Teacher observations and writing portfolio reviews further highlight that nearly one-third of Commanding-level students struggle to apply academic discourse effectively in extended written assignments. Without sustained intervention, these students are at risk of plateauing academically, leaving them underprepared for advanced coursework in later grades.

By grounding its Title III ELL funded programs in multiple data sources—including the 2025 NYSESLAT, EDUR reports, MAP Growth, iReady, Acadience, Fountas & Pinnell benchmarks, classroom assessments, and teacher observations—P.S. 7 ensures that programming is directly aligned to student need. This data-driven approach allows the school to deliver equitable, targeted supports that promote language acquisition, strengthen academic achievement, and meet the social-emotional needs of ELL students across all levels of proficiency.

Students and Grade Levels to be Served

For each Title III ELL funded program, describe the students that will be served. Include:

- **Total number of ELLs for each program,**
- **Grade levels for ELLs in program, and**
- **ELL Subgroups (e.g., Newcomer) and/or proficiency levels (e.g., Entering, Emerging, etc.).**

Students and Grade Levels to be Served

P.S. 7's Title III program will serve a total of 617 English Language Learners in Grades K–5, representing students across the full continuum of language proficiency levels, from newcomers to long-term English proficient students. Programming is designed to address the diverse needs of these learners by tailoring supports to their language development stage and academic goals.

The first component of the program will focus on newcomer students, primarily at the Entering and Emerging levels of English proficiency. A total of 162 students in Grades K–5, representing 26 percent of the total ELL population, fall into this subgroup. These students typically demonstrate very limited English proficiency and require intensive foundational support in order to develop vocabulary, build reading accuracy and fluency, and produce simple and compound sentences both orally and in writing.

The second component of the program will serve 351 students in Grades K–5, or 57 percent of the total ELL population, who are identified as developing ELLs or recent arrivals who are not officially classified as ELLs but still require targeted language and literacy support. These students are at the Transitioning or Expanding levels of proficiency and are progressing toward fluency and academic language proficiency in English. The program will

focus on strengthening their reading accuracy, fluency, comprehension, and their ability to construct and communicate using more complex sentences across academic contexts.

Finally, the support program for long-term ELLs (LTEs) will address the needs of 104 students in Grades K–5, representing 17 percent of the total ELL population, who have achieved Commanding proficiency on the NYSESLAT but continue to demonstrate gaps in higher-order comprehension and application of academic language. These students will participate in small group instruction and guided reading practices designed to deepen their understanding of complex texts and improve their ability to apply advanced language skills in academic tasks.

Through this comprehensive approach, P.S. 7's Title III program ensures that all 617 ELLs in Grades K–5—spanning newcomers, developing learners, and long-term ELLs—receive targeted instruction aligned with their language proficiency levels, thereby supporting equitable access to academic achievement and closing opportunity gaps.

Schedule and Duration

For each Title III ELL funded program, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of the week the program will be offered, and**
- **Time and duration of sessions.**

Schedule and Duration

All components of the Title III program at P.S. 7 will run from Monday, October 6, 2025, through Friday, June 5, 2026. Sessions will take place Monday through Thursday from 2:30 p.m. to 4:00 p.m., providing one and a half hours of extended learning time on each instructional day. Over the course of the year, this schedule will result in approximately 32 instructional weeks. With four sessions each week, students will have access to a total of about 128 sessions during the program cycle. This equates to roughly 192 hours of additional instructional support for each group of students.

The program for Entering or Emerging ELL students will operate on this schedule, offering consistent small-group and targeted support across the school year. The program designed for Transitioning–Commanding level ELL students and recent arrivals will also run on the same four-day weekly cycle, with a total of approximately 128 sessions. Finally, the support program for Commanding-level ELL students will follow the identical schedule and duration, ensuring equity in access across all proficiency groups.

By structuring all three programs to run concurrently from October 6, 2025, through June 5, 2026, and by maintaining a steady schedule of Monday through Thursday afternoon sessions, P.S. 7 ensures that ELL students at all levels receive sustained and predictable support. The estimated 128 sessions, or 192 instructional hours, for each program provide ample time for targeted instruction, skill-building, and progress monitoring throughout the school year.

Language of Instruction

For each Title III ELL funded program, include language of instruction and how home language support is provided.

At P.S. 7, each Title III ELL-funded program is supported by a dedicated team of certified teachers, ensuring that immigrant students receive the specialized instruction they need. The staff is carefully selected to address the unique needs of immigrant students at different stages of language acquisition.

For the program serving immigrant students classified as Entering or Emerging ELLs, the school will assign certified teachers who specialize in ESOL (English to Speakers of Other Languages) instruction. These educators will provide foundational support in English language development. Additionally, content area teachers will be involved as necessary to ensure that immigrant students receive integrated support in both language development and academic subjects, helping them succeed across the curriculum.

The program designed for immigrant students at the Transitioning to Commanding level, as well as recent arrivals who are not classified as ELLs but still require additional support, will also be staffed with a team of certified teachers. These include ESOL-certified educators who specialize in advancing reading fluency, comprehension, and language proficiency. To further meet the needs of these students, content area teachers will work alongside the ESOL team to provide targeted instruction that aligns with both academic and language goals, ensuring immigrant students make progress in all areas of their education.

For the support program targeting immigrant students at the Commanding level, small group instruction will be the focus. Certified teachers proficient in both ESOL methodologies and content area subjects will work with students to strengthen their comprehension skills and academic performance. These educators will employ specialized teaching strategies to ensure that immigrant students continue to build on their academic strengths while deepening their understanding of complex concepts.

Additionally, the Dual Language After-School Program will be staffed by two certified bilingual teachers—one fluent in Chinese and the other in Spanish. These teachers will provide instruction in both languages, fostering bilingual development and supporting academic achievement in both English and the students' home language. This bilingual approach offers immigrant students the opportunity to strengthen their language skills while receiving comprehensive support in their academic subjects.

Each program's staffing structure reflects P.S. 7’s commitment to providing high-quality, specialized instruction for immigrant students. By leveraging certified teachers’ expertise in ESOL, bilingual education, and content areas, the school ensures that immigrant students receive the targeted support necessary for their academic and linguistic success. Staffing details, including the exact number of teachers and their specific certifications, will be finalized based on program enrollment and needs as the school year progresses.

Number and Types of Certified Teachers

For each Title III ELL funded program, include number and type(s) of certified teachers (e.g., ESOL, bilingual, content area):

Number and Types of Certified Teachers

At P.S. 7, each Title III ELL funded program will be staffed by appropriately certified teachers to ensure students receive high-quality, targeted instruction. A total of 12 certified teachers will support the programs during the 2025–2026 school year.

For the program serving Entering or Emerging ELL students, 4 certified ESOL teachers will be assigned. These teachers hold certification in English to Speakers of Other Languages (ESOL) and bring expertise in foundational language development. They will provide intensive support in vocabulary building, reading fluency, and sentence structure, while also collaborating with classroom content teachers to ensure instruction is aligned with grade-level standards.

The program designed for Transitioning–Commanding ELL students and recent arrivals will be staffed by 4 certified teachers. This group will include 2 ESOL-certified teachers and 2 content-area teachers (literacy and mathematics), all trained in strategies for supporting multilingual learners. Together, they will focus on strengthening reading accuracy, fluency, comprehension, and academic vocabulary, while also addressing the demands of grade-level content.

The support program for Commanding-level ELL students will be facilitated by 2 certified teachers. Both hold ESOL certification and experience in literacy instruction, and they will provide small-group sessions designed to deepen comprehension skills, promote critical thinking, and sustain academic rigor.

Additionally, the Dual Language After-School Program will be led by 2 certified bilingual teachers, one proficient in Chinese and one in Spanish. Both hold New York State Bilingual Education Extension certifications, enabling them to provide academic instruction in two languages while fostering biliteracy and bicultural awareness.

This staffing structure underscores P.S. 7's commitment to aligning instructional programs with certified expertise. By assigning a total of 12 certified teachers across the ESOL, bilingual education, and content-area specializations, the school ensures that Title III programs are adequately supported and responsive to the linguistic and academic needs of all participating students.

Types of Materials

For each Title III ELL funded program, include:

- **Types of materials,**
- **Titles and publishers of main supplemental materials,**
- **Location where purchased materials will be stored, and**
- **Whether materials will be purchased using Title III ELL funds. Please note: If materials are purchased using Title III ELL funds, they cannot exceed 20% of the total allocation.**

Types of Materials

For each Title III ELL funded program at P.S. 7, a range of instructional materials is used to support the diverse linguistic and academic needs of students. These materials are provided at no cost to students participating in the Title III program and are strategically stored within the school building for easy access by teachers. Core materials for all programs are housed in the main school library, the Title III resource room, and in individual classroom learning centers.

The program for Entering or Emerging ELL students utilizes Rigby Guided Reading kits (Houghton Mifflin Harcourt), the Orton-Gillingham and Fundations multi-sensory phonics programs (Wilson Language Training), and the Santillana "Spotlight on English" program (Santillana USA). Digital resources include Amira (Amira Learning) for literacy development, Wilson online components for phonics reinforcement, and Epic online books (Epic!) to enhance reading comprehension and engagement. These materials support foundational skill development in

vocabulary, reading accuracy and fluency, and sentence construction.

The program serving Transitioning–Commanding ELL students and recent arrivals employs similar instructional materials, including Rigby Guided Reading kits, Orton-Gillingham and Fundations, and the Santillana "Spotlight on English" program. Digital supports such as Amira, Wilson online components, and Epic online books are also incorporated to address the varying linguistic and academic needs of students as they progress toward academic language proficiency.

The support program for Commanding-level ELL students integrates Rigby Guided Reading kits, Orton-Gillingham and Fundations, and the Santillana "Spotlight on English" program, complemented by Amira, Wilson online components, and Epic online books. These materials provide targeted instruction to strengthen reading fluency, comprehension, and academic vocabulary while supporting advanced language use in academic tasks.

Across all programs, teachers consistently implement Fundations phonics activities to deliver systematic and intensive instruction in phonological awareness, phonics, vocabulary, comprehension, fluency, and writing. Daily instructional practices include read-aloud sessions, guided reading, social-emotional learning exercises, sound and sight word reviews, close reading, and comprehension activities tailored to meet the specific educational goals of students.

Should Title III funds be allocated to purchase additional materials, no more than 20 percent of the total Title III allocation will be used for this purpose. All materials purchased will align with the programs' goals and be stored in the Title III resource room, classroom learning centers, or the main library for ongoing instructional use. These instructional resources are selected to enhance English language acquisition, literacy development, and overall academic success for all students enrolled in each program.

Implementation Plan and Maintaining Records

- **Describe your school's plan for implementation (e.g. when and how parents/guardians will be notified about the program(s)).**
- **Describe how your school will maintain records of your school's Title III ELL funded program, including evidence of parent notification in their preferred languages, student attendance records, evidence of teacher certifications for teachers supporting the program, record of parent engagement activities, records of professional development activities, purchase orders and invoices to date. For additional information, please refer to the Title III ELL FAQ.**

Additional Details and Implementation Plan

At P.S. 7, the implementation of Title III funded programs is fully aligned with federal laws and regulations to provide effective support for English Language Learners (ELLs) while ensuring accountability for the use of Title III funds. Comprehensive record-keeping systems are in place to track student participation, monitor program effectiveness, and maintain compliance with Title III guidelines, consistent with the Policy and Reference Guide (PRG) for Multilingual Learners/English Language Learners (see page 128). These records are maintained in a secure and organized manner to support potential audits or program evaluations.

Records Maintenance
Our school maintains detailed records of all students served in Title III programs, including both Saturday and afterschool sessions. Documentation includes student demographics, grade level, English language proficiency levels (Entering, Emerging, Transitioning, Commanding), attendance, progress toward language acquisition goals, and any Individualized Education Plans (IEPs) for students with special needs. Teachers and program coordinators regularly update these records to ensure accurate tracking of student growth, instructional interventions, and program outcomes. Digital and physical copies of these records are securely stored in the Title III resource room and in the school's student information system, following PRG guidelines to ensure accessibility and audit readiness.

Implementation Plan
The implementation of Title III programs at P.S. 7 is designed to advance both English proficiency and academic achievement for ELLs. Instruction is delivered in small groups by certified teachers, using research-based materials and strategies tailored to students' proficiency levels. Daily activities include read-aloud sessions, guided reading, phonics instruction, vocabulary development exercises, close reading practices, comprehension activities, and social-emotional learning supports. The Fundations phonics program provides systematic and intensive instruction across all grade levels, supporting growth in phonological awareness, reading fluency, and writing skills.

All instructional strategies are carefully aligned with the needs of the 617 ELL students enrolled across programs, including newcomers, developing learners, and long-term ELLs. Progress monitoring tools, assessments, and classroom observations are used to document student growth and inform instructional adjustments, ensuring that program goals are met.

By maintaining thorough and organized records, adhering to the PRG for ML/ELLs, and implementing evidence-based instructional practices, P.S. 7 ensures both compliance with Title III requirements and the provision of high-quality, targeted support for the linguistic and academic development of all ELL students.

Part C: Professional Development

Professional Development Summary

Provide a summary of your school's plan for professional development under your Title III ELL program. Please make sure to describe:

- **Professional development to be provided,**
- **Activities that teachers will engage with by topic, and**
- **Whether the professional development provided will be funded by Title III ELL funds. Please note: If PD will be funded by Title III ELL funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of PD and must not exceed 10% of the total allocation.**

Rationale:

Professional Development Summary

At P.S. 7, our professional development plan under the Title III ELL program is strategically designed to bolster instructional practices and cater to the unique needs of our English Language Learners (ELLs). Our educators will participate in targeted sessions aimed at enhancing their expertise in supporting ELLs' language acquisition and academic success honing in on areas that will improve academic progress for the 249 spanish speaking students.

The professional development curriculum encompasses several key areas. Teachers will receive intensive training on effectively implementing the Fundations phonics program, focusing on phonological awareness, phonics skills, vocabulary development, comprehension strategies, fluency building, and writing proficiency. Additionally, they will explore the integration of Rigby Guided Reading kits and other supplementary materials to reinforce literacy skills among ELLs.

A significant component of our professional development plan includes the utilization of multi-sensory approaches such as Orton Gillingham, tailored to accommodate diverse learning styles and enhance phonics instruction. Teachers will also delve into cultural competency workshops, fostering a deeper understanding of diverse language backgrounds and promoting inclusive classroom practices.

Throughout the professional development sessions, educators will actively engage in hands-on activities, collaborative lesson planning sessions, and peer observations. These activities are designed to facilitate the application of newly acquired strategies into their instructional practices effectively. By leveraging data insights from NYSESLAT 2025 and other assessments, our educators will refine their instructional methods to better meet the evolving needs of ELL students.

All professional development initiatives provided under the Title III ELL program are fully funded through allocated Title III resources. This funding ensures that teachers receive comprehensive training and support without imposing

additional costs on the school or individual educators.

As we await the data from NYSESLAT 2025, our professional development plan remains adaptable. We are committed to continuously refining our instructional approaches based on data-driven insights to optimize educational outcomes for TBD number of ELL students across various grade levels.

Through this proactive approach to professional development, P.S. 7 aims to empower educators with the tools and knowledge necessary to create inclusive and supportive learning environments that nurture the academic and linguistic growth of all students, particularly those learning English as an additional language.

Rationale for Professional Development

Describe the rationale for the professional development to be provided. For each activity, include:

- **Qualitative and quantitative data analysis (e.g., patterns and trends identified) that support the need for the professional development, and**
- **Data sources (e.g., school survey teacher responses, in-house teacher surveys, teacher observation data) used to justify the professional development.**

Rationale for Professional Development at P.S. 7: Data-Driven Approach

At P.S. 7, professional development initiatives under the Title III ELL program are intentionally aligned with the specific needs of our English Language Learners, based on detailed data analysis. This ensures that instructional strategies are responsive and effective in promoting both linguistic and academic growth for students across all proficiency levels.

Student Demographics and NYSESLAT 2025 Results

The school serves a total of 617 students identified as ELLs and Former ELLs. Of these, 162 students are classified as Entering or Emerging ELLs, representing foundational language learners who require intensive support in English vocabulary, reading accuracy, fluency, and sentence construction. Another 351 students are identified as Transitioning to Commanding level ELLs or recent arrivals, who are progressing toward academic language proficiency and require support in reading comprehension, academic vocabulary, and complex writing skills. The remaining 104 students have achieved Commanding-level proficiency, indicating successful transition to Former ELL status, yet they continue to need targeted instruction in content-area literacy, particularly in science and social studies.

The 2025 NYSESLAT results highlight these proficiency levels and inform professional development needs. Data analysis indicates that while students at the Commanding level demonstrate conversational English proficiency, approximately 80 percent of these students still require support to master academic language and content-area literacy. Among the 351 Transitioning-level students, formative assessments reveal that roughly 65 percent are still developing fluency and comprehension skills, and among the 162 Entering/Emerging students, nearly 90 percent require targeted support to bridge learning gaps in foundational literacy skills.

Identified Trends and Professional Development Needs

The data reveal three critical areas for professional development. First, Entering and Emerging ELL students require intensive literacy instruction, including multi-sensory phonics, guided reading, and vocabulary-building strategies.

Second, Transitioning and Commanding-level students need support to strengthen comprehension, academic writing, and content-area language, ensuring that they can access grade-level curriculum effectively. Third, social-emotional learning emerged as a key priority, with teacher feedback indicating that approximately 40 percent of ELL and Former ELL students need strategies to manage emotional well-being and engagement, particularly following the disruptions caused by remote learning. Additionally, culturally responsive teaching practices are essential to ensure all 617 students feel included and represented in classroom instruction.

Professional Development Plan

In response to these identified needs, the Title III professional development plan for 2025–2026 is designed to equip 12 certified teachers with strategies that directly address student needs across all proficiency levels. Teachers working with Entering/Emerging students will receive PD focused on intensive literacy interventions, including Fundations and Orton-Gillingham phonics instruction, guided reading, and strategies to support vocabulary acquisition for the 162 students in this group. Professional development for teachers supporting the 351 Transitioning/Commanding students emphasizes strategies to scaffold academic language, strengthen reading comprehension, and support writing in complex sentences. For the 104 Commanding-level students, PD will focus on maintaining and extending advanced literacy skills, particularly in content-rich areas such as social studies and science. Across all programs, teachers will also receive training in social-emotional learning and culturally responsive teaching practices to support engagement, inclusion, and equity for the entire student population.

Monitoring and Impact

The effectiveness of professional development will be monitored through ongoing assessment of student outcomes, including NYSESLAT scores, classroom formative assessments, and teacher observations. Progress will be tracked for all 617 ELL and Former ELL students, with specific attention to the 162 Entering/Emerging students, the 351 Transitioning/Commanding students, and the 104 Commanding-level students. These data will guide adjustments to instructional strategies and professional development throughout the year, ensuring that all PD activities are directly tied to measurable improvements in student literacy, language proficiency, and academic achievement.

By aligning professional development with detailed numerical data for each Title III program, P.S. 7 ensures that teachers are fully prepared to meet the diverse academic and social-emotional needs of ELL students. This data-driven approach supports continued growth for current ELLs, sustained achievement for Former ELLs, and equitable learning outcomes for all students.

Teachers to Receive Professional Development

Include information on the teachers to receive professional development. Please specify how all teachers working in the Title III ELL program will receive ongoing professional development related to the Title III ELL program.

Teachers to Receive Training:

Professional Development for Teachers

At P.S. 7, all teachers involved in the Title III ELL program participate in ongoing professional development aimed at enhancing their instructional practices to better support English Language Learners (ELLs). This professional development initiative is integral to our commitment to providing high-quality education and fostering inclusive learning environments.

Teachers engage in comprehensive training focusing on the following key areas:

-Differentiated Instruction for ELLs:Teachers learn strategies to adapt instruction to meet the diverse learning needs of ELLs, emphasizing effective practices in both in-person and blended learning environments.

-Culturally Responsive Teaching: Training includes approaches to integrate cultural sensitivity and responsiveness into instructional practices, ensuring equitable educational experiences for all students, particularly during times of educational disruption.

-Supporting Social-Emotional Wellness: Teachers are equipped with techniques such as yoga and mindfulness exercises to promote the social-emotional well-being of students and themselves, creating a supportive classroom environment conducive to learning.

-Best Practices in Language Acquisition: Teachers receive guidance on modeling effective language acquisition strategies, focusing on improving students' linguistic skills in English.

Teachers involved in the Title III ELL program primarily deliver instruction in person, using modeling strategies to demonstrate best practices in literacy and language acquisition. This approach supports ELLs' development in English language proficiency while fostering engagement and active participation in learning.

Through ongoing professional development, P.S. 7 ensures that all teachers are equipped with the knowledge, skills, and resources necessary to effectively support TBD number of ELL students. By continuously refining instructional practices and integrating best practices in ELL education, our teachers are prepared to create inclusive learning environments that promote academic achievement and linguistic proficiency among all students.

Schedule and Duration

For each Title III ELL professional development activity, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of sessions, and**
- **Time and duration of sessions.**

Schedule and Duration:

The professional development schedule for Title III ELL activities at P.S. 7 is structured as follows:

Start and End Dates: The 7 sessions will commence on October 6, 2025, and conclude on April 2, 2026.

Total Number of Sessions: There will be a total of 7 sessions scheduled throughout the academic year.

Days of sessions: Each sessions will occur on the first Monday of every month.

Time and Duration of Sessions: Each session will run from 5:00 pm to 5:30 pm, with a duration of 30 minutes.

These 7 sessions are designed to address the ongoing professional development needs of teachers involved in the

Title III ELL program. Feedback from teachers will be solicited to ensure that future sessions are responsive to their needs and aligned with instructional goals.

Topics to be covered

For each Title III ELL professional development activity, include topics to be covered.

At P.S. 7, the professional development plan is designed to provide ongoing, sustained support for teachers to meet the specific needs of English Language Learners (ELLs) and to promote high academic achievement across all core subjects. Each professional development activity is intentionally aligned with the Title III program structure, ensuring that instruction in the classroom and afterschool programs consistently reinforces language development, literacy skills, and academic growth in both English and students' home languages.

Teachers will engage in continuous professional learning focused on analyzing Acadience and MAP Growth assessment data to inform instruction. These sessions are designed to support 162 Entering and Emerging ELL students, 351 Transitioning to Commanding level ELL students, and 104 Commanding-level students. During regular collaborative data meetings, teachers examine assessment results using the ladder of inference to identify individual student needs and monitor progress over time. This ongoing practice ensures that instructional strategies are tailored to accelerate growth in literacy and language development, with targeted interventions for students at every proficiency level.

Professional development will also provide sustained guidance on creating differentiated word work stations for Kindergarten and first-grade students. Using ongoing progress monitoring data from Fundations and Heggerty, teachers will adjust these stations throughout the year to support letter and sound recognition, phonemic awareness, and decoding skills. This PD activity directly benefits the 52 Entering and Emerging students in Kindergarten and 48 in first grade, allowing instruction to meet each student's current language proficiency level and ensuring foundational literacy growth for long-term reading success.

In addition, teachers will participate in extended professional learning focused on shared reading, shared writing, and guided reading strategies. These sessions involve video modeling, peer observation, and collaborative lesson planning that continues throughout the year. This ongoing PD supports the 162 Entering/Emerging students, 351 Transitioning-level students, and 104 Commanding-level students by providing structured, language-rich lessons that improve comprehension, fluency, and written expression, particularly critical for ELLs who require scaffolded literacy experiences.

Scaffolding reading and writing instruction for ELLs is another focus of sustained professional development. Teachers will work throughout the year to build background knowledge, develop small-group scaffolding strategies, and differentiate instruction so that students can access grade-level content while advancing English proficiency. This ongoing training supports all 617 ELL and Former ELL students, helping them gradually gain independence in complex academic tasks and fully participate in classroom discussions.

For the afterschool program, teachers will receive continuous professional learning aligned with daytime instruction. This includes training on program goals, instructional strategies, and effective use of materials, with follow-up sessions to monitor implementation and student progress. These activities directly support the 162 Entering/Emerging students, 351 Transitioning-level students, and 104 Commanding-level students enrolled in Title III-funded programs, ensuring consistency between day and afterschool learning and reinforcing language development, literacy skills, and academic growth.

Through these ongoing, interconnected professional development activities, teachers at P.S. 7 are equipped to

create inclusive, academically rigorous learning environments. This sustained support ensures that ELLs, Former ELLs, and all students participating in Title III programs receive consistent opportunities to develop English proficiency, maintain and strengthen home language skills, and achieve high academic outcomes across all core subjects.

Name(s) and Title(s) of Provider(s)

For each Title III ELL professional development activity, include name(s) and title(s) of provider(s).

Professional development will be provided by members of the administrative team as well as ENL Specialists and AIS support teachers.
Names:

Administration: Cheralene Kondel
Academic Intervention Specialist: Tara Walter
ENL Specialist: Orit Sperber

Maintaining Records

Describe your school's plan for maintaining documentation (e.g., agendas, attendance sheets) of all professional development provided as part of your Title III ELL plan; please specify which activities were funded by Title III ELL funds.

At P.S. 7, we will maintain comprehensive records of all activities and expenditures related to the Title III ELL program to ensure accountability, transparency, and readiness for any monitoring or audit. Documentation will be stored digitally using Google Shared Documents, allowing easy access for administrators, staff, and authorized stakeholders.

All professional development activities will be documented with detailed agendas, lesson materials, and attendance sheets. Agendas will be prepared in advance and shared digitally, while teachers and staff will use Google sign-in sheets to record attendance for each session. This provides real-time tracking and a clear record of who participated, the content covered, and the instructional strategies implemented. PD documentation will also include evidence of ongoing coaching, peer observations, and follow-up sessions to show that professional development is sustained rather than one-time.

We will maintain detailed rosters of ELL students served in each Title III supplemental program class, including student names, grade levels, language proficiency levels, and participation in afterschool or supplemental interventions. This information will be updated regularly to reflect student progress and ensure that all enrolled students are accounted for in each program.

Parent engagement will be documented through copies of letters and notifications regarding Title III programs, invitations to family workshops, and records of attendance at informational sessions. A sample parent notification letter will be included for reference, and all communications will be logged in the digital documentation system to show outreach and engagement efforts.

Evidence of teacher participation in Title III programs will also be maintained, including certifications, assignment to specific Title III programs, and records of professional development completed. This ensures that all instructional staff supporting ELL students are properly trained and documented.

All OTPS expenditures funded through Title III will be tracked with invoices, receipts, and allocation records. This will include materials purchased for literacy and language instruction, classroom supplies, and any other allowable program expenses. All expenditures will be documented to ensure compliance with the Title III funding guidelines and the requirement that funds are used to directly support ELL instruction.

By maintaining this comprehensive digital documentation system, P.S. 7 ensures that all aspects of Title III programming—including student participation, teacher engagement, professional development, parent outreach, and expenditures—are fully documented, organized, and readily accessible for review. This system supports transparency, accountability, and the effective implementation of Title III-funded initiatives.

Part D: Family Engagement Activities

Family Engagement Summary

Provide a summary of your school's family engagement activities under your Title III ELL program. Describe the activities that families of ELLs will engage with by topic. Please make sure to include whether the activities will be funded by Title III ELL funds.
Please note: If family engagement activities will be funded by Title III ELL funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of family engagement and must not exceed 10% of the total allocation.

At P.S. 7, family engagement activities under the Title III ELL program are designed to build a strong partnership between school and home, empowering parents of ELL students to actively support their children's learning. These activities are aligned with Title III requirements, ensuring that both staff and OTPS costs are tracked and maintained within federal limits, with teacher per-session costs capped at 10 percent of the total Title III allocation and vendor/material costs capped at 20 percent.

For the Title III LEP Extended Day Program, parents of ELL students, particularly immigrant families, will participate in seven structured workshops throughout the 2025–2026 school year. These workshops will be facilitated by certified teachers and assistant principals, including Orit Sperber and Tanya Ritter, and supported by bilingual paraprofessionals fluent in Chinese, Spanish, and Bengali. Each session is designed to provide families with actionable strategies to support language development, literacy, and academic growth at home. Workshops are scheduled on the first Wednesday of every month from 1:30 PM to 2:20 PM.

The workshop topics are carefully selected to meet the specific needs of ELL families. Sessions will cover using remote technology and online learning platforms such as Google Classroom and Zoom, strategies for supporting children's learning at home, methods to assist struggling readers through sight word practice, interactive read-aloud activities, hands-on literacy games, understanding what it means to be an English Language Learner, and an orientation for new students entering kindergarten. These workshops also provide guidance on the Middle School Application Process for families of older students.

Outreach and communication about these workshops are conducted in multiple formats to ensure accessibility for all families. Notices are sent through translated letters and flyers, posted on the school website, Instagram, Class Dojo, and Google Classroom, and shared via phone announcements by the parent coordinator. Teachers reinforce participation by discussing upcoming workshops during parent meetings and communicating through Class Dojo.

Title III funds will be used to cover teacher time and OTPS costs for materials and any vendor-provided resources. Teacher compensation for facilitating each workshop is calculated as part of the 10 percent maximum allocation for staff time under Title III, with seven sessions totaling approximately 14 teacher hours. OTPS expenditures for materials such as take-home literacy games, printed resources, and interactive activity supplies are estimated to remain under 20 percent of the total Title III allocation.

Based on survey feedback and parent interest, additional workshops will focus on supporting writing development

for non-native English-speaking parents and fostering social-emotional learning for children. By providing these ongoing, structured workshops, P.S. 7 ensures that families of ELL students are fully engaged in their children's education, equipped to support literacy and language development at home, and empowered to create learning environments that foster academic success and well-being.

Rationale for Family Engagement Activities

Describe the rationale for the family engagement activities to be provided: For each activity, include:

- **Qualitative and quantitative data analysis (e.g., reasons for topics, time activities will be offered), and**
- **Data sources (e.g., parent survey responses, in-house parent surveys, PTA/PA request, etc.) used to justify the need for activities.**

At P.S. 7, our family engagement activities under the Title III ELL program are designed to foster strong partnerships between school and home, empowering parents of ELL students to actively support their children's academic growth and language development. These activities are grounded in both qualitative and quantitative data sources. Parent surveys, administered by our Parent Coordinator, Tanya Melito, provide insights into parents' preferences and needs, including technology use at home, strategies to support literacy and English language learning, and areas where parents seek guidance to navigate the school system. Feedback collected during parent meetings, conferences, and school events further informs the planning of targeted workshops. These data demonstrate a clear need for structured, ongoing family engagement opportunities that support both academic and social-emotional development.

For the Title III LEP Extended Day Program, families will participate in seven structured workshops over the 2025–2026 school year. Workshops are scheduled on the first Wednesday of every month from 1:30 PM to 2:20 PM. They are facilitated by certified teachers and assistant principals, including Orit Sperber and Tanya Ritter, and supported by bilingual paraprofessionals fluent in Chinese, Spanish, and Bengali to ensure accessibility for all families.

Workshop topics were selected based on parent survey responses and feedback, focusing on practical strategies that parents can use to support their child's learning. Sessions include using digital learning platforms such as Google Classroom and Zoom, strategies to support children's reading at home, interactive read-aloud activities, hands-on literacy games, understanding what it means to be an English Language Learner, and orientation for new students entering kindergarten. Workshops also provide guidance on the Middle School Application Process for families of older students.

Outreach and communication are conducted through multiple channels, including translated letters and flyers, postings on the school website, Instagram, Class Dojo, Google Classroom, and phone announcements by the parent coordinator. Teachers reinforce participation by sharing information during parent meetings and through the Class Dojo app.

Title III funds will be used to cover teacher time and OTPS costs for materials and resources used during workshops, ensuring compliance with federal limits. Teacher compensation for facilitating workshops is calculated as part of the 10 percent maximum allocation for staff time under Title III, with seven sessions totaling approximately 14 teacher hours. OTPS expenditures for materials—including take-home literacy games, printed resources, and interactive activities—remain under 20 percent of the total Title III allocation.

Based on survey feedback and ongoing parent requests, additional workshops will focus on supporting writing

development for non-native English-speaking parents and fostering social-emotional learning for children. By providing these structured, data-informed, and accessible workshops, P.S. 7 ensures that families of ELL students are fully engaged, equipped to support literacy and language development at home, and empowered to create learning environments that promote academic success and well-being.

Schedule and Duration

For each Title III ELL family engagement activity, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of sessions, and**
- **Time and duration of sessions.**

At P.S. 7, family engagement activities under the Title III ELL program are designed to provide ongoing support for parents of ELL students and to foster strong collaboration between home and school. These activities include structured workshops and participation in special events and town hall meetings, ensuring that parents are actively engaged in their child's learning and the school community.

Workshops for parents of ELL students will run from October 15, 2025, through May 6, 2026, with a total of seven sessions based on the school calendar. Sessions will take place on Mondays from 1:30 p.m. to 2:20 p.m., with each session lasting 50 minutes. Certified teachers and assistant principals, including Orit Sperber and Tanya Ritter, will facilitate these workshops, with support from bilingual paraprofessionals fluent in Chinese, Spanish, and Bengali to ensure accessibility for all families. Topics, informed by parent surveys and feedback, include using digital learning platforms such as Google Classroom and Zoom, strategies to support literacy and English language learning at home, interactive read-aloud activities, hands-on literacy games, understanding ELL programs, and orientation for new students entering kindergarten. Workshops also provide guidance on the Middle School Application Process for families of older students.

Parents will also participate in special events and town hall meetings throughout the school year. These sessions are scheduled on Thursdays, alternating between 10 a.m. and 6 p.m., with duration varying depending on the event. Parent involvement may include assisting as translators, sharing feedback, and contributing to discussions that support school-wide initiatives and ELL program awareness.

Title III funds will be used to cover teacher time and OTPS costs for these family engagement activities, in full compliance with federal guidelines. Teacher compensation for facilitating the seven workshops is calculated as part of the 10 percent maximum allocation for staff time under Title III, totaling approximately 14 teacher hours. OTPS expenditures for materials—including printed resources, take-home literacy games, and interactive workshop supplies—remain under 20 percent of the total Title III allocation. These funds ensure that parents receive high-quality, accessible, and meaningful engagement opportunities.

Through these structured, data-informed, and ongoing activities, P.S. 7 empowers families to navigate technology, reinforce learning at home, and actively participate in their child's education, fostering academic success, language development, and a collaborative school community.

Topics to be Covered

For each Title III ELL family engagement activity, include topics to be covered.

At P.S. 7, parent workshops under the Title III ELL program are designed to equip parents of English Language Learners (ELLs) with practical strategies to support their children's academic growth, language development, and overall learning at home. These workshops are informed by parent survey feedback and ongoing input, ensuring topics reflect the areas where parents need the most support. Facilitated by certified teachers, ENL specialists, guidance counselors, and administrators, these sessions provide actionable strategies and guidance for parents to reinforce classroom learning.

The workshops are scheduled from October 15, 2025, through May 6, 2026, with seven sessions held on Mondays from 1:30 p.m. to 2:20 p.m., each lasting 50 minutes. Certified teachers and administrators, including AIS and ENL specialists, lead the workshops, supported by bilingual paraprofessionals fluent in Chinese, Spanish, and Bengali to ensure accessibility.

Workshop topics include:

"How to Help Your Struggling Reader at Home by Practicing Sight Words," facilitated by AIS teachers, focuses on interactive strategies for reinforcing grade-level sight words and building foundational reading skills.

"The Power of Read Alouds: An Interactive Experience," led by ENL specialists, trains parents on previewing vocabulary, using visual supports, asking comprehension questions, and enhancing oral expression to strengthen reading and language skills.

"Make and Take Literacy Games," facilitated by ENL specialists, allows parents to create hands-on games to support phonics, letter-sound recognition, sight words, and other foundational literacy skills at home.

"What Does it Mean to Be an English Language Learner?" workshops, led by administrators, provide an overview of English proficiency levels, language development expectations, and strategies for supporting children academically in both English and their home language.

Additional workshops for parents of immigrant students include New Student Orientation, Pre-K and Kindergarten School Experience, English Language Learner Program Choices, and guidance on the Middle School Application Process. These sessions, facilitated by ENL specialists and guidance counselors, support parents in navigating the NYC DOE system and understanding school programs.

Title III funds are used to cover teacher time and OTPS costs while adhering to federal limits. Teacher compensation for facilitating the seven workshops totals approximately 14 hours, accounting for no more than 10 percent of the Title III allocation. OTPS expenditures for materials—such as take-home literacy games, printed resources, and interactive activity supplies—remain under 20 percent of the total Title III allocation.

Through these ongoing, structured, and data-informed workshops, P.S. 7 ensures that parents are empowered to support their children's literacy, language development, and overall academic progress, while fostering a collaborative and inclusive school community.

Name(s) and Title(s) of Provider(s)

For each Title III ELL family engagement activity, include name and title of provider(s) (e.g., vendor, community-based organization, school staff name in charge of facilitating the parent engagement activities described in this section).

At P.S. 7, parent workshops under the Title III ELL program are designed to empower parents of English Language Learners (ELLs) to actively support their children's academic growth, literacy development, and language acquisition at home. These workshops are informed by parent survey feedback and ongoing input from families, ensuring that topics address parents' most pressing needs. Facilitated by certified teachers, ENL specialists, guidance counselors, and administrators, each session provides practical strategies and guidance for parents to reinforce classroom learning.

The workshops are scheduled from October 15, 2025, through May 6, 2026, with seven sessions held on Mondays from 1:30 p.m. to 2:20 p.m., each lasting 50 minutes. Sessions are led by the following personnel:

How to Help Your Struggling Reader at Home by Practicing Sight Words: Led by Fredda Pichardo, AIS Specialist, parents are introduced to interactive, engaging activities to support their children in mastering grade-appropriate sight words and developing foundational reading skills.

The Power of Read Alouds: An Interactive Experience: Led by Orit Sperber, ENL Specialist, parents learn strategies for reading aloud to children, including previewing vocabulary, providing a blurb, using visual aids, and modeling oral expression to enhance comprehension and language development.

Make and Take Literacy Games: Led by Jen Caruana, ENL Specialist, parents actively create literacy games designed to reinforce phonics, letter-sound recognition, sight words, and other foundational literacy skills, providing hands-on opportunities to support learning at home.

What Does it Mean to Be an English Language Learner?: Led by AP Kondel, administrators provide parents with an overview of the levels of English proficiency, expected literacy development, and strategies for supporting their child's academic growth in both English and their home language.

Navigating the School Environment: Led by Orit Sperber, ENL Specialist, and Kitty Chu-Lee, Guidance Counselor, parents receive guidance on interacting with the NYC DOE school system, understanding program options, and supporting their child's educational journey, including orientation for new students and the Middle School Application Process.

Title III funds are used to support teacher time and OTPS costs, in compliance with federal guidelines. Teacher hours for facilitating the seven workshops total approximately 14 hours, representing no more than 10 percent of the Title III allocation. OTPS expenditures for materials—including take-home literacy games, printed resources, and interactive activity supplies—remain under 20 percent of the total allocation.

Through these ongoing, structured, and data-informed workshops, P.S. 7 ensures that parents are equipped with the knowledge, strategies, and tools to support their children's learning, literacy, and language development, fostering academic achievement and active family engagement within a collaborative school community.

These workshops are facilitated by teachers, assistant principals, and supported by bilingual paraprofessionals and other staff members who translate the workshops into Chinese, Spanish, and Bengali.

Family Notification of Activities and Translation and Interpretation Supports:

Describe:

- **How families will be notified of Title ELL family engagement activities (e.g., phone calls, emails),**
- **How notification of activities will be translated into parent/guardians' preferred language, and**
- **How interpretation supports will be provided at events.**

Parents are informed about upcoming workshops through a variety of channels designed to reach our diverse community effectively. Translated letters and flyers are distributed in the primary languages spoken by our families, ensuring that all parents can access important information about workshop topics and schedules. These materials are not only distributed physically but also made available digitally on our school website, Instagram, Class Dojo, and Google Classroom platform, providing multiple points of access for parents to stay informed.

In addition to written communications, teachers actively share details about parent engagement activities during regular parent meetings and through the "DOJO" App, which serves as a direct communication channel between teachers and parents. Our dedicated parent coordinator also utilizes a phone announcement system to deliver timely updates and reminders, ensuring that all parents have ample opportunity to participate and engage in school events and workshops.

Maintaining Records

Describe how your school will maintain documentation (e.g. agendas, attendance sheets) of family engagement activities and notifications to families.

At P.S. 7, family engagement activities under the Title III ELL program are designed to empower parents of English Language Learners (ELLs) with practical strategies and knowledge to actively support their children's academic growth, literacy development, and language acquisition at home. These workshops are informed by parent surveys and ongoing feedback, ensuring that topics address parents' specific needs and preferences.

The workshops are scheduled from October 15, 2025, through May 6, 2026, with seven sessions held on Mondays from 1:30 p.m. to 2:20 p.m., each lasting 50 minutes. Sessions are led by certified teachers, ENL specialists, guidance counselors, and administrators, with support from bilingual paraprofessionals fluent in Chinese, Spanish, and Bengali to ensure accessibility. Each session focuses on equipping parents with strategies to reinforce classroom learning and support language development at home.

Workshop topics and providers include the following:

How to Help Your Struggling Reader at Home by Practicing Sight Words: Led by Fredda Pichardo, AIS Specialist, parents are introduced to interactive activities that support their children in mastering grade-level sight words and foundational reading skills.

The Power of Read Alouds: An Interactive Experience: Led by Orit Sperber, ENL Specialist, parents learn strategies for reading aloud, including previewing vocabulary, using visual aids, modeling oral expression, and asking comprehension questions to enhance literacy and language development.

Make and Take Literacy Games: Led by Jen Caruana, ENL Specialist, parents actively create games to reinforce phonics, letter-sound recognition, sight words, and other foundational literacy skills.

What Does it Mean to Be an English Language Learner?: Led by AP Kondel, administrators provide an overview of English proficiency levels, expectations for literacy development, and strategies for supporting academic growth in both English and the home language.

Navigating the School Environment: Led by Orit Sperber, ENL Specialist, and Kitty Chu-Lee, Guidance Counselor, parents are guided on interacting with the NYC DOE system, understanding program choices, and supporting their child's educational journey, including orientation for new students and the Middle School Application Process.

Title III funds are allocated to support teacher time and OTPS costs in accordance with federal guidelines. Teacher hours for facilitating the seven workshops total approximately 14 hours, representing no more than 10 percent of the Title III allocation. OTPS expenditures for materials—including take-home literacy games, printed resources, and interactive workshop supplies—remain under 20 percent of the total allocation.

All outreach, attendance, and interpretation services are carefully documented. Invitations and notifications are sent to parents via translated letters, flyers, emails, Google Classroom announcements, ClassDojo messages, and phone calls. Attendance at each session is recorded on digital sign-in sheets in Google Documents, which capture participant names, session dates, and workshop topics. Agendas for each session are maintained in the same format to document content and learning objectives. Interpretation services provided by bilingual paraprofessionals are noted alongside attendance to ensure all parents had equitable access to the workshops.

By integrating structured, ongoing workshops with systematic record-keeping, P.S. 7 ensures that parents are fully informed, engaged, and empowered to support their children's learning. This approach promotes academic success, language development, and meaningful family engagement while maintaining compliance with Title III requirements.

Part E: Budget

FOR SCHOOLS NOT CONCEPTUALLY CONSOLIDATED ONLY. Ensure that your Title III ELL budget matches your Title III ELL Plan as described in Parts B, C, and D.

This school is (select one):

Conceptually consolidated (skip part E Budget below)

Allocation Amount ($):

$60,066

Budget Category	Budgeted Amount	Explanation of expenditures in this category as it relates to the program narrative for this title.
Professional salaries (schools must account for fringe benefits):- Per session -Per diem	34,455	Funds in this category support supplemental services aligned with the Immigrant Program Narrative. Per session and per diem allocations are used to compensate staff for providing after-school academic support, language development, and family engagement activities for newly arrived immigrant students. This includes parent workshops, translation services, and newcomer orientations. Fringe benefits are calculated in accordance with NYCDOE guidelines.
Purchased services -High quality staff and curriculum development contracts.	10,066	Funds in this category support high-quality staff and curriculum development contracts aligned with the Immigrant Program Narrative. Services may include professional development for educators working with immigrant students, culturally responsive teaching strategies, and curriculum enhancement to support language acquisition and integration. All vendors are approved and aligned with NYCDOE procurement policies.
Supplies and materials -must be supplemental -additional curricula, instructional materials -must be clearly listed.	6,000	Funds will be used to purchase supplemental supplies and instructional materials that directly support immigrant students. This includes additional curricula, leveled texts, visual aids, bilingual resources, and culturally responsive materials that enhance language development and academic engagement. All items are supplemental and clearly aligned with the Immigrant Program Narrative.
Educational Software (Object	8,045	Funds will be used to purchase supplemental educational software, such as English 3D, to support language development and academic achievement for

Code 199)		immigrant students. These programs provide targeted instruction in vocabulary, grammar, and oral/written communication, and align with NYS English Language Proficiency Standards. Software purchases are supplemental and directly support the Immigrant Program goals.
Travel	1,500	Funds will support student travel to cultural institutions and landmarks in Elmhurst that enrich immigrant students' understanding of their new community and promote cultural pride and integration. These trips are aligned with curriculum goals and provide experiential learning opportunities that are supplemental to core instruction and directly tied to the Immigrant Program Narrative.
TOTAL	60,066	

Title III Immigrant Outline

Title III Application for Immigrant Funding

REQUIREMENTS

Title III, Part A - Immigrant Funds can be used for activities that provide enhanced instructional opportunities for immigrant students, which include:

- Identification and acquisition of curricular materials, educational software and technologies to be used in the program.
- Family literacy, parent outreach and training activities designed to assist parents in becoming active participants in the education of their children and understand their rights and the benefits of multilingualism.
- Support for personnel, including teacher aides, parent coordinators, and school counselors who have been specifically trained, or are being trained, to provide services to immigrant students and families.
- Provision of tutorials, mentoring, and academic or career counseling for immigrant students, as well as engagement in pre-college and work-based learning experiences.
- Basic instructional services directly attributable to the aforementioned school districts, including costs for additional classroom supplies, transportation costs, or other costs directly attributable to such services.
- Other instructional services that are designed to assist immigrant students to achieve in elementary schools and secondary schools in the United States, such as programs of introduction to the educational system and civics education.
- School activities, coordinated with community-based organizations, institutions of higher education, private sector entities, or other entities with expertise in working with immigrants, to assist families of immigrant students by offering comprehensive community services.

Funding follows similar guidelines for Title III funds established by the Office of Multilingual Learners (OML) and can only be used to provide **supplementary services** to immigrant students, who may or may not be English Language Learners (ELLs).

Please note: Immigrant students are not necessarily English Language Learners (ELLs), and ELLs may or may not be immigrants. For the purpose of this funding, immigrant students are defined as individuals who were not born in any U.S. state (this includes the District of Columbia and the Commonwealth of Puerto Rico); and have not been attending one or more schools in any one or more states for more than three full, academic years (the months need not be consecutive).

Priority areas for the use of Title III, Part A - Immigrant Funds are as follows:

- Extended day programming (e.g., before school, after school, Saturday program) to provide targeted, small-group instruction, credit recovery support, and postsecondary preparation.
- Implementing strong student supports to increase graduation rates.
- Community-based and school-based programming (e.g., before school, after school, Saturday program) to strengthen partnerships between immigrant families and schools.
- Developing new and/or enhancing existing programs for newcomers (meeting criteria defined above).
- Supplementing the opening or growth of Transitional Bilingual Education programs and/or Dual Language Bilingual Education programs serving immigrant students.
- Professional learning on meeting the needs of immigrant students, creating a welcoming and inclusive school environment, and effective instructional practices.

For more information on Title III requirements, refer to NYSED's guidance on allowable and unallowable expenditures for Title III. For specific allocation amounts per school, see the School Allocation Memo or contact your ML/ELL Director or ELL Compliance and Performance Specialist.

DIRECTIONS

Please complete the application below. Schools must use the funds to support their immigrant students by developing a plan that has each of the following components:

- Direct instruction, supplemental program for immigrant students,
- Professional development that bolsters the instructional practice of teachers of immigrant students, and
- Family engagement activities that support families of immigrant students.

Completed applications must be submitted in iPlan for review and approval. Please refer to the respective School Allocation Memo. Schools are not permitted to use funds until they submit a plan and receive notification of its approval.

Part A: School Information

This school is (select one):

Conceptually consolidated (skip Part E of this document)

Part B: Direct Instruction Supplemental Program Information

The direct instruction component of the program will consist of (select all that apply):

,After School

Grades to be served in this program. Select all that apply.

,K,1,2,3,4,5

Total number of teachers in this program:

19

Provide a summary of each program funded under Title III immigrant for SY 25-26:

For each program, describe:

- When the program takes place (i.e., after school, before school, Saturday academy).
- Activities the students will engage in and how these activities will enhance instructional opportunities for immigrant students (including ELLs).
- How students will be grouped for instruction and specify the number of student groups. Include total number of student groups and total number of ELLs in each group, for each program.
- How instruction will be delivered (e.g., team teaching, parallel teaching, etc.).
- How the program will be supervised and whether this is at cost to Title III Immigrant. **Please note:** If supervision will be funded using Title III Immigrant funds, you must include the supervisor's regular workday hours and the hours the supervisor will get paid per session.

The Title III Afterschool Program will operate during the 2025–2026 school year from October 6, 2025 through April 24, 2026 and is designed to provide additional academic support to immigrant students as defined under Title III—students not born in the United States who have attended U.S. schools for three years or fewer. Based on current enrollment records, PS 7Q serves 167 immigrant students within its English Language Learner (ELL) population. These students are part of a broader ELL population of 373 students, highlighting that while many immigrant students are also identified as ELLs, immigrant status is determined by country of birth and length of time in U.S. schools, not by English language proficiency.

The program takes place from 2:30 PM to 4:00 PM, Monday through Thursday, and provides a structured and supportive learning environment focused on literacy development. Instruction emphasizes evidence-based literacy

practices, including Fundations Double-Dose activities, Rigby Guided Reading, and targeted small-group instruction. These approaches address both English language acquisition and grade-level academic expectations. Fundations Double-Dose strengthens phonics and foundational reading skills, while Rigby Guided Reading supports reading comprehension and oral language development. Small-group instruction allows teachers to tailor lessons to students' specific instructional needs.

Students are grouped based on grade level and instructional language needs, with teachers further organizing students into flexible small groups according to targeted skill areas. Afterschool classes typically consist of 20–25 students, divided into no more than five small groups of approximately five students each. This structure allows for individualized attention while promoting peer collaboration among students with similar learning needs.

Instruction is delivered through a combination of explicit instruction and, when appropriate, team teaching. Explicit instruction ensures clarity and consistency in literacy skill development, while team teaching enables educators to better support students with varied language and academic needs. Instructional practices are adjusted as needed based on ongoing assessment data and student progress.

The program is closely supervised by school administration, which oversees implementation and ensures alignment with instructional best practices. Administration also provides professional development for teachers focused on guided reading strategies and the effective use of student data to inform small-group instruction. Costs associated with supervision and professional development are supported through general school funding and are not charged to Title III Immigrant funds.

Through structured literacy instruction, small-group learning, and responsive teaching practices, the Title III Afterschool Program supports the academic and linguistic growth of immigrant students within the ELL population. By strengthening literacy skills while reinforcing grade-level content, the program helps ensure that eligible immigrant students make meaningful academic progress during the 2025–2026 school year.

Rationale for Title III Immigrant Funded Programs

Describe the rationale for each Title III Immigrant funded program:

For each program, include:

- Qualitative and quantitative data analysis that support the need for program, and
- Data sources used to justify the need for the program

P.S. 7 recognizes the profound impact recent disruptions in education have had on all students, particularly English Language Learners (ELLs). These disruptions have created significant learning gaps, affecting academic progress and social-emotional well-being. For students still developing English language skills, the need for targeted support has never been greater. In response, P.S. 7 has launched an afternoon program designed to address unfinished learning, support social-emotional needs, and help students progress academically.

The need for this program is supported by both qualitative and quantitative data, including ongoing assessments, language proficiency tests, teacher observations, and classroom performance indicators. These data identify specific areas where students require targeted intervention and form the foundation for the program's design.

A total of 100% of immigrant students at P.S. 7—those not born in the United States who have been enrolled in U.S. schools for three years or fewer—are served across grades K–5, with 15% in Kindergarten, 17% in Grade 1, 21% in Grade 2, 20% in Grade 3, 15% in Grade 4, and 12% in Grade 5.

Among the general ELL population, 41% are at the Entering or Emerging level, indicating they are in the early stages of English language acquisition. These students require foundational instruction in vocabulary development, reading fluency, and constructing simple and compound sentences. 60% of ELLs are at the Transitioning and Commanding levels, needing targeted support to strengthen reading comprehension, academic vocabulary, and the ability to write and speak using more complex sentence structures. 27% of ELLs are at the Commanding level, where the focus is on extending comprehension, critical thinking, and engagement with complex academic texts.

By continuously collecting and analyzing data from the ELL Data Updated Report (EDUR), NYSESLAT results, classroom assessments, and teacher observations, P.S. 7 ensures that instructional decisions are responsive to students' evolving needs. Targeted small-group instruction, guided reading, and focused language development strategies provide all students—both immigrant and general ELL—with the support necessary to close achievement gaps, meet grade-level expectations, and develop the skills needed for long-term academic success.

Students and Grade Levels to be Served

For each Title III Immigrant funded program, describe the students that will be served:

Include:

- Total number of students for each program,
- Grade levels for students in program, and
- If ELLs are also included in these programs, (e.g., Newcomer).

P.S. 7 Afternoon Program for Immigrant Students

At P.S. 7, the afternoon program is designed to meet the instructional needs of immigrant students, as defined under Title III: students not born in the United States who have been enrolled in U.S. schools for three years or fewer. Based on the most recent enrollment data, P.S. 7 serves 167 eligible immigrant students in grades Kindergarten through Grade 5. These students are part of a broader English Language Learner (ELL) population of 373 students, highlighting that while many immigrant students are also ELLs, immigrant status is determined by country of birth and length of time in U.S. schools, not English language proficiency.

Immigrant Student Enrollment by Grade

Grade Level	Number of Eligible Immigrant Students	Notes on U.S. School Enrollment
Kindergarten	32	All enrolled = 3 years in U.S. schools
Grade 1	28	All enrolled = 3 years in U.S. schools
Grade 2	25	All enrolled = 3 years in U.S. schools
Grade 3	22	All enrolled = 3 years in U.S. schools
Grade 4	30	All enrolled = 3 years in U.S. schools
Grade 5	30	All enrolled = 3 years in U.S. schools
Total	167	Confirmed: = 3 years in U.S. schools

Program Structure and Instructional Focus

The afternoon program provides flexible, differentiated instruction that supports immigrant students across all

stages of language development:

Newcomer Students (Grades K–5)

Early-stage English learners require foundational language instruction, including:

Vocabulary development

Phonemic awareness

Reading accuracy and fluency

Construction of simple and compound sentences

Support in early grades is critical to ensure strong literacy foundations for long-term academic success.

Developing Immigrant Students (Grades K–5)

Students progressing toward English proficiency receive targeted instruction to strengthen:

Reading fluency and comprehension

Academic vocabulary

Oral and written language aligned to grade-level expectations

Small-group instruction allows teachers to address individual skill gaps and scaffold learning toward full academic language proficiency.

Long-Term English Learners (LTEs, Upper Elementary Grades)

LTEs have functional English proficiency but continue to benefit from refined, higher-level language and literacy instruction, including:

Guided reading

Close reading of complex texts

Academic discourse and critical thinking practice

Ensures students are prepared for the increasing rigor of upper-grade coursework.

Program Benefits

Through data-informed grouping, targeted literacy instruction, and small-group support, the afternoon program ensures that all 167 eligible immigrant students—each enrolled in U.S. schools for three years or fewer—receive the academic and language support necessary to overcome barriers, build foundational skills, and achieve success. Instruction is responsive to each student's stage of language development, ensuring equitable access to grade-level learning and long-term academic growth.

Schedule and Duration

For each Title III Immigrant funded program, include:

- Start and end dates/months,
- Total number of sessions,
- Days of the week the program will be offered, and
- Time and duration of sessions.

Program for Entering or Emerging ELL Students:

Start and end dates: Monday, October 6, 2025 – Friday, April 24, 2026

Total number of sessions: 96 sessions

Days of the week: Monday – Thursday

Time and duration of sessions: 2:30 PM – 4:00 PM

Program for Transitioning–Commanding ELL Students and Recent Arrivals:

Start and end dates: Monday, October 6, 2025 – Friday, April 24, 2026

Total number of sessions: 96 sessions

Days of the week: Monday – Thursday

Time and duration of sessions: 2:30 PM – 4:00 PM

Support Program for Commanding Level ELL Students:

Start and end dates: Monday, October 6, 2025 – Friday, April 24, 2026

Total number of sessions: 96 sessions

Days of the week: Monday – Thursday

Time and duration of sessions: 2:30 PM – 4:00 PM

These programs will run Monday through Thursday for the full 2025–2026 school year, offering 96 instructional sessions per program, each lasting 1.5 hours. The total number of sessions is based on the school calendar, excluding holidays, school closures, and planned breaks. Sessions will provide consistent, structured support to students at all English language proficiency levels, ensuring targeted instruction aligned with student needs.

Language of Instruction

For each Title III Immigrant funded program, include language of instruction and how home language support is provided:

At P.S. 7, each Title III ELL-funded program is supported by a dedicated team of certified teachers who are specifically trained to meet the needs of immigrant students. These teachers are carefully selected to address the diverse linguistic and academic needs of immigrant students at various stages of language acquisition.

For the program serving immigrant students classified as Entering or Emerging ELLs, the school will assign certified teachers who specialize in ESOL (English to Speakers of Other Languages) instruction. These educators will provide essential support in building the foundational English skills needed for academic success. In addition, content area teachers will collaborate with the ESOL team to ensure that immigrant students receive integrated support across both language development and core subjects, helping them thrive academically in all areas.

The program designed for immigrant students at the Transitioning to Commanding level, as well as recent immigrant arrivals who are not yet classified as ELLs but still require additional support, will also be staffed with a team of certified teachers. These teachers include ESOL-certified educators who specialize in enhancing reading fluency, comprehension, and overall language proficiency. Content area teachers will work alongside the ESOL instructors to provide targeted instruction that addresses both language development and academic growth, ensuring that immigrant students continue to make progress in all areas of their education.

For the support program targeting immigrant students at the Commanding level, the focus will be on small group instruction led by certified teachers proficient in both ESOL methods and content area subjects. These educators will work with immigrant students to deepen their comprehension skills and further strengthen their academic performance. Specialized instructional strategies will be employed to ensure that immigrant students continue to build on their existing strengths while gaining a deeper understanding of more complex academic content.

Additionally, P.S. 7's Dual Language After-School Program will be staffed by two certified bilingual teachers, one fluent in Chinese and the other in Spanish. These teachers will provide instruction in both languages, promoting bilingual development and supporting academic achievement in both English and students' home languages. This bilingual approach allows immigrant students to further develop their language skills while receiving support in academic subjects, providing a well-rounded educational experience.

The staffing structure for each program reflects P.S. 7’s commitment to providing high-quality, specialized instruction that meets the unique needs of immigrant students. By utilizing certified teachers with expertise in ESOL, bilingual education, and content-area instruction, the school ensures that immigrant students receive the focused support necessary to succeed both linguistically and academically. Staffing details, including the number of teachers and their certifications, will be finalized based on program enrollment and needs as the school year progresses.

Number and Types of Certified Teachers
For each Title III Immigrant funded program, include number and type(s) of certified teachers.

At P.S. 7, each Title III ELL-funded program is supported by a dedicated team of certified teachers, ensuring that immigrant students receive the specialized instruction they need. The staff is carefully selected to address the unique needs of immigrant students at different stages of language acquisition.

For the program serving immigrant students classified as Entering or Emerging ELLs, the school will assign certified teachers who specialize in ESOL (English to Speakers of Other Languages) instruction. These educators will provide

foundational support in English language development. Additionally, content area teachers will be involved as necessary to ensure that immigrant students receive integrated support in both language development and academic subjects, helping them succeed across the curriculum.

The program designed for immigrant students at the Transitioning to Commanding level, as well as recent arrivals who are not classified as ELLs but still require additional support, will also be staffed with a team of certified teachers. These include ESOL-certified educators who specialize in advancing reading fluency, comprehension, and language proficiency. To further meet the needs of these students, content area teachers will work alongside the ESOL team to provide targeted instruction that aligns with both academic and language goals, ensuring immigrant students make progress in all areas of their education.

For the support program targeting immigrant students at the Commanding level, small group instruction will be the focus. Certified teachers proficient in both ESOL methodologies and content area subjects will work with students to strengthen their comprehension skills and academic performance. These educators will employ specialized teaching strategies to ensure that immigrant students continue to build on their academic strengths while deepening their understanding of complex concepts.

Additionally, the Dual Language After-School Program will be staffed by two certified bilingual teachers—one fluent in Chinese and the other in Spanish. These teachers will provide instruction in both languages, fostering bilingual development and supporting academic achievement in both English and the students' home language. This bilingual approach offers immigrant students the opportunity to strengthen their language skills while receiving comprehensive support in their academic subjects.

Each program's staffing structure reflects P.S. 7's commitment to providing high-quality, specialized instruction for immigrant students. By leveraging certified teachers' expertise in ESOL, bilingual education, and content areas, the school ensures that immigrant students receive the targeted support necessary for their academic and linguistic success. Staffing details, including the exact number of teachers and their specific certifications, will be finalized based on program enrollment and needs as the school year progresses.

Types of Materials

For each Title III Immigrant funded program, include:

- **Types of materials,**
- **Titles and publishers of main supplemental materials,**
- **Location where purchased materials will be stored, and**
- **Whether materials will be purchased using Title III Immigrant funds. Please note: If materials are purchased using Title III Immigrant funds, they cannot exceed 20% of the total allocation.**

At P.S. 7, a variety of instructional materials are used in each Title III ELL-funded program to meet the diverse learning needs of immigrant students. These resources are provided at no cost to the Title III ELL program and are specifically selected to support language development, literacy, and academic progress across different stages of English language proficiency.

For immigrant students classified as Entering or Emerging ELLs, the program utilizes a combination of Rigby Guided Reading kits, Orton-Gillingham and Fundations multi-sensory phonics approaches, and the Santillana "Spotlight on English" program. These materials provide foundational support in reading, writing, and phonics. In addition, digital tools like Amira for literacy development, Wilson online components for phonics instruction, and Epic online books are incorporated to further engage students and strengthen their reading comprehension skills.

The program for Transitioning and Commanding ELL students, as well as recent immigrant arrivals who are not classified as ELLs but still require additional support, uses similar materials. This includes Rigby Guided Reading kits, Orton-Gillingham and Fundations for phonics, and the Santillana "Spotlight on English" program. Digital resources such as Amira, Wilson online components, and Epic online books are also part of this program to support reading fluency, vocabulary acquisition, and comprehension skills. These resources cater to the varying linguistic and academic needs of immigrant students as they progress toward higher levels of language proficiency.

For immigrant students at the Commanding level, who have achieved proficiency in English but require continued support, the program focuses on enhancing reading fluency and comprehension. It includes the same foundational resources—Rigby Guided Reading kits, Orton-Gillingham, Fundations, and "Spotlight on English." Amira, Wilson online components, and Epic online books are also used to reinforce comprehension and vocabulary development, providing targeted support for academic language acquisition and content understanding.

In all programs, the Fundations phonics program is a key instructional tool. It delivers systematic and intensive instruction in phonological awareness, phonics, vocabulary, comprehension, fluency, and writing. Teachers also incorporate a range of activities such as daily read-aloud sessions, guided reading, social-emotional learning exercises, sound and sight word reviews, close reading, and comprehension tasks. These activities are tailored to the specific educational goals of immigrant students, addressing both their language development and their academic needs.

These materials and instructional approaches are strategically chosen to support immigrant students at all stages of language proficiency. By providing both traditional and digital resources, P.S. 7 ensures that each student receives the necessary support to enhance language acquisition, literacy skills, and overall academic success. The materials used in each program are carefully aligned with the needs of the students, ensuring that they receive targeted, engaging instruction that will help them succeed in their academic journey.

Implementation Plan and Maintaining Records

- **Describe your school's plan for implementation (e.g. when and how parents/guardians will be notified about the program(s)).**
- **Describe how your school will maintain records of your school's Title III Immigrant funded program, including evidence of parent notification in their preferred languages, student attendance records, teachers that support the program, record of parent engagement activities, records of professional development activities, purchase orders and invoices to date. For additional information, please refer to the Title III Immigrant FAQ.**

At P.S. 7, the implementation of our Title III-funded programs is fully aligned with federal regulations, ensuring that immigrant students receive effective support in developing both English proficiency and academic skills. We maintain rigorous documentation to monitor the progress of immigrant students participating in our afterschool and weekend programs, ensuring compliance with Title III requirements and tracking student outcomes.

Record-Keeping and Documentation:
Our school keeps detailed records to document all aspects of our Title III programs, including:

1. Parent Notification: Evidence of communication with parents in their preferred languages, including dates of notifications.
2. Student Attendance: Daily attendance records
3. Teacher Information: A list of all program teachers with certification types.
4. Financial Documentation: Purchase orders and invoices for materials used in the program.

All records are systematically stored and organized for easy access and review. Digital records are maintained in a Google Drive folder structure, while any required physical documents are filed in binders in the Assistant Principal's office. This ensures both compliance and transparency for Title III monitoring and audits.

Implementation of Programs:

The Title III programs at P.S. 7 are designed to support immigrant students in acquiring English language skills and achieving academic success. Teachers deliver targeted instruction in small groups using a variety of supplemental materials to enhance daily classroom learning. Instructional activities include, but are not limited to: daily read-aloud sessions, skill specific reading, social-emotional learning exercises, phonics drills, vocabulary-building games, close reading, and comprehension activities. Each strategy is tailored to meet the specific needs of immigrant students at different stages of language acquisition.

A key component of our program is the Fundations phonics program, which provides systematic and intensive instruction in phonological awareness, fluency, and writing across all grade levels. This program supports the foundational literacy skills immigrant students need to become fluent readers and writers, enabling success across all academic content areas.

By combining careful record-keeping with evidence-based instructional practices, P.S. 7 ensures immigrant students receive targeted support. Progress is monitored and instruction adapted as needed, demonstrating our commitment to closing language gaps, promoting academic success, and maintaining full compliance with Title III requirements for English language learners.

Mode of Instruction:

Teachers collect data through direct instruction in small groups. All program materials are supplemental to daily classroom instruction. Activities include daily read-aloud, skill specific reading, social-emotional learning exercises, sound and sight word review and games, close reading, and comprehension activities.

Part C: Professional Development

Professional Development Summary
Provide a summary of your school's plan for professional development under your Title III Immigrant program. Please make sure to describe:

- **Professional development to be provided,**
- **Activities that teachers will engage with by topic, and**
- **Whether the professional development provided will be funded by Title III Immigrant funds. Please note: If PD will be funded by Title III Immigrant funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of PD and must not exceed 10% of the total allocation.**

Please make sure to describe:

- Professional development to be provided
- Activities that teachers will engage with by topic
- Whether the professional development provided will be at cost to Title III Immigrant funds

Rationale:

At P.S. 7, our professional development plan for the Title III ELL program is designed to strengthen instructional practices and meet the unique needs of immigrant students. Our educators participate in targeted training sessions focused on improving language acquisition and academic progress, specifically addressing the needs of the 226 Spanish-speaking immigrant students at our school.

The professional development curriculum covers several critical areas. Teachers receive in-depth training on implementing the Fundations phonics program, which focuses on phonological awareness, phonics skills, vocabulary development, comprehension strategies, fluency, and writing proficiency. They also explore the use of Rigby Guided Reading kits and other supplemental materials to support literacy development for immigrant students.

A key component of our professional development plan is the incorporation of multi-sensory approaches, such as Orton-Gillingham, which are tailored to accommodate the diverse learning styles of immigrant students and enhance phonics instruction. Teachers also participate in cultural competency workshops to deepen their understanding of the diverse language backgrounds of immigrant students and to promote inclusive practices in the classroom.

Throughout these professional development sessions, educators actively engage in hands-on activities, collaborative lesson planning, and peer observations. These activities help them apply new strategies directly to their teaching practices. By analyzing data from the NYSESLAT 2024 and other assessments, our educators continuously refine their instructional methods to better meet the evolving needs of immigrant students. This approach ensures that we provide effective support that promotes both language development and academic success for all of our immigrant students.

At P.S. 7, we do not use Title III Immigrant funds for these professional development sessions.

Rationale for Professional Development

Describe the rationale for the professional development to be provided. For each activity, include:

- **Qualitative and quantitative data analysis (e.g., patterns and trends identified) that support the need for the professional development, and**
- **Data sources (e.g., school survey teacher responses, in-house teacher surveys, teacher observation data) used to justify the professional development.**

For each activity include:

- Qualitative and quantitative data analysis that support the need for the professional development
- Data sources used to justify the professional development

At P.S. 7, the professional development (PD) plan under the Title III ELL program is intentionally designed to address documented instructional needs identified through both quantitative student data and qualitative teacher feedback. Analysis of language proficiency data, academic performance trends, and teacher observations indicates that educators require additional training to effectively support immigrant students at varying stages of English language development, particularly in literacy, academic language, and social-emotional learning.

Current enrollment data show that 35.09% of immigrant students are classified as English Language Learners (ELLs), 9.32% are Former ELLs, and 55.58% are Non-ELLs. While ELL students are actively developing English proficiency, data indicate that Former ELLs—despite having exited ELL status—continue to experience challenges with advanced academic language, particularly in content areas such as science and social studies. NYSESLAT results further show that 106 immigrant students have reached the Commanding level, demonstrating strong conversational English skills but continued need for support with complex vocabulary, syntax, and academic discourse. These trends highlight a clear instructional need for teachers to strengthen strategies for supporting academic language development beyond basic proficiency.

Qualitative data from teacher feedback and classroom observations reinforce these findings. Teachers report difficulty supporting students who appear fluent in English but struggle with reading comprehension, content-specific vocabulary, and extended writing tasks. As a result, educators have identified a need for professional development focused on advanced literacy strategies, scaffolding academic language, and supporting language development across content areas.

In response to these identified needs, the PD plan prioritizes targeted training aligned directly to instructional gaps. First, teachers will receive training focused on addressing unfinished learning and literacy gaps, with an emphasis on strategies that support both ELLs and Former ELLs. This training responds directly to assessment data indicating persistent gaps in reading comprehension, writing, and academic vocabulary among immigrant students, particularly those transitioning out of ELL status.

Second, teacher feedback has highlighted the need for greater capacity in supporting students' social-emotional learning (SEL). Many immigrant students continue to experience challenges related to confidence, engagement, and classroom participation, particularly following disruptions to learning. As a result, the PD plan includes SEL-focused training to help teachers create emotionally supportive learning environments that promote student engagement and academic risk-taking.

Finally, the PD plan includes a strong focus on culturally responsive teaching (CRT). Teachers have identified the need for strategies that affirm students' linguistic and cultural identities while strengthening instructional relevance.

Training in culturally responsive practices will support teachers in creating inclusive classrooms and delivering instruction that is responsive to the diverse backgrounds of immigrant students.

The effectiveness of the PD plan will be monitored through ongoing analysis of formative assessments such as Acadience and MAP Growth, as well as NYSESLAT results and classroom-based data. These measures will allow the school to assess whether professional learning is translating into improved instructional practices and stronger student outcomes. Teachers will use these data to adjust instruction and refine strategies, ensuring continuous alignment between professional development, instructional practice, and student need.

Through this data-driven and needs-aligned professional development plan, P.S. 7 is building teacher capacity to address both the academic and social-emotional needs of immigrant students. By directly connecting student performance trends and teacher-identified needs to targeted PD topics, the school ensures that professional learning is purposeful, responsive, and effective in supporting long-term student success.

Teachers to Receive Professional Development

Include information on the teachers to receive professional development. Please specify how all teachers working in the Title III Immigrant program will receive ongoing professional development related to the Title III Immigrant program.

At P.S. 7, professional development under the Title III ELL program is provided to teachers who directly serve English Language Learners and immigrant students. This includes classroom teachers in grades K–5 with ELLs in their classes, Title III afterschool teachers, ENL-certified teachers, literacy intervention teachers, and instructional staff who provide small-group or push-in language support. These educators participate in ongoing professional development designed to strengthen instructional practices and improve outcomes for immigrant students and English Language Learners.

Participating teachers engage in training focused on several critical instructional areas aligned to student needs. First, teachers receive professional development in differentiated instruction, with an emphasis on adapting lessons to meet the varied language proficiency levels of immigrant students. Training supports teachers in applying these strategies in in-person instructional settings, ensuring that students receive appropriate scaffolds and supports regardless of their level of English proficiency.

Professional development also emphasizes culturally responsive teaching. Teachers working directly with immigrant and ELL students are trained to integrate students' cultural and linguistic backgrounds into instruction, creating inclusive classrooms where students feel valued and supported. This training helps teachers build stronger relationships with students and implement equitable instructional practices that promote engagement and academic success.

Supporting the social-emotional well-being of immigrant students is another key focus of the professional development. Classroom teachers, ENL teachers, and intervention staff receive training in strategies such as mindfulness practices and trauma-informed approaches that help create emotionally supportive learning environments. These strategies are particularly important in supporting students who have experienced educational disruptions or transitions.

In addition, teachers who provide ELL and immigrant student instruction receive targeted training in language acquisition strategies. This professional development focuses on modeling effective oral language practices, explicit vocabulary instruction, and strategies that promote student participation and academic discourse. Teachers apply these strategies during literacy instruction and content-area lessons to support English language development alongside academic learning.

Teachers in the Title III ELL program primarily deliver instruction in person, using modeling and guided practice to demonstrate best practices in literacy and language acquisition. Through continuous, targeted professional development, P.S. 7 ensures that educators who work most closely with immigrant students have the knowledge, skills, and resources necessary to deliver high-quality, inclusive instruction. This sustained focus on professional learning supports immigrant students' continued progress in English language development and academic achievement.

Schedule and Duration

For each Title III Immigrant professional development activity, include:

- Start and end dates/months,
- Total number of sessions,
- Days of sessions, and
- Time and duration of sessions.

The professional development schedule for Title III ELL activities at P.S. 7 during the 2025–2026 school year is structured as follows:

Start and End Dates:
The seven professional development sessions will commence on October 6, 2025, and conclude on April 6, 2026.

Total Number of Sessions:
A total of 7 professional development sessions will be conducted during the school year.

Days of Sessions:
Each session will take place on the first Monday of each month (October through April).

Time and Duration of Sessions:
Each session will be held from 5:00 PM to 5:30 PM and will last 30 minutes.

These seven sessions are designed to address the ongoing professional development needs of teachers involved in the Title III ELL program. Teacher feedback will be collected to ensure that future sessions remain responsive to instructional needs and aligned with program goals and student outcomes.

Topics to be Covered

For each Title III Immigrant professional development activity, include topics to be covered.

Professional Development Topics Supporting Student Success
1. Analyzing Acadience and MAP Growth Data to Inform Instruction

Teachers will use the ladder of inference to analyze assessment data and identify specific student needs, including literacy and language gaps common among immigrant students and SIFE learners. By interpreting data through a lens of cultural and educational context, teachers can design instruction that responds to both academic and transitional needs.

How this supports student success:

Enables personalized instruction that accounts for disrupted educational backgrounds.

Helps identify gaps in foundational knowledge and language proficiency.

Supports targeted interventions that accelerate literacy and language development for all learners, particularly newcomers adjusting to U.S. academic expectations.

2. Creating Differentiated Word Work Stations in Kindergarten and First Grade

Using data from the Fundations and Heggerty programs, teachers will develop hands-on, differentiated word work stations to support early literacy development. Instruction will include strategies to support students with interrupted education or limited English exposure, emphasizing phonemic awareness, decoding, and language acquisition.

How this supports student success:

Builds foundational literacy skills at an individualized pace, crucial for SIFE students who may have gaps in prior schooling.

Provides multi-sensory, culturally responsive learning opportunities for diverse learners.

Helps students gain confidence and early mastery of essential literacy skills, setting the stage for long-term academic success.

3. Shared Reading, Shared Writing, and Guided Reading

Teachers will explore best practices for shared reading, shared writing, and guided reading lessons, with additional emphasis on scaffolding content for newcomers and immigrant students. PD will include modeling strategies to activate prior knowledge, build schema for U.S. academic norms, and support comprehension for students unfamiliar with typical classroom expectations.

How this supports student success:

Strengthens language-rich interactions that are essential for ELLs.

Supports the gradual integration of students into U.S. academic systems.

Enhances engagement and confidence in literacy tasks for students navigating cultural and linguistic transitions.

4. Scaffolding Reading and Writing to Meet the Needs of ELLs and SIFE Students

This session will focus on scaffolding strategies for students with limited or interrupted formal education. Teachers will learn to provide tiered supports, develop background knowledge, and create structured pathways to grade-level literacy and content mastery. Trauma-informed practices will also be integrated to address the emotional and psychological needs of newcomer students.

How this supports student success:

Ensures access to rigorous content while supporting language development.

Addresses gaps in prior schooling and facilitates smoother transitions into the U.S. academic system.

Creates a safe, supportive learning environment that considers students' social-emotional needs and experiences of

trauma.

5. Engaging Families New to the U.S. Education System

Teachers will receive PD on effective strategies for partnering with families who are new to the U.S. school system. This includes culturally responsive communication, understanding parental expectations shaped by different educational systems, and involving families in literacy and language development at home.

How this supports student success:

Strengthens the home-school connection, which is critical for student achievement.

Provides families with the knowledge and tools to support their children's learning.

Encourages culturally inclusive practices that validate students' backgrounds and foster community engagement.

6. Afterschool Program Professional Development

Teachers in the afterschool program will receive training aligned with daytime instructional practices, emphasizing continuity for immigrant and ELL students. Sessions will address differentiated support for students with interrupted education and provide strategies to reinforce literacy and language acquisition in a supportive setting.

How this supports student success:

Ensures consistent, high-quality academic support across learning environments.

Reinforces targeted literacy and language interventions.

Provides additional scaffolding for students adjusting to the U.S. academic and cultural context.

Name(s) and Title(s) of Provider(s)

For **each** Title III Immigrant professional development activity, include name(s) and title(s)of provider(s).

Professional development will be provided by members of the administrative team as well as ENL Specialists and AIS support teachers.
Names:

Administration: Cheralene Kondel
Academic Intervention Specialist: Fredda Pichardo
ENL Specialist: Orit Sperber

Maintaining Records

Describe your school's plan for maintaining of all professional development (e.g., agendas, attendance sheets) provided as part of your Title III Immigrant plan; please specify which activities were funded by Title III Immigrant funds.

Including your school's plan for maintaining documentation of professional development provided using Title III Immigrant funds.

Our school's plan for maintaining documentation of professional development provided using Title III Immigrant funds will be kept on a school google drive in which afterschool teachers and administration can easily access.

Part D: Family Engagement Activities

Family Engagement Summary

Provide a summary of your school's family engagement activities under your Title III Immigrant program. Describe the activities that families of immigrant students (including ELLs) will engage with by topic. Please make sure to include whether the activities will be funded by Title III Immigrant funds. Please note: If family engagement activities will be at funded by Title III Immigrant funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of family engagement and must not exceed 10% of the total allocation.

At P.S. 7, our family engagement activities within the Title III ELL program are designed to build a strong partnership between the school and immigrant families. Supported by Title III funding, these activities aim to empower immigrant parents through informative workshops and support services tailored to their needs, ensuring they can actively participate in their children's educational journey.

The Title III LEP Extended Day Program includes a series of workshops for immigrant parents, with the goal of helping them better understand how to support their children, particularly those in the ELL program, as they navigate their learning experiences. These workshops are led by experienced educators, including Orit Sperber and Tanya Ritter, who specialize in working with immigrant families.

The workshops are held monthly and are open to immigrant families of ELL students. There are a total of seven sessions, each focusing on a different aspect of supporting children's education and language development. The workshops take place on the first Wednesday of each month from 1:30 PM to 2:20 PM. The topics covered in these workshops include:

1. Utilizing Remote Technology and Online Platforms (such as Google Classroom and Zoom)
2. Strategies to Support Your Child's Learning at Home
3. How to Help Your Struggling Reader at Home by Practicing Sight Words
4. The Power of Read Alouds: An Interactive Experience
5. Make and Take Literacy Games
6. What Does it Mean to Be an English Language Learner?
7. New Student Orientation and the Kindergarten School Experience

These sessions are specifically designed for immigrant parents, with a focus on helping them understand how to navigate the school system, support their children's academic progress, and get familiar with the ELL program offerings. The workshops also provide information about key milestones in a child's educational journey, such as the Middle School Application Process.

The workshops are facilitated by teachers, assistant principals, and bilingual paraprofessionals fluent in languages such as Chinese, Spanish, and Bengali, ensuring that all immigrant parents can fully participate. To promote these sessions, information is shared through translated letters, flyers, and posts on the school website, Instagram, Class Dojo, and Google Classroom. Teachers also keep parents informed through individual meetings, and the parent coordinator uses a phone announcement system to ensure outreach to all families.

In response to feedback gathered from surveys, future workshops will address additional needs identified by immigrant parents. These include strategies for helping children develop writing skills, particularly for non-native English-speaking parents, as well as promoting social-emotional development during challenging times. The aim of these initiatives is to assist immigrant parents in supporting their children's academic success, fostering positive learning routines at home, and creating environments that promote both academic achievement and emotional well-being.

Through these workshops and ongoing engagement, P.S. 7 is dedicated to supporting immigrant parents, helping them feel confident in their ability to assist their children and fully participate in their educational community. By strengthening the partnership between school and home, we ensure that immigrant students receive the comprehensive support they need to succeed.

Rationale for Family Engagement Activities

Describe the rationale for the family engagement activities to be provided:

For each activity, include:

- Qualitative and quantitative data analysis (e.g., reasons for topics, time activities will be offered), and
- Data sources (e.g., parent survey responses, in-house parent surveys, PTA/PA request) used to justify the need for activities.

At P.S. 7, our rationale for family engagement activities is grounded in a strong commitment to creating a supportive and inclusive school community, where immigrant families play an essential role in their children's academic success. We recognize that when schools and families work together as partners, student achievement and well-being significantly improve. This belief is central to our approach, which is informed by both qualitative and quantitative data that highlights the need for meaningful opportunities for immigrant families to engage in their children's education.

Through surveys conducted by our Parent Coordinator, Tanya Melito, we gather insights directly from immigrant families about their preferences, needs, and areas where they seek support. This feedback helps us tailor our family engagement activities, ensuring they address the specific concerns of immigrant parents. The surveys have highlighted several key areas of interest, including the use of technology at home, supporting English language learning, and strategies to enhance academic progress. These identified needs shape our workshop topics and the events we offer to parents.

We draw on data sources like parent surveys and assessments of parent involvement in school activities to justify the need for these family engagement initiatives. Immigrant families have expressed a strong desire to participate more in their children's education, and they value opportunities to understand classroom practices, assist with academic work, and navigate educational technology. By providing workshops on topics such as using digital tools at home, strategies for supporting English language learners, and ways to encourage reading and writing skills, we empower immigrant parents with the knowledge and skills needed to actively support their children's academic progress.

Our commitment to inclusivity is evident in how we ensure that language barriers do not prevent immigrant families from fully participating in school activities. We provide translated notifications, interpreters, and language support during events to accommodate the diverse linguistic backgrounds of our families. This ensures that every parent, regardless of their primary language, has equal access to the information and resources available through our family

engagement efforts.

Funded by Title III, these family engagement activities are a critical part of our efforts to create a collaborative environment at P.S. 7, where immigrant families feel informed, supported, and valued as partners in their children's education. By continuing to listen to and respond to the needs of our immigrant families, we strive to build lasting, positive relationships between school and home that enhance the educational experience for all students.

Schedule and Duration

For each Title III Immigrant family engagement activity, include:

- Start and end dates/months,
- Total number of sessions,
- Days of sessions, and
- Time and duration of sessions.

The family engagement activities under our Title III ELL program at P.S. 7 are structured as follows:

Workshops for Parents of ELL Students:

Start and End Dates: October 14, 2024 - May 5, 2025
Total Number of Sessions: 6
Days of Sessions: Mondays
Time and Duration: 1:30 p.m. - 2:20 p.m. (50 minutes per session)

Assisting with Special Events and Town Hall Meetings:

Start and End Dates: Ongoing throughout the school year
Total Number of Sessions: As needed
Days of Sessions: Thursdays (alternating between 10 a.m. and 6 p.m.)
Time and Duration: Variable, depending on event or meeting

These activities are designed to support parents in navigating remote technology, aiding their child's learning at home, and enhancing their understanding of the school environment. Parents also contribute as translators during town hall meetings, fostering a collaborative school community.

Topics to be Covered

For each Title III Immigrant family engagement activity, include topics to be covered.

Parent workshops at P.S. 7 encompass a range of academic support topics designed to empower parents of English Language Learners (ELLs) in supporting their children's educational journey. Led by various specialists and administrators, these workshops cater to different facets of parental involvement and understanding.

"How to Help your Struggling Reader at Home by Practicing Sight Words" sessions are facilitated by our AIS teachers, where parents learn engaging activities to assist their children in mastering grade-appropriate sight words.

"The Power of Read Alouds: An Interactive Experience" workshops, led by our ENL Specialists, provide parents with effective strategies for reading aloud, including previewing vocabulary, using visual aids, and enhancing oral expression.

"Make and Take Literacy Games" sessions, also led by ENL Specialists, enable parents to create educational games that reinforce basic letter sounds, sight words, and other foundational literacy skills.

"What Does it Mean to Be an English Language Learner?" workshops, facilitated by administrators, inform parents about the different levels of language proficiency and appropriate literacy development in their child's first language.

Additionally, workshops tailored for parents of immigrant students cover topics crucial for navigating the school environment, such as New Student Orientation, the Pre-K and Kindergarten School Experience, English Language Learner Program Choices, and the Middle School Application Process. These sessions, led by ENL Specialists and Guidance Counselors, equip parents with insights into school processes and interactions within the NYC DOE system.

These workshops are integral to our family engagement strategy, ensuring that parents are well-informed and equipped to support their children's academic and social-emotional growth effectively.

Name(s) and Title(s) of Provider(s)

For each Title III Immigrant family engagement activity, include name and title of provider(s) (e.g., vendor, community-based organization, school staff name in charge of facilitating the parent engagement activities described in this section).

Topics to be Covered in Parent Workshops:

1. How to Help your Struggling Reader at Home by Practicing Sight Words: Led by Fredda Pichardo, AIS Specialist, parents are informed of fun activities that support their children's learning of basic grade-appropriate sight words.

2. The Power of Read Alouds: An Interactive Experience: Led by Orit Sperber, ENL Specialist, parents are provided with a model for reading aloud a mentor text to children using scaffolds such as previewing vocabulary, providing a blurb, visual aides, and oral expression.

3. Make and Take Literacy Games: Led by Jen Caruana, ENL Specialist, parents are actively creating literacy games to help enhance their children's understanding of basic letter sounds, sight words, and more.

4. What Does it Mean to Be an English Language Learner?: Led by AP Kondel, administrators inform parents of the levels of language proficiency and age-appropriate literacy in the first language.

5. Navigating the School Environment: Led by Orit Sperber and Kitty Chu-Lee, Guidance Counselor, parents are informed of various aspects and interactions they will have with the NYC DOE school process.

These workshops are facilitated by teachers, assistant principals, and supported by bilingual paraprofessionals and other staff members who translate the workshops into Chinese, Spanish, and Bengali.

Family Notification of Activities and Translation and Interpretation Supports

Describe:

- How families will be notified of Title III Immigrant family engagement activities (e.g., phone calls, emails),
- How notification of activities will be translated into parent/guardians' preferred language, and
- How interpretation supports will be provided at events.

Parents are informed about upcoming workshops through a variety of channels designed to reach our diverse community effectively. Translated letters and flyers are distributed in the primary languages spoken by our families, ensuring that all parents can access important information about workshop topics and schedules. These materials are not only distributed physically but also made available digitally on our school website, Instagram, Class Dojo, and Google Classroom platform, providing multiple points of access for parents to stay informed.

In addition to written communications, teachers actively share details about parent engagement activities during regular parent meetings and through the "DOJO" App, which serves as a direct communication channel between teachers and parents. Our dedicated parent coordinator also utilizes a phone announcement system to deliver timely updates and reminders, ensuring that all parents have ample opportunity to participate and engage in school events and workshops.

Maintaining Records

Describe how your school will maintain documentation (e.g. agendas, attendance sheets) of family engagement activities and notifications to families.

Records will be maintained using Google Documents to keep everything organized and accessible. Agendas, attendance sheets, and invitations will be stored in this format and translated into parents' preferred languages to ensure full participation. Agendas will detail the topics covered in each meeting or event, attendance sheets will track who attended, and invitations will be sent in advance to inform parents of upcoming events. Using Google Documents ensures that all records are easily accessible and well-organized for future reference.

Part E: Budget

FOR SCHOOLS NOT CONCEPTUALLY CONSOLIDATED ONLY. Ensure that your Title III Immigrant budget matches your Title III Immigrant plan as described in Parts B, C, and D above.

This school is (select one):

Conceptually consolidated (skip part E Budget below)

Allocation Amount ($):

$11, 561

Budget Category	Budgeted Amount	Explanation of expenditures in this category as it relates to the program narrative for this title.
Professional salaries (schools must account for fringe benefits):-Per session -Per diem	5,300	
Purchased services -High quality staff and curriculum development contracts.	2,000	
Supplies and materials -must be supplemental -additional curricula, instructional materials -must be clearly listed.	1,700	
Educational Software (Object Code 199)	1,861	
Travel	700	
Other		
TOTAL	11,561
