Comprehensive Educational Plan Outline

Table of Contents

Main Sections (Customized Based on School Accountability Status):

- Section 1: Overview of Comprehensive Education Planning
- Section 2: School Information
- Section 3: CEP SLT/Stakeholder Signature Page
- Section 4: School Summary
- Section 5: Priority 1 – All students learn to read well
- Section 5: Priority 2 – All students are physically and emotionally safe
- Section 5: Priority 3 – All students have a high-quality academic experience
- Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security
- Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools
- Section 5: Attendance/Chronic Absenteeism
- Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities
- Section 6: Multi-Tiered Systems of Support (MTSS)
- Section 7: Parent and Family Engagement Policy and School-Parent Compact
- Title I Program Information
- Submission Assurances
- Language Allocation Policy Outline
- Part I: School ML/ELL Profile
- Part II: Bilingual Programs
- Part III: ML/ELL Programming
- Part IV: Data Analysis
- Part V: ML/ELL Instruction
- Part VI: Family Partnership
- Part VII: Additional Information
- Part VIII: ELL Identification Attestation and Principal Certification
- Part IX: LAP Assurances
- LTI Overview and Part A: Designation of a LAC
- Part B: Parents' Preferred Languages
- Part C: Parent Communications and Engagement

- Part D: Staff Awareness
- Part E: Parental Notification
- Part F: Monitoring
- Title III Outline
- Part A: School Information
- Part B: Direct Instruction Supplemental Program Information
- Part C: Professional Development
- Part D: Family Engagement Activities
- Part E: Budget

Appendices (Reflecting Additional Requirements for Specific Groups of Schools):

F

Section 1: Overview of Comprehensive Education Planning

Overview of Comprehensive Education Planning

Comprehensive Education Planning (CEP) is a structured, data-driven process that guides schools in assessing their needs, identifying areas for growth, setting strategic goals and implementing targeted actions to improve student outcomes. Collaboratively developed by the School Leadership Team (SLT) in accordance with the requirements of Chancellor's Regulation A-655, the CEP meets New York State Education Department (NYSED) requirements under the Every Student Succeeds Act (ESSA) and aligns with NYC Public Schools' (NYCPS) system-wide priorities. By engaging all stakeholders—school leaders, teachers, families, students and community members—schools can create a data-informed, equity-focused roadmap for student success and continuous improvement.

Schools should focus their CEP on the five system-wide priorities below, connecting their planning to the data discussions and conversations with stakeholders held as part of the school's needs assessment:

- Priority 1: All students learn to read well
- Priority 2: All students are physically and emotionally safe
- Priority 3: All students have a high-quality academic experience
- Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security
- Priority 5: All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

The Education Planning Process

The CEP follows an equity-driven, continuous improvement cycle, rooted in the system-wide priorities. This begins with a comprehensive needs assessment of the school's most current data to identify priority needs and root causes. Next, the SLT establishes **s**pecific, **m**easurable, **a**ttainable, **r**elevant, and **t**imely—SMART goal(s) aligned to each priority and determines targets to measure progress toward meeting the annual goals.

The SLT and instructional leaders define key evidence-based key strategies, professional learning activities and parent, family and community empowerment efforts. They monitor the implementation of those strategies and activities and track progress through measurable targets. Then, the SLT aligns the school-based budget with human and instructional resources to support action plans.

As schools set goals, develop key strategies, and plan action steps, they provide opportunities for all children to meet NYSED's proficient and advanced levels of student academic achievement. These include evidence based instructional strategies that address the educational needs of historically underserved populations and tackle structural inequities. Schools indicate how the plan addresses the needs of Multilingual/English Language Learners (ML/ELL) through development of the school's Language Allocation Policy (LAP) & Title III Application (if applicable) and the Language Translation and Interpretation (LTI) Plan, that are required as part of the CEP. Schools also address the needs of Students with Disabilities (SWD) through the High Quality Inclusive & Accessible Learning for Students with Disabilities section of the plan. SLTs also develop a plan to improve attendance and reduce chronic absenteeism.

Guidance on Conducting a Comprehensive Needs Assessment

Directions: Conduct a comprehensive needs assessment for each Priority. The information below provides guidance for reviewing and analyzing student and school performance trends to uncover root causes for low student achievement.

1. Review Multiple Data Sources: Use the most current and available information including, but not limited to, the following sources of formative and summative data, as applicable:

- Qualitative and quantitative data, including enrollment and class size trends
- 2024-25 ESSA Accountability Data
- Instructional Leadership Framework (ILF), Supportive Environment Framework (SEF) Inventories, and NYC School Survey results
- Quality Review Reports, NYSED and NYCPS CSI or A/TSI Support Visits, Receivership Quarterly Reports, and Diagnostic Tool for School and District Effectiveness Framework (DTSDE)
- NYC School Quality Guide, Insight, New Visions, NWEA MAP and/or other formative assessment data, IEP Review Survey Data, Progress on IEP Goals Data, Program (SESIS-STARS Linkage) Reports, Mandated (Related) Services Reports, and NYCPS Tools for Understanding Your Data for student subgroup information

2. Analyze Data Trend(s) to Identify Areas of Strength and Need: Identify data trends by grade, cohort, and content area(s) to surface gaps and inequities. Compare data sets to identify instructional and school practices that are impacting student performance. Guiding questions to consider:

- What does the data reveal about improving and declining student performance trends within grades, cohorts, and student subgroups?
- What inequities are evident between highest and lowest performing student subgroups? Which subgroup(s) scored at Level 1 based on NYSED ESSA accountability indicators?
- What does the data suggest regarding the effectiveness (or ineffectiveness) of current school programs, practices, and/or strategies/initiatives? What areas may need to be strengthened?
- Are there any differences in student performance between program delivery models for ML/ELL and SWD? (e.g., for special education: special class, ICT, SETSS, related services only; for ML/ELL: Transitional Bilingual Education (TBE) vs. Dual Language, etc.)
- How does delivery of instruction factor into data trends? What are the implications for teacher quality and professional learning?
- What inequities in special education referral and school disciplinary practices (e.g. suspensions, removals) are evident between student subgroups with IEPs?

3. Identify Root Cause(s): After analyzing the data, engage in a process for uncovering root causes or contributing factors for low student and school performance. Develop theories or hypotheses to explain

why these needs exist and why your school is getting its current outcomes. Root causes could be related to gaps and inequities in areas such as curriculum & instruction, school systems & structures, student support services, school climate & safety, and family & community engagement. Focus on the causes, rather than the symptoms. Use the 5 Whys Method or other methods for identifying root causes. Consider the questions below:

- What theories or hypotheses explain the current student and school outcomes?
- Are there root causes specific to certain subgroups, grades, cohorts, or content area(s)?

Additional resources and supports are available below.

- Use this CEP Needs Assessment Worksheet to help your SLT and stakeholders identify appropriate data sources, data trends, root causes and priority needs.
- For guidance and best practices on engaging stakeholders in a comprehensive needs assessment and root cause analysis, see this deck.
- A current list of all CEP/Title I resources can be found on the iPlan Portal Public Resources Page.

Section 2: School Information

School Information

School Name:

Lyndon Baines Johnson Elementary

District Borough Number (DBN):

32K151

Grades Served:

3K - Pre-Kindergarten through Fifth Grades

School Address:

763 Knickerbocker Avenue, Brooklyn, New York 11207

Phone Number:

718-326-6360

Fax:

718-326-6364

School Contact Person:

Jayne M. Hunt

School Contact Person Email Address:

Section 3: CEP SLT/Stakeholder Signature Page

School Leadership Team (SLT) Signature Page

All School Leadership Team (SLT) members are expected to sign this page to confirm their participation in the development of this Comprehensive Education Plan (CEP) and that they have been consulted regarding the alignment of the school-based budget to support this school's educational program, which includes annual goals and action plans, Multi-Tiered Systems of Support (MTSS), the Parent and Family Engagement Policy (PFEP) and the School-Parent Compact (SPC). The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with Chancellor's Regulation A-655. The SLT also serves as the Core Community Engagement Team (CET) for Receivership Schools. Additional information and resources are available on the School Leadership Team Resources page. Under the Federal Every Student Succeeds Act (ESSA), NYS Education Law and Commissioner's Regulations, stakeholder participation in the development of the CEP must include multiple constituencies who represent the school community. Note: Stakeholders participating in the development of the CEP who are not listed on the SLT page sign the section below entitled Additional Stakeholder Participation on CEP Development.

Directions: List the names of each SLT member in the first column on the chart below.

- Specify the position and constituent group represented, e.g., parent-PTA, staff-UFT, student. Note: Two student minimum required for high schools; SED requires Middle Schools identified for the CSI/ATSI/TSI support model to have student representation.
- Community Based Organization (CBO), and any position held by the team member. Core mandatory SLT members are indicated by an asterisk*. Note: The Core SLT members also serve as the CET for Receivership schools.
- SLT members should review this document and sign in the Signature If an SLT member does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of SLT member indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.
- Schools may modify their SLT bylaws as needed to address additional school and/or ESSA requirements for stakeholder engagement.

SLT Member Name	Position and Constituent Group Represented	Signature
Jayne M. Hunt	Principal or Designee*	
Joyce Brown	United Federation of Teachers (UFT) Chapter Leader or Designee*	
Crystal Aponte	Parents' Association (PA)/Parent-Teach Association (PTA) President or Designated Co-President*	
Ana Serrano	District Council 37 (DC 37) Representative (staff), if applicable	
Jasmin Rodriguez	Title I Parent Advisory Council Chairperson (or alternate)	
	Student Representative (Required for middle and high schools)	
	Student Representative (Required for middle and high schools)	
	CBO Representative, if applicable	
Maria Catanzariti	Member/Teacher SLT Chair person	
Bertha Fernandez	Member/Teacher	
Crystal Aponte	Member/Parent	
Rosaira Quinones	Member/Parent	
Karla Rodriguez-Miletsky	Member/Parent	
Neury Martinez	Member/Parent	
Maria Perez	Member/Parent

	Member/	

Additional Stakeholder Signature Page

Directions: Stakeholders participating in the development of the CEP who are not listed on the SLT page may sign below. Additional stakeholders may include, but not be limited to, school and district leaders, school staff, parents/families/guardians, students, community organizations, additional Core Community Engagement Team (CET) members (if applicable), members of the School Implementation Team (SIT), and/or school-based staff development committee that serves as the Instructional Leadership Team (ILT) tasked to improve instructional practice across the school. Go to NYSED's guidance on Assembling Your Team to learn more.

- List the names of additional stakeholders in the first column on the chart below.
- Specify the individual's position and constituent group represented.
- Stakeholders should review this document and sign in the Signature column. If the stakeholder does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of the additional stakeholders indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.

Section 4: School Summary

Accountability Status

Accountability Status: **LSI**

School Summary

Directions: Complete this CEP Summary to serve as the "at-a-glance" narrative that provides contextual information about your school's unique characteristics. This summary and the entire Comprehensive Education Plan (CEP) should be shared with your school community. Please note that this summary and the CEP will be made available to the public through the iPlan Portal, an online space where school stakeholders can go to collaborate in the development of the school's education plans.

Provide your school's mission statement:

Vision Statement
The Lyndon Baines Johnson School, PS151K, is a partnership of students, parents, educators, staff, and community. We are committed to create, to teach, to encourage, and to challenge all students to fulfill their potential and to apply their knowledge and skills to become contributing, responsible citizens of a rapidly changing, diverse, digital, global society.

Mission/Vision:
Our Mission is to create and sustain an inclusive environment, that promotes student's voice; strengthens students' collaborative and critical thinking skills; and enhance students' social-emotional development and well-being.

School-wide Instructional Focus:
All students will effectively use text-based evidence to support claims, assertions, opinions, and arguments in reading, writing, and discussion, across all content areas, in all classes assessed by student created projects, presentations and performances.

Develop a narrative summary that includes contextual information about your school's community and its unique/important characteristics and partnerships:

Include demographic information about your school's student population.

P.S. 151K, the Lyndon Baines Johnson Elementary School of Science & Humanities, is located in the neighborhood of Bushwick, Brooklyn. We are a Positive Behavior, Intervention, and Supports (PBIS) school community. Our community is comprised of Hispanic-Americans, African-Americans and immigrants from the Caribbean, Central America, and Asian countries such as Yemen and the Philippines. As of May 3, 2025, P.S. 151K's student body includes 296 Pre-Kindergarten (3 and 4 years of age) through Grade 5 students of which, 38% are English Language Learners, 13% are Students with Disabilities, and 95% receive free lunch. Boys account for 52% of students enrolled and girls account for 48%. The average attendance rate for this school year is 92% as compared to the previous school year rate of 88%.

Our instructional philosophy, based on our belief in "Educate, Excel, Empower," is designed to leverage our strength in science instruction, employing a hands-on/inquiry-based approach to learning. Our school wide instructional focus is for all students to effectively use text-based evidence to support claims, assertions, opinions, and arguments in reading, writing, and discussion, across all content areas, in all classes assessed by student created projects, presentations, and performances.

Our dual language program will be implemented in grades Pre-Kindergarten (4 years of age) through fifth grades. The model of instruction is the 50-50 model, in which students are receiving instruction in both English and Spanish

languages daily.

We will continue our partnership with New York City's Wellness in the School (WITS) to provide our parents and students a series of nutrition and health workshops. In our efforts to support healthy living in our community, we will continue to partner with New York City (NYC) Department of Health & Mental Hygiene in their healthy school initiatives. As a result, our wellness council will continue our efforts to promote healthy eating and active living for our students, staff members, and families. Our parent coordinator, parent association (PA) president, and principal will continue to work collaboratively in scheduling events to address healthy living and enhance an awareness of the benefits to preventive care. Our school collaborates with community-based organizations to provide a wide-range of health services to families, including free vision screening and screening for other health related issues.
Unfortunately, we lost the 21st Century Grant that had previously funded our afterschool program with the ASPIRA of New York Organization. Nonetheless, with state funding, our teachers will be provided with per session opportunities to provide our students with an afterschool academic and arts-enriched program geared to promoting and empowering young intellectual and cultural student-leaders, while providing quality educational arts to enhance artistic inquiry, collaboration, and critical thinking skills.

We will continue to expand our music and arts program with the Arts in Blue Program, in the afterschool program. Students will have opportunities to learn instrumental music or various artistic techniques. Our school will provide on-site professional development for teachers to support curriculum and instruction, with an emphasis on instructional best practices to meet the needs of our Multilingual Language Learners (MLLs) and Students with Disabilities (SWDs).

Additionally, we will implement the Read Alliance Program to support our non-readers in Kindergarten, grade one and grade two.
In the 2024-25 school year, we will continue our collaboration with the United Federation of Teachers (UFT) Teacher Center. While this partnership commenced with our past SIG-7 funding, the on-site coaches' salaries are paid by the school. In collaboration with the UFT Teacher Center, we will be offering on-site professional development to our teachers and to teachers within our school District 32.

Briefly summarize the key initiatives your school will implement this school year.

To support our science and humanities whole-school structure, we are expanding our social studies teaching to encompass thematic project based learning. Students will be engaging in Civics for All and Theater programming to enhance our PBIS inclusive environment while promoting student discourse and to increase student voice. We know that the integration of humanities and arts with science, engineering, and math (STEAM) lead to improved educational and social emotional achievement among students. Studies show that the integration of curriculum, experiential experiences, and exploration will increase students' critical thinking, innovation, creativity, and positively broaden students' social and cultural "awareness" as they become better problem solvers on community and global issues.

What are the primary digital and/or print curricula/programs used for ELA and Math:

Indicate the content area, grade band and any adaptations made.

Content Area (Indicate ELA and Math Only)	Grade Band	Digital and/or Print Curricula/Program	Adaptations
ELA	PK-5	HMH Into Reading Print and Digital, Creative Curriculum	n/a

Math	PK-5	Illustrative Mathematics Digital and Print, Creative Curriculum	n/a
ELA	PK-5	HMH Writing, Creative Curriculum	n/a
ELA	PK-3	Fundations & Heggerty Phonics Program, Sounds in Motion, Creative Curriculum	n/a

Section 5: Priority 1 – All students learn to read well

Priority 1 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
2024-2025 School Quality Guide Survey Measures strong core instruction reflects that 90% of teachers in all subjects stated that they had the resource to include opportunity for students to interact with complex grade level texts and tasks. 2024-2025 school quality guide survey measure Quality of student discussion reflects that 71% of teachers stated that students build on each other's ideas during class discussion.	Teachers did not consistently use a variety of discussion protocols to elicit and promote rigorous discourse to further student comprehension.	Engage students in rigorous discourse that allows them to explore and understand literary concepts, processes,

		and relationships.
2024-2025 School Quality Guide Survey Measures strong core instruction reflects that 88% of teachers in all subjects stated In planning my last instructional unit, I had the resources and tools I needed to include multiple opportunities for...focusing deeply on the concepts emphasized in the standards to help students build strong foundations for learning. 2024-2025 School Quality Guide Survey measures quality of student discussion reflects that 76% of teachers say that students use data or text references to support their ideas. 2024-2025 School Quality Guide Survey measures the quality of professional development. 79% of teachers say that my professional development experiences this year have directly related to my students' needs.	Our teachers did not adequately focus on the intentional and direct instruction of vocabulary to improve language acquisition leading to improved fluency and comprehension.	Build students' academic vocabulary and domain specific terminology in non-fiction and fiction text.
The Spring 2024 New York State ELA exam reflects the following data: for all students: 27% of 74 students achieved proficiency for SWIs: 10% of 10 students achieved proficiency for ELLs: 0% of 29 students achieved proficiency for Students in Temporary Housing: 4% of 24 students achieved proficiency for Students Living Doubled-Up Housing: 5% of 21 students achieved proficiency As of October 2025, New Visions Portal reflects the following Baseline i-Ready Reading Diagnostic Assessment data: for all students: Mid or Above Grade level-14 students Early On Grade Level-20 students 1 Year Below Grade Level-97 students 2 Years Below Grade Level- 55 students 3 or More Years Below Grade Level- 36 students for SWI students: Mid or Above Grade level-4 students Early On Grade Level-2 students 1 Year Below Grade Level-17 students 2 Years Below Grade Level- 10 students 3 or More Years Below Grade Level- 7 student for ELL students: Mid or Above Grade level-0 students Early On Grade Level-0 students 1 Year Below Grade Level-36 students 2 Years Below Grade Level- 30 students 3 or More Years Below Grade Level- 26 students for Housing Insecure students: Mid or Above Grade level- 2 students Early On Grade Level- 4 students 1 Year Below Grade Level- 27 students 2 Years Below Grade Level- 22 students 3 or More Years Below Grade Level-24 students for students living Doubled-Up Mid or Above Grade level- 2 students Early On Grade Level- 3 students 1 Year Below Grade Level- 21 students 2 Years Below Grade Level- 15 students 3 or More Years Below Grade Level- 19 students for students living in a Shelter: Mid or Above Grade level- 0 student Early On Grade Level- 0 students 1 Year Below Grade Level- 5 students 2 Years Below Grade Level- 4 student 3 or More Years Below Grade Level- 3 students	Teachers have not implemented the professional learning on how to strategically use progress monitoring screening data from i-Ready ELA assessments to develop and implement tiered interventions in the 6- to 8-week MTSS Action Plans.	Refine multi tiered systems of intervention support for students (based on i-Ready screening data) throughout the year through effective professional learning for all teachers.
As of October 2025, New Visions Portal reflects the following Baseline Acadience Reading Screener data: for all students: Above Benchmark-27 students At Benchmark-15 students Below Benchmark-16 students Well Below Benchmark-51 students No Data-160 students for SWI students: Above Benchmark-8 students At Benchmark-2 students Below Benchmark-3 students Well Below Benchmark-7 students No Data-21 students for ELL students: Above Benchmark-4 students At Benchmark-3 students Below Benchmark- 9 students	Teachers in grades K-2 have not consistently utilized Acadience Reading data to	Teachers in grades K-2 need to analyze and apply Acadience Reading

Well Below Benchmark-35 students No Data-43 students for Housing Insecure students: Above Benchmark-4 students At Benchmark-2 students Below Benchmark-5 students Well Below Benchmark-29 students No Data-47 students for students living in Shelter: Above Benchmark--1 students At Benchmark-0 students Below Benchmark-0 students Well Below Benchmark-5 students No Data-7 students for students living Doubled-Up: Above Benchmark-3 students At Benchmark-2 students Below Benchmark-4 students Well Below Benchmark-21 students No Data-37 students	make instructional adjustments in determining student groupings and strategic skill instruction.	Screener data throughout the year to make instructional adjustments in determining student groupings and strategic skill instruction, aligned to the screener data.

Priority 1

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for literacy outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Literacy

- Implement the strategies outlined in NYC Reads, including foundational phonics curriculum for grades K-2
- Implement dyslexia screening, professional learning, and program pilots (as applicable)
- Support literacy development through the integration of culturally responsive-sustaining texts and content

Priority 1 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	xx	By June 2026, the percentage of all students scoring mid or above or early on grade level will increase by 15%, from 45% to 60%, as measured by i-Ready Overall Reading Diagnostic Assessment.

Priority 1 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 1 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Instructional Coaching

Root Cause Addressed:

Teachers did not consistently use a variety of discussion protocols to elicit and promote rigorous discourse.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Professional development cycles will be developed and provided throughout the year to support teachers' capacity to implement effective planning/preparation and classroom instruction within the shared reading curriculum that will include, but not limited to: academic vocabulary and higher order thinking (Depth of Knowledge level 3 and 4) questions, discussion protocols and techniques that promote greater ratio of student participation, development and implementation of divergent questions (versus convergent questions); pedagogical strategies for peer to peer collaboration; NYSESLAT writing rubric criteria.
Mentors, Coaches, and Consultants will provide instructional workshops, one-on-one sessions, and small group professional learning communities, based on differentiated teacher needs and strengths, related to Advance components 1a, 1e, 3b, and 3c.
Rolling agendas, minutes, and attendance are reviewed and feedback to teacher teams will be provided by school leaders for the following: school leaders, coaches and teachers will engage in data-driven discussions with strategic

attention to identified students, based on weekly assessments, monitoring sheets, to determine progress and next steps for individual student improvement and supports.
Throughout the school year, school leaders will leverage the Advance system of observations and support to visit classrooms and provide actionable feedback related to literacy lesson planning and preparation (components 1a and 1e), Engagement (component 3c) and Questioning and Discussion Techniques (component 3b), with differentiation and appropriate scaffolds and groupings for ELLs and SWIs.
School Leadership Team will meet on a monthly basis to share, review, reflect, and revise the implementation of CEP action plan activities, strategies, and progress monitoring outcomes related to the Priority 1 goals and action plans.

Key Strategy 2 (Optional):

Professional Learning focused on using data to drive instructional decisions

Root Cause Addressed:

Teachers have not implemented the professional learning on how to strategically use progress monitoring screening data from I ready ELA assessments to develop and implement tiered interventions in the 6- to 8-week MTSS Action Plans.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
School leaders and the Instructional Leadership Team will engage in monthly classroom visits (instructional rounds/collegial Intervisitation) in order to provide targeted, actionable feedback to teachers to improve literacy instruction.
School leaders, coaches and teachers will engage in data-driven discussions with strategic attention to identified students, based on weekly assessments, monitoring sheets, to determine progress and next steps for individual student improvement and supports.
but not limited to: academic vocabulary and higher order thinking (Depth of Knowledge level 3 and 4) questions, discussion protocols and techniques that promote greater ratio of student participation, development and implementation of divergent questions (versus convergent questions); pedagogical strategies for peer to peer collaboration; NYSESLAT writing rubric criteria. Instructional coaches will support teachers and teacher teams by providing sustained professional development for teachers in the early grades (K-2) on how to interpret Acadience and grades K-5 for i-Ready data analysis and make appropriate adjustments in classroom instruction.
Grade level teachers and special education teachers will engage in weekly professional learning on how to leverage individual SWI students' IEP annual goals in order to plan for appropriate adaptations to the delivery or methodology of ELA instruction. Grade level teachers and ENL teachers will engage in weekly professional learning on how to

leverage individual ELL students' NYSESLAT language proficiency in order to plan for appropriate adaptations to the delivery or methodology of ELA instruction

School Leadership Team will meet on a monthly basis to share, review, reflect, and revise the implementation of CEP action plan activities, strategies, and progress monitoring outcomes related to the Priority 1 goals and action plans

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Primary Structures for Implementation Monitoring Priority 1 include:
Rolling agendas, minutes, and attendance are reviewed and feedback to teacher teams is provided by school leaders.

Teacher PD reflection forms are collected and results used to influence next PD steps.

Data-driven discussion protocols memorialize progress monitoring results.

Weekly Supervisory Cabinet meetings include updates on Advance observations, with discussion of normed ratings, feedback, and supports provided to teachers.

Stakeholder surveys/questionnaires/interviews are conducted to elicit multiple perspectives related to Priority 1 literacy curriculum and instruction.

Priority 1 data to be collected and analyzed include the following: i-Ready Reading Diagnostic Assessments; Acadience Reading Screeners; NYS ELA exam results; Advance observation reports; teacher and staff PD surveys/questionnaires/reflections; core curriculum unit writing assessments

Priority 1 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/19/2025	06/26/2026	Quarterly parent workshops focused on Next Generation Learning Standards in ELA and ELA curriculum, HMH Into Reading.	n/a
09/19/2025	06/26/2026	Bi-Monthly parent newsletters highlighting tips for parents with reading and writing activities to support children's literacy progress and performance, in alignment with new ELA curriculum, HMH Into Reading.	n/a
09/19/2025	06/26/2026	Bi-Monthly parent notices by students via video recording in both English and Spanish to invite parents to schoolwide, grade level and class events related to ELA /Literacy curriculum and instruction.	n/a
09/19/2025	06/26/2026	Monthly personalized invitations to select parent(s) made by classroom teachers to discuss student's personal and academic performances	n/a
09/19/2025	06/26/2026	Quarterly parent workshops focused on the Multilingual strategies and Dual Language Program parent support	n/a

Priority 1 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Parent Coordinator, Literacy AIS Teacher/Coach, TESOL and Bilingual Licensed Teachers, Consultants

Instructional Resources

Instructional Materials, Consumable Supplies, Technology, as needed

Schedule Adjustments

n/a

Other Resources Needed

per session, per diem, training rate

Section 5: Priority 2 – All students are physically and emotionally safe

Priority 2 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
2024-25 school quality guide survey measures Quality of student discussion, reflecting that 74% of teachers say that students provide constructive feedback to their peers/teachers. 2024-25 school quality guide survey measure innovation and collective responsibility reflects that 79% of the teachers help build a welcoming school environment in the entire school, not just their classroom.	Teachers have not made the practice of critical thinking a daily routine within classroom instruction.	Teachers need explicit professional development in strengthening students' critical thinking through daily instructional practices

2024-25 school quality guide survey measure classroom behavior reflects that 76% of teachers say that students listen carefully when the teacher gives directions. 2024-25 school quality guide survey measure preventing bullying reflects that 69% of teachers say that students harass, bully or intimidate other students. 2024-25 school quality guide survey measure innovation and collective responsibility reflects that 92% of the teachers say they feel responsible that all students learn. 2024-25 Advance teacher observation MOTP ratings in component 2d Managing Behavior reflect that 100% of teachers were rated at least 1 effectively or highly effectively in this component. 2024-25 Advance teacher observations MOTP ratings and components 2a, Creating an Environment of Respect and Rapport, reflect that 100% of teachers were rated at least 1 effective or highly effective in this component.	Teachers did not consistently reinforce clearly defined school wide expectations for classroom behavior.	Increase students' accountability and personal responsibility for following teacher directions.
2024-25 school quality guide survey measures classroom behavior reflects that 67% of teachers say that students do their work when they're supposed to. 2024-25 NYC OSYD report reflects that twelve incident reports were levels 3 or 4 infraction levels.	Teachers did not consistently provide students with clear protocols to monitor student behavior against school wide established standards of conduct	Students need daily practice in improving their listening skills, with opportunities for self reflection and self assessment, using clear criteria.

Priority 2

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for physical and emotional safety** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Physical and Emotional Safety

- Develop safety infrastructure and systems, including staff training, collaboration with external partners, and implementation of safety and security best practices
- Expand social emotional and mental health supports via restorative justice, Project Pivot, screeners, and other district or school-based initiatives (as applicable)
- Expand implementation of physical and mental wellness supports, including Physical and Health Education that meets NYSED requirements and related initiatives
- Improve supports and outcomes for socially vulnerable student populations (Students in Temporary Housing, Students in Foster Care)

Priority 2 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	xx	By June 2026, physical and mental wellness for all students will improve by an increase of 10% favorable teacher survey responses (none of the time or rarely) to prompt#1, related to Preventing Bullying, ""At this school, students harass, bully, or intimidate other students," from 82% to 92%, as measured by NYC School Quality Guide Teacher Panorama Survey.

Priority 2 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 2 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Leveraging Teacher Teams to plan for implementation of school-wide protocols to monitor student behavior against school-wide established standards of conduct.

Root Cause Addressed:

Teachers did not consistently provide students with clear protocols to monitor student behavior against school wide established standards of conduct.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Teachers will infuse anti-bullying curriculum, with an emphasis on using the internet and social media responsibly, into the curriculum. Teachers and guidance personnel will prioritize strengthening students' capacity to effectively communicate (verbally and in writing) their thoughts and feelings in order to help them de-escalate possible conflicts among peers. Empowering students through enhanced vocabulary development will be emphasized for all students, and especially for ELLs and SWIs.
Student interviews/surveys will be conducted at least 3 times during the year to elicit students' perceptions, ideas, and feelings about SEL initiatives at the school and about their sense of safety and personal mental and emotional well-being
Professional development series of workshops will be provided to all teachers, including paraprofessionals, focusing on topics related to social-emotional wellness, strengthening students' capacity to regulate their behavior and

manage their emotions; effective paraprofessional practices in classrooms to support students' learning and behavior.
Guidance and support staff will conduct monthly anti-bullying PD workshops, with an emphasis on using the internet and social media responsibly. School leaders will leverage the Advance system of observations and professional support, with particular attention to components 2a and 2d.
Safety Committee will periodically review OORS data at least 3 times during the year, considering number and level of incidents and infractions; potential disproportionality of occurrences based on gender and race; time of incidents/locations of incidents. Data-driven decisions will be made to address the implications of the data.
School Leadership Team and other school teams will collaborate to collaboratively reflect on CEP Priority 2 action plan implementation and outcomes to determine successes, challenges, and next steps.

Key Strategy 2 (Optional):

n/a

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Primary Structures for Implementation Monitoring Priority 2 include:
Rolling agendas, minutes, and attendance are reviewed and feedback to SLT is provided by school leaders.

Data-driven discussion protocols memorialize progress monitoring results.

Stakeholder surveys/questionnaires/interviews are conducted to elicit multiple perspectives related to parent/family engagement.

Stakeholder surveys/questionnaires/interviews are conducted to elicit multiple perspectives related to Equity and SEL initiatives.

Weekly Supervisory Cabinet meetings include updates on Advance observations, with discussion of normed ratings, feedback, and supports provided to teachers.

Priority 2 data to be collected and analyzed include the following: OORS reports; student/parent/teacher surveys, questionnaires, interviews; Advance observation reports;

Priority 2 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged

Teachers in grades K-2 need to analyze and apply Acadience Math Screener data throughout the year to make instructional adjustments in determining student groupings and strategic skill instruction, aligned to the screener data.

Priority 3

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for high-quality academics** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Academics

- Strengthen mathematics instruction, including via screener administration and Multi-Tiered Systems of Support (MTSS)
- Embed culturally responsive-sustaining texts and content (e.g., Hidden Voices, Black Studies Curriculum, etc.) in history, literature, and arts curricula to deepen civic engagement, enhance understanding of diverse cultures and provide relevant and affirming interventions in literacy development
- Ensure multilingual language learners (MLLs) are served and progressing in appropriate settings; expand bilingual programming and professional learning for educators who support MLLs
- Ensure students with disabilities are served and progressing in the least restrictive and most appropriate settings; improve delivery of mandated services and expand specialized programs
- Ensure that Students in Temporary Housing (STH) and Students in Foster Care access opportunities to receive tutoring and are purposefully engaged in new programs developed in the school
- Elevate health and physical education and activities for a reimagined and engaged student academic experience promoting social, emotional, and physical wellness and wellbeing
- Ensure teachers attend Physical Education and Health Education professional learning in order to provide quality instruction to be able to support and address the physical, mental, social, and emotional needs of the whole child in a safe and supportive learning environment
- Strengthen Early Childhood Education program utilization, quality, and ability to serve all students
- Elevate arts and civics for a reimagined and more engaged student academic experience
- Increase school staff diversity and retention
- Create new programs/schools in response to community need; expand high quality seats

Priority 3 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	xx	By June 2026, the percentage of all students achieving mid or above grade level and early on grade level will increase by 15%, from 49% to 64%, as measured by i-Ready Overall Math Diagnostic Assessment.

Priority 3 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 3 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 3 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Professional Learning Communities/Teacher Teams focused on enhancing students' capacity to master numbers and operations

Root Cause Addressed:

Teachers have not consistently utilized the i-Ready math data from progress monitoring assessments to revise and adapt lessons for students scoring at different tiers of performance.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
School teams, comprised of all math and special education teachers, will meet to develop protocols to facilitate rigorous math student to student discussions, with embedded strategies, aligned to SWI students' IEPs and ELL students' language proficiency levels in the 4 language modalities (as per NYSESLAT data).
Principal and assistant principals will engage in i-Ready and Acadience math data reviews with the grade level math teams to assess student progress and support revision of instructional plans.
School leaders will leverage the Advance system of evaluation and professional support, focusing on components 1a, 1e, 3b, 3c, and 3d.
Teachers will provide students with sufficient practice with feedback, focusing on identified areas of need per i-Ready, and using the spring 2025 NYS Math exam item analysis and released math questions. Math teacher teams,

principal, and assistant principal will review lesson plans to ensure that teachers are allotting time during independent work time for students to engage in peer to peer collaboration to review work for errors after solving math problems, and emphasizing numbers and operations.
Student interviews will be conducted at least 3 times during the year, to elicit students' perceptions, ideas, and feeling about their learning processes and content learning in mathematics to inform activities and strategies that are responsive to the students' voices.
SLT stakeholders and ILT stakeholders will participate in analyses of external data and survey data, related to math curriculum and instruction and students' math progress and performance, reflecting on CEP Priority 3 action plan implementation and outcomes to determine successes, challenges, and next steps.

Key Strategy 2 (Optional):

Professional Learning Communities (Teacher Teams), focused on strengthening writing skills of ELLs

Root Cause Addressed:

Addressing the language proficiency needs of ELL students changes from year to year, based on the language proficiency levels of the ELL students, especially the students at the entering and emerging levels and newly-admitted and newly-arrived ELL students.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
School teams, comprised of all math and special education teachers, will meet to develop protocols to facilitate rigorous math student to student discussions, with embedded strategies, aligned to SWI students' IEPs and ELL students' language proficiency levels in the 4 language modalities (as per NYSESLAT data). Based on deep dives into ELL students' progress, using the NYSESLAT writing rubric, professional development will be provided to teachers and paraprofessionals on how to support students' capacity to write complex sentences.
Teachers will plan and utilize culturally-relevant materials with real-world context during math instruction and embedding daily multi-step math word problems, unpacking academic and domain-specific vocabulary in daily lessons.
The school will provide professional development on topics, including but not limited to: effective, strategic use of explicit and systematic vocabulary instruction as a complement to strong core math instruction; planning and implementation of embedding social-emotional supports within math instruction; math strategies that include multiple entry points for students and promote rigorous student to student discussion within the math curriculum; language acquisition and vocabulary development, tiered math strategies that include multiple entry points and appropriate language and vocabulary scaffolds for ELL and SWI students; deepening understandings of NYSESLAT Writing Rubric

criteria and determining specific, high leverage criteria as the priority focus for the year, such as complexity of language and quality of language.

Mock NYSESLAT Writing Assessments will be administered 3 times during the year and teacher teams will engage in the Looking at Student Work Protocol, using the NYSESLAT Writing Rubric criteria as the lens to determine ELL students' writing skills. Teacher teams will determine appropriate evidence-based strategies to support the students' writing skills at tiered levels of writing proficiency. Monolingual teachers and ENL teachers will collaborate to compare and contrast the criteria of the NYSESLAT Writing Rubric and the HMH Writing Rubric and develop a school-created version that incorporates all criteria within one comprehensive writing rubric that will be used by all teachers, across classrooms, school-wide. Teachers will engage in engage in intervisitations, with a focus on student engagement and student to student discussions, within the math curriculum.

School leaders will leverage the Advance system of evaluation and professional support, focusing on components 1a, 1e, 3b, 3c, and 3d.

SLT stakeholders and ILT stakeholders will participate in analyses of external data and survey data, related to students' ELP progress and performance, reflecting on CEP Priority 3 action plan implementation and outcomes to determine successes, challenges, and next steps.

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Primary Structures for Implementation Monitoring for Priority 3
Monthly ILT (Instructional Leadership Team) meetings focus on updating status of CEP action plan activities for Priority 3, with successes, challenges, and next steps.

Supervisory meetings focus on updating status of Advance Teacher MOTP ratings, feedback, support, and next steps.

Weekly Teacher Team meetings focus on cycles of looking at student work, data inquiry, and collaborative pedagogical practices, with self-reflections and revisions to lesson planning and classroom instruction.

Monthly School Leadership Team (SLT) meetings follow the NYC DOE recommended calendar of SLT activities and participate in shared analysis of the school's CEP progress monitoring for this priority. SLT agendas, sign sheets, minutes, and shared documents will be uploaded to the CEP.

Rolling agendas, minutes, and attendance are reviewed and feedback to teacher teams is provided by school leaders.

Teacher PD reflection forms are collected and results used to influence next PD steps.

Data-driven discussion protocols memorialize progress monitoring results.

Stakeholder surveys/questionnaires/interviews are conducted to elicit multiple perspectives related to math curriculum and instruction and English language proficiency.

Priority 3 data to be collected and analyzed include the following: i-Ready Math Diagnostic Assessments; Acadience Math Screeners; NYS Math exam results; Advance observation reports; teacher and staff PD surveys/questionnaires/reflections; core curriculum unit math assessments; NYSESLAT exam results; MOCK NYSESLAT writing assessments;

Priority 3 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/19/2025	06/19/2026	Monthly parent workshops focusing on equity and empowering students to engage in conversation with peers related to culturally relevant topics and texts, with particular emphasis within the content area of mathematics.	n/a
09/19/2025	06/19/2026	Daily/weekly highlights on ClassDojo to families celebrating culturally relevant experiences and students pursuing identity, skills, criticality and intellect.	n/a
09/19/2025	06/19/2026	Math Parent Workshops, focusing on math vocabulary and math strategies that include multiple entry points for students to facilitate productive math discussions.	n/a

Priority 3 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Parent Coordinator, Coach, Consultants

Instructional Resources

instructional; materials, consumable supplies, technology, as needed

Schedule Adjustments

n/a

Other Resources Needed

per session, per diem, training rate

Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security

Priority 4 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
As of May 2025, all students in grades K- 5 participated in two Authentic Learning Task (ALT) units of study throughout the year	The school is ready to expand the number of Authentic Learning Task (ALT) units of study implemented	There is a need to provide sustained professional development to support CCR unit/lesson planning and implementation

	throughout the year.	
Teachers reported in the 2024-25 NYC School Quality Guide Survey measure Classroom Behavior that 66% of the teachers reported that the students in our classes "respond to challenging questions in class." The 2024-25 School Quality Guide survey measure Quality of Student Discussion reflects that 76% of teachers reported that the students use data or text reference to support their ideas.	Teachers have not consistently emphasized rigor, engagement, and development of students' higher order, critical thinking skills and executive functions in daily lessons.	Teachers need to plan and implement challenging questions and tasks on a daily basis, across all content areas and provide scaffolds and supports to engage all students with multiple entry points and enhance structures for students to use data or text reference to support their ideas to increase quality of student discussion and work products.
2024-2025 Advance teacher observations system measures DFT 3c Engaging Students in Learning reflects that 96% of the teachers rated at least effective or highly effective in this component.	Newly hired teachers and new teachers to the grade may have a limited range of pedagogical approaches to the discipline or to the students.	The school needs to provide sustained professional development to strengthen teachers' capacity to plan and implement strategies to expand students' executive functions and higher order thinking skills.

Priority 4

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for **college and career readiness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for College and Career Readiness

- Expand career pathways and work-based learning, opportunities for early college credit and industry credentials, and college/career advising and awareness, including via the Career Readiness Modern Youth Apprenticeship and FutureReadyNYC (as applicable)
- Schools serving students in early childhood, elementary, and middle school settings should consider how they expose students to and prepare them for advanced (Regents-level) coursework, Specialized High School Admission Test (SHSAT) preparation, college awareness, career studies, etc.
- Integrate historical and contemporary contributions of culturally diverse professionals, scholars, and entrepreneurs into career readiness programs, ensuring students see diverse pathways to success
- Incorporate lessons on wealth-building strategies, cooperative economics, and financial independence to equip students with tools for long-term economic security
- Ensure the implementation of specialized support programs tailored for Students in Temporary Housing and/or Foster Care, addressing their unique educational needs and challenges

Priority 4 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	xx	32K151 will address Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security with the following SMART Goal: By June 2026, the percentage of teachers who receive an overall MOTP rating of Effective or Highly Effective in component 3c will increase by 5%, from 89% to 94%, as measured by Advance.

Priority 4 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 4 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Enhancing and Expanding College and Career Readiness through rigor, engagement, and development of students' higher order, critical thinking skills and executive functions

Root Cause Addressed:

Teachers have not consistently emphasized rigor, engagement, and development of students' higher order, critical thinking skills and executive functions in daily lessons

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Teachers will embed the teaching of “systems” of the world within units of study. For example...there is often a unit on transportation in elementary school. An interactive activity, such as “Careers on Wheels” can highlight different jobs related to transportation (car dealer, truck driver, taxi/bus driver, train conductor, auto repair, race car driver, etc.) Students can get an understanding of how wide range of careers are connected with what they are learning in school.
Professional development workshops will be conducted on a monthly basis to support teachers in providing appropriate CCR-related strategies within the classroom learning environment, on a daily basis.
School leaders will leverage Advance system to evaluate teachers’ pedagogical performance in component 3c: Engaging Students in Learning.

The school will administer student interest surveys at least 3 times per year and results will be analyzed and shared with stakeholders to determine possible CCR-focused enrichment clubs (for lunch time, after-school, during the day), based on the student interest surveys.
School leaders will participate in teacher team meetings and provide actionable feedback and resources to support the development of CCR units of study. Teacher teams will engage in intervisitations and debriefing sessions with a focus on student engagement in learning with challenging questions and tasks.
SLT stakeholders and ILT stakeholders will participate in analyses of external data and survey data, related to college and career readiness, reflecting on CEP Priority 4 action plan implementation and outcomes to determine successes, challenges, and next steps.

Key Strategy 2 (Optional):

n/a

Root Cause Addressed:

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Primary Structures for Implementation Monitoring Priority 4 include:
Rolling agendas, minutes, and attendance are reviewed and feedback to teacher teams is provided by school leaders.

Teacher PD reflection forms are collected and results used to influence next PD steps.

Data-driven discussion protocols memorialize progress monitoring results.

Weekly Supervisory Cabinet meetings include updates on Advance observations, with discussion of normed ratings, feedback, and supports provided to teachers.

Stakeholder surveys/questionnaires/interviews are conducted to elicit multiple perspectives related to Priority 4 CCCR initiatives.
Outcomes include:
Priority 4 data to be collected and analyzed include the following: Advance observation reports; teacher and staff PD surveys/questionnaires/reflections; school-created CCR Initiatives/Activities/Events Tracker

Priority 4 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/19/2025	06/19/2026	Quarterly parent workshops focused on Next Generation Learning Standards in ELA and new ELA curriculum, HMH, with connections to college and career readiness.	n/a
09/19/2025	06/19/2026	Monthly parent notices by students via video recording in both English and Spanish to invite parents to schoolwide, grade level and class events related to ELA curriculum and instruction, with connections to college and career readiness.	n/a
09/19/2025	06/19/2026	Monthly parent/family newsletters, highlighting the school's college and career readiness initiatives and activities	n/a

Priority 4 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

Priority 5 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
As of May 2025, from September 2024 through May 2025, the Parent Coordinator Activity Report (PCAR) reflects the following: 737 phone consultations 1,039 walk-in consultations 76 workshops conducted 1,911	Parents who have effectively used phone consultations to address their concerns may not	There is a need to continue creating parent/family workshops on topics

parents/families attending workshops 581 parents/families attending parent-teacher conferences	have felt the urgency of attending in-person meetings or events	that parents indicate would be beneficial to them and encourage increased participation in workshops that are offered.
The 2024-2025 New York City School Quality Guide Parent Panorama Survey reflects the following responses related to Parent Involvement: "Since the beginning of the year how often have you communicated with your child's teachers about your child's performance?" Favorable 94% "Since the beginning of the school year, how often have you...seen your child's projects, artwork, homework, tests, or quizzes?" Favorable 94% "I know how to contact the parent coordinator at my child's school." Favorable 96% "During the school year, have you...attended a general school meeting or school event (virtually or in-person)?" Favorable 97%	Parents' trust and positive/favorable perceptions about the school's capacity to provide quality education for their children, in general, may contribute to a slightly lower degree of participation in opportunities to strengthen instructional strategies to support all students' academic progress and performance.	The school needs to continue its successful efforts in engaging parents and families as partners and collaborate with families on how to deepen the positive school-family connections towards the continuous improvement of students' academic outcomes in reading and in math.
The 2024-2025 New York City School Quality Guide Parent Panorama Survey reflects the following responses related to Outreach to Parents: "School staff regularly communicate with me about how I can help my child learn." Favorable 97% "Teachers work closely with me to meet my child's needs." Favorable 96% My child's school will make me aware if there are any concerns about my child's social or emotional well-being. Favorable 97%	School staff may not have consistently connected their communications with families directly and/or explicitly with students' actual academic outcomes and/or their social-emotional well-being.	The school needs to refine the systems and structures for ensuring effective, ongoing, regular communication between staff and families, including connecting students' academic outcomes and social-emotional well-being with the communication that is occurring.

Priority 5

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for parent, family, community and system responsiveness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Focus Areas for System Responsiveness to Parents, Families and Communities

- Engage more deeply with families to understand their needs and plan new, high-quality programs
- Build community trust and bolster engagement, including via improved language access and increased family engagement and participation
- Implement the newly updated NYCPS School Wellness Policy, which provides a framework for all members of the school community, including families and students, to come together and assess and coordinate wellness efforts for their community
- Implement and lead strategies that support community involvement and increase Minority and Women Owned Business Enterprises (MWBE) utilization

Priority 5 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Parents of All Students	xx	32K151 will address Priority 5: All districts and schools are more inclusive and responsive for Parents of All Students with the following SMART Goal: By June 2026, the percent of favorable parent responses to prompt # 1, related to Strong Relationships, "I feel good about the way that my child's teachers helped my child adjust to their program. [Birth-5]," will increase by 5%, from 90% to 95%, as measured by NYC Panorama Parent/Family Survey..

Priority 5 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 5 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Engaging parents and families as partners and collaborate with families on how to deepen the positive school-family connections towards the continuous improvement of students' academic outcomes in reading and in math.

Root Cause Addressed:

Parents' trust and positive/favorable perceptions about the school's capacity to provide quality education for their children, in general, may contribute to a slightly lower degree of participation in opportunities to strengthen instructional strategies to support all students' academic progress and performance.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Collect and analyze data from parents using the In-house Parent Survey using Google Forms that mimic the NYC School Survey questions for "Strong Relationship" at least 3 times during the year.
Monthly calendar of planned events will continue to be developed, based on parents' input and feedback about previous events and shared with the school community in multiple languages and schedules of events that are responsive to families' schedules. Meetings will be recorded for families who cannot attend to access information at their convenience School will continue to offer a range of incentives to increase parent participation and attendance at school-wide meetings and events.
School will offer a range of incentives to increase parent participation and attendance at school-wide meetings and events. School will leverage an assets-based approach through the school's effective messaging apps, website,

newsletter, social media platforms to advertise meetings and events, with advance notification and timely reminders.
School leaders, parent coordinator, and PTA/PA leaders will create a committee to explore and deepen understanding about parent participation in school-wide events/meetings to develop strategies to improve parents' engagement and participation in school-wide events/meetings. Parent coordinator will leverage NYC DOE and district resources to support the school's family empowerment initiatives. Parent Coordinator and key family empowerment committee members will conduct a series of family surveys and questionnaires to continually elicit and monitor parent input and feedback, related to improving family engagement, including the use of translation and interpretation services in the languages represented in the school community.
SLT members and other stakeholders will reflect and evaluate the effectiveness of the CEP action plan activities related to redesigning the system to be more inclusive and responsive to families and incorporate feedback and input and plan revisions, as deemed necessary by consensus of constituents.

Key Strategy 2 (Optional):

n/a

Root Cause Addressed:

n/a

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Primary Structures for Implementation Monitoring Priority 5 include:
Rolling agendas, minutes, and attendance are reviewed and feedback to SLT is provided by school leaders.

Data-driven discussion protocols memorialize progress monitoring results.

Stakeholder surveys/questionnaires/interviews are conducted to elicit multiple perspectives related to parent/family engagement.

Parent Coordinator Activity Report (PCAR) and parent workshop attendance results are reviewed and shared with PTA and SLT to determine next steps.

Priority 5 data to be collected and analyzed include the following: Parent Coordinator Activity Report; parent workshop/meetings/events attendance; parent/family surveys, questionnaires, interviews; teachers' parent/family engagement logs

Priority 5 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/19/2025	06/19/2026	Parent interest surveys, announcements via flyers and class dojo	n/a
09/19/2025	06/19/2026	Monthly parent workshops, parent and student academic events	n/a
09/19/2025	06/19/2026	Monthly parent wellness workshops	n/a

Priority 5 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Parent Coordinator, CBO vendors

Section 5: Attendance/Chronic Absenteeism

Attendance/Chronic Absenteeism Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
As of October 2025, New Visions Portal reflects the following: All Students- 96% of 269 students Year to Date Attendance SWIs-96% of 41 students Year to Date Attendance ELLs- 96% of 94 students Year to Date Attendance Level 1 Severely CA-72% of 269 students YTD Attendance Level 2 CA-85% of 269 students YTD Attendance Level 3 At Risk CA- 92% of 269 students YTD Attendance Level 4 Not at Risk- 99% of 269 student YTD Attendance	The school has not placed sufficient focus on addressing parents' historical mindset concerning the importance of consistent attendance and how it relates to academics.	There is a need to provide family workshops to emphasize the connection between attendance and achievement.
As of October 2025, New Visions Portal reflects the following: All Students- 12% of 269 students CA Chronic	While the systems and structures for one on one conferences have	The school needs to continue to refine the systems and structures for

Absentee SWIs-10% of 41 students Chronic Absentee ELLs-11% of 94 students	been instituted, the changing societal landscape demands correlating updates to conversations.	one on one conferences with families related to the importance of attendance.
As of October 2025, New Visions Portal reflects the following: Students living in a shelter: 93% of 13 students YTD Attendance 23% of 13 students CA Students living in temporary housing: 96% of 87 students YTD Attendance 10% of 93 students CA Students living in doubled up situation: 97% of 67 students YTD Attendance 7% of 67 students CA	Teachers have not received sufficient training in promoting positive ways to help students cope with stress and the ways to prevent and address it, especially for students living in temporary housing situations.	Ongoing professional development needs to be offered to teachers to promote positive ways to help students cope with stress and the ways to prevent and address it, especially for students living in temporary housing situations.

Attendance/Chronic Absenteeism

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal aligned to our systemwide focus on improving attendance and **reducing chronic absenteeism**.

Systemwide Focus Area for Attendance/Chronic Absenteeism: Develop and implement strengthened practices to improve attendance, combat chronic absenteeism and center equity. Note: For ESSA accountability purposes, NYSED will replace the Chronic Absenteeism indicator with the Attendance indicator, beginning in the 2025-26 school year. Learn more about the new Attendance indicator by reviewing this Fact Sheet.

Attendance/Chronic Absenteeism SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	xx	By June 2026, the percentage of all students in grades K-5 with Year to Date Attendance of 90.1% or higher will increase by 5%, from 85% to 90%, as measured by New Visions Portal Attendance Report.

Attendance/Chronic Absenteeism Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Attendance/Chronic Absenteeism Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Attendance Improvement connected to Student Achievement

Root Cause Addressed:

The school has not placed sufficient focus on addressing parents' historical mindset concerning the importance of consistent attendance and how it relates to academics

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
The Attendance Team consisting of designated school staff, such as parent coordinator, social worker, guidance counselor, teachers, STH coordinator, use attendance data to inform the development of a system to reward students with 100% attendance and improvement in attendance rate. The Attendance Committee will share strategies for improving attendance and attendance data with Instructional Leadership Team. The Attendance Committee will then plan to communicate effective strategies for improving attendance of chronically absent students with all staff at professional meetings and through newsletters/emails. The attendance committee will work with families to engage the support of outside agencies to address barriers that are beyond the school's capacity. Teachers will call the home of each student who is not in attendance each day. Staff members will meet daily with students to check-in and encourage regular school attendance. The Attendance Team will review the RSSA report weekly to identify students who have been chronically absent or who are at risk of being chronically absent. The Attendance Team introduces a student reward system to improve attendance rate and promote 100% attendance. The Attendance Team will develop routine of weekly collection and review of classroom and school-level attendance and chronic absence data at the weekly meeting, tracking interventions, and making adjustments, as needed.

School staff will implement individualized attendance plans to address barriers to school attendance.

The school will administer at least 3 student interview experiences in order to elicit the students' perceptions and opinions about school in order to encourage and support their best attendance. The school leaders will share these results with stakeholders throughout the school community to inform next steps on behalf of the students and including the students in changes and developments for the future, giving them opportunity for agency, input, and engagement.

Teachers and other school staff will engage in parent outreach by phone, email, and use of school communication messaging systems to communicate concerns regarding attendance and collaborate with parents to support in improving attendance. The parent coordinator and Attendance Team will send out letters to the families of students who are identified with five or more absences to help families set targeted attendance goals to reduce chronic absenteeism. Appropriate outreach efforts will be made to families living in temporary housing to ensure that families living in temporary housing are provided with the logistical information and supports needed to ensure students attendance such as transportation passes for students and parents, most convenient shelter options, schedules, and relevant MTA schedules.

Principal will host monthly breakfasts with parents to build trusting relationships, supporting families' level of comfort and willingness to share confidential, accurate and personal information necessary to improve students' attendance. School nurse will coordinate with medical doctors to arrange examinations, screenings and follow up visits for students with chronic health conditions, such as asthma and childhood diabetes. School nurse and parent coordinator will plan, organize and implement a school-wide Health fair to highlight healthy living, preventative care and medical information to students and families.

The school will conduct a series of PD opportunities for school staff to communicate the connection, with data that has been collected and analyzed, between increasing attendance and instructional time with academic performance. Teachers will be trained in differentiated activities and supports to target students who are chronically absent. This includes the process for referring students and families for additional personalized services, as needed. Teachers will differentiate activities and supports to target students who are chronically absent and refer students and families to additional services, as needed.

Key Strategy 2 (Optional):

Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities

High Quality Inclusive & Accessible Learning for Students with Disabilities Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs (NYCPS Systemwide Needs for all schools noted below.)
The 2024-25 IEP Review Dashboard reflects that 63% of the IEPs have statements describing parent/family's vision of success for the student (Question 16 C), and priorities expressed by the parent/family reflected in the IEP (Question 16 D). 2025 NYC DOE Panorama School Survey: families data indicates that	The IEP team's limited incorporation of family voice and perspective has resulted in plans that	IEP Development and Fidelity of Implementation

97% of respondents expressed that their child's teacher treats them as a partner in educating their child which was 1 percentage points greater than the result for the same question in NYC School Survey 2024. (Parent-Teacher Trust) 2025 NYC DOE Panorama Teachers/ Staff Survey data indicates that 94% of teachers and staff regularly communicate with families about how they can help students learn. This percentage is 1 point greater than the NYC School Survey 2024.	may not fully address the students' unique needs, interests, and learning styles.	
n/a	n/a	Transition Planning and Compliance
n/a	n/a	Referral Process and Equity
n/a	n/a	Equity in School Discipline
The 2024-2025 IEP Review Dashboard reflects that 37.5% of the IEPs have clear and specific explanations of how the unique needs of the individual student compare to the demands of the general education standards and curriculum (Question 22c). 2025 NYC DOE Panorama Teachers/ Staff Survey data indicates that 94% of the teachers are able to design appropriate instruction that is matched to students' needs (e.g. English Language Learners (ELLs) or Emergent Multilingual Learners (EMLLs) proficiency and students with disabilities). This value is 4 percent greater than the result for the same question in NYC School Survey 2024.(Cultural Awareness and Inclusive Classroom Instruction)	New Teachers and teachers working for less than three years have not had adequate professional development related to understanding the SWI classifications and providing explicit instruction to meet their unique needs.	Teachers need professional learning to develop appropriate individualized Education Plans for students with disabilities that identify the missing skills and the unique needs that impact the student's ability to access, participate and progress within the general education curriculum.
The 2024-25 SY, Special Education monthly compliance data suggests that in November 2024, 13.9% IEPs had progress reported towards measurable annual goals in SESIS.(Question 30G)) In May, 2025, 93.8% IEPs had progress reported towards Annual Goals in SESIS. (Question 30G) 2025 NYC DOE Panorama Teachers/ Staff Survey data indicates that 95% of teachers are able to monitor progress on individualized Education Programs goals for my students with disabilities. This value is 1 percentage point lower than the result for the same question in NYC School Survey 2024.	Teachers needed additional time, tools, and guidance around how to conduct the progress monitoring of the students' IEP goals in SESIS to modify instruction and strategies to enhance student engagement, equitable access to learning, and meaningful participation in the educational environment.	Teachers needed additional time, tools, and guidance around how to conduct the progress monitoring of the students' IEP goals in SESIS to modify instruction and strategies to enhance student engagement, equitable access to learning, and meaningful participation in the educational environment.

High Quality Inclusive & Accessible Learning for Students with Disabilities

Directions: After conducting a comprehensive needs assessment by analyzing school data trends including IEP Review Surveys; exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop outcome-focused SMART goals for identified priority need(s) and the relevant systemwide focus areas for **High Quality Inclusive & Accessible Learning for Students with Disabilities** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Inclusive and Accessible Learning for Students with Disabilities:

- IEP Development and Implementation
- Transition Planning and Compliance
- Referral Process and Equity
- Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Students with Disabilities (SWD)	93.8%	By June, 2026, to strengthen the quality and implementation of IEPs for Students with Disabilities (SWD), we will improve increasing the percentage of IEPs with progress monitoring toward student goals in SESIS by a 3.2% Increase, from 93.8% to 97%, as measured by Monthly Special Education Compliance Data Report.

High Quality Inclusive & Accessible Learning for Students with Disabilities Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

High Quality Inclusive & Accessible Learning for Students with Disabilities Action Plan

Key Strategy 1 (Required):

Teachers will be provided professional development on reporting progress monitoring of the IEP goals in SESIS.

Root Cause Addressed:

New teachers need guidance around how to complete the progress monitoring of the students' IEP goals.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Monthly special education vertical teacher team meetings will be held
Teachers with the special education license will be given time during the vertical meetings to collaborate with their peers to brainstorm the strategies to meet students' individual needs.
Teachers will be given professional development to learn how to complete the progress monitoring of annual goals in SESIS.
Special Education Liaison will communicate the timeline of completing the progress monitoring in SESIS with the teachers.
Develop appropriately rigorous standards-aligned annual goals based on the progress monitored.

Key Strategy 2 (Optional):

n/a

Root Cause Addressed:

n/a

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Primary structures to progress monitor implementation of key strategies and action steps for this Priority include:

Utilize the 32K151 Special Education Monthly Compliance Report to monitor and track the percentage of IEPs where teachers have documented progress toward students' annual IEP goals in the Special Education Student Information System (SESIS).

IEP Review Dashboard Question 30 G (All/ Some/No Annual Goals have progress reported in SESIS).

High Quality Inclusive & Accessible Learning for Students with Disabilities Family and Community Engagement

Family and Community Engagement

Directions: Indicate the multi-tiered supports (strategies & activities) that will be implemented to support and engage families (including foster parents, birth parents, and families with limited English proficiency) and plans for community collaboration in the implementation of this action plan, surrounding the four priority needs. Include:

1) a description of the school's supports and processes for students with disabilities;
2) a coherent mechanism is implemented for updating families on their child's progress towards measurable annual and post-secondary transition goals;
3) a procedure to ensure families are involved during decision-making for IEP development and implementation.

Start Date	End Date	Multi-tiered Supports to Engage Family & Community	Partners/CBOs Leveraged
09/09/2025	06/26/2026	parent workshops focused on the IEP process and the elements of quality IEP documents.	n/a
09/09/2025	06/26/2026	Sending progress reports home three times a year when the report cards are given out.	n/a

High Quality Inclusive & Accessible Learning for Students with Disabilities Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Schools are encouraged to think critically and strategically when considering resources that can support progress towards CEP goals for students with IEPs. This includes utilizing Title I funding for at-risk speech and/or counseling services, all-staff training in supporting students with autism, sensory materials, summer institute geared at the development of executive functioning skills, and/or inclusion coaching support. Schools may also consider utilizing Title II funds to reduce the ratio of students with IEPs to typically developing peers in ICT classes.

Human Resources:

Parent Coordinator, IEP/SWI Teacher Liaison

Instructional Resources

Instructional materials, consumable supplies, technology

Schedule Adjustments

coverages, as needed

Other Resources Needed

per session, per diem, training rates, as needed

Section 6: Multi-Tiered Systems of Support (MTSS)

Academic Support

NYCPS Multi-Tiered Systems of Support (MTSS) align with NYSED guidelines for providing Academic Intervention Services (AIS) to students who have not yet met state standards or are considered to be at-risk of not meeting state standards. The Multi-tiered Systems of Support (MTSS) framework, organizes **supports** into three tiers:

Tier 1 provides schoolwide, high-quality programming for all students, including SWDs;

Tier 2 offers data informed small-group interventions for at-promise students; and

Tier 3 delivers intensive, individualized support for students with persistent needs.

This facilitates the strategic planning and necessary resource alignment to ensure their school community appropriately and adequately serves all students well, in partnership with students and families.

MTSS identifies the academic support services to be provided and ensures that students receive Response to Intervention (RtI) and Positive Behavioral Interventions and Support (PBIS) strategies as needed. See NYSED's memo to view the criteria for determining AIS services. The Supportive Environment Framework (SEF) offers a wide range of evidence-based Tier 2 and Tier 3 interventions and supports for student social-emotional, behavioral, physical and mental wellness, with particular attention to the unique needs of students in Temporary Housing and/or Foster Care, who may face additional challenges related to school stability, trauma and access to educational resources. A culturally responsive-sustaining approach to intervention embeds culturally relevant texts and historical narratives into literacy and social studies interventions, ensuring students receive the support that reflects their identities and lived experiences, increasing engagement and achievement.

Use the charts below and a Multi-Tiered System of Support (MTSS) to match academic, social/emotional, behavioral and instructional resources with student needs to provide targeted support for all learners, especially at-risk students who experience difficulty meeting state standards, including those living in Temporary Housing and/or residing in Foster Care placements. Indicate specialized materials, technology-based tools and/or extra instruction, including Expanded Learning Time that supplement school-wide systems & supports and/or classroom level supports. Ensure that interventions address the unique social-emotional, behavioral and academic challenges faced by culturally and linguistically diverse students, as well as those impacted by housing instability and child welfare system involvement.

Directions: Complete the chart and identify Tier 2 or 3 MTSS Academic supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Academic Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Academic Support Tier 2	1 year below level i-Ready reading assessments	strategy ELA lessons	small group	during the day and after school	no
Academic Support Tier 2	1 year below level i-Ready math assessments	strategy math lessons	small group	during the day and after school	no
Academic Support Tier 3	2 or more levels below i-Ready reading assessments	Conferring/ i-Ready targeted reading strategy lessons	individual	during the day and after school	yes
Academic Support Tier 3	2 or more levels below i-Ready math assessments	Smarty Ants/ i-Ready targeted math strategy lessons	individual	during the day and after school	yes
Academic Support Tier 3	3 or more levels below i-Ready reading assessments	conferring/Achieve 3000	individual	during the day	yes
Academic Support Tier 3	3 or more levels below i-Ready math assessments	conferring	individual	during the day	no

Student Social/Emotional Support

Directions: Complete the chart and identify Tier 2 or 3 MTSS Student Social/Emotional supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Student Social/Emotional Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Social Emotional Support Tier 2	Teacher recommendations/anecdotal reports/class removals, suspensions	At-risk Counseling	small group	during the day	no
Social Emotional Support Tier 3	Guidance Counselor recommendation / class removals / suspensions	Mandated Counseling	individual 1:1	during the day	no
Social Emotional Support Tier 2	DESSA competencies reflecting areas of need for instruction	teacher-facilitatedstudent to student support groups	small group	during the day	no

Family and Community Engagement Around MTSS

Describe how the school's essential components of MTSS are shared with families.

The school's essential components of MTSS are shared with families through parent/family workshops, parent/family newsletters and through individual parent-teacher conferences. The school's website also features a description of the Tier 2 and Tier 3 academic and social-emotion intervention supports that the school provides.

Describe how families receive updates on the progress of their child(ren) who receive Tier 2 targeted, or Tier 3 intensive interventions.

Families receive updates on the progress of their child(ren) who receive Tier 2 targeted or Tier 3 intensive interventions through individual parent-teacher conferences and student progress reports.

Describe how families are involved during decision making regarding the progress of students receiving Tier 3 intensive intervention.

Families are involved during decision-making regarding the progress of students receiving Tier 3 intensive interventions through on-going interactions, focused on the students' progress reports, Teachers and/or support staff discuss next instructional steps and/or next social-emotional supports with parents/families to engage them, elicit their feedback, and follow up with home activities that parents/families can implement to reinforce the school's supports.

Students in Temporary Housing (STH) Support

As included in your school's Office of School and Youth Development Consolidated Plan-STH Section and in accordance with the federal McKinney-Vento Homeless Assistance Act and Chancellor's Regulation A-780, schools must identify, serve, and report on students living in temporary housing (STH). All Title I and non-Title I schools receive a Title I allocation for STH students. The Students in Temporary Housing (STH) website provides guidance on STH pupils and how these funds can be used to meet their needs, as well as restrictions. For more information on acceptable uses of the mandated Title I, Part A set-aside to support your STH population, please refer to the Title I STH Funds Toolkit.

Identify the number of Students in Temporary Housing who are currently attending your school and provide a breakdown of their temporary housing status. Since the number of STH children can change regularly, schools must carefully track this number to determine whether there has been an increase in need.

Number of students in temporary housing who are:

- Doubled up (with friends or relatives because they cannot find or afford housing):
- Living in a shelter or transitional shelter:
- Living in a hotel/motel:
- Other

*Note: In keeping with established practices regarding personally identifiable information, use the letter "s" to identify a number less than five (5).

There are 93 students in temporary housing this year.
There are 13 students living in a shelter.
There are 73 students living in Doubled-Up housing.
There are "s" students living in hotel/motel.

After a careful analysis of historical demographic, attendance and achievement data for your STH population, what trends do you notice, and how can these trends inform the services and support provided for this population?

As of spring 2025, New Visions Portal reflects the following academic data:
The spring 2024 New York State ELA exam reflects the following data:
4% of 24 STH students scored proficient on the spring 2024 New York State ELA exam
28% of 29 students STH students scored proficient on the spring 2024 New York State Math exam

5% of 21 students students living in doubled up situation scored proficient on the spring 2024 New York State ELA exam
30% of 23 students students living in doubled up situation scored proficient on the spring 2024 New York State Math exam

0% ("s" students) students living in a shelter scored proficient on the spring 2024 New York State ELA exam

0% ("s" students) students living in a shelter scored proficient on the spring 2024 New York State Math exam

As of May 2025, New Visions Portal reflects the following EOY Acadience Reading Screener data:
for Housing Insecure students:
Above Benchmark-9 students
At Benchmark-7 students
Below Benchmark-6 students
Well Below Benchmark-20 students
No Data-51 students

for students living in Shelter:
Above Benchmark--0 students
At Benchmark-2 students
Below Benchmark-2 students
Well Below Benchmark-3 students

No Data-50 students

As of May 2025, New Visions Portal reflects the following EOY i-Ready Reading Diagnostic Assessment data:
for Housing Insecure students:
Mid or Above Grade level- 10 students
Early On Grade Level- 6 students
1 Year Below Grade Level- 22 students
2 Years Below Grade Level- 6 students

3 or More Years Below Grade Level- 16 students

for students living Doubled-Up
Mid or Above Grade level- 8 students
Early On Grade Level- 3 students
1 Year Below Grade Level- 18 students
2 Years Below Grade Level- 4 students
3 or More Years Below Grade Level- 13 students

for students living in a Shelter:
Mid or Above Grade level- 1 student
Early On Grade Level- 2 students
1 Year Below Grade Level- 3 students
2 Years Below Grade Level- 1 student
3 or More Years Below Grade Level- 2 students

As of May 2025, New Visions Portal reflects the following EOY i-Ready Math Diagnostic Assessment data:
for Housing Insecure students:
Mid or Above Grade level- 15 students
Early On Grade Level- 11 students
1 Year Below Grade Level- 28 students
2 Years Below Grade Level- 5 students
3 or More Years Below Grade Level- 6 students

for students living Doubled-Up
Mid or Above Grade level- 12 students
Early On Grade Level- 9 students
1 Year Below Grade Level- 23 students
2 Years Below Grade Level- 4 students
3 or More Years Below Grade Level- 6 students

for students living in a Shelter:
Mid or Above Grade level- 3 student
Early On Grade Level- 0 students
1 Year Below Grade Level- 5 students
2 Years Below Grade Level- 0 students
3 or More Years Below Grade Level- 0 students

As of spring 2025, New Visions Portal reflects the following attendance data:
YTD Attendance for students living in temporary housing is 94% of 93 students.
Chronic Absenteeism rate for students living in temporary housing is 19% of 93 students.

YTD Attendance for students living in a shelter is 90% of 13 students.
Chronic Absenteeism rate for students living in a shelter is 38% of 13 students.

YTD Attendance for students living in doubled up situation is 95% of 73 students.
Chronic Absenteeism rate for students living in doubled up situation is 15% of 73 students.

The demographic, attendance, and achievement data for these students will be shared with relevant teams, comprised of all stakeholders, to collaboratively determine supports and services to be provided to this student population. Community-Based Organization partners will be involved in shared decision-making to support these

students.

Describe the services you are planning to provide to the STH population. How were those services selected to best meet students' needs? How will you (or did you) utilize the STH Title I Survey to select services aligned to need?

Based on the STH Title I Parent Survey and school leadership determination, the school may provide resources and services, as needed, from the following allowable expenditures:

1. Items of clothing and shoes necessary for participation in classes
2. Student fees that are necessary to participate in the general education program
3. Personal school supplies such as backpacks, notebooks, and remote learning devices such as internet and/or laptop/tablet
4. The acquisition of birth certificates
5. Immunizations
6. Food
7. Medical and dental services
8. Eyeglasses and hearing aids
9. Counseling services related to homeless issues that are impeding learning
10. Outreach services
11. Extended learning time (before and after school, Saturday, summer)
12. Extra-curricular activity fees
13. Tutoring services, especially in shelters or other locations where homeless students are residing
14. Parental involvement
15. Fund all or part of the homeless liaison's salary even if that person has no Title I duties.
16. Transporting students in temporary housing to and from their school of origin.

Prioritizing Students in Foster Care

As included in your school's Office of School and Youth Development Consolidated Plan-Child Child Abuse and Neglect Intervention and Prevention School Plan and in accordance with the federal Education Law 3244 – Education of Children in Foster Care (Effective 2018) establishes the rights of students placed, or moved, in foster care to:

- Continue attending school of origin if determined to be in their best interest, or, if not, attend school near foster care placement,
- Immediate enrollment, and
- Transportation, if necessary to attend school of origin

Please respond to the questions below.

How many students in foster care are currently enrolled at your school? Provide a detailed breakdown of the social-emotional and academic supports available to them.

There are no students in foster care currently enrolled in the school.
The following social-emotional and academic supports would be available to them:

- Trauma-informed counseling by school psychologist, social worker, guidance counselor.
- SEL Sanford Harmony-related small groups or one-on-one sessions
- SEL Ruler-related small groups or one-on-one sessions
- Restorative Circles small groups
- Reading i-Ready individualized lessons, based on students' i-Ready reading data
- Math I-Ready individualized lessons, based on students' i-Ready math data

What targeted supports are in place for students in foster care, including those newly transitioning into the foster care system? How does your school ensure these students receive the necessary interventions to promote stability and success?

Targeted supports that would be in place for students in foster care, including those newly transitioning into the foster care system, include the following:

- Building trust and rapport with consistency with reliable figures for mentoring
- Showing empathy and understanding
- Creating supportive learning environments with culturally-responsive materials and pedagogical practices
- Getting to know students as individuals, learning about their backgrounds, interests, and challenges through one on one co-generative dialogues or conferences
- Promote students' positive identity, sense of self through celebrations of students' accomplishments and strengths
- Establish and reinforce clear expectations and boundaries with student-friendly handbooks

The school would ensure that these students receive the necessary interventions to promote stability and success

through:

- Advocacy for students in foster care
- On-going collaboration with foster parents and case workers
- CBO and/or school support staff provide professional development to all staff, focusing on educating staff about foster care
- School leaders follow up through supervisory cabinet meetings to track and monitor the progress of students in foster care and ensure that targeted supports are being provided to them

After analyzing historical demographic, attendance, and achievement data for students in foster care, what trends have emerged? How can these insights be used to improve the services and support provided to this population?

n/a

What specific strategies does your school implement to ensure students in foster care, particularly those in transitional grades, receive targeted Social-Emotional Learning (SEL) support? How do these strategies help address academic and behavioral challenges?

The school would implement the following specific strategies to ensure students in foster care, particularly those in transitional grades, receive targeted Social-Emotional Learning (SEL) support:

- Building trust and rapport with consistency with reliable figures for mentoring
- Showing empathy and understanding
- Creating supportive learning environments with culturally-responsive materials and pedagogical practices
- Getting to know students as individuals, learning about their backgrounds, interests, and challenges through one on one co-generative dialogues or conferences
- Promote students' positive identity, sense of self through celebrations of students' accomplishments and strengths
- Establish and reinforce clear expectations and boundaries with student-friendly handbooks
- Advocacy for students in foster care
- On-going collaboration with foster parents and case workers
- CBO and/or school support staff provide professional development to all staff, focusing on educating staff about foster care
- School leaders follow up through supervisory cabinet meetings to track and monitor the progress of students in foster care and ensure that targeted supports are being provided to them

These strategies would help address the academic and behavioral challenges that students in foster care may face by strengthening the students' sense of identity, self-worth, authentic achievements and recognition.

Section 7: Parent and Family Engagement Policy and School-Parent Compact

Parent and Family Engagement Policy

Directions: The Parent and Family Engagement Policy should describe how your school will plan and implement effective parent and family engagement activities and/or strategies to improve student academic achievement and school performance. The School-Parent Compact (SPC) is a component of the Parent and Family Engagement Policy (PFEP) that outlines how parents, the entire school staff, and students will share this responsibility.

The activities and/or strategies included in your school's Parent and Family Engagement Policy should align with current Comprehensive Education Plan (CEP) goals for improving student achievement and should be developed or updated with input and feedback from parent leaders and the Parent Coordinator. In addition, if the school community will be engaged in central parent engagement initiatives, such as Parent Academy, which will provide training for school communities to help strengthen family-school partnerships, please be sure to include these activities in the school's policy.

In Title I schools, the Title I Parent Advisory Council (PAC) represents the Title I parent community in supporting parent and family engagement. The Title I PAC Chairperson will serve in a consultative role with the SLT representing the school's Title I parents. Schools are encouraged to use the sample Parent and Family Engagement and SPC templates below (which meet federal Title I parent and family engagement requirements) as guidance for updating the school's current policy.

Parent and Family Engagement Policy

Educational research shows a positive correlation between effective parental engagement and student achievement. The overall aim of this policy is to develop a parent and family engagement policy that will establish expectations and objectives for meaningful parent and family engagement in the school community. 32K151, in compliance with Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is responsible for creating and implementing a parent and family engagement policy to strengthen the connection and support of student achievement between the school and the families. The school's policy is designed to keep parents informed by actively involving them in planning and decision-making in support of the education of their children. Parents are encouraged to actively participate on the School Leadership Team, Parent Association (or Parent-Teacher Association), and Title I Parent Advisory Council as trained volunteers and welcomed members of the school community.

Support for Parents and Family Members of Title I Students

32K151 will support parents and family members of Title I students by:
•providing materials and training to help parents work with their children to improve their achievement level, e.g., literacy, math and use of technology;
•providing parents with the information and training needed to effectively become involved in planning and decision making in support of the education of their children;
•fostering a caring and effective home-school partnership to ensure that parents can effectively support and monitor their child's progress;
•providing assistance to parents in understanding City, State and Federal standards and assessments;
•sharing information about school and parent related programs, meetings and other activities in a format, and in languages that parents can understand;
•providing professional learning opportunities for school staff with the assistance of parents to improve outreach, communication skills and cultural competency in order to build stronger ties between parents and other members of the school community;

Parental Involvement and School Quality

The school's Parent and Family Engagement Policy was designed based upon a careful assessment of the needs of all parents/guardians, including parents/guardians of Multilingual Learners/English Language Learners (ML/ELL), and students with disabilities. The school community, with the meaningful involvement of parents and family members, will conduct an annual evaluation of the content and effectiveness of this parent and family engagement policy with Title I parents to improve the academic quality of the school. The findings of the evaluation through school surveys and feedback forms will be used to design strategies to more effectively meet the needs of parents and family members and enhance the school's Title I program. This information will be maintained by the school.

In developing the Title I Parent and Family Engagement Policy, parents of Title I participating students, parent members of the school's Parent Association (or Parent-Teacher Association), as well as parent members of the School Leadership Team, were consulted on the proposed Title I Parent and Family Engagement Policy and asked to survey their members for additional input. To increase and improve parent involvement and school quality, the school will:
•actively involve and engage parents and family members in the planning, review and evaluation of the effectiveness of the school's Title I program as outlined in the School Comprehensive Education Plan, including the implementation of the school's Title I Parent and Family Engagement Policy and School-Parent Compact;
•engage all parents in discussion and decisions regarding the required Title I, 1% set-aside funds, which are allocated directly to the school to supplement parent and family engagement activities, including family literacy and parenting skills;
•ensure that the Title I funds allocated for parent and family engagement are utilized to implement activities and strategies as described in the school's Parent and Family Engagement Policy and the School-Parent Compact;
•support school-level committees that include parents who are members of the School Leadership Team, the Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council. This includes providing technical support and ongoing professional learning, especially in developing leadership skills;
•maintain a Parent Coordinator (or a dedicated staff person) to serve as a liaison between the school and families. The Parent Coordinator or a dedicated staff person will provide parent workshops based on the assessed needs of the parents of children who attend the school and will work to ensure that the school environment is welcoming and inviting to all parents. The Parent Coordinator will also maintain a log of events and activities planned for parents each month and file a report with the central office.
•conduct parent workshops with topics that may include: parenting skills, understanding educational accountability grade-level curriculum and assessment expectations; literacy, accessing community and support services; and technology training to build parents' capacity to help their children at home;

•provide opportunities for parents to help them understand the accountability system, e.g., ESSA/State accountability system, student proficiency levels, Annual School Report Card, School Quality Report, Quality Review Report, Learning Environment Survey Report;
•host the required Annual Title I Parent Meeting each school year to advise parents of children participating in the Title I program about the school's Title I funded program(s), their right to be involved in the program and the parent and family engagement requirements under Title I, Part A, Section 1116 and other applicable sections under ESSA;
•schedule additional parent meetings, e.g., quarterly meetings, with flexible times, such as meetings in the morning or evening, to share information about the school's educational program and other initiatives of the Chancellor and allow parents to provide suggestions;
•translate all critical school documents and provide interpretation during meetings and events as needed.

Encouraging School-Level Parental Involvement

The school will further encourage school-level parent and family engagement by:
•hosting educational family events/activities during Parent-Teacher Conferences and throughout the school year;
•encouraging meaningful parent participation on School Leadership Teams, Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council;
•supporting or hosting Family Day events;
•establishing a Parent Resource Center/Area or lending library; instructional materials for parents;
•encouraging more parents to become trained school volunteers;
•providing written and verbal progress reports that are periodically given to keep parents informed of their children's progress;
•developing and distributing a school newsletter or web publication designed to keep parents informed about school activities and student progress;
•providing school planners/folders for regular written communication between /teacher and the home in a format, and to the extent practicable in the languages that parents can understand.

School-Parent Compact (SPC)

School-Parent Compact (SPC)

32K151, in compliance with the Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is implementing a School-Parent Compact to strengthen the connection and support of student achievement between the school and the families. Staff and parents of students participating in activities and programs funded by Title I, agree that this Compact outlines how parents, the entire school staff and students will share responsibility for improved academic achievement and the means by which a school-parent partnership will be developed to ensure that all children achieve State Standards on assessments.

I. School Responsibilities: High Quality CurriculumI. School Responsibilities: High Quality Curriculum

Provide high quality curriculum and instruction consistent with State Standards to enable participating children to meet the State's Standards and Assessments by:

- using academic learning time efficiently;
- respecting cultural, racial and ethnic differences;
- implementing a curriculum aligned to the State Learning Standards;
- offering high quality instruction in all content areas;
- providing instruction by highly qualified teachers and when this does not occur, notifying parents as required by the Every Student Succeeds Act (ESSA);

I. School Responsibilities: Supporting Home-School Relationships

Support home-school relationships and improve communication by:
•conducting parent-teacher conferences each semester during which the individual child's achievement will be discussed as well as how this Compact is related;
•convening an Annual Title I Parent Meeting each school year for parents and family members of students participating in the Title I program to inform them of the school's Title I status and funded programs and their right to be involved;
•arranging additional meetings at other flexible times, e.g., morning, evening and providing (if necessary and funds are available) transportation or child care for those parents who cannot attend a regular meeting;
•respecting the rights of limited English proficient families to receive translated documents and interpretation services in order to ensure participation in the child's education;
•providing information related to school and parent programs, meetings and other activities is sent to parents of participating children in a format and to the extent practicable in a language that parents can understand;
•involving parents in the planning process to review, evaluate and improve the existing Title I programs, Parent and Family Engagement Policy and this Compact;
•providing parents with timely information regarding performance profiles and individual student assessment results for each child and other pertinent individual school information;
•ensuring that the Parent and Family Engagement Policy and School-Parent Compact are distributed and discussed with parents each year;

I. School Responsibilities: Providing Parents Reasonable Access to Staff

Provide parents reasonable access to staff by:
•ensuring that staff will have access to interpretation services in order to effectively communicate with limited English speaking parents;
•notifying parents of the procedures to arrange an appointment with their child's teacher or other school staff member;
•arranging opportunities for parents to receive training to volunteer and participate in their child's class, and to observe classroom activities;
•planning activities for parents during the school year, e.g., Parent-Teacher Conferences;

I. School Responsibilities: Providing General Support to Parents

Provide general support to parents by:
•creating a safe, supportive and effective learning community for students and a welcoming respectful environment for parents, and guardians;
•assisting parents in understanding academic achievement standards and assessments and how to monitor their child's progress by providing professional learning opportunities (times will be scheduled so that the majority of parents can attend);
•sharing and communicating best practices for effective communication, collaboration and partnering with all members of the school community;
•supporting parental involvement activities as requested by parents and family members;
•ensuring that the Title I funds allocated for parent involvement are utilized to implement activities as described in this Compact and the Parent and Family Engagement Policy;
•advising parents of their right to file a complaint under the Department's General Complaint Procedures and consistent with the Title I requirement for Every Student Succeeds Act (ESSA) and Title I programs;

II. Parent/Guardian Responsibilities

•monitor my child's attendance and ensure that my child arrives to school on time as well as follow the appropriate procedures to inform the school when my child is absent;
•ensure that my child comes to school rested by setting a schedule for bedtime based on the needs of my child and his/her age;
•check and assist my child in completing homework tasks, when necessary;
•read to my child and/or discuss what my child is reading each day (for a minimum of 15 minutes);
•set limits to the amount of time my child watches television or plays video games;
•promote positive use of extracurricular time such as, extended day learning opportunities, clubs, team sports and/or quality family time;
•encourage my child to follow school rules and regulations and discuss this Compact with my child;
•volunteer in my child's school or assist from my home as time permits;
•participate, as appropriate, in the decisions relating to my child's education;
•communicate with my child's teacher about educational needs and stay informed about their education by prompting reading and responding to all notices received from the school or district;
•respond to surveys, feedback forms and notices when requested;
•become involved in the development, implementation, evaluation and revision to the Parent and Family Engagement Policy and this Compact;
•participate in or request training offered by the school, district, central and/or State Education Department to learn more about teaching and learning strategies whenever possible;
•take part in the school's Parent Association or Parent-Teacher Association or serve to the extent possible on

advisory groups, e.g., Title I Parent Advisory Council, School or District Leadership Teams;
•share responsibility for the improved academic achievement of my child;

III. Student Responsibilities

•attend school regularly and arrive on time;
•complete my homework and submit all assignments on time;
•follow the school rules and be responsible for my actions;
•show respect for myself, other people and property;
•try to resolve disagreements or conflicts peacefully;
•always try my best to learn.

Title I Program Information

Part 1: Title I Program Type

Title I Requirements and Strengthening Title I Parent Involvement: Under USDOE's Every Student Succeeds Act (ESSA), Title I schools are required to address professional learning and parent and family engagement in the Comprehensive Education Plan (CEP). To strengthen parent leadership in Title I schools, and increase the involvement of all parents of Title I eligible children in improving students' academic outcomes, all Title I schools are required to establish a Title I Parent Advisory Council (PAC) that will serve as the consultative and representative body for all Title I parents in the school to provide voice into the spending of Title I funds.

The SLT is responsible for facilitating consultation with the Title I Parent Advisory Council regarding the joint development of the CEP, Parent and Family Engagement Policy, School Parent Compact (SPC) and the use of the 1% parent involvement set-aside in Title I schools. The Title I Parent Advisory Council (PAC) Chairperson (or alternate) is expected to attend all regular meetings of the School Leadership Team (SLT). Title I parents, as represented by the Title I PAC Chairperson, must be consulted regarding the use of the Title I 1% set-aside for parent and family engagement. The Title I 1% set-aside funding is used to supplement parent and family engagement activities as described in the school's Parent and Family Engagement Policy and must be aligned with student achievement goals as outlined in the CEP. For additional guidance on the Title I Parent Advisory Council (PAC), go to the Protocols and Timeline for Title I Parent and Family Engagement Activities document.

Directions:

- All schools must indicate their Title I status in Part 1.
- All elements of the All Title I Schools section must be completed in Part 2.
- All Targeted Assistance (TA) Schools must also complete the TA Schools Only section in Part 3.
- All Schoolwide Program (SWP) schools must also complete the SWP Schools Only section in Part 4.
- If a required component is addressed elsewhere in this plan, you may refer to the section or Priority where the response can be found.
- For additional information, visit the Title I Program Description (US Department of Education).

Your school's Title I Program

Title I SWP

Part 2: All Title I Schools

High Quality and Ongoing Professional Learning: Please list below the Priority or section(s) that indicate strategies and activities for high quality professional learning for teachers, principals, staff, and paraprofessionals to enable all students to meet state standards.

Our school provides year-long mentors and professional development (PD) opportunities focused on the Next Generation Learning Standards in both English Language Arts (ELA) and Math.

Teachers actively participate in PD sessions offered by the District, covering ELA, Math, Science, and Social Studies. Additionally, specialized workshops for Special Education, English Language Learners (ELLs), and city-wide initiatives are conducted by both in-school and District personnel.

We offer differentiated PD for new teachers, and external consultants provide workshops specifically designed to align our curriculum with the Next Generation Standards.

Weekly grade-level planning sessions for Reading and Math consistently incorporate the Next Generation Learning Standards. These sessions also focus on effectively utilizing remote platforms to support both virtual and blended teaching and learning.

Our literacy coaches provide ongoing support in understanding ELA and Math standards and refining lesson planning.

Teachers regularly collaborate in grade-level teams to analyze student work. During these sessions, they learn from each other, identify student strengths and areas of need, discuss effective feedback strategies, and determine the next instructional steps.

Mentors and consultants further deepen teachers' skills in analyzing student work and formulating feedback through small group or one-on-one meetings.

Importantly, paraprofessionals attend professional development sessions alongside the teachers they support in the classrooms, fostering a cohesive learning environment.

The principal and assistant principal actively participate in leadership professional development through various District and central PD opportunities, as well as Professional Learning Communities (PLCs).

Part 4: Schoolwide Program (SWP)

Transition Plans to Assist Preschool Children (Elementary Schools Only): Describe the transition plans used to assist preschool children from early childhood programs to the elementary school program (e.g. aligned curriculum, joint PD & parent involvement activities, sharing of records/information, early intervention services, etc.).

Transition plans designed to assist preschool children from early childhood programs to the elementary school program include the following: professional development workshops where pre-K and kindergarten teachers share curriculum and collaborate on planning parent involvement activities. These activities include welcoming and informational meetings, parent newsletters, and class visits. Teachers will also share students' records of progress, including any early intervention services provided, as needed.

Part 5: “Conceptual” Consolidation of Funds in SWP Schools

Directions: All Schoolwide Program (SWP) schools in NYC are conceptually consolidating their Federal, State, and Local funds, even though the Galaxy system reports the allocations in separate accounting codes1. To be eligible for the flexibility consolidation of Federal funds, a Schoolwide Program school must identify in its Schoolwide plan (CEP) which programs are included in its consolidation and the amount each program contributes to the consolidated Schoolwide pool. Additionally, the school plan must document that it has met the intent and purposes of each program whose funds are consolidated2. **On the chart below**, indicate which Federal, State, and/or local Tax Levy program funds that are consolidated in your school’s Schoolwide Program, the amount each program contributes to the consolidated Schoolwide pool, and verification that the school has met the intent and purposes of each program whose funds are consolidated.
For the last two columns of this table: Place an (X) in Column A below to verify that the school has met the intent and purposes of each program whose funds are consolidated. Indicate in Column B, the Priority or section that references where a related program activity has been described in this plan.

Program Name	Fund Source (i.e. Federal, State or Local)	Funding Amount: Indicate the amount contributed to Schoolwide pool. (Refer to Galaxy for school allocation amounts)	Column A Verify with an (X)	Column B Section/Priority Reference(s)
Title I, Part A (Basic)	Federal	$247,986.00	x	Section 5/Priorities 1, 2, 3, 4, 5, CA, Quality IEP
Title I, School Improvement 1003(a)	Federal	TBD	x	Section 5/Priorities 1, 2, 3, 4, 5, CA, Quality IEP
Title II, Part A	Federal	68,988.00	x	Section 5/Priorities 1, 2, 3, 4, 5, CA, Quality IEP
Title III, Part A - LEP	Federal	15,282.00	x	Section 5/Priorities 1, 2, 3, 4, 5, CA, Quality IEP
Title III, Immigrant	Federal	13,893	x	Section 5/Priorities 1, 2,

				3, 4, 5, CA, Quality IEP
Title IV, Part A	Federal	5,646.00	x	Section 5/Priorities 1, 2, 3, 4, 5, CA, Quality IEP
Tax Levy (Fair Student Funding)	Local	29,458.00	x	Section 5/Priorities 1, 2, 3, 4, 5, CA, Quality IEP

Explanation/Background

1. Explanation/Background:

Title I Schoolwide Program schools are expected to use the flexibility available to them to integrate services and programs with the aim of enhancing the entire educational program and helping all students reach proficient and advanced levels of achievement. In addition to coordinating and integrating services, Schoolwide Program schools may combine most Federal, State and local funds to provide those services. By consolidating funds from Federal, State, and local sources, a Schoolwide Program school can address its needs using all its available resources. This gives a school more flexibility in how it uses available resources to meet the identified needs of all its students.

Consolidating funds in a Schoolwide Program means that a school treats the funds it is consolidating like they are a single "pool" of funds. In other words, the funds from the contributing programs in the school lose their individual identity and the school has one flexible pool of funds. The school uses funds from this consolidated Schoolwide pool to support any activity of the Schoolwide Program without regard to which program contributed the specific funds used for a particular activity – so long as the use of funds meets the intent and purposes of the programs from which the funds originate. To consolidate funding in a Schoolwide Program, the school does not literally need to combine funds in a single account or pool with its own accounting code. Rather, the word "pool" is used conceptually to convey that a Schoolwide Program school has the use of all consolidated funds available to it for the dedicated function of operating a Schoolwide Program without regard to the identity of those funds.

Consolidating Federal funds in a Schoolwide Program has the following additional advantages:

- Consolidating Federal funds eases the requirements for accounting for funds from each specific program separately, because a Schoolwide school is not required to distinguish among funds received from different sources when accounting for their use.
- A school that consolidates Federal funds in its Schoolwide Program is not required to meet most of the statutory and regulatory requirements of the specific Federal programs included in the consolidation (e.g., semi-annual time and effort reporting for Title I). However, the school must ensure that it meets the intent and purposes of the Federal programs included in the consolidation so that the needs of the intended beneficiaries are met.

2. The intent and purposes of the Federal programs indicated on the chart above (Part 4c of this section) are as follows:

- **Title I, Part A – Schoolwide Programs:** To upgrade the entire educational program in the school in order to improve the academic achievement of all students, particularly the lowest-achieving students. This includes provision of services for Students in Temporary Housing (STH).
- **Title I 1003(a), School Improvement: Comprehensive Support and Improvement (CSI), Additional Targeted Support and Improvement (ATSI) and Targeted Support and Improvement (TSI) Funding:**

Support implementation of school improvement plans that aims to improve instruction and address the identified needs

Title II, Part A: Supplementary funding to improve student academic achievement by reducing class size in grades K, 1, 2, and 3, with an emphasis on grades with an average register greater than 20. If space is not available to form additional classes, funds may support push-in teacher(s) to supplement the instructional program. For schools that choose to reduce class size, priority must be given to reducing class size in general education settings and must demonstrate the following:

- Reduce class sizes to 15-18 students or fewer (including the use of co-teaching and floating teachers that bring the student to teacher ratio to one teacher per 15-18 students);
- Be accompanied by a rigorous curriculum, effective teachers, and a sustained, job-embedded professional development plan.

- **Title III, Part A:** To help ensure that children with limited English proficiency become proficient in English, develop high academic attainment in English, and meet the same challenging State academic content and achievement standards in the core academic subjects that all other children are expected to meet. Another purpose of this program is to increase the capacity of schools to establish, implement and sustain high-quality language instruction programs and English language development programs that assist schools in effectively teaching students with limited English proficiency. Title III, Part A is also designed to promote the participation of parents and communities of limited English proficient children in English language instruction programs.
- **Title III Immigrant**: Supplementary and enhanced services to immigrant students, in the areas of English language acquisition and content area achievement. Immigrant children and youth are defined as individuals who are aged 3 through 21, have not been attending school in any one or more states for more than three (3) full academic years, and were not born in any state. "State" means the 50 states of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. Children born to U.S. citizens abroad, the U.S. Virgin Islands, or any other U.S. territory that is not D.C. or Puerto Rico are to be considered immigrants.
- **Title IV, Part A**: Title IV funds are for schools that are among those with the greatest needs, have the highest numbers of students from low-income families, are identified for CS, ATSI or TSI, or are identified as persistently dangerous public schools. Allowable uses of funds under well-rounded education, safety and health, and educational technology include direct services for students, professional development for teachers and administrators, and supplemental educational resources. School allocations have been provided for well-rounded education, social emotional learning, cultural responsiveness awareness, professional development to support implementation of technology and blended learning environments, and community coordinators in schools with high rates of students in temporary housing

- Students in Temporary Housing (STH): Schools must describe their use of Title I STH funds in their consolidated application.

Important Note: The following funds may not be consolidated:

- **Title I Parent Involvement Set-aside:** Title I, Part A funds must support parent involvement activities and programs. Chancellor's Regulation A-655 requires School Leadership Teams to consult with Title I parent representatives regarding the Title I program and the use of these funds. Parent involvement activities funded through Title I must be included in the Parent and Family Engagement Policy and aligned with student achievement goals in the school comprehensive educational plan.
- **IDEA:** To ensure that all children with disabilities have available to them a free appropriate public education designed to meet their individual needs.
- **Grant funds awarded via a competitive process:** These funds must be used for the purposes specified by the Grantor, as described in the school's approved grant application.

Submission Assurances

Submission Assurances

- ☐ The Comprehensive Education Plan (CEP) has been developed in consultation with parents, school staff, and others in accordance with the requirements of Shared-Decision Making (CR 100.11) to provide a meaningful opportunity for stakeholders to participate in the development of the plan and comment on the plan before it is approved.
- ☐ As part of the root cause analysis process, the school reviewed inequities, including resource inequities within the school, and investigated areas of low performance to identify strategies to address inequities within the school and promote improved student outcomes.
- ☐ The CEP School Leadership Team (SLT)/Stakeholder Signature Page will be printed, scanned, and submitted with the signatures of those that participated in the development of the CEP. DocuSign may also be used to secure electronic signatures for the CEP SLT/Stakeholder Signature Page. If the school was unable to obtain a signature of an individual that participated in the development of the CEP, the school has written “Addendum Attached” and provided supplemental documentation to explain why the school was unable to obtain the individual’s signature.
- ☐ The CEP will be implemented no later than the beginning of the first day of regular student attendance.
- ☐ Professional development will be provided to teachers and school leaders that will fully support the strategic efforts described within this plan.

Language Allocation Policy Outline

Language Allocation Policy Outline

2025-26 Language Allocation Policy (LAP)

This submission form supports schools with organizing a well-conceived school-based Language Allocation Policy (LAP) that describes high quality programs for Multilingual Learners/English Language Learners (MLs/ELLs). This is an annual plan of how your school will support the linguistic and academic needs of MLs/ELLs and must be completed yearly. The Language Allocation Policy (LAP) is a part of schools' Comprehensive Education Plan (CEP).

This is a living document. Any school-wide changes involving the instruction of MLs/ELLs, such as the addition or expansion of a Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE) program, should be updated in this form.

Agenda, minutes of LAP meetings, and LAP team members' attendance at meetings should be kept readily available on file in the school with all other ML/ELL critical documents. When preparing your school's submission, provide extended responses in the available spaces.

For additional information, refer to the NYC DOE Policy and Reference Guide for MLs/ELLs. For additional support with ML/ELL policy, please reach out to your respective ML/ELL Director or ELL Compliance Performance Specialist; for support with ML/ELL instruction, please contact your ML/ELL Services Administrator.

Part I: School ML/ELL Profile

This section should reflect the school's demographics for the 2025-26 school year. If completing before the 2025-26 school year begins, questions should be based on the anticipated population served by the school.

A. Language Allocation Policy Team Composition

The members of the school's LAP team are listed below. A school's LAP team must consist of at least one: principal, assistant principal (where applicable), an English as a New Language (ENL) teacher, an additional teacher (bilingual teacher if the school has a bilingual program or a teacher from a content area other than bilingual education or ENL) and a parent/guardian.

Required LAP team members are denoted with an asterisk (*) below. Please do not leave any fields blank. If a role is not represented on the LAP team, include "N/A" below.

Member Title	Name
Principal*	Marlin Nieves
Assistant Principal (Where Applicable)*	Harpreet Uppal
English as a New Language (ENL) Teacher*	Maria Catanzariti
Teacher (if school has a bilingual program must be a bilingual teacher)*	Jessica Delgado Reyes
Parent/Guardian*	Crystal Aponte
Teacher	Carolyn Alliers
Parent Coordinator	Nilsa Figueroa
School Counselor	Valeria Rivera
Related-Service Provider	Jazmin Donati
Other (Name and Title)	N/A
Other (Name and Title)	N/A

B. Teacher Qualifications

Please review all certifications for all staff members at your school, and indicate the number of certified staff for each category.

1. English to Speakers of Other Languages (ESOL) Certified Teacher

Number of ESOL certified teachers currently teaching ENL:

7

Number of teachers currently teaching a stand-alone ENL class who hold both a common branch license and ESOL certification [applicable to grades K–6]:

6

Number of certified ESOL teachers not currently teaching ENL:

0

Number of teachers who hold both content area/common branch and ESOL certification:

6

Number of ESOL certified teachers with a bilingual extension:

0

2. Certified Teachers with a Bilingual Extension

Number of certified teachers with a bilingual extension currently teaching in a bilingual program:

7

Number of certified teachers with a bilingual extension not currently teaching in a bilingual program:

1

Number of teachers certified to teach students with disabilities that also have a bilingual extension:

1

3. Language Other than English (LOTE)/World Language Certified Teachers:

Total number of teachers with LOTE certification:

0

Total number of teachers with LOTE certification providing World Language instruction:

0

Total number of teachers with LOTE certification providing Home Language Arts (HLA) to students in bilingual programs:

0

C. Student Demographics

Please review the student demographics at your school and complete the number and percentage for each category.

Total number of students (excluding pre-K):

258

Total number and percentage (%) of current ELLs:

94; 36%

Total number and percentage (%) of former ELLs:

30; 12%

Total number and percentage (%) of ELLs who are Newcomers (0-3 years of service):

76; 29%

Total number and percentage (%) of ELLs who are Developing ELLs (4-6 years of service):

18; 7%

Total number and percentage (%) of ELLs who are Long-Term ELLs (7 or more years of service):

0

Total number and percentage (%) of ELLs who are Students with Inconsistent/Interrupted Formal Education (SIFE):

1; .4%

Total number and percentage (%) of ELLs with an Individualized Education Program (IEP):

19; 7%

Part II: Bilingual Programs

Does your school have a bilingual program (Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)?

Yes

Provide the number of classrooms for each bilingual program, by grade, at your school for the 2025-26 school year. If submitted before the 2025-26 school year begins, this should be the anticipated number of classrooms based on anticipated enrollment. Each language and program model--Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)--is considered a separate program. In the second column, please indicate if the program is General Education (GE), Integrated Co-Teaching (ICT) special education, Special Class (SC), or Mixed-Group Class (MGC) special education. If a classroom bridges two grades, list as 0.5 classrooms for both grades.
Please include the total number of classrooms for each bilingual program in the last column.

	Program Type	Language	School Yr Opened	k	1	2	3	4	5	6	7	8	9	10	11	12	Totals
TBE																	0
TBE																	0
TBE																	0
DLBE	Dual Language	Spanish	2014	1	1	1	1	1	1								6
DLBE																	0
DLBE																	0
				total: 1	total: 1	total: 1	total: 1	total: 1	total: 1	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	

Part III: ML/ELL Programming

Please refer to New York State **Commissioner's Regulation (CR) Part 154 Units of Study Tables** as you describe academic programming for MLs/ELLs at your school below. Please do not leave any fields blank and indicate "N/A" for any fields that are not applicable.

Describe your English as a New Language (ENL), and if applicable Dual Language Bilingual Education (DLBE), and Transitional Bilingual Education (TBE) programs. For each program, include:

- How stand-alone ENL is implemented as per CR Part 154
- How integrated ENL is implemented as per CR Part 154
- How students are grouped (e.g., block [class travels together as a group], ungraded [all students regardless of grade are in one class], heterogeneous [mixed proficiency levels], homogenous [proficiency level is the same in one class]).

a. English as a New Language (ENL)
Stand-alone ENL:

At P.S. 151K, our Multilingual Learner (MLL) and English Language Learner (ELL) students receive specialized instruction from an ESOL/TESOL/Bilingual certified teacher inside the classroom. Students across grades K-5 are provided with small group instruction and individualized support based on their English language proficiency levels. Due to the large number of ELLs in our school, our TESOL and DL certified teachers provide students daily.

MLL/ELL Student Enrollment and Services by Grade & Proficiency
Below is a detailed breakdown of our MLL/ELL student population, outlining their proficiency levels and the corresponding mandated ENL instructional time per week:

Kindergarten
Teachers providing the services within the classroom are Ms. Alliers (ICT), Ms. Martinez (DL) and Ms. Diaz (ICT).
Entering: 360 minutes/week ENL instructional time. Students primarily receive small group instruction, supported by visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Emerging: 360 minutes/week ENL instructional time. Students receive small group instruction, utilizing resources such as visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Transitioning: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Expanding: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Commanding: Continue to receive services for an additional two years. Students receive whole group instruction, with small group support provided as needed. Resources are tailored to individual student needs.

Grade 1
Teachers providing the services within the classroom are Ms. Soto (ICT), Ms. Delgado-Reyes (DL) and Ms. Marte (ICT).
Entering: 360 minutes/week ENL instructional time. Students primarily receive small group instruction, supported by visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Emerging: 360 minutes/week ENL instructional time. Students receive small group instruction, utilizing resources such as visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Transitioning: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Expanding: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Commanding: Continue to receive services for an additional two years. Students receive whole group instruction, with small group support provided as needed. Resources are tailored to individual student needs.

Grade 2
Teachers providing the services within the classroom are Ms. Pereira (ICT) and Ms. Deleon (DL)

Entering: 360 minutes/week ENL instructional time. Students primarily receive small group instruction, supported by visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Emerging: 360 minutes/week ENL instructional time. Students receive small group instruction, utilizing resources such as visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Transitioning: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Expanding: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Commanding: Continue to receive services for an additional two years. Students receive whole group instruction, with small group support provided as needed. Resources are tailored to individual student needs.

Grade 3
Teachers providing the services within the classroom are Ms. Alvarado (ICT), Ms. Abreu (DL) and Ms.Shockley (ICT).
Entering: 360 minutes/week ENL instructional time. Students primarily receive small group instruction, supported by visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Emerging: 360 minutes/week ENL instructional time. Students receive small group instruction, utilizing resources such as visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Transitioning: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Expanding: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Commanding: Continue to receive services for an additional two years. Students receive whole group instruction, with small group support provided as needed. Resources are tailored to individual student needs.

Grade 4
Teachers providing the services within the classroom are Ms. Lowinger (ICT), Ms. Tejeda (DL) and Ms. Santos (ICT).
Entering: 360 minutes/week ENL instructional time. Students primarily receive small group instruction, supported by visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Emerging: 360 minutes/week ENL instructional time. Students receive small group instruction, utilizing resources such as visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Transitioning: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Expanding: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Commanding: Continue to receive services for an additional two years. Students receive whole group instruction, with small group support provided as needed. Resources are tailored to individual student needs.

Grade 5
Teachers providing the services within the classroom are Mrs. Galarza and Mrs. Deleon (DL).
Entering: 360 minutes/week ENL instructional time. Students primarily receive small group instruction, supported by visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Emerging: 360 minutes/week ENL instructional time. Students receive small group instruction, utilizing resources such as visuals, manipulatives, and sentence stems. Individual sessions are provided as needed.
Transitioning: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Expanding: 180 minutes/week ENL instructional time. Instruction focuses on explicit teaching, with small group support provided based on student needs. Resources include visuals, manipulatives, and sentence stems.
Commanding: Continue to receive services for an additional two years. Students receive whole group instruction, with small group support provided as needed. Resources are tailored to individual student needs.

Supplemental Support and Resources

Additionally, our MLL/ELL students can schedule dedicated time with their ESOL/TESOL/Bilingual certified teacher for individualized extra support when needed. Teachers regularly post content taught during the school day, along with supplementary resources, on Google Classroom. This allows students to revisit instructional content at their convenience, reinforcing their learning. Google Classroom also provides parents with direct access to their child's classroom learning materials, fostering greater home-school connection and transparency.

Integrated ENL:

At P.S. 151K, students in the English as a New Language (ENL) program receive integrated ENL instruction within their general education and ICT classrooms. Our ENL teacher collaborates with classroom teachers to co-teach and provide targeted language support during content instruction in English Language Arts (ELA), Mathematics, Writing, Science, and Social Studies. In addition, several of our dually certified Common Branch and TESOL teachers provide integrated ENL instruction within their own classrooms across grades K–5. Students at the Entering and Emerging proficiency levels receive approximately 360 minutes of integrated ENL services per week, while Transitioning and Expanding students receive about 180 minutes per week. Commanding-level students, who have exited ENL services, continue to be monitored for two years and receive classroom teacher support as needed. This model ensures that English language development is embedded throughout the school day and across all major content areas, allowing ELLs to strengthen both their academic and linguistic skills simultaneously.

b. Bilingual Education (If applicable)
Transitional Bilingual Education (TBE):

Not Applicable

Dual Language Bilingual Education (DLBE):

Students in our Dual Language (DL) program follow the roller coaster model, receiving instruction in English and Spanish at a 50/50 percentage. The teacher in this classroom holds a bilingual extension. In these classrooms, the teachers meet with students in small groups to provide them with their integrated ENL minutes per week in all content areas (Math, ELA, Writing, Science, and Social Studies).

2. How does your school ensure the mandated number of instructional minutes are provided according to students' English language proficiency levels in each program model?

At P.S. 151K, systems are in place to ensure all English Language Learners (ELLs) are correctly programmed at the start of the school year and throughout the year. Before the school year begins, the Assistant Principal retrieves the RLAT (Language Allocation Table) and RLER reports from ATS to verify each student's current English language proficiency level (e.g., Entering, Emerging, Transitioning, Expanding, or Former ELL). Using this data, the Assistant Principal programs students in STARS to ensure that each student receives the mandated stand-alone and/or integrated ENL instructional minutes in accordance with CR Part 154.
The Assistant Principal works closely with the school secretary to confirm that all new student enrollments include a completed Home Language Identification Survey (HLIS). When new students enter the school during the year, their information is promptly reviewed to ensure appropriate ELL service assignments. The Assistant Principal also collaborates with Miguel, the district programming support specialist, to resolve any compliance or scheduling issues that arise. This process ensures that all ELLs, whether newly identified or returning, receive the appropriate ENL or Dual Language Bilingual Education (DLBE) services from the first day of school and that the school remains in full compliance with DOE and CR Part 154 regulations.

3. How are ENL, English Language Arts (ELA) and if applicable, Home Language Arts (HLA) instructional minutes delivered in each program model?

At P.S. 151K, students in the English as a New Language (ENL) program receive both stand-alone and integrated ENL instruction to meet the requirements of CR Part 154. Stand-alone ENL services are provided by certified TESOL/ESOL teachers to students at the Entering, Emerging, and Transitioning proficiency levels. These students receive approximately 360 minutes per week (Entering and Emerging) or 180 minutes per week (Transitioning) of direct English-language instruction in small groups organized by proficiency level and grade band.
Integrated ENL instruction is delivered within content-area classes, including English Language Arts (ELA), Mathematics, Science, and Social Studies. In these settings, the ENL teacher co-teaches with the classroom teacher or, in classrooms led by dually certified Common Branch and TESOL teachers, integrated ENL minutes are embedded directly into daily instruction. Students at the Expanding and Commanding levels receive integrated support aligned to their proficiency level while participating fully in core academic instruction.

Students in the Dual Language Bilingual Education (DLBE) program receive instruction through a 50/50 English-and-Spanish model ("roller-coaster" schedule). Each week, bilingual extension teachers provide instruction in both languages to promote biliteracy and grade-level academic progress. Within the DLBE model, students receive their stand-alone ENL minutes approximately 360 minutes per week for Entering/Emerging students and 180 minutes per week for Transitioning students, delivered by the bilingual teacher in English. Integrated ENL and English Language Arts (ELA) instruction occurs during the English-language portion of the schedule, while Home Language Arts (HLA) instruction is provided in Spanish to build literacy and transfer academic skills across both languages.

This programming structure ensures that all students in both ENL and DLBE models receive their mandated instructional minutes in accordance with CR Part 154 while supporting consistent language and academic development throughout the school year.

4. For schools with Dual Language Bilingual Education (DLBE) programs:

a. Which Dual Language Bilingual Education model is implemented? Explain how much of the instructional day (percentage) English proficient students and ELLs are integrated.

Our Dual Language program utilizes a roller coaster model with a 50/50 instructional split over a 10-day cycle. This ensures students receive core content instruction in both English and Spanish.

Our schedule operates as follows:

Mondays, Wednesdays, and Fridays: Instruction is delivered in English during the mornings and Spanish in the afternoons.
Tuesdays and Thursdays: Instruction is provided in Spanish during the mornings and English in the afternoons.
Throughout each 10-day cycle, we guarantee that both English Language Arts (ELA) and Math are taught for five days in English and five days in Spanish.

b. In which language(s) is each core content area taught?

For our dual language classes core contents are taught in both English and Spanish.

5. For schools with Transitional Bilingual Education (TBE) programs:

a. Which core content areas are taught bilingually?

Not Applicable

Part IV: Data Analysis

Data Analysis

After reviewing and analyzing school demographic and assessment data, answer the following questions. The ELL Data Analysis Tool (EDAT) provided by the Office of Multilingual Learners can assist with identifying these data points.

For additional information, refer to Data Analysis Professional Learning Module and ELL Data Analysis Tool (EDAT) Professional Learning Module.

1. What is the composition of the ELL subgroups at your school?
What percentage of ELLs are Newcomers? How does effective instruction for Newcomers differ from those provided to Developing or Long-Term ELLs?

At P.S.151K given that 27.83% of our ELLs are Newcomers, our instructional approach for this group is highly specialized and focuses on immediate needs and foundational development.

Primary Goals:
Affective Filter Reduction: Creating an overwhelmingly safe, welcoming, and predictable environment to minimize anxiety, encourage risk-taking, and build trust. This includes explicit socio-emotional support.

Survival Language & Routines: Explicitly teaching high-frequency vocabulary and phrases essential for daily school life (e.g., classroom commands, asking for help, navigating the building, basic social greetings).

Foundational Literacy (Crucial for SIFE): For students who are pre-literate or have limited literacy in their home language (a common characteristic of our SIFE population), there is an intense focus on basic phonemic awareness, alphabet knowledge, and early decoding skills in English. Our 3.48% SIFE student population falls heavily into this newcomer category, necessitating this foundational focus.

Comprehensible Input: Providing language input that is highly scaffolded and just slightly above their current level (i+1), using concrete supports.

Instructional Strategies at P.S. 151K:

Maximal Use of Visuals & Realia: Extensive use of pictures, charts, diagrams, gestures, mime, actual objects, and demonstrations (e.g., Total Physical Response - TPR) to make abstract concepts concrete.

Native Language Support (L1): Actively leveraging our bilingual paraprofessionals, providing bilingual dictionaries and glossaries, and utilizing peer buddies. In our classrooms, initial content delivery and explanation are often in Spanish to build confidence and bridge understanding.

Predictable Routines & Procedures: Establishing clear, consistent classroom routines with visual schedules and

explicit verbal cues to reduce cognitive load and provide a sense of security.

Sentence Stems & Frames: Providing simple, high-frequency sentence starters for immediate communication (e.g., "I see...", "I want...", "My name is...") to build confidence in speaking.

High Engagement & Low-Stakes Participation: Encouraging participation through choral response, pointing, drawing, labeling, and simple one-word or phrase answers. Creating frequent, low-pressure opportunities for students to "show what they know" non-verbally.

Explicit Pre-teaching: Systematically pre-teaching key vocabulary and basic concepts with multiple modalities before introducing new content.

Focus on Listening Comprehension: Recognizing and validating the "silent period" while still providing ample, purposeful listening input.

Effective Instruction for Developing ELLs (Transitioning/Expanding Proficiency - Typically 2-5 years):
For this group, the focus shifts from basic survival to building academic English and deeper comprehension, bridging the gap between social and academic language.

Primary Goals:
Bridging Social to Academic Language: Explicitly teaching content-specific academic vocabulary, complex grammatical structures, and discourse patterns necessary for disciplinary learning.

Deepening Comprehension: Moving beyond literal understanding to inferential, analytical, and critical comprehension in reading and listening.

Expanding Productive Language: Developing the ability to produce more complex, coherent, and grammatically accurate spoken and written output.

Content Integration: Increasingly integrating explicit language instruction with rigorous, grade-level academic content.

Instructional Strategies at P.S. 151K:
Explicit Academic Vocabulary Instruction: Using strategies like Frayer models, semantic maps, word parts (prefixes, suffixes, roots), and building word families.

Sentence Deconstruction/Reconstruction: Analyzing complex sentences from academic texts to understand their meaning and practicing building their own more complex sentences. This directly addresses our school's identified need in "sentence writing structure."

Strategic Use of Graphic Organizers & Thinking Maps: Employing these tools for organizing thoughts, making connections, structuring writing, and mapping out reading comprehension.

Structured Collaborative Group Work: Designing activities that require students to use academic language to discuss, debate, problem-solve, and present their learning to peers.

Content-Specific Scaffolding: Providing adapted texts, text-to-speech tools, and utilizing bilingual glossaries for challenging content-area readings, transitioning towards more independent use.

Oracy for Literacy: Systematically using structured oral language activities (e.g., "Think-Pair-Share," "Turn-and-Talk," academic discussions) to build confidence and rehearse ideas before reading or writing.

Formative Assessment Variety: Regularly checking for understanding using multiple methods (e.g., short written responses, labeling diagrams, drawing, verbal explanations) to ensure content comprehension alongside language development.

Effective Instruction for Long-Term ELLs (LTELLs) (Often Expanding Proficiency - 5+ years):
For LTELLs, the goal is to fine-tune their academic English, achieve near-native proficiency in academic contexts, and ensure they are fully prepared for higher-level demands.

Primary Goals:
Mastering Academic Language Sophistication: Targeting nuanced vocabulary, complex grammatical structures, figurative language, and rhetorical patterns necessary for advanced academic success and state assessments.

Achieving Full Biliteracy (where applicable): For those in our Dual Language program, sustaining high levels of proficiency in both languages to ensure full cognitive benefits.

Developing Metacognitive Strategies: Explicitly teaching students how to monitor their own comprehension, identify their specific linguistic challenges, and independently apply advanced learning strategies.

Refining Academic Writing and Argumentation: Moving towards clear, concise, evidence-based academic writing that meets or exceeds grade-level standards.

Instructional Strategies at P.S. 151K:
Advanced Academic Vocabulary & Discourse: Focusing on tier 3 vocabulary, disciplinary-specific language, and facilitating complex academic debates or discussions requiring justification and evidence.

Complex Text Analysis: Engaging with authentic, rigorous, grade-level complex texts, and explicitly teaching strategies for dissecting meaning, identifying bias, evaluating evidence, and analyzing author's craft.

Deconstructing Model Texts: Analyzing strong examples of academic writing across genres to understand structure, argumentation, and stylistic choices.

Targeted Grammar Instruction in Context: Addressing persistent grammatical errors through individualized or small-group mini-lessons derived from student writing samples, integrated into content areas.

Higher-Order Thinking Skills: Consistently challenging students with tasks that require analysis, synthesis, evaluation, and creation, demanding precise and sophisticated linguistic output.

Self-Correction and Self-Advocacy: Fostering independence in identifying their own language gaps and actively seeking resources or clarification.

Intensified Tier 2/3 Interventions: For LTELLs not yet reaching "Commanding," our MTSS provides highly targeted small-group or individualized instruction specifically addressing the subtle, yet critical, academic language gaps identified through deep data analysis.

By meticulously differentiating instruction based on the varying proficiency levels of our ELLs, P.S. 151K ensures that our 27.83% newcomer population receives the foundational, high-support environment they need, while our developing and long-term ELLs are consistently pushed to achieve higher levels of academic language proficiency and master grade-level content.

What percentage of ELLs are Students with Inconsistent/Interrupted Formal Education (SIFE)? How do you differentiate effective instruction for SIFE?

At P.S. 151K, 3.48% of our student population is identified as Students with Interrupted Formal Education (SIFE). To effectively differentiate instruction for our SIFE students, we prioritize providing them with crucial foundational skills. We also utilize visual supports extensively and make explicit connections with cognate words to leverage their existing linguistic knowledge. Additionally, these students benefit from small group instruction tailored to their specific needs.

What percentage of ELLs are Long-Term ELLs? How does effective instruction for Long-Term ELLs differ from instruction designed for Developing ELLs?

When students enroll at PS151K, our instructional approach is customized based on their stage of language acquisition. The strategies employed for Developing ELLs (students in the early stages of learning English) differ significantly from those used for Long-Term ELLs (LT-ELLs), who require accelerated language and content mastery. Instruction will differ the following ways:

Instructional Parameter- Primary Goal
Developing ELLs- Basic Language Acquisition socially and foundational literacy development.
Long-Term ELLs- Academic Language Acceleration (CALP) and closing the achievement gap in grade-level content.

Instructional Focus
Developing ELLs- Input Modification. Teachers simplify sentence structure and use visual supports and manipulatives to make content comprehensible.
Long-Term ELLs- Output Scaffolding. Content complexity is maintained, but language production is structured (e.g., providing sentence stems for essay writing).

Vocabulary Priority
Developing ELLs- High-frequency words (Tier 1) and essential survival vocabulary.
Long-Term ELLs- Tier 2 (General Academic) and Tier 3 (Domain-Specific) vocabulary. Explicit focus on abstract nouns and verbs necessary for analysis and argumentation.

Strategy Instruction
Developing ELLs- Emphasis on basic decoding, establishing one-to-one correspondence, and understanding explicit textual details.
Long-Term ELLs- Focus on Metacognitive Skills (self-monitoring, test-taking, outlining) and Complex Text Analysis (identifying author's purpose, understanding passive voice).

Writing Instruction
Developing ELLs- Focus on sentence formation, basic capitalization/punctuation, and developing short paragraphs.
Long-Term ELLs- Focus on Discourse Structure (argumentative essay organization, counterarguments, synthesis) and advanced grammar necessary for formal tone.

Pace of Instruction
Developing ELLs- Intentionally slowing down of lectures and breaking down tasks into smaller, manageable chunks.
Long-Term ELLs- Accelerated Pace. Content is driven at grade level with specific, short-term interventions to fill gaps and promote rapid transition out of the ELL program.

What percentage of students are former ELLs? How is your school providing mandated instruction to former ELLs?

At P.S. 151K, instruction for English Language Learners (ELLs) is differentiated based on each student's stage of English proficiency and academic need. For Developing ELLs, instruction emphasizes foundational language acquisition, comprehension, and literacy development. Teachers simplify input through visual supports, sentence frames, and manipulatives to make content comprehensible, while prioritizing high-frequency Tier 1 and Tier 2 vocabulary. Writing instruction focuses on building complete sentences, paragraph structure, and foundational grammar skills.

For Long-Term ELLs (LTELLs), instruction shifts toward accelerating academic language proficiency and closing content achievement gaps. Teachers maintain grade-level rigor while scaffolding output through structured writing supports and explicit teaching of Tier 2 and Tier 3 academic vocabulary. LTELLs receive direct instruction in metacognitive and analytical skills, such as outlining, summarizing, and interpreting the author's purpose, to strengthen their performance on grade-level assessments.

Mandatory Instructional Requirements (The 90-Minute Rule): Once students achieve Commanding proficiency and exit ENL services, they enter a two-year monitoring period as mandated by CR Part 154. During this time, former ELLs receive a minimum of 90 minutes of targeted academic support per week. This instruction is structured to prevent premature exit and accelerate academic language development. Support is delivered through two primary, integrated methods: (1) Integrated Content and Language Instruction, where students engage in grade-level ELA, Math, Science, and Social Studies with scaffolds such as sentence frames, graphic organizers, and explicit Tier 2/3 vocabulary instruction; and (2) Academic Intervention Services (AIS), which provide targeted support in reading and writing to address any skill gaps. In these sessions, the teacher explicitly teaches Tier 2 (general academic) and Tier 3 (domain-specific) vocabulary to reinforce academic language and content mastery.

Intervention Trigger: If a former ELL shows consistent signs of academic struggle—such as failing a core course, showing a significant decline in standardized test performance, or falling below grade-level benchmarks, the Language Proficiency Team (LPT) convenes to review the data. The team then adjusts the student's support plan to include more intensive interventions and additional instructional time as needed. This responsive process ensures that former ELLs continue to progress academically and linguistically, maintaining full access to grade-level curriculum and preventing regression.

2. Examine all at-risk levels that might adversely affect ELLs at your school. What trends do you notice about the at-risk levels of ELLs at your school?

At P.S. 151K, we define "at-risk" for our current English Language Learners (ELLs) as any factor that significantly impedes their progress towards English language proficiency and/or grade-level academic mastery, potentially impacting their long-term educational trajectory. Our Multi-Tiered System of Supports (MTSS) is designed to identify and address these risks proactively.

At-Risk Levels Adversely Affecting Current ELLs at P.S. 151K:
We identify several critical at-risk levels for our current ELL population:

Slow English Language Proficiency (ELP) Growth:

Risk: Students who do not make sufficient progress on the NYSESLAT year-over-year, leading to extended periods at lower proficiency levels (e.g., remaining "Entering" or "Emerging" for multiple years, or plateauing at "Transitioning" without progressing to "Expanding" or "Commanding"). This directly delays their ability to fully access grade-level content in English.

Impact: They continue to face significant linguistic barriers to comprehending complex academic texts, participating in nuanced discussions, and producing detailed written work, causing them to fall behind academically.
Significant Gaps in Foundational Literacy (Especially for Newcomers/SIFE):

Risk: ELLs, particularly newly arrived students or those with Interrupted Formal Education (SIFE), who lack foundational literacy skills (phonemic awareness, phonics, decoding) in any language. This is a critical barrier to English reading and writing development.
Impact: Without these foundational skills, explicit instruction in English phonics and reading strategies may not yield sufficient progress, creating significant challenges in early literacy and subsequent academic areas.
Academic Language vs. Social Language Discrepancy:

Risk: Many ELLs rapidly acquire conversational (social) English but struggle profoundly with academic language needed for school success (e.g., vocabulary specific to science/social studies, complex sentence structures in textbooks, language for analysis, argumentation, and explanation).
Impact: They might appear conversational but struggle significantly when asked to read an informational text, write an essay, or explain a scientific concept, leading to lower performance on content-area assessments.
Co-occurring Learning Disabilities (ELLs with IEPs):

Risk: ELLs who also have identified learning disabilities (SWDs with IEPs) face a dual challenge. The disability itself impacts learning, while the language barrier complicates both instruction and assessment. This often leads to a slower rate of ELP growth and persistent academic gaps despite mandated services.
Impact: These students may require highly specialized, integrated linguistic and academic interventions that are carefully differentiated to address both their language acquisition needs and their specific learning disability.
Interrupted Formal Education (SIFE):

Risk: SIFE students often arrive with significant gaps in prior schooling, limited or no literacy in their native language, and potentially traumatic experiences. They are simultaneously learning English, developing foundational literacy, and adapting to a new school system and culture.
Impact: This multifaceted challenge means they typically start at a lower proficiency level and require highly intensive, trauma-informed support to bridge massive academic and linguistic gaps, making them highly "at-risk" for academic delays.
Socio-Emotional and Adaptation Challenges:

Risk: For many ELLs, especially newcomers, adapting to a new country, culture, and school environment can be overwhelming. They may experience cultural shock, feelings of isolation, anxiety, or even trauma.
Impact: These socio-emotional factors can significantly impede their ability to focus on learning, engage in the classroom, build peer relationships, and ultimately impact academic performance.
Inconsistent Attendance and Mobility:

Risk: Frequent absences or changes in schools/districts interrupt consistent language exposure and academic instruction, making it difficult to build on prior learning.
Impact: Every missed day or transition means lost instructional time, directly slowing ELP growth and academic progress.

3. Examine all at-risk levels that might adversely affect former ELLs at your school. What trends do you notice about the at-risk levels of former ELLs at your school?

At P.S.151K we noticed that some trends about the at-risk of former ELL's are as follows:

Academic Language Gap ("Silent Reclassification"):

Risk: This is perhaps the most significant risk. While a former ELL has achieved "Commanding" on the NYSESLAT (or "Expanding" plus Level 3+ on ELA), this proficiency often reflects strong social English and sufficient academic English for their current grade level. However, the linguistic demands of academic texts and tasks escalate significantly in upper elementary and middle school. Former ELLs may struggle with:
Highly abstract vocabulary across content areas (e.g., in scientific explanations, historical analyses).
Complex grammatical structures (e.g., passive voice, conditional clauses, nominalizations common in academic writing).
Inferential reading comprehension of challenging grade-level texts.
Producing sophisticated, analytical, and well-organized academic writing.
Impact: This gap can lead to a decline in performance on ELA and content-area state assessments in later grades, lower grades in advanced coursework, and difficulty articulating complex ideas in discussions or writing.

Socio-Emotional and Identity Challenges:

Risk: Former ELLs may face unique socio-emotional pressures. They might feel "caught between two cultures" or experience anxiety about fully assimilating. They may also feel pressure to hide any lingering language difficulties now that they are officially "English proficient."
Impact: This can manifest as reluctance to participate, anxiety about academic performance, or a sense of isolation, which can indirectly affect academic outcomes.

4. What are the home languages of ELLs with the largest representation at your school? What staff, structures, and processes does your school have to support communication and learning that values these home languages?

At P.S. 151K, Spanish and Arabic are the home languages of our English Language Learners (ELLs) with the largest representation. Our school is fortunate to have staff members who represent various cultures, allowing them to share their backgrounds and experiences directly with our students.

At P.S. 151K we have a robust system of staff, structures, and processes dedicated to supporting communication and learning that deeply values our students' home languages, particularly Spanish and Arabic:

Dedicated Staff and Expertise:
Bilingual and ESOL/TESOL Certified Teachers: We employ licensed bilingual teachers, particularly in our Dual Language program (Spanish), and TESOL/ESOL certified teachers across the school. These educators are experts in second language acquisition and culturally responsive pedagogy.

Bilingual Paraprofessionals: For our special needs ELLs/MLLs, we specifically include bilingual paraprofessionals in their classrooms. These invaluable staff members provide direct native language support for content comprehension and communication.

Parent Coordinator: Our Parent Coordinator is a pivotal figure in facilitating communication with families. They are often bilingual themselves or have direct access to translation services, ensuring families can comfortably engage with the school.

Galaxy-designated Language Access Coordinator (LAC): This individual is responsible for overseeing language access policies and ensuring that information and services are provided in families' preferred languages.

Multilingual Staff: Beyond certified roles, we actively leverage the diverse linguistic skills of other staff members (e.g., administrative staff, guidance counselors, support personnel) who may speak Spanish or Arabic, fostering an environment where home languages are heard and affirmed daily.

Structures and Resources that Value Home Languages:
Dual Language Program (Spanish-English): Our Spanish-English Dual Language program is the cornerstone of our commitment to biliteracy. It systematically develops proficiency in both languages through the "rollercoaster model" and utilizes specific curricula like HMH/Arriba for Spanish Language Arts. This program directly sustains and celebrates Spanish as a valued language of instruction and learning.

Home Language Assessments:
We utilize the Fountas & Pinnell "Sistema de evaluación de la lectura" and A-Z Reading Benchmark in Spanish to accurately determine students' reading levels in their home language.
i-Ready ELA and Math assessments are administered in both English and students' home languages (primarily Spanish). This data is critically analyzed by teachers to understand conceptual knowledge independently of English proficiency and to drive instruction.
Estrellita also provides ongoing assessments in the students' home language.

Bilingual Classroom Materials:
Bilingual dictionaries and content-specific bilingual glossaries are readily available in classrooms and for students. When needed, teachers are provided with native language math, science, and social studies books/materials to make complex content comprehensible for students whose native languages are Spanish or Arabic.
Digital resources: Online platforms and videos with content available in both English and students' native languages are utilized to ensure access to grade-level content and standards.

Language-Supported Curriculum: Our Science and Social Studies curricula are explicitly designed to be language-supported for ELLs, integrating these bilingual resources and scaffolding strategies.

Access to Translated State Exams: Math and Science state exams are available in Spanish. For other languages like Arabic, interpreter services are sought to translate the English NYS exams when necessary, ensuring linguistic access for high-stakes assessments.

School Documents in Home Languages: All critical school documents (flyers, meeting dates, handbooks, presentations) are provided to families in their preferred language, ensuring equitable access to vital information.

Processes that Integrate and Support Home Languages:
Proactive HLIS Administration: The Home Language Identification Survey is the first step, immediately flagging students for potential language support.

Parent Communication: Our Parent Coordinator facilitates direct communication in parents' preferred languages for various interactions, including individual teacher meetings. Families are explicitly informed they can respond or initiate communications in person, through ClassDojo, or via letter, with support from the Parent Coordinator.

Culturally Responsive Pedagogy: Teachers are trained to leverage students' prior knowledge and cultural backgrounds as assets. This includes encouraging students to share their cultural experiences, incorporating diverse texts, and creating a classroom environment where students feel safe to use their home language to make meaning.

Collaborative Planning: During common planning, prep periods, and vertical meetings, ENL/Bilingual teachers collaborate with classroom teachers to embed cross-linguistic connections, build metalinguistic awareness, and purposefully plan for translanguaging opportunities. This validates and utilizes students' home language as a valuable learning tool.

Professional Development: Our PD calendar includes specific sessions on "Implementation of the Language Allocation policy" and "Using virtual platforms for ELLs and native language instructions," underscoring our

commitment to effective use of home languages in pedagogy.

Inquiry Teams: Teachers in our inquiry teams analyze data from home language assessments (i-Ready in Spanish) to specifically drive small group instruction and differentiate support, ensuring that instruction builds upon students' existing linguistic strengths.

By integrating these robust staff, structures, and processes, P.S. 151K actively fosters an environment where Spanish and Arabic are not just acknowledged but genuinely valued as integral to our students' identities, learning processes, and overall academic success.

5. What are the racial and ethnic classifications of ELLs at your school? How are ELLs being included in planning and delivery of Culturally Responsive and Sustaining Education (CR-SE)?

At P.S. 151K, our English Language Learner (ELL) population is wonderfully diverse, reflecting the rich tapestry of New York City. While specific granular data on the exact percentages by race/ethnicity for our ELLs would be available in our school's official demographics reports, generally, ELL populations in NYC public schools are predominantly Hispanic/Latino, followed by significant populations of Asian and Arabic students, and smaller percentages of Multiracial students.

At P.S. 151K, we view Culturally Responsive and Sustaining Education (CR-SE) not as an add-on, but as the foundational lens through which we approach all instruction and school culture. We believe that CR-SE is inherently beneficial for all students, and absolutely indispensable for our ELLs/MLLs. Their inclusion in the planning and delivery of CR-SE is deeply embedded in our practices:

Affirming Linguistic and Cultural Identities (Foundational to CR-SE for ELLs):

Dual Language Program: Our Spanish-English Dual Language program is a prime example of CR-SE in action. It actively sustains students' home language and culture while developing English proficiency. This program directly validates the linguistic and cultural capital of our Spanish-speaking students.
Home Language Assessments: The regular use of i-Ready ELA and Math in home languages, and Fountas & Pinnell "Sistema de evaluación de la lectura," demonstrates that we value and leverage students' existing knowledge in their native tongues as a bridge to English. This sends a clear message that their home language is an asset, not a deficit.
Bilingual Resources: Providing bilingual dictionaries, content-specific bilingual glossaries, and videos in students' native languages for Science and Social Studies units ensures they can access rigorous content while developing English.
Curriculum and Pedagogy that Honors Diversity:

Diverse Texts and Materials: Teachers are encouraged to select and incorporate a wide range of multicultural texts, stories, and resources that reflect the diverse backgrounds, experiences, and historical contributions of our students' communities. This provides "mirrors" for students to see themselves and "windows" into other cultures.
Connecting Learning to Students' Lives: Lessons are explicitly designed to connect new concepts to students' prior knowledge, cultural experiences, and daily lives. For example, math word problems might incorporate cultural contexts, or science lessons might explore phenomena relevant to students' countries of origin.
Thematic Units: Our ENL classes deliver instruction through thematic units that allow for deep dives into content while integrating vocabulary, reading, writing, speaking, and listening skills. These units often draw on universal themes that can be explored through diverse cultural lenses.
Student Voice and Agency: We actively create opportunities for ELLs to share their perspectives, knowledge, and experiences in the classroom. This is fostered through collaborative group work, student-to-student discourse, and projects where students can present their learning in creative ways that showcase their unique strengths (e.g.,

drawings, bilingual presentations, multimedia projects).
High Expectations and Academic Rigor with Scaffolds:

UDL Strategies: Our school-wide planning template incorporates Universal Design for Learning (UDL) strategies to ensure that curriculum is accessible to all learners, including ELLs/MLLs. This means providing multiple means of representation, engagement, and expression.
Explicit Scaffolding: Teachers explicitly teach academic language, provide sentence starters, use graphic organizers, and break down complex tasks. This ensures that high expectations are maintained, and students are given the necessary tools to reach them, rather than lowering the bar.
Targeted Differentiation: Interventions at Tier I, II, and III are designed to be culturally responsive. For example, small group interventions might utilize culturally relevant games or visuals, and individualized support might draw on a student's personal interests and background.
Building Relationships and Community Partnerships:

"Knowing Every Student Well": Our data analysis process, which includes home language assessments and qualitative teacher observations, is foundational to truly understanding each ELL/MLL beyond just their English proficiency level.
Family Engagement: Our Parent Coordinator plays a crucial role in building partnerships with families, particularly those of our ELLs. This includes providing information in home languages, organizing workshops that address common family concerns (e.g., navigating the school system, supporting language development at home), and inviting families to share their cultural traditions with the school community.
Restorative Practices: We foster a safe and inclusive environment through restorative practices, ensuring that all students, including ELLs, feel a sense of belonging and can express themselves freely and respectfully.
Professional Learning for Staff:

ENL Consultant Support: Our work with ENL consultant Millie Goodman is a direct investment in enhancing teachers' capacity to deliver CR-SE, especially concerning reading comprehension and sentence writing for ELLs. This professional development focuses on strategies that are inherently responsive to linguistic and cultural diversity.
Collaborative Planning: Teacher grade-level teams and unit planning teams, which include ENL/Bilingual specialists, collaboratively develop unit plans. This ensures that performance-based assessments and curriculum content explicitly provide access for ELLs/MLLs and incorporate CR-SE principles from the outset.
Focus on Speaking and Listening Standards: The deliberate inclusion of Speaking and Listening standards in all subjects supports CR-SE by valuing oral traditions and providing structured opportunities for ELLs to develop their communicative competence in academic settings.
By embedding these practices throughout our school culture and instructional design, P.S. 151K strives to create an educational experience where our ELLs/MLLs feel seen, valued, and empowered to leverage their unique identities and linguistic assets for academic success and critical consciousness.

6. What trends do you notice in reviewing English Language Proficiency (ELP) growth at your school? How many students met ELP sufficient progress? How many students did not meet ELP sufficient progress?

Overall ELP Growth Trends at P.S. 151K:
Steady Growth, Especially in Early Grades: We generally observe consistent year-over-year growth in ELP for students who enter our school in Kindergarten or early elementary grades. These students, who benefit from sustained exposure to our comprehensive ENL and Dual Language programs, tend to move through the proficiency levels at a predictable pace.

More Rapid Initial Gains in Listening and Speaking: Consistent with broader research, our students typically demonstrate the most rapid gains in the Listening and Speaking modalities, particularly in their first 1-3 years as

ELLs. This is likely due to the high volume of oral interaction in our classrooms, the use of Total Physical Response (TPR), and a focus on communicative activities.

Slower, More Challenging Growth in Reading and Writing: As highlighted in our previous discussions, Reading and Writing often present greater challenges and show a slower rate of progress. This is especially true as students move into higher elementary grades where texts become more complex and writing demands shift from simple sentences to multi-paragraph responses and academic essays. Our recent NYSESLAT data confirmed a specific need for "additional support in the writing and reading portions of the assessment," indicating this persistent trend.

Plateauing at Transitioning/Expanding Levels: While many students make good initial progress, we see a segment who tend to "plateau" at the "Transitioning" or "Expanding" levels for multiple years. These often become our Long-Term ELLs (LTELLs). This suggests that while they have developed strong social English, they require more intensive, targeted academic language instruction to reach "Commanding" proficiency.

***** How many students met ELP sufficient progress? *****

***** How many students did not meet ELP sufficient progress? *****
Impact of Prior Schooling and L1 Literacy: Students who enter P.S. 151K with strong literacy foundations in their home language (e.g., from our Dual Language program or having received consistent education in their native country) often demonstrate faster overall ELP growth, especially in reading and writing, as they can transfer literacy skills. Conversely, SIFE students who arrive with interrupted or limited formal education in their native language often show slower overall growth across all modalities, reflecting the immense challenge of developing both foundational literacy and a new language simultaneously.
Sufficient Progress Metrics (Based on NYSED Guidelines):
New York State determines "sufficient progress" on the NYSESLAT through a growth model that accounts for the student's prior year's proficiency level and grade level. While specific targets vary by individual student's starting point, the general idea is that students should either:

Advance at least one proficiency level.
Make a predetermined amount of scale score gain to remain "on track" for proficiency.
Exit the ELL program by achieving "Commanding" proficiency (or "Expanding" with a Level 3+ on the ELA state assessment).

7. When you look at the results of the New York State English as a Second Language Achievement Test (NYSESLAT), what stands out? What trends are there for each modality?

When looking at the results of the New York State English as a Second Language Achievement Test (NYSESLAT), several consistent patterns and trends often stand out, both in the overall data and across the individual language modalities (Listening, Speaking, Reading, Writing). These trends provide crucial insights for instructional planning and program evaluation.

What Stands Out Generally in NYSESLAT Results:

Bell Curve Distribution (with a skew): Often, there's a larger concentration of students in the "Emerging" and "Transitioning" proficiency levels, especially in the early and middle elementary grades. Fewer students are typically at "Entering" (unless they are recent arrivals) or "Commanding." This reflects the developmental nature of language acquisition, where students spend time in intermediate stages.

Importance of Early Years: Students who start as ELLs in Kindergarten or Grade 1 and receive consistent, high-quality ENL/Bilingual services tend to make faster progress towards "Commanding" proficiency than students who

arrive later in elementary school or in middle/high school. This highlights the critical window for early language development.

Long-Term ELLs (LTELLs): A consistent concern for districts is the cohort of students who remain at "Transitioning" or "Expanding" levels for many years, often six or more. These "Long-Term ELLs" (LTELLs) struggle to reach "Commanding" proficiency, often due to a plateau in academic language development or a lack of consistent, targeted language support integrated across content areas.

Influence of Grade Level: While proficiency level is tracked across grades, the demands of the NYSESLAT increase significantly with grade level. A "Transitioning" score in Kindergarten looks very different from a "Transitioning" score in 5th grade, requiring more complex language. This means even students who are consistently making progress might not show dramatic leaps in their overall proficiency level each year as the target for that level becomes higher.

Impact of School-Wide Initiatives: When schools implement focused, school-wide initiatives (like P.S. 151K's emphasis on reading comprehension and sentence writing structure across all content areas), these efforts can begin to show up as slight upticks in the relevant modalities on the NYSESLAT results in subsequent years.

Trends for Each Modality:
While individual student profiles vary, common trends across the four modalities often emerge:

Listening:
Trend: Often the strongest modality for many ELLs, especially in the early stages of language acquisition (Entering, Emerging). Students can typically comprehend more than they can produce or read. Newcomers often show rapid initial gains in listening.
Why it Stands Out: Listening is the first receptive skill acquired in a new language. Students are constantly exposed to spoken English in the classroom and daily life. It often requires less active production and allows for reliance on context, intonation, and non-verbal cues.
Challenges: As students progress, challenges in listening can shift from literal comprehension to understanding nuances, inferences, academic discourse, and distinguishing subtle differences in meaning, especially in longer passages or academic lectures.

Speaking:
Trend: Often closely linked to listening, with many students progressing from "Entering" (single words, formulaic phrases) to "Emerging" (short phrases, simple sentences). Gains can be steady, but achieving fluency and academic precision can take time.
Why it Stands Out: Speaking is the first productive skill. Students are motivated to communicate basic needs and social interactions. Active participation in classroom discussions and teacher-guided prompts directly supports this.
Challenges: A common plateau occurs when students can engage in social conversations but struggle with academic discourse – explaining complex ideas, providing evidence, justifying reasoning, or using precise academic vocabulary. They may rely on simpler grammatical structures, and errors can be frequent even at "Transitioning" levels. This is where the gap between conversational (BICS) and academic (CALP) language becomes evident.

Reading:
Trend: Often a modality where ELLs make slower or more uneven progress, especially compared to listening and speaking. Many students can decode words but struggle with comprehension, particularly inferential and critical reading.
Why it Stands Out: Reading requires decoding skills, vocabulary knowledge, comprehension strategies, and background knowledge, which can be challenging to build in a new language. It's often the first academic hurdle for ELLs. Our data at P.S. 151K confirmed a need for "additional support in the reading portion."
Challenges:

Vocabulary Gaps: A limited English vocabulary significantly hinders reading comprehension.
Lack of Prior Knowledge: If texts assume certain cultural or academic background knowledge that ELLs lack, comprehension suffers.
Syntax and Sentence Structure: Understanding complex English sentence structures, especially longer, multi-clause sentences, is a major barrier.
Interference from Native Language: Transfer of decoding skills from L1 is not always direct, especially for non-alphabetic languages.
Transition to Informational Text: Moving from narrative to dense informational texts, often rich in academic vocabulary and complex ideas, presents a significant challenge.

Writing:
Trend: Frequently the most challenging modality for ELLs, often showing the slowest progress. Students may struggle with producing coherent, grammatically correct, and detailed responses.
Why it Stands Out: Writing is the most demanding productive skill, requiring not only linguistic proficiency but also organizational skills, cognitive processing, and the ability to synthesize information. It reveals gaps in vocabulary, grammar, syntax, and organization. Our P.S. 151K data specifically identified "sentence writing structure" as an area of need.
Challenges:
Grammatical Accuracy: Persistent errors in verb tense, subject-verb agreement, articles, prepositions, and sentence structure are common.
Limited Vocabulary for Expression: Students may struggle to find the precise words to convey their ideas, leading to simplistic or vague writing.
Organization and Cohesion: Difficulty organizing thoughts into logical paragraphs and using transition words effectively.
Lack of Practice: Without sufficient opportunities for extended writing across content areas, progress can stagnate.
Transfer of L1 Writing Conventions: Writing conventions (e.g., essay structure, formality) can differ across languages, leading to interference.
By closely examining these trends in our NYSESLAT results, P.S. 151K can strategically allocate resources, provide targeted professional development, and implement differentiated instruction across all tiers of support to address specific linguistic needs and help all our ELLs/MLLs make consistent progress towards English proficiency.

8. What is the relationship between students' performance on the NYSESLAT and other state assessments such as the ELA assessment, the Math assessment, and the Regents exams?

The relationship between a student's performance on the NYSESLAT (New York State English as a Second Language Achievement Test) and other state assessments like the ELA (English Language Arts) assessment, Math assessment, and Regents exams (primarily high school) is multifaceted and crucial for understanding the academic journey of English Language Learners (ELLs).

NYSESLAT as a Predictor of English-Medium Academic Success
The NYSESLAT is specifically designed to measure a student's English language proficiency across four domains: Listening, Speaking, Reading, and Writing. Its results determine a student's ELL status and the level of mandated English as a New Language (ENL) or Bilingual Education services they receive.

There is a strong, direct relationship: higher proficiency levels on the NYSESLAT generally correlate with better performance on English-medium content area assessments. This is because academic content assessments, even in subjects like Math or Science, are inherently language-laden. Students need to comprehend complex instructions, interpret word problems, articulate their reasoning, and write explanations, all of which rely on English language proficiency.

Relationship with Grades 3-8 ELA and Math Assessments
ELA Assessment:

Direct Correlation: Performance on the NYSESLAT is a strong predictor of performance on the Grades 3-8 ELA assessment. As ELLs progress through the NYSESLAT proficiency levels (Entering, Emerging, Transitioning, Expanding, Commanding), their scores on the ELA assessment typically improve.
Language Barrier: For ELLs at lower NYSESLAT proficiency levels (Entering, Emerging, Transitioning), the ELA assessment often becomes a test of English language proficiency in addition to ELA content. They may struggle with reading comprehension, vocabulary, and writing tasks not due to a lack of cognitive ability, but due to insufficient English language skills.
Exit Criteria: A key connection is that an ELL can exit ENL services if they score "Commanding" on the NYSESLAT, OR if they score "Expanding" on the NYSESLAT and achieve a Level 3 or higher on the Grade 3-8 ELA assessment in the same school year. This directly links proficiency in both language and academic content.
Math Assessment:

Indirect but Significant Correlation: While Math assessments primarily test mathematical concepts, the language of the test (word problems, instructions, multi-step directions) significantly impacts an ELL's performance. Students at lower NYSESLAT levels may understand the math concept but fail to comprehend the question or explain their reasoning in English.
Role of Home Language: As observed at P.S. 151K, ELLs often score higher on Math assessments administered in their home language. This highlights that their mathematical understanding is often stronger than their English proficiency allows them to demonstrate. The gap between home language math scores and English math scores for ELLs is often indicative of their current English language barrier.
Glossaries and Accommodations: The ability to use bilingual glossaries and receive extended time on the Math assessment (as per NYSED guidelines for ELLs) helps to mitigate the linguistic barrier, allowing their mathematical knowledge to be more accurately assessed.

Overall Dynamic:
The NYSESLAT serves as the diagnostic tool for English language proficiency, informing the intensity and type of language supports ELLs receive. Performance on the NYSESLAT directly influences an ELL's ability to access and demonstrate understanding on English-medium state assessments. As an ELL progresses through the NYSESLAT proficiency levels and eventually exits ENL services, their performance on ELA, Math, and Regents exams typically aligns more closely with that of their English-proficient peers. For those still developing English, the option of home-language assessments and strategic accommodations are crucial bridges to ensure their content knowledge is accurately measured, rather than solely their English proficiency

9. What are trends reflected in the NYSESLAT results of ELL subgroups such as ELLs with IEPs and SIFE? What do you think is impacting the results for these subgroups?

At P.S. 151K, we pay close attention to the NYSESLAT results of all our English Language Learner (ELL) subgroups, particularly ELLs with IEPs (Individualized Education Programs) and Students with Interrupted Formal Education (SIFE). While the overall goal for all ELLs is to reach English proficiency, these subgroups often exhibit distinct trends and face unique challenges that impact their scores.

Trends Reflected in NYSESLAT Results for Subgroups
ELLs with IEPs:

Slower Rate of English Language Acquisition: This is a common and often expected trend. Students with IEPs, by definition, have identified learning disabilities that impact their ability to learn and process information, including language. This typically translates to a slower rate of progress across all four domains (listening, speaking, reading,

writing) on the NYSESLAT compared to their non-IEP ELL peers.

Disparities Across Domains: We frequently observe uneven development across the NYSESLAT domains. For example, a student with a reading-specific learning disability might score relatively higher in listening and speaking, but significantly lower in reading and writing. This is due to the specific nature of their disability.

Persistent Gaps in Academic Language: Even as some ELLs with IEPs make progress in social English, they often struggle more profoundly with academic language, which is heavily assessed on the NYSESLAT. This includes understanding complex sentence structures, abstract vocabulary, and inferential comprehension.

Challenges with Test Format and Demands: Depending on the nature of their disability, some students may struggle with the test format itself, such as timed components, multiple-choice questions, or extended writing tasks, even with appropriate accommodations.
SIFE (Students with Interrupted Formal Education):

Lower Initial Proficiency Across All Domains: SIFE students often enter with very low English proficiency across the board and may also have limited or no literacy skills in their native language due to inconsistent or interrupted schooling. This typically results in "Entering" or "Emerging" scores across all NYSESLAT domains in their initial years.

Significant Gaps in Foundational Literacy: A notable trend for SIFE is a particular struggle with foundational literacy skills (phonics, phonemic awareness, decoding) in English. This directly impacts their reading and writing scores and is often exacerbated if they are pre-literate or have limited literacy in their native language.

Rapid Initial Gains Followed by a Plateau: Some SIFE students may show rapid initial gains in listening and speaking as they are immersed in an English-speaking environment. However, they may then experience a plateau, especially in academic reading and writing, as these domains require more developed cognitive academic language proficiency (CALP) and strong underlying literacy skills.

Impact of Trauma/Socio-Emotional Factors: The experiences that led to interrupted schooling (e.g., migration, trauma, displacement) can significantly impact their ability to focus, attend, and engage with academic tasks, which can depress NYSESLAT scores.

Factors Impacting Results for These Subgroups
Several complex and interrelated factors contribute to the trends observed in these ELL subgroups:

For ELLs with IEPs:

Distinguishing Language Acquisition from Disability: It's often challenging to differentiate between typical second language acquisition challenges and the manifestation of an underlying learning disability. This can lead to misidentification (over- or under-identification) or delayed identification of true learning disabilities, which impacts the timing and type of appropriate interventions.

Cognitive Processing Challenges: Many learning disabilities affect fundamental cognitive processes such as processing speed, working memory, and executive function. These directly impede the rapid acquisition and application of a new language, as well as the ability to retain and utilize new vocabulary and grammatical structures, which are all vital for NYSESLAT success.

Limited Access to Specialized Bilingual Support: While P.S. 151K provides services and paraprofessionals, the availability of highly specialized dually-certified (Bilingual/ESOL and Special Education) teachers can be a systemic challenge. This can impact the depth and integration of linguistic and academic support for these complex learners.

Test Design Limitations: Standardized assessments like the NYSESLAT, while designed for ELLs, may still pose challenges for students with certain disabilities if test items or formats inadvertently measure aspects related to the disability rather than solely English proficiency, even with accommodations.

For SIFE:
Limited or Interrupted Prior Formal Education: This is arguably the most significant factor. Lacking foundational academic skills, consistent schooling routines, and established literacy in their native language creates a profound disadvantage. SIFE students are simultaneously acquiring English, learning how to "do school" in a new system, and often developing basic literacy for the first time, all of which are assessed by the NYSESLAT.

Age-Appropriate Placement vs. Skill Gaps: SIFE students are typically placed in age-appropriate grade levels, but their academic skills may be years below their peers. This creates a significant gap between the linguistic and academic demands of the NYSESLAT (which aligns to grade-level content) and their foundational knowledge, impacting their scores.

Socio-Emotional and Trauma-Informed Needs: Many SIFE students have experienced significant trauma, displacement, or instability before arriving. These experiences can lead to anxiety, difficulty concentrating, fatigue, and other social-emotional challenges that directly interfere with their ability to learn and perform optimally on assessments.

Cultural and Linguistic Adaptation: Adapting to a completely new educational system, classroom culture, and language simultaneously is immensely challenging. This constant cognitive and emotional load can impact their capacity for rapid language acquisition.

"Catch-Up" Demands: SIFE students are essentially trying to "catch up" on years of missed schooling in both their native language literacy and English simultaneously. This extremely demanding task naturally impacts their rate of progress on a high-stakes language proficiency test like the NYSESLAT.

In response to these trends, P.S. 151K continuously refines its MTSS to provide intensive, differentiated support for these subgroups. This includes leveraging native language, implementing explicit foundational literacy instruction, and incorporating trauma-informed practices and socio-emotional support into our daily routines, all driven by the comprehensive data collected, including NYSESLAT results.

10. (For grades 9-12 only) Please review your data in the Insight Tool and STARS to answer the following questions:
a. How many ELLs are on-track towards graduation?

Not Applicable

b. How many ELLs in grades 11-12 have a documented postsecondary plan in STARS or ATS?

Not Applicable

c. What targeted strategies and interventions are in place to support ELLs who are currently off-track to graduate in four years?

Not Applicable

d. What specific strategies, engaging approaches, and interventions are implemented to support and retain students who are not on track to graduate within four years, ensuring they remain enrolled and are guided towards a successful graduation in the future?

Not Applicable

Part V: ML/ELL Instruction

Tier 1: Core Instruction

For additional information, refer to ML/ELL Instruction Professional Learning Module.

Tier 1 Core Instruction

1. How does your school provide ELLs with a high-quality academic experience that leads to deeper learning?

At P.S. 151K, we are dedicated to providing English Language Learners (ELLs) with a high-quality academic experience that fosters deeper learning. We achieve this by focusing on three key areas:

Varied Learning Styles and Engaging Discussions
We appeal to diverse learning styles and actively promote student discussion. We believe that the most effective way to help our students become comfortable with conversational English is by providing them with opportunities to engage in rich discussions. Creating a safe space for them to share their thoughts has allowed them to participate in conversations where they know their contributions are valued within their school community.

Promoting Reading for Pleasure
We've learned that providing opportunities for our students to read books they genuinely enjoy accelerates and eases language acquisition. By encouraging them to explore topics of interest, we cultivate a love for reading that naturally supports their language development.

Experiential Learning Through Trips
Throughout the school year, teachers create opportunities for students to go on trips directly related to their classroom learning. These experiences provide real-world context and further enrich their academic journey.

By taking these three focuses into consideration, we empower our students with a deeper, high-quality learning experience.

2. How does your school's leadership team ensure ELLs have access to core instruction/curriculum?

Our instructional leadership team meets every Monday to analyze both formative and summative student learning data. For our English Language Learners (ELLs), we specifically examine data from Acadience, i-Ready, end-of-unit assessments, and Renaissance.

A key trend identified from these assessments is that many students score higher in their native language on i-Ready and Renaissance. We've also noticed that many students can clearly articulate their thoughts verbally but struggle to fully transfer these ideas into writing. As this data is analyzed, the team collaboratively determines appropriate scaffolds to support students in areas where they need assistance.

To further support instruction and curriculum, the leadership team facilitates grade-level planning, vertical team meeting planning, professional development sessions, and individual coaching opportunities. At the end of meetings, teachers complete a feedback form, which helps the team plan next steps. During coaching sessions, coaches conduct classroom observations, similar to those performed by the principal. They then provide targeted feedback and identify staff for specific professional development. These practices are crucial for informing instruction for our ELLs and continuously improving teacher practice.

3. Describe how core content is delivered in each program model. Specify language, and the instructional approaches and methods to foster language development and meet the demands of the Next Generation Learning Standards.

To support content area instruction, ENL, bilingual, and SWD classroom teachers effectively use a variety of strategies: manipulatives, leveled reading books, visual cues (like pictures), Total Physical Response (TPR), and technology to contextualize instruction. In all instructional models, students consistently work in small group settings, receive appropriate scaffolds, and benefit from mandated instructional services.

Teachers strategically group students based on their language needs for targeted direct instructional activities, helping them develop either their native language or the target language. Additionally, students are grouped heterogeneously to increase discourse and build vocabulary. Within each lesson, objectives and Next Generation Learning Standards (NGLS) for speaking and listening are embedded to support students with their targeted average or native language. The ENL and bilingual teachers provide content area support by offering appropriate scaffolds based on students' proficiency levels. When needed, teachers are provided with native language math, science, and social studies books/materials to make content more comprehensible for students whose native languages are other than English. Spanish and Arabic are our most common languages, and dictionaries are also available for our ELL and MLL populations. Math and science state exams are available in Spanish, and if needed, interpreter services will be sought to translate English NYS exams into languages like Arabic.

Teachers in our Dual Language Program follow both the New Language Arts Progression (NLAP) and Home Language Arts Progression (HLAP) for every New York State Next Generation Learning Standard. Students are also immersed in a social studies thematic curriculum aligned with these standards, seamlessly integrated with our cultural components. Our school also provides engaging activities, including first-hand experiences through cultural events, museums, and farms within the content areas. These experiences are designed to help students develop the necessary academic language in both their native and targeted/second language.

4. What instructional strategies and grade-level materials, including technology, do teachers of MLs/ELLs use to provide access to grade level academic content areas and accelerate English language development? Include core content area and language materials with consideration to specific ELL subgroups.

a. ELLs with IEPs

Our curricular, instructional, and scheduling flexibility at P.S. 151K are specifically designed to meet the diverse needs of our English Language Learner (ELL) and Students with Disabilities (SWD) students.

Instructional strategies include opportunities for differentiated, explicit instruction tailored to each student's reading and writing levels. Throughout a lesson, this differentiation is based on varying English proficiency levels and individual student IEPs. All instruction directly addresses the unique learning needs of our ELL/SWD students as outlined in their Individualized Education Plans.

Mutually-agreeable scheduling is a crucial curricular and instructional component in meeting the academic needs of our ELLs/MLLs. This collaborative scheduling involves our ENL teacher, SWD teacher, and classroom teachers.

For our ELL/SWD students, we utilize grade-level materials from our current curricula, including HMH, Illustrative Math, Fundations, Estrellita, Amplify, Passport, and Teachers College Writing. Examples of these materials include digital math manipulatives, counters, and letter tiles. In the classroom, we integrate technology platforms such as BrainPOP, Zearn, Reflex Math, and Smarty Ants.

b. SIFE

To identify Students with Interrupted Formal Education (SIFE) at our school, we administer the multilingual SIFE screener. We also gather information from parents, including prior education reports like report cards from their previous schools.

SIFE students entering our school receive additional services and interventions designed to help them access grade-level curriculum. Strategies to support these students include:

Phonemic awareness activities
Leveled readers
Scaffolded writing instruction
Small group instruction
Teacher conferencing
Videos
Hands-on activities
Peer support systems
Technology is also integrated to support SIFE students by providing them access to ENL websites and academic resources available to their mainstreamed peers. SIFE students receive the mandated 360 minutes of ENL/MLL instruction in addition to ELA, math, and ENL after-school programs.

Furthermore, SIFE students are part of our inquiry teams. In these teams, teachers analyze student data from Acadience, i-Ready, and unit assessments to inform and drive small group instruction. In addition to these supports, teachers also focus on making cross-linguistic connections, building metalinguistic awareness, and purposefully planning for translanguaging opportunities. These supports are developed when teachers collaborate during common planning, prep periods, or vertical meeting times. Teachers also ensure a strong parent-home connection is in place, recognizing parents as a vital component of the students' learning.

c. Newcomers

Newcomers at our school receive the mandated instructional minutes of ENL service and have access to language learning technology and programs available through the school's portaportal website. Classroom teachers provide scaffolded instruction across all content areas. We utilize strategies such as "turn and talk," small group work, partner Q&A, and collaborative groups to foster the development of listening and speaking skills. Our balanced literacy approach supports students through a multitude of reading and writing strategies, including audiobooks, interactive stories, read-alouds, shared readings, various writing activities, and videos.

Based on our data, a recurring trend we've observed is that students often have difficulty expressing their thoughts clearly in written or spoken English. To address this, teachers provide students with sentence stems, visuals, and technology-based translation tools to support their writing. Furthermore, teachers offer video content not only in English but also in students' native languages. This dual-language access helps ensure our students can fully access grade-level content and standards.

d. Long Term ELLs

At PS151K, our strategy for supporting students identified as Long-Term English Language Learners (LT-ELLs) is centered on a critical shift in instructional focus: moving beyond basic language acquisition to rapidly accelerate their academic language proficiency and ensure mastery of content.

This acceleration is executed through four key instructional pillars:

Targeted Academic Language Proficiency: Teachers explicitly shift instruction away from basic social English (Tier 1 vocabulary). The primary focus is on teaching Tier 2 and Tier 3 vocabulary and the complex grammatical structures required for success across all academic subjects.

Increased Cognitive Rigor: We are committed to maintaining the integrity of complex content and high-level concepts. Instead of simplifying the curriculum, we provide demanding, complex assignments while strategically scaffolding the language output required from the student.

Explicit Strategy Instruction: We provide direct instruction in metacognitive skills. Students are taught how to actively monitor their own comprehension, self-correct, and utilize effective learning strategies such as summarizing, questioning, and making textual connections.

Integrated Content and Language: Content area teachers (Math, Science, Social Studies, etc.) are responsible for implementing Sheltered Instruction techniques. This ensures complex subject matter remains accessible and comprehensible while simultaneously driving continuous academic language development.

This coordinated approach ensures all LT-ELLs are receiving the targeted support necessary to achieve full academic English proficiency.

5. What supports does your school provide to ELLs with IEPs to achieve their IEP goals and attain English language proficiency within the least restrictive environment?

At P.S. 151K, our curricular, instructional, and scheduling flexibility are specifically designed to meet the diverse needs of our English Language Learners (ELLs) and Students with Disabilities (SWDs) within the least restrictive environment. Our approach includes opportunities for differentiated and explicit instruction tailored to the reading and writing levels of our students. This differentiation is further refined based on varying English proficiency levels and individual student IEPs. Fundamentally, all instruction addresses the unique learning needs of our individual ELL-SWD students as outlined in their Individualized Education Plans. Collaboration with the classroom teacher and mutually-agreeable scheduling are crucial curricular and instructional components in meeting the academic needs of our ELLs/MLLs, facilitated by our ENL teacher, SWD teacher, and classroom teachers.

How is technology being used to support this demographic of students instructionally?
Technology is a vital tool in supporting the instruction of our ELL-SWD students. We leverage a range of digital resources and platforms:

Curriculum-aligned programs: We utilize digital components from our core curricula like HMH, Illustrative Math, Fundations, Estrellita, Amplify, and Passport. This includes digital math manipulatives, interactive exercises, and online workbooks.

Targeted learning platforms: Students access platforms such as BrainPOP, Zearn, Reflex Math, and Smarty Ants for differentiated practice and conceptual understanding. These platforms often provide visual supports, immediate feedback, and adaptive learning paths.

Google Classroom: This serves as a central hub for assignment delivery, resource sharing (including links to ENL websites and academic resources), and facilitating communication. It allows for flexible access to materials, enabling students to revisit content as needed and providing parents with transparency into their child's learning.

Interactive tools: Platforms like Jamboard, FlipGrid, and Padlet are used to provide students with alternative modalities for expressing their understanding, collaborating, and practicing language skills, particularly in writing and speaking.

Audio and Visual Supports: We utilize videos, audiobooks, and interactive stories to provide multiple access points to content, benefiting students with varying learning styles and language proficiency levels.

What instructional strategies or scaffolds are being used to provide sheltered or explicit instruction?
Our teachers employ a comprehensive array of instructional strategies and scaffolds to provide sheltered and explicit instruction for our ELL-SWD students:

Explicit Language Instruction: Directly teaching academic vocabulary, grammar, and sentence structures relevant to content areas.
Contextualization: Using manipulatives, realia, visuals (pictures, diagrams, charts), and Total Physical Response (TPR) to make abstract concepts concrete and comprehensible.

Leveled Reading Materials: Providing access to texts that are appropriately challenging in terms of linguistic complexity, aligned with students' English proficiency levels.

Graphic Organizers & Thinking Maps: These tools help students organize thoughts, make connections, and structure their writing and understanding of complex concepts.

Sentence Stems & Frames: Providing linguistic support to help students initiate and construct grammatically correct oral and written responses.

Small Group Instruction: Targeted instruction based on language proficiency levels and specific IEP goals, allowing for individualized attention and immediate feedback.

Differentiated Assignments & Multiple Entry Points: Tasks are adapted to meet varying needs, ensuring all students can access the curriculum and demonstrate their learning.

Peer Support Systems: Encouraging collaborative learning through partner work, peer tutoring, and group projects to foster language development through interaction.

Teacher Conferencing: One-on-one meetings with students to address individual needs, provide specific feedback, and support academic growth.

Cross-Linguistic Connections & Translanguaging: Teachers purposefully plan opportunities for students to leverage their native language knowledge as a resource for learning English and academic content, building metalinguistic

awareness.

What supports are in place to monitor data to ensure the least restrictive environment is the most suitable or accurate setting for the students?

We employ a multi-layered approach to monitor data and ensure that the least restrictive environment (LRE) remains the most suitable and accurate setting for our ELL-SWD students:

Regular Data Analysis by Instructional Leadership Team: Our instructional leadership team meets weekly to analyze both formative and summative student learning data. For ELLs, this includes Acadience, i-Ready, end-of-unit assessments, and Renaissance data. Identifying trends, such as students scoring higher in their native language or struggling with written expression, directly informs instructional adjustments and intervention planning.

IEP Review and Progress Monitoring: For SWDs, the IEP outlines specific goals and services. The special education team and classroom teachers rigorously monitor progress towards these goals. Regular IEP review meetings (annual reviews, triennial evaluations) serve as formal opportunities to assess the appropriateness of the LRE and make adjustments based on student growth and needs.

ELL/MLL Proficiency Monitoring (NYSELAT/NYSITELL): Students' English language proficiency is formally assessed annually with the New York State English as a Second Language Achievement Test (NYSELAT) and for newcomers with the NYSITELL. These results directly inform program placement and the intensity of ENL services, ensuring alignment with mandated minutes and proficiency levels.
Collaborative Planning and Communication:
Common Planning Periods: ENL, bilingual, SWD, and classroom teachers utilize common planning periods to discuss individual student progress, share strategies, and ensure the integration of supports within general education settings.

Vertical Team Meetings: Dual Language vertical team meetings further ensure consistency in practice and allow for discussions on student progress across grade levels.

Inquiry Teams: Teachers collaborate in inquiry teams, analyzing student performance data to drive small group instruction and targeted interventions, constantly evaluating if the current instructional setting is optimal.

Classroom Observations and Feedback: Coaches and administrators conduct classroom observations, providing specific feedback to teachers on their implementation of scaffolds and differentiated instruction. This helps ensure that the LRE is truly inclusive and effectively supports students.

Parent-Home Connection: Maintaining a strong parent-home connection ensures parents are vital partners in the student's learning journey and in determining the most suitable educational placement. Their insights into their child's language development and comfort level are highly valued and contribute to decisions about the LRE.

Flexible Grouping: Continuously adjusting small group instruction and other flexible groupings based on ongoing formative assessment data ensures that students are always receiving the right level of support in the most appropriate instructional context.

These integrated monitoring structures ensure that decisions regarding the LRE are data-driven, collaborative, and student-centered, continuously adapting to best meet the evolving academic and linguistic needs of our ELL-SWD students.

6. How is home language assessed in each program model (DLBE, TBE, and ENL)?

Freestanding ENL Program
In our freestanding English as a New Language (ENL) program, students receive native language support through the use of bilingual dictionaries and bilingual content area glossaries. Our special needs ELLs/MLLs also benefit from native language support via the inclusion of bilingual paraprofessionals in their classrooms. Additionally, students in monolingual classrooms are assessed in their home language using the i-Ready ELA and Math assessments. Teachers meticulously analyze this data to effectively drive instruction.

Dual Language Program
Our Dual Language program utilizes the roller coaster model, which effectively integrates Language Arts and Social Studies instruction to meet student needs. For Spanish language instruction, our dual language classes use the Houghton Mifflin Harcourt (HMH)/Arriba reading program.

Dual language bilingual licensed teachers employ a variety of ELL/MLL methodologies to support students' linguistic needs based on their NYSITELL, NYSESLAT, or Fountas & Pinnell English and Spanish proficiency level assessments. These methodologies include:

Creative presentations
Virtual manipulatives
Visual aids
Sentence stems
Sentence starters
Suggested graphic organizers, and more.
Students complete the assessment portions provided by the curricula's online components. Teachers use curriculum-aligned rubrics specific to each grade-level task to monitor, assess, and evaluate student work accordingly. Regarding home language assessments, students take their i-Ready ELA and Math assessments in their home language, with teachers analyzing this data to further inform and drive instruction.

7. (For grades 6-12 only) What language electives are offered to MLs/ELLs? How is your school preparing MLs/ELLs to obtain the New York State Seal of Biliteracy?

Not Applicable

8. Describe systems and structures for supporting co-teaching and collaboration among teachers for all ELL program models available at your school (e.g. integrated co-teaching, Dual Language Bilingual Education teacher partnerships, etc.).

At P.S. 151K, teachers receive weekly support from our coaches during common planning time, where they meet and plan with their grade-level colleagues. Teachers are also given the same prep period as their grade-level colleagues, providing an additional opportunity for them to meet and plan with their team if needed.

9. Describe how your overall, annual professional learning plan ensures that all staff – including administrators, teachers and -non-pedagogical staff – incorporates learning specifically related to the academic and social emotional needs of MLs/ELLs. Professional learning topics might include co-teaching strategies, or integrating language and content instruction.

At P.S. 151K, all of our personnel and teachers of English Language Learners (ELLs)/Multilingual Learners (MLLs) are highly encouraged to attend and participate in numerous professional development seminars. These sessions are designed to provide additional support and knowledge regarding the instruction of all students, with a particular focus on our ELL/MLL population, throughout the academic school year.

We hold weekly administration-initiated professional development workshops for all teachers every Monday from 2:30 PM to 3:40 PM. Additionally, our ESOL/TESOL/Bilingual licensed teachers frequently attend external professional development seminars and workshops related to curriculum and instruction throughout the academic year. They then turn-key this learning to other teachers of ELLs, ensuring widespread knowledge dissemination.

Our teachers, support personnel, and administrators attend various professional development seminars throughout the year. The calendar for these professional development dates is as follows:

A. Identification and Process of ELLs/MLLs: September 2024. Facilitator: A.P. Nieves.
B. What Do We Do with Our Newcomers: October 2024. Facilitators: A.P. Nieves and Ms. Aliers.
C. Implementation of the Language Allocation Policy: October 2024. Facilitators: A.P. Nieves and Ms. Aliers.
D. How to Use UDL and DOK to Support Language and Literacy for ELLs: November 2024. Facilitator: Ms. Aliers.
E. Scaffolding Strategies for ELLs: November 2024. Facilitator: Ms. Aliers.
F. How to Plan for Your ELLs in Different Content Areas: December 2023. Facilitators: TESOL/DL teachers.
G. Using Virtual Platforms for ELLs and Native Language Instructions: January 2024. Facilitators: TESOL/DL teachers.
H. Understanding the NYSESLAT Assessment: March 2025. Facilitator: A.P. Nieves.

Teachers are also encouraged to attend virtual seminars provided by OTIS to learn and implement various remote learning strategies and platforms suitable for ELLs and dual language programs. Furthermore, teachers participate in in-school meetings with consultants from Teachers College (TC), Houghton Mifflin Harcourt (HMH), the UFT Teacher Center, and our District's Multilingual Learners/English Language Learners Services Administrator. These crucial meetings occur during our common planning periods with our literacy and math coaches. These sessions are key for planning in any school setting, whether in-person or virtual. Our school conducts these meetings both in person and through Google Meets, Zoom, or Microsoft Teams.

10. Describe your school's professional development plan in order to meet the mandated Continuing Teacher and Leader Education (CTLE) ELL specific hours for certification renewal as per CR Part 154 (15% of total hours for all certified faculty [holders of professional certificates in the classroom teaching service, educational leadership service and level III teaching assistant certificate holders] and 50% of total hours for bilingual education/ENL teachers receive ELL-specific professional development).

All our staff, including non-ELL teachers, will receive a minimum of 15% of their required professional development (PD) hours focused on supporting English Language Learners (ELLs)/Multilingual Learners (MLLs). Our bilingual and ESOL/TESOL licensed teachers will receive 50% of their PD hours on implementing strategies like concept maps, Thinking Maps, visual aids, graphic organizers, and rubrics to assist ELL/MLL students in the classroom. These PD sessions will occur during our Monday professional development time or at other district-provided days and times.

Our in-house professional development will be facilitated by administrators, coaches, or consultants such as Millie Goodman and Nadine Ruzzier. These workshops will cover various instructional methods and topics, including differentiated instruction to meet the needs of all learners, language acquisition skills, and literacy workshop models. These instructional tools and strategies will be implemented school-wide, with a special emphasis on teaching our special education and ELL/MLL students. Additionally, these workshops will focus on differentiated instruction,

teaching strategies for ELLs, and ELL vocabulary development.

Content area teachers and ENL teachers will also receive ongoing training and professional development throughout the year, by participating in PD sessions offered by DML and the DOE. Bilingual and ESOL/TESOL licensed teachers will specifically receive professional development in content area subjects. Agendas and sign-in sheets for all PD sessions will be kept in a binder as evidence of teachers meeting the professional development requirements as per CR Part 154.2.

In addition to in-house PD opportunities, teachers are encouraged to seek external professional development. If a teacher finds a PD they are interested in, they must request the date and share the agenda of the meeting they plan to attend. After attending, our practice is for them to "turn-key" what they learned to their colleagues. Our goal is for teachers to attend meetings that they feel will genuinely enhance their practice.

Assessment

SCREENERS

11. Which screening assessments (e.g.iReady, MAP Growth, Acadience, or STAR Reading) does your school use to guide instructional planning for your ELLs?

At P.S. 151K, the success of our Multilingual Learners (MLLs) and English Language Learners (ELLs) is measured using a variety of assessments: state-wide test results, running records, i-Ready, Acadience, curriculum assessments, and NYSESLAT results.

Following the administration of these assessments, we thoroughly analyze the data to identify specific areas for student growth. In collaboration with our coaches, we determine effective strategies to support student development. Subsequently, we identify and provide teachers with the necessary resources to help achieve these goals.

Our 2023-2024 NYSESLAT scores indicate that our students require additional support in the writing and reading portions of the assessment. Armed with this data, teachers will integrate more opportunities for reading and writing practice across all content areas in their lessons.

In addition to English assessments, our ELLs also have the opportunity to take the i-Ready ELA and Math assessments in their home language. We've observed that most of our ELLs score higher in their native language on these assessments compared to their English counterparts. The results from these home language assessments are crucial for driving instruction across all content areas.

12. For all grades, list and describe your targeted intervention programs for ELLs in ELA, Math, and other core content areas (specify ELL subgroups targeted). Include the language(s) in which the intervention services are offered.

To determine necessary interventions, we continuously analyze data from i-Ready, Acadience, Beginning-, Middle-, and End-of-Year assessments, along with curriculum unit assessments.

Through this data, teachers have identified that students need assistance with writing, ranging from simple to more complex and detailed sentences. In math, teachers observed that students sometimes skip steps or don't show their work when solving problems. To address this, we've developed a math story procedure for student reference.

Targeted Interventions for ELLs/MLLs
We offer a range of targeted interventions in ELA, Math, and other content areas for our English Language Learners (ELLs)/Multilingual Learners (MLLs):

Tier I Supports: Include explicit instruction, guided practice, collaborative group work, progress monitoring, and data-driven instruction.
Tier II Supports: Provide small group instruction, hands-on activities, engaging games, visuals, sentence starters,

and songs.
Tier III Supports: Offer individualized instruction, hands-on activities, and tailored support based on specific student needs.
ENL Program and Content Area Support
Our ENL classes provide differentiated instruction across process, content, environment, and student affect, tailoring to students' interests, learning profiles, and readiness levels. Through thematic units, we offer comprehensive support in vocabulary, reading and writing comprehension, fluency strategies, grammar instruction, and speaking and listening skills.

Our Science and Social Studies curricula are language-supported for ELLs with bilingual dictionaries and content-specific bilingual glossaries. Our ELLs also receive instructional support through hands-on experiments, projects, and activities designed and implemented in the classroom to aid their discovery and exploration of Science and Social Studies.

All interventions include online learning components and resources, which we'll utilize in a blended learning model. Students will be flexibly grouped based on their identified areas of need.

13. For all grades, describe how your school uses data to guide instruction for ELLs within a Multi-Tiered System of Supports (MTSS). Refer to the Instructional Leadership Tool for MLs and ELLs and MTSS Guide for MLs and ELLs to help in the development and implementation of your school's plan for MLs/ELLs.

At P.S. 151K, our Multi-Tiered System of Supports (MTSS) for Multilingual Learners (MLs) and English Language Learners (ELLs) is a dynamic, data-driven framework implemented across all grades. We align our practices with the NYC DOE's Instructional Leadership Tool for MLs and ELLs and the MTSS Guide for MLs and ELLs to ensure a coherent and responsive system that addresses both language acquisition and academic content mastery.

Universal Screening and Data Collection (Tier 1)
Our MTSS process begins with universal screening and comprehensive data collection for all students, with a keen focus on our MLs/ELLs from Kindergarten through 5th grade. This allows us to "Know Every Student Well" and proactively identify linguistic and academic needs. Key data sources include:

NYSESLAT scores: This is our primary measure for tracking English language proficiency development, providing a snapshot of students' listening, speaking, reading, and writing skills.
i-Ready (English and Home Language): Administered universally, i-Ready provides diagnostic data in both English and students' home languages (Spanish, primarily) for ELA and Math. The comparison of scores in both languages is critical for distinguishing language acquisition challenges from content understanding gaps.
Acadience: This early literacy assessment provides crucial data on foundational reading skills.
Curriculum Embedded Assessments: We utilize a range of embedded assessments from our core curricula (HMH, Illustrative Math, Fundations, Estrellita, Amplify, Passport, Teachers College Writing) to gauge content mastery.
Formal and Informal Teacher-Made Assessments: These provide ongoing, nuanced insights into student learning.
Running Records (English and Spanish F&P, A-Z Reading Benchmark in Spanish): These provide detailed qualitative data on reading fluency and comprehension in both languages, helping determine independent and instructional reading levels.
Our instructional leadership team meets every Monday to analyze this formative and summative student learning data. This collaborative analysis is crucial for identifying trends and informing school-wide instructional adjustments. For instance, our 2023-2024 NYSESLAT data highlighted a school-wide need for additional support in reading comprehension and sentence writing structure for our ELLs. The i-Ready data, showing higher scores in native languages, further reinforced the need to differentiate instruction and leverage students' linguistic assets.

Tier 1: High-Quality Core Instruction for All
Our goal is for 80% of students' needs to be met at Tier 1 through high-quality, culturally and linguistically responsive core instruction. This involves:

Differentiated and Explicit Instruction: All classroom teachers, in collaboration with ENL and SWD teachers, provide differentiated and explicit instruction based on students' varying English proficiency levels and their Individualized Education Programs (IEPs). This includes adapting content, process, environment, and product.
Contextualized Learning: Teachers consistently use manipulatives, leveled reading books, visual cues (pictures, diagrams), Total Physical Response (TPR), and technology (BrainPOP, Zearn, Reflex Math, Smarty Ants) to make instruction comprehensible and engaging across all content areas.
Promoting Student Discourse: Strategies like "turn and talk," small groups, partner Q&A, and collaborative groups are routinely used to develop listening and speaking skills. Students are grouped heterogeneously to encourage discourse and vocabulary building.
Balanced Literacy Approach: Our approach includes a multitude of reading and writing strategies such as audiobooks, interactive stories, read-alouds, shared readings, and various writing activities.
Embedding Language Standards: Within each lesson, objectives and NGLS Speaking and Listening standards are embedded to support students' development in their targeted and native languages.
Leveraging Native Language: We provide bilingual dictionaries, content-specific bilingual glossaries, and access to native language math, science, and social studies materials. Videos of content in native languages are also provided to ensure access to grade-level content and standards.
Professional Development: All staff receive ongoing PD on implementing strategies like concept maps, Thinking Maps, graphic organizers, and rubrics, with a special emphasis on differentiated instruction, language acquisition skills, and literacy workshop models for ELLs/MLLs.
Tier 2: Targeted Support and Early Intervention
For students not making sufficient progress at Tier 1, or those identified through universal screening with specific needs, we implement Tier 2 supports. This is informed directly by the data analyzed by the instructional leadership team.

Small Group Instruction: Students are grouped based on identified needs in reading comprehension, sentence writing, or math problem-solving. These groups receive more focused, intensive instruction.
Targeted Strategies: Teachers utilize hands-on activities, meaningful games, visuals, sentence starters, and songs within these small group settings to address specific skill deficits.
Curriculum-Aligned Interventions: The "math story procedure" was a direct result of data indicating students skipping steps in math and is a Tier 2 scaffold integrated into our response. Similarly, sentence stems and technology for translating writing are Tier 2 supports for writing.
Monitoring and Progress Monitoring: Progress monitoring sheets are consistently used to track student growth within these Tier 2 interventions. This data is reviewed regularly by the instructional leadership team and grade-level teams to assess the effectiveness of the interventions.
Tier 3: Intensive Individualized Support
For students who continue to show minimal response to Tier 2 interventions, or those with significant needs identified from the outset (e.g., SIFE students), Tier 3 supports are implemented.

Individualized Instruction: This tier provides highly individualized support, often one-on-one or in very small, homogeneous groups.
Tailored Activities: Hands-on activities and supports are specifically tailored to the unique and intensive needs of the student, drawing from comprehensive data analysis.
SIFE-Specific Interventions: SIFE students receive additional services and interventions, including phonemic awareness, leveled readers, scaffolded writing instruction, teacher conferencing, and peer support systems, along with the mandated 360 minutes of ENL/MLL instruction.
Inquiry Teams: For SIFE and other Tier 3 students, teachers participate in inquiry teams where they deeply analyze Acadience, i-Ready, and unit assessment data to precisely drive individual and small group instruction, making cross-linguistic connections and planning for translanguaging opportunities.

Monitoring and Ensuring the Least Restrictive Environment (LRE)
Our MTSS framework is designed to continuously monitor student progress and ensure the LRE is the most suitable setting for all students, including ELLs/MLLs and SWDs.

Ongoing Data Analysis: The continuous analysis of i-Ready, Acadience, NYSESLAT, and curriculum assessments at weekly instructional leadership meetings allows for flexible grouping and timely adjustments to support tiers.
Collaborative Planning: Our ENL teacher, SWD teacher, and classroom teachers engage in mutually-agreeable scheduling and common planning time. This collaboration ensures that all instruction addresses the learning needs of individual ELL-SWD students based on their IEPs and language proficiency levels.
Professional Development (PD): Our extensive PD calendar, which includes sessions on UDL, scaffolding, and planning for ELLs in content areas, directly supports teachers in providing high-quality Tier 1 instruction, thus minimizing the need for higher tiers.
Parent-Home Connection: Maintaining a strong parent-home connection ensures parents are included as vital components of their child's learning. This feedback is crucial in determining the most suitable educational placement and support.
Program-Specific Success Measures:
Dual Language (DL): Success is measured by academic growth in both English and Spanish (i-Ready, F&P in both languages, HMH/Arriba La Lectura, NYSESLAT scores), fostering true biliteracy and bilingualism.
Freestanding ENL: Success is primarily tracked via NYSESLAT growth and the student's ability to access and succeed in general education content, supported by integrated ENL services.
ELLs in SE Setting: Success is measured by progress on IEP goals, NYSESLAT growth, and the ability to access grade-level content with appropriate accommodations and specialized instruction, ensuring the LRE is indeed accurate.
Newcomers/SIFE: Success is defined by accelerated English language acquisition (NYSITELL/NYSESLAT), successful integration into the school community, and progress in accessing grade-level curriculum.
By systematically using data to inform our tiered instructional responses and fostering ongoing collaboration and professional learning, P.S. 151K ensures that all MLs/ELLs receive the targeted support they need to achieve academic and linguistic success in the least restrictive environment.

FORMATIVE

14. Which formative assessments (e.g. NYC performance Tasks, ELL Periodic Assessment, HLA Assessment, DRA, teacher-created assessments, etc.) are used to inform and drive instruction?

At P.S. 151K, early literacy and math skills are comprehensively analyzed using NYSESLAT scores (Kindergarten through 5th grade). Our school also utilizes a range of curriculum-embedded assessments, including:

Estrellita
Fundations
English and Spanish Fountas & Pinnell (F&P) running records
A-Z Learning Spanish
HMH Writing (English and Spanish)
HMH/Arriba La Lectura
Various formal and informal teacher-made assessments
These assessments provide us with valuable data regarding our students' oral fluency, reading comprehension, writing skills, English proficiency levels, and mathematical skills. This data is crucial for planning and implementing differentiated instructional plans that best meet the diverse learning needs and styles of our English Language Learners (ELLs)/Multilingual Learners (MLLs), and for addressing any identified learning gaps.

Students are also grouped heterogeneously to encourage and engage them in student-to-student discourse, alongside teacher-guided groups. Utilizing station and flipped classroom blended learning models, our students have consistent access to the curriculum, teacher presentation slides, videos, scaffolds, and other resources. These materials are provided both during and after lessons via our school's Google Classroom.

15. How do you ensure that MLs/ELLs are appropriately evaluated in their home languages throughout the year?

Our school ensures that English Language Learners (ELLs)/Multilingual Learners (MLLs) are appropriately evaluated in their home language using the Fountas & Pinnell "Sistema de evaluación de la lectura." For students reading beyond a Level N in Spanish, teachers utilize the A-Z Reading Benchmark in Spanish to precisely determine their independent and instructional reading levels. Additionally, Estrellita provides ongoing assessments in the students' home language.

Throughout the school year, our i-Ready, Acadience, HMH, and Illustrative Math assessments will be administered in both Spanish and English. When necessary, teachers will also provide translations for social studies, science, and writing assessments to fully support ELLs/MLLs.

SUMMATIVE

16. Which summative assessments (e.g. NYSESLAT, ELA, Math, Regents, etc.) are used to evaluate the effectiveness of your ML/ELL programs and how does it inform instructional design and curricular decisions? (Refer to the ELL Data Analysis Tool).

At P.S. 151K, the success of our Multilingual Learners (MLLs) and English Language Learners (ELLs) is comprehensively measured using a variety of assessments: state-wide test results, running records, i-Ready, Acadience, Amplify, Passport, and NYSESLAT results. Based on our recent data analysis, we have identified that students require additional support in reading comprehension as well as sentence writing structure. To address these areas, we have engaged our ENL consultant, Millie Goodman, whose sessions specifically focus on addressing these student needs.

Once summative data has been gathered, our focus continues on strengthening lesson plans to include coherent assessments that incorporate Response to Intervention (RTI) strategies throughout all grades. During the 2020-2021 school year, we expanded our Spanish-English Dual Language program by adding a fifth-grade dual language class. We will continue to provide our teachers with planning opportunities during the school day and during city-wide Professional Learning Community (PLC) time. A school-wide Danielson Framework for Teaching (DFT), citywide Framework for Great Schools, and Quality Review (QR) aligned planning template is provided to ensure the incorporation of essential questions, Universal Design for Learning (UDL) strategies, and learning targets tied to grade-specific units of study and performance tasks.

Currently, unit plans are developed by grade-level teacher teams to include performance-based assessments that require higher-order thinking skills and explicitly provide access for ELLs/MLLs and Students with Disabilities (SWDs). The unit planning team, which includes teachers from various grades and pupil support team members, ensures that the school-wide inquiry focus remains cohesive to monitor student achievement and guide grade-level teams in shaping unit and lesson planning. Additionally, we will continue to include the Speaking and Listening standards to supplement the content of the New York State Next Generation Learning Standards (NYS NGLS) and ensure targeted student discourse occurs within all subjects and classes. As a result, teachers will continue to be

engaged in the process of planning across grades and subjects for all groups of students and will include intentional grouping and targeted differentiated tasks. We will employ best practices to address the areas of need identified in the 2023 New York State Math and English Language Arts (ELA) assessments and our 2022-2023 End-of-Year (EOY) school assessments.

Trends Identified via Latest Data Informing Instruction Across Tiers
Based on the latest data from NYSESLAT, i-Ready, Acadience, and our school's EOY assessments, several key trends are informing our instructional strategies across all tiers:

Reading Comprehension Gaps: Students, particularly at the Entering and Emerging proficiency levels, show a consistent need for deeper reading comprehension strategies. This manifests as difficulty inferring meaning, identifying main ideas, and understanding complex texts across content areas.
Sentence Writing Structure: A significant trend is the struggle with constructing complex and detailed sentences. Students are able to articulate thoughts verbally but face challenges transferring these into coherent written English, impacting their ability to express higher-order thinking.
Native Language Proficiency vs. English Proficiency: Our i-Ready and other home language assessments consistently show that most ELLs score significantly higher in their native language in ELA and Math compared to their English scores. This highlights the linguistic barrier rather than a conceptual understanding gap, underscoring the importance of leveraging native language.
Math Problem-Solving (Showing Work/Multi-Step): In Math, a trend is observed where students skip steps or do not fully show their work in problem-solving, indicating a need for more explicit procedural scaffolding and conceptual understanding of mathematical processes.
These trends guide our Tier I, II, and III supports, ensuring that explicit instruction, small group work, and individualized interventions directly target these areas. For instance, Tier I focuses on embedding more explicit sentence writing and comprehension strategies into daily lessons. Tier II provides small group intensive practice with these skills, leveraging visuals and sentence starters. Tier III offers one-on-one tailored support for the most significant gaps in writing and reading comprehension.

Measuring the Success of Each ML/ELL Program
We measure the success of each Multilingual Learner (ML)/English Language Learner (ELL) program type through a comprehensive approach:

Dual Language (DL) Program:

Academic Growth in Both Languages: Success is measured by student progress in both English and Spanish ELA and Math, using i-Ready and HMH/Arriba La Lectura (Spanish). We monitor the 50/50 balance in core content mastery.
Bilingualism and Biliteracy: We assess students' progression along both the New Language Arts Progression (NLAP) and Home Language Arts Progression (HLAP), as well as their Fountas & Pinnell levels in both languages.
NYSESLAT Scores: We track the growth in English proficiency over time as students advance through the DL program.
Social Studies Thematic Units: Success is measured by student engagement and content mastery in these culturally integrated units, assessing academic language development in both languages.
Freestanding ENL Servicing (ELLs in a GE Setting):

NYSESLAT Growth: Primary measure of English language proficiency growth.
Content Area Performance: Success is assessed through student performance on content area assessments (ELA, Math, Science, Social Studies) in English, alongside i-Ready and Acadience data.
Scaffold Implementation: We monitor the consistent and effective use of scaffolds (e.g., graphic organizers, sentence stems) by classroom teachers, which is crucial for ELL success in the general education setting.
Participation and Engagement: Informal observation of student discourse and active participation in classroom activities.

ELLs in a Special Education (SE) Setting (ELLs-SWDs):

IEP Goal Attainment: Progress towards individualized goals, which often include linguistic development targets.
NYSESLAT Scores: Progress in English language proficiency, taking into account the student's disability.
Academic Progress: Monitoring of content area mastery (i-Ready, Acadience, curriculum assessments) with appropriate accommodations.
LRE Suitability: Ongoing assessment of whether the student's current setting provides the optimal balance of support and access to general education peers and curriculum.
Therapeutic and Linguistic Integration: Measuring how well special education services integrate with language development supports.
TBE (Transitional Bilingual Education) Program / Newcomers & SIFE:

NYSITELL/NYSESLAT Growth: Rapid English language acquisition as measured by these assessments.
Home Language Assessment Performance: Success is also measured by students' ability to demonstrate conceptual understanding in their native language (e.g., i-Ready in Spanish), showing that content knowledge is developing even as English proficiency grows.
Academic Integration: Tracking progress in accessing grade-level curriculum content, indicating successful transition.
Attendance and Engagement: Higher attendance and active participation reflect successful integration and support.
Grade or Curricular Decisions Made Based on Data
The insights from our data have directly influenced several significant grade and curricular decisions:

Expansion of Dual Language Program: The success and demand for our Dual Language program, evidenced by strong academic growth in both languages for participating students, led to the expansion of the program by adding a fifth-grade Spanish-English dual language class during the 2020-2021 school year. This provides continued biliteracy development for our students.
Targeted PD with Consultant: The identified needs in reading comprehension and sentence writing structure (from NYSESLAT 2023-2024 data) directly led to bringing in our ENL consultant, Millie Goodman, for focused professional development sessions with teachers. This is a direct curricular adjustment to bolster instructional capacity in these areas.
Emphasis on Cross-Content Reading and Writing: In response to the NYSESLAT data indicating needs in reading and writing, the school has made a school-wide decision to integrate more reading and writing opportunities across ALL content areas (ELA, Math, Science, Social Studies, Specials). This means incorporating specific reading and writing tasks into math problems, science experiments, and social studies projects.
"Math Story Procedure" Development: The trend of students skipping steps or not showing work in Math (from i-Ready and unit assessment data) prompted the creation and implementation of a "math story procedure." This curricular scaffold provides a structured approach for students to articulate their thought process and show their work more clearly.
Reinforced Focus on Speaking & Listening Standards: Recognizing the general difficulty in oral and written expression, a curricular decision was made to explicitly embed NYS NGLS Speaking and Listening standards into lesson objectives across all subjects and grades. This ensures that targeted student discourse is a consistent and intentional part of daily instruction.
Increased Use of Home Language Assessments: The observation that ELLs score higher in their native language on i-Ready assessments has reinforced the decision to regularly administer these in students' home languages. This data is now a crucial driver for content area instruction, allowing teachers to differentiate and leverage students' existing conceptual knowledge.
Emphasis on Higher-Order Thinking Skills & Performance Tasks: To address the need for deeper learning, unit plans are now explicitly designed by grade-level teams to include performance-based assessments that require higher-order thinking skills, ensuring accessibility for ELLs/MLLs and SWDs. This curricular shift aims to move beyond rote learning to deeper conceptual understanding.
Intentional Grouping and Differentiated Tasks: Based on ongoing data analysis, teachers are committed to intentional

grouping (heterogeneous for discourse, homogeneous for targeted skill development) and differentiated tasks to meet varying proficiency levels and learning styles, directly addressing identified learning gaps.

17. What is your NYSESLAT administration plan? How does your school ensure that all ELLs are tested with the NYSESLAT annually? Include the titles of the staff that will administer and score the assessment. Please describe your plan to ensure that all ELLs and former ELLs continue to receive mandated instruction during the testing period.

During NYSESLAT administration at P.S. 151K, Dual Language or TESOL certified teachers assist with both the proctoring and grading processes. Our MLL/ESL coordinator is responsible for assigning which teachers will proctor specific student groups or grades. To minimize instructional interruption, all grades begin testing on the same day.

In March, on a designated Monday, time is scheduled for all TESOL and Dual Language teachers to receive NYSESLAT training for proctoring and scoring. During this professional development, teachers are encouraged to ask any questions they may have. Students who are absent during testing dates will make up their exams upon their return, proctored by a Dual Language or TESOL certified teacher. Once they complete their exam, they will return to class for instructional time.

Throughout the testing period, all current and former ELLs will continue to receive their mandated instruction. This is achieved by ensuring they receive instruction once they have completed their exams. The majority of our ELLs and former ELLs also participate in our after-school program, which provides an additional opportunity for them to receive mandated services across all content areas.

18. How does your school ensure that current and former ELLs receive necessary accommodations for state assessments, including the Specialized High School Admissions Test (SHSAT) if applicable?

Not Applicable

Part VI: Family Partnership

Family Partnership

Required Meetings Under CR Part 154

Describe your schools' plan to ensure families of ELLs are provided with the required meetings specified below as per CR Part 154. Include:

- Topics discussed during these meetings
- How your school ensures families receive necessary translation/interpretation supports to meaningfully engage in the meetings
- How your school schedules these meetings to facilitate attendance, and how your school maintains evidence of these meetings as required per the NYC DOE Policy and Reference Guide for MLs/ELLs.

a. ELL Program Orientation to inform parents/guardians of newly identified ELLs of ELL program options, including the program goals and requirements for all three ML/ELL program models: Dual Language Bilingual Education, Transitional Bilingual Education and English as a New Language regardless of whether the school currently has either type of bilingual program and provide a high-quality orientation section on the Next Generation Learning Standards, assessments, and school expectations for English Language Learners.

At P.S. 151K, we schedule dedicated meetings with families of English Language Learners (ELLs) at the beginning and in the middle of each school year. These meetings are held in the and AM once parents drop off their students and in the PM when parents are picking up their child, or during parent engagement times. These meetings involve a translator, the EL/MLL coordinator, the parent coordinator, and an administrator to provide comprehensive support. The EL/MLL coordinator prepares an agenda and a sign-in sheet for each meeting as evidence of attendance and topics covered. We also ensure presentations are shared with families via ClassDojo or email upon request. In these meetings our teachers inform parents where their child is academically, what is the goal for their next steps and then share some strategies parents/families can incorporate at home.

In regards to the three ELL options when our parents are registering their child they are show the DOE video or program options. Once the parents see the video they inform us of what program they would like. If the program they want is not available our secretary will inform the parent which school has the program they prefer. The parents are made aware the three program option goals and requirements are as follows:

Transitional Bilingual Education (TBE) programs offer students of the same home language the opportunity to learn to speak, understand, read, and write in English while continuing to learn academic content in their home language. The students' home language is used to help them progress academically in all content areas while they acquire English. The goal of a TBE Program is to provide students with the opportunity to transition to a monolingual English classroom setting without additional supports once they reach proficiency. Even though the amount of English

instruction students receive will increase over time, in a TBE program, there will always be home language instruction/supports, allowing students the opportunity to develop bilingually.

Dual Language (DL) programs seek to offer students the opportunity to become bilingual, biliterate, and bicultural while improving their academic ability. In the majority of dual language programs, the students receive half of their instruction in their primary or home language, and the remainder of their instruction in the target language, the language that they are learning. However, there are other time configurations that exist. For example, in a 90% to 10% model, a greater percentage of the instruction is in the target language other than English and decreases over time until reaching 50% to 50%. Students learn to speak, read, and write in two languages, and also learn about other cultures while developing strong self-esteem and diverse language skills.

English as a New Language (ENL) - Instruction in this program, formerly known as English as a Second Language (ESL), emphasizes English language acquisition. In an ENL program, language arts and content-area instruction are taught in English using specific ENL instructional strategies. Some content area classes are Integrated ENL classes. Students receive core content area and English language development instruction, including the use of the home/primary language as support and appropriate ELL instructional supports to enrich comprehension. Integrated ENL classes are taught by a teacher dually certified in the content area and ENL or are co-taught by a certified content area teacher and a certified ENL teacher. In a Stand-alone ENL class, students receive English language development instruction taught by a NYS-certified teacher of English to Speakers of Other Languages (ESOL) in order to acquire the English language needed for success in core content areas. This program typically serves ELL students from many different home/primary language backgrounds whose only common language is English and therefore cannot participate in a bilingual program.

b. Annual Individual Meeting to discuss goals of the program, language development progress, language proficiency assessment results, and language development needs in all content areas. Note: this meeting is separate from and does not include the mandated ELL program orientation meeting and DOE-scheduled parent-teacher conferences.

At P.S. 151K, annual individual meetings are conducted in person by each student's ENL teacher, classroom teacher, or bilingual teacher, depending on the student's program placement. These meetings are held during designated parent engagement time or at alternative times that best accommodate family schedules to facilitate attendance. During each meeting, teachers discuss the student's program model, language development progress, assessment results (e.g., NYSESLAT), and specific goals across content areas.

For families who require language support, interpretation, and translation services are provided either by a bilingual staff member, a DOE interpreter, or the parent coordinator, ensuring that all information is communicated clearly in the family's preferred language.

To maintain documentation, teachers complete a meeting log that includes the date, parent/guardian name, student name, and discussion notes. The MLL/ELL coordinator collects copies of invitations, agendas, and attendance sheets as evidence of compliance. These records are stored in a secure shared folder to verify that all annual meetings occur separately from parent-teacher conferences and include outreach documentation.

Family Engagement

2. Beyond the mandated meetings and orientations, describe how your school:
a. Ensures families receive all school communications and documents in the language they best understand. How are families able to respond or initiate communications in languages other than English?

At P.S. 151K, we ensure that all communications, such as flyers, meeting announcements, handbooks, and parent letters, are provided to families in their preferred language, both in writing and verbally. Families' preferred oral and written languages are identified through the Home Language Identification Survey (HLIS) and confirmed using the ATS RLCN report.

Our school provides in-person interpretation during family meetings, parent-teacher conferences, and school events through bilingual staff members, the parent coordinator, and members of our Translation Committee, who are trained to support communication across multiple languages. For languages not represented among staff, we use the DOE's Over-the-Phone Interpretation (OPI) service to ensure that every family can communicate effectively with school personnel.

Families may also access interpretation or translation support virtually or over the phone, coordinated through the parent coordinator. This ensures that language access is available year-round, whether families reach out in person, through ClassDojo, or via phone or email.

b. Develops activities that foster empowerment for families of MLs/ELLs. Include how your school determines the needs of your community.

To empower families of Multilingual Learners (MLs)/English Language Learners (ELLs) at P.S. 151K, our parent coordinator administers an annual parent survey. This survey allows parents to directly communicate their desired activities for the school year to the leadership team. The team then incorporates these valuable suggestions when developing the school's events calendar.

c. Ensures families of MLs/ELLs are aware of family leadership opportunities (such as Parent Association (PA), School Leadership Team (SLT), Community Education Council (CEC), etc.)

At P.S. 151K, we are committed to ensuring that all families, especially those of Multilingual Learners (MLs) have equitable access to leadership opportunities within the school community. We actively encourage ML families to participate in leadership roles such as the Parent Association (PA), School Leadership Team (SLT), and Community Education Council (CEC). These opportunities are announced during PA meetings, through translated flyers, and via ClassDojo in families' preferred languages to maximize accessibility and participation.

To ensure full inclusion, all meeting materials, nomination forms, and election announcements are translated into the primary languages represented in our community. During meetings, interpretation services are provided either in person by bilingual staff or through the DOE's Over-the-Phone Interpretation (OPI) service. When necessary, virtual interpretation is arranged to support remote participation.

Families who wish to learn more about leadership opportunities or need help with the application or nomination

process are encouraged to contact our Parent Coordinator or Parent Association President, who provide one-on-one assistance and interpretation support to ensure every family can participate meaningfully in school leadership.

3. What culturally and linguistically responsive partnerships do you currently have that support the needs of your school community?

At P.S. 151K, we're proud to have strong partnerships that support the diverse needs of our school community.

Parent Involvement
Our parents are consistently involved in enriching students' understanding of various cultures. For instance, some parents participate in read-alouds, sharing stories and traditions. For events like our International Day, parents contribute by bringing diverse foods or cultural artifacts that represent their home countries. This direct engagement fosters a vibrant, inclusive environment for all.

Wellness in the Schools
We partner with Wellness in the Schools to promote student well-being. Their Cook for Kids program provides healthy, real food, transforming our cafeteria menu and making nutrition education enjoyable. A dedicated Coach helps students increase their physical activity throughout the school day. Additionally, the Green for Kids program engages students in environmental sustainability education through hands-on gardening experiences.

After-School Programs
Our school provides exciting after-school programs whenever funding is available, collaborating with vendors like Creative Music Program, Faith and Purpose Productions, Arts in Blue, and Musical IQ. These partnerships ensure students are exposed to diverse cultures and experiences in the arts.

Furthermore, we have partnered with NYEDGE and Rise up and Walk to offer comprehensive after-school support to our families. During the sessions, students focus on homework help and take time to participate in a variety of engaging activities across the arts, science, and physical education. All vendors work closely with our staff to set clear learning goals for our students.

Impact of Partnerships
These partnerships effectively immerse our students in diverse languages and cultures, reflecting not only our school community but also our neighborhood. This active participation has significantly aided students' development of both conversational and academic English. For our identified English Language Learners (ELLs) with strong native language foundations, these programs have been instrumental in helping them achieve effective communication with their native English-speaking peers.

Part VII: Additional Information

Additional Information

Include any additional information that is relevant to your LAP and would further explain and highlight how your school supports MLs/ELLs. This form does not allow graphics and charts to be pasted.

Not Applicable

Part VIII: ELL Identification Attestation and Principal Certification

Identification Plan

For additional information, refer to ELL Identification Attestation Professional Learning Module.

1. What are the titles of the members of your ELL identification team? Note: Members of the ELL identification team must be pedagogues.

Marlin Nieves - Principal
Carolyn Alliers - Kindergarten Teacher - DL certified
Jessica Delgado Reyes- 1st Grade Teacher - DL certified
Erica Soto- 1st Grade Teacher - TESOL certified
Maria Catanzariti - 4th-grade Teacher - TESOL certified

2. Describe the structures and process in place for identification of ELLs year-round as required by the NYC DOE Policy & Reference Guide for MLs/ELLs, including your school's identification plan for any incoming students with an Individualized Education Plan (IEP). Include:

- **How your school proactively plans for the ELL identification process so that it does not interrupt the provision of mandated ENL and/or bilingual instruction to current, former and potential ELLs,**
- **Who is responsible for each step of the ELL identification process, and**
- **School's plan for ensuring ELLs and former ELLs will continue to receive mandated instruction.**

Our school adheres strictly to the NYC DOE Policy & Reference Guide for MLs/ELLs to ensure a comprehensive, year-round identification process for English Language Learners (ELLs). Our aim is to proactively identify students while seamlessly maintaining mandated ENL and/or bilingual instruction for all current, former, and potential ELLs.

Proactive Planning for ELL Identification: To prevent interruptions to instruction, our school employs a proactive and continuous identification plan:

Year-Round Enrollment and Intake: The identification process is integrated into our year-round enrollment procedures. For every new student enrolling at any point in the school year, the process begins immediately.

Designated Intake Team: We have a trained intake team, led by our Assistant Principal and including our Galaxy-designated Language Access Coordinator (LAC) and a certified ESOL/TESOL/Bilingual teacher. This team is responsible for managing new student intake and initial screenings.

Pre-Enrollment Communication: When feasible, for anticipated incoming students (e.g., during kindergarten registration or transfers from other districts, or new to the country), we aim to distribute the Home Language Identification Survey (HLIS) and relevant information about the ELL identification process in advance. This allows parents to complete the survey and for the school to anticipate potential ELLs.

Flexible NYSITELL Administration: Our certified ESOL/TESOL/Bilingual teacher is trained and equipped to administer the New York State Identification Test for English Language Learners (NYSITELL) on an ongoing basis. This flexibility allows for testing to occur promptly upon a student's enrollment, rather than waiting for specific testing windows, minimizing instructional disruption.

Immediate Interim Placement: Once a student is identified as potentially an ELL (based on HLIS and informal interview), they are immediately placed in an appropriate instructional setting (e.g., Integrated ENL classroom support, or within the Dual Language program if applicable) while awaiting NYSITELL results. This ensures that language development support begins without delay.

Dedicated Time for Assessment: The ELL identification process is scheduled to occur during times that do not conflict with the provision of mandated ENL and/or bilingual instruction. For instance, initial screenings and NYSITELL administration may occur during non-instructional periods, during specialized support periods, or by pulling students from non-core classes, ensuring their core ENL/bilingual minutes are protected.

Steps and Responsibilities in the ELL Identification Process. The ELL identification process involves several key steps, with clear responsibilities assigned:

Home Language Identification Survey (HLIS) Administration:
Responsible Party: Main Office Staff (for initial registration), Assistant Principal and TESOL/DL certified teacher.
Process: Upon initial enrollment, parents/guardians complete the HLIS. If a language other than English is indicated, the student is flagged as a potential ELL. This survey is provided in the parent's preferred language, with interpreter support available if needed.

Informal Interview/Review of Student Records:
Responsible Party: Assistant Principal and/or certified ESOL/TESOL/Bilingual teacher.
Process: An informal interview is conducted with the student and/or family (with interpretation if necessary) to gather more context about language use. For transfer students, the certified ESOL/TESOL/Bilingual teacher reviews previous school records (e.g., ATS data, report cards, previous ENL/Bilingual programming) to see if ELL status was previously determined.

NYSITELL Administration (for Students Not Previously Identified as ELLs in NYS):
Responsible Party: Certified ESOL/TESOL/Bilingual teacher (NYSITELL administrator).
Process: If the HLIS and/or interview indicate a language other than English and the student has not been identified as an ELL in a New York State public school, the NYSITELL is administered within 10 school days of initial enrollment (or 20 school days for students with an IEP – see specific IEP plan below). The teacher ensures proper testing environment and accommodations.

Scoring and Data Entry:
Responsible Party: Certified ESOL/TESOL/Bilingual teacher (scorer) and Main Office Staff/Data Specialist (ATS entry).
Process: NYSITELL is scanned and scored by ATS.

Parent Notification and Program Placement:
Responsible Party: Parent Coordinator and Galaxy-designated Language Access Coordinator (LAC).
Process: Parents are immediately notified of their child's ELL status and proficiency level in their preferred language. They receive the "Parents' Bill of Rights for English Language Learners" and information about available programs

(ENL, Dual Language) and their right to choose. The student is then placed into the appropriate mandated ENL and/or bilingual program within 10 school days of identification.
Identification Plan for Incoming Students with an Individualized Education Plan (IEP)
For incoming students with an IEP, our school has specific protocols to ensure a holistic and timely identification process, in accordance with the 20-school-day timeline for IEP students:

Early Communication and Record Review:
As soon as we are aware of an incoming student with an IEP and a potential home language other than English, our Special Education Liaison (e.g., Assistant Principal of Special Education or IEP Coordinator) immediately collaborates with the Secretary and certified ESOL/TESOL/Bilingual teacher. They proactively review the student's existing IEP and all available linguistic and academic records to understand their needs.

Language Proficiency Team (LPT) Meeting: A Language Proficiency Team (LPT) is convened within 20 school days of the student's initial enrollment. This team includes:
The student's parent/guardian (with interpreter as needed).

- All students who enroll after the first day of school must be identified and placed within the standard 10 school days of enrollment (or 20 school days for incoming students with IEPs).
- Clarifications added throughout the Determine NYSITELL Eligibility for Incoming Students with IEPs section, including:
- Students to whom the LPT Process Would Apply
- LPT Parent/Guardian Questionnaire (new)
- LPT Determination
- Placement into ELL program section updated to clearly outline steps schools must follow if parents/guardians have requested a bilingual program, and one is not available at the school.
This section was also updated to specify the information that must be included in the list schools are required to maintain of parents who have requested a bilingual program, and one is not available at the school.
- This list must include student’s names, ID numbers, home language, grade level, program parent preference and admission date to the school.
- Clarification added throughout the guide that qualified personnel must administer a more in depth in-person mandated individual interview with the student and parent/guardian as part of the administration of the Home Language Identification Survey (HLIS) to determine the student’s home language and NYSITELL eligibility.

A certified ESOL/TESOL/Bilingual teacher.
A special education teacher.
A school secretary
A school psychologist or other relevant service provider.
The school administrator/designee (e.g., Assistant Principal).
The Parent Coordinator (to facilitate parent communication).
LPT Decision-Making: The LPT analyzes all available information, including the HLIS, existing IEP, and any previous language assessment data. They determine if the student should:
Take the NYSITELL (with accommodations if appropriate and specified in the IEP).
Take the NYSITELL with specific accommodations.
Not take the NYSITELL (if the IEP clearly indicates that the disability prevents meaningful participation in the assessment, which is rare).
NYSITELL Administration with Accommodations: If the LPT determines the NYSITELL is appropriate, the certified ESOL/TESOL/Bilingual teacher administers it with all mandated accommodations as outlined by the LPT and IEP.
Integrated Planning for Services: Once the ELL status is determined, the IEP team, including the certified ESOL/TESOL/Bilingual teacher, works to integrate ENL and/or bilingual services seamlessly into the student's IEP. This ensures that both their special education and language acquisition needs are addressed in a coordinated manner.
Ensuring Mandated Instruction for ELLs and Former ELLs

Our school has robust systems to ensure continuous mandated instruction for all identified ELLs and former ELLs:

Dedicated ENL/Bilingual Teachers: We employ certified ESOL/TESOL/Bilingual teachers who are responsible for delivering both stand-alone and integrated ENL instruction, as well as instruction within our Dual Language program.
Master Schedule Integration: The school's master schedule is carefully designed to guarantee that all ELLs receive their mandated minutes of ENL and/or bilingual instruction according to their proficiency levels (e.g., 360 minutes for Entering/Emerging, 180 minutes for Transitioning/Expanding). This is non-negotiable and prioritized in scheduling.
ATS Monitoring and Rosters: The Galaxy-designated LAC regularly monitors ATS data to ensure all identified ELLs are correctly coded and receiving the appropriate program placement and minutes. Weekly or bi-weekly rosters of ELLs and their mandated minutes are shared with relevant teachers and administrators for ongoing oversight.

Collaborative Planning:
Integrated Co-Teaching (ICT) Models: For integrated ENL, content area teachers and ENL/Bilingual certified teachers collaborate during common planning periods to co-plan lessons that embed language scaffolds and strategies for ELLs, ensuring both content and language objectives are met.

Dual Language Team Meetings: Our Dual Language vertical team meets monthly to ensure consistency in the 50/50 model and to discuss the specific needs of ELLs within the program.
Former ELL Monitoring (2-Year Follow-Up): Former ELLs receive mandated minutes of integrated ENL support for two years post-exit. Our LAC tracks these students in ATS, and their classroom teachers are informed of their status.
Lesson plans shared on Google Drive and Google Classroom are accessible to all grade-level teachers, ensuring these supports continue to be implemented as outlined by the NGLS-aligned curricula.

Continuous Professional Development: Teachers receive ongoing professional development focused on effective strategies for supporting ELLs/MLLs in all content areas, ensuring that instruction remains high-quality and responsive to evolving student needs.
By embedding these structures and processes, our school fosters an environment where the identification of ELLs is a continuous, efficient, and instructionally-supportive process, ensuring all students receive the language assistance they need to thrive academically.

Principal Certification

In accordance with New York State's Commissioner's Regulations Part 154 as outlined and implemented in the NYC DOE Policy and Reference Guide for MLs/ELLs, I, attest that the following ELL identification procedures and activities are adhered to, and staff are trained on the items listed below.

- The ELL Identification Process is completed for each student within 10 school days of enrollment (20 school days for students entering with IEPs).
- Enrollment status of each newly admitted student is determined:
  a. If a student has been in New York State public schools within the past 2 years, our school contacts the previous school to obtain ELL status, relevant assessment scores, and English language proficiency level.
  b. If a student has been outside of New York State public schools for more than 2 years, our school administers the ELL Identification Process as part of reentry.

- The home language of the student is determined by a trained and licensed pedagogue.
  a. The parent completes the Home Language Identification Survey in the parent's preferred language; translation services are provided by a bilingual staff member, the DOE's over-the-phone translation services, or an alternative, high quality translation service.

- An interview with parents and students in English and the home language is conducted. This includes reviewing documents, prior assessments, and academic experience. An assessment of the student's abilities and/or work samples determines the student's literacy and math level in his/her home language.
- Eligibility for the NYSITELL is determined.
  a. If the newly enrolled student is entering with an IEP, the school's Language Proficiency Team (LPT) recommends eligibility to the principal, who obtains final approval from the superintendent.

- Students are administered the NYSITELL, if eligible.
- Notification letters are sent to the parent/guardian in their preferred language.
  a. Parent is notified of their child's ELL status and results of the NYSITELL.

- If the student is identified as an ELL and the student's home language is Spanish, the student is administered the Spanish Language Assessment Battery (LAB).
- Student with Interrupted/Inconsistent Formal Education (SIFE) status is determined using New York State's resources.
- If a student is a newly identified ELL, the parent is invited to the parent orientation meeting.
  a. The parent orientation meeting provides parents/guardians with an explanation of each ELL program model offered in NYC; the parent video describing the three programs is presented (in parent's preferred language); parents/guardians are encouraged to ask questions so that they are

informed about all ELL programs; translation and interpretation services are provided throughout the meeting.

- ELL is placed in the ELL program that the parent selected.
  a. If the bilingual program that the parent selected is not available, the parent is offered a transfer to a school with that bilingual program in accordance with NYC DOE transfer policies.
  b. If the ELL remains in the school, the ELL is placed in English as a New Language and our school keeps track of parent selection so that when minimum thresholds are met, we can open the ELL program of choice.

- Parents are notified that they have 45 days to appeal the ELL status of their child (ELL Re-identification Process).
- If the ELL Re-identification Process is implemented for any student, the principal reviews the decision of any student whose ELL status was changed because of the ELL Re-identification Process within 6 to 12 months.
- Copies of documentation regarding ELL identification, including letters and parent notifications are kept in the students' cumulative files.

Download a blank LAP assurances page.

LTI Overview and Part A: Designation of a LAC

Chancellor's Regulation A-663 establishes procedures for ensuring that Limited-English-Proficient (LEP) parents of students enrolled in the New York City public schools are provide with a meaningful opportunity to participate in and have access to programs and services critical to their child's education. To this end, schools must review and complete the annual LTI Plan to address its language assistance needs consistent with the requirements of this regulation.

The LTI Plan requires information on the following:

- Name of person designated as the Language Access Coordinator (LAC).
- Identification and assessment of LEP parent population.
- Identification of Critical Communications and standing, in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.
- Plan to ensure staff awareness of language access requirements and available resources.
- Provision of notice to parents on the available language assistance services.

Methods for the school to solicit and implement feedback on its provision of language assistance services.

Office of Language Access (OLA) Contact:

- **Contact Information:**
  - **Cunneely Elena, ECunneely@schools.nyc.gov**
  - **Rivera Ricardo, RRivera60@schools.nyc.gov**
  - **Williams Robert. RWilliams32@schools.nyc.gov**

Please do not edit

Robert Williams

Designation of a LAC
Name of person designated and trained as the LAC.
At the start of each school year, each principal is required to designate at least one staff member to serve as the Language Access Coordinator (LAC), responsible for overseeing language assistance services within the school.

We have pre-populated the following information based on our records. Please confirm that the designated staff member(s) are your school's Galaxy-designated LAC(s) and provide the date(s) they attended the OLA Language Access Coordinator Training. Note that this training is in addition to the mandatory asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform. If any information is missing, please provide the requested details.

As a reminder, LACs are internal staff designations and are not meant to serve as the primary point of contact for families regarding language access-related matters. The Parent Coordinator, or another designated staff member, should remain the main contact for families regarding all issues, including language access.

First Name	Last Name	Title	Date attended OLA Language Access Coordinator Professional Learning Opportunity	Confirmed (Y/N)
Carolyn	Alliers	Teacher - Regular Grades	02/26/2025	Y

Part B: Parents' Preferred Languages

Parents' Preferred Languages

Language identification and assessment of parent population.

1. Check the resources your school staff uses to identify parents' preferred languages:

,Part III of the Home Language Identification Survey (HLIS),Student Emergency Contact cards,Surveys conducted by your school,New York City Schools Account (NYCSA) Student Profile,Automate The System (ATS) reports / Next Generation Student Information System (NGSIS)

If Other was selected, describe the resource here:

2. We have pre-populated the following information from the Parent's Preferred Language Report (RCPL) in ATS. For the last two columns, please indicate the number of school staff members who are comfortable using their language skills to communicate with parents and regularly assist other staff members and families with translation and/or interpretation. If none, enter "0".

Language (Description within RCPL)	Written Preferred Count	Written Preferred Percentage	Oral Preferred Count	Oral Preferred Percentage	No. of Staff to Help with Written Translation	No. of Staff to Help with Oral Interpretation
ARABIC	1	0.34%	1	0.35%	0	0
ENGLISH	97	32.55%	92	32.39%	10	10
SPANISH	197	66.11%	190	66.90%	5	5
TIBETAN	3	1.01%	1	0.35%	0	0

Part C: Parent Communications and Engagement

Parent Communication and Engagement

Identification of written critical communications and in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.

1. List the documents your school typically distributes each year that require translation, along with your plan for translating these documents.

Document Type (e.g. parent flyers, IEPs, etc.)	How do you plan to implement the translation process? Please include procedures and resources to ensure the timely delivery of translated documents to parents.
Parent Flyers	To ensure accuracy, a staff member will complete the document translation. Also at times apps like Deepl will be used for translation. These translations will then be submitted to administration for approval before distribution.
IEP'S	To ensure accuracy, a staff member will complete the document translation. These translations will then be submitted to administration for approval before distribution. Also, IEP's are translated for free in any language with the Office of Language Access.
Progress monitoring sheet	To ensure accuracy, a staff member will complete the document translation. These translations will then be submitted to administration for approval before distribution.
Progress reports	To ensure accuracy, a staff member will complete the document translation. These translations will then be submitted to administration for approval before distribution.
Posters	To ensure accuracy, a staff member will complete the document translation. These translations will then be submitted to administration for approval before distribution.
Programs	To ensure accuracy, a staff member will complete the document translation. These translations will then be submitted to administration for approval before distribution.
Emergency	the nurse at times your the translation line to communicate with parents if their child is ill or hurt.

2. List the meetings, both in-person and virtual, that your school typically holds with parents throughout the school year, along with your plans for providing interpretation services at those meetings.

Meeting Type (e.g. parent workshops, PTCs)	How do you plan to offer interpretation services? Please outline the procedures and resources in place to ensure timely access to interpretation for parents.
Parent Workshops	We'll provide interpretation assistance through a staff member or by hiring a professional from Geneva Worldwide.
Parent Teacher Conference	We'll provide interpretation assistance through a staff member or by hiring a professional from Geneva Worldwide.
Registration	We'll provide interpretation assistance through a staff member or by hiring a professional from Geneva Worldwide.

3. Describe the resources and processes your school will use to communicate with parents who speak a language other than English during an emergency (e.g., lockdown, fire, student attendance, nurse/hospital visit, etc.), or when a parent needs to contact the school in an emergency, ensuring communication is in their preferred language.

All posters advertising the availability of translation and interpretation services are prominently displayed in the main entrance area and the Main Office, in accordance with Chancellor's Regulation A-663. Translation services are also announced during Parent Association (PA) meetings, through school newsletters, and via notices posted in the general office to ensure that all families are aware of their rights to language access.

The school is committed to ensuring that parents have meaningful opportunities to participate in and access programs essential to their child's education. Communication with families is supported through ClassDojo, which automatically translates posts and messages into each parent's preferred language. In addition, bilingual staff members and the parent coordinator are available to provide in-person interpretation and translation as needed.

When a family prefers a language other than English, the school utilizes Over-the-Phone Interpretation (OPI) services through DOE-approved translation companies. OPI is also used in emergencies or when a parent needs to contact the school urgently to ensure that communication is immediate, accurate, and accessible in the parent's preferred language.

Part D: Staff Awareness

Staff Awareness

Plan to ensure staff awareness of language access requirements and available resources.

1. Describe how your school will ensure that all staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform, and are familiar with the Best Practices for When to Provide Translation of Critical Written Communications to Parents and Best Practices for When to Provide Interpretation for Critical Oral Communications with Parents. Additionally, explain how your Galaxy-designated LAC will disseminate future language access resources and updates to all staff members.

Mandatory Training Assignment: The NYCPS Language Access Training for School-based Staff on the WeLearnNYC platform will be designated as mandatory for all staff. This will be communicated clearly through internal memos, staff meetings, and email announcements at the beginning of each school year and for new hires.

Tracking and Monitoring: Our Galaxy-designated Language Access Coordinator (LAC) will be responsible for closely monitoring staff completion of this asynchronous training. We will utilize WeLearnNYC's reporting features to track individual progress and identify staff members who have not yet completed the module.

Dedicated Time and Resources: We will allocate dedicated professional development time during staff meetings or scheduled PD days for staff to complete the training. We will also ensure access to necessary technology (computers, internet) and provide technical support if needed.

Follow-up and Support: The LAC will send regular reminders to staff with outstanding training. For those struggling to complete it, the LAC will offer individualized support, including answering questions, providing troubleshooting assistance, or directing them to relevant resources.

Part E: Parental Notification

Parental Notification

Provision of notice to parents on the available language assistance services.

1. Describe how your school will inform parents about available language assistance services in their preferred language. Include any of the following:

- **Translated signage**
- **Brochures, flyers, or letters shared with parents**
- **Parent engagement events where language assistance services are highlighted (e.g., PTA meetings, international parents' night, etc.)**
- **Messaging applications**

- Language Access for NYC Public Schools Families brochure

Multilingual posters are displayed throughout the school building in accordance with Chancellor's Regulation A-663. They are placed in high-traffic areas, including the main entrance, main office, hallways, and the parent coordinator's office, to ensure that all families are aware of the translation and interpretation services available to them.

In addition to these visual supports, our school uses parent surveys during parent-teacher conferences to identify family needs and areas where additional language support may be required. Based on survey outcomes, the parent coordinator, MLL teacher, guidance counselor, and Parent Association (PA) representatives host multilingual workshops to ensure that all families receive accessible information and resources in their preferred language.

Part F: Monitoring

Monitoring

Methods for soliciting and implementing feedback on language assistance services.

1. In addition to the feedback received from parents via OLA's Translation & Interpretation Feedback Survey, describe the methods your school will use to gather feedback from parents regarding the language assistance services they receive in their preferred language.

In order to gather feedback from parents regarding the language assistance services they receive in their preferred language we will conduct the following:

Scheduled Sessions: Our Parent Coordinator, or a designated bilingual staff member, will regularly schedule brief, informal interview sessions or small focus groups with parents from various language backgrounds. These can be held during pick-up/drop-off times, at PA meetings, or during school events.

Preferred Language Conversation: These conversations will always be conducted in the parent's preferred language, utilizing bilingual staff or interpreter services as needed.

Targeted Questions: We will ask open-ended questions about their experiences with translated documents, interpretation services during meetings (e.g., IEPs, parent-teacher conferences), communication through platforms like ClassDojo, and overall clarity of school information.

Documentation: Feedback will be carefully documented, noting the language of the parent and the specific services discussed.

2. How has your school worked to improve its language assistance services? Share any feedback results and outline your plans for further improvements in the upcoming school year.

To improve our language assistance services for the upcoming school year we will enhanced staff training and awareness the following way:

Mandatory WeLearnNYC Training: We have ensured that all school-based staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC platform. Our Galaxy-designated Language Access Coordinator (LAC) rigorously tracks completion, provides reminders, and offers support to any staff needing assistance. This training has significantly raised awareness of language access rights and responsibilities.

Best Practices Dissemination: Through dedicated staff meeting sessions and readily available digital and hard copies, we've ensured staff are familiar with the "Best Practices for When to Provide Translation of Critical Written Communications to Parents" and "Best Practices for When to Provide Interpretation for Critical Oral Communications

with Parents." These sessions include practical examples and Q&A, reinforcing the application of these guidelines.

Internal Bilingual Capacity: We have actively identified and leveraged our internal bilingual staff members, fostering a culture where they feel empowered to support families with translation and interpretation needs, especially for informal communication and initial support.

Title III Outline

Title III Supplemental Program for ELLs for SY 2025-26

REQUIREMENTS

Title III supplemental services for English Language Learners (ELLs) must include the following three components:

- **Direct instruction** activities must be used to support language development, English and home language instruction, high academic achievement in math, and/or high academic achievement in other core academic areas. The Title III supplemental instructional services must be based on student need. These supplemental services should complement core bilingual and ENL services required under CR Part 154. Direct supplemental services should be provided for before school, after school, and Saturday programs. Teachers providing the services must be bilingual education and/or English for Speakers of Other Languages (ESOL) certified teachers.
- High quality **professional development** that is "of sufficient intensity and duration to have a positive and lasting impact on the teachers' performance in classrooms." Professional development activities should be well-planned, ongoing events rather than one-day or short-term workshops and conferences.
- **Parent engagement and supports** must ensure that there are appropriate translation and interpretation services to meet community needs. These are in addition to mandated activities, such as parent orientation during ELL identification process or annual ELL parent meetings.

Note: The Title III ELL program planning ratio is as follows: 60% to direct instruction, 10% to professional development (if funded using Title III ELL funds), 10% to parent engagement (if funded using Title III ELL funds), and 20% to OTPS (if funded using Title III ELL funds).

For more information on Title III requirements, please see the School Allocation Memo or contact your ML/ELL Director or ELL Compliance and Performance Specialist. Any updates or revisions to this plan must be made through the iPlan portal.

Part A: School Information

This school is (select one):

Conceptually consolidated (skip Part E of this document)

Part B: Direct Instruction Supplemental Program Information

The direct instruction component of the program will consist of (select all that apply):

,After School

Total number of ELLs to be served in this program:

50

Grades to be served in this program. Select all that apply.

,K,1,2

Total number of teachers in this program:

3

Number of certified bilingual education or ESOL teachers (include teachers that are dually certified with TESOL certification/bilingual extension & common branch/content area certification):

3

Number of content area teachers (i.e., teachers that have common branch/content area licenses only):

0

Title III ELL Summary

Provide a summary of each program funded under Title III ELL for SY 25-26: For each program, describe:

- **When the program takes place (i.e., after school, before school, Saturday academy)**

- **Activities ELLs will engage in and how these activities will enhance instructional opportunities for ELLs**
- **How ELLs will be grouped for instruction and specify the number of student groups. Include total number of student groups and total number of ELLs in each group, for each program**
- **How instruction will be delivered (e.g., team teaching, parallel teaching, etc.)**
- **How the program will be supervised and whether this will be funded by Title III ELL. Please note: If supervision will be funded using Title III ELL funds, you must include the supervisor's regular work day hours and the hours the supervisor will get paid per session.**

At no cost to the Tittle III funds Assistant Principal will supervise the program. At cost to the Tittle III funds will provide teachers per session to provide after school supports for MLL's/ELL's students in grades K-2. The program starts November 2025 and ends June 2026. In the after school program we have four Dual Language and one TESOL teacher. Our program consist of five small groups on Tuesday, Wednesday and Thursday's from 2:30-5:30pm. The groups in this program are as follows:

Group 1: 1 Bilingual certified teacher, 15 students, proficiency level ranging for entering-emerging. The focus in this group is phonemic awareness.
Group 2: 1 Bilingual certified teacher, 15 students proficiency level ranging from entering-emerging. This groups focus is fluency.
Group 3: 1 TESOL certified teacher, 20 students proficiency level ranging from entering - transitioning. The focus in this group is reading comprehension.

The materials used for the program are at no cost to Title III LEP funds. MLL's/ELL's in grades K-2 work in small groups based on their needs on improving the 5 pillars of reading. When a student has mastered an area they then rotate to the next pillar or move to the next step within their group which is based on their level. During the Fall session we review and work on improving phonemic awareness (letter sounds), phonics (blending), word recognition, fluency and reading comprehension. By session two in the spring, we hope to have moved the group into reading more text with understanding (citing text evidence) and making a connection to self and the real world. During small groups the teachers strategically promotes accountable conversations to help students receive language support.

Rationale for Title III ELL Funded Programs

Describe the rationale for each Title III ELL funded program. For each program, include:

- **Qualitative and quantitative data analysis that support the need for program, and**
- **Data sources used to justify the need for the program**

The development of our Title III English Language Learner (ELL) funded program, focusing on literacy, was informed by a thorough analysis of our Acadience data. This data-driven approach enabled us to identify specific areas of need and design a targeted program to support the literacy development of our ELL students. Data analysis from Acadience reported that ELL's in grade K-2 are only 25% on grade level. With this program our Goals and Objectives was to o address the disparity, we program focuses on strengthening the five pillars of reading:
Phonemic awareness (letter sounds)
Phonics (blending)
Word recognition

Fluency
Reading comprehension

During the fall session, we concentrate on reviewing and improving these foundational skills. By the spring session, we aim to progress to more advanced reading skills, including:
Reading complex texts with understanding
Citing text evidence
Making connections to personal experiences and real-world applications
Data-Driven Instruction and Grouping

To ensure targeted support, teachers group students according to their specific needs, as informed by additional data from i-Ready, NYSESLAT, and NYSTELL assessments. This data-driven approach enables us to tailor instruction to meet the unique requirements of each student. Through this program, we also aim to foster increased class participation, discourse, collaboration, and real-world connections among our ELL students. By providing targeted literacy support, we strive to empower our students with the skills and confidence necessary to succeed academically and beyond.

Students and Grade Levels to be Served

For each Title III ELL funded program, describe the students that will be served. Include:

- **Total number of ELLs for each program,**
- **Grade levels for ELLs in program, and**
- **ELL Subgroups (e.g., Newcomer) and/or proficiency levels (e.g., Entering, Emerging, etc.).**

Our Title III LEP enrichment program serves Multilingual Learners/English Language Learners (MLLs/ELLs) in grades K–2. The program begins in October 2025 and concludes in June 2026. We will be serving 62 ELL students, primarily newcomers.

The program operates three small instructional groups on Tuesdays, Wednesdays, and Thursdays from 2:30 p.m. to 5:30 p.m. These groups are organized by English proficiency level and grade to ensure differentiated, targeted instruction that supports language acquisition and academic growth.

Schedule and Duration

For each Title III ELL funded program, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of the week the program will be offered, and**
- **Time and duration of sessions.**

The program is structured into two sessions, held on Tuesdays, Wednesdays, and Thursdays, from 2:30 pm to 5:30 pm. The program's duration spans from November 2025 to June 2026.

Language of Instruction

For each Title III ELL funded program, include language of instruction and how home language support is provided.

The program's language of instruction is English. To support students' linguistic needs, during reading sessions students are paired with mentors who share their home language, facilitating a culturally responsive learning environment. Additionally, the program incorporates instruction on cognates, enabling students to recognize and analyze the similarities between English and Spanish, promoting a deeper understanding of linguistic connections and fostering bilingual literacy skills

Number and Types of Certified Teachers

For each Title III ELL funded program, include number and type(s) of certified teachers (e.g., ESOL, bilingual, content area):

To help run this program we are assisted by five of our teachers. We have four bilingual certified and one TESOL certified teacher.

Types of Materials

For each Title III ELL funded program, include:

- **Types of materials,**
- **Titles and publishers of main supplemental materials,**
- **Location where purchased materials will be stored, and**
- **Whether materials will be purchased using Title III ELL funds. Please note: If materials are purchased using Title III ELL funds, they cannot exceed 20% of the total allocation.**

At no cost to Tittle III funds the books used for this program is Reading For All Learners.

Implementation Plan and Maintaining Records

- **Describe your school's plan for implementation (e.g. when and how parents/guardians will be notified about the program(s)).**
- **Describe how your school will maintain records of your school's Title III ELL funded program, including evidence of parent notification in their preferred languages, student attendance records, evidence of teacher certifications for teachers supporting the program, record of parent engagement activities, records of professional development activities, purchase orders and invoices to date. For additional information, please refer to the Title III ELL FAQ.**

To ensure accountability and transparency, daily afterschool attendance records are meticulously maintained in a designated binder, readily accessible for reference. Prior to the program's commencement, a mandatory parent orientation meeting is held, providing an opportunity for parents to ask questions and receive essential program information. As part of the enrollment process, parents are required to complete a program application, which is available in their preferred language to facilitate inclusivity. Completed applications, along with parent and students attendance records, are carefully filed in the Title III binder for record-keeping purposes

Part C: Professional Development

Professional Development Summary

Provide a summary of your school's plan for professional development under your Title III ELL program. Please make sure to describe:

- **Professional development to be provided,**
- **Activities that teachers will engage with by topic, and**
- **Whether the professional development provided will be funded by Title III ELL funds. Please note: If PD will be funded by Title III ELL funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of PD and must not exceed 10% of the total allocation.**

Professional Development by consultants and Professional Learning Sessions are at no cost to Title III immigrant funds.

Monthly
-Professional Development in-house and virtual

September 2025 -
- Monday staff P.D. to Review ELA/Math state exam scores
- Monday staff P.D. to Review NYSESLAT scores
- Mid week Half day HMH Writing planning with consultant.
- Vertical Team meetings

October 2025 (a minimum of two hours per session)
-Achieve 3000 Smarty Ants interactive program
-Read Alliance/NYU workshop trainings
-Interactive software such as pear deck, add puzzle, etc. Training
-Consultants
-Coaches
- Vertical Team meetings

November 2025 (a minimum of two hours per session)
-ELL RISING Enhancing ENL instruction
-BN FSC
-Consultants
-Coaches
- Vertical Team meetings

December 2025 (a minimum of two hours per session)

-Integrating science with the curriculum in the classroom with ELL supports
-BN FSC
-Consultants
- Vertical Team meetings

January 2026 (a minimum of two hours per session)
-ELL RISING Enhancing ENL instruction (turnkey two staff members)
- Vertical Team meetings

February 2026 (a minimum of two hours per session)
- Understanding the NYSESLAT assessment
-BN FSC
-Consultants
-Coaches
-I-ready consultants
- Vertical Team meetings

March 2026 (a minimum of two hours per session)
-Mathematical reasoning in the MLL classroom
-Coaches
-Consultants
- Vertical Team meetings

April 2026 (a minimum of two hours per session)
-Coaches
-Consultants
- Vertical Team meetings

May 2026 (a minimum of two hours per session)
-Coaches
-Consultants
- Vertical Team meetings

June 2026 (a minimum of two hours per session)
-Coaches
-Consultants
-Vertical Team meetings

Teachers that attend Professional Development or those that turnkey must provide a copy of the agenda to Bilingual coordinator/Literacy coach, to keep in our Staff Development Committee (SDC) binder and digitally in our Google Drive. If Professional Developments are in house a copy of the attendance sheet and the agenda will be kept in the same binder.

Rationale for Professional Development

Describe the rationale for the professional development to be provided. For each activity, include:

- **Qualitative and quantitative data analysis (e.g., patterns and trends identified) that support the need for the professional development, and**

- **Data sources (e.g., school survey teacher responses, in-house teacher surveys, teacher observation data) used to justify the professional development.**

To enhance instructional effectiveness and support the academic success of our students, including English Language Learners (ELLs), teachers participate in ongoing professional development (PD) opportunities. These sessions are designed to provide educators with additional knowledge, strategies, and support to address the diverse needs of our student population. Professional development opportunities are offered at no cost to the Title III program. These PD's are scheduled based on the data provided by the teacher PD survey and the Staff Development Committee that consist of teachers from various grades. Based on the data and their input the structure is as follows:

Monthly in-house workshops and virtual sessions
Consultant-led training sessions
Webinars on relevant topics
District 32's monthly virtual and in-person professional learning sessions

To ensure seamless implementation, teachers who attend external PD sessions will share their knowledge with colleagues during our monthly PD sessions. To facilitate teacher participation, common planning periods are scheduled, providing educators with the necessary support to help students become college and career-ready. Professional development opportunities are carefully planned to address teacher-identified needs, as indicated in the annual beginning-of-year teacher survey and informed by teacher observation data. This targeted approach ensures that our educators receive relevant, impactful support to enhance student outcomes.

Teachers to Receive Professional Development

Include information on the teachers to receive professional development. Please specify how all teachers working in the Title III ELL program will receive ongoing professional development related to the Title III ELL program.

Teachers of both ELLs and non-ELLs will attend workshops and trainings intended to provide additional support and knowledge regarding the instruction of our students at no cost to Title III immigrant funds.

Schedule and Duration

For each Title III ELL professional development activity, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of sessions, and**
- **Time and duration of sessions.**

To accommodate various workshop requirements, professional development sessions are scheduled at different times throughout the year at no cost to Title III immigrant funds. Specifically:

Monday PD sessions: 2:30 pm - 3:40 pm

Other PD sessions: variable timing, ranging from a single period to several hours, depending on the topic and presenter

Professional development opportunities will commence in September 2025 and continue until the last day of school in June 2026, providing ongoing support and growth opportunities for educators throughout the academic year.

Topics to be covered

For each Title III ELL professional development activity, include topics to be covered.

Educational consultant paid by other school funds.

MLL/DL consultant support with Millie Goodman.
Analyzing student data
Support all ELL's in the level they are in
providing small group support with sentence structures

Reading and Writing consultant support with Nadine Ruzzier
Analyzing student data
Providing small group instruction
Progress monitoring support

Name(s) and Title(s) of Provider(s)

For each Title III ELL professional development activity, include name(s) and title(s) of provider(s).

Title III ELL professional development activity are given by our following consultants:
Reading and Writing consultant support with Nadine Ruzzier
MLL/DL consultant support with Millie Goodman

Maintaining Records

Describe your school's plan for maintaining documentation (e.g., agendas, attendance sheets) of all professional development provided as part of your Title III ELL plan; please specify which activities were funded by Title III ELL funds.

At 32k151 our plan for maintaining documentation of professional development provided using Title III ELL funds is shared and saved and shared with our MLL's and Parent coordinator. Our Staff Development calendar (SDC) is provided to our staff electronically. All agenda's and attendance are kept in our Professional Development binder.

Part D: Family Engagement Activities

Family Engagement Summary

Provide a summary of your school's family engagement activities under your Title III ELL program. Describe the activities that families of ELLs will engage with by topic. Please make sure to include whether the activities will be funded by Title III ELL funds.
Please note: If family engagement activities will be funded by Title III ELL funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of family engagement and must not exceed 10% of the total allocation.

At no cost to the Title III funds parents are offered various engagement activities. Most of our family engagement occurs at either 9am or after school hours such as 5:30pm. The dates in which they occur in may vary on a month to month basis. Parents are notified of our event in their native language through flyers, school website, monthly parent calendar and ClassDojo. Some of our engagement activities are a final award ceremony where students present their reading, speaking and listening skills. These activities can occur either in-person and/or virtually. ENL, Bilingual, SWD and Common Branch Teachers as well as our Parent Coordinator support, assist our students to present the plays written and produced by our students. We expect our performance to take place both during our after-school program and at a separate assembly when we will present our play-acting and play-writing skills in a public performance in the spring (in-person and/or virtually). All our after school drama and reading activities will involve performances by all of the students participating in the after-school program. Notification of parent events are through our school's application, ClassDojo application, and via flyers that are backpacked with the students. The schedule of parent workshops are listed below, but are not limited to:

September 2025
Prek & 3k orientation
K Orientation
MLL Parent Orientation
Autism Nest Parent engagement welcome orientation
Town hall and Evening Parent-Teacher Conferences for elementary schools, and Pre-K Centers
Dad's Bring your child to school
Parent Association Meeting
Grandparent appreciation breakfast

October 2025
ANTI BULLY Workshop parents
PREK family workshop literacy
Pre-K Autism NEST Workshop
Read Alliance Orientation
Middle School Application Process (Guidance Counselor)
Kindergarten literacy and math (coaches)
Parent Association Meeting (Character literacy night)

November 2025
Free Digital Applications workshop - (Tech Teacher)
PTC afternoon and evening
Student Council Welcome Assemblies
DL Parent Workshop (DL Teacher)
NEST parent workshop
International Day parent presentation
Parent Association Meeting (Family Thanksgiving)

December 2025
Breakfast with the Principal (Ms. Hunt)
Literacy Parent Workshop: Building strong readers at home
Parent Association Meeting Math Night

January 2026
DL Parent Workshop (DL Teacher)
Kindergarten Open House In Person
Kindergarten Open House
Lunar New Year Celebration Dragon Dance Parade
Parent Association Meeting Sip and Paint Art Night

February 2026
Kindergarten Open House
Respect for all Parents In person
Respect for all Students Assembly w/NYPD
Kindergarten Open House
NEST parent workshop
3k/Pre K Open House In person
CEC 151K Student Presentation at 384
Parent Association Test Prep
Black History Showcase

March 2026
Read Across America
3k/Pre K Open House
MLL's/DL Workshop NYSESLAT Test Prep (DL/TESOL Teacher)
PTC
Breakfast with the principal (Ms. Hunt)
World Poetry Day Assembly (9am, 10am, 11am)
3k/PreK Open House In person
Parent Association Meeting (Science Night/ Nominations)
3K/Prek Open House
Honor Roll Assembly

Social Studies Project Based Presentation
Career Day Assembly

June 2026
Breakfast with the principal (Ms. Hunt)
PS151K Talent Show
Field day 3-5
Field day K-2
3k, Prek Field Day
3k, Prek Father's day Picnic
Field Day Rain Date
Father's Day Kick Ball
Parent Association Meeting
5th grade honor roll assembly
5th Grade Senior Trip
5th grade graduation
5th grade celebration
Prek Graduation
Kindergarten Graduation
Honor Roll Assembly grades 1-4
PBIS End of year celebration Last day of school

Rationale for Family Engagement Activities

Describe the rationale for the family engagement activities to be provided: For each activity, include:

- **Qualitative and quantitative data analysis (e.g., reasons for topics, time activities will be offered), and**
- **Data sources (e.g., parent survey responses, in-house parent surveys, PTA/PA request, etc.) used to justify the need for activities.**

The rationale behind these activities are to increase our students familiarity with and use of the four modalities of listening, speaking, reading and writing, while simultaneously promoting a sense of pride and accomplishment while increasing their self-confidence to the perform before each other and a live audience. Our students will also acquire a greater knowledge of an improvement in their overall English skills while attaining a greater confidence in reading, writing, and speaking as they increase their vocabulary, comprehension, and fluency in English. Parents will be notified of play productions and ceremonies by letters, phone calls, flyers, student word of mouth, and our parent coordinators effective outreach of information to our parents, families and the PS151k community, in general i.e, Classdojo application, Google Meet invitation, and our website www.ps151k.org, and/or Twitter page.

Additionally, our teachers communicate with our parents and their families through frequent letters and flyers directly sent home to inform our parents of important information and updates. Parental notifications are sent home at the beginning of the academic school year to our parents and guardians in the form of entitlement letters, continued entitlement letters, non-entitlement letters, parent preferred language forms, placement letters, and

parent brochures in their home or preferred language. Parents that our new to our school community are also invited to PS151K for a parent orientation and a viewing of the parent orientation video explaining their options and rights as a parent or guardian of a student. In the 2025-26 school year, and weather permitting, parent orientation will take place outdoors and/or virtually using video platforms such as Google meets and Zoom.

In the fall, we have a parent orientation scheduled in September 2025. During these session parents will receive a letter explaining the supplemental services their child will receive, and the details of the after-school program in which their child is invited to participate. Immediately following this meeting, parents of the students will receive a letter inviting their child to attend the after-school program commencing September 15, 2025, that will contain a description of the instructional program and its benefit. Attached to the letter will be a permission slip form and an opt out form, should they choose.

In the spring, letters are sent to the parents informing them of the upcoming assessments like; NYSESLAT, Math and ELA state exam and how the school prepares students for these exams. In addition, our parent coordinator facilitates parent workshops. The workshops are based on the needs of the students as well as the parents. Parents are provided tools and strategies to support our students' reading while reading their independent reading level just right books and/or books of interest. However, all parents are notified and invited to attend our educational internet-based curriculum such as MyOn, Mathletics and Smarty Ants that can be accessed from the students' home computer/table.

Lastly, our students will participate in culminating drama activities through their active involvement in and the excitement of life productions to be presented before students, parents, family members, and the PS151K community. We anticipate the production of these performances in May and June 2026, with specific calendar dates to be chosen closer to these actual upcoming months. we will hold both in school and after school performance is to maximize the potential audiences' ability to see these performances. Each performance will consist of three or four short plays, monologues, read aloud, performed by the students on these future dates, with costumes and sets designed by the students with the help of parents. We expect to have parents participating at these specialized events in addition to the school wide events.

Records will be maintained by the Assistant Principal and the Parent Coordinator. A copy of agendas, attendance sheets, and invitations in the parents preferred language will be kept in the Assistant Principal/Literacy coach classroom and in the Parent Coordinator's office. Additionally, records are kept digitally in our Google Drive.

To ensure that our parent events and workshops remain relevant and effective, we solicit feedback from parents at the conclusion of each Parent Association (PA) meeting. This feedback is used to inform future program planning and to identify areas for additional support. Additionally, our PA President and Parent Coordinator conduct regular attendance analyses to identify trends and areas for improvement. In instances where attendance is low, we proactively reach out to parents to gather insights on how to enhance our offerings, including potential topics or formats for future workshops. This collaborative approach enables us to tailor our events to meet the evolving needs of our families, fostering a stronger sense of community and support.

Schedule and Duration

For each Title III ELL family engagement activity, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of sessions, and**
- **Time and duration of sessions.**

These events occur during the months of September 2025 - June 2026. Most events would be offered both during the day and the afternoon to offer options to our working family members. We will also provide a virtual option for those that are unable to physically attend.

Topics to be Covered

For each Title III ELL family engagement activity, include topics to be covered.

Please see above

Name(s) and Title(s) of Provider(s)

For each Title III ELL family engagement activity, include name and title of provider(s) (e.g., vendor, community-based organization, school staff name in charge of facilitating the parent engagement activities described in this section).

The above listed events include most of the events note that the events may switch from in person to virtual during school closures. All are provided at no cost to Title III ELLs funds.

Note, that every parent/family session listed on the table above is facilitated by our staff and we have our parent coordinator, who speaks both English and Spanish fluently, present in all sessions to assist with the translations with our Spanish speaking parents. The workshop are provided as follows:

1.Read Alliance and NYU, at a cost to 32k151, provide three workshops to the parents by their designated professor/experts at a cost 32K151.

2.BN FSC will provide a workshop for our parents at no cost to 32K151, by their designated school district license ENL, TESOL and/or bilingual licensed personnel.

3.Software and Internet programs and CBO corporation consultants (at a cost 32K151, Cornell University at no cost, Dial A Teacher, at no cost 32K151, etc.) provide workshops to the parents.

4.School level workshops are provided by our licensed teachers to our parents, such as homework help, dance, arts, science, etc., at per session rate cost 32K151 when conducted during after school hours.

Family Notification of Activities and Translation and Interpretation Supports:

Describe:

- **How families will be notified of Title ELL family engagement activities (e.g., phone calls, emails),**
- **How notification of activities will be translated into parent/guardians' preferred language, and**

- **How interpretation supports will be provided at events.**

All of our parents are invited to participate in school year events, workshops, and professional development offered by the parent coordinator. Parents will be notified of the following events by phone calls, Flyers, students word of mouth, and our parent coordinators effective outreach of information to our parents, families, and the PS151K community in general i.e. Classdojo Application.

Maintaining Records

Describe how your school will maintain documentation (e.g. agendas, attendance sheets) of family engagement activities and notifications to families.

At 32k151 our school will maintain documentation of family engagement activities and notifications to families with our MLL's and Parent Coordinator.
