Comprehensive Educational Plan Outline

Table of Contents

Main Sections (Customized Based on School Accountability Status):

- Section 1: Overview of Comprehensive Education Planning
- Section 2: School Information
- Section 3: CEP SLT/Stakeholder Signature Page
- Section 4: School Summary
- Section 5: Priority 1 – All students learn to read well
- Section 5: Priority 2 – All students are physically and emotionally safe
- Section 5: Priority 3 – All students have a high-quality academic experience
- Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security
- Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools
- Section 5: Attendance/Chronic Absenteeism
- Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities
- Section 6: Multi-Tiered Systems of Support (MTSS)
- Section 7: Parent and Family Engagement Policy and School-Parent Compact
- Title I Program Information
- Community Schools
- Submission Assurances
- Language Allocation Policy Outline
- Part I: School ML/ELL Profile
- Part II: Bilingual Programs
- Part III: ML/ELL Programming
- Part IV: Data Analysis
- Part V: ML/ELL Instruction
- Part VI: Family Partnership
- Part VII: Additional Information
- Part VIII: ELL Identification Attestation and Principal Certification
- Part IX: LAP Assurances
- LTI Overview and Part A: Designation of a LAC
- Part B: Parents' Preferred Languages

- Part C: Parent Communications and Engagement
- Part D: Staff Awareness
- Part E: Parental Notification
- Part F: Monitoring
- Title III Outline
- Part A: School Information
- Part B: Direct Instruction Supplemental Program Information
- Part C: Professional Development
- Part D: Family Engagement Activities
- Part E: Budget
- Title III Immigrant Outline
- Part A: School Information
- Part B: Direct Instruction Supplemental Program Information
- Part C: Professional Development
- Part D: Family Engagement Activities
- Part E: Budget

Appendices (Reflecting Additional Requirements for Specific Groups of Schools):

Section 1: Overview of Comprehensive Education Planning

Overview of Comprehensive Education Planning

Comprehensive Education Planning (CEP) is a structured, data-driven process that guides schools in assessing their needs, identifying areas for growth, setting strategic goals and implementing targeted actions to improve student outcomes. Collaboratively developed by the School Leadership Team (SLT) in accordance with the requirements of Chancellor's Regulation A-655, the CEP meets New York State Education Department (NYSED) requirements under the Every Student Succeeds Act (ESSA) and aligns with NYC Public Schools' (NYCPS) system-wide priorities. By engaging all stakeholders—school leaders, teachers, families, students and community members—schools can create a data-informed, equity-focused roadmap for student success and continuous improvement.

Schools should focus their CEP on the five system-wide priorities below, connecting their planning to the data discussions and conversations with stakeholders held as part of the school's needs assessment:

- Priority 1: All students learn to read well
- Priority 2: All students are physically and emotionally safe
- Priority 3: All students have a high-quality academic experience
- Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security
- Priority 5: All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

The Education Planning Process

The CEP follows an equity-driven, continuous improvement cycle, rooted in the system-wide priorities. This begins with a comprehensive needs assessment of the school's most current data to identify priority needs and root causes. Next, the SLT establishes **s**pecific, **m**easurable, **a**ttainable, **r**elevant, and **t**imely—SMART goal(s) aligned to each priority and determines targets to measure progress toward meeting the annual goals.

The SLT and instructional leaders define key evidence-based key strategies, professional learning activities and parent, family and community empowerment efforts. They monitor the implementation of those strategies and activities and track progress through measurable targets. Then, the SLT aligns the school-based budget with human and instructional resources to support action plans.

As schools set goals, develop key strategies, and plan action steps, they provide opportunities for all children to meet NYSED's proficient and advanced levels of student academic achievement. These include evidence based instructional strategies that address the educational needs of historically underserved populations and tackle structural inequities. Schools indicate how the plan addresses the needs of Multilingual/English Language Learners (ML/ELL) through development of the school's Language Allocation Policy (LAP) & Title III Application (if applicable) and the Language Translation and Interpretation (LTI) Plan, that are required as part of the CEP. Schools also address the needs of Students with Disabilities (SWD) through the High Quality Inclusive & Accessible Learning for Students with Disabilities section of the plan. SLTs also develop a plan to improve attendance and reduce chronic absenteeism.

Guidance on Conducting a Comprehensive Needs Assessment

Directions: Conduct a comprehensive needs assessment for each Priority. The information below provides guidance for reviewing and analyzing student and school performance trends to uncover root causes for low student achievement.

1. Review Multiple Data Sources: Use the most current and available information including, but not limited to, the following sources of formative and summative data, as applicable:

- Qualitative and quantitative data, including enrollment and class size trends
- 2024-25 ESSA Accountability Data
- Instructional Leadership Framework (ILF), Supportive Environment Framework (SEF) Inventories, and NYC School Survey results
- Quality Review Reports, NYSED and NYCPS CSI or A/TSI Support Visits, Receivership Quarterly Reports, and Diagnostic Tool for School and District Effectiveness Framework (DTSDE)
- NYC School Quality Guide, Insight, New Visions, NWEA MAP and/or other formative assessment data, IEP Review Survey Data, Progress on IEP Goals Data, Program (SESIS-STARS Linkage) Reports, Mandated (Related) Services Reports, and NYCPS Tools for Understanding Your Data for student subgroup information

2. Analyze Data Trend(s) to Identify Areas of Strength and Need: Identify data trends by grade, cohort, and content area(s) to surface gaps and inequities. Compare data sets to identify instructional and school practices that are impacting student performance. Guiding questions to consider:

- What does the data reveal about improving and declining student performance trends within grades, cohorts, and student subgroups?
- What inequities are evident between highest and lowest performing student subgroups? Which subgroup(s) scored at Level 1 based on NYSED ESSA accountability indicators?
- What does the data suggest regarding the effectiveness (or ineffectiveness) of current school programs, practices, and/or strategies/initiatives? What areas may need to be strengthened?
- Are there any differences in student performance between program delivery models for ML/ELL and SWD? (e.g., for special education: special class, ICT, SETSS, related services only; for ML/ELL: Transitional Bilingual Education (TBE) vs. Dual Language, etc.)
- How does delivery of instruction factor into data trends? What are the implications for teacher quality and professional learning?
- What inequities in special education referral and school disciplinary practices (e.g. suspensions, removals) are evident between student subgroups with IEPs?

3. Identify Root Cause(s): After analyzing the data, engage in a process for uncovering root causes or contributing factors for low student and school performance. Develop theories or hypotheses to explain

why these needs exist and why your school is getting its current outcomes. Root causes could be related to gaps and inequities in areas such as curriculum & instruction, school systems & structures, student support services, school climate & safety, and family & community engagement. Focus on the causes, rather than the symptoms. Use the 5 Whys Method or other methods for identifying root causes. Consider the questions below:

- What theories or hypotheses explain the current student and school outcomes?
- Are there root causes specific to certain subgroups, grades, cohorts, or content area(s)?

Additional resources and supports are available below.

- Use this CEP Needs Assessment Worksheet to help your SLT and stakeholders identify appropriate data sources, data trends, root causes and priority needs.
- For guidance and best practices on engaging stakeholders in a comprehensive needs assessment and root cause analysis, see this deck.
- A current list of all CEP/Title I resources can be found on the iPlan Portal Public Resources Page.

Section 3: CEP SLT/Stakeholder Signature Page

School Leadership Team (SLT) Signature Page

All School Leadership Team (SLT) members are expected to sign this page to confirm their participation in the development of this Comprehensive Education Plan (CEP) and that they have been consulted regarding the alignment of the school-based budget to support this school's educational program, which includes annual goals and action plans, Multi-Tiered Systems of Support (MTSS), the Parent and Family Engagement Policy (PFEP) and the School-Parent Compact (SPC). The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with Chancellor's Regulation A-655. The SLT also serves as the Core Community Engagement Team (CET) for Receivership Schools. Additional information and resources are available on the School Leadership Team Resources page. Under the Federal Every Student Succeeds Act (ESSA), NYS Education Law and Commissioner's Regulations, stakeholder participation in the development of the CEP must include multiple constituencies who represent the school community. Note: Stakeholders participating in the development of the CEP who are not listed on the SLT page sign the section below entitled Additional Stakeholder Participation on CEP Development.

Directions: List the names of each SLT member in the first column on the chart below.

- Specify the position and constituent group represented, e.g., parent-PTA, staff-UFT, student. Note: Two student minimum required for high schools; SED requires Middle Schools identified for the CSI/ATSI/TSI support model to have student representation.
- Community Based Organization (CBO), and any position held by the team member. Core mandatory SLT members are indicated by an asterisk*. Note: The Core SLT members also serve as the CET for Receivership schools.
- SLT members should review this document and sign in the Signature If an SLT member does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of SLT member indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.
- Schools may modify their SLT bylaws as needed to address additional school and/or ESSA requirements for stakeholder engagement.

SLT Member Name	Position and Constituent Group Represented	Signature
Kristen Niven	School Principal	
Stephanie Huerta	United Federation of Teachers (UFT) Chapter Leader or Designee	
Laura Robledo	Parents' Association (PA)/ Parent-Teacher Association (PTA) President or Designated Co-President	
Rosa Gonzalez	District Council 37 (DC 37) Representative (staff), if applicable	
Aremni Francisco	CBO Representative	
Maria Maquilon	Parent	
Gloria De Jesus	Parent	
Daisy Cuathla	Parent	
Sal Raniolo	UFT Representative	
Dayana Cantillo	Secretary, UFT	
Saima Din	Parent	

Additional Stakeholder Signature Page

Directions: Stakeholders participating in the development of the CEP who are not listed on the SLT page may sign below. Additional stakeholders may include, but not be limited to, school and district leaders, school staff, parents/families/guardians, students, community organizations, additional Core Community Engagement Team (CET) members (if applicable), members of the School Implementation Team (SIT), and/or school-based staff development committee that serves as the Instructional Leadership Team (ILT) tasked to improve instructional practice across the school. Go to NYSED's guidance on Assembling Your Team to learn more.

- List the names of additional stakeholders in the first column on the chart below.
- Specify the individual's position and constituent group represented.
- Stakeholders should review this document and sign in the Signature column. If the stakeholder does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of the additional stakeholders indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.

Section 4: School Summary

Accountability Status

Accountability Status: **LSI**

School Summary

Directions: Complete this CEP Summary to serve as the "at-a-glance" narrative that provides contextual information about your school's unique characteristics. This summary and the entire Comprehensive Education Plan (CEP) should be shared with your school community. Please note that this summary and the CEP will be made available to the public through the iPlan Portal, an online space where school stakeholders can go to collaborate in the development of the school's education plans.

Provide your school's mission statement:

Elm Tree Elementary School is a community that extends past the physical building. We are a safe, nurturing, respectful learning community where students are encouraged to purposefully explore and innovate through technology, both independently and cooperatively.

Our students are unique individuals with diverse learning styles who are socially and emotionally responsive. They are challenged with rigorous curricula and supported as they become our future leaders of tomorrow. Our students are problem solvers, collaborators, and inventors. They think critically and ask questions as they develop a love for learning that will enable them to adapt to change and persevere through challenges.

As the 21st Century continues to evolve, we are committed to enhancing, improving, engaging and stimulating a learning environment that is accessible for all students.

Through the dedication of our school staff, the support of our parents, and the partnerships we create within our community, our students will leave us as culturally and linguistically diverse individuals that are prepared for their future.

Elm Tree Elementary School believes that planning for success in the future means working together today.

Written by the Elm Tree School Community

Develop a narrative summary that includes contextual information about your school's community and its unique/important characteristics and partnerships:

Include demographic information about your school's student population.

Elm Tree Elementary serves a community of Pre-Kindergarten through Fifth Grade with a total of 888 students, 59% of the student population has a ENL Classification. Of our ENL students 94% are primarily Spanish Speaking. Our programs are inclusive of Monolingual, Dual Language, Transitional Bilingual, Small Class, Monolingual STEM ICT and Dual Language ICT. Our student make up is inclusive of 7% Asian, 5% Black, 88% Hispanic, 2% White, 18% SWD, 47% Male and 53% Female. By ethnicity, the ELLs at our school are made up of 5.9% Non-Hispanic ELLs and 76.8% Hispanic ELLs. Of the Non-Hispanic ELLs, 11 are Asian, representing 32.4% of ELLs at our school, 10 are black (29.4%), and 11 are white (32.4%). Of the Hispanic ELLs, 370 are American Indian or Alaskan Native, representing 76.8% of ELLs at our school, 7 are black (1.5%), 18 are multiracial (3.7%), 5 are Native Hawaiian or Other Pacific Islander (1.0%), and 82 are White (17.0%).

Our school aims to develop and strengthen its partnerships with the local community. For the 2025-2026 school year, we will continue a Partnership with the Child Center of New York, which is a Community Based Organization

that will support our school community and its needs. Since over 88% of our population is Spanish Speaking and approximately 2% are other languages such as Chinese, Nepali, Bengali, Fulani, and Arabic, we are sure to be inclusive of all language translations in all that we do. We are a Responsive Classroom School, which means that we view the entire child and incorporate social emotional learning into each content area that is taught.

Briefly summarize the key initiatives your school will implement this school year.

This school year, our initiatives are focused on targeted interventions and professional development to enhance student achievement. We will implement tier 2 and tier 3 small group instruction in ELA and Math to address diverse learning needs. Utilizing mClass as a screening tool, we will identify and address foundational gaps, with ongoing progress monitoring for tier 2 and tier 3 students. Our grade-wide inquiry will revisit progress monitoring data within each grade level, facilitating collaborative discussions among teacher teams to identify common areas of success and areas needing improvement in student learning outcomes. Professional growth opportunities include HMH professional learning sessions led by HMH Consultant, complemented by weekly professional development series targeting K-2 and 3-5 educators. These initiatives aim to foster a supportive and responsive learning environment that ensures every student receives the necessary support to succeed academically.

What are the primary digital and/or print curricula/programs used for ELA and Math:

Indicate the content area, grade band and any adaptations made.

Content Area (Indicate ELA and Math Only)	Grade Band	Digital and/or Print Curricula/Program	Adaptations
ELA	K-5	HMH Into Reading	
ELA/Bil	K-5	HMH Arriba la Lectura	
ELA/Math	PreK	Creative Curriculum	
Math	K-5	Envision	
ELA	K-2	Heggerty	
ELA	K-3	Fundations	

Section 5: Priority 1 – All students learn to read well

Priority 1 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
According to mClass data, Kindergarten students demonstrated significant growth, increasing their Overall Composite At or Above Grade Level Score from 19% at the beginning of the year (BOY) to 66% at the end of the year (EOY), a 47-percentage-point gain. First Grade students improved from	Positive growth in Grades K–1 reflects the effectiveness of our foundational literacy strategies and affirms our continued focus on early learning as a lever for long-term success. The progress we're seeing in our youngest learners highlights the importance of consistent, targeted supports such as MTSS interventions in Grade	Consistent Implementation of Science of Reading Practices: While professional learning in the Science of Reading has been rolled out school-wide, continued support is needed to ensure consistent implementation across all grades. Teachers in Grades K–5 benefit from aligned instructional strategies, and Grades 3–5, in particular, require deeper support in applying Science of Reading practices to vocabulary development, fluency, and comprehension. Ongoing coaching, planning support, and feedback cycles will help ensure practices are implemented with fidelity school-wide. Strengthening Small Group Instruction

28% (BOY) to 63% (EOY), reflecting a 35-point increase. Second Grade students showed a more modest gain, rising from 33% to 42%. Third Grade students increased slightly from 44% to 54%. In contrast, Fourth Grade students experienced a slight decline, moving from 32% to 30%. Fifth Grade students improved from 35% to 46%, marking an 11-point increase. While overall progress is evident in the early grades, subgroup analysis reveals persistent gaps. According to the 2024-2025 EOY i-Ready data from the New Visions Portal (August 2025), 74% of our MLLs are performing below grade level in reading, highlighting the need for more targeted, language-supportive literacy interventions across all grades.	1 and the impact of aligned professional learning grounded in the Science of Reading. Protecting small group instruction time across Grades K–5 has also contributed to a more responsive, data-driven approach. As we reflect on growth across the school, we recognize an opportunity to extend and deepen our impact in Grades 3–5. While early grade efforts are yielding results, upper grades may benefit from more intentional and sustained application of these strategies, particularly in comprehension, vocabulary, and fluency. Strengthening implementation of Science of Reading practices school-wide, with a focus on bridging unfinished learning in the upper grades, will be a key priority as we work to accelerate growth for all students.	Across Grades: Small group instruction remains a critical structure to meet the diverse needs of all students. While all classrooms have prioritized this approach, it is essential to reinforce and refine small group instruction in all grades. Protecting dedicated time (Chippy Centers), providing differentiated materials, and supporting instructional planning will ensure teachers at all grade levels use small groups to accelerate learning and close skill gaps. Progress Monitoring and Data Use: Normed and consistent progress monitoring practices across Grades K–5 is essential for identifying students in need of additional support and adjusting instruction accordingly. Teachers benefit from tools and training to interpret data and respond in real time. For Grades 3–5, in particular, this means using data not only to track foundational gaps but also to identify barriers in fluency, comprehension, and academic vocabulary that impact overall achievement. Vertical Alignment of Literacy Instruction: To ensure literacy development is cohesive across all grades, intentional vertical alignment is needed from Kindergarten through 5th grade. Collaborative planning across grade levels will support instructional coherence, shared expectations, and smooth transitions between years.

Priority 1

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for literacy outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Literacy

- Implement the strategies outlined in NYC Reads, including foundational phonics curriculum for grades K-2
- Implement dyslexia screening, professional learning, and program pilots (as applicable)
- Support literacy development through the integration of culturally responsive-sustaining texts and content

Priority 1 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	34	By June 2026, literacy for all students will improve, as measured by a 26-point increase, from 34% to 60%, in the percentage of K–5 students performing at or above benchmark on the mClass assessment.

Priority 1 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

Priority 1 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Implement a comprehensive, school-wide literacy plan grounded in the Science of Reading that prioritizes data-driven instruction, targeted small group interventions, and vertically aligned practices across Grades K–5. This strategy will be supported by consistent progress monitoring using mClass data, strategic deployment of MTSS supports, and ongoing professional development to ensure all students receive instruction tailored to their specific literacy needs—accelerating growth and moving more students to benchmark and above by June 2026.

Root Cause Addressed:

We're still in development of norming and strengthening approaches in the Science of Reading. Strengthening this will continue to support students progress. Additionally, small group instruction and intervention have not always been strategically planned or aligned to student needs. This strategy addresses the need for coherence, consistency, and responsive instruction across K–5 to ensure all students receive the supports necessary to meet or exceed benchmark expectations.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Strengthen Core Literacy Instruction Across K–5: All classrooms will implement Science of Reading-aligned instructional strategies with fidelity. Instruction will include structured phonics, phonemic awareness, vocabulary, and comprehension components. Literacy block expectations will be monitored through regular classroom walkthroughs, intervisitations, and collaborative planning to ensure alignment and consistency across all grades.
Implement Consistent Small Group Instruction: Teachers will use districted aligned assessments and progress

monitoring data to form flexible small groups tailored to students' specific skill gaps. Small group instruction will occur throughout the literacy block using targeted materials and skill-based lesson plans. This ensures differentiated support for students at all performance levels.

Provide Ongoing Professional Learning and Coaching: Professional development will be provided to deepen teacher understanding of the Science of Reading and enhance instructional practice.

Use Inquiry Team Meetings: Weekly meetings will be held to analyze district aligned assessment data and determine next steps for instruction and intervention. Teachers will develop action plans using subskill data (e.g., NWF, ORF) and track student movement across performance levels. This cycle will help ensure timely instructional adjustments based on student progress.

Promote Vertical Alignment and Collaboration: Grade-band PLCs/ Intervisitation Initiatives will focus on aligning instructional practices and expectations across K–5. Teachers will examine student work, share strategies, and review learning progressions to ensure skills build cohesively from one grade to the next. This collaboration will support smoother transitions and consistent literacy growth across the school.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To monitor the implementation of our literacy improvement strategies, ILT will establish clear structures and routines that ensure accountability, track progress, and measure impact on instruction and student outcomes.

-Primary Structures for Monitoring: Instructional Walkthroughs and Observation Cycles: Admin and instructional

coaches will conduct regular classroom walkthroughs using the District's ELA Implementation Tool to monitor implementation of the Science of Reading, small group instruction, and use of district aligned assessment data.

-Weekly Inquiry Team Meetings: Grade-level teams will participate in structured Inquiry Team meetings to review district aligned assessment data, progress monitoring results, and student movement across performance bands.

-Coaching Logs and Feedback Loops: ILT will document teacher support, modeling, and feedback related to core instruction, small group practices, and intervention planning.

-Tiered Support Trackers: MTSS tracking tools will be used to monitor student participation in Tier 2 and Tier 3 interventions, along with short-cycle assessment data to evaluate impact.

Data/Evidence to Be Collected:

-District Aligned Assessment and progress monitoring data

-Grouping plans and small group lesson plans aligned to data

-Intervention rosters, frequency logs, and student growth reports

-Instructional walkthrough notes and feedback summaries

-Teacher reflections and student work samples from PLCs/Intervisitations

Priority 1 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/25/2026	To support the successful implementation of our literacy improvement plan, we will engage families, including both birth and foster parents, through targeted, inclusive strategies that promote partnership, communication, and shared responsibility for student learning. Strategies/Activities: Family Literacy Workshops: Host regular workshops focused on the Science of Reading, reading strategies at home, and understanding mClass data, with an emphasis on building capacity for families to support early literacy development. Multilingual Communication: Provide all family-facing materials, such as newsletters, reading tips, and mClass updates, in multiple languages through the DOE's Language Access Services to ensure accessibility for all families. Community Partnerships: Collaborate with local libraries and community-based organizations to provide access to books, tutoring, and literacy events that reinforce reading outside of school.	Child Center of New York

Priority 1 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

To implement our literacy improvement plan, we will leverage MTSS Providers and interventionists to support Tier 2 and Tier 3 students, as well as instructional coaches to provide ongoing professional learning and feedback to teachers. Classroom teachers will lead Science of Reading-aligned instruction and small group lessons. Additionally, our attendance team staff and parent coordinator will support outreach and organize literacy-focused events.

Instructional Resources

We will utilize Science of Reading-aligned curriculum materials and mClass (DIBELS 8th Edition) as our core tools for universal screening, progress monitoring, and instructional planning. Additional resources include decodable readers, small group intervention materials, and planning templates. Family engagement will be supported with translated reading resources and take-home strategies that align with classroom instruction.

Schedule Adjustments

Protected literacy blocks (Chippy ELA) will be maintained across all K–5 classrooms to ensure uninterrupted time for core instruction and small group work. Teachers will also be provided with regular planning time to review mClass data and adjust instruction accordingly. Data meetings will be built into the schedule, and time will be set aside for literacy workshops and family engagement events beyond the standard school day.

Other Resources Needed

Section 5: Priority 2 – All students are physically and emotionally safe

Priority 2 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Physical behaviors are the primary driver of incidents: 50% of incidents involve physically aggressive actions (hitting, pushing, throwing objects), and an additional 20% involve physical confrontations that escalate quickly, indicating a persistent challenge with managing physical conflict. Incidents are concentrated in instructional spaces: 63% of all incidents occur within classrooms, suggesting a need for strengthened in-class behavior supports and proactive	We've identified areas of opportunity to strengthen consistency in our implementation of Responsive Classroom and Tier 1 SEL practices. Variability in classroom routines and social-emotional supports can create gaps in emotional safety, student regulation, and community-building. These gaps may contribute to an increase in physical and verbal incidents, highlighting the need for more cohesive school-wide practices. Additionally, building staff capacity to	Strengthen Consistent Implementation of Responsive Classroom and SEL: Support all classrooms in embedding Morning Meetings, SEL instruction, and shared norms to build emotional safety and predictability across the school. Expand Staff Capacity

management strategies. Cafeteria and other unstructured settings remain hotspots: 17% of incidents occur in the cafeteria, highlighting supervision and structure gaps during non-instructional times. Bullying persists as a notable concern: 10% of all incidents involve bullying behaviors, both verbal and physical, pointing to inconsistent implementation of SEL approaches. The frequency and intensity of these incidents suggest that current behavior management efforts are not fully addressing underlying causes, and additional structured, preventative supports are needed school-wide.	manage and respond to challenging behaviors remains a priority. Staff across roles would benefit from continued professional development in proactive strategies, de-escalation techniques, and effective interventions to support student needs. Strengthening our approach to restorative practices is also essential. Currently, structures for student reflection, repair, and growth following incidents are limited, which may result in repeated behaviors and impact relationships. Developing clear, supportive systems for follow-up will help foster a stronger, more connected school community.	for Behavior Response and De-escalation: Provide targeted professional learning for all staff in de-escalation techniques, consistent intervention protocols, and positive behavior reinforcement. Implement Structured Restorative Follow-Up Systems: Develop school wide systems for restorative conversations, reflection, and accountability to help students repair harm, rebuild trust, and reduce repeat incidents.

Priority 2

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for physical and emotional safety** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Physical and Emotional Safety

- Develop safety infrastructure and systems, including staff training, collaboration with external partners, and implementation of safety and security best practices
- Expand social emotional and mental health supports via restorative justice, Project Pivot, screeners, and other district or school-based initiatives (as applicable)
- Expand implementation of physical and mental wellness supports, including Physical and Health Education that meets NYSED requirements and related initiatives
- Improve supports and outcomes for socially vulnerable student populations (Students in Temporary Housing, Students in Foster Care)

Priority 2 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	78% of student feel safe & 77% of students feel supported by their teachers	By June 2026, physical and mental wellness for all students will improve, as measured by a 15-point increase in the percentage of students reporting that they feel safe at school, from 78% to 93%, and a 15-point increase in the percentage of students reporting that they feel supported by their teachers, from 77% to 92%, per the 7 Mindsets School Climate Student Assessment data.
All Students	70%	By June 2026, student safety will improve for all students, as measured by a 30-point decrease in Level 3 and 4 incidents, from 70% to 40%, per OORS data.

Priority 2 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 2 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Build a school wide foundation of proactive and restorative practices by strengthening Responsive Classroom implementation, SEL routines, and staff capacity for behavior support.

Root Cause Addressed:

Root Causes Identified for Growth and Improvement:

-Opportunities to strengthen the consistent implementation of Responsive Classroom practices across all grade levels

-Need to deepen Tier 1 SEL supports, including more intentional and effective use of Morning Meetings

-Shift from reactive to more proactive behavior management strategies, particularly in high-incident areas

-Continued development of training for all staff—including aides and paraprofessionals—in de-escalation techniques and shared behavior intervention approaches

-Expansion of restorative follow-up systems to ensure students have meaningful opportunities to reflect, repair, and grow after behavioral incidents

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Conduct a baseline survey for students and staff to assess current RC implementation across classrooms
Facilitate staff-wide training on Responsive Classroom and Tier 1 SEL integration
Establish consistent Morning Meeting expectations school wide, with aligned weekly themes.
Develop simple, school wide restorative follow-up tools, such as student reflection sheets and conversation guides.
Monitor incident data monthly on OORS and Alert From Submissions during Crisis Team and Safety Team to identify trends and adjust supports.
Offer coaching and peer support for classrooms needing additional behavior systems support

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To monitor the implementation of key strategies and action steps, we will establish structures for progress monitoring. First, regular classroom observations will be conducted by administration, SEL Team and instructional coaches to assess whether Responsive Classroom practices are being effectively implemented. These observations will be paired with teacher self-assessments and feedback sessions to identify areas of strength and opportunities for growth.

We will also track teacher participation in professional development, ensuring that all educators complete required

training and attend follow-up coaching sessions. Data from post-training surveys and feedback will be collected to measure the effectiveness of PD and identify any emerging needs.

Additionally, we will use student surveys conducted twice per year to gather direct feedback on how safe and supported students feel in their classrooms. This data, alongside school climate surveys, will be analyzed to gauge the impact of Responsive Classroom practices on student engagement, behavior, and overall well-being.

Finally, student achievement data (such as academic performance, attendance rates, and behavioral incident reports) will be regularly reviewed to evaluate whether the implementation of Responsive Classroom practices is having a positive impact on student learning and achievement. This comprehensive monitoring approach will allow us to adjust the strategy as needed, ensuring that both teaching practices and student outcomes continue to improve over time.

To ensure effective implementation of our key strategy, we will use a combination of observational data, incident trends analysis, and stakeholder feedback to monitor progress and adjust supports in real time.

Primary Monitoring Structures:

Crisis and Safety Team Meetings: Monthly review of behavior data, student and teacher feedback, and implementation checkpoints to assess progress and make informed decisions.

Classroom Walkthroughs: Conducted by administrators, SEL Team and coaches using a look-for tool aligned to Responsive Classroom and Tier 1 SEL practices (e.g., Morning Meeting routines, behavior norms, proactive redirection).

Behavior Incident Data: Monthly OORS and Alert Form reviews of trends (e.g., location, behavior type, repeat incidents) to assess the impact of behavior supports and identify priority areas.

Restorative Practices Tracking: Monitoring use of reflection sheets, follow-up conversations, and class community meetings to ensure restorative systems are being used consistently.

Student Climate Surveys: Fall and spring school-based surveys to measure changes in students' sense of emotional safety, belonging, and support from adults.

Priority 2 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/26/2026	Responsive Classroom and SEL Workshops: Workshops will be conducted led by the SEL Team, Administration, ILT, and Parent Coordinator to introduce families to SEL practices, and anti-bullying initiatives, promoting consistency between home and school. Restorative Practices Sessions: Information sessions explaining how restorative approaches support student reflection, repair, and rebuilding trust, enabling families to understand and reinforce these practices at home. Collaborative Communication: Partner with the PTA and CBO to co-plan events, share monthly SEL and behavior themes via newsletters and the Elm Tree App, and gather ongoing family feedback to strengthen school climate.	SEL Team, PTA, CBO, NYPD

Priority 2 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

All staff will be an integral part of the work

Instructional Resources

Responsive professional learning classroom supports and coaching materials (book study materials, slide decks, etc)

Schedule Adjustments

Programming based on dates for professional learning.

Other Resources Needed

N/A

Section 5: Priority 3 – All students have a high-quality academic experience

Priority 3 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
By the end of the 2024–2025 school year, i-Ready Math data revealed that 37% of K–5 students scored at or above benchmark in math. While Kindergarten demonstrated relatively strong performance at 53%, proficiency dropped sharply in Grades 1 (23%) and 2 (13%), indicating significant challenges in early foundational math skills. Grades 3 through 5 showed	Math instruction in Grades 1 and 2 is not always developmentally appropriate or well-aligned with Kindergarten and upper grades. The math curriculum and teaching practices are not consistent across all K–5 grades, causing gaps in	Strengthen Tier 1 math instruction in Grades 1 and 2 to be developmentally appropriate, standards-aligned, and focused on foundational skills critical for later success. Build or enhance intervention systems for early identification and targeted support of students with foundational gaps, using both i-Ready and MAP Growth data. Ensure vertical alignment and coherence of math curriculum and instructional practices across all K–5 grades through regular collaborative planning.

moderate improvement, with 41%–48% of students meeting benchmarks, suggesting that intervention and instructional strategies may be more effective in the upper grades. Additionally, district-mandated MAP Growth data indicates similar trends, reinforcing the need to focus on early grades to build a solid math foundation.	student learning. Early interventions for students struggling with math in Grades 1 and 2 are not strong or timely enough. Teachers need more support and training to help students who have different language needs access math content and vocabulary.	Integrate explicit language supports and scaffolds into math instruction and interventions to support all learners' comprehension, engagement, and academic language acquisition. Provide ongoing professional development and coaching for teachers to deepen understanding of math content, developmental progressions, and strategies to support linguistically diverse students.

Priority 3

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for high-quality academics** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Academics

- Strengthen mathematics instruction, including via screener administration and Multi-Tiered Systems of Support (MTSS)
- Embed culturally responsive-sustaining texts and content (e.g., Hidden Voices, Black Studies Curriculum, etc.) in history, literature, and arts curricula to deepen civic engagement, enhance understanding of diverse cultures and provide relevant and affirming interventions in literacy development
- Ensure multilingual language learners (MLLs) are served and progressing in appropriate settings; expand bilingual programming and professional learning for educators who support MLLs
- Ensure students with disabilities are served and progressing in the least restrictive and most appropriate settings; improve delivery of mandated services and expand specialized programs
- Ensure that Students in Temporary Housing (STH) and Students in Foster Care access opportunities to receive tutoring and are purposefully engaged in new programs developed in the school
- Elevate health and physical education and activities for a reimagined and engaged student academic experience promoting social, emotional, and physical wellness and wellbeing
- Ensure teachers attend Physical Education and Health Education professional learning in order to provide quality instruction to be able to support and address the physical, mental, social, and emotional needs of the whole child in a safe and supportive learning environment
- Strengthen Early Childhood Education program utilization, quality, and ability to serve all students
- Elevate arts and civics for a reimagined and more engaged student academic experience
- Increase school staff diversity and retention
- Create new programs/schools in response to community need; expand high quality seats

Priority 3 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	26%	By June 2026, math performance for all students will improve, as measured by a 15-point increase, from 50% to 65%, in the percentage of K–5 students scoring at or above the 40th percentile on the MAP Growth Math assessment.

Priority 3 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 3 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Strengthen and vertically align Tier 1 math instruction in Grades K–5, with a focus on developmentally appropriate practice in Grades 1–2 and integration of language supports. We are refining our key strategies based on walkthrough feedback from our district math coach and Generation Ready. Classroom visits showed that while students were engaging with math tasks, there were limited opportunities for structured math discourse. As a result, we adjusted our action steps to more explicitly prioritize student talk: teachers are now planning specific discourse moves (turn-and-talks, sentence stems, math vocabulary prompts, and share-outs) before, during, and after lessons so that students regularly explain their reasoning and use precise mathematical language.

Root Cause Addressed:

This plan addresses several key root causes impacting math achievement in Grades K–5. Regular vertical planning strengthens alignment and coherence of math instruction across grade levels, directly addressing inconsistencies in curriculum and teaching practices. Implementing flexible, data-driven intervention groups in Grades 1 and 2 ensures timely support for students with foundational skill gaps. Embedding language supports and scaffolds into math instruction helps teachers meet the needs of linguistically diverse learners and improves access to academic vocabulary. Finally, ongoing monitoring through walkthroughs, data analysis, and collaborative inquiry meetings promotes developmentally appropriate instruction in early grades and continuous refinement of practices, ensuring all students are supported in mastering math content and language.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Instructional Alignment & Professional Learning: Use professional learning time to unpack priority standards in early

grades and vertically align math skills and progressions across K–5. Facilitate regular vertical planning sessions for K–5 teachers to share best practices and ensure instructional coherence.
Targeted Intervention Systems: Implement flexible intervention groups in Grades 1 and 2 based on i-Ready diagnostics and MAP Growth data to close foundational gaps early. Monitor student progress frequently and adjust interventions as needed using multiple data sources.
Language Supports and Scaffolds: Embed language development strategies and academic vocabulary instruction within math lessons and intervention sessions to meet diverse learner needs. Provide teachers with resources and coaching on integrating language scaffolds effectively.
Ongoing Monitoring and Feedback: Conduct monthly walkthroughs and observations focused on foundational math instruction and language supports, providing actionable feedback. Use student work samples, observation data, and assessment trends to inform coaching and professional development. Maintain weekly inquiry team meetings to analyze data and collaboratively refine instruction and support.
Explicitly prioritizing student talk: teachers will receive professional learning on discourse moves (turn-and-talks, sentence stems, math vocabulary prompts, and share-outs) before, during, and after lessons so that students regularly explain their reasoning and use precise mathematical language.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

-Instructional walkthroughs and targeted observations will document fidelity to foundational math practices and language scaffolding, particularly in Grades 1–2.

-Participation logs and reflections will track teacher engagement in professional development focused on foundational math and language supports.

-i-Ready and MAP Growth assessments will serve as ongoing benchmarks to evaluate student growth and inform instructional adjustments.
Inquiry team meetings will support continuous data analysis, collaborative problem solving, and curriculum alignment efforts.

Priority 3 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/16/2025	06/12/2026	To support and engage families, especially those of Multilingual Learners (MLLs), including foster and birth parents, we will implement a range of culturally responsive strategies that promote partnership, transparency, and shared responsibility in student learning. We will host workshops to explain how to read and interpret data from tools like MAP Growth and i-Ready, and to share strategies for supporting academic language development in math. Community partnerships will be leveraged to provide families with access to technology, translation services, and other resources that strengthen home-school connections. Finally, we will create structured opportunities, such as focus groups or listening sessions, for families to share feedback on instructional practices and school climate, ensuring their voices guide continuous improvement efforts.	CBO, PTA, PC, ENL Coordinator and IEP Teacher, District Instructional Math

Priority 3 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Instructional coaches, administration, MTSS providers, and ENL/SPED support

Instructional Resources

Priority standards, vertical skill maps, pacing maps/guides, PD modules, model lesson videos, i-Ready/MAP reports, data tracking tools, and targeted intervention plans for early foundational skills, math instructional resources (vocabulary lists, language scaffolds, bilingual resources), observation checklists, coaching feedback forms

Schedule Adjustments

Programming needs based on professional learning schedules and Inquiry Team Meetings

Other Resources Needed

N/A

Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security

Priority 4 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
During the 2024–2025 school year,	Limited teacher training and familiarity with Civics for All program options-Teachers may not have received dedicated professional learning or planning time to fully understand Project Soapbox, Participatory Budgeting, or other available Civics for All components,	

all K–5 students participated one Civics for All program (Participatory Budgeting) by engaging in the schoolwide voting process. However, we were not involved in an additional Civics for All programs.	limiting implementation to a single program. Insufficient structures to support multi-program implementation- The school is in the process of developing a coordinated calendar, leadership point person, or cross-grade structure to manage multiple Civics for All opportunities. Competing academic and instructional priorities in upper grades- The 5th grade team focused heavily on core academic areas (ELA, math, state testing alignment), resulting in limited time for extended civics-based units that require multiple lessons, planning cycles, and showcase events. Lack of vertically aligned civics instruction across earlier grades-Because earlier grade levels did not engage in foundational civics or advocacy experiences, 5th grade took on the full burden of implementation rather than building upon prior learning. We in development of building more community partnerships and external supports-Without additional partnerships (e.g., financial literacy programs, community organizations, or outside facilitators), the school relied on a single implementation pathway that was manageable with existing resources.	

Priority 4

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for **college and career readiness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for College and Career Readiness

- Expand career pathways and work-based learning, opportunities for early college credit and industry credentials, and college/career advising and awareness, including via the Career Readiness Modern Youth Apprenticeship and FutureReadyNYC (as applicable)
- Schools serving students in early childhood, elementary, and middle school settings should consider how they expose students to and prepare them for advanced (Regents-level) coursework, Specialized High School Admission Test (SHSAT) preparation, college awareness, career studies, etc.
- Integrate historical and contemporary contributions of culturally diverse professionals, scholars, and entrepreneurs into career readiness programs, ensuring students see diverse pathways to success
- Incorporate lessons on wealth-building strategies, cooperative economics, and financial independence to equip students with tools for long-term economic security
- Ensure the implementation of specialized support programs tailored for Students in Temporary Housing and/or Foster Care, addressing their unique educational needs and challenges

Priority 4 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	0%	By June 2026, Elm Tree Elementary will participate in at least two Civics for All programs (Project Soapbox and Participatory Budgeting), supporting the district-wide increase in participation from 47.5% to 72.5%, as measured by the District Civics for All Engagement Tracker. In addition, 100% of 4th- and 5th-grade students will engage in a financial literacy program with Bethpage Federal Bank that promotes informed decision-making and future planning.

Priority 4 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

0 out of 2 grades participating (4th and 5th Grade)

Enter Period 3: End of Year (EOY) Progress Target:

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

Priority 4 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Select 4th-grade classes will implement Project Soapbox, and all K–5 students will participate in Participatory Budgeting through Civics for All. In addition, the Bethpage Federal Bank financial literacy program will be integrated into 4th and 5th grade instruction so that students build civic voice, budgeting skills, and future-planning habits that support informed decision-making.

Root Cause Addressed:

Students have limited structured opportunities to engage in authentic civic experiences (public speaking, advocacy, decision-making about shared resources).

Financial literacy is not consistently embedded in 4th- and 5th-grade curriculum, leading to gaps in students' understanding of budgeting, saving, and planning.

Teachers need clear programs, resources, and dedicated time to implement Civics for All and financial literacy with fidelity.

Families and students may be unaware of how civics and financial literacy connect to long-term economic security and future planning.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Provide professional learning for key staff members on Civics for All components (Project Soapbox, Participatory

Budgeting) and plan grade-appropriate implementation.
Launch one Civics for All component by mid-year (e.g., Project Soapbox) with structured coaching, model lessons, and materials for key staff
Integrate financial literacy with Bethpage Federal Bank into 4th-5th-grade classrooms
Plan and implement a second Civics for All component before June
Track student participation and teacher implementation using a schoolwide attendance; provide support to classes that need additional guidance.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To monitor implementation of our Civics for All and financial literacy work, we will use monthly Civics for All District meetings, grade team meetings, and check-ins with our Civics for All point person and Bethpage Federal Bank. Classroom walkthroughs and observations in 4th and 5th grade will be used to look for evidence of civics instruction, student discourse, and financial literacy learning.

We will collect participation logs for Project Soapbox and Participatory Budgeting, including confirmation that all K–5 students vote in PB. For financial literacy, we will track completion records to ensure 100% of 4th and 5th grade students participate in the Bethpage lessons. Teacher reflections, student work samples (speeches, proposals, budgeting tasks), and any student surveys will help us understand impact on student skills and confidence.

Finally, data from the District Civics for All Engagement Tracker and any family engagement logs from showcases or events will be reviewed to determine if we are on track to fully implement both programs and to gauge how these initiatives are supporting instruction, student learning, and long-term decision-making skills.

Priority 4 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/26/2026	We will include families by inviting them to participate in key civics events such as the Project Soapbox showcase and the schoolwide Participatory Budgeting vote announcement. Families will receive regular updates explaining the purpose of Civics for All programs, how students are building civic voice and budgeting skills, and how they can support these conversations at home. For financial literacy, Bethpage Federal Bank will provide family resources and optional workshops to help extend learning beyond the classroom. All communication will be shared in multiple languages to ensure full family access and engagement.	Civics for All (NYC DOE) Participatory Budgeting (NYC DOE) Bethpage Federal Bank CCNY

Priority 4 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Civics for All Point Person to coordinate Project Soapbox and Participatory Budgeting. 4th and 5th grade teachers to implement civics and financial literacy lessons. School leadership (AP/ILT) to monitor progress, provide support, and schedule events. Bethpage Federal Bank financial literacy facilitators.

Instructional Resources

Civics for All Project Soapbox Curriculum and Participatory Budgeting Toolkit (ballots, lesson guides, voting materials), Bethpage Federal Bank Financial Literacy Curriculum (student workbooks, digital lessons)

Schedule Adjustments

School wide programming

Other Resources Needed

N/A

Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

Priority 5 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Analysis of our current family	Communication Gaps: Communication methods may prevent some families,	Strengthen Communication and Outreach Systems: Develop a multi-channel

engagement data shows a need to strengthen participation in academic workshops, events, and feedback opportunities. At the beginning of the year, our average attendance was 56 parents per workshop, but this number declined to 40 parents by midyear. This drop highlights challenges with maintaining consistent engagement and suggests the need for more accessible, inclusive, and well-communicated opportunities. We ended the year at an average of 56 parents per workshop.	particularly multilingual and historically underrepresented subgroups, from receiving or engaging with important academic information, leading to lower participation in workshops and fewer opportunities to support student learning at home. Accessibility and Flexibility: Workshops scheduled at fixed times and locations without virtual or alternative formats may create barriers for families with work obligations, childcare needs, or transportation challenges. These barriers disproportionately affect families of students who are already performing below benchmarks. Disconnect Between Family Engagement and Student Outcomes: Families may not see a clear link between attending school events and their child's academic success. Without explicit connections to student learning goals and actionable strategies, participation declines, limiting the impact of family engagement, especially on subgroup achievement.	communication plan (text, Edlio, teacher outreach, social media, in-person reminders) to ensure families receive timely, clear, and repeated messaging about events and opportunities. Increase Flexibility and Accessibility of Events: Offer workshops at varied times, provide virtual/recorded options, and consider childcare or student-led components to make participation more convenient and inclusive for all families. Clarify the Purpose and Impact of Family Engagement: Clearly communicate how each event connects to student learning and achievement, using real examples and success stories to show families the value of their participation. Enhance Family Engagement Through Welcoming and Incentive-Based Approaches: Create a warm, inviting atmosphere at events by providing snacks or meals, offering raffles or giveaways, and celebrating family contributions, helping families feel valued, connected, and motivated to participate.

Priority 5

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for parent, family, community and system responsiveness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Focus Areas for System Responsiveness to Parents, Families and Communities

- Engage more deeply with families to understand their needs and plan new, high-quality programs
- Build community trust and bolster engagement, including via improved language access and increased family engagement and participation
- Implement the newly updated NYCPS School Wellness Policy, which provides a framework for all members of the school community, including families and students, to come together and assess and coordinate wellness efforts for their community
- Implement and lead strategies that support community involvement and increase Minority and Women Owned Business Enterprises (MWBE) utilization

Priority 5 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Parents of All Students	56 parents	By June, 2026, the percentage of family participation in academic workshops, events, and feedback opportunities will Increase from 48 to 75 parents as measured by Sign-in sheets, parent survey responses, participation tracking through the Edlio app, and teacher outreach logs.

Priority 5 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 5 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Establish and implement school-wide Family Engagement Guidelines that are co-created with families to ensure they are purposeful, aligned to priority needs, and designed to be accessible, inclusive, and welcoming. By actively involving families in the development of these guidelines, the school will give families a voice in the process, ensuring their needs and perspectives are reflected.

Root Cause Addressed:

The implementation of Family Engagement Guidelines directly addresses several key root causes of inconsistent participation. By establishing a clear and consistent process for planning events, we ensure that all family engagement opportunities are intentionally aligned to school priorities and student learning outcomes, addressing the gap in perceived relevance. Multi-channel outreach strategies and flexible scheduling options respond to barriers such as timing conflicts and inconsistent communication. Additionally, incorporating welcoming elements like snacks, raffles, and child-friendly components helps foster a more inclusive and inviting environment, encouraging broader and more sustained family participation.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Family Input for Co-Creating Family Engagement Guidelines: Send out a survey to all families to gather input on the types of events they find most valuable, accessible, and aligned with their needs. The survey will also be shared and discussed at the first PTA meeting, giving families an additional opportunity to provide feedback in person. The input

collected from both the survey and the meeting will help co-create the Family Engagement Guidelines and ensure that future events are inclusive, purposeful, and strengthen the school-family partnership.
Draft and Share Family Engagement Guidelines: Create a clear, staff-facing guide outlining expectations for aligning events to school priorities, ensuring accessibility, and incorporating inclusive practices.
Distribute a Standardized Planning Template: Give staff a simple form to complete for all family events, including event purpose, connection to school priorities, outreach plan, and supports provided (e.g., childcare, meals, translation).
Establish an Event Approval & Support Process: Create a system where proposed events are reviewed by a designated team (e.g., Admin, ILT or PTA Teacher Team) to ensure alignment with guidelines and provide support as needed.
Ensure Inclusive Communication & Promotion: Use multiple platforms (Edlio, text, flyers, website, social media, teacher outreach) to advertise events in families' home languages and ensure broad awareness.
Track Attendance and Gather Feedback; Collect sign-in sheets and brief post-event surveys to monitor participation and understand family needs and preferences.
Celebrate and Share Successes: Highlight successful events in staff newsletters or grade team meetings to recognize strong practices and encourage continued engagement.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To monitor the implementation of our Family Engagement Guidelines and associated action steps, we will use participation/attendance data to assess progress and impact. The primary structures for monitoring will include:

-Parent Coordinator and PTA Teacher Team Reviews: These teams will meet monthly to review event proposals, attendance data, and staff submissions using the standardized planning template. They will provide feedback and ensure events align with school priorities.

-Participation Tracking: We will collect and analyze sign-in sheets to monitor increases in family attendance across events over time, aiming for a 25% increase by June 2026.

-Family Feedback Surveys: Short, post-event surveys will be distributed to families in their home languages to capture their experiences, satisfaction, and suggestions for improvement. This will inform adjustments to event format and content.

-Midyear and End-of-Year Data Reviews: Parent Coordinator and PTA Teacher Team Reviews will conduct two formal reviews of all collected data to assess whether family engagement efforts are leading to stronger partnerships, more informed families, and an increased sense of connection to student learning.

Priority 5 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged

Section 5: Attendance/Chronic Absenteeism

Attendance/Chronic Absenteeism Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
As we reflect on the attendance data from the 2024–2025 school year, the overall student attendance rate held steady at 93%, showing no improvement from the previous year. Attendance was strongest at the start of the year, with a high of	Family Circumstances: Some students may face challenges at home, including shifting family dynamics, caregiver responsibilities, or crisis-related stressors. Building stronger school-home partnerships and offering supportive services can help families navigate these difficulties. School Experience Factors: Students may be more engaged when they feel safe, supported, and connected to meaningful learning. Strengthening classroom engagement and school climate can play a key role in improving attendance. Transportation Barriers: Limited	SEL and mental health support for students coping with family crises (e.g., counseling, check-ins, trauma-informed practices) Targeted Midyear Attendance Campaigns: Implement proactive attendance initiatives during historically low-attendance months (winter) to sustain strong attendance throughout the school year. Enhanced Family Communication Systems: Strengthen two-way

94.6% in September 2024. However, it declined steadily into the winter months, reaching its lowest point in January 2025 at 88.6%. While attendance began to recover in the spring, it did not return to the early-year levels, suggesting challenges with sustaining strong attendance throughout the full academic year.	access to reliable transportation may impact student arrival. Exploring community partnerships or alternative solutions could improve access and reduce absenteeism. Family Communication and Outreach: Continued efforts to enhance outreach strategies, ensuring they are clear, consistent, and culturally responsive, can strengthen trust and increase family collaboration around attendance.	communication with families to quickly address barriers such as transportation or recurring absences. Student Engagement and Incentives: Develop strategies to boost daily attendance motivation, including recognition programs and classroom-based attendance challenges. Data-Driven Monitoring: Utilize real-time attendance dashboards to identify trends and trigger timely interventions for students with emerging attendance concerns. -Referral pathways to community-based services (housing, DV support, food security)
As we reflect on the chronic absenteeism data from the 2024–2025 school year, approximately 21% of our student body was identified as chronically absent as of June 2025, representing a 6% decrease from the previous year. Chronic absenteeism was most prevalent in the early grades, with Pre-K through 2nd grade averaging 27% and Pre-K alone reaching the highest rate at 31%. In contrast, students in grades 3 through 5 had significantly lower rates, averaging 16%, with 3rd grade showing the lowest rate at 15%. These patterns indicate that chronic absenteeism is more concentrated in the early years	Early Grade Attendance Habits: Younger students (Pre-K–2) show the highest rates of absenteeism (27–31%), suggesting that families of early learners may need more support in establishing consistent attendance routines. Family-Related Barriers: Absences are often linked to family challenges such as childcare issues, transportation difficulties, and inconsistent morning routines that disproportionately affect families with younger children. Health-Related Absences: Illness and lack of access to timely healthcare contribute to extended absences, particularly in Pre-K and Kindergarten. Limited Family Awareness: Some parents and caregivers may not fully understand the long-term academic and social impact of chronic absenteeism in the early grades. Family Communication and Outreach: Continued efforts to enhance outreach strategies, ensuring they are clear, consistent, and culturally responsive, can strengthen trust and increase family collaboration around attendance. Student Engagement Factors: For some students, especially in early grades, anxiety or difficulty adjusting to school routines may lead to frequent absences without proactive support.	Early-Grade Attendance Support: Establish family orientation sessions and routines-focused coaching for Pre-K–2 families to build consistent school attendance habits. Comprehensive Health and Family Support: Partner with school-based health services and CBOs to provide resources addressing illness, healthcare access, and childcare challenges that lead to chronic absences. Data-Driven Monitoring: Utilize real-time attendance dashboards to identify trends and trigger timely interventions for students with emerging attendance concerns. Enhanced Family Communication Systems: Strengthen two-way communication with families to quickly address barriers such as transportation or recurring absences. Student Engagement and Incentives: Develop strategies to boost daily attendance motivation, including recognition programs and classroom-based attendance challenges.

Attendance/Chronic Absenteeism

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal aligned to our systemwide focus on improving attendance and **reducing chronic absenteeism**.

Systemwide Focus Area for Attendance/Chronic Absenteeism: Develop and implement strengthened practices to improve attendance, combat chronic absenteeism and center equity. Note: For ESSA accountability purposes, NYSED will replace the Chronic Absenteeism indicator with the Attendance indicator, beginning in the 2025-26 school year. Learn more about the new Attendance indicator by reviewing this Fact Sheet.

Attendance/Chronic Absenteeism SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	93 percent	By June 2026, Elm Tree Elementary will increase the average daily student attendance rate from 93% to 95%, as measured by ATS. This improvement will result from implementing monthly attendance incentives, consistent communication with families, and a schoolwide campaign emphasizing the importance of daily attendance.
All Students	20%	By June 2026, Elm Tree Elementary will reduce the percentage of students identified as chronically absent from 20% to 15%, as measured by ATS and New Visions data. This will be achieved through targeted family outreach, consistent attendance interventions, and increased parent engagement opportunities each month.

Attendance/Chronic Absenteeism Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Attendance/Chronic Absenteeism Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Attendance/Chronic Absenteeism Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Implement a Targeted Attendance and Family Engagement Initiative that combines proactive interventions, early-grade attendance support, and consistent family partnerships to reduce chronic absenteeism and increase overall student attendance.

Proactive intervention is a key strategy that enables the school to intervene early before attendance issues become long-term patterns. By regularly monitoring attendance data and setting clear thresholds (e.g., students approaching 10% absences), staff can flag students who are at risk and begin supportive outreach. This early action allows the school to engage families, identify underlying barriers, and implement targeted interventions such as check-ins, mentoring, or schedule adjustments.

Root Cause Addressed:

This strategy addresses key factors contributing to attendance challenges, including seasonal dips during winter months, inconsistent early interventions for at-risk students, and barriers faced by families such as healthcare, transportation, and childcare needs. Chronic absenteeism is particularly high in early grades where strong attendance habits are not yet established, and communication with families has not always been timely or consistent. By targeting these root causes, the strategy aims to build early attendance routines, strengthen outreach, and provide timely, family-centered support.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Family Attendance Workshops and Early-Grade Support: Beginning in October, the Attendance Team, ILT, PTA, and

parent volunteers will co-host monthly workshops for all families, with a targeted focus on building strong attendance habits in Pre-K–2. Sessions will feature interactive discussions, at-home attendance strategies, and opportunities for families to co-create solutions with staff. Families will receive translated morning routine toolkits, ongoing follow-up support from the Parent Coordinator and teachers, and recognition during each session for improved attendance.
Implement Real-Time Attendance Monitoring and Rapid Response: Attendance data from ATS, Insight and New Visions will be reviewed to flag students with 5+ absences. Administration will meet bi-weekly to identify attendance trends within their grade levels and come up with action plans to share with Attendance team members monthly. Staff will be supported in immediately contacting families through calls, texts, or home visits, and each at-risk student will be paired with an Attendance Mentor for weekly check-ins.
Attendance Incentives: We will continue implementing a variety of initiatives with a strong focus on addressing winter attendance challenges. Classrooms demonstrating the greatest improvement will be recognized through family celebration events and school-wide acknowledgments. Monthly newsletters and Elm Tree App updates will provide attendance tips and highlight student and class success stories to encourage consistent attendance.
Provide Health and Family Resource Supports: We will collaborate with school-based health providers and CBOs to connect families with medical, childcare, and transportation resources. Family resource fairs hosted by our CBO will help address barriers that frequently lead to absences.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

To ensure consistent progress toward reducing chronic absenteeism and improving overall student attendance, Elm Tree Elementary will implement a structured, data-driven monitoring system aligned to our key strategies and action steps.

Primary Monitoring Structures:

-Attendance Team Meetings: Monthly meetings with the Attendance Team to review ATS, Insight and New Visions attendance data, identify at-risk students, and monitor intervention follow-through.

-Family Engagement Reviews: Workshops and attendance events will include feedback forms and attendance logs to track family participation and emerging needs.

-Biweekly Administration Attendance Reviews: School leaders will analyze attendance trends, chronic absenteeism rates, and progress toward goals to adjust strategies as needed. Administration will support teachers in outreach efforts.

Data and Evidence Collected:

-Daily and Weekly Attendance Reports: Ongoing monitoring of overall attendance percentages and identification of students with 5+ absences.

Chronic Absenteeism Tracking: Monthly reports from ATS and New Visions showing the percentage of students classified as chronically absent (goal: reduction from 20% to 15%).

Family Engagement Data: Attendance at workshops, resource fairs, and conferences, along with translated survey responses measuring family understanding of attendance expectations.

Intervention Documentation: Logs of attendance mentor check-ins, home visits, and parent meetings, reviewed monthly by attendance team for follow-up actions.

Incentive Participation: Records of student and class recognition events and improvements during seasonal attendance campaigns.

Impact on Instruction and Student Learning:

-Improved attendance will result in increased instructional time for students, particularly in early grades where chronic absenteeism is highest.

-Progress will be measured by the correlation between improved attendance and growth in academic benchmarks, including MAP Growth math and reading assessments.

-Attendance data will be reviewed alongside formative assessments and classroom observation data to ensure students benefiting from increased instructional time demonstrate measurable gains in learning and engagement.

Attendance/Chronic Absenteeism Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/25/2026	To strengthen communication and collaboration with families around the importance of consistent attendance, the school will continue hosting attendance workshops and incentive events, with a particular focus on supporting families of Pre-K–2 students. To maintain ongoing engagement, the school will share monthly attendance updates through text messages, flyers, and newsletters, and provide families with “At-Home Attendance Tips” handouts translated into multiple languages. Additionally, these workshops will celebrate and recognize improvements in student attendance through family shout-outs and certificates, reinforcing positive attendance habits and fostering a strong sense of partnership and shared responsibility between the school and families.	Child Center of New York

Attendance/Chronic Absenteeism Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Human Resources: The school will leverage its Attendance Team, which includes the principal, assistant principal, parent coordinator, SEL Team (Social Worker and Guidance Counselors), CBO, Attendance Teacher and support from the testing coordinator/data specialist to help lead the implementation and monitoring of attendance interventions. Classroom teachers will play a key role in maintaining proactive communication with families and recognizing student progress. School aides will support daily check-ins and help track attendance trends.Parent volunteers and the PTA will be actively involved in these initiatives by assisting with outreach, helping facilitate workshops, organizing family attendance incentive events, and supporting recognition celebrations. This partnership will further strengthen trust and foster a shared commitment between the school and families to improve student attendance.

Instructional Resources

To support the implementation of attendance strategies, the school will utilize the New Visions Attendance Portal and Chronic Absenteeism reports to monitor trends and identify at-risk students. A digital attendance intervention tracker, such as Google Sheets, will be used to document outreach and intervention efforts. Translated family communication materials, provided through NYC DOE Language Access Services, will help ensure accessibility for all families. Additionally, SEL and family engagement resources focused on routine-building and school readiness will be incorporated to reinforce the importance of consistent attendance at home.

Schedule Adjustments

To support implementation, weekly Crisis Team and monthly Attendance Team huddles will be added to the staff calendar to ensure consistent monitoring and coordination. Dedicated weekly time will be reserved for parent outreach and recognition efforts, supported by the Attendance Secretary and School Aide. Additionally, flexible check-in times will be built into the school day to provide targeted support for at-risk students and strengthen daily attendance habits.

Other Resources Needed

N/A

Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities

High Quality Inclusive & Accessible Learning for Students with Disabilities Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs (NYCPS Systemwide Needs for all schools noted below.)
According to the SESIS Reporting – Related Services Provider Encounter Summary Report for the 2024–2025 school year, there were 579 total	The analysis the SESIS Reporting – Related Services Provider Encounter Summary Report for the 2024–2025 school year	IEP Development

IEP service mandates assigned to students. On average, 77% of these mandated services were delivered and documented, leaving 23% of services incomplete. This highlights a meaningful gap in consistent service implementation. A closer look at individual service areas shows variation in delivery rates: Counseling: Of 72 mandates, 85% were delivered, demonstrating strong consistency in service provision. Occupational Therapy: Of 141 mandates, 82% were delivered, the highest completion rate among larger service areas. Speech Services: Of 352 mandates, 75% were delivered. Physical Therapy: Of 6 mandates, 52% were provided. Paraprofessional Services: Of 7 required services, 35% were provided. SETSS: Of the 1 student receiving SETSS services, only 34% of mandates were completed. Overall, while the system achieved a 77% completion rate, the data reveal uneven service delivery across providers, with particular concerns in SETSS, paraprofessional services, and physical therapy.	suggests that service delivery gaps were influenced by staffing, student attendance, and continuity challenges: Counseling (85%) – High delivery supported by two full-time counselors and one social worker. Occupational Therapy (82%) – Strong completion due to a full-time OT and consistent support from outside OT agencies. Speech Services (75%) – Staffing changes, including RSAs, affected consistency. Physical Therapy (52%) – Limited staff and student attendance impacted scheduling and delivery. Paraprofessional Services (35%) – Substitute paras disrupted continuity, reducing IEP fulfillment. SETSS (34%) – Low rate due to the single student attending another school last year. Summary: Service delivery was primarily affected by staffing availability, student attendance, and continuity challenges with substitutes and outside providers.	and Fidelity of Implementation
In the 2024–2025 school year, District 24 IEP Review data shows that although parent and student voice appeared in 100% of IEPs, the depth of that input varied. For the 24-25 school year, only 30% of IEPs contained quotes and statements by the student. 90% of IEPs included statements by the student that highlight relevant connections with prior experience. Only 10% of IEPs include statements describing the student's vision of success for themselves.	Opportunity to incorporate student voice by allowing them to articulate their thoughts and participate in discussions about their own vision for themselves.	Transition Planning and Compliance
Data from the Elm Tree Elementary Referral Sheet 2024–2025 indicates that 24 students were referred and provided with an IEP. Of these, 19 were male students: 5 in kindergarten, 5 in first grade, and 5 in second grade.	There is an opportunity to promote equity in identification by consistently implementing and monitoring targeted supports (Tier 2 and Tier 3 interventions) for male students in grades K–2 before initiating the referral process, ensuring all students have access to appropriate early interventions.	Referral Process and Equity
OORS data from the 2024–2025 school year indicates that 36% of incidents reported to administration involved students with IEPs, highlighting an opportunity to provide targeted behavioral and social-emotional supports to better meet their needs.	Students with IEPs are experiencing higher rates of behavioral incidents because existing supports are not sufficiently individualized or targeted to their social-emotional and behavioral needs. Staff may lack consistent training, resources, or strategies to proactively support these	Equity in School Discipline

	students, leading to increased administrative referrals.	

High Quality Inclusive & Accessible Learning for Students with Disabilities

Directions: After conducting a comprehensive needs assessment by analyzing school data trends including IEP Review Surveys; exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop outcome-focused SMART goals for identified priority need(s) and the relevant systemwide focus areas for **High Quality Inclusive & Accessible Learning for Students with Disabilities** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Inclusive and Accessible Learning for Students with Disabilities:

- IEP Development and Implementation
- Transition Planning and Compliance
- Referral Process and Equity
- Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Students with Disabilities (SWD)	0% service delivery rate (reset for new goal cycle) compared to 77% where we ended 24-25 school year	By June 2026, Elm Tree Elementary will increase SESIS service delivery from 77% to 90%, a 13-percentage-point growth, with all service areas performing at or above 80%, ensuring that all mandated IEP services are delivered and accurately documented.

High Quality Inclusive & Accessible Learning for Students with Disabilities Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

High Quality Inclusive & Accessible Learning for Students with Disabilities Action Plan

Key Strategy 1 (Required):

Implement a schoolwide SESIS service-delivery monitoring system by running weekly Encounter Attendance reports, reviewing service gaps, and meeting with related service providers to ensure timely logging of sessions. Collaborate closely with the district to secure full-time providers for high-need service areas and partner with contracted agencies to fill remaining vacancies, ensuring consistent service delivery and documentation for all mandated students.

Root Cause Addressed:

Opportunities exist to strengthen service consistency and documentation through enhanced provider communication, proactive monitoring, and strategic staffing support.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Weekly Reporting and Monitoring: Run SESIS Encounter Attendance reports every week to identify missed or unlogged services. Review report data in leadership team meetings to track progress toward service delivery goals.
Provider Communication and Accountability: Communicate with service providers to review their logs, discuss challenges, and provide guidance on accurate SESIS documentation.
Staffing and Resource Collaboration: Work with the district to secure full-time providers for high-need service areas. Partner with contracted agencies to fill any remaining service gaps.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

The school will monitor the implementation of the key strategy through structured data tracking and provider communication, using the following methods:

1. Weekly SESIS Encounter Attendance Reports:

2. Data collected: Number and percentage of services delivered and documented versus mandated services.

3.Purpose: Identify missed or unlogged sessions and monitor overall progress toward service delivery goals.

High Quality Inclusive & Accessible Learning for Students with Disabilities Family and Community Engagement

Family and Community Engagement

Directions: Indicate the multi-tiered supports (strategies & activities) that will be implemented to support and engage families (including foster parents, birth parents, and families with limited English proficiency) and plans for community collaboration in the implementation of this action plan, surrounding the four priority needs. Include:

1) a description of the school's supports and processes for students with disabilities;
2) a coherent mechanism is implemented for updating families on their child's progress towards measurable annual and post-secondary transition goals;
3) a procedure to ensure families are involved during decision-making for IEP development and implementation.

Start Date	End Date	Multi-tiered Supports to Engage Family & Community	Partners/CBOs Leveraged
09/04/2025	06/26/2026	Send home progress monitoring reports home with students with student progress reports and report cards.	N/A
09/04/2025	06/26/2026	Parent workshops on IEP process	N/A

High Quality Inclusive & Accessible Learning for Students with Disabilities Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Schools are encouraged to think critically and strategically when considering resources that can support progress towards CEP goals for students with IEPs. This includes utilizing Title I funding for at-risk speech and/or counseling services, all-staff training in supporting students with autism, sensory materials, summer institute geared at the development of executive functioning skills, and/or inclusion coaching support. Schools may also consider utilizing Title II funds to reduce the ratio of students with IEPs to typically developing peers in ICT classes.

Human Resources:

Special Education Teachers, IEP Teacher

Instructional Resources

Core Curriculum and Intervention Programs that are systematic

Schedule Adjustments

N/A

Other Resources Needed

Section 6: Multi-Tiered Systems of Support (MTSS)

Academic Support

NYCPS Multi-Tiered Systems of Support (MTSS) align with NYSED guidelines for providing Academic Intervention Services (AIS) to students who have not yet met state standards or are considered to be at-risk of not meeting state standards. The Multi-tiered Systems of Support (MTSS) framework, organizes **supports** into three tiers:

Tier 1 provides schoolwide, high-quality programming for all students, including SWDs;

Tier 2 offers data informed small-group interventions for at-promise students; and

Tier 3 delivers intensive, individualized support for students with persistent needs.

This facilitates the strategic planning and necessary resource alignment to ensure their school community appropriately and adequately serves all students well, in partnership with students and families.

MTSS identifies the academic support services to be provided and ensures that students receive Response to Intervention (RtI) and Positive Behavioral Interventions and Support (PBIS) strategies as needed. See NYSED's memo to view the criteria for determining AIS services. The Supportive Environment Framework (SEF) offers a wide range of evidence-based Tier 2 and Tier 3 interventions and supports for student social-emotional, behavioral, physical and mental wellness, with particular attention to the unique needs of students in Temporary Housing and/or Foster Care, who may face additional challenges related to school stability, trauma and access to educational resources. A culturally responsive-sustaining approach to intervention embeds culturally relevant texts and historical narratives into literacy and social studies interventions, ensuring students receive the support that reflects their identities and lived experiences, increasing engagement and achievement.

Use the charts below and a Multi-Tiered System of Support (MTSS) to match academic, social/emotional, behavioral and instructional resources with student needs to provide targeted support for all learners, especially at-risk students who experience difficulty meeting state standards, including those living in Temporary Housing and/or residing in Foster Care placements. Indicate specialized materials, technology-based tools and/or extra instruction, including Expanded Learning Time that supplement school-wide systems & supports and/or classroom level supports. Ensure that interventions address the unique social-emotional, behavioral and academic challenges faced by culturally and linguistically diverse students, as well as those impacted by housing instability and child welfare system involvement.

Directions: Complete the chart and identify Tier 2 or 3 MTSS Academic supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Academic Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Tier 2	Grades K-2 students who scored Well Below Benchmark on Phonemic Awareness measures of mClass	Heggerty, Fundations	Small Group	During School: Chippy Learning Experiences ("What I Need") Block, Literacy Block, or pull-out services	No
Tier 2	Grades K-5 who are Below Grade Level	HMH-Mentor Reading and Wrting	Small Group	During School: Chippy Learning Experiences ("What I Need") Block or Literacy Block	No
Tier 2	Grades K-5 students struggling with grade level literacy skills	iReady Lesson Groups: Activities prescribed based on online lesson data	Small Group or 1:1	During School: Chippy Learning Experiences ("What I Need") Block	Individual Work Yes, Group Work no
Tier 3	Grades K-1 students with Well Below Benchmark Reading Composite Scores (per mClass) OR students who scored Well Below Benchmark on Phonemic Awareness measures of mClass	Sound Sensible	Small Group or 1:1	During School: Core Small Group rotation during Phonics block (for Small Classes); Phonics Block pull-out, Morning Meeting, Flex Period, or Chippy Learning Experiences ("What I Need") Block	Hybrid (Digital and print components)
Tier 3	Grades 1-5 students with Well Below Benchmark Reading Composite Scores (per mclass)	SPIRE Levels 1-5	Small Group or 1:1	During School: Core Small Group rotation during Phonics block (for Small Classes); Phonics Block pull-out, Morning Meeting, Flex Period, or Chippy	Hybrid (Digital and print components)

				Learning Experiences (“What I Need”) Block	
Tier 3	Grade K	Phonics & Phonemic Awareness Double Dose: Reteach of Letter Names, Sounds,Blending, and key High Frequency Words (mirroring Core Curriculum)	Small Group	During Chippy Learning Experiences (“What I Need”) Block	No

Student Social/Emotional Support

Directions: Complete the chart and identify Tier 2 or 3 MTSS Student Social/Emotional supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Student Social/Emotional Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
At Risk Counseling	Teacher Referral	CASEL and Sanford Harmony	Small group, 1:1	During	No
Family and Mentor Support and Counseling Services	Teacher/Staff Referral	In House or Outside	Small group, 1:1	During or after school	No

Family and Community Engagement Around MTSS

Describe how the school's essential components of MTSS are shared with families.

Our school shares the essential components of MTSS with families in multiple ways to ensure transparency and collaboration. During the fall and spring family workshops, we explain how MTSS supports academic, behavioral, and social-emotional development through tiered interventions. Families are informed of the MTSS process during parent-teacher conferences, IEP/504 meetings, and Student Support Team (SST) discussions. Communication is provided in families' home languages and includes explanations of tiered supports, progress monitoring tools, and how decisions are made using data. We also use newsletters, our school website, and family-facing flyers to share updates about MTSS programming and strategies they can use at home. When students receive Tier 2 or Tier 3 interventions, families are contacted directly and invited to participate in developing support plans.

Describe how families receive updates on the progress of their child(ren) who receive Tier 2 targeted, or Tier 3 intensive interventions.

Families of students receiving Tier 2 or Tier 3 interventions receive weekly updates on their child's progress. Teachers and interventionists communicate through phone calls, emails, or home-school communication logs, depending on the family's preferred method. These updates include information on the student's intervention goals, type of support, frequency, and progress based on weekly monitoring data. All communication is delivered in the family's preferred language to ensure clarity, collaboration, and consistency in supporting the child's growth

Describe how families are involved during decision making regarding the progress of students receiving Tier 3 intensive intervention.

Families of students receiving Tier 3 intensive interventions are actively involved in decision-making through scheduled check-ins with teachers, interventionists, and support staff. These conversations occur in the family's preferred language and include updates on progress, review of intervention strategies, and discussion of any necessary adjustments. Families are invited to share insights about their child's learning and behavior at home, ask questions, and collaborate on next steps. This shared decision-making process ensures that interventions remain responsive to each student's individual needs.

Students in Temporary Housing (STH) Support

As included in your school's Office of School and Youth Development Consolidated Plan-STH Section and in accordance with the federal McKinney-Vento Homeless Assistance Act and Chancellor's Regulation A-780, schools must identify, serve, and report on students living in temporary housing (STH). All Title I and non-Title I schools receive a Title I allocation for STH students. The Students in Temporary Housing (STH) website provides guidance on STH pupils and how these funds can be used to meet their needs, as well as restrictions. For more information on acceptable uses of the mandated Title I, Part A set-aside to support your STH population, please refer to the Title I STH Funds Toolkit.

Identify the number of Students in Temporary Housing who are currently attending your school and provide a breakdown of their temporary housing status. Since the number of STH children can change regularly, schools must carefully track this number to determine whether there has been an increase in need.

Number of students in temporary housing who are:

- Doubled up (with friends or relatives because they cannot find or afford housing):
- Living in a shelter or transitional shelter:
- Living in a hotel/motel:
- Other

*Note: In keeping with established practices regarding personally identifiable information, use the letter "s" to identify a number less than five (5).

At Elm Tree Elementary, 390 students are identified as living in temporary housing, according to the New Visions Portal (August 2025).

After a careful analysis of historical demographic, attendance and achievement data for your STH population, what trends do you notice, and how can these trends inform the services and support provided for this population?

After a careful analysis of historical demographic, attendance, and achievement data for our students in temporary housing (STH), several key trends have emerged that inform our approach to services and supports. Of our 390 students identified as STH, 94 (24%) are chronically absent, pointing to barriers such as unreliable transportation, housing instability, and health-related challenges.

Academically, only 19% of STH students are meeting or exceeding grade-level expectations in reading, as measured by our most recent i-Ready ELA data, compared to 38% of the general student population. In math, just 17% of STH students are on grade level, compared to 37% of peers. These data points confirm the need for intensified academic intervention and wraparound supports.

Additionally, 274 STH students (70%) are classified as English Language Learners, and 65 students (17%) have Individualized Education Programs (IEPs), indicating a compounded need for differentiated instruction, language scaffolds, and coordinated special education services.

Findings from the annual Title I STH Parent Survey underscore challenges related to access to hygiene products, food security, and mental health services, which correlate with engagement and achievement. These results are used to prioritize services, including providing MetroCards and travel support, expanded access to mental health professionals, after-school tutoring, and small group academic interventions during the day.

By using this data, the school is refining its MTSS model to ensure responsive interventions for the STH population, while working closely with families and community partners to support whole-child needs that directly impact learning outcomes.

Describe the services you are planning to provide to the STH population. How were those services selected to best meet students' needs? How will you (or did you) utilize the STH Title I Survey to select services aligned to need?

To effectively support our students experiencing homelessness (STH), we are implementing services tailored to their unique challenges and needs. We will provide reliable transportation assistance to combat chronic absenteeism, which is a significant issue due to the lack of stable transportation options. Academic tutoring and support, including before/after-school programs and access to technology, will help bridge the achievement gap observed among STH students. We are also expanding social-emotional learning (SEL) programs to address the emotional and psychological stressors associated with homelessness, including counseling and resilience-building workshops. To ensure STH students have the necessities required for a stable learning environment, we will supply basic resources such as food, clothing, hygiene products, and school supplies. Language support services will be offered to the many STH students who are English Language Learners, while those with Individualized Education Programs (IEP) will receive enhanced special education services. Additionally, we are engaging families through workshops and support services to help them navigate educational and social resources, fostering a supportive home environment. Health and wellness services will be provided in partnership with local health organizations to address physical and mental health needs. These services were selected based on a thorough analysis of demographic, attendance, and achievement data, and insights from the STH Title I Survey, ensuring that they directly address the most pressing needs of our STH population.

Prioritizing Students in Foster Care

As included in your school's Office of School and Youth Development Consolidated Plan-Child Child Abuse and Neglect Intervention and Prevention School Plan and in accordance with the federal Education Law 3244 – Education of Children in Foster Care (Effective 2018) establishes the rights of students placed, or moved, in foster care to:

- Continue attending school of origin if determined to be in their best interest, or, if not, attend school near foster care placement,
- Immediate enrollment, and
- Transportation, if necessary to attend school of origin

Please respond to the questions below.

How many students in foster care are currently enrolled at your school? Provide a detailed breakdown of the social-emotional and academic supports available to them.

N/A

What targeted supports are in place for students in foster care, including those newly transitioning into the foster care system? How does your school ensure these students receive the necessary interventions to promote stability and success?

N/A

After analyzing historical demographic, attendance, and achievement data for students in foster care, what trends have emerged? How can these insights be used to improve the services and support provided to this population?

N/A

What specific strategies does your school implement to ensure students in foster care, particularly those in transitional grades, receive targeted Social-Emotional Learning (SEL) support? How do these strategies help address academic and behavioral challenges?

N/A

Expanded Learning Time (ELT) Support

The ELT program aligns with Multi-Tiered Systems of Support (MTSS) and will be offered to all eligible students who are considered at-risk of not meeting state standards. Note: Receivership schools must commit to 200 student contact hours of ELT.

Describe how your school will utilize ELT to offer opportunities for enrichment and additional learning before, during, after school, on weekends and/or during the summer to actively address the unique learning needs and interests of all types of students, especially those who may benefit from approaches and experiences not offered in the traditional classroom setting.

Expanded Learning Time (ELT) is utilized to provide both before and after-school programming for students and families. These programs are designed to enhance student learning and meet their individual needs, particularly for those who are below grade level and require additional support.

Before-school programs include:

-mClass Tier 2 and Tier 3 small groups

After-school programs include:

-IEP Student Help K-5
-Math Games K-2
-Reading Centers K-2
-Spanish Support K-1
-Essential Writing 1-5
-Library and Homework Support 2-5
-Test Prep 3-5
-Targeted iReady and small groups 3-5

During the Chippy ELA Experiences Block, students participate in:

-Heggerty
-Sound Sensible
-SPIRE
-IREADY
-mClass Tier 2 and Tier 3 small group

These ELT programs are designed to provide targeted support to help students improve their skills and achieve academic success.

Describe how your school will meet the requirement of ensuring that ELT instruction is delivered under the supervision of a teacher who is NYS certified in that content area.

To meet the requirement that ELT (Extended Learning Time) instruction is delivered under the supervision of a teacher who is New York State (NYS) certified in the relevant content area, our school ensures that all ELT sessions are taught by our experienced teaching staff, who hold the necessary NYS certifications. Each ELT session is meticulously planned and led by these certified educators, ensuring that instruction adheres to state educational standards and leverages their specialized knowledge in core academic subjects.

Our certified teachers are responsible for the careful integration of core curricula, such as HMH for ELA and Envision for Math, into ELT programming, supplemented by additional materials designed to meet the diverse needs of all learners. This alignment ensures that the instruction provided during ELT is of the same high quality and rigor as that offered during the regular school day.

Furthermore, our teachers collaborate to design and implement curriculum enhancements that are coherent with the daytime academic program during before and after school grade wide curriculum mapping. This collaboration guarantees that all ELT instruction is not only aligned with but also supervised by educators with the appropriate certifications, thereby meeting and exceeding the state's requirements for educational standards. Through this comprehensive approach, we provide a cohesive, robust educational experience that supports and enriches student learning while ensuring compliance with NYS certification requirements for all instructional staff.

Describe how your school will meet the requirement of ensuring the alignment of ELT instruction with core academic subject area instruction offered during the regular school day.

To ensure the alignment of ELT (Extended Learning Time) instruction with the core academic subjects offered during the regular school day, Elm Tree Elementary will leverage the expertise of our New York State (NYS) certified teaching staff. Each ELT session will be meticulously planned and led by educators who are certified in the relevant content areas, guaranteeing that instruction not only adheres to state educational standards but also aligns seamlessly with the daytime curriculum.

Our certified teachers will utilize core curricula, such as HMH for ELA and Envision for Math, which are already in use during the regular school day. By employing these established resources, supplemented with additional materials tailored to meet the diverse needs of all learners, we ensure consistency in instructional goals and learning outcomes across both regular and extended learning times.

Moreover, our teachers will collaborate to design and implement curriculum enhancements that are coherent with the daytime academic program. This collaboration allows for the integration of the same teaching methodologies, learning objectives, and assessment strategies used during regular school hours. For example, before-school programs will include targeted mCLASS Tier 2 and Tier 3 small group sessions that directly address areas needing improvement, while after-school programs will offer specialized support such as IEP Student Help, Math Games, Reading Centers, and more, each aligned with the core academic subjects.

During the Chippy ELA Experiences Block, our students will engage in activities such as Heggerty, Sound Sensible, SPIRE, and iReady, which complement the instruction they receive during regular class time. This alignment ensures that students benefit from a cohesive and robust educational experience, reinforcing their learning and addressing individual needs in a consistent and effective manner. By maintaining this alignment, our ELT sessions support the overall academic growth of our students, enhancing their learning and optimizing their educational outcomes.

Provide a description of the materials purchased to support implementation of ELT.

Section 7: Parent and Family Engagement Policy and School-Parent Compact

Parent and Family Engagement Policy

Directions: The Parent and Family Engagement Policy should describe how your school will plan and implement effective parent and family engagement activities and/or strategies to improve student academic achievement and school performance. The School-Parent Compact (SPC) is a component of the Parent and Family Engagement Policy (PFEP) that outlines how parents, the entire school staff, and students will share this responsibility.

The activities and/or strategies included in your school's Parent and Family Engagement Policy should align with current Comprehensive Education Plan (CEP) goals for improving student achievement and should be developed or updated with input and feedback from parent leaders and the Parent Coordinator. In addition, if the school community will be engaged in central parent engagement initiatives, such as Parent Academy, which will provide training for school communities to help strengthen family-school partnerships, please be sure to include these activities in the school's policy.

In Title I schools, the Title I Parent Advisory Council (PAC) represents the Title I parent community in supporting parent and family engagement. The Title I PAC Chairperson will serve in a consultative role with the SLT representing the school's Title I parents. Schools are encouraged to use the sample Parent and Family Engagement and SPC templates below (which meet federal Title I parent and family engagement requirements) as guidance for updating the school's current policy.

Parent and Family Engagement Policy

Elm Tree Elementary School Parent and Family Engagement Policy

At Elm Tree Elementary, we believe that strong family-school partnerships are essential to student success. In alignment with Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), our Parent and Family Engagement Policy is rooted in our commitment to ensuring every family is informed, empowered, and engaged in their child's academic journey.

Policy Objectives and Practices:

Shared Responsibility for Student Success: Elm Tree actively involves families in the shared responsibility for

student learning through a collaboratively developed School-Parent Compact (SPC). The compact outlines how families, school staff, and students will work together to support academic achievement. The SPC is reviewed annually with parent input during Title I Parent Advisory Council meetings, SLT sessions, and parent workshops.

Annual Title I Meeting and Ongoing Communication: We host an annual Title I meeting to inform families of our school's Title I program, parents' rights, and the services available to eligible students. In addition, regular communication occurs through monthly newsletters, our school app, Edlio website updates, and multilingual documents to ensure all families receive timely updates.

Collaborative Planning with Parent Leadership: Parent voice shapes our engagement strategies. The Parent Coordinator works closely with the Title I PAC Chairperson, the SLT, and the PTA to co-plan monthly workshops, family events, and informational sessions that align with our CEP goals, including improving attendance, early literacy, and multilingual learner achievement. Parent feedback is regularly gathered through surveys, suggestion boxes, and after-event evaluations.

Parent Learning Opportunities: In support of our goal to build parent capacity, Elm Tree hosts a robust calendar of family workshops, literacy and math workshops, and digital access training. Topics are chosen in collaboration with parent leaders and are designed to strengthen families' ability to support learning at home and engage with school resources.

Welcoming and Inclusive Environment: All families are welcome at Elm Tree. Our multilingual staff, ENL team, and family outreach team ensure communication is accessible. Family engagement events are culturally responsive, with translation services and materials available in our predominant home languages (Spanish, Bengali, and others as needed).

Continuous Improvement: The Parent and Family Engagement Policy is reviewed and revised annually in partnership with the Title I PAC, PTA, SLT, and Parent Coordinator. We assess effectiveness through attendance at events, family survey data, and ongoing feedback to ensure our policy reflects the evolving needs of our school community.

Elm Tree Elementary is committed to cultivating a culture of collaboration, trust, and high expectations in which families are true partners in learning.

Support for Parents and Family Members of Title I Students

At Elm Tree Elementary, we are committed to building strong partnerships with families to support the academic success of all students, especially those receiving Title I services. We support parents and family members of Title I students by:

Providing meaningful workshops and training that help families support their child's academic progress, including literacy and math sessions, digital access training, and multilingual learner support. These offerings are co-planned with parent leaders and aligned to our school's CEP goals.

Equipping parents with tools and resources to engage in informed decision-making and planning through participation in the School Leadership Team (SLT), Title I Parent Advisory Council (PAC), and the PTA. Families help shape our School-Parent Compact, Title I priorities, and family engagement calendar.

Fostering effective home-school partnerships by ensuring families can monitor their child's progress. We provide ongoing communication through our school app, newsletters, the Edlio website, and personal outreach in families' preferred languages.

Offering clear information and support to help parents understand City, State, and Federal academic standards and assessments, including through curriculum nights, assessment workshops, and parent-teacher conferences with translation services as needed.

Ensuring communication is inclusive and accessible, sharing information about school programs, parent meetings, and events in family-friendly formats and in the home languages spoken by our school community.

Investing in professional learning for staff with parent input to strengthen our outreach, communication practices, and cultural responsiveness. We believe families are valued partners, and we strive to build a school culture where every voice is heard and respected.

Through these efforts, Elm Tree Elementary strengthens the home-school connection and empowers families to be active participants in their children's academic journey.

Parental Involvement and School Quality

At Elm Tree Elementary, we recognize that strong partnerships between families and the school are essential to fostering student success and improving overall school quality. Our Parent and Family Engagement Policy is thoughtfully developed and continuously refined through meaningful collaboration with parents, guardians, and community members. This ongoing partnership ensures our strategies effectively meet the diverse needs of our families, including those of Multilingual Learners and students with disabilities.

Each year, Elm Tree conducts a thorough evaluation of our Parent and Family Engagement Policy. We gather feedback from families through surveys, discussions, and school meetings to assess how well our efforts support parent involvement and student achievement. This feedback directly informs the improvements we make to our Title I program and engagement activities, helping us create an inclusive and responsive learning community.

Families play a vital role in shaping our school's programs and policies. Parents of Title I students, alongside members of the Parent Association, School Leadership Team, and Title I Parent Advisory Council, collaborate regularly to review and update the engagement policy. These parent leaders also reach out to the broader parent community to ensure all voices are heard and considered in school decision-making.

Elm Tree is committed to transparency and shared decision-making, especially regarding the use of Title I funds allocated for family engagement. Parents are actively involved in discussions about how these resources are spent to support activities such as family literacy workshops, parenting skill development, and other programs designed to strengthen family-school connections.

We support and empower parent leaders through ongoing training and professional development, ensuring they have the tools and skills needed to advocate effectively and contribute meaningfully. Our dedicated Parent Coordinator serves as the bridge between families and the school, coordinating workshops and events that address the unique needs of our community, including academic support, technology access, and navigating educational standards.

Importantly, Elm Tree partners with the Child Center of New York, a respected community-based organization, to further strengthen family engagement and student support. Through this partnership, families benefit from additional resources, culturally responsive programming, and wraparound services that complement our school-based initiatives, creating a holistic support system for students and their families.

Communication at Elm Tree is inclusive and accessible. Critical information about school programs, assessments, and accountability reports is provided in multiple languages and formats. We schedule meetings at varied times,

including mornings and evenings, to accommodate all families and encourage participation.

In addition to the required Annual Title I Parent Meeting, Elm Tree hosts regular family engagement events and workshops throughout the year. These opportunities provide parents with the knowledge and skills to support their children's learning, understand educational expectations, and engage actively in their child's education.

Through these comprehensive efforts and community partnerships, Elm Tree Elementary cultivates a welcoming environment where families are respected partners, school quality is enhanced, and every student is positioned for success.

Encouraging School-Level Parental Involvement

Elm Tree Elementary is dedicated to fostering active and meaningful parental involvement at the school level to strengthen the partnership between families and educators. We encourage family engagement by offering a variety of opportunities and supports designed to meet the diverse needs of our community.

Family Educational Events: We host engaging family workshops and activities during Parent-Teacher Conferences and throughout the school year, covering topics such as literacy, math, digital access, and supporting multilingual learners. These events provide families with practical tools to support student learning at home.

Active Participation in School Leadership: Families are encouraged to take on leadership roles and meaningfully participate in our School Leadership Team (SLT), Parent Association (PTA), and Title I Parent Advisory Council (PAC). These groups provide forums for parent input on school policies, programs, and decision-making, ensuring that family voices are integral to school improvement efforts.

Family Day and Community Events: Elm Tree supports and hosts family-focused events like Family and Multicultural Days that celebrate our diverse community, foster connections among families and staff, and create welcoming opportunities for engagement.

Parent Resource Center: We are developing a dedicated Parent Resource Area where families can access instructional materials, books, and resources to help support their children's academic growth. This lending library serves as a hub for families to find valuable learning tools.

Volunteer Opportunities: Elm Tree actively encourages parents to become trained school volunteers, contributing their time and talents in classrooms, events, and school initiatives, thereby strengthening the school community.

Ongoing Communication: To keep families informed and connected, we provide written and verbal progress reports regularly throughout the year. These updates allow parents to monitor their child's academic and social-emotional growth.

School Newsletter and Digital Communication: Our monthly school newsletter, website updates, and communications through the school app and Edlio platform keep parents well-informed about upcoming activities, student achievements, and school initiatives.

Two-Way Communication Tools: We provide school planners, folders, and communication logs to facilitate regular, written communication between teachers and families. All materials and communications are translated into the primary languages spoken by our families, ensuring accessibility and clear understanding.

By offering multiple avenues for involvement and maintaining open, accessible communication, Elm Tree Elementary

strives to build a vibrant, collaborative school community where parents are empowered partners in their children's education.

School-Parent Compact (SPC)

School-Parent Compact (SPC)

Elm Tree Elementary School-Parent Compact

At Elm Tree Elementary, we believe that strong partnerships between families, students, and school staff are essential for student success. In line with federal Title I requirements under the Every Student Succeeds Act (ESSA), we have developed a School-Parent Compact, a shared agreement that outlines how families, school staff, and students will work together to support learning and help every child reach high academic standards.

This Compact clearly describes the roles and responsibilities of each partner in our community:

Families are encouraged to support their children's learning by staying informed, communicating regularly with teachers, participating in school activities and leadership groups, and providing a positive environment at home for study and growth.

School staff are committed to delivering quality instruction, maintaining open and respectful communication with families, offering resources and workshops to help parents support their children, and creating a welcoming and inclusive school climate.

Students play an active role by attending school consistently, engaging in their learning, completing assignments, and asking for help when needed.

Every year, Elm Tree Elementary reviews and updates this Compact with input from families, staff, and students to ensure it meets our community's needs. By working together in this shared partnership, we create a strong foundation for student achievement and a school environment where everyone feels valued and supported.

I. School Responsibilities: High Quality Curriculuml. School Responsibilities: High Quality Curriculum

At Elm Tree Elementary, we are committed to delivering a high-quality education that meets the academic, social, and emotional needs of every student. In alignment with the New York State Learning Standards and the Every Student Succeeds Act (ESSA), we ensure that all students, regardless of background or learning needs, have access to rigorous, engaging instruction that prepares them for lifelong success.

We do this by:

Making the most of every minute of learning time, ensuring that each lesson is purposeful and student-centered.

Honoring and embracing the diverse cultural, racial, and ethnic backgrounds of our students and families through inclusive practices and affirming classroom environments.

Delivering a curriculum that is aligned to the New York State Learning Standards, ensuring students are building the knowledge and skills needed at every grade level.

Providing high-quality instruction in all content areas, from literacy and mathematics to science, social studies, the arts, and physical education.

Ensuring instruction is led by certified and highly qualified teachers. If, for any reason, a child is taught for four or more consecutive weeks by a teacher who is not state-certified in that content area, families will be notified in accordance with federal law.

Our instructional model is driven by evidence-based practices and responsive to student needs. We actively analyze data, including attendance, achievement, and language acquisition trends, to personalize support, including for students in temporary housing (STH), English Language Learners (ELLs), and students with IEPs. We also work closely with community partners, including the Child Center of New York, to provide wraparound supports that remove barriers to learning and strengthen family engagement.

By prioritizing academic excellence, equity, and community collaboration, Elm Tree Elementary ensures that all students are equipped to meet or exceed grade-level expectations and State Standards.

I. School Responsibilities: Supporting Home-School Relationships

At Elm Tree Elementary, we believe that strong partnerships between home and school are essential to student success. We are committed to building open lines of communication and fostering a welcoming school community where families feel informed, supported, and empowered to take an active role in their child's education.

To support these home-school relationships, we:

Host parent-teacher conferences twice a year to discuss each student's academic progress and how the goals in our School-Parent Compact support their growth.

Hold an Annual Title I Parent Meeting to inform families about our Title I status, the programs supported by federal funding, and their rights to be actively involved in school decision-making.

Provide flexible opportunities for family meetings, including morning, afternoon, and evening options. When possible and as funding allows, we support participation through translation services, childcare, or transportation.

Ensure all communication is accessible by providing translated materials and interpretation services so families who speak languages other than English can fully engage.

Regularly share timely updates about school events, programs, and student learning, using multiple platforms such as newsletters, our website, Edlio app, and home-school folders.

Encourage families to take part in planning and improving school programs, including reviewing our Title I programs, the Parent and Family Engagement Policy, and this Compact itself.

Distribute and review the School-Parent Compact with families each year, ensuring that all parties, school, students, and families, are working together toward shared goals.

Provide clear, timely information about student performance, including assessment results and schoolwide performance data, so parents can understand how their child is progressing.

We also value collaboration with community-based partners like the Child Center of New York, who help us extend family engagement and support beyond the classroom. Together, we strive to create an inclusive, communicative, and supportive school environment for every child and every family.

I. School Responsibilities: Providing Parents Reasonable Access to Staff

Elm Tree Elementary School Responsibilities: Providing Parents Reasonable Access to Staff

At Elm Tree Elementary, we recognize the importance of strong communication and collaboration between families and school staff. We are committed to making it easy for families to connect with us and stay involved in their child's learning.

To ensure families have reasonable access to staff, we:

Provide interpretation and translation services so that all families, regardless of their home language, can communicate effectively with teachers and staff.

Clearly share how parents can schedule appointments to meet with their child's teacher, a member of the support team, or school leadership. This includes written guidance, phone support, and digital tools such as our school website and Edlio app.

Offer opportunities for families to get involved in the classroom, including observing instruction and receiving training to volunteer and participate in school activities when appropriate.

Host meaningful events and activities for families throughout the school year, such as Parent-Teacher Conferences, curriculum nights, and learning showcases, where parents can connect with teachers and better understand their child's academic journey.

These efforts reflect our belief that families are essential partners in education. With accessible staff and open communication, we can work together to support every child's growth and success.

I. School Responsibilities: Providing General Support to Parents

At Elm Tree Elementary, we believe that when schools and families work together, students thrive. We are dedicated to creating a supportive, respectful, and inclusive environment where all parents and caregivers feel welcomed and empowered to be active partners in their child's education.

To provide general support to families, we:

Foster a safe and nurturing school climate that welcomes and respects all cultures, languages, and family backgrounds.

Help families understand grade-level expectations and assessments, and how to monitor their child's academic progress. We offer professional learning opportunities and family workshops scheduled at flexible times to support this understanding.

Share effective strategies and tools for home-school collaboration, encouraging strong partnerships and consistent two-way communication between families and educators.

Encourage and support family-led involvement efforts, listening to feedback and responding to parent requests for activities and programming that enrich the school experience.

Use Title I parent engagement funds to support meaningful family engagement activities outlined in this Compact

and our Parent and Family Engagement Policy.

Ensure parents are aware of their rights, including their right to file a complaint under the New York State Education Department's General Complaint Procedures, consistent with Title I and the Every Student Succeeds Act (ESSA).

Through these actions, we aim to build strong relationships with our families and empower them as advocates for their children's success.

II. Parent/Guardian Responsibilities

At Elm Tree Elementary, we believe families are a child's first and most important teachers. As partners in learning, parents and guardians play a vital role in supporting their child's success both in and out of the classroom. To help every child reach their highest potential, parents and caregivers agree to:

Promote regular and punctual attendance by ensuring their child arrives to school on time and following school procedures when the child is absent.

Establish healthy routines at home, including setting an appropriate bedtime so their child arrives at school well-rested and ready to learn.

Support learning at home by checking homework daily, offering help when needed, and reading with or discussing reading with their child for at least 15 minutes each day.

Limit screen time and encourage their child to engage in enriching after-school activities like extended learning, clubs, sports, or quality family time.

Discuss school expectations and this Compact with their child, encouraging them to follow school rules and contribute to a positive learning environment.

Volunteer when possible, either in person at school or from home, and participate in school activities and events.

Communicate regularly with their child's teacher, staying informed about academic progress and addressing educational needs. This includes reading and responding to school and district notices in a timely manner.

Provide feedback through surveys or other requests and take part in decision-making around their child's education.

Engage in workshops or trainings offered by the school, district, or state to better understand teaching and learning practices.

Participate in school-based leadership and advisory groups, such as the Parent Association, PTA, Title I Parent Advisory Council, or School Leadership Team.

Embrace shared responsibility for their child's academic growth and overall success.

Together, through mutual respect and shared commitment, we will ensure that every child at Elm Tree thrives academically, socially, and emotionally.

III. Student Responsibilities

At Elm Tree Elementary, our students are active members of our learning community. We believe that by working hard, showing respect, and taking responsibility, every student can grow and achieve their goals. As Elm Tree Chipmunks, students agree to:

Come to school every day, on time, ready to learn and participate.

Complete all homework and class assignments on time, doing their best work.

Follow all school rules and take responsibility for their words, actions, and choices.

Treat others with kindness and respect, including classmates, adults, and school property.

Solve problems in peaceful and respectful ways, using words and listening to others.

Always give their best effort, believe in themselves, and stay curious about learning.

By following these expectations, students help create a school where everyone feels safe, supported, and ready to succeed. At Elm Tree, we grow stronger together!

Title I Program Information

Part 1: Title I Program Type

Title I Requirements and Strengthening Title I Parent Involvement: Under USDOE's Every Student Succeeds Act (ESSA), Title I schools are required to address professional learning and parent and family engagement in the Comprehensive Education Plan (CEP). To strengthen parent leadership in Title I schools, and increase the involvement of all parents of Title I eligible children in improving students' academic outcomes, all Title I schools are required to establish a Title I Parent Advisory Council (PAC) that will serve as the consultative and representative body for all Title I parents in the school to provide voice into the spending of Title I funds.

The SLT is responsible for facilitating consultation with the Title I Parent Advisory Council regarding the joint development of the CEP, Parent and Family Engagement Policy, School Parent Compact (SPC) and the use of the 1% parent involvement set-aside in Title I schools. The Title I Parent Advisory Council (PAC) Chairperson (or alternate) is expected to attend all regular meetings of the School Leadership Team (SLT). Title I parents, as represented by the Title I PAC Chairperson, must be consulted regarding the use of the Title I 1% set-aside for parent and family engagement. The Title I 1% set-aside funding is used to supplement parent and family engagement activities as described in the school's Parent and Family Engagement Policy and must be aligned with student achievement goals as outlined in the CEP. For additional guidance on the Title I Parent Advisory Council (PAC), go to the Protocols and Timeline for Title I Parent and Family Engagement Activities document.

Directions:

- All schools must indicate their Title I status in Part 1.
- All elements of the All Title I Schools section must be completed in Part 2.
- All Targeted Assistance (TA) Schools must also complete the TA Schools Only section in Part 3.
- All Schoolwide Program (SWP) schools must also complete the SWP Schools Only section in Part 4.
- If a required component is addressed elsewhere in this plan, you may refer to the section or Priority where the response can be found.
- For additional information, visit the Title I Program Description (US Department of Education).

Your school's Title I Program

Title I SWP

Part 2: All Title I Schools

High Quality and Ongoing Professional Learning: Please list below the Priority or section(s) that indicate strategies and activities for high quality professional learning for teachers, principals, staff, and paraprofessionals to enable all students to meet state standards.

At Elm Tree Elementary, we are committed to providing high-quality, ongoing professional learning for all staff, including teachers, paraprofessionals, school aides, school leaders, and all other personnel. The CEP priorities guide our work in building staff capacity to improve student outcomes, foster inclusive classroom practices, and cultivate a safe, supportive learning environment.

We begin by conducting regular staff surveys and needs assessments to identify the specific professional learning needs across instructional staff and support personnel. These insights inform the development of differentiated professional learning pathways that address the unique roles and responsibilities of educators, including targeted sessions for co-teaching teams, paraprofessionals, and early-career teachers.

In alignment with our CEP priorities, we offer professional learning opportunities that include:

-Responsive Classroom and SEL training to support implementation of Tier 1 behavior systems and promote a positive, inclusive school culture (Priority 2)

-Standards-aligned planning and instructional strategies to strengthen core academic instruction and deepen content knowledge (Priorities 1, 3, 4, 5)

-Data inquiry cycles and collaborative planning protocols to build educator capacity in using student data for instructional decision-making (Priorities 1 and 3)

Culturally and linguistically responsive practices that address the diverse needs of our multilingual learners and students with IEPs (Priorities 1, 3, 4, 5)

To ensure coherence and transparency, we consistently align all professional learning with the goals and benchmarks outlined in our CEP. These goals are reviewed during ILT and teacher team meetings, reinforcing a shared understanding of expectations and progress.

Additionally, staff receive regular feedback and coaching, grounded in observation data and aligned to the Danielson Framework, to support implementation of new practices. Ongoing reflection and progress monitoring are built into our cycles of professional learning, fostering a culture of continuous improvement.

Finally, all training is data-driven and responsive to student needs. We use data from i-Ready, MAP Growth, behavior reports, and family surveys to inform both the content and timing of PD sessions, ensuring learning experiences are timely, relevant, and impactful.

Through these coordinated strategies, Elm Tree Elementary is creating a professional learning ecosystem that directly supports our school's CEP priorities and advances equity, academic achievement, and student well-being.

Part 4: Schoolwide Program (SWP)

Transition Plans to Assist Preschool Children (Elementary Schools Only): Describe the transition plans used to assist preschool children from early childhood programs to the elementary school program (e.g. aligned curriculum, joint PD & parent involvement activities, sharing of records/information, early intervention services, etc.).

At Elm Tree Elementary, we have developed comprehensive transition plans to assist preschool children in their transition from early childhood programs to our elementary school program. These plans are designed to provide a smooth and supportive experience for both the children and their families, ensuring that the young learners are well-prepared for the new educational environment.

1. Aligned Curriculum:

To create continuity between preschool and elementary education, we work closely with early childhood programs to align our curriculum with theirs. This alignment includes integrating foundational skills in literacy, numeracy, and social-emotional development that are critical for kindergarten readiness. By ensuring that the curriculum flows seamlessly from preschool to elementary school, we help children build on their existing knowledge and skills, making the transition smoother and more effective.

2. Joint Professional Development (PD) & Parent Involvement Activities:

We organize joint professional development sessions for preschool and elementary school teachers. These sessions focus on best practices in early childhood education, effective transition strategies, and aligning instructional approaches. By fostering collaboration between preschool and elementary educators, we ensure that both sets of teachers are equipped to support the children's transition.
Additionally, we engage parents through workshops and orientation sessions that provide information on what to expect in kindergarten and how they can support their child's learning at home. These activities help parents become active participants in their child's educational journey, strengthening the home-school connection and easing the transition.

3. Sharing of Records and Information:

We maintain an open line of communication with early childhood programs to facilitate the sharing of student records and important information. This includes assessments, developmental milestones, and any special needs or accommodations. By having access to comprehensive records, our kindergarten teachers can better understand each child's strengths and areas for growth, enabling them to tailor their instruction to meet individual needs right from the start.

4. Early Intervention Services:

For children who require additional support, we collaborate with early childhood programs to provide early intervention services. This may include speech and language therapy, occupational therapy, or behavioral support, which continues as they transition to elementary school. By identifying and addressing these needs early, we can ensure that all children have the support they need to thrive in the new school setting.

5. Transition Activities and Visits:

We offer a variety of transition activities, including school tours, classroom visits, and meet-and-greet events with teachers and future classmates. These activities help familiarize children with the new environment and the people they will interact with, reducing anxiety and building excitement for the next phase of their education.

6. Individualized Transition Plans:

For children who may need additional support during the transition, we develop individualized transition plans. These plans outline specific steps and strategies to help the child adjust to the new setting. This may involve gradual integration into the classroom, additional meetings with the new teacher, or personalized support from school counselors or special education staff.

7. Ongoing Support and Monitoring:

Once the children have transitioned to kindergarten, we continue to monitor their progress closely. Teachers and support staff work together to ensure that any challenges are addressed promptly, and additional support is provided as needed. Regular check-ins with parents help keep them informed and involved in their child's progress, ensuring that the transition remains positive and effective.
Through these comprehensive and collaborative efforts, Elm Tree Elementary is committed to providing a supportive and seamless transition for preschool children, helping them to build a strong foundation for future academic success.

Part 5: "Conceptual" Consolidation of Funds in SWP Schools

Directions: All Schoolwide Program (SWP) schools in NYC are conceptually consolidating their Federal, State, and Local funds, even though the Galaxy system reports the allocations in separate accounting codes1. To be eligible for the flexibility consolidation of Federal funds, a Schoolwide Program school must identify in its Schoolwide plan (CEP) which programs are included in its consolidation and the amount each program contributes to the consolidated Schoolwide pool. Additionally, the school plan must document that it has met the intent and purposes of each program whose funds are consolidated2. **On the chart below**, indicate which Federal, State, and/or local Tax Levy program funds that are consolidated in your school's Schoolwide Program, the amount each program contributes to the consolidated Schoolwide pool, and verification that the school has met the intent and purposes of each program whose funds are consolidated.
For the last two columns of this table: Place an (X) in Column A below to verify that the school has met the intent and purposes of each program whose funds are consolidated. Indicate in Column B, the Priority or section that references where a related program activity has been described in this plan.

Program Name	Fund Source (i.e. Federal, State or Local)	Funding Amount: Indicate the amount contributed to Schoolwide pool. (Refer to Galaxy for school allocation amounts)	Column A Verify with an (X)	Column B Section/Priority Reference(s)
Title I SWP	Federal	$331,229	X	Priorities 1,2,3,4
Title I SWP Carry Over	Federal	$155,250	X	Priorities 1,2,3,4
Title I SWP Carry Over Parent and Family Engage	Federal	$19,732	X	Priorities 1,2,3,4
Title I SWP Parent and Family Engagement	Federal	$2,370	X	Priorities 1,2,3,4
Title I SWP STH	Federal	$337,747	X	Priorities 1,2,3,4
Title I SWP Translation Services	Federal	$22,215	X	Priorities 1,2,3,4

Explanation/Background

1. Explanation/Background:

Title I Schoolwide Program schools are expected to use the flexibility available to them to integrate services and programs with the aim of enhancing the entire educational program and helping all students reach proficient and advanced levels of achievement. In addition to coordinating and integrating services, Schoolwide Program schools may combine most Federal, State and local funds to provide those services. By consolidating funds from Federal, State, and local sources, a Schoolwide Program school can address its needs using all its available resources. This gives a school more flexibility in how it uses available resources to meet the identified needs of all its students.

Consolidating funds in a Schoolwide Program means that a school treats the funds it is consolidating like they are a single "pool" of funds. In other words, the funds from the contributing programs in the school lose their individual identity and the school has one flexible pool of funds. The school uses funds from this consolidated Schoolwide pool to support any activity of the Schoolwide Program without regard to which program contributed the specific funds used for a particular activity – so long as the use of funds meets the intent and purposes of the programs from which the funds originate. To consolidate funding in a Schoolwide Program, the school does not literally need to combine funds in a single account or pool with its own accounting code. Rather, the word "pool" is used conceptually to convey that a Schoolwide Program school has the use of all consolidated funds available to it for the dedicated function of operating a Schoolwide Program without regard to the identity of those funds.

Consolidating Federal funds in a Schoolwide Program has the following additional advantages:

- Consolidating Federal funds eases the requirements for accounting for funds from each specific program separately, because a Schoolwide school is not required to distinguish among funds received from different sources when accounting for their use.
- A school that consolidates Federal funds in its Schoolwide Program is not required to meet most of the statutory and regulatory requirements of the specific Federal programs included in the consolidation (e.g., semi-annual time and effort reporting for Title I). However, the school must ensure that it meets the intent and purposes of the Federal programs included in the consolidation so that the needs of the intended beneficiaries are met.

2. The intent and purposes of the Federal programs indicated on the chart above (Part 4c of this section) are as follows:

- **Title I, Part A – Schoolwide Programs:** To upgrade the entire educational program in the school in order to improve the academic achievement of all students, particularly the lowest-achieving students. This includes provision of services for Students in Temporary Housing (STH).
- **Title I 1003(a), School Improvement: Comprehensive Support and Improvement (CSI), Additional Targeted Support and Improvement (ATSI) and Targeted Support and Improvement (TSI) Funding:**

Support implementation of school improvement plans that aims to improve instruction and address the identified needs

Title II, Part A: Supplementary funding to improve student academic achievement by reducing class size in grades K, 1, 2, and 3, with an emphasis on grades with an average register greater than 20. If space is not available to form additional classes, funds may support push-in teacher(s) to supplement the instructional program. For schools that choose to reduce class size, priority must be given to reducing class size in general education settings and must demonstrate the following:

- Reduce class sizes to 15-18 students or fewer (including the use of co-teaching and floating teachers that bring the student to teacher ratio to one teacher per 15-18 students);
- Be accompanied by a rigorous curriculum, effective teachers, and a sustained, job-embedded professional development plan.

- **Title III, Part A:** To help ensure that children with limited English proficiency become proficient in English, develop high academic attainment in English, and meet the same challenging State academic content and achievement standards in the core academic subjects that all other children are expected to meet. Another purpose of this program is to increase the capacity of schools to establish, implement and sustain high-quality language instruction programs and English language development programs that assist schools in effectively teaching students with limited English proficiency. Title III, Part A is also designed to promote the participation of parents and communities of limited English proficient children in English language instruction programs.
- **Title III Immigrant**: Supplementary and enhanced services to immigrant students, in the areas of English language acquisition and content area achievement. Immigrant children and youth are defined as individuals who are aged 3 through 21, have not been attending school in any one or more states for more than three (3) full academic years, and were not born in any state. "State" means the 50 states of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. Children born to U.S. citizens abroad, the U.S. Virgin Islands, or any other U.S. territory that is not D.C. or Puerto Rico are to be considered immigrants.
- **Title IV, Part A**: Title IV funds are for schools that are among those with the greatest needs, have the highest numbers of students from low-income families, are identified for CS, ATSI or TSI, or are identified as persistently dangerous public schools. Allowable uses of funds under well-rounded education, safety and health, and educational technology include direct services for students, professional development for teachers and administrators, and supplemental educational resources. School allocations have been provided for well-rounded education, social emotional learning, cultural responsiveness awareness, professional development to support implementation of technology and blended learning environments, and community coordinators in schools with high rates of students in temporary housing

- Students in Temporary Housing (STH): Schools must describe their use of Title I STH funds in their consolidated application.

Important Note: The following funds may not be consolidated:

- **Title I Parent Involvement Set-aside:** Title I, Part A funds must support parent involvement activities and programs. Chancellor's Regulation A-655 requires School Leadership Teams to consult with Title I parent representatives regarding the Title I program and the use of these funds. Parent involvement activities funded through Title I must be included in the Parent and Family Engagement Policy and aligned with student achievement goals in the school comprehensive educational plan.
- **IDEA:** To ensure that all children with disabilities have available to them a free appropriate public education designed to meet their individual needs.
- **Grant funds awarded via a competitive process:** These funds must be used for the purposes specified by the Grantor, as described in the school's approved grant application.

Community Schools

Community School Partners

NYC Community Schools are committed to advancing equity by organizing resources and sharing leadership with community partners to support the whole child. Each Community School is different and reflects the strengths and needs of its students, families, and local community. The most successful Community Schools share common features, which are integrated into the fabric of the school and drive student learning. These features are Collaborative Leadership and Practice, Family and Community Engagement, Expanded Learning Time (ELT), and Wellness and Integrated Supports. Embedded throughout the work is a focus on incorporating anti-racist practices and differentiating supports, including attendance supports, for special populations. Since all school operations and actions are in service of improving the academic and non-academic achievement of its students, the annual schoolwide goals should be informed by the students, their achievement, and the opportunities provided to them. The school should develop these goals after a realistic and comprehensive analysis of its data, paying specific attention to the achievement of its subgroups and disproportionality.

Directions: Identify the partnerships with Community-Based Organizations (CBOs) that will support the achievement of annual goals through implementation of the Community School Core Features: Collaborative Leadership and Practice, Family and Community Engagement, Expanded Learning Time (ELT), and Wellness and Integrated Supports. Identify the target student population(s), provide a summary of the scope of the services and indicate the Priority or section(s) of the plan.

CBO Partners	Target Population	Scope of Service	Priority/section(s) and Annual Goal
Child Center of New York	All Students	Family and Community Engagement	To increase family engagement with community resources, improved attendance, and improve home school connection
Child Center of New York	All Students	Expanded Learning Time (ELT)	Improve student proficiency rates in both ELA and Math during before or after school programs
Child Center of New York	All Students	Wellness and Integrated Supports	Provide social and emotional supports both in and out of the school community. Provide additional resources that target students in temporary housing.

Implementation of Community School Core Features & Components

Collaborative Leadership and Practice: Describe how the CBO will share leadership and engage in collaborative planning with the Community School to achieve the school's annual goals.

All constituents will meet both weekly and monthly to review all data reports. We will work collaboratively to identify areas of strength and areas of need so that the alignment of all resources can best serve the school community. This collaborative planning between our Community Based Organization (CBO), CCNY, and Elm Tree Elementary will involve shared leadership in setting and achieving annual goals. Together, we will strategize on increasing family engagement with community resources, improving attendance, and strengthening the home-school connection. We will also focus on enhancing student proficiency rates in ELA and Math through targeted before and after-school programs, while ensuring that social and emotional supports are provided both within and outside the school community. Additionally, our efforts will include providing specialized resources that specifically target students in temporary housing, fostering a comprehensive approach to support every student's academic and personal growth.

Family and Community Engagement: Describe how your Community School will develop authentic school-family partnerships, and create the conditions for families and community members to participate in decision-making, hold leadership roles that drive school change, and serve as partners in students' holistic development.

CCNY (Elm Tree's CBO) develops authentic school-family partnerships by actively engaging with families through personal face-to-face interactions, phone conferences, and regular monthly meetings. They encourage family involvement in PTA meetings and assist parents in recognizing their roles as leaders to support their children effectively. CCNY holds forums to survey families and analyzes areas of success and improvement needed to better serve their children and families. Additionally, CCNY sends out needs assessments two to three times a year to ensure they are meeting community needs.

To create conditions for families and community members to participate in decision-making, CCNY convenes weekly or monthly meetings to discuss current trends within the school community. These gatherings identify areas of need and foster connections with external resources that can best serve the school community. CCNY actively involves families and community members in key decision-making processes such as School Leadership Team (SLT) meetings, Instructional Cabinet discussions, PTA engagements, and Town Hall assemblies.

Furthermore, CCNY takes on leadership roles that drive school change by actively participating in all major decision-making processes that benefit the school community. They contribute to shaping policies and programs that support students and families, ensuring their voices are heard and respected in the decision-making framework.

In terms of students' holistic development, CCNY serves as partners by advocating for programs, resources, and community ties that best support students and their families. They collaborate with stakeholders to ensure that educational and social-emotional needs are addressed comprehensively, aiming to foster a supportive environment that nurtures every aspect of student growth and development.

Implementation of Community School Core Features & Components

Wellness and Integrated Supports: Describe how your Community School will address out-of-school barriers to learning through partnerships with social and health service agencies and providers to help students attend school regularly and engage in learning through the provision of programs such as social emotional learning, conflict resolution training, and restorative justice.

CCNY (Community School) addresses out-of-school barriers to learning through robust partnerships with social and health service agencies, ensuring comprehensive support for students to attend school regularly and engage effectively in learning. These partnerships encompass a range of services including behavioral health homes, integrated care, prevention and family support services, residential services, and clinical consultations. By collaborating with these agencies, CCNY aims to provide holistic support that addresses the diverse needs of students and their families outside of the school environment.

To facilitate regular school attendance and promote engagement in learning, CCNY offers a variety of programs both before, during, and after school. These programs include social emotional learning initiatives, conflict resolution training, and restorative justice practices. These initiatives are designed to equip students with essential skills and strategies to manage emotions, resolve conflicts constructively, and build positive relationships within the school community.

Additionally, CCNY employs youth advocates who play a crucial role in supporting core instructional classrooms. These advocates serve as additional staff members who provide personalized support to students, helping them to connect effectively with their academic and social-emotional needs. All youth advocates are extensively trained, including in the facilitation of restorative circles, which promote healing and accountability among students involved in conflicts or disciplinary issues.

Through these collaborative efforts and proactive programs, CCNY ensures that students receive the necessary support to overcome barriers to learning, fostering a nurturing environment where all students can thrive academically and socially. This approach underscores CCNY's commitment to addressing the holistic needs of students and promoting their overall well-being within the school community.

Every Student, Every Day: Describe how your Community School will work with CBO partners to meet weekly and use data from DOE systems and New Visions for Public Schools to monitor trends in attendance, assign personalized interventions–including Success Mentors–to chronically absent students, and draw on community resources for support with removing barriers to attendance.

For support, you may access strategies here.

Elm Tree Elementary collaborates closely with CCNY on a weekly basis to utilize data from DOE systems and New Visions for Public Schools in monitoring attendance trends and addressing barriers to regular school attendance. Through these partnerships, CCNY implements personalized interventions, including assigning Success Mentors to chronically absent students. This proactive approach ensures that students receive individualized support tailored to their specific needs.

To effectively monitor attendance and intervene where necessary, CCNY participates in monthly attendance

meetings and regularly reviews data reports such as those highlighting Chronically Absent Students. This data-driven approach enables CCNY to implement the Attendance Plan, providing Tier 2 and 3 supports such as mentorship programs and assigning case loads to youth advocates who connect directly with families. In cases where additional support is needed, CCNY conducts home visits to better understand and address underlying barriers to attendance.

In addition to academic interventions, CCNY addresses broader family needs by providing essential resources. A food pantry is available to families facing food insecurities and hardships, ensuring that basic needs are met to support student attendance and well-being. Health supports, including vision/hearing screenings and dental cleanings, are also facilitated to enhance overall student health and attendance.

Furthermore, CCNY organizes resource fairs that address a wide range of additional barriers faced by families. These fairs provide access to community resources and services aimed at supporting families in overcoming challenges related to attendance and overall well-being.

Through these integrated efforts with CBO partners and community resources, CCNY is dedicated to fostering a supportive environment where every student has the opportunity to thrive academically and personally by addressing barriers to attendance and promoting overall student success.

Special Populations: Describe how your Community School will work with your partners to ensure students receive differentiated and culturally responsive supports. Describe how your Community School's systems and structures will be optimized to work for <u>all</u> students, including students in temporary housing, Multilingual Learner/English Language Learner (ML/ELL), and Students with Disabilities.

CCNY collaborates closely with Elm Tree Elementary School's constituents to implement inclusive practices that support all families, including those in temporary housing, Multilingual Learners/English Language Learners (ML/ELL), and Students with Disabilities. Monthly reports are used to identify specific needs within these subgroups, allowing CCNY to allocate resources and supports accordingly. This proactive approach ensures that targeted support is provided where it is most needed, optimizing outcomes for diverse student populations.

To ensure equitable access to resources and supports, CCNY prioritizes connecting with students and their families. This proactive engagement helps to identify individual needs and provide personalized assistance, fostering a supportive environment where every student can thrive.

Furthermore, CCNY invests in staff development by providing Culturally Responsive and Sustaining Education (CRSE) training. This training equips staff members with the skills and knowledge needed to effectively support and engage with students from diverse cultural and linguistic backgrounds. By promoting cultural responsiveness, CCNY ensures that all students receive differentiated support that respects and celebrates their cultural identities.

In terms of systems and structures, CCNY optimizes its operations to accommodate the needs of all students. This includes implementing flexible and adaptable approaches that cater to the unique challenges and strengths of students in temporary housing, ML/ELL students, and students with disabilities. By continuously evaluating and adjusting its systems, CCNY ensures that every student receives the necessary supports to succeed academically and socially within the school community.

Overall, CCNY's commitment to inclusive practices, proactive engagement with families, targeted support allocation, and CRSE training for staff reflects its dedication to optimizing systems and structures that work effectively for all students, promoting equity, and fostering a supportive learning environment for everyone.

Expanded Learning Time (ELT)

Describe how your Community School will offer opportunities for enrichment through after-school, weekend, and summer programs, as well as additional instruction, individualized academic support, and enrichment activities that emphasize real-world learning and community problem solving.

Refer to the Multi-Tiered Systems of Support (MTSS) section of the CEP for the ELT program description indicating how the school's ELT program is offered to all eligible students considered to be at-risk of not meeting state standards.

Submission Assurances

Submission Assurances

- ☐ The Comprehensive Education Plan (CEP) has been developed in consultation with parents, school staff, and others in accordance with the requirements of Shared-Decision Making (CR 100.11) to provide a meaningful opportunity for stakeholders to participate in the development of the plan and comment on the plan before it is approved.
- ☐ As part of the root cause analysis process, the school reviewed inequities, including resource inequities within the school, and investigated areas of low performance to identify strategies to address inequities within the school and promote improved student outcomes.
- ☐ The CEP School Leadership Team (SLT)/Stakeholder Signature Page will be printed, scanned, and submitted with the signatures of those that participated in the development of the CEP. DocuSign may also be used to secure electronic signatures for the CEP SLT/Stakeholder Signature Page. If the school was unable to obtain a signature of an individual that participated in the development of the CEP, the school has written “Addendum Attached” and provided supplemental documentation to explain why the school was unable to obtain the individual’s signature.
- ☐ The CEP will be implemented no later than the beginning of the first day of regular student attendance.
- ☐ Professional development will be provided to teachers and school leaders that will fully support the strategic efforts described within this plan.

Language Allocation Policy Outline

Language Allocation Policy Outline

2025-26 Language Allocation Policy (LAP)

This submission form supports schools with organizing a well-conceived school-based Language Allocation Policy (LAP) that describes high quality programs for Multilingual Learners/English Language Learners (MLs/ELLs). This is an annual plan of how your school will support the linguistic and academic needs of MLs/ELLs and must be completed yearly. The Language Allocation Policy (LAP) is a part of schools' Comprehensive Education Plan (CEP).

This is a living document. Any school-wide changes involving the instruction of MLs/ELLs, such as the addition or expansion of a Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE) program, should be updated in this form.

Agenda, minutes of LAP meetings, and LAP team members' attendance at meetings should be kept readily available on file in the school with all other ML/ELL critical documents. When preparing your school's submission, provide extended responses in the available spaces.

For additional information, refer to the NYC DOE Policy and Reference Guide for MLs/ELLs. For additional support with ML/ELL policy, please reach out to your respective ML/ELL Director or ELL Compliance Performance Specialist; for support with ML/ELL instruction, please contact your ML/ELL Services Administrator.

Part I: School ML/ELL Profile

This section should reflect the school's demographics for the 2025-26 school year. If completing before the 2025-26 school year begins, questions should be based on the anticipated population served by the school.

A. Language Allocation Policy Team Composition

The members of the school's LAP team are listed below. A school's LAP team must consist of at least one: principal, assistant principal (where applicable), an English as a New Language (ENL) teacher, an additional teacher (bilingual teacher if the school has a bilingual program or a teacher from a content area other than bilingual education or ENL) and a parent/guardian.

Required LAP team members are denoted with an asterisk (*) below. Please do not leave any fields blank. If a role is not represented on the LAP team, include "N/A" below.

Member Title	Name
Principal*	Kristen Niven
Assistant Principal (Where Applicable)*	Jennifer Erichsen
English as a New Language (ENL) Teacher*	Nicole Gagliardi
Teacher (if school has a bilingual program must be a bilingual teacher)*	Fatima Haynes
Parent/Guardian*	Laura Robledo
Assistant Principal	Martha Martinez
Assistant Principal	Michelle Pinargote
ENL Provider	Stephanie Huerta
ENL Provider	Jessamine Mckeever
Parent Coordinator	Gisella Catarine
IEP Teacher/Sped Coordinator	Dayana Cantillo

B. Teacher Qualifications

Please review all certifications for all staff members at your school, and indicate the number of certified staff for each category.

1. English to Speakers of Other Languages (ESOL) Certified Teacher

Number of ESOL certified teachers currently teaching ENL:

6

Number of teachers currently teaching a stand-alone ENL class who hold both a common branch license and ESOL certification [applicable to grades K–6]:

5

Number of certified ESOL teachers not currently teaching ENL:

5

Number of teachers who hold both content area/common branch and ESOL certification:

10

Number of ESOL certified teachers with a bilingual extension:

2

2. Certified Teachers with a Bilingual Extension

Number of certified teachers with a bilingual extension currently teaching in a bilingual program:

13

Number of certified teachers with a bilingual extension not currently teaching in a bilingual program:

4

Number of teachers certified to teach students with disabilities that also have a bilingual extension:

8

3. Language Other than English (LOTE)/World Language Certified Teachers:

Total number of teachers with LOTE certification:

N/A

Total number of teachers with LOTE certification providing World Language instruction:

N/A

Total number of teachers with LOTE certification providing Home Language Arts (HLA) to students in bilingual programs:

N/A

C. Student Demographics

Please review the student demographics at your school and complete the number and percentage for each category.

Total number of students (excluding pre-K):

853

Total number and percentage (%) of current ELLs:

523; 61.3%

Total number and percentage (%) of former ELLs:

75, 8.8%

Total number and percentage (%) of ELLs who are Newcomers (0-3 years of service):

433, 82.8%

Total number and percentage (%) of ELLs who are Developing ELLs (4-6 years of service):

90; 17.2%

Total number and percentage (%) of ELLs who are Long-Term ELLs (7 or more years of service):

0; 0.0%

Total number and percentage (%) of ELLs who are Students with Inconsistent/Interrupted Formal Education (SIFE):

5, 1.0%

Total number and percentage (%) of ELLs with an Individualized Education Program (IEP):

103, 19.7%

Part II: Bilingual Programs

Does your school have a bilingual program (Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)?

Yes

Provide the number of classrooms for each bilingual program, by grade, at your school for the 2025-26 school year. If submitted before the 2025-26 school year begins, this should be the anticipated number of classrooms based on anticipated enrollment. Each language and program model--Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)--is considered a separate program. In the second column, please indicate if the program is General Education (GE), Integrated Co-Teaching (ICT) special education, Special Class (SC), or Mixed-Group Class (MGC) special education. If a classroom bridges two grades, list as 0.5 classrooms for both grades.
Please include the total number of classrooms for each bilingual program in the last column.

	Program Type	Language	School Yr Opened	k	1	2	3	4	5	6	7	8	9	10	11	12	Totals
TBE	GE	Spanish	2023				1	1	1								3
TBE																	0
TBE																	0
DLBE	GE	Spanish	2013	1	1	1	1	1	1								6
DLBE	ICT	Spanish	2013	1	1	1	1	1	1								6
DLBE																	0
				total: 2	total: 2	total: 2	total: 3	total: 3	total: 3	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	

Part III: ML/ELL Programming

Please refer to New York State **Commissioner's Regulation (CR) Part 154 Units of Study Tables** as you describe academic programming for MLs/ELLs at your school below. Please do not leave any fields blank and indicate "N/A" for any fields that are not applicable.

Describe your English as a New Language (ENL), and if applicable Dual Language Bilingual Education (DLBE), and Transitional Bilingual Education (TBE) programs. For each program, include:

- How stand-alone ENL is implemented as per CR Part 154
- How integrated ENL is implemented as per CR Part 154
- How students are grouped (e.g., block [class travels together as a group], ungraded [all students regardless of grade are in one class], heterogeneous [mixed proficiency levels], homogenous [proficiency level is the same in one class]).

a. English as a New Language (ENL)
Stand-alone ENL:

In accordance with CR Part 154, Stand-Alone English as a New Language (ENL) instruction is provided to English Language Learners (ELLs) and Multilingual Learners (MLs), with instructional time determined by each student's English proficiency level. Students at the Entering (Beginning) level receive one unit of study (180 minutes per week), while Emerging level students receive half a unit (90 minutes per week).

During Stand-Alone instruction, students are grouped by language proficiency level and work with ENL teachers who focus on developing foundational skills such as vocabulary acquisition and conceptual understanding. This model is often paired with co-teaching or integrated ENL instruction, particularly for students at the beginning stages of English language development.

Stand-Alone ENL classes are structured around students' language and literacy levels, using a developmental framework to provide targeted instruction. Language arts and content-area instruction are delivered in English, supported by research-based strategies such as the use of visuals, response frames, fluency building, and unified-class discussion expectations. Instruction may also incorporate students' home or primary languages to support comprehension and facilitate learning.

While students are typically grouped by grade level within Stand-Alone classes, flexible grouping across two consecutive grades may be used when appropriate and feasible. The overarching goal of this instructional model is to support students in reaching the state-designated level of English proficiency for their grade level and to ensure they meet the New York State learning standards.

Integrated ENL:

English Language Learners (ELLs) and Multilingual Learners (MLs) receive both core content area instruction and English language development through Integrated ENL instruction. This model incorporates the use of students' home languages as a support, along with targeted instructional strategies to enhance comprehension and engagement.

Integrated ENL classes are either taught by a dually certified teacher (ENL and content area) or co-taught by a certified ENL teacher and a certified content area teacher. Students are grouped by language proficiency level and receive instruction based on the following time allocations:

Entering: 180 minutes of Integrated ENL/ELA
Emerging: 180 minutes of Integrated ENL/ELA, plus 90 minutes of Integrated ENL in a core content area (flexible)
Transitioning: 90 minutes of Integrated ENL/ELA, plus 90 minutes of Integrated ENL in a core content area (flexible)
Expanding: 180 minutes of Integrated ENL in ELA or another core content area
Commanding: 90 minutes of Integrated ENL in ELA or a core content area

The level of support and instructional strategies used are differentiated based on students' language proficiency levels.

Students at the Entering Level, who make up 10.7% of our ELL population, are at the very beginning stages of English language development. These students require the highest level of language support. Instruction for these students emphasizes basic vocabulary acquisition, survival language, and the development of early listening and speaking skills. In Integrated ENL settings, ENL teachers provide highly scaffolded instruction using visuals, gestures, realia, modeling, and first language support when possible. Co-teaching models, inclusive of parrallel teaching and alternative teaching maybe used so that Entering students can receive focused small-group instruction while still participating in the general education setting. These students are often grouped together during targeted instructional periods to build foundational English skills in a supportive environment, while also being given opportunities to engage with more proficient peers for language modeling and social integration.

Students at the Emerging level, who make up 21.8% of our ELL population, are at the beginning stages of English language development. In Integrated ENL settings, these students receive intensive scaffolding, including the use of visuals, modeling, sentence frames, and home language support when appropriate. Co-teaching models such as parallel teaching are often used to allow ENL teachers to work with small groups, reinforcing foundational vocabulary and language structures necessary for content access.

For students at the Transitioning level, who represent 23.2% of our ELLs, instruction emphasizes the development of academic vocabulary, reading comprehension, and the ability to participate in structured academic conversations. These students are beginning to use English more independently, so lessons often include collaborative work and opportunities for speaking and writing across content areas. ENL and content-area teachers co-deliver instruction, ensuring that language goals are integrated into content learning.

Our Expanding students, who comprise 34.3% of our ELL population, are approaching full proficiency in English and are capable of engaging in more complex academic tasks. ENL support at this level focuses on refining oral and written language, increasing the complexity of vocabulary and sentence structure, and strengthening comprehension in academic contexts. Instruction is more seamlessly embedded into the general classroom experience, with the ENL teacher supporting whole-group instruction and using formative assessment to identify remaining language needs.

Our Former ELL Students, who comprise 10.0% of our population, still receive continued support integrated in ELA/Core Content Area Instruction within the classroom. ENL Support at this level focuses on key strategies including explicit teaching of academic vocabulary, scaffolded instruction (e.g., sentence stems, visuals, graphic organizers), and ongoing progress monitoring. Supports are targeted yet rigorous, helping students develop academic language while maintaining high expectations, with attention to their cultural and linguistic assets. These supports typically continue for up to two years post-exit.

ELLs/MLs are placed in heterogeneous classrooms and primarily receive Integrated ENL instruction during their literacy periods. Instruction is scaffolded to support the development of speaking, listening, reading, and writing skills. Students are often divided into two strategic learning groups, with teachers using parallel teaching methods to deliver the same content through differentiated strategies tailored to students’ language needs. However, we also employ co-teaching models to support explicit modeling and instruction of content material with an emphasis on the language demands of the tasks.

Teachers are expected to establish clear instructional goals that support both language development and content mastery. Integrated ENL instruction is designed to seamlessly blend language acquisition with academic content, using scaffolding techniques to make lessons accessible while providing meaningful opportunities for language practice.

Instruction includes explicit teaching of language structures and features relevant to the content area, such as academic vocabulary, language functions, sentence structures, and discourse patterns. Teachers also incorporate culturally responsive content and practices, fostering inclusive environments that value students' linguistic and cultural backgrounds.

Formative assessment is an integral part of instruction. Teachers use ongoing observation, questioning, and informal assessments to monitor students' language development and content understanding. Timely, constructive feedback is provided to guide students' progress.

Collaborative learning is also emphasized. ELLs engage in group work, cooperative learning, and peer tutoring to construct meaning, negotiate understanding, and develop language proficiency in authentic, interactive contexts.

By implementing these strategies, Integrated ENL instruction supports the simultaneous development of language and academic content knowledge, empowering ELLs to succeed in mainstream classrooms and meet New York State learning standards.

b. Bilingual Education (If applicable)

Transitional Bilingual Education (TBE):

Elm Tree Elementary School offers a Transitional Bilingual Education (TBE) program for students in Grades 3 through 5. This program is designed to support English Language Learners (ELLs) in developing English proficiency while continuing to access grade-level academic content in their home language, Spanish. Instruction in Spanish serves as a bridge, allowing students to build a strong academic foundation as they transition to English. As students' English language skills improve, the amount of instruction in Spanish is gradually reduced, with the ultimate goal of transitioning students into an English-only instructional setting.

The TBE program at Elm Tree Elementary is grounded in the belief that students can achieve academic success in both languages. It aims to help students master grade-level content in Spanish while developing the English language skills necessary to thrive in mainstream classrooms. Once students reach the required level of English proficiency, they transition out of the bilingual setting and continue their education in English, while still being encouraged to maintain and develop their multilingual and multiliterate abilities. The program also emphasizes the importance of cultural identity, encouraging students to take pride in their heritage while fostering an appreciation for the diverse cultures and perspectives within the school community.

Instruction in the TBE program includes core content areas taught in both English and Spanish. As students' progress in their English language development, more instructional time is dedicated to English, while support in the home language is gradually reduced. Scaffolding is provided across all language domains—speaking, listening, reading, and writing—to ensure students can access and engage with the curriculum. Both English as a New Language (ENL) and Home Language Arts (HLA) instruction are delivered to meet mandated instructional minutes and support students' academic and linguistic growth.

Classrooms in the TBE program consist of students who share Spanish as their home language but may have varying levels of English proficiency, however we primarily have students who at the Beginning Stages of Language Development programmed in this model type. Instruction is differentiated to meet the diverse needs of learners, and teachers use a range of strategies to support language development and content mastery. The program is designed not only to facilitate a smooth transition to English-only instruction but also to affirm students' cultural and linguistic identities, ensuring they feel valued and supported throughout their educational journey.

Dual Language Bilingual Education (DLBE):

Elm Tree Elementary School offers a Dual Language program using the 50/50 Stand-Alone Dual Language model of instruction where students alternate the language of instruction each day. The only grade that is currently still employing a side by side model is Grade 4. This program is designed to foster bilingualism and biliteracy by delivering instruction in both English and Spanish. In the 50/50 model, students receive equal instructional time in each language, typically divided evenly across the week, allowing for balanced language development.

Instruction in the Dual Language program is carefully structured to support growth in all four language domains: listening, speaking, reading, and writing. All classroom instruction is delivered in both English and Spanish, with ENL (English as a New Language) and HLA (Home Language Arts) services provided to meet mandated instructional minutes—360 minutes for Entering and Emerging students, and 180 minutes for Transitioning and Expanding students. Teachers employ a range of instructional strategies, including immersion, translanguaging, and code-switching, to enhance comprehension and facilitate learning in both languages. Instructional materials, resources, and assessments are available in both English and Spanish, ensuring that students can access grade-level content and make meaningful connections across languages.

Students in the Dual Language program engage daily with peers who speak both English and Spanish, creating rich opportunities for authentic language practice and social interaction. Collaborative learning experiences such as group projects, peer tutoring, and cooperative activities not only support language development but also promote cross-cultural understanding and appreciation.

Classrooms are composed of students with varying levels of language proficiency, creating a heterogeneous learning environment that encourages peer support and differentiated instruction. This inclusive model ensures that all students, regardless of their proficiency level, are supported in developing strong academic and linguistic skills in both languages.

2. How does your school ensure the mandated number of instructional minutes are provided according to students' English language proficiency levels in each program model?

Elm Tree Elementary School ensures that all English Language Learners (ELLs) and Multilingual Learners (MLs) receive their mandated instructional minutes in both English and the target language. Through our Dual Language program, the majority of students in Grades K–5 meet their required instructional minutes based on their English proficiency levels. English Language Arts (ELA) is delivered on designated English days, while Home Language Arts (HLA) is provided on Spanish days, maintaining a balanced approach to bilingual instruction.

Students in our monolingual Special Education 12:1:1 classrooms receive their mandated instructional minutes through an integrated model. In this setting, a TESOL-certified teacher collaborates closely with the special education teacher to support language acquisition and vocabulary development. Instruction is delivered in the core content areas and includes English language development, home language support, and appropriate scaffolds tailored to the needs of ELLs.

Other ELLs/MLs in monolingual general education classrooms receive language support through either a push-in or pull-out model, facilitated by a TESOL-certified teacher. These services focus on vocabulary development and scaffolding during literacy and writing instruction. Students at the Entering and Emerging proficiency levels also receive additional pull-out ENL services to ensure their language development needs are met.

All students, regardless of proficiency level, receive integrated ENL instruction during ELA and/or core content area instruction, with time allocations aligned to their proficiency levels. Entering students receive one unit of ENL instruction (180 minutes) through a pull-out model, along with one unit (180 minutes) of integrated ENL/ELA instruction. Emerging students receive two units of instruction: 0.5 unit (90 minutes) through pull-out ENL and one unit (180 minutes) through integrated ENL/ELA, with an additional 0.5 unit (90 minutes) allocated based on individual student needs. Transitioning students receive one unit per week, consisting of 0.5 unit (90 minutes) of integrated ENL and 0.5 unit (90 minutes) determined by student need. Expanding students receive one unit (180 minutes) of integrated ENL/ELA, which may be delivered through any content area that best supports their development. Commanding students continue to receive support for an additional two years, with 0.5 unit (90 minutes) per week of integrated ENL instruction in a content area.

This comprehensive programming ensures that all ELLs/MLs receive equitable access to instruction that supports both language development and academic achievement, while also meeting state-mandated requirements.

3. How are ENL, English Language Arts (ELA) and if applicable, Home Language Arts (HLA) instructional minutes delivered in each program model?

In Monolingual classes, ELLs receive their mandated minutes by a teacher that is certified in both the common branches and ESOL or by a certified ESOL teacher that works alongside a K-6 certified elementary school teacher using a push-in or pull-out method.

In the Dual Language stand-alone model, a certified Elementary teacher with a bilingual extension provides instruction in both English and the home language (Spanish). All subjects are taught in both English and Spanish on alternating days. In the Dual Language side-by-side model, there are 2 certified teachers and one is bilingual certified. Students rotate and receive instruction in all content areas in English and Spanish on alternating days.

In Transitional Bilingual classes, there is one K-6 certified teacher with a bilingual extension. In this program model, as the students progress in English, they will spend more time learning in English and spend less time learning in the home language.

4. For schools with Dual Language Bilingual Education (DLBE) programs:

a. Which Dual Language Bilingual Education model is implemented? Explain how much of the instructional day (percentage) English proficient students and ELLs are integrated.

Elm Tree Elementary School provides a Dual Language program using the 50/50 collaborative side by side model or stand-alone for grades PK through 5th. Research shows that students in a dual language program excel and show more progress than in other programs. The target language is Spanish being that most of our ELL/ML population's home language is Spanish. The students follow an alternating schedule and students in each class are heterogeneous with regards to proficiency levels. All classroom instruction will be provided in the 2 languages (L1 and L2) and time is evenly distributed for access and equity. Scaffolding will be provided for speaking, listening, reading, and writing activities by the teacher. We implement a two-way dual language program, which is based on the premise that two groups of students (each with different home languages, one being English) learn together in a systematic way so that both groups become bilingual and biliterate in the two languages. The benefits of this programming is language-minority students build their native language proficiency, which in the long run strengthens their acquisition of the majority language (English). English speakers develop proficiency in a new language, and their English skills are strengthened by this additional cognitive process.

b. In which language(s) is each core content area taught?

For our Dual Language program literacy and math are taught in English and in Spanish on alternating days. Science/STEM and Social Studies are taught in English with home language supports utilized to facilitate language acquisition.

5. For schools with Transitional Bilingual Education (TBE) programs:

a. Which core content areas are taught bilingually?

For our Transitional Bilingual classes, Reading, Writing, and Math are taught both in English and the home language (Spanish). However, distribution of English for core content will increase as needed based on student data. Social Studies and Science/STEM are taught in English during time-frames that they are engaged in their special subject areas, but taught in the students' L1 with L2 integration when integrated into content-area curriculum.

Part IV: Data Analysis

Data Analysis

After reviewing and analyzing school demographic and assessment data, answer the following questions. The ELL Data Analysis Tool (EDAT) provided by the Office of Multilingual Learners can assist with identifying these data points.

For additional information, refer to Data Analysis Professional Learning Module and ELL Data Analysis Tool (EDAT) Professional Learning Module.

1. What is the composition of the ELL subgroups at your school?
What percentage of ELLs are Newcomers? How does effective instruction for Newcomers differ from those provided to Developing or Long-Term ELLs?

The percentage of Newcomers (0-3 Years of Service) is 82.8% (433) students. Services for Newcomers typically focus on intensive language support and cultural orientation to help them adjust to their new environment. In contrast, Developing and/or Long-Term ELLs receive more targeted language development based on their proficiency level, with a focus on academic content and long-term language acquisition.

Newcomer ELLs require intensive language support and help adjusting to a new cultural and academic environment. Instruction for these students focuses on building foundational English, especially survival language, and introducing school routines. Teachers rely heavily on visual supports, native language resources, and simplified content. Scaffolds for Newcomers include chunking texts, providing sentence frames, using real-life objects (realia), and modeling language explicitly. Students who are at Beginning Levels of Language Proficiency (Entering and Emerging) benefit from high visual support, gestures, realia, native language use, and tasks focused on vocabulary (e.g., labeling, matching, using simple sentence frames). Instruction should be highly scaffolded with multimodal inputs.

In contrast, Developing ELLs have typically been serviced for 4–6 years and possess a stronger foundation in English and are at Higher Levels of Language Proficiency (Transitioning and Expanding). These students still require support, particularly in mastering academic language across subjects. Instruction emphasizes vocabulary development, reading comprehension, and structured opportunities to practice oral and written language. Teachers use small-group instruction, authentic texts, and structured peer interactions to reinforce skills.

Instruction for both Newcomers with limited English proficiency and Developing English Language Learners must be responsive to their linguistic and cultural backgrounds as well as their individual academic needs. At our school, we place an emphasis on using visual supports, structured peer collaboration, explicit language modeling, and language-building routines, particularly those that prioritize vocabulary development. Translated materials and scaffolded tasks are used to ensure access to content across subject areas.

Although Elm Tree Elementary does not currently serve any Long-Term ELLs, if such students were enrolled, instructional strategies would shift to include a stronger emphasis on oral language and expressive language

development. Activities such as structured discussions, oral presentations, and the use of rubrics to assess and guide oral proficiency would be integrated into daily instruction. In addition, students would be exposed to rich language experiences that include authentic texts, purposeful conversations, and real-world applications of academic language. Teachers would also implement more advanced scaffolding techniques to meet their evolving needs.

What percentage of ELLs are Students with Inconsistent/Interrupted Formal Education (SIFE)? How do you differentiate effective instruction for SIFE?

PS 211 has 5 SIFE students which makes 1.0% of ENL students. We differentiate by initially assessing individual needs by conducting diagnostic assessments such as; NYSITELL, Spanish Lab, Mclass (Dibels, Lectura), IReady, and map growth so we can determine the students current academic levels, language proficiency and learning gaps. In addition, we utilize information provided by the Multilingual SIFE Screener (in the designated Home Language of the student) which is a diagnostic tool used by New York State schools to identify students with interrupted or inconsistent formal education (SIFE). We use this information to gauge students' literacy skills in their home language and it helps us devise specific support to help them in closing learning gaps. Then as the year progresses we continue to use formative assessments to monitor progress.

For SIFE students we design flexible, scaffolded instruction. Support for SIFE students include programming services that align to students specific needs while specifically accelerating academic literacy skills. We prioritize foundational literacy skills like phonics, phonemic awareness, and vocabulary. The use of language supports such as visuals, graphic organizers, and modified text are provided within the content areas.

Additionally, we encourage our SIFE students to participate in our before or after school intervention programs to further support their individual needs.

What percentage of ELLs are Long-Term ELLs? How does effective instruction for Long-Term ELLs differ from instruction designed for Developing ELLs?

At PS 211, we currently do not have any long term ELLs (7 or more years of ELL service). However, we do have 90 or 17.2% of potential long-term ELLs that have 5-6 years of service.

Effective instruction for Long-Term English Language Learners differs from instruction for Developing English Language Learners in several key areas, reflecting their distinct language proficiency levels, academic backgrounds, and instructional needs.

For Developing ELLs, language-focused instruction is used and an emphasis is placed on explicit language instruction, including vocabulary development, grammar, and sentence structure. Teachers use visual aids, and simplified language to make content comprehensible. Scaffolding Techniques are used where teachers provide support through sentence frames, graphic organizers, and modeling to help students produce language. For instance, using sentence starters like "I think the answer is..." can guide students in forming complete sentences. Repetition and Practice is another instructional practice that provides frequent opportunities for practice and repetition to help reinforce language skills. Activities such as role-playing, interactive games, and peer discussions are beneficial as well.

For Long-Term ELLs, academic language development is important. Instruction shifts towards developing academic language proficiency, focusing on reading comprehension, writing skills, and subject-specific vocabulary. Also, critical thinking and analysis where teachers encourage higher-order thinking by engaging students in discussions, debates, and problem-solving activities that require the use of academic language.

What percentage of students are former ELLs? How is your school providing mandated instruction to former ELLs?

There are 31 or 3.6% former ELLs at PS 211. Even after students transition out of English Language Learner programs, it's crucial for schools to continue providing support to ensure their academic success. In compliance with New York State regulations, former ELLs are entitled to receive at least 0.5 units of study, or its equivalent, of Integrated English as a New Language (ENL) instruction per week. This instruction is delivered by a certified ENL provider and is integrated into English Language Arts (ELA) or core content areas. The ENL provider collaborates with teachers to support students within the classroom. Additionally, schools are required to monitor the academic progress of former ELLs, tracking their performance in core subjects and standardized assessments. This ongoing monitoring helps identify any areas where additional support may be needed to ensure continued academic achievement.

2. Examine all at-risk levels that might adversely affect ELLs at your school. What trends do you notice about the at-risk levels of ELLs at your school?

The trends of the at-risk indicators that adversely affect Elm Tree Elementary ELLs are that a substantial portion of our ELL population
(82.8%) are newcomers with 0-3 years of school experience which means many of our students are adapting to the school environment and language acquisition. Another at risk indicator is unstable living situations, 64.6% of ELL students are in temporary housing situations. This then can create additional stress and barriers to learning. Nearly 37.7% of ELLs in our community have not demonstrated sufficient progress of ELP. This reflects challenges in language acquisition despite being in our school which then impacts access to grade level content and overall academic success. On ELA and Math State Tests about 22% of our ELL students scored a level 1 or 2 this indicates that there is a significant academic risk in both literacy and math. Therefore, a majority (45.9%) of our ELL population have at least two at risk indicators and some have as many as seven. Due to these multiple risks suggests that these challenges can seriously impede academic achievement and social emotional well-being.

3. Examine all at-risk levels that might adversely affect former ELLs at your school. What trends do you notice about the at-risk levels of former ELLs at your school?

At Elm Tree Elementary School, several at-risk indicators continue to impact former English Language Learners (ELLs). One significant concern is housing instability, which affects both current and former ELLs. Notably, 61.3% of former ELLs are living in temporary housing situations. Academic performance is another area of concern—former ELLs continue to struggle on state assessments in English Language Arts (ELA) and Math, with approximately 21.3% scoring at Level 1 or 2, even after exiting ELL status. Overall, 48% of former ELLs at Elm Tree Elementary have at least one at-risk indicator, with some students facing as many as five.

4. What are the home languages of ELLs with the largest representation at your school? What staff, structures, and processes does your school have to support communication and learning that values these home languages?

At Elm Tree Elementary School, the majority of English Language Learners speak Spanish. In addition, we also have additional languages that are spoken in our school community inclusive of Chinese, Fulani, Nepali, Bengali, and

Arabic. The school currently serves 523 ELL students across grades K–5.

At Elm Tree Elementary, our Multilingual and culturally responsive staff including teachers, paraprofessionals, counselors, office personnel, a parent coordinator, and members of the administration and Instructional Leadership Team—play a vital role in supporting our ELL community. Many are bilingual and provide targeted language support, foster cultural understanding, and ensure effective communication with students and families in their home languages. and translation tools are used strategically to support communication and affirm students' linguistic and cultural identities. Bilingual staff serve as critical bridges between the school and families, helping to ensure that language is never a barrier to engagement. They assist with interpreting during parent-teacher conferences, translating school communications, and providing real-time language support to students in and out of the classroom. Their presence not only facilitates understanding but also creates a sense of belonging for students and families by honoring their home languages.

Elm Tree also hosts monthly workshops in families' preferred languages to promote engagement and provide ongoing support. Additionally, beginner English classes are offered to parents who wish to improve their language skills. Families are always warmly welcomed at school events, including the annual Multicultural Arts Festival, where students celebrate and showcase cultures from around the world.

In addition to staff support, the school leverages translation tools, such as bilingual documents, translated digital platforms, and the Elm Tree School app with multilingual features, to ensure students and families can access information in their preferred language. These tools are integrated thoughtfully, not just for logistical communication, but also to affirm students' linguistic identities by validating their native language as a valuable asset. Students are encouraged to draw on their home language when making academic connections, and families are invited to participate in school life in their own language, reinforcing that linguistic diversity is a strength, not a barrier.

By combining all of these resources, Elm Tree fosters an inclusive environment where every student feels seen, heard, and valued for who they are.

In addition, Elm Tree Elementary is proud to have a dedicated team of ENL-certified teachers who deliver specialized instruction and in-class support for ELLs. Many Spanish-speaking students participate in dual language or transitional bilingual programs, where instruction and materials are provided in both English and Spanish. For students in monolingual classrooms, language resources are made available as needed or upon request to support their academic success.

Through these initiatives, Elm Tree Elementary has cultivated an inclusive environment that honors and integrates students' home languages, enhancing both communication and academic achievement.

5. What are the racial and ethnic classifications of ELLs at your school? How are ELLs being included in planning and delivery of Culturally Responsive and Sustaining Education (CR-SE)?

By ethnicity, the ELLs at our school are made up of Non-Hispanic ELL's inclusive of the following: 5.7% American Indian or Alaskan Native; 37.1% are Asian, 28.6% are Black, 28.6% are White. In addition, our Hispanic ELL Population consists of the following: 77.3% American Indian or Alaskan Native; 1.0% Black; 1.2% Native Hawaiian or Other Pacific Islander; and16.8% White.

At Elm Tree Elementary, multilingual curriculum materials and bilingual programs are thoughtfully selected and implemented to reflect students' cultural backgrounds and support identity-affirming instruction. These resources go beyond translation, they incorporate stories, visuals, and themes that are culturally relevant and representative of the diverse communities the school serves. By seeing their languages, traditions, and experiences reflected in the curriculum, students feel recognized and valued.

Our Bilingual Programs provide students the opportunity to develop academic proficiency in both English and their home language, promoting bilingualism as an asset. This approach strengthens students' self-esteem, honors their cultural heritage, and supports deeper content understanding. Overall, these practices affirm students' identities, build stronger connections to learning, and foster a more inclusive, respectful school environment.

In order to ensure that ELLs are being included in the planning and delivery of Culturally Responsive and Sustaining Education (CR-SE), our school uses multilingual curriculum materials that incorporate texts, resources, and examples in students' native languages and reflect a variety of cultural backgrounds. Our literacy curriculum HMH Into Reading has a Spanish counterpart, ¡Arriba la Lectura!, that is utilized in our bilingual classrooms. The texts provided in the Into Reading myBook are diverse and culturally relevant. ¡Arriba la Lectura! combines research-driven instruction and the guidance of Spanish-literacy experts to provide comprehensive support for teachers and a measured path to growth in reading, writing, and communication for students. This curriculum allows us to build on the knowledge that our ELLs have, using an asset-based approach where students' linguistic and cultural identities are viewed as strengths rather than deficits. Lessons are designed to draw on student experiences, while providing the background knowledge and vocabulary instruction needed to access grade level curriculum.

Another way we ensure a Culturally Responsive and Sustaining Education for ELLs is by using student voice and engaging families in the school community. Teachers and staff use information from student and family interviews when lesson planning to gauge students interests that can be explored in the classroom. Whenever possible, teachers connect classroom content to students' home cultures, making learning more meaningful and affirming. Teachers draw on students' family and community knowledge to enrich classroom learning. Incorporating choice and student interest in the classroom helps keep students engaged in the learning process. Teachers also engage ELL families by providing outreach in the home language, translated materials, and welcoming families to the classroom for events including, but not limited to, end of unit presentations, publishing parties, holiday celebrations, and a Multicultural Arts Festival.

When it comes to planning and instruction, ENL and general education teachers collaborate to plan inclusive lessons that serve both content and language objectives. Instruction is planned with language supports such as sentence frames, bilingual glossaries, and visual aids to ensure accessibility while honoring multilingualism. Students are encouraged to use all their language resources in learning, discussion, and assessment. Teachers also receive professional development on how to integrate culturally sustaining pedagogy with language development strategies in their daily instruction.

6. What trends do you notice in reviewing English Language Proficiency (ELP) growth at your school? How many students met ELP sufficient progress? How many students did not meet ELP sufficient progress?

According to the most recent EDAT, 65.7% of students with Sufficient Exam Results did not Meet Progress, while 14.7% met Progress by Exiting ELL Status, 15.3% Met Annual Progress Target, and 4.3% Met Safe Harbor Cumulative Growth.

Further analysis reveals that 35.1% of ELLs are currently at the Expanding level of proficiency, indicating a large group nearing transition. Additionally, 112 students are within 1–10 points of advancing to the next proficiency level. This includes 24 students close to exiting ELL status, 45 students nearing the shift from Transitioning to Expanding, 22 students close to moving from Emerging to Transitioning, and 21 students on the verge of progressing from Entering to Emerging.

Modality data shows that Speaking is a consistent strength across all grade levels, with students in Grades 2 through 5 scoring above 90% in this area. First grade students also demonstrated notable strength in Reading.

These results suggest that instructional practices at PS 211 effectively emphasize oral language development, particularly through the use of linking words, sequencing, and topic relevance—key components assessed in the NYSESLAT Speaking modality.

Students without NYSESLAT growth data were typically either newly arrived and had only taken the NYSITELL, or were in Kindergarten, where only one NYSESLAT score is available, making year-over-year growth calculations impossible. Overall, PS 211 Elm Tree is making encouraging progress in supporting ELLs toward proficiency, with strong speaking instruction and a substantial number of students on the cusp of advancing to higher proficiency levels.

After analyzing our most recent NYSESLAT data, we identified a grade-wide trend indicating that writing continues to be a consistent area of need. This has been a historically persistent pattern, especially when compared to stronger performance in other modalities. Additionally, many newly arrived students struggle with expressive language skills, particularly in speaking and writing. These findings support our instructional programming—especially within the Stand-Alone ENL component—by prioritizing oral language development for Entering and Emerging students and focusing on the academic language necessary for success in content areas. Furthermore, we must continue to strengthen our writing instruction by creating more meaningful opportunities for students to engage with and respond to grade-level texts.

7. When you look at the results of the New York State English as a Second Language Achievement Test (NYSESLAT), what stands out? What trends are there for each modality?

Based on our most recent EDAT, a notable trend emerged across grade levels at PS 211 Elm Tree. For first grade students, Reading was the strongest modality, with 27 out of 87 students answering 90% or more of the questions correctly. This stands in contrast to grades 3 through 5, where Speaking consistently emerged as the strongest modality. In third grade, 37 out of 95 students scored 90% or higher in Speaking; in fourth grade, 38 out of 81 students achieved the same; and in fifth grade, 37 out of 76 students reached this benchmark.

Conversely, Speaking was the lowest-performing modality for first grade students, with 30 out of 76 students answering only 15% or fewer of the questions correctly. For second grade students, both Writing and Speaking were areas of concern. In Writing, 34 out of 97 students scored below 15%, while in Speaking, 20 out of 97 students fell into the same low-performance range.

As we have begun analyzing the 2025 NYSESLAT data, early trends suggest a continued pattern of Writing being a primary area of need across multiple grade levels. This consistent challenge highlights the importance of closely examining current writing instruction strategies and considering additional resources or professional development opportunities to better support multilingual learners in developing their writing proficiency.

8. What is the relationship between students' performance on the NYSESLAT and other state assessments such as the ELA assessment, the Math assessment, and the Regents exams?

At PS 211 Elm Tree, there is a strong correlation between students' English language proficiency, as measured by the NYSESLAT, and their performance on the ELA and Math State Assessments. Students who reach higher proficiency levels—particularly those in the Expanding and Commanding ranges—are significantly more likely to meet or approach grade-level standards. This trend underscores the importance of language development as a foundation for academic success.

On the ELA State Test, only Former ELLs achieved Level 3 or 4. However, 53% of these students still scored at Level 1 or 2, indicating that continued academic support is necessary even after students exit ELL status. Among current

ELLs, 100% of those at the Entering and Emerging levels and 58% of those at the Expanding level scored at Level 1. These results highlight the challenges many ELLs face in accessing grade-level literacy tasks, particularly due to limited academic language development—especially in writing.

In Mathematics, 15% of ELLs—primarily those at higher NYSESLAT proficiency levels—scored at Level 3, though none reached Level 4. Meanwhile, 23% of Beginning ELLs (Entering and Emerging) scored at Level 1. This suggests that while some students are able to perform procedural tasks, many struggle with the linguistic complexity required to solve multi-step math problems, which often include word problems and abstract reasoning.

Additional challenges are faced by ELLs with Individualized Education Programs (IEPs). Although many of these students are at intermediate or advanced proficiency levels, speech and writing delays continue to impact their performance on both the NYSESLAT and state assessments.

Modality analysis reinforces these trends. Speaking remains a consistent strength across many grade levels, while Writing continues to be a significant area of need. These patterns suggest that targeted writing instruction, clearly defined language objectives, and scaffolded academic language support across content areas are essential to improving student outcomes.

Furthermore, analysis of our most recent NYSESLAT results reveals a clear correlation between language proficiency levels and performance on state assessments. Students at the Entering and Emerging levels are not demonstrating proficiency on high-stakes tests in both ELA and Math. Although there is a slightly higher expected proficiency rate in Math, performance in both subject areas remains below the academic proficiency needed for success.

In summary, as students' English proficiency improves, so does their performance on ELA and Math assessments. However, the majority of ELLs—especially those at lower proficiency levels—require sustained, language-rich instructional supports to fully access and succeed with grade-level standards.

9. What are trends reflected in the NYSESLAT results of ELL subgroups such as ELLs with IEPs and SIFE? What do you think is impacting the results for these subgroups?

ELL students with IEPs often display slower progress in their language proficiency compared to their peers. Many ELL students remain in the Entering or Emerging levels on the NYSESLAT. This could be due to their learning challenges, accommodations/scaffolding/ differentiation within instruction, and difficulty integrating language acquisition within their academic needs. As a result, they require tailored support to meet their needs. SIFE students tend to score lower on the NYSESLAT, especially in literacy skills due to a lack of a consistent educational background. Their interruptions in schooling can result in gaps in foundational knowledge, making language acquisition harder. Other possible factors that could be impacting the results for these subgroups are emotional and social challenges. After recent analysis of our NYSESLAT, it appears that these ELL Subgroups such as ELLs with IEPs and SIFE still continue to underperform on High Stakes Assessments inclusive of the Math and ELA State Examinations.

10. (For grades 9-12 only) Please review your data in the Insight Tool and STARS to answer the following questions:
a. How many ELLs are on-track towards graduation?

N/A

b. How many ELLs in grades 11-12 have a documented postsecondary plan in STARS or ATS?

N/A

c. What targeted strategies and interventions are in place to support ELLs who are currently off-track to graduate in four years?

N/A

d. What specific strategies, engaging approaches, and interventions are implemented to support and retain students who are not on track to graduate within four years, ensuring they remain enrolled and are guided towards a successful graduation in the future?

N/A

Part V: ML/ELL Instruction

Tier 1: Core Instruction

For additional information, refer to ML/ELL Instruction Professional Learning Module.

Tier 1 Core Instruction

1. How does your school provide ELLs with a high-quality academic experience that leads to deeper learning?

At PS 211 Elm Tree, English Language Learners (ELLs) receive a high-quality academic experience designed to meet their diverse linguistic and academic needs. Through explicit and differentiated instruction, ELLs are supported in developing both content knowledge and English language proficiency. The school offers a Dual Language Program, enabling students to build literacy in both their native language of Spanish and English. Additionally, Transitional Bilingual Education (TBE) classes in grades 3–5 allow students who share a common home language to continue learning academic content in their native language while acquiring English. This approach ensures that students do not fall behind academically as they develop English proficiency.

In Monolingual classrooms, language development is embedded within content instruction, allowing ELLs to learn content and English simultaneously. Teachers integrate language objectives into daily lessons, ensuring that students are exposed to academic vocabulary and structures in meaningful contexts. To support this, staff members —including general education teachers, special education teachers, ENL providers, instructional coaches, and administrators—collaborate during common planning periods and inquiry blocks to design and implement effective, engaging, and inclusive instructional practices. Ongoing professional development equips staff with strategies for ELL instruction, cultural responsiveness, and formative assessment techniques that guide instruction and monitor student progress.

Targeted language instruction focuses on vocabulary development, grammar, and conversational fluency. The HMH curriculum incorporates culturally relevant texts, allowing students to connect their backgrounds and experiences to academic content, making learning more meaningful and engaging. ELLs participate in collaborative learning opportunities, peer feedback, and small group discussions, which provide authentic contexts for practicing English. School-Wide Initiatives including Chippy's Learning Experiences in ELA and Math further support language development through interactive, hands-on activities and are devised to tailor instruction to meet the needs of individual learners.

Technology integration plays a key role in supporting both language acquisition and content mastery. Students use platforms like iReady and Boost Ready, which offer personalized, adaptive lessons tailored to individual learning needs. These tools provide targeted practice in areas where students need the most support, while maintaining high levels of engagement through interactive content. Additionally, tools like Google Translate are used to enhance

communication and understanding, empowering both students and teachers to interact more effectively.

PS 211 Elm Tree also prioritizes family engagement and social-emotional support. ELL families are welcomed into the school community and connected with resources through the school's Social-Emotional Learning (SEL) team, which includes counselors who administer needs-assessment surveys to identify additional supports. New students are introduced during morning announcements, and staff receive a welcome email with the student's photo, background, and interests to help build connections and foster a sense of belonging. ENL providers offer targeted workshops in phonics, reading, and writing, and families are invited to participate in sessions that equip them with strategies to support learning at home.

Through this comprehensive, inclusive, and culturally responsive approach, PS 211 Elm Tree ensures that ELLs receive a rigorous academic experience that not only supports language development but also promotes deeper learning, academic confidence, and long-term success.

2. How does your school's leadership team ensure ELLs have access to core instruction/curriculum?

2. How does your school's leadership team ensure ELLs have access to core instruction/curriculum? (GAGLIARDI)

Elm Tree Elementary's Instructional Team incorporates the needs of Multilingual Learners (MLs)/English Language Learners (ELLs) into our school's instructional design, as they currently represent 61.13%—more than half—of our student population. Our team includes ENL Teachers/Coordinators, Designated Grade Leads, IEP & MTSS Teachers, Instructional Coaches, Data and Technology Specialists, and Administrative Staff, all working collaboratively to address student needs in a culturally and linguistically responsive manner.

Our leadership team prioritizes support for MLs/ELLs by offering professional development through whole-staff training, grade-level planning, and inquiry meetings. We focus on implementing effective ELL strategies in the classroom and are committed to meeting students' needs, valuing their presence, and recognizing them as fully capable learners. We strive to create a learning environment that is culturally sustaining and linguistically responsive, building on the strengths students bring from their home cultures. Staff are encouraged to become familiar with essential instructional routines for all ELD lessons, grounded in the research of Dr. Kate Kinsella and supported by resources from the Division of Multilingual Learners, including the Scaffolding Guide for English Language Learners.

In addition to sharing best practices for MLs/ELLs, we have assessed the needs of our student population and implemented a district-wide curriculum that reflects the diversity of our learners. We continue to use HMH Into Reading and its Spanish counterpart, HMH Arriba la Lectura, to support our Dual Language and Transitional Bilingual Education (TBE) program models. Our leadership team recognized the need for a more inclusive and comprehensive curriculum—one that is culturally responsive, aligned with ELA standards (NGLS), and includes assessments that prepare students for state testing formats and environment. Through reading and discussion of texts, students build background knowledge and engage with cross-curricular topics and standards.

Staff have access to rich content, standards-based instruction, actionable assessment data, professional learning, and supplemental resources. The curriculum includes mentor texts that reflect authentic experiences, explicit instruction on building and evaluating ideas from text sets, and oral language development opportunities that foster meaningful discussions. Integrated ELD support is embedded in every mini-lesson, with differentiated scaffolds at three levels—light, moderate, and substantial—aligned with tabletop mini-lessons. With HMH, ELLs receive targeted English language development instruction to support success in core content areas, along with home language support and appropriate scaffolds.

Our leadership team believes the support embedded in this curriculum will continue to strengthen MLs'/ELLs'

language acquisition and prepare them for the 21st century. The curriculum promotes rigorous instruction, critical thinking, and inquiry skills, while aligning with Advanced Literacies that emphasize higher-order thinking, collaborative learning, and student-led discussions. Vertical alignment across grade levels supports the transfer of skills and concepts, deepens engagement with thematic units, and enhances vocabulary development—especially for MLs/ELLs.

Culturally responsive instruction remains a cornerstone of our teaching pedagogy. We expose MLs/ELLs to texts that serve as both “mirrors” of their own experiences and “windows” into other cultures, fostering acceptance, empathy, and global awareness. Through our ELA curriculum and SEL resources, students develop cooperation, communication, and interpersonal skills. We also prioritize emotional support for MLs/ELLs and their families by distributing family and student surveys to gather feedback and better understand their perspectives and needs.

We continuously evaluate student data, set goals, and collaborate with teachers to support both content mastery and language acquisition. Our leadership team equips staff with tools and professional development to enhance their ability to analyze data and provide differentiated support for ELLs. We emphasize a growth mindset by monitoring Rate of Progress Reports to track both grade-level and individual student growth.

Overall, the school’s leadership team ensures that Multilingual Learners (MLs)/English Language Learners (ELLs) have equitable access to the core curriculum through differentiated instruction, inclusive program models (such as co-teaching and push-in support), ongoing professional development, meaningful family and community engagement, and data-driven instructional practices.
3. Describe how core content is delivered in each program model. Specify language, and the instructional approaches and methods to foster language development and meet the demands of the Next Generation Learning Standards. (ARBELAEZ)

At Elm Tree Elementary core content is delivered through a combination of Dual language and monolingual classes in all grades K-5th. In addition for grades 3rd-5th we have Transitional bilingual classes. Each model is designed to support language development and meet the Next Generation Learning Standards effectively.

For Dual Language Classes (grades K-5), depending on the language of the day, instruction is delivered in either English or Spanish which is promoting bilingualism and biliteracy. Teachers use balanced language exposure and integrate content and language learning. Collaborative activities and thematic units support language development in context. Teachers explicitly teach vocabulary and embed it throughout all subjects. Programs like Fundations (K-3) and Heggerty (K-2) support phonemic awareness and foundational literacy skills in both languages. Small group instruction is also provided during chippy centers which allows targeted support tailored to students language proficiency levels. Reading and writing instruction uses HMH Into Reading and ¡Arriba La Lectura! which is aligned to the Next Generation Learning Standards, ensuring rigorous literacy development in English and Spanish. Math instruction with Envisions emphasizes vocabulary alongside conceptual understanding to meet standards.

As for our Monolingual Classes (K-5), English is the primary language of instruction, and there is a focus on immersive English literacy and content instruction using Fundations in grades (K-3), Heggerty in grades (K-2) and HMH for literacy and writing. Our teachers address students' individual needs through Small Group Instructional Opportunities throughout the Literacy Block. All core content again is aligned to Next Generation Learning Standards.

Transitional Bilingual Classes (grades 2-5), use the same instructional programs as the dual and monolingual classes. They as well ensure to use any instructional time to meet with students in small groups to meet the needs of students who need additional support with language development by building vocabulary and making connections for students with the home language.

Across all program models at Elm Tree Elementary we have integrated structured literacy programs such as Fundations, Heggerty, and HMH. Classes use small group differentiated instruction and vocabulary- rich math

instruction with Envisins to foster language development and meet rigorous academic standards. This multi-tiered approach supports Ells and all students in achieving bilingualism, biliteracy and academic success aligned to the Next Generation Learning Standards.

3. Describe how core content is delivered in each program model. Specify language, and the instructional approaches and methods to foster language development and meet the demands of the Next Generation Learning Standards.

At Elm Tree Elementary, core content instruction is delivered through a combination of Dual Language, Monolingual, and Transitional Bilingual classes across grades K–5. Each instructional model is thoughtfully designed to support English Language Learners (ELLs) in developing academic language proficiency while meeting the rigorous expectations of the Next Generation Learning Standards.

In the Dual Language Program (grades K–5), instruction alternates between English and Spanish depending on the language of the day, promoting bilingualism and biliteracy. Teachers implement a balanced approach to language exposure, integrating content and language learning through collaborative activities, thematic units, and explicit vocabulary instruction embedded across all subjects. Foundational literacy is supported through structured programs such as Fundations (K–3) and Heggerty (K–2), which build phonemic awareness and decoding skills in both languages. During Chippy's Learning Experiences, students receive small-group, targeted instruction tailored to their language proficiency levels. Literacy instruction is aligned to NGLS using HMH Into Reading and ¡Arriba La Lectura!, ensuring rigorous development in both English and Spanish. In mathematics, the enVision Math program emphasizes academic vocabulary and conceptual understanding, supporting both content mastery and language development.

In Monolingual Classes (K–5), English is the primary language of instruction, with a strong focus on immersive literacy and content learning. Teachers use Fundations, Heggerty, and HMH Into Reading to build foundational and advanced literacy skills. Instruction is differentiated through small-group learning opportunities embedded within the literacy block, allowing teachers to tailor instruction to students' individual language and academic needs. All instruction is aligned to the NGLS, ensuring that ELLs are held to high academic expectations while receiving the support they need to succeed.

Transitional Bilingual Classes (grades 3–5) use the same high-quality instructional programs as the dual and monolingual models, with additional emphasis on leveraging students' home language to build vocabulary and deepen comprehension. Teachers use small-group instruction to provide targeted language development, helping students make meaningful connections between their native language and English.

Across all program models, Elm Tree Elementary integrates structured literacy programs, vocabulary-rich math instruction, and differentiated small-group instruction to foster language development and academic achievement. This multi-tiered instructional approach ensures that all students—especially ELLs—receive a high-quality academic experience that promotes bilingualism, biliteracy, and deep learning, fully aligned with the Next Generation Learning Standards.

4. What instructional strategies and grade-level materials, including technology, do teachers of MLs/ELLs use to provide access to grade level academic content areas and accelerate English language development? Include core content area and language materials with consideration to specific ELL subgroups.

a. ELLs with IEPs

For English Language Arts and Home Language Acquisition support, we currently use HMH Into Reading and its Spanish companion, ¡Arriba La Lectura!, which both include interactive components to support ELLs. HMH Into Reading for Grades K–6 addresses all areas of early literacy with an evidence-based scope and sequence to develop fluent, automatic readers. Students benefit from high interest, culturally relevant texts and characters that have undergone a rigorous review for quality.The program offers a range of instructional approaches to ensure every student succeeds. HMH ¡Arriba la Lectura!™ is a comprehensive K–6 Spanish literacy program. When paired with HMH Into Reading, the programs provide a complete Spanish-English solution for biliteracy and dual-language classrooms.

For Math, we use the Envision curriculum, which provides extensive manipulatives and interactive components in both Spanish and English. We also address Math fluency by using Hand2Mind's Math Talks and Number Strings. Hand2Mind's Math Fluency solution is a supplemental math program that provides everything you need to teach and reinforce multiple strategies that build number sense. The powerful combination of math fluency activities like Math Talks and Number Strings improve a student's ability to think about numbers flexibly, efficiently, and accurately - building a strong foundation of mathematical reasoning for future math success. Teachers also utilize Math Fluency Centers to reinforce new skills and strategies with grade-level kits that include 40 math fluency activities and manipulatives for up to 6 students in grades K-5. Students have also been provided with devices such as iPads or Chromebooks for both at-home and school use. They have access to many different applications to reinforce literacy and math instruction including, but not limited to, iReady, Epic!, MyOn, and Amplify Boost Reading.

For phonemic awareness instruction, we use Heggerty (in both English and Spanish). Heggerty is a research-based approach designed by teachers that addresses the foundational literacy skills needed in Early Childhood (Pre-K - 1st grade). The curriculum is designed to provide systematic and engaging lessons in 8-12 minutes a day. We also use Decoder Kids Phonics to help build strong foundational skills in phonemic awareness, phonetic decoding, and word recognition using a systematic scope and sequence. Each Decodable Reader introduces letter-sound relationships and encourages students to decode sounds, blends, and practice High-Frequency words. These books also have illustrations that contribute to authentic and meaningful reading experiences.

For Science, we use the Amplify Science curriculum. Amplify Science is a K-8 science curriculum that blends hands-on investigations, literacy-rich activities, and interactive digital tools to empower students to think, read, write, and argue like real scientists and engineers. Amplify Science was developed by the science education experts at UC Berkeley's Lawrence Hall of Science and the digital learning team at Amplify. As The Lawrence's first curriculum designed to address the new science standards, Amplify Science reflects state-of-the-art practice in science teaching and learning. Each unit of Amplify Science engages students in a relevant, real-world problem where they investigate scientific phenomena, engage in collaboration and discussion, and develop models or explanations in order to arrive at solutions.

b. SIFE

At Elm Tree Elementary, we are committed to providing comprehensive and responsive support for our Students with Interrupted Formal Education (SIFE). These students are identified through the Multilingual Literacy SIFE Screener, which assesses competencies in their home language. Once a student is classified as SIFE, a detailed data collection process is initiated within the first month of instruction. This data informs the development of individualized instructional supports and interventions tailored to each student's academic and social-emotional needs.

Instructionally, we prioritize English language acquisition through the use of research-based strategies proven effective for multilingual learners. These include the use of visuals, Total Physical Response (TPR), graphic organizers, home language support, explicit vocabulary instruction, and background knowledge activation. These

methods help bridge gaps in prior schooling and make academic content more accessible and engaging. Teachers also provide scaffolds such as sentence frames, word banks, and structured writing supports to help students build confidence and competence in both oral and written English.

To ensure that instruction is developmentally appropriate and meaningful, we adapt critical content to be age-appropriate, culturally relevant, and accessible, while maintaining high expectations for academic growth. Instruction is designed to accelerate academic literacy and critical thinking skills, helping students catch up while also moving forward. Flexible scheduling is offered when needed to accommodate students' real-life responsibilities and ensure they can fully engage in their learning.

Beyond academics, we recognize the importance of supporting the social-emotional well-being of SIFE students. Our school counselors work closely with classroom teachers to identify and respond to students' emotional and behavioral needs. Together, they create a safe, nurturing environment where students feel seen, supported, and valued. We are intentional about creating a welcoming and affirming school culture that honors the rich languages, cultures, and life experiences that SIFE students bring to our community. This culturally responsive approach helps foster a sense of belonging and encourages students to take academic risks and thrive.

c. Newcomers

At Elm Tree Elementary, we are deeply committed to ensuring that Newcomer students—those newly arrived to the U.S. school system—receive the targeted support they need to access grade-level content while developing English language proficiency. Our instructional approach is grounded in research-based strategies and culturally responsive practices that address the unique linguistic, academic, and social-emotional needs of these learners.

Newcomers are encouraged to maintain and draw upon their native language as a valuable resource for learning. Academic skills such as reading comprehension, critical thinking, and content knowledge often transfer from one language to another. By leveraging students' first language, we support their English development while promoting bilingualism and biliteracy. Instruction is designed to offer multiple entry points and learning platforms that allow students to engage meaningfully with grade-level content, regardless of their English proficiency level.

To foster language development and academic engagement, teachers implement project-based learning, collaborative activities, and peer modeling. These strategies not only build academic skills but also promote persistence, resourcefulness, and self-motivation. Newcomers benefit from working alongside both English-speaking and same-language peers, which supports natural language acquisition in a safe and supportive environment. Activities such as fluency building, collaborative discussions, and think-pair-share are regularly used to encourage oral language practice and build confidence.

Teachers also focus on building background knowledge, especially when content may be unfamiliar due to cultural differences. Explicit vocabulary instruction, the use of realia, and visual aids help bridge these gaps. Instructional scaffolds such as sentence frames, word banks, graphic organizers, and bilingual glossaries are used to support comprehension and expression. Cognates are highlighted to help students make connections between English and their home languages, further reinforcing vocabulary acquisition.

Newcomers engage in literacy activities using grade-level texts, supported by strategies such as chunked reading, word analysis, and native language resources. Classrooms are designed as print-rich environments, featuring visual schedules, labeled classroom items, and personal vocabulary books to reinforce language learning. These tools help students build independence and confidence as they navigate their new academic setting.

Technology plays a vital role in supporting Newcomer students' language development and access to academic

content. Students use tools like Google Translate to facilitate real-time translation, enabling them to understand instructions, participate in discussions, and communicate with teachers and peers. Adobe tools support multimodal learning by allowing students to create and interact with visual and written content. Additionally, adaptive programs such as i-Ready and mCLASS Boost provide personalized instruction in reading and math, targeting each student's specific skill level. These platforms offer engaging, interactive lessons that reinforce foundational skills and promote independent learning.

Upon arrival, Newcomer students are welcomed with a guided tour of the school by a staff member, during which they learn the English names of key locations. This orientation helps students feel safe and comfortable, which is essential for academic engagement. Students are also placed in small, homogeneous groups based on similar needs and meet daily with a certified ENL teacher. These sessions focus on targeted phonics and language instruction using resources such as Heggerty, Fundations, Benchmark HELLO!, and the potential pilot of English 3D.

ENL teachers use a variety of effective strategies, including visual aids, front-loading vocabulary, modeling, and building background knowledge. Newcomers also have the opportunity to participate in an after-school program led by a certified ENL teacher using the Ready, Set, Go! Newcomer kits. These kits provide age-appropriate, visually supported content to build life skills, phonics, social communication, and academic language through activities in listening, speaking, reading, and writing.

d. Long Term ELLs

Although Elm Tree Elementary currently does not have any identified Long-Term English Language Learners (LTELLs), we are proactive in implementing instructional strategies designed to prevent students from becoming LTELLs and to support those who may be at risk. Our approach ensures that all multilingual learners have equitable access to grade-level content while continuing to develop their English language proficiency.

To support potential LTELLs, we provide rigorous, standards-aligned instruction that builds on students' background knowledge and leverages their home language as a resource for learning. In our Dual Language programs, a bilingual/ELA literacy block is implemented to provide structured support in both English and the students' native language. This dual-language approach reinforces literacy development and strengthens comprehension across both languages.

Across all content areas, teachers develop and integrate language and literacy objectives to ensure that students are acquiring the academic language necessary for success. Instruction is scaffolded through teacher modeling, visual and verbal supports, and explicit instruction in grammar and academic vocabulary. These strategies help students access complex texts and tasks while building the language skills needed to engage with grade-level content.

We also emphasize oral language development through structured discussions, presentations, and cooperative learning opportunities. Students participate in partner work, flexible grouping, and peer collaboration to practice meaningful language use in authentic contexts. Teachers use rubrics and checklists to assess progress and guide next steps in instruction, ensuring that students are developing both fluency and accuracy in spoken English.

We identify potential At-Risk students by analyzing their current NYSESLAT results in conjunction with their Years of Service as English Language Learners. A key focus is evaluating how much progress they've made within their current proficiency level and how many points they are from reaching the Commanding level. To monitor their growth, we use a multi-tiered approach that includes annual proficiency data, content-area achievement, and formative assessments that provide real-time insight into both language and academic development. Additionally, we provide targeted small group instruction to support integrated content and language learning, along with focused interventions in literacy and math. By identifying students early and implementing strategic, data-driven supports, we aim to accelerate their progress and reduce the risk of long-term ELL designation.

5. What supports does your school provide to ELLs with IEPs to achieve their IEP goals and attain English language proficiency within the least restrictive environment?

At Elm Tree Elementary, we are committed to ensuring that English Language Learners (ELLs) with IEPs receive the individualized support they need to thrive academically and linguistically within the least restrictive environment. Our inclusive instructional models are designed to provide access to grade-level content while addressing both language development and special education needs.

ELLs with IEPs are primarily supported through Integrated Co-Teaching (ICT) classes available at every grade level. In our stand-alone ICT model, a bilingual special education teacher remains with the class throughout the instructional day. This consistent presence allows students to learn alongside their general education peers while receiving targeted supports, modified entry points, and scaffolded instruction. Teachers use ELL strategies such as academic vocabulary development, visual supports, and cooperative learning to ensure all students can access rigorous content.

In our Self-Contained 12:1:1 Classrooms, ENL teachers provide push-in support, collaborating with special education teachers to deliver scaffolded instruction using evidence-based ELL strategies. These include explicit vocabulary instruction, real-life connections, and the use of manipulatives to make content comprehensible. IEPs are regularly reviewed and updated through collaboration among general education teachers, ENL providers, service providers, and families to ensure students are making progress toward their goals.

In monolingual ICT settings, TESOL-certified teachers provide mandated ENL services. These educators implement scaffolds such as visuals, manipulatives, and targeted vocabulary instruction to accelerate English language acquisition. Instruction is differentiated and aligned with both IEP goals and language proficiency targets, ensuring that students receive meaningful access to content.

To address reading challenges, we offer intensive small-group interventions for ELLs at risk, delivered through our Multi-Tiered System of Supports (MTSS). These interventions are tailored in duration and intensity based on student data and focus on the five essential components of reading: phonological awareness, phonics, fluency, vocabulary, and comprehension. Programs such as Sounds Sensible and SPIRE are used to deliver explicit, research-based instruction. Progress monitoring data informs groupings and instructional decisions.

Instruction for ELLs with disabilities is carefully tailored to address both their special education needs and their stage of second language acquisition. Teachers and ENL providers collaborate to align instructional strategies with students' developmental and linguistic profiles. This collaboration ensures that instructional modifications are appropriate and effective, supporting students in meeting their IEP goals while advancing in English proficiency.

To enhance access and engagement, a variety of instructional modifications and technology tools are used. These include Smart Boards and interactive slides for visual learning, as well as access to Chromebooks, iPads, picture dictionaries, bilingual glossaries, and digital prompting tools. Online platforms with accessibility features—such as Immersive Reader, text-to-speech, enlarged text, and color-coding—support both in-school and at-home.

Additional strategies include simplifying texts with short, clear phrases, embedding hints or reminders, and using real-life examples to explain content. Teachers may read assignments or tests aloud, pair students with same-language peers, and provide native language support when appropriate. Instruction is further supported through task analysis, visuals, extended time, and explicit instruction in study skills and strategies for using learning materials effectively.

6. How is home language assessed in each program model (DLBE, TBE, and ENL)?

At Elm Tree Elementary School, we are committed to supporting multilingual learners through intentional use of home language assessments and instructional supports across our Spanish Dual Language (DL), Transitional Bilingual Education (TBE), and English as a New Language (ENL) program. These programs are designed to ensure that students develop academic proficiency in both English and their home language while accessing grade-level content.

In our DL and TBE programs, students benefit from instruction and assessment in both English and Spanish. In the TBE program, assessments are often administered in the home language to accurately gauge students' understanding of academic content while they are still developing English proficiency. This approach ensures that students' content knowledge is measured independently of their English language development, allowing for more accurate instructional planning.

For literacy instruction, we use Houghton Mifflin Harcourt Into Reading and ¡Arriba La Lectura!—a comprehensive biliteracy solution aligned with the science of reading and designed to support multilingual learners. These programs offer robust digital and print assessments, high-interest culturally relevant texts, and scaffolded instruction that supports both whole-group and small-group learning. Teachers use the data from these assessments to differentiate instruction, monitor progress, and identify learning gaps.

To complement our core literacy programs, we use mCLASS, which includes both English (DIBELS) and Spanish (Lectura) assessments. mCLASS Lectura is a universal screener grounded in modern Spanish literacy research and provides parity with English assessments, allowing teachers to track reading development in both languages. These tools help accelerate reading growth by offering actionable data that informs instruction and intervention.

In mathematics, instruction is delivered in both English and Spanish on alternating days using enVision Mathematics and enVision Español (Pearson). This bilingual approach ensures that students receive grade-level instruction in both languages. ELLs receive additional support through small-group instruction and the use of targeted strategies such as graphic organizers, word walls, bilingual glossaries, modeling, and explicit vocabulary instruction. These strategies help bridge language gaps and ensure students can access rigorous math content.

Technology plays a key role in supporting home language development and assessment. Students use platforms such as i-Ready Reading and Math, Epic!, and Reading A-Z, which offer content in both English and Spanish. These platforms provide interactive, adaptive practice that reinforces foundational skills and vocabulary. Assessments embedded within these programs, along with those from HMH, mCLASS, and MAP Growth, yield valuable data on students' home language proficiency. This data is used strategically to inform instruction, monitor progress, and plan targeted interventions.

In our ENL program, students receive support in listening, speaking, reading, and writing through small-group instruction and multisensory activities. While the primary focus is on English language development, home language supports are integrated to reinforce comprehension and build connections between languages. Teachers use mentor texts, shared reading, and vocabulary-rich instruction with visual and oral language supports to scaffold learning for ELLs.

To ensure a comprehensive understanding of student progress, we also analyze data through the EDAT (English Data Analysis Tool). This tool synthesizes information from the NYSITELL, NYSESLAT, ELA and Math State Exams to identify at-risk students and guide instructional planning. By combining home language assessments with English language data, we ensure that all multilingual learners receive the support they need to thrive academically and linguistically.

7. (For grades 6-12 only) What language electives are offered to MLs/ELLs? How is your school preparing MLs/ELLs to obtain the New York State Seal of Biliteracy?

N/A

8. Describe systems and structures for supporting co-teaching and collaboration among teachers for all ELL program models available at your school (e.g. integrated co-teaching, Dual Language Bilingual Education teacher partnerships, etc.).

At Elm Tree Elementary, collaboration among teachers of English Language Learners (ELLs) and Multilingual Learners (MLs) is a foundational practice supported by well-established systems and structures. From the beginning of the school year, all classroom teachers and ENL providers are given dedicated, weekly grade-wide inquiry periods, in addition to at least one common planning period a week. These sessions are used to analyze student data and work samples to identify problems of practice. Once a focus area is determined, teams collaboratively explore instructional strategies or methods to address the issue. After a 6–8-week implementation period, teachers reconvene to review student progress, reflect on the effectiveness of the strategy, and determine next steps. ENL providers contribute valuable insights from their small and whole group instruction, helping classroom teachers better understand student progress and make informed decisions about supports, services, or potential evaluations.

To further support inclusive practices, Integrated Co-Teaching (ICT) teachers receive an additional prep period each week specifically for planning and implementing IEPs. This ensures that students with disabilities receive instruction aligned to their goals and that their progress is closely monitored. Teachers in ICT and Dual Language Bilingual Education (DLBE) classes also benefit from a weekly common planning period. During this time, co-teachers collaborate on lesson planning, instructional strategies, and family communication, with a focus on integrating content and language development in both English and Spanish. ENL providers are also encouraged to participate in parent engagement meetings and conferences to ensure families receive language-accessible communication and a comprehensive understanding of their child's language development.

Professional learning is a key component of our collaborative culture. Teachers receive training on co-teaching models, effective collaboration techniques, and evidence-based strategies for supporting ELLs/MLs. Instructional data is accessible to all staff through a shared digital platform, and teachers use this data to inform instruction and interventions. A shared Google Drive is used to house lesson plans, curriculum maps, and instructional resources, promoting transparency and consistency across classrooms. At the start of the school year, co-teaching teams establish clear roles and responsibilities to ensure effective collaboration. Administrators conduct check-ins with co-teaching teams to provide support, address challenges, and ensure the partnership remains productive and student-centered.

New teachers are paired with experienced mentors who provide guidance, share best practices, and model effective strategies for working with ELLs. Administrators conduct both formal and informal walkthroughs to offer feedback and support throughout the year. Teachers are also encouraged to participate in inter-visitations, allowing them to observe colleagues' classrooms and learn from successful instructional practices. These visits often highlight effective small-group instruction in literacy and math, where teachers and ENL providers collaborate to meet the diverse needs of ELLs at varying language proficiency levels.

By putting these systems and structures in place, Elm Tree Elementary fosters a culture of collaboration and shared responsibility. This approach enhances the quality of instruction and ensures that all ELLs/MLs—regardless of program model—receive the targeted, high-quality support they need to succeed academically and linguistically.

9. Describe how your overall, annual professional learning plan ensures that all staff – including administrators, teachers and -non-pedagogical staff – incorporates learning specifically related to the academic and social emotional needs of MLs/ELLs. Professional learning topics might include co-teaching strategies, or integrating language and content instruction.

At Elm Tree Elementary, our Annual Professional Learning Plan is thoughtfully designed to equip all staff members—including teachers, paraprofessionals, and administrators—with the tools and strategies necessary to meet the academic and social-emotional needs of our Multilingual Learners (MLs)/English Language Learners (ELLs). The plan is grounded in a commitment to equity, inclusion, and culturally responsive teaching practices that foster both language development and student well-being.

Each year, staff members are invited to complete interest surveys to help guide the selection of professional learning topics. This ensures that the training provided is relevant, responsive, and aligned with the needs and preferences of our educators. Professional development sessions focus on practical, research-based strategies that can be embedded into content-area instruction. These include scaffolding techniques that support the four language domains—listening, speaking, reading, and writing—while also building academic vocabulary and promoting access to rigorous content.

In addition to academic strategies, our professional learning plan emphasizes the importance of creating culturally responsive and emotionally supportive classroom environments. Educators are introduced to group-based activities that promote positive peer relationships, such as morning meetings and structured collaborative tasks. These practices help students feel safe, valued, and empowered to take academic risks. Specific sessions are also dedicated to supporting newcomer students and fostering inclusive classrooms that honor students' diverse cultural and linguistic backgrounds.

To ensure a cohesive and school-wide approach, professional learning opportunities are extended to all staff and are designed to build a shared understanding of effective practices for MLs/ELLs. Topics explored throughout the year include: NYSITELL administration, scaffolding texts for MLs, teaching academic vocabulary, writing content and language objectives, and instructional approaches to boost comprehension. Sessions such as "Building Schema for Multilingual Learners," "Empowering Educators with FURBY Features," and "Culturally and Linguistically Attuned: Harnessing Data for Responsive Literacy Supports" provide educators with actionable strategies and tools.

We also offer specialized training sessions led by experts in the field, including Dr. Kate Kinsella, whose workshops focus on equipping ELLs with vocabulary knowledge, writing skills, and effective communication strategies. Additional sessions include SPIRE training, Adobe Express virtual workshops, and district-wide events such as the Multilingual Futures Conference and the ELL Annual Parent Meeting. These opportunities ensure that staff remain current with best practices and emerging tools to support multilingual learners.

To support data-driven instruction, educators are trained in the use of tools such as the EDAT (English Data Analysis Tool), which synthesizes data from NYSITELL, NYSESLAT, and state assessments to identify at-risk students and inform instructional planning. This data is used in conjunction with classroom observations and formative assessments to tailor instruction and interventions that meet the unique needs of each learner.

10. Describe your school's professional development plan in order to meet the mandated Continuing Teacher and Leader Education (CTLE) ELL specific hours for certification renewal as per CR Part 154 (15% of total hours for all certified faculty [holders of professional certificates in the classroom teaching service, educational leadership service and level III teaching assistant certificate holders]

and 50% of total hours for bilingual education/ENL teachers receive ELL-specific professional development).

Our school has developed a comprehensive professional development plan to ensure compliance with the Continuing Teacher and Leader Education (CTLE) requirements outlined in CR Part 154, specifically regarding English Language Learners (ELLs) and Multilingual Learners (MLs). In accordance with state mandates, all certified educators—including those holding professional certificates in classroom teaching, educational leadership, and Level III teaching assistant certificates—are required to complete 15% of their CTLE hours in professional learning focused on language acquisition and best practices for supporting ELLs. Additionally, ENL and Bilingual Education teachers must complete 50% of their CTLE hours in ELL-specific professional development.

To meet these requirements, our school offers a variety of targeted professional learning opportunities. These include workshops and training sessions on co-teaching strategies, scaffolding instruction, home language development, and effective practices in dual language and ENL settings. Teachers also engage in peer-led presentations, collaborative planning, and grade-level inquiry groups to deepen their understanding and share strategies with colleagues. Staff have access to professional development provided by the Division of Multilingual Learners, including asynchronous, pre-recorded sessions, as well as offerings from the Regional Bilingual Education Resource Network (RBERN) at Fordham University, Elevated Education, District 24, the UFT Teacher Center, and instructional partners such as mCLASS and HMH. These opportunities are regularly communicated through our School-Wide Weekly Wrap-Up Newsletter and direct email invitations.
To monitor participation and ensure compliance, a professional learning survey is distributed annually, allowing teachers to report and reflect on the sessions they have attended. The leadership team reviews this data to ensure that all staff are on track to meet their CTLE requirements. Through this structured and supportive approach, we ensure that our educators are well-equipped to meet the diverse needs of our MLs/ELLs and maintain their professional certification.

Assessment

SCREENERS

11. Which screening assessments (e.g.iReady, MAP Growth, Acadience, or STAR Reading) does your school use to guide instructional planning for your ELLs?

At Elm Tree Elementary, screening assessments are a foundational component of our instructional planning process for English Language Learners (ELLs). These assessments provide educators with critical data to understand each student's language proficiency, literacy development, and academic readiness. When students in grades K–5 enter the school and are identified as ELLs, they are first assessed using the New York State Identification Test for English Language Learners (NYSITELL). This state-mandated screening tool establishes a baseline of English language proficiency across listening, speaking, reading, and writing. The results are used to determine eligibility for ENL services and to design appropriate instructional groupings, schedules, and supports tailored to each student's needs. For students whose home language is Spanish, we also administer the Spanish Language Assessment Battery (SLAB). This tool evaluates listening and speaking skills in Spanish and provides a more complete picture of a student's bilingual language development.

To assess foundational literacy skills, all K–5 students participate in mCLASS assessments, which include DIBELS for English and Lectura for Spanish-speaking students. These assessments evaluate the Five Pillars of Literacy—phonemic awareness, phonics, fluency, vocabulary, and comprehension—and help pinpoint specific areas where students may need targeted support. The data from mCLASS is used to inform small-group instruction in both languages and to guide the planning of our Chippy Learning Experiences, which are structured literacy blocks focused on specific domains of reading development.

In addition to foundational literacy assessments, we use the i-Ready Diagnostic Assessments in both English and Spanish to further identify student strengths and areas of need. These adaptive diagnostics provide detailed insights into students' performance in reading and math, allowing teachers to differentiate instruction and provide targeted interventions. The i-Ready platform also supports tiered instruction by aligning student performance data with the Next Generation Learning Standards, ensuring that all learners receive instruction that is both rigorous and responsive.

To monitor academic progress in mathematics, we administer MAP Growth assessments in grades K–5 for math and in grades 3–5 for reading. These adaptive assessments provide precise data on each student's instructional level, whether they are performing below, at, or above grade level. The results are used to tailor instruction for individuals and small groups, ensuring that students receive the support they need to grow academically.

In our bilingual math classrooms, we also use EnVision Math assessments at the end of each unit. These assessments are administered in both English and Spanish, supporting bilingual learners in developing mathematical understanding in both languages. The data collected from these assessments informs instructional decisions and ensures that students are progressing in both content knowledge and language development.

To benchmark reading growth and align instruction with curriculum goals, we utilize the HMH Reading Growth Measure. This adaptive, research-based assessment connects directly to the HMH Into Reading curriculum,

providing teachers with actionable insights into students' reading development. The tool helps educators align instruction with students' needs and track progress over time.

Together, these assessments form a comprehensive, multi-layered system that allows educators at Elm Tree Elementary to monitor student progress, differentiate instruction, and provide targeted support for ELLs. By using both English and home language assessments, we ensure that all multilingual learners receive equitable, data-informed instruction that supports their academic achievement and language development.

12. For all grades, list and describe your targeted intervention programs for ELLs in ELA, Math, and other core content areas (specify ELL subgroups targeted). Include the language(s) in which the intervention services are offered.

At Elm Tree Elementary, targeted interventions for English Language Learners (ELLs) are guided by a comprehensive, data-driven approach. Multiple assessment tools—including mCLASS, i-Ready, and MAP Growth—are used to inform Tier II and Tier III instructional groupings in both ELA and Math. These data sources allow educators to identify specific skill gaps and tailor interventions to meet the diverse needs of ELLs across proficiency levels, including Newcomer, Developing, SIFE (Students with Interrupted Formal Education), and Former ELLs.

In Grades K–2, foundational literacy interventions begin with the implementation of Heggerty, which supports small groups of students with gaps in phonemic awareness and early phonics skills such as the alphabetic principle and basic decoding. For students requiring more intensive support, Tier III interventions include Sounds Sensible (Grades 1–2) and SPIRE (Grades 2–5), both of which provide structured, explicit phonics instruction. These programs are delivered in English and are particularly effective for Developing ELLs and SIFE students who need systematic decoding support. Newly arrived Newcomers typically do not receive immediate intervention, as their initial focus is on acquiring foundational English language skills.

To further support literacy development, the school offers an extended day phonics program targeting two key groups: (1) students approaching grade-level expectations who need additional practice in phonemic awareness and phonics, and (2) students significantly below grade level who already receive in-school interventions but require further reinforcement. This program includes ELLs across all proficiency levels and extends the instructional day by one class period. Instruction is delivered in English, with home language support provided when the teacher is bilingual.

The I-Ready Diagnostic is a cornerstone of the school's intervention strategy. Administered three times per year, it identifies each student's academic strengths and areas for growth in both reading and math. Based on diagnostic results, I-Ready delivers personalized online lessons and provides real-time data to inform instruction. Teachers also use I-Ready's small group and one-on-one instructional resources in Tier II and Tier III settings. This platform supports the school's MTSS framework and is particularly effective for Newcomer, Developing, and SIFE ELLs. The program is available in both English and Spanish, ensuring accessibility for bilingual learners.

For early literacy, DIBELS (English) and Lectura (Spanish) are used as universal screeners and intervention tools. These assessments evaluate foundational reading skills and provide a comprehensive view of bilingual students' literacy development. Tiered intervention is structured as follows: Tier I includes universal screening for all students; Tier II provides targeted small group instruction for students with moderate risk; and Tier III offers intensive, individualized support for students with significant reading difficulties. These tools are especially valuable for monitoring progress among Newcomer, Developing, and SIFE students.

In mathematics, targeted interventions are provided using the HMH Do The Math program, which is designed for struggling students in Grades 1–5+. This program includes 13 scaffolded modules focused on whole numbers and fractions, with built-in assessments every fifth lesson and at the beginning and end of each module. Instruction is

delivered in English, with Spanish language support provided as needed. Do The Math is used to support ELLs across all proficiency levels, including Entering, Emerging, Transitioning, Expanding, and Former ELLs, as well as Newcomer and SIFE students who require foundational math support.

Together, these targeted interventions form a cohesive, multi-tiered system that ensures all ELLs receive the academic and linguistic support they need to succeed. By aligning instruction with assessment data and tailoring supports to specific ELL subgroups, Elm Tree Elementary provides equitable, high-impact instruction across all core content areas.

13. For all grades, describe how your school uses data to guide instruction for ELLs within a Multi-Tiered System of Supports (MTSS). Refer to the Instructional Leadership Tool for MLs and ELLs and MTSS Guide for MLs and ELLs to help in the development and implementation of your school's plan for MLs/ELLs.

At Elm Tree Elementary, our Multi-Tiered System of Supports (MTSS) framework is a cornerstone of our instructional approach, ensuring that all students—especially English Language Learners (ELLs)—receive the academic and language support they need to thrive. This framework is grounded in a comprehensive, data-informed process that enables educators to differentiate instruction, monitor progress, and respond to student needs in real time.

The school year begins with universal screening assessments to establish a baseline for all students. We use mCLASS to assess foundational literacy skills in grades K–5 and MAP Growth to evaluate math (K–5) and ELA (grades 3–5). These assessments help identify students who may require Tier II (targeted small group) or Tier III (intensive individualized) interventions. Following the Beginning-of-Year (BOY) assessments, teachers participate in structured data inquiry meetings to analyze results, identify trends, and group students by skill level. Instruction is then adjusted through differentiated small-group learning and targeted interventions. For example, mCLASS data informs our Chippy ELA Learning Experiences, which are aligned with the Science of Reading, while MAP Growth data guides flexible math groupings and instructional planning.

Students receiving ENL or MTSS services are supported during designated intervention blocks built into the school schedule. Progress monitoring is ongoing, with biweekly mCLASS checks used to evaluate the effectiveness of interventions and make timely instructional adjustments. At the end of the year, End-of-Year (EOY) MAP data is used to assess student growth and inform planning for the following school year. This cyclical process of assessment, reflection, and adjustment ensures that instruction remains responsive and aligned to student needs.

Tier II supports are designed for ELLs who require additional assistance beyond core instruction. These students receive targeted small-group interventions based on formative assessment data, addressing both academic and language development needs. Evidence-based programs such as Sounds Sensible and SPIRE are implemented to support phonics and decoding skills. For students who do not demonstrate sufficient progress in Tier II, Tier III offers more intensive, individualized support. Diagnostic assessments and language proficiency data are used to identify specific areas of need and guide the development of personalized instructional plans. To ensure accurate placement and effective intervention, educators use the ELL Decision Tree, a tool that helps match supports to the unique needs of ELL subgroups, including Newcomers, Developing ELLs, and SIFE (Students with Interrupted Formal Education).

Across all tiers, data-driven decision-making is central to our MTSS process. Teachers, ENL providers, specialists, and administrators collaborate regularly to analyze data and make informed instructional decisions. All data is interpreted through a culturally and linguistically responsive lens to ensure that interventions are appropriate and equitable for ELLs from diverse backgrounds. This collaborative approach ensures that instruction is not only targeted but also inclusive and affirming of students' identities.

At the end of each academic year, we conduct comprehensive outcome evaluations using summative assessments and other data points to assess the effectiveness of our instructional programs and support systems. These evaluations inform adjustments to curriculum, intervention models, and professional development priorities. Through this structured and responsive MTSS framework, Elm Tree Elementary remains committed to advancing the academic success and language development of all multilingual learners.

FORMATIVE

14. Which formative assessments (e.g. NYC performance Tasks, ELL Periodic Assessment, HLA Assessment, DRA, teacher-created assessments, etc.) are used to inform and drive instruction?

Formative assessments for English Language Learners (ELLs) are essential tools that provide ongoing insights into students' language development and guide instructional decisions. To evaluate and support early literacy development among our ELL students, we begin by identifying each learner's current English language proficiency and foundational literacy skills through classroom-based observations and formative assessments. For students in grades 1 through 5, instructional planning is guided by performance levels and modalities from the NYSESLAT, as well as district-aligned assessments aligned to the Five Pillars of Literacy.

Teachers often use observation-based strategies such as anecdotal notes, checklists, and rubrics to monitor students' language use and literacy behaviors in real time. Student work samples, including interactive notebooks, graphic organizers, and writing journals, offer tangible evidence of learning and language application. Oral language assessments like think-pair-share, retelling, and structured sentence frames support speaking and listening skills while encouraging active participation. To foster student ownership of learning, self-assessment tools and exit tickets help students reflect on their progress and set personal goals. Visual and interactive tools, including picture prompts further engage ELLs in demonstrating understanding in creative and accessible ways. These varied formative assessments not only inform instruction but also empower students to take an active role in their language learning journey.

Throughout each instructional unit, students engage with clearly defined learning targets and success criteria, which are shared and discussed at the beginning of lessons. These targets help students understand what they are learning and why it matters. Teachers provide opportunities for students to reflect on their progress through learning journals, goal-setting activities, and peer discussions. These reflective practices encourage students to take ownership of their learning and recognize their growth over time.

At the end of each HMH unit, students' reading and writing are evaluated using rubrics. This data, along with real-time observations and anecdotal notes, informs small-group instruction tailored to students' specific literacy needs. Teachers offer timely, specific feedback during lessons to support student growth and adjust instruction responsively. This dynamic approach ensures that instruction remains student-centered, culturally responsive, and focused on continuous improvement.

15. How do you ensure that MLs/ELLs are appropriately evaluated in their home languages throughout the year?

Home language support for Spanish-speaking students is assessed through a variety of tools and strategies that provide a comprehensive understanding of their language proficiency and academic development. One key measure is the Spanish Language Assessment Battery (SLAB), a diagnostic tool used from kindergarten through grade 5 to determine language dominance and evaluate the effectiveness of instructional programs for Spanish-speaking

learners. In addition, students are assessed using mCLASS Lectura, a research-based universal screener for grades K–6 that evaluates foundational Spanish literacy skills such as letter naming, phonological awareness, the alphabetic principle, fluency, and comprehension. This assessment provides educators with actionable insights into students' strengths in their native language and supports the development of cross-linguistic connections to English.

Embedded formative and summative assessments within our math and literacy curricula further support home language development. These assessments, available in both English and Spanish, are administered through paper-based formats or digital platforms such as HMH and Pearson. The data collected is used strategically to inform instruction and differentiate support based on students' language proficiency in both languages. Additionally, i-Ready assessments are administered in English and Spanish to monitor progress in reading and mathematics. These computer-based tools include diagnostic assessments, standards mastery checks, and oral reading fluency components, offering ongoing insights into student growth.

To further support data-driven instruction, students in grades K–5 take MAP Growth Math, and students in grades 3–5 also complete MAP Growth ELA. These adaptive assessments provide precise, actionable data that helps teachers tailor instruction to meet students where they are, regardless of their current performance level. Importantly, MAP Growth Math is available in Spanish, allowing students to demonstrate their mathematical understanding in their home language. Together, these assessments create a robust system for evaluating and supporting bilingual learners, ensuring that instruction is responsive, equitable, and aligned with each student's linguistic and academic needs.

SUMMATIVE

16. Which summative assessments (e.g. NYSESLAT, ELA, Math, Regents, etc.) are used to evaluate the effectiveness of your ML/ELL programs and how does it inform instructional design and curricular decisions? (Refer to the ELL Data Analysis Tool).

To evaluate the effectiveness of our Dual Language, Transitional Bilingual Education (TBE), and Monolingual Programs for Multilingual Learners (MLs), we implement a comprehensive system of summative assessments. These include NYC MAP Growth, i-Ready, mCLASS, HMH Into Reading/¡Arriba la Lectura! module assessments, EnVision Math topic tests, NYSESLAT, and the New York State ELA and Math Examinations. These tools provide critical data on student performance in both English and Spanish, where applicable, allowing us to assess academic growth, identify learning gaps, and evaluate the impact of instructional models. By analyzing this data, we are able to detect trends across grade levels, determine areas in need of remediation, and highlight instructional strengths. This analysis directly informs instructional planning, small group formation, and curriculum refinement. Data is shared with staff through professional development sessions and digital platforms, ensuring that teachers can make informed, data-driven decisions to meet the diverse needs of their students.

A central component of our program evaluation is the NYSESLAT, which measures English language proficiency annually. To deepen our understanding of student growth across different program models, we analyze NYSESLAT results using the FURBY Tool, developed by RBERN, in conjunction with the EDAT Report. This dual analysis enables us to disaggregate data by program type, monitor progress, and evaluate the effectiveness of our language instruction models. The insights gained from this process support strategic decision-making around program design, resource allocation, and instructional alignment.

Our MTSS Literacy Intervention framework is also informed by summative and benchmark assessment data. Students performing significantly below benchmark on mCLASS are identified for targeted intervention and are progress monitored using specific subtests, such as Nonsense Word Fluency, to track growth. Interventions include Sounds Sensible, which builds foundational literacy skills, and SPIRE, a structured, multisensory program that

supports students needing more intensive instruction in phonics, fluency, vocabulary, and comprehension. For Spanish-speaking students, mCLASS Lectura is used to monitor literacy development in the home language, ensuring bilingual learners receive targeted support in both languages.

Finally, end-of-year data from MAP Growth Math and state assessments are used to identify instructional gaps and strengths across grade bands. This data supports vertical planning and collaborative inquiry among grade-level teams, enabling educators to align instruction with student needs and refine curriculum pacing and focus. Through this multi-layered approach to assessment and analysis, we ensure that our ML/ELL programs are continuously evaluated, responsive to student needs, and grounded in evidence-based practices.

17. What is your NYSESLAT administration plan? How does your school ensure that all ELLs are tested with the NYSESLAT annually? Include the titles of the staff that will administer and score the assessment. Please describe your plan to ensure that all ELLs and former ELLs continue to receive mandated instruction during the testing period.

To ensure that all eligible Multilingual Learners (MLs)/English Language Learners (ELLs) are assessed on the NYSESLAT while maintaining their mandated instructional time, our school follows a structured and proactive approach. The process begins with a thorough verification of the ELL roster using our student information system to confirm that every identified student is accounted for. A comprehensive testing schedule is then developed, covering all components of the NYSESLAT and includes designated time for make-up sessions.

Certified and trained staff are assigned to administer the assessments. All proctors receive training on NYSESLAT protocols, including the implementation of accommodations for students with IEPs or 504 plans. To ensure transparency and family engagement, translated notices and school-wide messaging are used to communicate the testing schedule. Additionally, we host a NYSESLAT Informational Session for families to explain the purpose of the assessment and how they can support their children at home.

During the testing window, we utilize an online tracking system via our Shared Drive to monitor student participation in real time. This system ensures that no student is overlooked and that make-up testing is scheduled promptly for any absentees. Coordination with ENL and Special Education teams is ongoing throughout the process to ensure that testing does not interfere with mandated instructional services. This careful planning allows us to remain in full compliance with state requirements while prioritizing the academic and linguistic needs of our students.

All constructed-response writing prompts are scored by a trained team of educators, including ENL teachers, cluster teachers, out-of-classroom staff, ICT partners, and coordinators. To maintain scoring integrity, teachers do not score the responses of their own students. This collaborative scoring process ensures consistency and fairness in evaluating student performance.

Throughout the testing period, current and former ELLs continue to receive services through their respective instructional models—Dual Language, TBE, or ENL in monolingual classrooms—with appropriate scaffolds and supports embedded across content areas. This ensures that students' academic progress is not disrupted during the assessment window.

The following staff members are responsible for administering and/or scoring the NYSESLAT:

Nicole Gagliardi – ENL Coordinator/Provider
Jessamine McKeever – ENL Provider
Mariela Lupercio – ENL Provider
Mayra Puma – ENL Provider
Stephanie Huerta – ENL Provider

Melissa Arbelaez – ENL Provider
Rosaline Segura – ENL Provider
Martha Martinez – Assistant Principal
Dayana Cantillo – IEP Teacher
Christina Alongi – MTSS Teacher

Designated classroom staff, including ENL, content area, and bilingual teachers, are responsible for administering the Listening, Reading, and Writing components. A detailed Testing Memo outlining all logistics is shared with staff in advance for review and feedback, ensuring clarity and preparedness before the testing window opens.

18. How does your school ensure that current and former ELLs receive necessary accommodations for state assessments, including the Specialized High School Admissions Test (SHSAT) if applicable?

The school is committed to ensuring that all current and former English Language Learners (ELLs) receive the appropriate accommodations necessary to fully access and participate in state assessments. To maintain accuracy and consistency, accommodation lists are carefully documented and updated in shared Excel spreadsheets managed collaboratively by ENL providers, the ENL & Testing Coordinator, and Special Education (SPED) teachers. These lists are regularly reviewed to reflect any changes in student needs or eligibility. Testing coordinators print and review these accommodations with proctors well in advance of test administration, ensuring that all staff are familiar with the required supports and testing protocols. For ELLs with disabilities, accommodations outlined in their IEPs or 504 plans are carefully implemented to meet both language and learning needs. All ELLs in testing grades receive state-mandated accommodations for the New York State English Language Arts, Mathematics, and Science exams, including extended time, separate testing locations, translated test booklets for Math and Science, and bilingual glossaries for all subjects. Families are notified in advance if their child will be receiving accommodations, reinforcing transparency and collaboration. This structured approach ensures that ELLs are equitably supported during assessments, allowing them to demonstrate their knowledge and skills without language barriers impeding their performance.

Part VI: Family Partnership

Family Partnership

Required Meetings Under CR Part 154

Describe your schools' plan to ensure families of ELLs are provided with the required meetings specified below as per CR Part 154. Include:

- Topics discussed during these meetings
- How your school ensures families receive necessary translation/interpretation supports to meaningfully engage in the meetings
- How your school schedules these meetings to facilitate attendance, and how your school maintains evidence of these meetings as required per the NYC DOE Policy and Reference Guide for MLs/ELLs.

a. ELL Program Orientation to inform parents/guardians of newly identified ELLs of ELL program options, including the program goals and requirements for all three ML/ELL program models: Dual Language Bilingual Education, Transitional Bilingual Education and English as a New Language regardless of whether the school currently has either type of bilingual program and provide a high-quality orientation section on the Next Generation Learning Standards, assessments, and school expectations for English Language Learners.

Once a student's ELL status is confirmed, we schedule parent orientation meetings and ensure that the ELL Parent Survey and Agreement Form is completed. All materials and information shared with families are provided in their preferred language. While we prioritize using on-site staff for translation, we also collaborate with the Office of Language Access, as needed, to assist with additional languages if necessary.

We offer a parent orientation to the guardians of newly enrolled ELL students. During the orientation, parents/guardians are invited to view a video explaining the three available program options, which is accessible in multiple languages. The orientation also covers key topics such as the Next Generation Learning Standards, assessments, school expectations for ELLs, and the goals and requirements of all three ML/ELL program models: Dual Language Bilingual Education (DLBE), Transitional Bilingual Education (TBE), and English as a New Language (ENL), regardless of whether the school currently offers bilingual programs.

The orientation is conducted in a language or communication format that best meets the needs of the parent or guardian. If an interpreter is required for a language not spoken by school staff, we refer to the NYC DOE's language access supports.

Records of the mandated parent orientation are maintained in the ELL Compliance Binder for the academic year. This includes session agendas, attendance records, staff participants, and details of any languages spoken during the orientation.

Orientation details are communicated to families via the school website and a flyer sent home with all ELL students, with information translated into the family's preferred language. During the session, members of the ENL Department, along with administrative and instructional staff, engage in discussions with families. Technology is made available to support viewing the ELL Parent Orientation video, and transcripts or translated text are provided as needed.

The orientation covers the ELL identification process, program models, the ELL Family Bill of Rights, the Next Generation Learning Standards, and our commitment to access and equity for all students. A Q&A session allows families to address any questions or concerns.

Parents are required to complete the ELL Parent Survey and Agreement Form within five school days of the orientation. We follow up as necessary to ensure timely submission. Once the form is received, we issue the student's program placement letter. If the form is not returned, a default program placement letter is sent. All relevant documents—such as agendas, attendance records, parent notifications, and completed forms—are filed in the student's cumulative folder and stored in the ELL Compliance Binder for the academic year.

b. Annual Individual Meeting to discuss goals of the program, language development progress, language proficiency assessment results, and language development needs in all content areas. Note: this meeting is separate from and does not include the mandated ELL program orientation meeting and DOE-scheduled parent-teacher conferences.

Each year, we hold annual meetings to inform parents of English Language Learners (ELLs) about their child's academic and language development progress. These meetings provide a valuable opportunity for families to meet one-on-one with school staff to discuss student performance and the services being provided. During the Annual Parent Meeting, families receive updates on their child's English language development, results from the New York State English as a Second Language Achievement Test (NYSESLAT), and information about their child's program entitlements.

Given our large ELL population, teachers use their designated Parent Engagement Time to schedule these individual meetings, which may be held virtually or in person based on family preference. We prioritize in-person meetings, but in the event that a family is unable to attend, virtual options are provided. Language interpretation is provided for any family whose preferred language cannot be supported by on-site staff. We reference our Elm Tree Staff Language Survey, distributed at the beginning of the school year, to identify staff who speak languages other than English. When necessary, we also utilize the Office of Language Access to ensure all families receive information in their preferred language.

Prior to the meetings, staff receive a memo outlining meeting requirements along with Student Data Profiles to guide their conversations. Content area teachers collaborate with ENL providers to ensure comprehensive and supportive discussions. Families are notified of the meetings through the Elm Tree School App. We are mindful of families' varying schedules and encourage teachers to coordinate meeting times that accommodate parents' availability.

Teachers begin the meetings by clearly outlining the goals of the selected program (ENL, DL, or TBE), explaining the primary objective of the model and how the model supports the development of English language proficiency while ensuring access to grade-level academic content. They explain how the Integrated ENL model functions, including co-teaching strategies, classroom grouping, and how instruction is differentiated based on the student's language proficiency level.

Next, teachers review the student's language development progress, drawing on classroom observations, formative assessments, and student work samples. They describe how the student is developing in the four key language

domains: listening, speaking, reading, and writing. Teachers highlight areas of strength and identify specific areas that require continued support.

Teachers then share the results of the previous NYSESLAT. They explain the student's current proficiency level (Entering, Emerging, Transitioning, Expanding, or Commanding), how that level was determined, and what it means in terms of instructional support and services. They also review the upcoming NYSESLAT and provide families with an Informational Brochure assisting families in supporting their children at home with this examination.

Finally, the meeting includes a discussion of the student's language development needs across all content areas. Teachers describe how language demands vary in subjects like math, science, and social studies, and how instruction is being tailored to support the student's ability to comprehend and express academic content in English. They may also discuss how the student is being supported in the classrooms and what strategies are used to promote both language and content learning.

All meetings are documented using a school-wide shared template, which includes the meeting date and attendees. Teachers are required to have parents sign an attendance form, and may include additional notes if follow-up is needed. All documentation is filed in the student's cumulative record and stored in the ELL Compliance Binder for the academic year.

Family Engagement

2. Beyond the mandated meetings and orientations, describe how your school:
a. Ensures families receive all school communications and documents in the language they best understand. How are families able to respond or initiate communications in languages other than English?

In addition to required meetings and orientations, we ensure that all families are connected to our communication platforms, including the Elm Tree School App. This platform allows information to be delivered in each family's preferred language, promoting accessibility and ease of communication. They also support two-way dialogue between families and school staff, enabling personalized interactions that strengthen the home-school connection. Through these tools, we can send timely updates via text, email, and voice call, and instantly translate messages into over 80 languages, ensuring equitable access for all families. To further support language accessibility, our Parent Coordinator, in collaboration with the ENL and Technology Departments, hosts family workshops focused on translation tools and communication support. These efforts help ensure that families are fully equipped to engage with school communications and stay informed about their child's education.

b. Develops activities that foster empowerment for families of MLs/ELLs. Include how your school determines the needs of your community.

Our school is deeply committed to fostering strong partnerships with English Language Learner (ELL) families by creating inclusive, supportive, and empowering experiences throughout the year. Teachers maintain consistent communication with families to share updates on students' academic and social progress, ensuring alignment on student growth and next steps. Staff respond promptly to parent inquiries, reinforcing trust and collaboration. The school environment itself reflects our commitment to cultural responsiveness, with hallways and classrooms decorated to honor the diverse backgrounds of our students and families. Multicultural events are held during the year, providing students and families with opportunities to celebrate and share their heritage, while actively participating in the school community.

To further support multilingual families, the ENL and Instructional Teams host Workshop Series for Multilingual Families based on interest inventories provided by families at the start of the year. These workshops cover a range of topics, including: connecting newly arrived families to community resources; providing translation and interpretation tools; offering guidance on accessing free English language classes; and sharing strategies for building language skills at home. Additional sessions include NYSESLAT preparation, reading and math activities for home use, and writing strategies in both English and home languages. We also offer enrichment activities such as socio-emotional workshops, safety town halls with the FDNY and NYPD, and classes focused on English language development and immigrant resources. In addition, we partner with Elevate Education to provide family workshops in the areas of Time Management, Home Study Environment, Goal Setting & Motivation, Stress Management, Beating Procrastination, and Conflict & Bullying.

All events and workshops are communicated through our school website and communication platforms in families' preferred languages. Attendance is tracked through sign-in sheets, and families are invited to complete surveys after each session to help us evaluate and improve future offerings. A highlight of the year is our Multicultural Celebration, where students proudly showcase artistic creations from their home countries, giving families a meaningful opportunity to engage with and celebrate the rich diversity of our school community.

c. Ensures families of MLs/ELLs are aware of family leadership opportunities (such as Parent Association (PA), School Leadership Team (SLT), Community Education Council (CEC), etc.)

Our Parent Coordinator, in collaboration with the school administration, hosts monthly PTA Meetings, SLT (School Leadership Team) Meetings, and Town Halls. These gatherings provide families with valuable insight into school-wide organizations and offer opportunities for their voices to be heard in the decision-making process for school initiatives.

Flyers distributed by the Community Education Council (CEC) are shared with families to keep them informed about upcoming elections and other important events. The SLT plays a key role in developing the school's Comprehensive Educational Plan (CEP) and ensuring it aligns with the school-based budget.

We ensure that all communication is linguistically and culturally responsive. Invitations to leadership opportunities—such as parent-teacher association (PTA) meetings, School Leadership Team (SLT) participation, ENL parent meetings, and district-level events—are translated into families' home languages. Parents are encouraged to attend these meetings and actively participate in discussions that directly impact school-wide decisions. All event information is shared with families through our school website and communication platforms, in each family's preferred language. translated into families' home languages.

To help us track participation and improve future engagement, a sign-in sheet is available at every event. This helps us assess attendance and plan next steps to ensure all families have access to these important leadership opportunities.

3. What culturally and linguistically responsive partnerships do you currently have that support the needs of your school community?

We currently have a partnership with the Child Center of NYC, which is our Community Based Organization. Through this partnership, we are able to provide families with Workshops that are geared towards literacy development, as well as provide access to support needed by our Newly Arrived Families, The Child Center of NY's mission is to strengthen children and families with skills, opportunities, and emotional support to build healthy, successful lives. Through this partnership, we are able to provide youth development programs that enrich young people with the tools to grow into capable and confident adults. We offer afterschool programs that focus on issues ranging from health to community service. In addition, we provide workshops that cater to Adult English Classes and Health Care for families.

In addition, we partner with Cool Culture. At the core of Cool Culture's work is the use of art and culture as a vehicle for transformation that engages our emotional, intellectual and political imaginations. Cool Culture believes that art is a human right, a powerful means of self-expression, and a bridge that allows us to transcend boundaries between and across cultures to build community and to increase our capacity for dialogue and understanding. Through this partnership, our families have access to a year of unlimited, free admission for up to five people to our 90 New York City cultural institution partners.

Lastly, we are a part of the Cook Shop program low-income children and their families with hands-on nutrition education workshops. This free program focuses on nutrition and healthy cooking, emphasizing affordable fruits, vegetables, and whole (not processed) foods. We offer workshops for families, as well as provide in-house support for our students.

Part VII: Additional Information

Additional Information

Include any additional information that is relevant to your LAP and would further explain and highlight how your school supports MLs/ELLs. This form does not allow graphics and charts to be pasted.

Throughout the school year, we welcome many students who are new to the country and enroll at our school. To support their transition, we provide essential school supplies such as backpacks, notebooks, and pencils, as needed. Upon enrollment, students are assessed and, if appropriate, placed in programs that focus on home language support and English language acquisition, while also nurturing students' social-emotional well-being. Our Newcomer programs create a welcoming environment where students can build relationships with peers who share similar experiences and language backgrounds. In small-group settings tailored to their needs, students develop listening, speaking, reading, and writing skills, while gaining the confidence to actively participate and thrive in the classroom.

Part VIII: ELL Identification Attestation and Principal Certification

Identification Plan

For additional information, refer to ELL Identification Attestation Professional Learning Module.

1. What are the titles of the members of your ELL identification team? Note: Members of the ELL identification team must be pedagogues.

The members of the ELL Identification Team are as follows:
Nicole Gagliardi- ENL Coordinator/Provider
Jessamine Mckeever-ENL Teacher
Mariela Lupercio-ENL Teacher
Mayra Puma- ENL Teacher
Stephanie Huerta- ENL Teacher
Melissa Arbelaez- ENL Teacher
Rosalind Segura- ENL Teacher
Jennifer Erichsen- Assistant Principal
Martha Martinez- Assistant Principal
Dayana Cantillo- IEP Teacher
Diana Cuzo-MTSS Teacher

The members of the ELL Identification Team, who also serve on the Language Proficiency Team, include the following:
Nicole Gagliardi: ENL Coordinator/Provider
Jessamine Mckeever: ENL Provider
Dayana Cantillo: IEP Teacher
Jennifer Erichsen: Assistant Principal

2. Describe the structures and process in place for identification of ELLs year-round as required by the NYC DOE Policy & Reference Guide for MLs/ELLs, including your school's identification plan for any incoming students with an Individualized Education Plan (IEP). Include:

- **How your school proactively plans for the ELL identification process so that it does not interrupt the provision of mandated ENL and/or bilingual instruction to current, former and potential ELLs,**
- **Who is responsible for each step of the ELL identification process, and**
- **School's plan for ensuring ELLs and former ELLs will continue to receive mandated instruction.**

The identification process for English Language Learners (ELLs) follows a structured, state-mandated procedure designed to ensure that all students who require language support are accurately identified and appropriately placed without disrupting mandated instruction. The process begins with the administration of the Home Language Identification Survey (HLIS), completed by parents or guardians at the time of enrollment. If the survey indicates that a language other than English is spoken at home, a follow-up interview is conducted with the student and family to gather more detailed information about the student's language background.

If further evaluation is needed, the student is administered the New York State Identification Test for English Language Learners (NYSITELL), which assesses proficiency in listening, speaking, reading, and writing (for students entering Kindergarten, only listening and speaking are assessed). Students who do not score at the Commanding level are classified as ELLs and become eligible for English as a New Language (ENL) services and, where applicable, bilingual education programs such as Dual Language or Transitional Bilingual Education (TBE). For students with an Individualized Education Program (IEP), the Language Proficiency Team (LPT)—including ENL providers, special education staff, and administrators—meets to make a final, individualized decision regarding NYSITELL participation, based on English proficiency, IEP goals, academic performance, and the impact of the student's disability.

Our school proactively plans for this process to ensure that it does not interfere with the provision of mandated ENL or bilingual instruction for current, former, or potential ELLs. Planning begins before the school year with a review of enrollment projections and preparation for HLIS administration. We coordinate closely with the registration team to ensure timely and accurate survey completion and early identification of students needing further evaluation.

The ELL Identification Team at our school is comprised of school-based professionals committed to ensuring a thorough and equitable identification process. This team includes ENL teachers and the ENL coordinator, who lead the process and ensure compliance with state regulations; school administrators, who align procedures with school policies and participate in LPT meetings; bilingual special education teachers, who help distinguish between language acquisition and disability-related concerns; and MTSS providers and IEP Teacher(s) with bilingual expertise, who have been trained to administer the HLIS and conduct student interviews to evaluate language acquisition.

To streamline the process, follow-up interviews and NYSITELL testing are scheduled promptly using a dedicated team of trained staff, ensuring that ENL and bilingual teachers can continue delivering instruction without interruption. A flexible testing schedule is maintained to minimize classroom disruption. Additionally, we use a shared spreadsheet housed on our school's drive to track the status of each potential ELL in real time. This tool is accessible to ENL providers, bilingual teachers, and administrators, promoting transparency and coordination.

Once a student is identified as an ELL, services begin immediately in accordance with state timelines. By planning ahead, allocating dedicated assessment staff, and maintaining clear communication across teams, our school ensures that all eligible students are identified and supported in a timely, equitable, and instructionally sound manner.

Principal Certification

In accordance with New York State's Commissioner's Regulations Part 154 as outlined and implemented in the NYC DOE Policy and Reference Guide for MLs/ELLs, I, attest that the following ELL identification procedures and activities are adhered to, and staff are trained on the items listed below.

- The ELL Identification Process is completed for each student within 10 school days of enrollment (20 school days for students entering with IEPs).
- Enrollment status of each newly admitted student is determined:
  a. If a student has been in New York State public schools within the past 2 years, our school contacts the previous school to obtain ELL status, relevant assessment scores, and English language proficiency level.
  b. If a student has been outside of New York State public schools for more than 2 years, our school administers the ELL Identification Process as part of reentry.

- The home language of the student is determined by a trained and licensed pedagogue.
  a. The parent completes the Home Language Identification Survey in the parent's preferred language; translation services are provided by a bilingual staff member, the DOE's over-the-phone translation services, or an alternative, high quality translation service.

- An interview with parents and students in English and the home language is conducted. This includes reviewing documents, prior assessments, and academic experience. An assessment of the student's abilities and/or work samples determines the student's literacy and math level in his/her home language.
- Eligibility for the NYSITELL is determined.
  a. If the newly enrolled student is entering with an IEP, the school's Language Proficiency Team (LPT) recommends eligibility to the principal, who obtains final approval from the superintendent.

- Students are administered the NYSITELL, if eligible.
- Notification letters are sent to the parent/guardian in their preferred language.
  a. Parent is notified of their child's ELL status and results of the NYSITELL.

- If the student is identified as an ELL and the student's home language is Spanish, the student is administered the Spanish Language Assessment Battery (LAB).
- Student with Interrupted/Inconsistent Formal Education (SIFE) status is determined using New York State's resources.
- If a student is a newly identified ELL, the parent is invited to the parent orientation meeting.
  a. The parent orientation meeting provides parents/guardians with an explanation of each ELL program model offered in NYC; the parent video describing the three programs is presented (in parent's preferred language); parents/guardians are encouraged to ask questions so that they are

informed about all ELL programs; translation and interpretation services are provided throughout the meeting.

- ELL is placed in the ELL program that the parent selected.
  a. If the bilingual program that the parent selected is not available, the parent is offered a transfer to a school with that bilingual program in accordance with NYC DOE transfer policies.
  b. If the ELL remains in the school, the ELL is placed in English as a New Language and our school keeps track of parent selection so that when minimum thresholds are met, we can open the ELL program of choice.

- Parents are notified that they have 45 days to appeal the ELL status of their child (ELL Re-identification Process).
- If the ELL Re-identification Process is implemented for any student, the principal reviews the decision of any student whose ELL status was changed because of the ELL Re-identification Process within 6 to 12 months.
- Copies of documentation regarding ELL identification, including letters and parent notifications are kept in the students' cumulative files.

LTI Overview and Part A: Designation of a LAC

Chancellor's Regulation A-663 establishes procedures for ensuring that Limited-English-Proficient (LEP) parents of students enrolled in the New York City public schools are provide with a meaningful opportunity to participate in and have access to programs and services critical to their child's education. To this end, schools must review and complete the annual LTI Plan to address its language assistance needs consistent with the requirements of this regulation.

The LTI Plan requires information on the following:

- Name of person designated as the Language Access Coordinator (LAC).
- Identification and assessment of LEP parent population.
- Identification of Critical Communications and standing, in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.
- Plan to ensure staff awareness of language access requirements and available resources.
- Provision of notice to parents on the available language assistance services.

Methods for the school to solicit and implement feedback on its provision of language assistance services.

Office of Language Access (OLA) Contact:

- **Contact Information:**
  - **Cunneely Elena, ECunneely@schools.nyc.gov**
  - **Rivera Ricardo, RRivera60@schools.nyc.gov**
  - **Williams Robert. RWilliams32@schools.nyc.gov**

Please do not edit

Elena Cunneely

Designation of a LAC
Name of person designated and trained as the LAC.
At the start of each school year, each principal is required to designate at least one staff member to serve as the Language Access Coordinator (LAC), responsible for overseeing language assistance services within the school.

We have pre-populated the following information based on our records. Please confirm that the designated staff member(s) are your school's Galaxy-designated LAC(s) and provide the date(s) they attended the OLA Language Access Coordinator Training. Note that this training is in addition to the mandatory asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform. If any information is missing, please provide the requested details.

As a reminder, LACs are internal staff designations and are not meant to serve as the primary point of contact for families regarding language access-related matters. The Parent Coordinator, or another designated staff member, should remain the main contact for families regarding all issues, including language access.

First Name	Last Name	Title	Date attended OLA Language Access Coordinator Professional Learning Opportunity	Confirmed (Y/N)
Gisella	Catarine	Parent Coordinator - Annual	02/13/2025	Y

Part B: Parents' Preferred Languages

Parents' Preferred Languages

Language identification and assessment of parent population.

1. Check the resources your school staff uses to identify parents' preferred languages:

,Student Emergency Contact cards,Part III of the Home Language Identification Survey (HLIS),New York City Schools Account (NYCSA) Student Profile,Automate The System (ATS) reports / Next Generation Student Information System (NGSIS),Surveys conducted by your school

If Other was selected, describe the resource here:

2. We have pre-populated the following information from the Parent's Preferred Language Report (RCPL) in ATS. For the last two columns, please indicate the number of school staff members who are comfortable using their language skills to communicate with parents and regularly assist other staff members and families with translation and/or interpretation. If none, enter "0".

Language (Description within RCPL)	Written Preferred Count	Written Preferred Percentage	Oral Preferred Count	Oral Preferred Percentage	No. of Staff to Help with Written Translation	No. of Staff to Help with Oral Interpretation
ARABIC	3	0.22%	3	0.22%	2	2
BENGALI (BANGLA IN BANGLADESH)	1	0.07%	1	0.07%	1	1
CHINESE ANY	19	1.37%	19	1.37%	2	2
FRENCH	3	0.22%	3	0.22%	1	1
FULANI	4	0.29%	4	0.29%	0	0
HAITIAN	1	0.07%	1	0.07%	0	0

CREOLE						
MANDARIN	0	0.00%	1	0.07%	1	1
NEPALI	2	0.14%	2	0.14%	0	0
ENGLISH	291	21.06%	288	20.84%	145	145
SPANISH	1052	76.12%	1054	76.27%	80	80
(AMERICAN) SIGN LANGUAGE	1	0.07%	1	0.07%	0	0
UZBEK	4	0.29%	4	0.29%	0	0
VIETNAMESE	1	0.07%	1	0.07%	0	0

Part C: Parent Communications and Engagement

Parent Communication and Engagement

Identification of written critical communications and in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.

1. List the documents your school typically distributes each year that require translation, along with your plan for translating these documents.

Document Type (e.g. parent flyers, IEPs, etc.)	How do you plan to implement the translation process? Please include procedures and resources to ensure the timely delivery of translated documents to parents.
Parent Workshop Offerings/Flyers	We utilize the DOE vendor for languages not covered by the Office of Language Access, and rely on the Office of Language Access for those that are. Whenever possible, we prioritize using on-site staff who can assist with translation. In addition, we may use digital tools such as Google Translate or Microsoft Translator when needed. Family workshop information is shared with families in their preferred language through multiple channels: sent home with students, emailed, posted on our website, shared via the Elm Tree App, and our Social Media Platforms inclusive of Facebook and Instagram. We strive to use school-based personnel for translation whenever available. When digital translation tools are used, a staff member reviews the translated content to ensure accuracy in the target language.
Monthly Newsletters	We utilize the DOE vendor for languages not covered by the Office of Language Access, and rely on the Office of Language Access for those that are. Whenever possible, we prioritize using on-site staff who can assist with translation. In addition, we may use digital tools such as Google Translate or Microsoft Translator when needed. Monthly Newsletters are shared with families in their preferred language through multiple channels: sent home with students, emailed, posted on our website, shared via the Elm Tree App, and our Social Media Platforms inclusive of Facebook and Instagram. We strive to use school-based personnel for translation whenever available. When digital translation tools are used, a staff member reviews the translated content to ensure accuracy in the target language.
PTA, SLT, & Town Hall Meetings	We utilize the DOE vendor for languages not covered by the Office of Language Access, and rely on the Office of Language Access for those that are. Whenever possible, we prioritize using on-site staff who can assist with translation. In addition, we may use digital tools such as Google Translate or Microsoft Translator when needed. PTA, SLT & Town Hall information is shared with families in their preferred language through multiple channels: sent home with students, emailed, posted on our website, and shared via the Elm Tree App. We strive to use school-based

	personnel for translation whenever available. When digital translation tools are used, a staff member reviews the translated content to ensure accuracy in the target language.
School Event Calendar	We utilize the DOE vendor for languages not covered by the Office of Language Access, and rely on the Office of Language Access for those that are. Whenever possible, we prioritize using on-site staff who can assist with translation. In addition, we may use digital tools such as Google Translate or Microsoft Translator when needed. School Event Calendars are shared with families in their preferred language through multiple channels: sent home with students, emailed, posted on our website, shared via the Elm Tree App, and our Social Media Platforms inclusive of Facebook and Instagram. We strive to use school-based personnel for translation whenever available. When digital translation tools are used, a staff member reviews the translated content to ensure accuracy in the target language.
Parent Teacher Conference & Meet the Teacher Notices	We utilize the DOE vendor for languages not covered by the Office of Language Access, and rely on the Office of Language Access for those that are. Whenever possible, we prioritize using on-site staff who can assist with translation. In addition, we may use digital tools such as Google Translate or Microsoft Translator when needed. Conferences and Meet the Teacher Notices are shared with families in their preferred language through multiple channels: sent home with students, emailed, and shared via the Elm Tree App. We strive to use school-based personnel for translation whenever available. When digital translation tools are used, a staff member reviews the translated content to ensure accuracy in the target language.
IEP's & ELL Related Documents	We utilize the DOE vendor for languages not covered by the Office of Language Access, and rely on the Office of Language Access for those that are. Whenever possible, we prioritize using on-site staff who can assist with translation. In addition, we may use digital tools such as Google Translate or Microsoft Translator when needed. We promptly translate a student-specific critical written communication and provide it to the parent within a reasonable amount of time taking into consideration the type of communication and whether the communication includes deadlines by which a parent may need to take action or respond to the school.
School Trip & Any Excursion Off-Site Consent Forms	We utilize the DOE vendor for languages not covered by the Office of Language Access, and rely on the Office of Language Access for those that are. Whenever possible, we prioritize using on-site staff who can assist with translation. In addition, we may use digital tools such as Google Translate or Microsoft Translator when needed. Consent Forms are shared with families in their preferred language through multiple channels: sent home with students, emailed, and shared via the Elm Tree App. We strive to use school-based personnel for translation whenever available. When digital translation tools are used, a staff member reviews the translated content to ensure accuracy in the target language.
Enrollment Related Documentation (Lunch, Registration, etc.)	We utilize the DOE vendor for languages not covered by the Office of Language Access, and rely on the Office of Language Access for those that are. Whenever possible, we prioritize using on-site staff who can assist with translation. In addition, we may use digital tools such as Google Translate or Microsoft Translator when needed. Enrollment related documentation is shared with families in their preferred language through multiple channels: sent home with students and shared via the Elm Tree App.

2. List the meetings, both in-person and virtual, that your school typically holds with parents throughout the school year, along with your plans for providing interpretation services at those meetings.

Meeting Type (e.g. parent workshops, PTCs)	How do you plan to offer interpretation services? Please outline the procedures and resources in place to ensure timely access to interpretation for parents.
Town Hall Meetings	We utilize a range of interpretation resources to support communication, including over-the-phone interpretation services, bilingual school personnel, and staff proficient in the required language. When needed, we schedule on-site or remote interpretation through the DOE vendor. Additionally, we may engage family volunteers to assist with interpretation when appropriate.
School Orientations & Parent Teacher Conferences	We utilize a range of interpretation resources to support communication, including over-the-phone interpretation services, bilingual school personnel, and staff proficient in the required language. When needed, we schedule on-site or remote interpretation through the DOE vendor. Additionally, we may engage family volunteers to assist with interpretation when appropriate.
ELL Annual Meetings	We utilize a range of interpretation resources to support communication, including over-the-phone interpretation services, bilingual school personnel, and staff proficient in the required language. When needed, we schedule on-site or remote interpretation through the DOE vendor. Additionally, we may engage family volunteers to assist with interpretation when appropriate.
IEP Meetings	We utilize a range of interpretation resources to support communication, including over-the-phone interpretation services, bilingual school personnel, and staff proficient in the required language. When needed, we schedule on-site or remote interpretation through the DOE vendor. Additionally, we may engage family volunteers to assist with interpretation when appropriate.
PTA & SLT Meetings	We utilize a range of interpretation resources to support communication, including over-the-phone interpretation services, bilingual school personnel, and staff proficient in the required language. When needed, we schedule on-site or remote interpretation through the DOE vendor. Additionally, we may engage family volunteers to assist with interpretation when appropriate.
Registration	We utilize a range of interpretation resources to support communication, including over-the-phone interpretation services, bilingual school personnel, and staff proficient in the required language. When needed, we schedule on-site or remote interpretation through the DOE vendor. Additionally, we may engage family volunteers to assist with interpretation when appropriate.
Graduation	We utilize a range of interpretation resources to support communication, including over-the-phone interpretation services, bilingual school personnel, and staff proficient in the required language. When needed, we schedule on-site or remote interpretation through the DOE vendor. Additionally, we may engage family volunteers to assist with interpretation when appropriate.
Family Workshops	We utilize a range of interpretation resources to support communication, including over-the-phone interpretation services, bilingual school personnel, and staff proficient in the required language. When needed, we schedule on-site or remote interpretation through the DOE vendor. Additionally, we may engage family volunteers to assist with interpretation when appropriate.

3. Describe the resources and processes your school will use to communicate with parents who speak a language other than English during an emergency (e.g., lockdown, fire, student attendance, nurse/hospital visit, etc.), or when a parent needs to contact the school in an emergency, ensuring communication is in their preferred language.

In the event of an emergency, Elm Tree Elementary School is committed to ensuring timely and effective communication with all families, including those who do not speak English. Our first step will be to engage any available staff member who is proficient in the family's home language to make direct contact. If additional support is needed, we will utilize the over-the-phone interpretation service to facilitate accurate communication.

Emergency notifications will also be distributed through the Elm Tree App (powered by EDLIO). Both platforms support multilingual communication and will deliver messages in each family's preferred language. To ensure effective use of these tools, staff will receive training on the Elm Tree App, including its language accessibility features.

Furthermore, we will proactively use the over-the-phone interpretation service to inform families that they are welcome to contact the school in their native language at any time.

Part D: Staff Awareness

Staff Awareness

Plan to ensure staff awareness of language access requirements and available resources.

1. Describe how your school will ensure that all staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform, and are familiar with the Best Practices for When to Provide Translation of Critical Written Communications to Parents and Best Practices for When to Provide Interpretation for Critical Oral Communications with Parents. Additionally, explain how your Galaxy-designated LAC will disseminate future language access resources and updates to all staff members.

Elm Tree Elementary School is committed to ensuring that all staff members complete the required asynchronous NYCPS Language Access Training for School-Based Staff on the WeLearnNYC platform. To support this, the school administration will communicate clear expectations and deadlines through staff meetings and email notifications. Completion of the training will be done during one of our scheduled PL Time Frames afterschool. In addition, they can elect to complete it during their designated OPW Time Frame if they choose. Reminders will be sent regularly to ensure full participation. In addition to the training, staff will be introduced to the "Best Practices for When to Provide Translation of Critical Written Communications to Parents" and "Best Practices for When to Provide Interpretation for Critical Oral Communications with Parents." These resources will be reviewed during professional development sessions and made readily accessible through shared digital folders, our Instructional Handbook, and printed copies in common staff areas.

The school's Galaxy-designated Language Access Coordinator (LAC) will play a key role in maintaining and disseminating language access resources. The LAC will ensure that all staff are informed of updates and new guidance from the DOE by sharing information during staff meetings and through email communications. The LAC will also serve as a point of contact for any questions related to language access and will provide ongoing support to help staff implement best practices effectively. This comprehensive approach ensures that all staff are well-equipped to communicate with and support the diverse linguistic needs of our school community.

Part E: Parental Notification

Parental Notification

Provision of notice to parents on the available language assistance services.

1. Describe how your school will inform parents about available language assistance services in their preferred language. Include any of the following:

- **Translated signage**
- **Brochures, flyers, or letters shared with parents**
- **Parent engagement events where language assistance services are highlighted (e.g., PTA meetings, international parents' night, etc.)**
- **Messaging applications**

- Language Access for NYC Public Schools Families brochure

The Language Access Coordinator (LAC) has completed training to ensure they can provide families with accurate information about their rights to translation and interpretation services. A welcome poster is displayed at the school entrance, featuring key information and a QR code that links to additional language access resources. The Language Identification Guide is prominently posted at both the security desk and the Main Office to assist families in identifying their preferred language.

To further support families, the Parents' Bill of Rights, the Parents' Guide to Language Access, and the NYC Public School Guidebook are shared and are also available in the Main Office. Informational brochures are distributed in student folders, and when in-person distribution is not possible, materials such as brochures, flyers, and letters are shared virtually through the school website.

For family engagement events—including PTA meetings and other school activities—translation and interpretation services are provided through available bilingual staff, the over-the-phone interpretation line, or DOE translators, either in person or virtually, to ensure all families can participate meaningfully.

Part F: Monitoring

Monitoring

Methods for soliciting and implementing feedback on language assistance services.

1. In addition to the feedback received from parents via OLA's Translation & Interpretation Feedback Survey, describe the methods your school will use to gather feedback from parents regarding the language assistance services they receive in their preferred language.

The Language Access Coordinator will collect feedback on available services through various channels, including Town Hall meetings, PTA meetings, School Leadership Team (SLT) meetings, Language Access Parent Surveys, and informal conversations with families. During the 2025–2026 school year, we will continue to engage a focus group of families to identify opportunities for enhancing our current practices. Data will be gathered and analyzed to inform new goals aimed at improving the efficiency and effectiveness of our language services.

Feedback will be collected both in person and remotely—via Google Forms, on-site in families' home languages, or through the Elm Tree website. To ensure accessibility, we will submit written translation requests in advance when needed, based on families' preferred languages. We will also utilize school-based staff and digital translation tools to accommodate all language needs.

2. How has your school worked to improve its language assistance services? Share any feedback results and outline your plans for further improvements in the upcoming school year.

Family feedback has consistently shown appreciation for the accommodations provided during both in-person and virtual events. Families have expressed a strong interest in continuing to have all presentations and workshops offered in multiple languages, as needed. However, we are looking for more effective ways to provide translation for families who speak varied languages.

The use of a Google Reflection Form after each event has proven valuable in helping us plan future events and better understand the needs of attending families. All workshops and presentations are translated into multiple languages and made available on our school website.

Additionally, feedback has guided us to offer presentations that introduce translation resources for both families and students. These workshops include demonstrations on how to access and use translation websites effectively.

Looking ahead to the 2025–2026 school year, we will continue to ensure that all presentations are available in families' preferred languages. We will also maintain regular surveys to gather input on how we can further improve our services.

Title III Outline

Title III Supplemental Program for ELLs for SY 2025-26

REQUIREMENTS

Title III supplemental services for English Language Learners (ELLs) must include the following three components:

- **Direct instruction** activities must be used to support language development, English and home language instruction, high academic achievement in math, and/or high academic achievement in other core academic areas. The Title III supplemental instructional services must be based on student need. These supplemental services should complement core bilingual and ENL services required under CR Part 154. Direct supplemental services should be provided for before school, after school, and Saturday programs. Teachers providing the services must be bilingual education and/or English for Speakers of Other Languages (ESOL) certified teachers.
- High quality **professional development** that is "of sufficient intensity and duration to have a positive and lasting impact on the teachers' performance in classrooms." Professional development activities should be well-planned, ongoing events rather than one-day or short-term workshops and conferences.
- **Parent engagement and supports** must ensure that there are appropriate translation and interpretation services to meet community needs. These are in addition to mandated activities, such as parent orientation during ELL identification process or annual ELL parent meetings.

Note: The Title III ELL program planning ratio is as follows: 60% to direct instruction, 10% to professional development (if funded using Title III ELL funds), 10% to parent engagement (if funded using Title III ELL funds), and 20% to OTPS (if funded using Title III ELL funds).

For more information on Title III requirements, please see the School Allocation Memo or contact your ML/ELL Director or ELL Compliance and Performance Specialist. Any updates or revisions to this plan must be made through the iPlan portal.

Part A: School Information

This school is (select one):

Conceptually consolidated (skip Part E of this document)

Part B: Direct Instruction Supplemental Program Information

The direct instruction component of the program will consist of (select all that apply):

,After School,Before School

Total number of ELLs to be served in this program:

Approximately 60

Grades to be served in this program. Select all that apply.

,3,5,2,1,K,4

Total number of teachers in this program:

6

Number of certified bilingual education or ESOL teachers (include teachers that are dually certified with TESOL certification/bilingual extension & common branch/content area certification):

6

Number of content area teachers (i.e., teachers that have common branch/content area licenses only):

N/A

Title III ELL Summary

Provide a summary of each program funded under Title III ELL for SY 25-26: For each program, describe:

- **When the program takes place (i.e., after school, before school, Saturday academy)**

- **Activities ELLs will engage in and how these activities will enhance instructional opportunities for ELLs**
- **How ELLs will be grouped for instruction and specify the number of student groups. Include total number of student groups and total number of ELLs in each group, for each program**
- **How instruction will be delivered (e.g., team teaching, parallel teaching, etc.)**
- **How the program will be supervised and whether this will be funded by Title III ELL. Please note: If supervision will be funded using Title III ELL funds, you must include the supervisor's regular work day hours and the hours the supervisor will get paid per session.**

PS 211 is proud to offer Title III ELL programs designed to support English Language Learners (ELLs) at all levels of proficiency. Our programming includes a before and after school ENL Program all aimed at enhancing language development and academic success. These programs are tailored to meet the needs of our diverse ELL population, with a particular focus on Newcomer students (0–3 years of service), who make up 82.8% of our ELLs, and Developing ELLs (4–6 years of service), who comprise 17.2%.

We are pleased to offer four programs to support our English Language Learners for the SY 25-26.

Program 1: Newcomer Support for Grades 3–5: This afterschool program is designed to support our Newcomer Population in Grades 3–5—students who are newly arrived in the United States and have scored at the Entering and/or Emerging levels on the NYSITELL.
The program will run twice a week on Wednesdays and Thursdays, from 2:20 PM to 4:20 PM. Instruction will focus on explicit phonics using high-utility vocabulary, with lessons integrated across the four language modalities: listening, speaking, reading, and writing. In addition to academic instruction, the program emphasizes social language development, helping students acclimate to their new environment and communicate effectively. Approximately 10 students will participate, homogeneously grouped based on their Years of Service and English language proficiency levels. The program will be led by one bilingual-certified teacher. Given the small group size, instruction will follow a station-based model and incorporate project-based learning to maximize engagement and personalized support.

Program 2: Newcomer Support for Grades K–1 (Foundational Reading, Language and Literacy): This afterschool program is designed to support our Newcomer Students in Kindergarten and Grade 1 who have 0–1 Years of Service. Students in this group demonstrate a range of English language proficiency levels—from Entering to Expanding—based on their most recent NYSITELL and/or NYSESLAT scores. In addition to language data, instructional planning has been informed by our Universal Screener (mClass), with a focus on foundational literacy skills. The program will operate three days a week—Tuesdays through Thursdays—from 2:20 PM to 4:20 PM. Approximately 15–20 students will participate. Instruction will be delivered by two educators: one Bilingual Certified Teacher and one TESOL Certified Teacher. Teachers will co-plan and parallel teach, differentiating instruction to meet the diverse needs of the group. A station rotation model will be implemented, featuring strategically designed activities that support both language development and early literacy acquisition.

Program 3: Developing ELL Support for Grade 5: This before- and afterschool program is designed to support Grade 5 Developing ELLs, including students with IEPs, who are at the Expanding level of English proficiency and at risk of becoming Long-Term ELLs. The program is led by a TESOL-certified ENL teacher who also supports 5th-grade instruction during the school day, ensuring instructional continuity.
Sessions take place three days a week (Tuesdays–Thursdays): Morning Program: 6:50 AM–7:50 AM and Afterschool Program: 2:20 PM–4:20 PM. Approximately 15 students in total will be attending programming, with approximately 5 students in the Morning Program and 10 students in the After Program. Instruction targets all four language modalities—listening, speaking, reading, and writing—and aligns with NYSESLAT task types. For Developing ELLs, who have not yet demonstrated English proficiency despite extended service, instruction focuses on advanced

literacy strategies. These include vocabulary development through concept maps and visuals, multisensory phonics instruction, and comprehension and writing activities using leveled texts and structured discussions. Students are also taught to use metacognitive strategies such as self-assessment checklists to monitor their progress. A station-rotation model will be used to differentiate instruction, promote academic language development, and enhance student engagement.

Program 4: 1st-2nd Grade Entering and Emerging ELLs: This After School Program is designed to support students in Grades 1st-2nd who are at the Entering/Emerging Levels of Language Proficiency. This program is led by two, TESOL Certified Teachers in both Grades 1 and 2 to support with the continuity of instruction during extended day programming. The program will take place two days a week (Tuesdays and Thursdays from 2:20PM-4:20PM). ELLs, at this proficiency level, will engage with activities that are structured, inclusive of a language-rich framework that supports the development of academic vocabulary, oral language, and foundational literacy skills. Teachers emphasize structured speaking and listening, which builds confidence and fluency through partner talk, discussion routines, and modeled responses. In addition, they provide consistent practice with language structures in engaging ways, such as vocabulary games, role-plays, and scaffolded reading and writing tasks. These supports align with NYSESLAT performance indicators, promoting academic language development and accelerating ELL progress in the early grades. This also allows for ENL Teachers to transfer the methodology they use in their Stand-Alone Instruction into Extended Day Programming to support student learning. Instruction will be team-taught, however parallel techniques can be utilized as needed with a group of approximately 20 students. This flexible approach ensures that all students receive targeted support in a format that best suits their learning style.

Through this comprehensive programming, PS 211 aims to provide equitable access to high-quality instruction, foster foundational and advanced literacy skills, and support ELLs in their journey toward English language proficiency.

The program will be supervised by Assistant Principals Ms. Jennifer Erichsen, Ms. Michelle Pinargote, and Ms. Martha Martinez. Supervisors are not funded through Title III.

Supervisors working the before and after school programs work regular hours of 7:00 AM to 3:00 PM, 7:15 AM to 3:15 AM and 7:30 AM to 3:30 PM. After school programs will run from 2:21 to 4:21 PM. Before school programs run from 6:50 AM to 7:50 AM. This funding is supported by

Rationale for Title III ELL Funded Programs

Describe the rationale for each Title III ELL funded program. For each program, include:

- **Qualitative and quantitative data analysis that support the need for program, and**
- **Data sources used to justify the need for the program**

Elm Tree Elementary serves a diverse and growing population of English Language Learners (ELLs) and Multilingual Learners (MLs), with approximately 60 students enrolled in our language support programs. These students represent a range of language proficiency levels—as determined by the most recent NYSITELL and NYSESLAT assessments—including Entering, Emerging, Transitioning, and Expanding.
The demographic profile of our student population highlights the critical need for these programs. According to the most recent EDUR and EDAT data, 61.3% of our student population are ELLs. Elm Tree Elementary serves a slightly higher proportion of Newcomer ELLs (82.8% than Community School District 24 at 79.7%), and a marginally higher percentage of Developing ELLs (17.2% vs. 16.7%). Additionally, our ELL population includes 19.7% ELLs with IEPs,

and 1% Students with Interrupted Formal Education (SIFE). The majority of Newcomer ELLs are programmed in Kindergarten and 2nd grade, while most Developing ELLs are in 4th and 5th grades.

Grade-level distribution further highlights the need for differentiated support: 18% of ELLs are in Kindergarten, 17% in 1st grade, 19% in 2nd grade, 18% in 3rd grade, and 14% each in 4th and 5th grades. These figures indicate that a significant portion of our ELLs are in the early stages of their academic journey and will require sustained support to achieve language proficiency and meet grade-level standards.

Moreover, 44.4% of our ELLs have at least two At-Risk indicators, with some students presenting as many as seven. Key risk factors include being in temporary housing (64.6%), insufficient English language proficiency progress (37.7%), and scoring at Level 1 or 2 on state ELA (21.4%) and Math (22.0%) assessments. These indicators further justify the need for targeted programs that address both academic and socio-emotional challenges.

Our ELL population includes students participating in English as a New Language (ENL), Dual Language, and Transitional Bilingual Education programs, as well as students with special needs. To address the varied linguistic and academic needs of these learners, we are implementing four programming models to support our data analysis. These targeted programs aim to provide responsive and equitable instruction that supports both language development and academic achievement.

A dedicated Extended Day program for Newcomer students in Grades 3–5 is essential, as many arrive with limited or interrupted formal education. At this critical stage, they need intensive, structured English instruction that targets foundational skills in listening, speaking, reading, and writing, while also addressing gaps in core content knowledge. Additionally, the program provides a culturally responsive and emotionally supportive environment to help students adjust to a new country, language, and school system—fostering both academic growth and social-emotional well-being.

For students in Grades K–1, a targeted program to build foundational literacy and language skills is equally important. With 35% of our ELL population in early childhood grades, early intervention is critical to long-term success. Our Universal Screener data highlights significant need: 79% of Kindergarteners and 54% of 1st graders are well below benchmark in foundational literacy skills. A focused program in these grades ensures students develop the language and decoding skills necessary to become proficient readers.

Similarly, Developing ELLs in Grade 5 require ongoing, targeted support to progress beyond the Expanding level of English proficiency. While they have moved past the basics, they are not yet proficient on the NYSESLAT and remain at risk of becoming Long-Term ELLs—a subgroup that makes up 17.2% of our ELL population. This program focuses on academic vocabulary, reading comprehension, and writing to ensure students can fully access grade-level content and are prepared for future academic success.

In Grades 1–2, ELLs make up 36% of the ELL population based on the most recent EDAT. In addition, mClass data show that 54% of 1st graders and 42% of 2nd graders are well below benchmark in foundational literacy. To close these gaps and align with school and district literacy goals, a designated language development program is necessary to support early reading proficiency and long-term academic achievement.

In conclusion, these targeted programs for Newcomer and Developing ELLs are critical for advancing educational equity. They provide the structured language support, academic scaffolding, and social-emotional care needed to help our multilingual learners thrive—now and into the future.

Students and Grade Levels to be Served

For each Title III ELL funded program, describe the students that will be served. Include:

- **Total number of ELLs for each program,**
- **Grade levels for ELLs in program, and**
- **ELL Subgroups (e.g., Newcomer) and/or proficiency levels (e.g., Entering, Emerging, etc.).**

In alignment with CR Part 154, we will provide targeted services to Newcomer and Developing English Language Learners (ELLs), including ELLs who are Students with Disabilities (SWDs), in Grades K–5. To ensure optimal learning conditions, class sizes will be capped at no more than 20 students per teacher. This structure allows for more individualized instruction and greater engagement, which is essential for language acquisition and academic success.

Program 1 (10): Newcomer Support for ELL students in Grades 3–5. There are approximately 10 students who will participate, homogeneously grouped based on their Years of Service and English language proficiency levels. These students are all Newcomer Students at the Entering/Emerging Language Level.

Program 2 (15-20): Newcomer Support for Grades K–1 (Foundational Reading, Language and Literacy): This afterschool program is designed to support our Newcomer Students in Kindergarten and Grade 1 who have 0–1 Years of Service. Students in this group demonstrate a range of English language proficiency levels—from Entering to Expanding—based on their most recent NYSITELL and/or NYSESLAT scores. Approximately 15–20 students will participate.

Program 3 (10): Developing ELL Support for Grade 5: This before- and afterschool program is designed to support Grade 5 Developing ELLs, including students with IEPs, who are at the Expanding level of English proficiency and at risk of becoming Long-Term ELLs. Approximately 15 students in total will be attending programming, with approximately 5 students in the Morning Program and 10 students in the After Program.

Program 4 (20): 1st-2nd Grade Entering and Emerging ELLs: This After School Program is designed to support students in Grades 1st-2nd who are at the Entering/Emerging Levels of Language Proficiency. Approximately 20 students in total will be attending programming who are all Newcomer students.

Enrollment numbers may vary based on student availability and updated enrollment/exit information at the time of program implementation. Final groupings will be determined in alignment with NYCDOE ELL programming guidelines and school enrollment protocols, including mandated service needs, most current NYSESLAT/NYSITELL data, and family consent/availability. This flexible, data-driven approach ensures that our programs remain responsive to student needs while remaining compliant with CR Part 154.

Schedule and Duration

For each Title III ELL funded program, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of the week the program will be offered, and**
- **Time and duration of sessions.**

All above mentioned Title III Programs will be comprised of a total of approximately 50 sessions across two cycles: Fall and Spring. The Fall cycle will run from October 21, 2025, to January 31, 2026, and the Spring cycle will take place from March 3, 2026, to June 13, 2026 for all programs.

Sessions for both the After-School and Morning Programs will be held two to three times per week, typically between Tuesday and Thursday, from 2:20 PM to 4:20 PM and 6:50 AM to 7:50 AM. Please note that session times may vary based on staffing availability, family preferences, and ongoing data analysis.

Program 1: Newcomer Support for Grades 3–5: The program will run twice a week on Wednesdays and Thursdays, from 2:20 PM to 4:20 PM.

Program 2: Newcomer Support for Grades K–1 (Foundational Reading, Language and Literacy): The program will operate three days a week—Tuesdays through Thursdays—from 2:20 PM to 4:20 PM.

Program 3: Developing ELL Support for Grade 5: Sessions take place three days a week (Tuesdays–Thursdays): Morning Program: 6:50 AM–7:50 AM and Afterschool Program: 2:20 PM–4:20 PM.

Program 4: 1st-2nd Grade Entering and Emerging ELLs: This program will operate two days week Tuesdays and Thursdays from 2:20PM to 4:20PM

Language of Instruction

For each Title III ELL funded program, include language of instruction and how home language support is provided.

The primary language of instruction for all programs will be English, with native language support in Spanish, reflecting the most commonly spoken home language among our students. Our programs are designed to build upon students' prior knowledge and lived experiences to support meaningful English language development.

To help students grasp new concepts and vocabulary, we will incorporate realia and manipulatives into lessons, making learning more tangible and accessible. Additionally, students will be encouraged to use metacognitive strategies, such as self-monitoring and reflection, to deepen their understanding and enhance their language acquisition process.

Number and Types of Certified Teachers

For each Title III ELL funded program, include number and type(s) of certified teachers (e.g., ESOL, bilingual, content area):

We will have a team of six teachers certified in TESOL and/or Bilingual Education to provide targeted English Language Learner (ELL) strategies and support. Our programs are designed to develop students' English language proficiency by integrating the four key modalities: Listening, Speaking, Reading, and Writing. Four Teachers are TESOL Certified and Two teachers are Bilingual Certified.

Program 1: Newcomer Support for Grades 3–5: One Bilingual/SPED Certified Teacher

Program 2: Newcomer Support for Grades K–1: One Common Branch/TESOL Certified Teacher, One Common Branch/Bilingual Certified Teacher

Program 3: Developing ELL Support for Grade 5: One TESOL Certified Teacher

Program 4: 1st-2nd Grade Entering and Emerging ELLs: Two, Common Branch/TESOL Certified Teacher

We prioritize hiring staff with these specialized certifications to ensure that students receive instruction grounded in ELL-specific methodologies tailored to their language acquisition needs.

Types of Materials

For each Title III ELL funded program, include:

- **Types of materials,**
- **Titles and publishers of main supplemental materials,**
- **Location where purchased materials will be stored, and**
- **Whether materials will be purchased using Title III ELL funds. Please note: If materials are purchased using Title III ELL funds, they cannot exceed 20% of the total allocation.**

The following supplemental materials will be used exclusively for Title III Programming and are distinct from the core instructional resources utilized during the regular school day.

Program 1: Newcomer Support for Grades 3–5: Benchmark Education HELLO!: Survival Skills for Newcomers supports recently arrived students by introducing essential English language skills and survival vocabulary. This is published through Benchmark Advance. This resource integrates English language development, social-emotional learning, and practical life skills, helping students build the confidence and foundational knowledge needed to begin their language learning journey. We will also utilize Lexia English Language Development (Lexia English), an adaptive blended learning program designed for students to focus on developing speaking, listening, and grammar skills through interactive, academic-rich conversations. It will be used in small group settings to provide personalized instruction based on students' language proficiency levels.

Program 2: Newcomer Support for Grades K–1: Decoder Kids-The Globe Pequot Publishing (Sundance Newbridge) will be used to support literacy and language development in station groupings. In addition, we will utilize Hands-2 Mind-Advancing Phonics Word Work.

Program 3: Developing ELL Support for Grade 5: We will implement Finish Line for ELLs 2.0 (English Proficiency Practice) by Continental Press. This program provides targeted instruction across the four language domains—Listening, Speaking, Reading, and Writing—and addresses five key content areas. Each unit begins with a model lesson to set expectations, and the questions are scaffolded to support a range of proficiency levels. The complexity of the questions increases throughout each lesson to promote language growth and advancement.

We will also utilize Lexia English Language Development (Lexia English), an adaptive blended learning program designed for students to focus on developing speaking, listening, and grammar skills through interactive, academic-rich conversations. It will be used in small group settings to provide personalized instruction based on students' language proficiency levels.

Program 4: 1st-2nd Grade Entering and Emerging ELLs: We will implement Finish Line for ELLs 2.0 (English

Proficiency Practice) by Continental Press. This program provides targeted instruction across the four language domains—Listening, Speaking, Reading, and Writing—and addresses five key content areas. Each unit begins with a model lesson to set expectations, and the questions are scaffolded to support a range of proficiency levels. The complexity of the questions increases throughout each lesson to promote language growth and advancement. In addition, Decoder Kids-The Globe Pequot Publishing (Sundance Newbridge) will be used to support literacy and language development in station groupings.

All instructional materials will be stored in the 2nd Floor Testing Closet and Room 255 (ENL Room), depending on the nature and usage of the resources. All materials will be purchased using Title III ELL funds. All materials described above will be purchased using Title III ELL funds, and expenditures for instructional materials will remain below 20% of the total Title III allocation, in compliance with federal Title III funding guidelines.

Implementation Plan and Maintaining Records

- **Describe your school's plan for implementation (e.g. when and how parents/guardians will be notified about the program(s)).**
- **Describe how your school will maintain records of your school's Title III ELL funded program, including evidence of parent notification in their preferred languages, student attendance records, evidence of teacher certifications for teachers supporting the program, record of parent engagement activities, records of professional development activities, purchase orders and invoices to date. For additional information, please refer to the Title III ELL FAQ.**

Families are informed about programming opportunities through direct communication from our Assistant Principals and a Google Survey, which allows them to express interest in available programs. Students are pre-selected based on specific eligibility criteria aligned with our instructional focus, and personalized invitations are sent to families. To ensure full awareness and support, follow-up outreach is conducted via phone throughout the enrollment process. We also utilize our School Website notifying families of opportunities for their children inclusive of Title III Programming.

To promote understanding and engagement, families receive an informational flyer outlining the program's goals and how it supports their child's English language acquisition. All communication and materials are provided in the family's preferred language to ensure accessibility and inclusivity. Once enrollment is confirmed, all related notices and documentation are maintained by the Assistant Principals who oversee Programming. They are also logged into the child's record to showcase their participation.

Purchase orders and invoices for program materials are processed and securely stored in the Main Office by the Payroll Secretary. Attendance is recorded by teachers during each session and compiled by the program supervisor. This information is housed on our School's Shared Drive. Additionally, progress monitoring sheets are maintained on a shared drive, ensuring both staff accessibility and transparency with families.

Family Engagement Activities include sign-in sheets and feedback surveys, which serve as both attendance records and tools for continuous improvement. Similarly, all Professional Development activities are documented on a year-long calendar, and staff complete reflection surveys to evaluate and enhance their learning experiences throughout the year.

Part C: Professional Development

Professional Development Summary

Provide a summary of your school's plan for professional development under your Title III ELL program. Please make sure to describe:

- **Professional development to be provided,**
- **Activities that teachers will engage with by topic, and**
- **Whether the professional development provided will be funded by Title III ELL funds. Please note: If PD will be funded by Title III ELL funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of PD and must not exceed 10% of the total allocation.**

With English Language Learners (ELLs) comprising 61.13% of our student body—and 82.8% of those identified as Newcomers—our school is deeply committed to delivering targeted, data-driven support. According to the most recent EDAT, among ELL students in Grades K–5, 10.7% are at the Entering level, 21.8% at the Emerging level, 23.2% at the Transitioning level, and 34.3% at the Expanding level. Only 10% have exited ELL status in the past two years and are classified as Former ELLs. While many students are progressing through the intermediate stages of English language development, a relatively small percentage have achieved full proficiency (Commanding), underscoring the ongoing need for intensive language support.

To ensure the effectiveness of our Morning and After-School programs, we are prioritizing high-quality, targeted professional development (PD) for all participating educators. These sessions will be strategically scheduled and aligned to meet the instructional needs of our multilingual learners.

Key components of our professional learning plan include:

HELLO! Program (Benchmark Education): Training will focus on building ELLs' listening, reading, and writing skills through culturally responsive, research-based instruction (Our Newcomer Program for Grades 3-5)

mCLASS Progress Monitoring: Educators will receive ongoing support in utilizing mCLASS to track student growth and evaluate instructional effectiveness. (All Title III Programming)

Data-Driven Instruction: Teachers will learn how to analyze and apply student data to inform instructional decisions and differentiate support. (All Title III Programming)

ENL Instructional Strategies: PD will include evidence-based practices grounded in the work of Dr. Kate Kinsella, emphasizing structured academic discourse, vocabulary development, and scaffolded writing to support English language acquisition. (All Title III Programming)

Small Group Instruction: Sessions will focus on enhancing small group instruction through data-informed planning

and implementation. (All Title III Programming)

Lexia English: Teachers will be trained to integrate this adaptive platform, which provides personalized language instruction aligned to each student's proficiency level. (All Title III Programming)

Foundational Literacy Skills: Teachers will be provided with PD connected to the Science of Reading to support them in their implementation of best practices for literacy instruction. (All Title III Programming)

Unpacking the NYSESLAT: Teachers will unpack the NYSESLAT Examination to better understand the Targets of Measures within the examination in order to support them in their creation of language goals. (All Title III Programming)

Elevate Opportunities:

These professional learning opportunities are designed to equip teachers with the tools and strategies necessary to deliver effective, engaging, and culturally relevant instruction—ultimately driving improved student outcomes and increased language proficiency across grade levels.

All professional development will be facilitated in-house at no cost to Title III funds. However, if specialized external training is needed to address specific instructional goals, Title III ELL funds will be allocated accordingly to support those initiatives.

Rationale for Professional Development

Describe the rationale for the professional development to be provided. For each activity, include:

- **Qualitative and quantitative data analysis (e.g., patterns and trends identified) that support the need for the professional development, and**
- **Data sources (e.g., school survey teacher responses, in-house teacher surveys, teacher observation data) used to justify the professional development.**

According to our most recent EDAT (English Language Learner Data Analysis Tool), 65.7% of our ELL students have not yet met their annual progress targets. Many students remain below expected growth benchmarks, indicating that we must further strengthen our instructional strategies to accelerate language acquisition. Notably, the majority of our ELLs fall within the Newcomer subgroup (82.8%), which underscores the need for targeted interventions tailored to students who are new to the U.S. school system. In addition, majority of our English Language Learner population fall within the Grades 1-3, which encompasses 54% of our ELL Population. We want to ensure that students are receiving a supportive structure through our Extended Day Programming to ensure that they are able to reach English Proficiency.

The EDAT also reveals that our greatest area of need lies in writing, with additional support required in speaking, particularly in the foundational grades. These findings align with teacher feedback gathered through in-house surveys and needs assessments, which indicate a strong demand for professional development focused on scaffolding strategies that enable ELLs to access and engage with academic content effectively.

To address these needs, our professional learning plan will focus on equipping educators with the tools and knowledge necessary to support language development across content areas. A key component of this plan

involves unpacking the NYSESLAT to better understand current trends in student performance and identify instructional strategies that promote growth. Teachers will engage in professional learning grounded in the Academic and Linguistic Demands: Creating Access to the Next Generation Learning Standards in English Language Arts for Linguistically Diverse Learners, in conjunction with the Literacy Shifts in K–5 and our use of the mCLASS platform.

This approach is rooted in the belief that language development must occur within meaningful academic contexts. Instruction will focus on helping multilingual learners develop the language structures and discourse practices specific to academic disciplines, enabling them to participate authentically in content-area learning. Through these professional development opportunities, teachers will strengthen their ability to use data to drive instruction, implement effective scaffolds, and provide equitable access to rigorous academic content.

The key data points reflected above are indicative of our need to Support our Multilingual Learners in Early Childhood Grades, as well as support our Newcomer Population and Developing ELL Population.

Ultimately, this work will directly impact students' language proficiency and performance on high-stakes assessments. All professional development will be designed to build internal capacity, with in-house facilitation. However, should specialized expertise be required to support specific instructional goals, Title III ELL funds will be used to engage external vendors.

Teachers to Receive Professional Development

Include information on the teachers to receive professional development. Please specify how all teachers working in the Title III ELL program will receive ongoing professional development related to the Title III ELL program.

The following educators are responsible for implementing programming to support our English Language Learner (ELL) population:

Nicole Gagliardi – ENL Coordinator/Provider
Jessamine McKeever – ENL Provider
Mariela Lupercio – ENL Provider
Melissa Arbelaez – ENL Provider
Stephanie Huerta – ENL Provider
Mayra Puma – ENL Provider
Rosalind Segura – ENL Provider
Jennifer Disla- Kindergarten Teacher/TESOL Certified
Jennifer Amaro – MTSS/Bilingual Teacher
Dayana Cantillo-IEP Teacher/SPED Coordinator

Additional teachers may be included as needed, based on student enrollment and staffing requirements. All participating educators will receive ongoing professional development aligned with the topics outlined in our Year-Long Professional Development Calendar. These sessions are specifically designed to meet the instructional needs of staff working with ELLs, ensuring they are well-equipped to implement programming effectively and with fidelity.

To further support their professional growth, teachers will also be encouraged to subscribe to the Office of Multilingual Learners Newsletter. This resource provides timely updates on professional learning opportunities and relevant topics aligned with our Title III ELL Programming, helping educators stay informed and continuously improve their practice.

Schedule and Duration

For each Title III ELL professional development activity, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of sessions, and**
- **Time and duration of sessions.**

Our PD schedule will take place bi-weekly on Mondays from 7:30 AM–8:00 AM to support the implementation of programs. Sessions will run from October through June, resulting in approximately 18–20 sessions. This schedule may be adjusted as needed based on teacher feedback and emerging instructional needs. If additional professional learning is required to ensure successful implementation, we will utilize select Mondays during designated Professional Learning Time to address relevant topics aligned to our focus areas.

Topics to be covered

For each Title III ELL professional development activity, include topics to be covered.

The following professional development (PD) sessions will be offered to support educators working with English Language Learners (ELLs). These sessions are designed to enhance instructional practices and align with the goals of our Title III ELL Programming. Additional sessions may be added based on staff needs and priorities connected with programming.

Unpacking the NYSESLAT will provide educators with a comprehensive understanding of the assessment's Targets of Measurement. Participants will explore what students should be able to do at each grade band, linked to specific linguistic purposes, and review the NYSESLAT Performance Level Descriptions. This knowledge will help teachers align instruction with students' English language proficiency levels and strengthen their skills across the four modalities: Listening, Speaking, Reading, and Writing.

In the session on Implementing HELLO! for Newcomers (Benchmark Education), teachers will learn how to effectively use the HELLO! curriculum, including its online tools and assessments. The training will focus on supporting language development in all four modalities, with outcomes aligned to NYSESLAT expectations. (This will be utilized for any teacher who is supportive of our Newcomer 3-5 Program)

Best Practices for ELLs/MLLs: Scaffolding Instruction will focus on effective strategies for scaffolding instruction for students at varying language proficiency levels. Educators will explore principles of ELL instruction and learn how to design lessons that provide appropriate access points to content, promoting both language acquisition and academic success.

Analyzing Student Data & Planning Tiered Instruction, teachers will learn how to use data from i-Ready, and mClass DIBELS & Lectura, to inform instruction. This session will help educators develop tiered tasks that meet the diverse

needs of ELLs and monitor their progress over time.

The Language Development at Home Support Sessions will provide strategies for engaging families in their child's language learning journey. Teachers will explore ways to share home-based resources and strengthen the home-school connection, which is essential for supporting English language development while honoring students' home languages.

Finally, the Using Lexia English Effectively session will train educators on how to implement Lexia English Language Development in small group settings. Teachers will learn to navigate the platform, analyze student reports, and incorporate Teacher-Directed Lessons to tailor instruction based on students' language proficiency levels.

These sessions will support teachers throughout all provided Title III Programming and be an-going PL Series throughout the academic school year.

Name(s) and Title(s) of Provider(s)

For each Title III ELL professional development activity, include name(s) and title(s) of provider(s).

PD will be faciliated by the following: Administration, Bilingual Teachers and/or ENL Providers will include, but not limited to:
Nicole Gagliardi: ENL Coordinator/Provider
Jennifer Erichsen: Assistant Principal
Martha Martinez: Assistant Principal
Michelle Pinargote: Assistant Principal
Dayana Cantillo: Special Education Coordinator/ IEP Teacher

In addition, ENL Teachers will support PD as needed:
Jessamine Mckeever- ENL Teacher
Mariela Lupercio- ENL Teacher
Mayra Puma- ENL Teacher
Stephanie Huerta- ENL Teacher
Melissa Arbelaez- ENL Teacher
Rosalind Segura- ENL Teacher

Maintaining Records

Describe your school's plan for maintaining documentation (e.g., agendas, attendance sheets) of all professional development provided as part of your Title III ELL plan; please specify which activities were funded by Title III ELL funds.

Professional development will primarily be conducted in-house. However, in instances where external providers are engaged—funded through Title III allocations—a record of these sessions will be maintained in a shared spreadsheet located on the school's Shared Drive for transparency and documentation purposes. Professional Development activities are notated on a School-Wide Calendar in which presentations are linked for reference. In addition, agendas and attendance sheets for Professional Development are documented by administrators in charge of programming.

Detailed budget and expenditure records are maintained, including receipts, payroll documentation, and time and effort logs to show that funds are used for supplemental services. We also collect evidence of implementation, such as professional development agendas, attendance sheets, instructional materials, and student progress data.

Part D: Family Engagement Activities

Family Engagement Summary

Provide a summary of your school's family engagement activities under your Title III ELL program. Describe the activities that families of ELLs will engage with by topic. Please make sure to include whether the activities will be funded by Title III ELL funds.
Please note: If family engagement activities will be funded by Title III ELL funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of family engagement and must not exceed 10% of the total allocation.

Elm Tree Elementary School currently serves a student population in which 61.13% are identified as English Language Learners (ELLs). This data reflects the rich linguistic and cultural diversity of our school community, with many students coming from immigrant families who are still developing English language proficiency. To support the academic and social success of our ELLs, it is essential to engage not only the students but also their families. Research and experience show that the most impactful plans for student growth involve families as active partners in the learning process. Families are invaluable stakeholders in their children's academic achievement and social integration.

To empower families with the tools they need to support their children's language development and educational progress, we will offer monthly family workshops. These sessions will provide guidance, resources, and strategies that families can use at home to reinforce learning and foster a supportive environment. All presentations and materials will be translated into the home languages of our students to ensure accessibility and inclusivity for all members of our school community.

These workshops will be offered at no cost to Title III ELL funds when conducted during the school day.

However, if sessions are held outside of regular hours, per-session compensation for teachers may be supported through Title III funding. Additionally, if external providers are needed to facilitate specific learning opportunities for families, those services will be documented and funded through Title III ELL allocations.

Planned family engagement activities include, but are not limited to:

Translation, Language, and Interpretation Support
Strategies for Supporting Foundational Reading and Language Development at Home
Understanding the NYSESLAT (New York State English as a Second Language Achievement Test)
Interpreting mCLASS & I-Ready Family Reports and applying strategies for home use

By fostering strong school-family partnerships, we aim to create a collaborative environment that supports the academic and linguistic success of all ELL students.

Rationale for Family Engagement Activities

Describe the rationale for the family engagement activities to be provided: For each activity, include:

- **Qualitative and quantitative data analysis (e.g., reasons for topics, time activities will be offered), and**
- **Data sources (e.g., parent survey responses, in-house parent surveys, PTA/PA request, etc.) used to justify the need for activities.**

At Elm Tree Elementary School, 61.13% of our student population are English Language Learners (ELLs), as reported in our most recent English Data Analysis Tool (EDAT). The top three home languages spoken by our students are Spanish, English, and Chinese, reflecting the linguistic diversity of our school community.

To better understand the needs of our families, we conducted an interest survey, which revealed several key findings. Many families expressed a desire for support in developing English language skills at home, not only for their children but also for themselves. Additionally, families reported that their children face challenges with reading and writing at home and struggle with motivation to complete academic tasks. They expressed interest in strategies to create a more engaging and supportive home learning environment.

Families of students with special needs shared that they experience increased difficulty in supporting their children's academic progress while also navigating the complexities of learning a new language. These insights highlight the need for targeted, inclusive programming that addresses both academic and language development in the home setting.

Moreover, results from our Winter Family Survey indicated that 12.5% of families felt that some existing programs and resources were not effective in supporting their child's learning. This feedback underscores the importance of continuously evaluating and refining our offerings to ensure that all families feel supported and empowered.

In response to these data points, we are committed to designing and delivering family-centered learning opportunities that are responsive to the specific needs identified. Our goal is to ensure that 100% of families are satisfied with the resources and support provided, ultimately contributing to student success both at school and at home.

Schedule and Duration

For each Title III ELL family engagement activity, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of sessions, and**
- **Time and duration of sessions.**

Monthly Family Workshops will begin on October 3, 2025, and will be held on either the second or third Tuesday of each month from 8:30 AM to 9:30 AM, following a rotating schedule. The workshops will continue until June 23, 2026. A total of nine workshops will be offered throughout the school year. In the event that families are interested in afternoon time frames, we will accommodate an additional session from 2:45-3:45PM on the same day as the

morning session.

The topics for these sessions will be determined based on family needs and interests, as identified through an interest inventory survey distributed at the beginning of the year. This approach ensures that each workshop is relevant, responsive, and supportive of our families' goals for their children's academic and language development.

The tentative dates for family workshops are as follows:

October 21st
November 25th
December 16th
January 20th
February 24th
March 24th
April 14th
May 19th
June 23rd

Topics to be Covered

For each Title III ELL family engagement activity, include topics to be covered.

Family workshops will be offered throughout the school year to support families in fostering academic and language development at home. These sessions are designed based on family feedback and identified needs, and will be facilitated by school staff and community partners. Topics include, but are not limited to, the following:

Translation, Language & Interpretation Support:
Families will be introduced to a variety of translation and interpretation resources available for use at home and in school settings, ensuring equitable access to communication and learning tools. They will also be provided with ways to engage their children at home with their home language development to further strengthen their English Language Development Skills.

Building Language Learning at Home:
This session will offer engaging online resources to support English Language Arts, Math, Science, and Social Studies at home. Materials will be available in both English and students' home languages to reinforce bilingual language development.

Reading Strategies for Home Use:
This workshop will provide practical reading strategies and online tools to support bilingual learners. Parents will learn how to model reading behaviors and use discussion prompts to enhance comprehension and engagement.

Supporting Foundational Literacy Skills Using the mClass Parent Report:
As a pilot school in our second year using the mClass platform, this session will guide families in interpreting the mClass Parent Report to understand their child's literacy and math development. Families will learn how to use this data to support learning at home.

Supporting Writing at Home:
Families will explore ways to create a writing-friendly environment at home and engage in activities that encourage

writing development. A resource folder with writing tools and strategies will be provided for parents to utilize with their children at home.

NYSESLAT Informational Session:
This session will explain the New York State English as a Second Language Achievement Test (NYSESLAT)—its purpose, structure, administration timeline, and how families can support their children in preparing for the exam.

These session topics are not limited to a single session and will be offered as a series when applicable.

All invitations, attendance records, and documentation for these workshops will be maintained by Parent Coordinator Gisela Catarine and ENL Coordinator Nicole Gagliardi.

Name(s) and Title(s) of Provider(s)

For each Title III ELL family engagement activity, include name and title of provider(s) (e.g., vendor, community-based organization, school staff name in charge of facilitating the parent engagement activities described in this section).

The following staff members will facilitate the Family Engagement Activities outlined above:

Translation, Language & Interpretation Support for Families
Building Language Learning at HOme
Reading Strategies for Home Use
Supporting Foundational Literacy Skills (Support using the mClass and I-Ready Family Reports)
NYSESLAT Informational and Overview to support in strengthening language development

Nicole Gagliardi – ENL Coordinator / ENL Provider
Martha Martinez – Assistant Principal
Jennifer Erichsen – Assistant Principal
Michelle Pinargote – Assistant Principal
Dayana Cantillo – Special Education Coordinator / IEP Teacher

These staff members will support the planning and delivery of all workshops and events at no cost to Title III funding. However, should additional support be required beyond our internal personnel—such as external facilitators or specialized service providers—those expenses will be covered using Title III ELL funds, as appropriate.

Family Notification of Activities and Translation and Interpretation Supports:

Describe:

- **How families will be notified of Title ELL family engagement activities (e.g., phone calls, emails),**
- **How notification of activities will be translated into parent/guardians' preferred language, and**
- **How interpretation supports will be provided at events.**

Families will be notified of all school events and workshops throughout the year via our school website, which features built-in translation capabilities to ensure accessibility in each family's home language. This ensures that all families can stay informed and engaged, regardless of their primary language.

In addition, our Parent Coordinator sends timely notifications through the Elm Tree App, which delivers updates in each family's preferred language. To further support communication, a comprehensive School-Wide Calendar is published on our website, providing families with an overview of all upcoming events and activities.

When translation services are required for in-person events, we prioritize utilizing school-based staff who are fluent in the needed language. If additional support is necessary, we proactively coordinate with the Office of Language Services to ensure appropriate interpretation is available.

Maintaining Records

Describe how your school will maintain documentation (e.g. agendas, attendance sheets) of family engagement activities and notifications to families.

All documentation related to family engagement activities and communications (inclusive of agendas and attendance sheets) is maintained by our Parent Coordinator, Ms. Gisela Catarine. She is supported in this effort by Assistant Principals Ms. Jennifer Erichsen, Ms. Michelle Pinargote, and Ms. Martha Martinez, as well as our ENL Coordinator, Ms. Nicole Gagliardi. Together, this team ensures that all outreach and engagement efforts are accurately recorded and aligned with school-wide goals for family involvement.

Part E: Budget

FOR SCHOOLS NOT CONCEPTUALLY CONSOLIDATED ONLY. Ensure that your Title III ELL budget matches your Title III ELL Plan as described in Parts B, C, and D.

This school is (select one):

Conceptually consolidated (skip part E Budget below)

Allocation Amount ($):

Budget Category	Budgeted Amount	Explanation of expenditures in this category as it relates to the program narrative for this title.
Professional salaries (schools must account for fringe benefits):-Per session -Per diem		
Purchased services -High quality staff and curriculum development contracts.		
Supplies and materials -must be supplemental -additional curricula, instructional materials -must be clearly listed.		
Educational Software (Object Code 199)		
Travel		
Other		
TOTAL		

Title III Immigrant Outline

Title III Application for Immigrant Funding

REQUIREMENTS

Title III, Part A - Immigrant Funds can be used for activities that provide enhanced instructional opportunities for immigrant students, which include:

- Identification and acquisition of curricular materials, educational software and technologies to be used in the program.
- Family literacy, parent outreach and training activities designed to assist parents in becoming active participants in the education of their children and understand their rights and the benefits of multilingualism.
- Support for personnel, including teacher aides, parent coordinators, and school counselors who have been specifically trained, or are being trained, to provide services to immigrant students and families.
- Provision of tutorials, mentoring, and academic or career counseling for immigrant students, as well as engagement in pre-college and work-based learning experiences.
- Basic instructional services directly attributable to the aforementioned school districts, including costs for additional classroom supplies, transportation costs, or other costs directly attributable to such services.
- Other instructional services that are designed to assist immigrant students to achieve in elementary schools and secondary schools in the United States, such as programs of introduction to the educational system and civics education.
- School activities, coordinated with community-based organizations, institutions of higher education, private sector entities, or other entities with expertise in working with immigrants, to assist families of immigrant students by offering comprehensive community services.

Funding follows similar guidelines for Title III funds established by the Office of Multilingual Learners (OML) and can only be used to provide **supplementary services** to immigrant students, who may or may not be English Language Learners (ELLs).

Please note: Immigrant students are not necessarily English Language Learners (ELLs), and ELLs may or may not be immigrants. For the purpose of this funding, immigrant students are defined as individuals who were not born in any U.S. state (this includes the District of Columbia and the Commonwealth of Puerto Rico); and have not been attending one or more schools in any one or more states for more than three full, academic years (the months need not be consecutive).

Priority areas for the use of Title III, Part A - Immigrant Funds are as follows:

- Extended day programming (e.g., before school, after school, Saturday program) to provide targeted, small-group instruction, credit recovery support, and postsecondary preparation.
- Implementing strong student supports to increase graduation rates.
- Community-based and school-based programming (e.g., before school, after school, Saturday program) to strengthen partnerships between immigrant families and schools.
- Developing new and/or enhancing existing programs for newcomers (meeting criteria defined above).
- Supplementing the opening or growth of Transitional Bilingual Education programs and/or Dual Language Bilingual Education programs serving immigrant students.
- Professional learning on meeting the needs of immigrant students, creating a welcoming and inclusive school environment, and effective instructional practices.

For more information on Title III requirements, refer to NYSED's guidance on allowable and unallowable expenditures for Title III. For specific allocation amounts per school, see the School Allocation Memo or contact your ML/ELL Director or ELL Compliance and Performance Specialist.

DIRECTIONS

Please complete the application below. Schools must use the funds to support their immigrant students by developing a plan that has each of the following components:

- Direct instruction, supplemental program for immigrant students,
- Professional development that bolsters the instructional practice of teachers of immigrant students, and
- Family engagement activities that support families of immigrant students.

Completed applications must be submitted in iPlan for review and approval. Please refer to the respective School Allocation Memo. Schools are not permitted to use funds until they submit a plan and receive notification of its approval.

Part A: School Information

This school is (select one):

Conceptually consolidated (skip part E Budget below)

Part B: Direct Instruction Supplemental Program Information

The direct instruction component of the program will consist of (select all that apply):

,After School

Grades to be served in this program. Select all that apply.

,K,1,2,3,4,5

Total number of teachers in this program:

4

Provide a summary of each program funded under Title III immigrant for SY 25-26:

For each program, describe:

- When the program takes place (i.e., after school, before school, Saturday academy).
- Activities the students will engage in and how these activities will enhance instructional opportunities for immigrant students (including ELLs).
- How students will be grouped for instruction and specify the number of student groups. Include total number of student groups and total number of ELLs in each group, for each program.
- How instruction will be delivered (e.g., team teaching, parallel teaching, etc.).
- How the program will be supervised and whether this is at cost to Title III Immigrant. **Please note:** If supervision will be funded using Title III Immigrant funds, you must include the supervisor's regular workday hours and the hours the supervisor will get paid per session.

Our First Program will focus on English Language Learners (ELLs) and Multilingual Learners (MLs) who need English Language Development (ELD). This afternoon program will serve 20 students in Grades 3-5 who newly arrived in the country and hold ELL status. All 20 students in this group are immigrant students who will follow a station-rotation model. The program will utilize HELLO!, a curriculum designed to support recently arrived students by teaching essential English skills. It integrates survival English, language development, and social-emotional learning, while also embracing the use of students' primary language, prior knowledge, and cross-cultural understanding. Instruction will emphasize academic language, metacognitive strategies, and socio-affective skills. Additionally, lessons will include resources that facilitate home-school connections, enabling parents to actively participate in their child's education, which is crucial for academic success. The program is a part of the Benchmark Advance Curriculum and tracks student progress through Pre/Post Tests in Listening, Reading, Writing, and Speaking. The

teacher involved in this program is Bilingual-SPED Certified, ensuring the implementation of effective strategies for promoting English language proficiency and making connections with students' home language. Additionally, we will incorporate English Phonics Development through Decoder Kids, which helps students decode sounds and blends, fostering early reading success. The program also offers engaging fiction and nonfiction readers that provide opportunities for practicing phonics and high-frequency words in context, supporting vocabulary growth and word study. Students will be homogenously grouped based on Years of Service with one teacher who will employ Project Based Learning Opportunities and Station Teaching to enhance the student experience. Group size will not exceed 20, which allows for tailored support, better engagement, and personalized instruction in language acquisition.

Instruction will include explicit, structured instructional activities such as:
-Daily survival-English mini-lessons focused on real-world scenarios (e.g., navigating school routines, asking for help, engaging in classroom discussions)
-Guided oral language practice through structured partner conversations, sentence frames, and role-playing activities
-Interactive vocabulary development using visuals, realia, and primary-language supports to build background knowledge and comprehension
-Listening and speaking routines, including think-pair-share and oral rehearsals, to promote confidence and language production

A key focus of this program is supporting cultural adjustment for newly arrived immigrant students as they acclimate to U.S. schools. Instruction intentionally addresses unfamiliar school norms, routines, and expectations through daily survival-English lessons and modeled classroom interactions, helping students understand how to navigate schedules, participate in discussions, ask for assistance, and interact with peers and adults. Social-emotional learning is embedded throughout instruction to create a safe, welcoming environment where students feel valued and confident taking academic risks. By honoring students' home languages, cultural backgrounds, and prior experiences, the program reduces cultural barriers to learning and fosters a sense of belonging, allowing students to engage more fully in instruction and access academic content with greater confidence.

Our Second Program will serve students in Grades 1-2 afterschool, focusing on Essential and Creative Writing Skills. The program aims to strengthen students' abilities in written expression, starting from recognizing sentence structure to developing short stories, all while emphasizing the key elements of the writing process. Teachers will use grammar resources, such as the Sadlier Workshop, to reinforce grammatical rules as needed. Students will collaborate to revise and edit their writing, while also learning foundational writing skills that are critical to improving their writing competencies. This program will be taught by one bilingual-certified teacher, ensuring effective support for students who speak Spanish as their home language. Groupings are heterogeneous in nature and comprised of approximately 20 ELL's at various English Language Learner levels, all of which are Immigrant Students. Instruction encompasses station rotations with one designated teacher who circulates and facilitates support for students.

Instructional activities will include:
-Modeled and shared writing lessons focused on sentence structure, grammar and idea development
-Guided writing practice using sentence frames, word banks, and graphic organizers
-Small-group and partner revision activities to strengthen editing and collaboration skills

This afterschool writing program enhances instructional opportunities for immigrant students in Grades 1–2 by providing explicit, structured instruction in essential and creative writing skills. By teaching sentence structure, storytelling, and the writing process, students gain familiarity with academic writing expectations, supporting their adjustment to English-based classroom instruction.

Cultural adjustment is supported through collaborative writing, peer discussions, and shared revision activities that promote participation practices such as turn-taking, feedback, and group learning. The bilingual-certified teacher validates students' home language and experiences, reducing linguistic and cultural barriers while fostering a supportive and inclusive learning environment.

Background knowledge development is strengthened through targeted grammar instruction using resources such as the Sadlier Workshop and repeated exposure to academic vocabulary and writing conventions. Station rotations allow for differentiated support across varying English proficiency levels, ensuring all immigrant students can access instruction, build confidence, and develop foundational writing skills essential for academic success.

Our Third Program, SEL Through the Arts, will serve approximately 20 students who will be divided into two groupings (approximately 10-15 immigrant students) in Grades K-2 afterschool, focusing on social-emotional development and language skills through artistic expression. This program will support language acquisition, build confidence, and enhance artistic abilities by providing a fun, supportive environment where students can boost self-expression. Students will learn art styles, build self-assurance, and strengthen connections with others through active participation and engaging texts. They will also expand their general English vocabulary by engaging in artistic projects, while collaborating to give peer-to-peer feedback. Throughout the program, students will be encouraged to take risks and challenge themselves. Instruction is delivered in Whole Group Format and facilitated by a Certified Bilingual Educator. The group is comprised of approximately 20 ELL's. Additionally, the program will support students in using their home language, offering assistance to students whose primary language is Spanish. In addition, paraprofessional support will be utilized, as needed, to support grouping dynamics.

Instructional activities will include:
-Whole-group stories to introduce SEL themes and vocabulary
-Guided art projects paired with oral language prompts and reflection
-Structured peer-to-peer sharing and feedback to promote expressive language and listening skills
-Vocabulary development through discussion of emotions, art techniques, and creative choices

The SEL Through the Arts program enhances instructional opportunities for immigrant students in Grades K–2 by combining social-emotional learning with language development through artistic expression. Creative activities provide a welcoming and accessible entry point for students who are new to U.S. schools, supporting confidence, self-expression, and engagement.

Cultural adjustment is supported through whole-group stories and shared art experiences that introduce classroom routines, SEL concepts, and emotional vocabulary commonly used in U.S. schools. Instruction led by a Certified Bilingual Educator, along with home-language support for Spanish-speaking students, helps students feel culturally affirmed and comfortable participating.

Background knowledge is developed as students build English vocabulary related to emotions, art techniques, and creative choices through guided projects and oral reflection. Structured peer sharing and feedback strengthen listening and speaking skills, while paraprofessional support ensures all students can meaningfully access instruction.

The program will be supervised by Assistant Principals Ms. Jennifer Erichsen, Ms. Michelle Pinargote, and Ms. Martha Martinez.
Supervisors working extended day programs work regular hours of 7:00 AM to 3:00 PM, 7:15 AM to 3:15 AM and 7:30 AM to 3:30 PM. After school programs will run from 2:21 to 4:21 PM. Before school programs run from 6:50 AM to 7:50 AM.

Rationale for Title III Immigrant Funded Programs

Describe the rationale for each Title III Immigrant funded program:

For each program, include:

- Qualitative and quantitative data analysis that support the need for program, and
- Data sources used to justify the need for the program

Our First Program is designed to support newly arrived students to the country. This program is informed by data from our most recent EDUR and EDAT reports. According to the NYSESLAT 2025 results, newly arrived immigrant students in their first 1–2 years of enrollment demonstrated significantly lower proficiency in speaking, listening, reading, and writing compared to long-term ELL peers. Currently, 59.78% of our student population consists of English Language Learners (ELLs), many of whom come from immigrant families. Of this population, a substantial subset are newly arrived immigrant students who have had limited or interrupted formal schooling. Within this group, 15% are Entering ELL students who require additional English Language Acquisition in a supportive environment that is sensitive to their diverse needs. These students require targeted supplemental instruction beyond the core English Language Arts program due to limited English exposure, unfamiliarity with U.S. school structures, and gaps in academic language development. The data also highlights that our ELL and immigrant students need substantial support to achieve English language proficiency. Teacher observations and intake assessments indicate that newly arrived immigrant students struggle with oral language production, academic vocabulary, and classroom discourse. To address this, it is essential to provide resources for both school and home use, ensuring students have the tools they need to improve their language skills. Many of our newly arrived students have faced trauma and hardship and are in Temporary Housing, which must also be considered as we work to support their academic and emotional progress. Based on ATS housing data and EDAT reports, a significant percentage of newly arrived immigrant students are residing in temporary housing. This school year, approximately 35% of our student population were born outside the United States and require additional assistance in learning cultural norms and acquiring academic language to succeed.

Our Second Program, Essential Writing Skills, was developed in response to data from our most recent EDAT report. EDAT literacy data and grade-level writing assessments indicate persistent writing gaps among immigrant students. Writing has been identified as a key area of need across most grade levels, particularly in Grades 1-5. It is important to note that ELLs have scored "low" in this modality, meaning they correctly answered fewer than 15% of the questions related to writing. This includes immigrant students who are developing foundational English writing skills while simultaneously acquiring academic language. This data highlights the critical need for explicit writing instruction to help students develop essential communication skills. Immigrant students require additional instructional time beyond the core literacy block to practice structured writing, oral rehearsal, and language development. Strengthening writing will not only support their English language development but also improve their performance on high-stakes testing. In addition, mClass data show that 54% of 1st graders and 42% of 2nd graders are well below benchmark in foundational literacy, inclusive of those of our immigrant population. To close these gaps and align with school and district literacy goals, a designated support in literacy connected with writing is necessary to support early reading proficiency and long-term academic achievement.

Our Third Program, SEL Through the Arts (Grades K-2) was created to address the need for emotional support through artistic expression. According to our most recent EDAT report, 64.6% of our ELL population lives in temporary housing, and 65.7% did not demonstrate sufficient progress on the NYSESLAT examination. This data highlights the ongoing need for both emotional and academic support to help students make meaningful progress. Through this program, we aim to help students who have experienced trauma or face challenges related to their living situations build confidence, strengthen communication skills, and connect with peers who share similar experiences. We are also leveraging school survey feedback from families and staff, which identified SEL as a key area of focus. To enhance data-driven decision-making, we are implementing the 7 Mindsets SEL Assessment, a tool designed to measure students' social-emotional learning competencies. This assessment provides valuable data to guide instruction and evaluate program effectiveness, offering a baseline for identifying student needs, tracking progress over time, and informing instructional adjustments that support student well-being, behavior, and academic growth.

Collectively, these programs extend learning beyond the school day by providing targeted opportunities for

accelerated English language development through structured practice in speaking, listening, reading, and writing. They support students' cultural adjustment and social-emotional well-being, which are critical for meaningful classroom engagement, while also building background knowledge and academic behaviors often assumed in core instruction. Through small group settings and bilingual support, the programs offer individualized scaffolding and additional instructional time that immigrant students need to fully access grade-level content and succeed academically.

Students and Grade Levels to be Served

For each Title III Immigrant funded program, describe the students that will be served:

Include:

- Total number of students for each program,
- Grade levels for students in program, and
- If ELLs are also included in these programs, (e.g., Newcomer).

We will offer afterschool programs designed to support our immigrant students, including Current ELLs, Special Education ELLs, Former ELLs, and students with IEPs in Grades K–5, across all levels of English language proficiency-Entering, Emerging, Transitioning, Expanding, and Commanding. The majority of participating students are Newcomer ELLs with 0–3 years of service. We remain committed to providing a diverse range of programs that address the unique academic and social-emotional needs of our immigrant families and their children.

Our first afterschool program, designed for Newcomer ELL students (all in which are immigrant students), will serve approximately 20 students in Grades 2–5.

Our second afterschool program, focused on Essential Writing Skills, will serve approximately 20 immigrant students in Grades 1–2, primarily targeting Newcomer ELLs.

Our third afterschool program, SEL Through the Arts, will serve approximately 20 immigrant students (all proficiency levels) in Grades K–2, including members of our Newcomer ELL population.

Grades K–5 Newcomer ELLs for all afterschool programs, including English Language Development (Grades 2–5), Essential Writing Skills (Grades 1–2), and SEL Through the Arts (Grades K–2), serving students across all English language proficiency levels.

Schedule and Duration

For each Title III Immigrant funded program, include:

- Start and end dates/months,
- Total number of sessions,
- Days of the week the program will be offered, and
- Time and duration of sessions.

All Title III Immigrant Programs described above will include approximately 50 sessions delivered across two cycles: Fall and Spring. The Fall cycle will run from October 21, 2024, to January 31, 2026, and the Spring cycle will take place from February 2, 2026, to May 8, 2026, for all programs.

Afterschool sessions will be held two to four times per week, typically between Tuesday and Thursday, from 2:20 PM to 4:20 PM (2 hours). Please note that session times may vary based on staffing availability and family preferences.

Program 1: Newcomer Support (Grades 3–5)
Sessions will run twice a week, on Wednesdays and Thursdays, from 2:20 PM to 4:20 PM (2 hours).

Program 2: Essential Writing Skills (Grades 1–2)
Sessions will run three days a week, on Tuesdays through Thursdays, from 2:20 PM to 4:20 PM (2 hours).

Program 3: SEL Through the Arts (Grades K–2)
Sessions will run four days a week, on Tuesdays through Fridays, from 2:20 PM to 4:20 PM (2 Hours)

Language of Instruction

For each Title III Immigrant funded program, include language of instruction and how home language support is provided:

The language of instruction in all the programs we offer is conducted in English. However, bilingual supports are provided as needed for students whose Home Language is Spanish in the following programs: Newcomer Programming, Essential Writing Skills, and SEL Through the Arts. Bilingual supports include but are not limited to: Access to translation devices and/or teachers who speak the child's native language, Bilingual Notebooks or Journals where students are encouraged to write in both languages or translate concepts into their second language, and access to Bilingual Dictionaries and Glossaries in the child's native language.

Number and Types of Certified Teachers
For each Title III Immigrant funded program, include number and type(s) of certified teachers.

In our first program, Newcomer Morning Groups, we will have one Bilingual Certified/Special Education Teacher.

In our second program, Essential Writing Skills, we will have one Bilingual Certified/Special Education Teacher.

In our third program, SEL Through the Arts, we will have one Bilingual Certified Educator (with a TESOL Certified Teacher available to provide additional support if needed).

Additional staffing will be implemented as necessary based on increased student participation in the program models.

Types of Materials

For each Title III Immigrant funded program, include:

- **Types of materials,**
- **Titles and publishers of main supplemental materials,**
- **Location where purchased materials will be stored, and**
- **Whether materials will be purchased using Title III Immigrant funds. Please note: If materials are purchased using Title III Immigrant funds, they cannot exceed 20% of the total allocation.**

The following materials utilized for the implementation of programming will be a cost to the Title III Immigrant Funding:

Program 1: Newcomer Program (3-5). The program will utilize a variety of materials to support implementation. Resources will include the HELLO! Benchmark Education Curriculum materials, consisting of both student booklets and teacher resources available in digital and print formats. Additional supports will include English/Spanish bilingual glossaries from Continental Press and/or the Picture This! Dictionary – Word to Word: English/Spanish from Edu Resource Company. Students will also use journals or notebooks to reinforce learning and support language development throughout the program.

Program 2: Essential Writing Skills (1-2): The program will incorporate a range of instructional materials to enhance student learning and writing development. These include Grammar Workbooks (Sadlier) and Writing Toolkits, provided at the request of facilitating teachers. To support bilingual learners, English/Spanish bilingual glossaries from Continental Press and/or the PictureThis! Dictionary – Word to Word: English/Spanish from Edu Resource Company will be utilized. Additionally, students will engage in written expression using the Learning Resources Make a Story Writing Journal and/or the Handwriting Without Tears Writing Journal.

SEL Through the Arts (K–2): This program will use read-aloud books (sourced from First Book and Scholastic) to reinforce the CARES virtues—Cooperation, Assertion, Responsibility, Empathy, and Self—while supporting language development skills. Additionally, Picture-Story Composition books (Pacon Zaner-Bloser) will be incorporated to allow students to express the virtues they are learning in both written and visual forms, fostering creativity and deeper understanding.

Implementation Plan and Maintaining Records

- **Describe your school's plan for implementation (e.g. when and how parents/guardians will be notified about the program(s)).**
- **Describe how your school will maintain records of your school's Title III Immigrant funded program, including evidence of parent notification in their preferred languages, student attendance records, teachers that support the program, record of parent engagement activities, records of professional development activities, purchase orders and invoices to date. For additional information, please refer to the Title III Immigrant FAQ.**

Families are informed about programming opportunities through direct communication from our Assistant Principals and a Google Survey, which allows them to express interest in available programs. Students are pre-selected based

on specific eligibility criteria aligned with our instructional focus, and personalized invitations are sent to families. To ensure full awareness and support, follow-up outreach is conducted via phone throughout the enrollment process. We also utilize our School Website notifying families of opportunities for their children inclusive of Title III Programming.

To promote understanding and engagement, families receive an informational flyer that outlines the program's goals and explains how it supports their child's English language acquisition. All communication and materials are provided in the family's preferred language to ensure accessibility and inclusivity. Once enrollment is confirmed, all related notices and documentation are maintained by the Assistant Principals overseeing programming on the school's shared drive, where attendance records, student progress, and completed family survey forms are submitted on a secure platform.

Purchase orders and invoices for program materials are processed and securely stored in the Main Office by the Payroll Secretary (Hard Copy Binder). Attendance is recorded by teachers during each session and compiled by the program supervisor. This information is housed on our School's Shared Drive (Digital). Additionally, progress monitoring sheets are maintained on a shared drive, ensuring both staff accessibility and transparency with families.

Family Engagement Activities include sign-in sheets and feedback surveys, which serve as both attendance records and tools for continuous improvement. Similarly, all Professional Development activities are documented on a year-long calendar, and staff complete reflection surveys to evaluate and enhance their learning experiences throughout the year.

Part C: Professional Development

Professional Development Summary
Provide a summary of your school's plan for professional development under your Title III Immigrant program. Please make sure to describe:

- **Professional development to be provided,**
- **Activities that teachers will engage with by topic, and**
- **Whether the professional development provided will be funded by Title III Immigrant funds. Please note: If PD will be funded by Title III Immigrant funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of PD and must not exceed 10% of the total allocation.**

Please make sure to describe:

- Professional development to be provided
- Activities that teachers will engage with by topic
- Whether the professional development provided will be at cost to Title III Immigrant funds

The Professional Development plan under the Title III Immigrant Program is designed to support staff in the successful implementation of programming for our immigrant student population. Many of our students are bridging educational gaps while acclimating to a new learning environment; therefore, PD sessions will focus on implementing high-quality instructional strategies that promote academic success and socio-emotional growth among immigrant learners.

Training will begin prior to the launch of our program catalogue. Certified teachers and after-school staff participating in the implementation of these programs will attend initial sessions focused on logistics, available resources, and effective instructional practices. Additional follow-up sessions will be scheduled with administration on an as-needed basis to address questions, review program logistics, and provide continued support. These sessions will take place bi-weekly on Mondays from 7:20 AM to 8:00 AM, as needed, throughout the duration of the program.

Furthermore, designated professional learning time will be utilized to strengthen instructional practices for staff serving immigrant students. These sessions will occur on Mondays from 2:20 PM to 3:20 PM, providing opportunities for collaborative planning, data review, and targeted professional growth.

1. Community Chats (Monthly through December)
Staff serving immigrant populations and supporting extended day programming. Topics include: Multilingual Education in NYCPS; College Readiness for Multilingual Learners and Immigrant Students; Welcoming Newly Arrived Families; and Multilingual and Immigrant Student Empowerment

2. CRS Citywide Family Engagement Workshops: Staff will be invited based on topics that are applicable to their level of support with students and families. These topics include: Working with Multilingual and Immigrant Students and Families and Immigration KYRS and Social Emotional Learning to Support Hispanic Students and Families.

2. Preparing for Program Implementation:
Staff will receive guidance on utilizing key programs and tools designed to support immigrant students. Topics include data tracking, digital components, lesson structure and sequence, and review of current student levels distributed prior to training.

3. Schoolwide Survey Results:
Teachers and staff will review findings from environmental surveys completed by families and staff. The session will focus on how results inform schoolwide goals, family engagement initiatives, and ongoing program development.

4. Multi-Tiered Systems of Support (MTSS):
This session will deepen understanding of the MTSS framework with a focus on: Getting to know students through data-informed practices; Small-group instruction and differentiation; Integrating socio-emotional supports to enhance learning outcomes

5. Data Dive and Instructional Planning:
During Extended Day PD sessions on Mondays (2:20 PM–3:20 PM), staff will engage in data-driven conversations using tools such as mCLASS, i-Ready, Formative Assessments, and 7 Mindsets (SEL). The goal is to identify student needs, determine next instructional steps, and refine implementation strategies.

6. NYSESLAT Support and Information Sessions:
Teachers will explore the NYSESLAT Targets of Measurement to strengthen instructional practices for English Language Learners (ELLs) and identify additional resources to enhance language development and assessment readiness.

7. Elevated Learning Services (Funded by Title III Immigrant Program):
Participating teachers will strengthen their instructional pedagogy through two key professional learning areas: Scaffolding Writing for Multilingual Learners: Participants will learn to design scaffolded writing tasks that maintain rigor while increasing accessibility, using strategies such as modeling and paragraph frames; and Teaching Academic Vocabulary to Multilingual Learners: Educators will explore interactive, research-based methods for explicitly teaching academic language and prioritizing vocabulary development.

8. Additional Professional Learning Opportunities will be offered and publicized through RBERN at Fordham University with topics including the CR-SE Series- Establishing a Welcoming and Affirming Environment, High Expectations and Rigorous Instruction, and Inclusive Curriculum and Assessment.

These Professional Development Opportunities will be at no cost to Title III Immigrant Funds, with the exception of PL Opportunities that are facilitated by ElevatED Learning Services which are at a cost to Title III Immigrant Funds.

Rationale for Professional Development

Describe the rationale for the professional development to be provided. For each activity, include:

- **Qualitative and quantitative data analysis (e.g., patterns and trends identified) that support the need for the professional development, and**
- **Data sources (e.g., school survey teacher responses, in-house teacher surveys, teacher observation data) used to justify the professional development.**

For each activity include:

- Qualitative and quantitative data analysis that support the need for the professional development
- Data sources used to justify the professional development

According to the most recent English Language Learner Data Analysis Tool (EDAT) results, 65.7% of our ELL students have not yet met their annual progress targets. Many students remain below expected growth benchmarks, indicating a critical need to strengthen instructional strategies that accelerate language acquisition and academic achievement.

A significant portion of our ELL population—82.8%—are identified as Newcomers, emphasizing the importance of targeted interventions designed for students who are newly arrived to the U.S. school system. Additionally, 54% of our ELL students are in Grades 1–3, a pivotal period for foundational literacy and language development.

Findings from the NYC School Family Survey highlight additional areas for growth in school climate and student well-being. 55% of families reported feeling that the school adequately addresses safety and bullying. 68% of families indicated that their children are encouraged to share ideas and participate. These insights reflect the ongoing need to strengthen our approach to socio-emotional learning (SEL) and ensure that all students feel safe, valued, and engaged. As a result, professional learning will include targeted sessions on the Multi-Tiered System of Supports framework and strategies for fostering whole-child development—academically, socially, and emotionally. Additionally, staff will engage in professional learning focused on analyzing and integrating both academic data and SEL data (7 Mindsets) to inform instruction and provide more holistic support for our immigrant and ELL populations.

The EDAT results indicate that writing is our greatest area of need, with additional support required in speaking, particularly in the foundational grades. These findings are consistent with teacher feedback collected through internal surveys and needs assessments, which highlight a strong demand for professional development focused on scaffolding strategies that help ELLs access and engage with academic content effectively.

To address these needs, our professional learning plan will focus on equipping educators with effective tools and strategies to support language development across all content areas. A component of this plan includes unpacking the NYSESLAT to examine performance trends and identify instructional practices that foster student growth. Teachers will engage in professional learning grounded in Academic and Linguistic Demands: Creating Access to the Next Generation Learning Standards in English Language Arts for Linguistically Diverse Learners, aligned with the Literacy Shifts in K–5 and the use of the mCLASS platform to advance biliteracy development.

Patterns in teacher observations suggest inconsistent implementation of intentionally scaffolded, rigorous writing tasks for multilingual learners, including opportunities for oral rehearsal prior to writing, and gradual release of support. Additionally, trends indicate a lack of explicit and interactive academic vocabulary instruction, including intentional word selection, multiple exposures across modalities, and structured opportunities for students to use academic language in speaking and writing. These professional learning opportunities (MTSS, Scaffolding Writing & Teaching Academic Vocabulary, NYSESLAT Unpacking) align directly with observation data, which highlight a need to strengthen targeted feedback on both content and language, and increase evidence of multilingual learners being actively engaged, increasingly independent, and accurately using academic vocabulary in written and oral responses in both small group and whole group instruction.

Writing and vocabulary instruction supports both immigrant students and immigrant students who are ELLs because academic language is essential for success across all content areas. While ELLs may require additional language scaffolds, non-ELL immigrant students may also be developing academic vocabulary and writing expectations. Explicit instruction in writing and vocabulary helps all students access grade-level content, strengthen comprehension, and effectively communicate their understanding. With approximately 1/4 of our programming servicing Immigrant students who are Non-ELLs (15) these are essential skills to continue to develop academic competencies in reading and writing development.

Teachers to Receive Professional Development

Include information on the teachers to receive professional development. Please specify how all teachers working in the Title III Immigrant program will receive ongoing professional development related to the Title III Immigrant program.

All applicable staff members working in our afterschool programming will continue to receive professional development and ongoing support to strengthen programming and teacher-skill sets in implementation.

The following staff members who will participate include: SEL/Arts; (Miguelina Vargas/Rose Pinello) Essential/Creative Writing Skills (Jennifer Quizhpe); Newcomer Program (Dayana Cantillo). Additional staff members may be added based on potential programming needs.

Ongoing Professional Development will continue to be assessed on a needs basis and implemented on Mondays either 7:20AM-8:00AM or 2:20PM-3:20PM in house. Teachers will also be provided with opportunities outside of our school to participate in Professional Learning Opportunities through the Division of Multilingual Learners and other opportunities listed through Pro-Learner via Teach Hub that correlate with their programs area of focus and supports of Immigrant Populations.

Schedule and Duration

For each Title III Immigrant professional development activity, include:

- Start and end dates/months,
- Total number of sessions,
- Days of sessions, and
- Time and duration of sessions.

Our Professional Development sessions will be held bi-weekly on Mondays from 7:30–8:00 a.m. to support the effective implementation of our programs. The sessions will run from October 6 through June 9, totaling approximately 15 meetings. This schedule may be adjusted as needed based on teacher feedback and emerging program needs. If additional professional learning is required to ensure successful implementation, select Mondays during our designated Professional Learning Time will also be utilized to address relevant topics aligned with our focus.

Topics to be Covered

For each Title III Immigrant professional development activity, include topics to be covered.

Professional Development topics include:
Preparing for Program Implementation: Staff will be able to utilize this time to explore and be guided in the usage of programs needed to support our Immigrant Population. This includes but not limited to data tracking, digital components, structure, and sequence of lessons. Current Levels of students will be previously distributed to teachers for reference.

Unpacking the School Environmental Survey: Staff will be analyzing data from the School Environmental Survey to identify areas of improvement and support needed for our families. They will devise next steps based on the results and how it can impact programming.

Understanding Language Levels of ELL's: Staff will be able to understand the levels of language proficiency for ELL Students, as students participating in programming are also students who are English Language Learners. During this professional learning, staff will analyze and attribute the various student attributes for designated Language Proficiency Levels, as well as incorporate strategies to increase interaction and critical thinking skills for ELL/ML Students who are form immigrant families.

Multi-Tiered Systems of Support: Staff will be able to understand the MTSS Framework with an emphasis on Getting to Know your Students and small group instruction using student data. During this time frame, teachers will also view mClass data for students to better inform instructional decisions during programming.

Data Dive and Planning: Staff will participate in Data Dive Conversations regarding students that are a part of programming. During this time frame, they will analyze mClass; I-Ready; Map Growth, etc. to gauge student needs and next steps with strategy implementation to support students.

Prospective Workshops for Cycle 2 of Programming:

NYSESLAT Support and Informational: Teachers will leverage and understand the Targets of Measurement from the NYSESLAT Examination to further support their instructional practices with English Language Learners, as well as evaluate any additional resources needed to implement effective strategies for ELL students.

Sharing Best Practices: Teachers will discuss best practices for achieving language proficiency and any additional noticings on the resources being used, as well as their impact thus far.

Student Progress/Analyzing Data: Teachers will analyze current student data and trends in order to plan effectively for their sessions with students.

Supporting Parents in the Learning Process: Teachers will be provided with resources for home use that can be distributed to parents to further support their children at home in the areas of Language Building, Mathematics, and English Language Arts.

Name(s) and Title(s) of Provider(s)

For **each** Title III Immigrant professional development activity, include name(s) and title(s)of provider(s).

All In-House PD will be faciliated by the following: Administration, Bilingual Teachers and/or ENL Providers will include, but not limited to:
Nicole Gagliardi: ENL Coordinator/Provider
Jennifer Erichsen: Assistant Principal
Martha Martinez: Assistant Principal
Michelle Pinargote: Assistant Principal
Dayana Cantillo: Special Education Coordinator/ IEP Teacher
Jean Castano: Bilingual School Guidance Counselor (SEL Support)

In addition, ENL teachers will provide professional development support as needed to address key focus areas of learning.
Jessamine Mckeever- ENL Teacher
Mariela Lupercio- ENL Teacher
Mayra Puma- ENL Teacher
Stephanie Huerta- ENL Teacher

Melissa Arbelaez- ENL Teacher
Rosalind Segura- ENL Teacher

These participants mentioned are in addition to the ones referenced above who will be receiving targeted Professional Learning Sessions.

Maintaining Records

Describe your school's plan for maintaining of all professional development (e.g., agendas, attendance sheets) provided as part of your Title III Immigrant plan; please specify which activities were funded by Title III Immigrant funds.

Including your school's plan for maintaining documentation of professional development provided using Title III Immigrant funds.

Professional development will primarily be conducted in-house. However, in instances where external providers are engaged—funded through Title III Immigrant Funds—a record of these sessions will be maintained in a shared spreadsheet located on the school's Shared Drive for transparency and documentation purposes. Professional Development activities are notated on a School-Wide Calendar in which presentations are linked for reference. In addition, agendas and attendance sheets for Professional Development are documented by administrators in charge of programming.

Detailed budget and expenditure records are maintained, including receipts and payroll documentation to show that funds are used for supplemental services. We also collect evidence of implementation, such as professional development agendas, attendance sheets, instructional materials, and student progress data.

Part D: Family Engagement Activities

Family Engagement Summary

Provide a summary of your school's family engagement activities under your Title III Immigrant program. Describe the activities that families of immigrant students (including ELLs) will engage with by topic. Please make sure to include whether the activities will be funded by Title III Immigrant funds. Please note: If family engagement activities will be at funded by Title III Immigrant funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of family engagement and must not exceed 10% of the total allocation.

Elm Tree Elementary School currently serves a student population in which approximately 60% are identified as English Language Learners and approximately 35% of our student population are not native to the United States. This data reflects the rich linguistic and cultural diversity of our school community, with many students coming from immigrant families who are still developing English language proficiency. To support the academic and social success of our ELLs, it is essential to engage not only the students but also their families. Research and experience show that the most impactful plans for student growth involve families as active partners in the learning process. Families are invaluable stakeholders in their children's academic achievement and social emotional well-being.

Family engagement activities will be developed based on families' expressed interests, as identified through Family Surveys distributed at the start of the year. More than 50% of the students are Multilingual Learners, indicating that many parents—particularly those from immigrant backgrounds—need additional support in helping their children develop English proficiency, especially in reading and writing. Furthermore, findings from both in-house surveys and the DOE School Survey reveal that many families would like more support around social-emotional learning (SEL) components, including safety, bullying prevention, positive classroom behavior, and fostering student participation and voice in the classroom.

We know that family involvement is essential for the success of all students, especially our immigrant students. Many are acquiring a new language and need consistent and ongoing support in order to help their children. Therefore, we will engage parents by offering family workshops in which support and resources will be provided. All presentations will be translated into the home language of the families in attendance.

Family workshops will include, but are not limited to (Note: Dates/Times are tentative and subject to change):

Supporting Diverse Learners at Home in Building Language and Literacy Skills
Reading Strategies for Families
Understanding How to Read Family Reports from Assessment Systems (I-Ready and mClass) to better support learning for home use
Understanding the NYSESLAT and how to Support Students at Home
Supporting Families in the Summer Months to prepare their children for the Upcoming School Year
The facilitation of these professional learning activities will be at no cost to the Title III Immigrant Plan

By fostering strong school-family partnerships, we aim to create a collaborative environment that supports the academic and linguistic success of all ELL students and ones who are of immigrant families.

In addition, we plan to partner with Generation Ready to provide an additional layer of support for our families—empowering them to be Leaders at Home with their children and addressing socio-emotional topics identified as priorities by our community. These sessions are already included in our family engagement plan; however, if additional sessions are developed to further support our immigrant population, they will be funded through Title III Immigrant Funds.

Rationale for Family Engagement Activities

Describe the rationale for the family engagement activities to be provided:

For each activity, include:

- Qualitative and quantitative data analysis (e.g., reasons for topics, time activities will be offered), and
- Data sources (e.g., parent survey responses, in-house parent surveys, PTA/PA request) used to justify the need for activities.

Throughout the course of the program, we will maintain focused approaches that support Diverse Learners in developing and strengthening their language and literacy skills. In addition, we will provide ongoing family engagement activities designed to empower families as leaders within their homes and communities. These activities are informed by the following data:

Recent EDUR data indicate that 59.78% of our student population are English Language Learners (ELLs).

EDAT data show that 82.8% of our ELL population are Newcomers with 0–3 years of service.

Recent mCLASS results show a 34% proficiency rate school-wide.

EDAT data also reveal that 64.6% of our ELL and immigrant families live in Temporary Housing, an at-risk indicator for future academic success and a signal of increased need for family and parental support.

We administer school-wide surveys three times a year—promoted through school communications and PTA meetings—to assess family needs. Additionally, we conduct individual surveys after each family engagement activity to inform next steps and identify necessary supports. Based on this feedback, most parents have indicated a need for language support and assistance with language development at home. In response, we have aligned our Family Engagement opportunities to address the specific needs of our immigrant families and provide targeted support moving forward.

Schedule and Duration

For each Title III Immigrant family engagement activity, include:

- Start and end dates/months,
- Total number of sessions,
- Days of sessions, and
- Time and duration of sessions.

Monthly Family Workshops will begin on October 3, 2025, and will be held on either the second or third Tuesday of each month from 8:30 AM to 9:30 AM, following a rotating schedule. Workshops will continue through June 23, 2026, with a total of nine sessions offered during the school year. For families who prefer afternoon times, an additional session will be available on the same day from 2:45 PM to 3:45 PM.

Workshop topics will be determined based on family needs and interests, as identified through an interest inventory survey distributed at the start of the year. This ensures that each session is relevant, responsive, and supportive of families' goals for their children's academic and language development.

Tentative workshop dates: October 21, November 25, December 16, January 20, February 24, March 24, April 14, May 19, June 23

Title III Immigrant Family Engagement Activities will run from October 21, 2025, to June 23, 2026. These will consist of eight one-hour sessions on Tuesdays from 8:30 AM to 9:30 AM, with additional sessions added as needed based on family interest as the year progresses.

Topics to be Covered

For each Title III Immigrant family engagement activity, include topics to be covered.

Supporting Diverse Learners at Home in Building Language and Literacy Skills: In these sessions families will be provided with engaging and FREE resources that can be used at home to assist families with English Language Development, as well as ways to best support their child's educational and socio-emotional needs. We will also discuss the importance of bilingualism and strengthening their home language use at home.

Reading Strategies for Families: In these sessions families will be provided with Reading Strategies and techniques to support literacy skills at home. The workshop will be conducted in English/Spanish, as well as translated in additional languages, as indicated by families prior to the workshop date.

Understanding How to Read Family Reports from Assessment Systems (I-Ready and mClass): In these sessions, families will understand how to read the Family Reports from mClass and I-Ready in order to better support student learning at home.

Understanding the New York State English as a Second Language Achievement Test: In this session, families will learn about the components of the NYSESLAT examination that is administered yearly to students who are identified as English Language Learners (ELL's) and Multilingual Learners (ML's). They will also be provided with resources to help students in preparation for taking the examination.

Supporting Families with Summer Learning: In this session, we'll explore creative strategies and activities that make learning enjoyable, from reading challenges and STEM projects to nature walks and learning games. They will leave with practical tools, resources, and tips to keep your child engaged and motivated, helping them retain knowledge and build new skills.

The SEL Family Leadership and Empowerment Workshops: These sessions are designed to strengthen families' ability to support their children's social and emotional well-being while fostering leadership skills at home and within the community. Through interactive sessions, families explore strategies to build resilience, empathy, and effective communication. The workshop also empowers parents and caregivers to take an active role in their child's learning journey, promoting collaboration between home and school for student success.

Name(s) and Title(s) of Provider(s)

For each Title III Immigrant family engagement activity, include name and title of provider(s) (e.g., vendor, community-based organization, school staff name in charge of facilitating the parent engagement activities described in this section).

The providers for all family engagement activities include: Ms. Nicole Gagliardi (ENL Coordinator), Ms. Dayana Cantillo (SPED Coordinator/IEP Teacher), Ms. Martha Martinez (Assistant Principal), Ms. Jennifer Erichsen (Assistant Principal), Ms. Michelle Pinargote (Assistant Principal), Ms. Gisella Catarine (Parent Coordinator), Ms. Jean Castano (Guidance Counselor) and Ms. Yolanda Carrion (Generation Ready). Additionally, we will engage Ms. Aremni Francisco (Program Director for CBO) to provide further support.

Family Notification of Activities and Translation and Interpretation Supports

Describe:

- How families will be notified of Title III Immigrant family engagement activities (e.g., phone calls, emails),
- How notification of activities will be translated into parent/guardians' preferred language, and
- How interpretation supports will be provided at events.

Families will be notified of all school events and workshops throughout the year via our school website, which features built-in translation capabilities to ensure accessibility in each family's home language. This ensures that all families can stay informed and engaged, regardless of their primary language.

In addition, our Parent Coordinator sends timely notifications through the Elm Tree App, which delivers updates in each family's preferred language. To further support communication, a comprehensive School-Wide Calendar is published on our website, providing families with an overview of all upcoming events and activities.

When translation services are required for in-person events, we prioritize utilizing school-based staff who are fluent in the needed language. If additional support is necessary, we proactively coordinate with the Office of Language Services to ensure appropriate interpretation is available.

Maintaining Records

Describe how your school will maintain documentation (e.g. agendas, attendance sheets) of family engagement activities and notifications to families.

All documentation related to family engagement activities and communications (inclusive of agendas and attendance sheets) is maintained by our Parent Coordinator, Ms. Gisela Catarine. She is supported in this effort by Assistant Principals Ms. Jennifer Erichsen, Ms. Michelle Pinargote, and Ms. Martha Martinez, as well as our ENL Coordinator, Ms. Nicole Gagliardi. Together, this team ensures that all outreach and engagement efforts are accurately recorded and aligned with school-wide goals for family involvement.

Part E: Budget

FOR SCHOOLS NOT CONCEPTUALLY CONSOLIDATED ONLY. Ensure that your Title III Immigrant budget matches your Title III Immigrant plan as described in Parts B, C, and D above.

This school is (select one):

Conceptually consolidated (skip part E Budget below)

Allocation Amount ($):
