Comprehensive Educational Plan Outline

Table of Contents

Main Sections (Customized Based on School Accountability Status):

- Section 1: Overview of Comprehensive Education Planning
- Section 2: School Information
- Section 3: CEP SLT/Stakeholder Signature Page
- Section 4: School Summary
- Section 5: Priority 1 – All students learn to read well
- Section 5: Priority 2 – All students are physically and emotionally safe
- Section 5: Priority 3 – All students have a high-quality academic experience
- Section 5: Priority 4 – All students graduate college and career ready and have a strong plan and pathway to economic security
- Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools
- Section 5: Attendance/Chronic Absenteeism
- Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities
- Section 6: Multi-Tiered Systems of Support (MTSS)
- Section 7: Parent and Family Engagement Policy and School-Parent Compact
- Title I Program Information
- Submission Assurances
- Language Allocation Policy Outline
- Part I: School ML/ELL Profile
- Part II: Bilingual Programs
- Part III: ML/ELL Programming
- Part IV: Data Analysis
- Part V: ML/ELL Instruction
- Part VI: Family Partnership
- Part VII: Additional Information
- Part VIII: ELL Identification Attestation and Principal Certification
- Part IX: LAP Assurances
- LTI Overview and Part A: Designation of a LAC
- Part B: Parents' Preferred Languages
- Part C: Parent Communications and Engagement

- Part D: Staff Awareness
- Part E: Parental Notification
- Part F: Monitoring
- Title III Outline
- Part A: School Information
- Part B: Direct Instruction Supplemental Program Information
- Part C: Professional Development
- Part D: Family Engagement Activities
- Part E: Budget

Appendices (Reflecting Additional Requirements for Specific Groups of Schools):

F

Section 1: Overview of Comprehensive Education Planning

Overview of Comprehensive Education Planning

Comprehensive Education Planning (CEP) is a structured, data-driven process that guides schools in assessing their needs, identifying areas for growth, setting strategic goals and implementing targeted actions to improve student outcomes. Collaboratively developed by the School Leadership Team (SLT) in accordance with the requirements of Chancellor's Regulation A-655, the CEP meets New York State Education Department (NYSED) requirements under the Every Student Succeeds Act (ESSA) and aligns with NYC Public Schools' (NYCPS) system-wide priorities. By engaging all stakeholders—school leaders, teachers, families, students and community members—schools can create a data-informed, equity-focused roadmap for student success and continuous improvement.

Schools should focus their CEP on the five system-wide priorities below, connecting their planning to the data discussions and conversations with stakeholders held as part of the school's needs assessment:

- Priority 1: All students learn to read well
- Priority 2: All students are physically and emotionally safe
- Priority 3: All students have a high-quality academic experience
- Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security
- Priority 5: All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

The Education Planning Process

The CEP follows an equity-driven, continuous improvement cycle, rooted in the system-wide priorities. This begins with a comprehensive needs assessment of the school's most current data to identify priority needs and root causes. Next, the SLT establishes **s**pecific, **m**easurable, **a**ttainable, **r**elevant, and **t**imely—SMART goal(s) aligned to each priority and determines targets to measure progress toward meeting the annual goals.

The SLT and instructional leaders define key evidence-based key strategies, professional learning activities and parent, family and community empowerment efforts. They monitor the implementation of those strategies and activities and track progress through measurable targets. Then, the SLT aligns the school-based budget with human and instructional resources to support action plans.

As schools set goals, develop key strategies, and plan action steps, they provide opportunities for all children to meet NYSED's proficient and advanced levels of student academic achievement. These include evidence based instructional strategies that address the educational needs of historically underserved populations and tackle structural inequities. Schools indicate how the plan addresses the needs of Multilingual/English Language Learners (ML/ELL) through development of the school's Language Allocation Policy (LAP) & Title III Application (if applicable) and the Language Translation and Interpretation (LTI) Plan, that are required as part of the CEP. Schools also address the needs of Students with Disabilities (SWD) through the High Quality Inclusive & Accessible Learning for Students with Disabilities section of the plan. SLTs also develop a plan to improve attendance and reduce chronic absenteeism.

Guidance on Conducting a Comprehensive Needs Assessment

Directions: Conduct a comprehensive needs assessment for each Priority. The information below provides guidance for reviewing and analyzing student and school performance trends to uncover root causes for low student achievement.

1. Review Multiple Data Sources: Use the most current and available information including, but not limited to, the following sources of formative and summative data, as applicable:

- Qualitative and quantitative data, including enrollment and class size trends
- 2024-25 ESSA Accountability Data
- Instructional Leadership Framework (ILF), Supportive Environment Framework (SEF) Inventories, and NYC School Survey results
- Quality Review Reports, NYSED and NYCPS CSI or A/TSI Support Visits, Receivership Quarterly Reports, and Diagnostic Tool for School and District Effectiveness Framework (DTSDE)
- NYC School Quality Guide, Insight, New Visions, NWEA MAP and/or other formative assessment data, IEP Review Survey Data, Progress on IEP Goals Data, Program (SESIS-STARS Linkage) Reports, Mandated (Related) Services Reports, and NYCPS Tools for Understanding Your Data for student subgroup information

2. Analyze Data Trend(s) to Identify Areas of Strength and Need: Identify data trends by grade, cohort, and content area(s) to surface gaps and inequities. Compare data sets to identify instructional and school practices that are impacting student performance. Guiding questions to consider:

- What does the data reveal about improving and declining student performance trends within grades, cohorts, and student subgroups?
- What inequities are evident between highest and lowest performing student subgroups? Which subgroup(s) scored at Level 1 based on NYSED ESSA accountability indicators?
- What does the data suggest regarding the effectiveness (or ineffectiveness) of current school programs, practices, and/or strategies/initiatives? What areas may need to be strengthened?
- Are there any differences in student performance between program delivery models for ML/ELL and SWD? (e.g., for special education: special class, ICT, SETSS, related services only; for ML/ELL: Transitional Bilingual Education (TBE) vs. Dual Language, etc.)
- How does delivery of instruction factor into data trends? What are the implications for teacher quality and professional learning?
- What inequities in special education referral and school disciplinary practices (e.g. suspensions, removals) are evident between student subgroups with IEPs?

3. Identify Root Cause(s): After analyzing the data, engage in a process for uncovering root causes or contributing factors for low student and school performance. Develop theories or hypotheses to explain

why these needs exist and why your school is getting its current outcomes. Root causes could be related to gaps and inequities in areas such as curriculum & instruction, school systems & structures, student support services, school climate & safety, and family & community engagement. Focus on the causes, rather than the symptoms. Use the 5 Whys Method or other methods for identifying root causes. Consider the questions below:

- What theories or hypotheses explain the current student and school outcomes?
- Are there root causes specific to certain subgroups, grades, cohorts, or content area(s)?

Additional resources and supports are available below.

- Use this CEP Needs Assessment Worksheet to help your SLT and stakeholders identify appropriate data sources, data trends, root causes and priority needs.
- For guidance and best practices on engaging stakeholders in a comprehensive needs assessment and root cause analysis, see this deck.
- A current list of all CEP/Title I resources can be found on the iPlan Portal Public Resources Page.

Section 2: School Information

School Information

School Name:

Thomas Warren Field Elementary School of Leadership and Service

District Borough Number (DBN):

32K299

Grades Served:

3K - 5

School Address:

88 Woodbine Street

Phone Number:

718-473-8230

Fax:

718-574-1080

School Contact Person:

Carleen Miller-Bailey

School Contact Person Email Address:

CMiller11@schools.nyc.gov

Principal:

Dr. Carleen Miller-Bailey

United Federation of Teachers (UFT) Chapter Leader:

Catina Butler

Parents' Association President:

Christina Grajales

SLT Chairperson:

Milagros Matias

Title I Parent Advisory Council Chairperson (PAC):

Brianda Perez

Student Representative(s) Middle /High School:

N/A

Student Representative(s) Middle /High School:

N/A

Community Based Organization (CBO) Representative:

N/A

School-Based Students in Temporary Housing (STH) Liaison:

Rita Carrington

Section 3: CEP SLT/Stakeholder Signature Page

School Leadership Team (SLT) Signature Page

All School Leadership Team (SLT) members are expected to sign this page to confirm their participation in the development of this Comprehensive Education Plan (CEP) and that they have been consulted regarding the alignment of the school-based budget to support this school's educational program, which includes annual goals and action plans, Multi-Tiered Systems of Support (MTSS), the Parent and Family Engagement Policy (PFEP) and the School-Parent Compact (SPC). The SLT must include an equal number of parents and staff and have a minimum of 10 and a maximum of 17 members, in accordance with Chancellor's Regulation A-655. The SLT also serves as the Core Community Engagement Team (CET) for Receivership Schools. Additional information and resources are available on the School Leadership Team Resources page. Under the Federal Every Student Succeeds Act (ESSA), NYS Education Law and Commissioner's Regulations, stakeholder participation in the development of the CEP must include multiple constituencies who represent the school community. Note: Stakeholders participating in the development of the CEP who are not listed on the SLT page sign the section below entitled Additional Stakeholder Participation on CEP Development.

Directions: List the names of each SLT member in the first column on the chart below.

- Specify the position and constituent group represented, e.g., parent-PTA, staff-UFT, student. Note: Two student minimum required for high schools; SED requires Middle Schools identified for the CSI/ATSI/TSI support model to have student representation.
- Community Based Organization (CBO), and any position held by the team member. Core mandatory SLT members are indicated by an asterisk*. Note: The Core SLT members also serve as the CET for Receivership schools.
- SLT members should review this document and sign in the Signature If an SLT member does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of SLT member indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.
- Schools may modify their SLT bylaws as needed to address additional school and/or ESSA requirements for stakeholder engagement.

SLT Member Name	Position and Constituent Group Represented	Signature
Carleen Miller-Bailey	Principal or Designee*	
Catina Butler	United Federation of Teachers (UFT) Chapter Leader or Designee*	
Christina Grajales	Parents' Association (PA)/Parent-Teach Association (PTA) President or Designated Co-President*	
Evelyn Terry-Williams	District Council 37 (DC 37) Representative (staff), if applicable	
Brianda Cruz Perez	Title I Parent Advisory Council Chairperson (or alternate)	
n/a	Student Representative (Required for middle and high schools)	
n/a	Student Representative (Required for middle and high schools)	
n/a	CBO Representative, if applicable	
Milagros Matias	SLT Chairperson/Staff	
Nancy Clarke	SLT Secretary/Member/Staff	
Erika Palacios	SLT Member/Parent	
Isabel Luna	SLT Member/Parent	
Christina Grajales	SLT Member/Parent	
Nikeisha DaSilva	SLT Member/Parent	
Tatum Boothe	United Federation of Teachers (UFT) Chapter Leader or Designee*	
n/a	Member/	
n/a	Member/	

Additional Stakeholder Signature Page

Directions: Stakeholders participating in the development of the CEP who are not listed on the SLT page may sign below. Additional stakeholders may include, but not be limited to, school and district leaders, school staff, parents/families/guardians, students, community organizations, additional Core Community Engagement Team (CET) members (if applicable), members of the School Implementation Team (SIT), and/or school-based staff development committee that serves as the Instructional Leadership Team (ILT) tasked to improve instructional practice across the school. Go to NYSED's guidance on Assembling Your Team to learn more.

- List the names of additional stakeholders in the first column on the chart below.
- Specify the individual's position and constituent group represented.
- Stakeholders should review this document and sign in the Signature column. If the stakeholder does not wish to sign this plan, the member must check the box under the column "Opt Out of Signing, if applicable" and may provide the principal with a written explanation in lieu of a signature, which must be maintained on file at the school and uploaded in iPlan with the original SLT signature page. Note: Signature of the additional stakeholders indicates participation in the development of the CEP, not approval.
- The original signed copy, along with any written/electronic communications pertaining to this page, is to remain on file in the principal's office and be made available upon written request.

Section 4: School Summary

Accountability Status

Accountability Status: **LSI**

School Summary

Directions: Complete this CEP Summary to serve as the "at-a-glance" narrative that provides contextual information about your school's unique characteristics. This summary and the entire Comprehensive Education Plan (CEP) should be shared with your school community. Please note that this summary and the CEP will be made available to the public through the iPlan Portal, an online space where school stakeholders can go to collaborate in the development of the school's education plans.

Provide your school's mission statement:

Our scholars are empowered to drive their learning as independent thinkers and intellectual risk-takers equipped with an array of strategies to advocate for themselves and improve their community through authentic student learning experiences. Learners use sophisticated literacy skills to navigate all content areas and intentionally communicate in diverse ways with local as well as global community-based audiences.

Our mission is to cultivate high-quality, responsive educational experiences by fostering a foundation for innovation, challenge seeking, and critical thinking that accelerates competence and ignites confidence to lead and serve as champions who can effectively communicate in diverse local and global forums.

Develop a narrative summary that includes contextual information about your school's community and its unique/important characteristics and partnerships:

Include demographic information about your school's student population.

PS 299-The Thomas Warren Field premiered in 2019 as the School of Leadership and Service, where all scholars learn, lead, and succeed, NO Exceptions. Through authentic learning experiences, independent thinking, and intellectual risk-taking, our scholars garner an array of strategies to articulate the advancement of their learning and advocate for the improvement of their community. Liberated from the status quo of cookie-cutter learning routines, our eagles engage in problem-based learning to develop a powerful lens to view reality, the way they exist in the world, critically and transformationally.

As a community, we practice reciprocal accountability and capacity-building tenets. Therefore, before placing the responsibility on the learner, we set the burden of providing access and opportunity to all. Through interrogating data and collaborative conversations with instructors, we plan professional learning to advance pedagogical skills and deepen content knowledge to ignite the "why" quality instruction is critical in providing scholars access to regain academic prowess.

Further, we engaged in building our capacity around a growth mindset, Equity by Design, crafting algorithms to intentionally "level up" and build learning muscles to carry the cognitive load. As a result, teachers have significantly improved planning coherent instruction and deepening their knowledge of content and pedagogy.

PS 299 scholars continue to make academic growth because we have revamped our literacy systems and structures

and reduced the teacher-to-student ratio for more individualized instruction. For example, we implemented Math Stories to provide teachers and students with a consistent learning schedule which afforded opportunities to engage in content-specific and academic discourse with peers to challenge each other's thinking. In addition, the Math Stories data illustrate an increase in the number of students who engaged in visualizing and representing their problems through various math models.

Overall, PS 299 is a growing and thriving academically competitive school. Parents are excited to have Dual Language as an option in grades K to 5th. In addition, scholars have "boasting" rights as the number one school in our district-wide debate championships. Finally, parents and students express gratitude that we have a system like the National Elementary Honor Society that acknowledges students' academic achievement. Because we strive towards excellence, we have parents across Brooklyn They have heard of the quality care and family-oriented learning environment and want their children to be a part of our learning environment. Parents know that all scholars at all levels are welcomed at the School of Leadership--PS 299. Our diverse community serves Latin American, African American, Asian, and White students. Our school is made up of 64% Hispanic students, 30% Black students, and 5% other. 91% of our students are considered Economically Disadvantaged, 40% are STH, 31% are MLLs and 15% are Students with IEPs.

Our school community partners with Adult Learning Center which provides adult education classes to teach English as a second language to our parents and school community. We also partner with members from our community to engage in conversation with our scholars around career development and time traveling to our future selves. We also partner with NY Sun Works to educate our school community about self-sustenance with a hydroponics lab. NYC Grow to educate our school community about Curbside Composting. We partner with Salvation Army to provide after school activities like homework tutoring for our scholars.

Parents state that they appreciate their voices being acknowledged and seeing the changes in action. They know they and their child are valued, and we will move mountains to ensure that the student's right to quality education is upheld.

Briefly summarize the key initiatives your school will implement this school year.

Heggerty
The Heggerty Phonemic Awareness Curriculum provides students with consistent and repeated instruction, and this transfers to developing a student's decoding and encoding skills. All students participate in the lessons as part of the Tier 1 curriculum in preschool, kindergarten, 1st grade, and some 2nd grade classrooms.
Lessons are designed to provide daily instruction in 8 phonological and phonemic awareness skills. Teachers will take an explicit and systematic approach in which students are practicing blending, segmenting, isolating and manipulating words, syllables, onset-rime and/or phonemes each day.

HMH
Actionable data and insights inform instruction that best meets the needs of each student. Teachers help students master foundational skills through an evidence-based scope and sequence, in which skills build on each other weekly. Teachers can precisely tailor instruction to each student’s needs. Amira Learning will be a supplemental and embedded resource that has proven effective at differentiating instruction for emergent readers, multilingual learners, and students with dyslexia.
Frequently assessed standards on the New York State English Language Arts Assessment will be focused on during the year. The pacing of standards R2-R9 will be strategic throughout the academic year. Essentially, each month will focus on its own standard and the progression of each standard will be paced out for the month. Texts will be carefully selected from the curriculum to ensure that students are making a meaningful connection with the focal concepts and skills of the unit. Previously taught standards will be methodically spiraling back into new units of

study so that student learning is continuously reinforced.

Illustrative Math
Illustrative Math K–5 is fully aligned to the focus, rigor, and coherence of the standards. The scope and sequence of units, activities, and representations are designed to help students develop a deep understanding of mathematical concepts, build fluency with procedures, and solve mathematical problems that reflect their lived experiences. Students also develop their math vocabulary through the process of actively exploring and learning mathematics. Students are encouraged to make sense of mathematical concepts using informal language before academic terms are introduced. Embedded within the curriculum are Mathematical Language Routines to support academic language development for all learners. These routines also provide opportunities for English Learners to engage in the specialized academic language demands of reading, writing, speaking, listening, conversing, and representing in math.
Materials are designed to affirm students as they build positive mathematical identities. Units and lessons begin by inviting students to use their prior mathematical knowledge, funds of knowledge, language, and culture to make sense of new mathematical concepts. Activities offer collaborative learning opportunities and instructional routines that center student thinking and encourage students to bring their whole selves to math class. Grades K–5 units include problem-solving contexts that positively reflect ethnically diverse cultures and support the implementation of culturally relevant and responsive pedagogy.

Thinking Maps
Using multiple maps will help deepen students' thinking and strengthen their comprehension and knowledge about a topic by layering thought processes in a variety of ways. Thinking maps enable students to "move" their thinking from one thought process to another. In other words, student thinking is made visible as it moves from brainstorming and disaggregating information to analyzing information by organizing details and comparing and contrasting information. Students then use their thinking to make informed decisions and valid inferences.

What are the primary digital and/or print curricula/programs used for ELA and Math:

Indicate the content area, grade band and any adaptations made.

Content Area (Indicate ELA and Math Only)	Grade Band	Digital and/or Print Curricula/Program	Adaptations
ELA	K-5	HMH Into Reading	
ELA	K-2	Heggerty Really Great Reading	
Math	K-5	Illustrative Mathematics	
Home Language / Spanish	K-5	Arriba La Lectura	

Section 5: Priority 1 – All students learn to read well

Priority 1 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
Grades K-2 Acadience Spring 2025: An average of 20% of students in K-2 performed at or above benchmark.	Students lack fluency of letter-sound relationships needed to develop Rapid Automatic Naming of letters and sounds which they can transfer to basic phonics in order to read simple one syllable words. Students who lack fluency of reading words in isolation or in connected text, are not orthographically mapping the words to develop a large sight word vocabulary. They are sounding out too many words making them disfluent.	Students need to be fluent in early literacy foundational reading skills Students need to be engaged in multi-sensory foundational literacy activities, that include speaking, listening, reading, writing, and questioning. Students need to be engaged in multisensory foundational literacy activities, that promote "Orthographic Mapping" of words, which will increase their sight word vocabulary.

Grades 3-5 iReady Spring 2025: An average of 37% of students in grades 3-5 performed at or above benchmark on the iReady Reading Assessment.	Students lack strategies to support with identifying the meaning of unknown words in context and strategies for applying what they know about a word's meaning to include it in their writing. Students lack strong oral language and strategies to connect their oral language to the newly acquired vocabulary words.	Students must be able to determine the meaning of unknown words to comprehend how the word is being used in context and be able to use the words authentically in their speaking and writing. (both receptive and expressive vocabulary)

Priority 1

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for literacy outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Literacy

- Implement the strategies outlined in NYC Reads, including foundational phonics curriculum for grades K-2
- Implement dyslexia screening, professional learning, and program pilots (as applicable)
- Support literacy development through the integration of culturally responsive-sustaining texts and content

Priority 1 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	18%	By June, 2026, literacy for All Students will improve, as measured by a 20% Increase, from 18% to 38%, of students in grades K-2 scoring at or above proficiency on the Acadience Screener Exam Results.
All Students	37%	By June, 2026, literacy for All Students will improve, as measured by a 10% Increase, from 37% to 47%, of percentage of students in grades 3-5 scoring at or above grade level on the iReady Reading Assessment.

Priority 1 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 1 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Use of Elkonin Boxes (Sound Boxes) for word work - to strengthen phoneme-grapheme connection
Implement Small Group Instruction - Using HMH decodables / Start Right Readers (including but not limited to foundational skills in reading, word work, vocabulary and fluency)
Implement Explicit Phonics Instruction (including more time for application via whole class Echo or Choral Reading of decodable texts)
Explicit Phonemic Awareness Instruction - Heggerty Routine & Multi-sensory Approach (including more time for application via use of decodable readers) - Include a heavy emphasis on Phoneme-Grapheme Connections.
Explicit Vocabulary Instruction - Routine & Multi-sensory Approach (including more time for application)/ Add time for morphology instruction.

Root Cause Addressed:

Students lack fluency of letter-sound relationships needed to develop automaticity in the Rapid Automatic Naming of letters and sounds which they can transfer to basic phonics in order to read simple one syllable words. Students who lack fluency of reading words in isolation or in connected text, are not orthographically mapping the words to develop a large sight word vocabulary. They are sounding out too many words making them disfluent.

Students lack strategies to support them with identifying the meaning of unknown words in context

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
We will review the K-2 Acadience scores from EOY SY24-25 and make recommendations that are connected to

District 32's and P.S. 299's focus of embedding quality literacy instructional practices grounded in the Science of Reading. The administration will additionally utilize a foundational skills inventory to capture data during learning rounds to determine the present level of performance across grades and accountability groups.
Administer the Acadience assessment and/or iReady assessment as a diagnostic.
We will review the K-2 Acadience scores from BOY SY25-26 and make recommendations that are connected to District 32's and P.S. 299's focus of developing and applying foundational skills to support decoding and fluent word reading. The administration will visit classrooms to see where indicators are present and thriving.
Provide professional development for teachers who are interested in becoming a model classroom that provides training on how to use High-Leverage Instructional Routines to engage students. Topics: - How to Select Words to Teach (Which vocabulary words support comprehension of this text?) [Mostly Tier 2 Words] - Echo, Choral and Partner Reading (Oral Reading) to support Fluency of word reading (phonics)- Oral Reading Fluency - Think Ink Pair Share Protocol to Promote Oral Language Development (Questioning and Discussion) - Using Transfer tasks: Reading and Writing Tasks that encourage students to apply what they have learned about newly acquired vocabulary words to increase quality of expressive vocabulary (use of vocabulary in reading and writing) to solve real-world problems.
We will implement Lesson Study on each grade band with a focus on their current Early Literacy Indicator and/or module that is being progress monitored. Teachers will plan a lesson together, one teacher will teach it and the others will provide constructive feedback. This cycle will be repeated until all teachers have taught the particular skill/ strategy.
Instructional Coach, Administrators and the entire Instructional Leadership Team will develop and implement the Data Wise Protocol to support teachers with identifying student needs and developing an action plan to increase student achievement during progress monitoring. (Data Chats)
While monitoring the progress of all students' reading scores via Acadience progress monitoring tools, our classroom teachers will partner with the Instructional Coach and the Instructional Leadership Team in focusing on students being engaged in multisensory strategies to support fluency of foundational skills and will track the impact of said strategies through analysis of student work in teacher teams. This is to ensure that our students are making progress towards the goal of 40% of our K-2 students being on or above grade level as per the Acadience EOY SY25-26 benchmark assessment.
Embed time within the literacy block to implement small group instruction of foundational skills. (25-40 minutes) - Can be called a W.I.N. period. (Whatever I Need)
Provide professional development for all Teachers in K-2 to analyze Acadience Screener Data and determine which students need a deeper diagnostic assessment (secondary screener).

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Primary structures for Progress Monitoring implementation of key strategies and action steps include:
Professional Development for teachers in:
Unpacking standards
Identifying critical prerequisite standards
Knowledge of how students learn to read (based on the Science)
Knowledge of Early Literacy Skills and how to teach them
Letter Sound Knowledge (not a skill but an indicator of success)
Word Learning routines (strategies)
Vocabulary routines (strategies)
Knowledge of the 5 Pillars of Reading + Writing: Phonemic Awareness, Phonics, Fluency, Vocabulary, Comprehension, and Writing
Knowledge of the Science of Reading and how students learn to read
Progress Monitor ALL K-2 students using specific Acadience Early Literacy Skills Indicators, at different intervals of time. Student who are performing far below benchmark will be progress monitored every 5 days. Students who are below will be monitored every 10 days. Students who are performing at or above benchmark will be progress monitored every 4-6 weeks.
Specific indicators to be Progress Monitored by Grade:
Grade K: FSF (First Sound Fluency), PSF (Phoneme Segmentation Fluency)
Grade 1: PSF (Phoneme Segmentation Fluency), NWF (Nonsense Word Fluency)
Grade 2: NWF (Nonsense Word Fluency), ORF (Oral Reading Fluency)
Progress Monitor ALL 3-5 students using the Core Phonics Survey. Student who are performing far below benchmark will be progress monitored every 5 days. Students who are below will be monitored every 10 days. Students who are performing at or above benchmark will be progress monitored every 4-6 weeks.

Priority 1 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/26/2026	Monthly parent workshops that address strategies for reading, bolstering vocabulary, and making it fun.	Elevate, Really Great Reading Implementation Specialist, HMH Amira support, Renaissance support, District Support
09/04/2025	06/26/2026	Quarterly PA Meetings that address school-wide Data and student progress towards instructional goals	

Priority 1 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Instructional Resources

Schedule Adjustments

Other Resources Needed

Section 5: Priority 2 – All students are physically and emotionally safe

Priority 2 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:

1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.

2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?

3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
2025 Primary Project TBD	Students are not consistently participating in activities beyond core academic instruction that build communication, collaboration, and interpersonal skills. There are limited opportunities for structured listening, reading, writing, and speaking tasks that encourage students to engage with one another, reflect on diverse perspectives, and take ownership of their learning. This	While our school has systems in place to promote physical and emotional safety, there is a growing need to increase opportunities for students to engage in structured listening, reading, writing, and speaking activities that intentionally build both independence and interdependence. These activities should foster student voice, empathy, collaboration, and personal accountability, all of

	contributes to gaps in student agency, peer relationships, and emotional safety.	which contribute to a safe and respectful learning environment.

Priority 2

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for physical and emotional safety** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for Physical and Emotional Safety

- Develop safety infrastructure and systems, including staff training, collaboration with external partners, and implementation of safety and security best practices
- Expand social emotional and mental health supports via restorative justice, Project Pivot, screeners, and other district or school-based initiatives (as applicable)
- Expand implementation of physical and mental wellness supports, including Physical and Health Education that meets NYSED requirements and related initiatives
- Improve supports and outcomes for socially vulnerable student populations (Students in Temporary Housing, Students in Foster Care)

Priority 2 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	70	By June, 2026, physical and mental wellness for All Students will improve, as measured by a 10% Increase, in Percentage of students in Grades 3–5 who participate in at least one student-led collaborative learning or wellness initiative (e.g., peer mentoring, class councils, restorative circles). from 70 to Increase to 80, per the Internal student participation logs, teacher tracking tools, and student reflection forms.

Priority 2 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Reminder: Actual results will be entered in the Progress Reporting Tool (PRT).

Priority 2 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Implement school-wide structures that promote student-led collaboration and voice, such as peer mentoring programs, student wellness councils, restorative circles, and classroom-based leadership roles. These initiatives will provide consistent opportunities for students to engage in speaking, listening, and relationship-building activities that foster emotional safety, independence, and interdependence.

Root Cause Addressed:

Students have limited opportunities to engage in structured, student-led activities that go beyond academic instruction and support the development of communication, collaboration, and peer connection skills. This has impacted students' ability to build meaningful relationships, express themselves confidently, and feel emotionally safe in the school environment.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Launch peer mentoring, wellness circles, student leadership roles, and class councils across Grades 3–5. Teachers will introduce these during morning meetings and advisory periods using shared schoolwide norms and visual guides.
Train Staff on Facilitating Student Voice and Peer-Led Discussions (August–October 2025): Provide professional learning sessions on implementing restorative practices, Socratic circles, and student-led goal setting, with embedded strategies for ENL and SWD inclusion.

Integrate Weekly Speaking & Listening Routines Across Content Areas (October 2025): All teachers will implement at least one structured student discussion protocol per week (e.g., turn and talk, debate, fishbowl) tied to literacy and SEL standards. Student exemplars and sentence stems will be co-created and posted in classrooms.
Implement Monthly Student Reflection and Feedback Logs (Starting November 2025): Students will complete monthly reflections on their participation in collaborative activities. Logs will include prompts aligned to SEL competencies (self-awareness, relationship skills) and will be reviewed in class.
Monitor Participation and Adjust Supports (Ongoing): Admin and teacher teams will review participation data quarterly, disaggregated by subgroup (ENL, SWD, etc.), and provide additional scaffolds or classroom supports as needed. Successes and barriers will be shared in ILT/grade team meetings.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Priority 2 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/03/2025	06/25/2026	Host a series of family workshops (in English and Spanish) focused on building communication and wellness at home. Topics will include: Active listening with children Building emotional resilience Supporting student independence and collaboration These workshops will be co-led by staff and family liaisons, with student-led presentations when appropriate. Materials will be sent home with reflection questions families can complete together.	
09/03/2025	06/24/2026	Schedule student-led conferences twice a year where students present their participation in wellness initiatives, leadership roles, and collaborative projects to their families. These events will: Reinforce student voice Strengthen home-school partnerships Provide parents insight into SEL and academic growth Translation support and flexible scheduling will ensure accessibility for all families.	

Priority 2 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
iReady Spring 2025: 24% of Students Demonstrating Proficiency in Mathematics.	Student learning goals need to be aligned to the standards and should convey students' progression of learning.	All students need to have a personalized learning plan that includes goals generated by the student and the teacher.
iReady Spring 2025: 24% of Students	Scaffolds must be research based and implemented in response to student needs as diagnosed by the data.	Students need to be supported with the appropriate scaffolds if

Demonstrating Proficiency in Mathematics.		needed and at the appropriate time
iReady Spring 2025: 24% of Students Demonstrating Proficiency in Mathematics.	Multiple and appropriate entry points must be planned for to ensure students access, grapple with, and master the content within an inquiry based model, included but not limited to foundational numeracy drills to address prerequisite skills.	Students need to be engaged in multi-sensory exploratory activities, including speaking, listening, reading, writing, and questioning.

Priority 3

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for high-quality academics** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Academics

- Strengthen mathematics instruction, including via screener administration and Multi-Tiered Systems of Support (MTSS)
- Embed culturally responsive-sustaining texts and content (e.g., Hidden Voices, Black Studies Curriculum, etc.) in history, literature, and arts curricula to deepen civic engagement, enhance understanding of diverse cultures and provide relevant and affirming interventions in literacy development
- Ensure multilingual language learners (MLLs) are served and progressing in appropriate settings; expand bilingual programming and professional learning for educators who support MLLs
- Ensure students with disabilities are served and progressing in the least restrictive and most appropriate settings; improve delivery of mandated services and expand specialized programs
- Ensure that Students in Temporary Housing (STH) and Students in Foster Care access opportunities to receive tutoring and are purposefully engaged in new programs developed in the school
- Elevate health and physical education and activities for a reimagined and engaged student academic experience promoting social, emotional, and physical wellness and wellbeing
- Ensure teachers attend Physical Education and Health Education professional learning in order to provide quality instruction to be able to support and address the physical, mental, social, and emotional needs of the whole child in a safe and supportive learning environment
- Strengthen Early Childhood Education program utilization, quality, and ability to serve all students
- Elevate arts and civics for a reimagined and more engaged student academic experience
- Increase school staff diversity and retention
- Create new programs/schools in response to community need; expand high quality seats

Priority 3 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	24%	<School Name> will address Priority 3: All students have a high-quality academic experience with the following SMART Goal: By June, 2026, the percentage of students scoring at or above grade-level proficiency will Increase by 10% from 24% to 34%, for All Students, as measured by iReady Math Results.

Priority 3 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). 3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
According to a school survey, in SY24-25 only one class, which is 6% of students engaged in creating a vision board that enabled students to time travel into their future as leaders and innovators.	Students need exposure to careers and experiences they may not have imagined.	Students need to envision a secure and satisfying future for themselves.

Priority 4

Directions: After conducting a comprehensive needs assessment by analyzing school data trends, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas for **college and career readiness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for College and Career Readiness

- Expand career pathways and work-based learning, opportunities for early college credit and industry credentials, and college/career advising and awareness, including via the Career Readiness Modern Youth Apprenticeship and FutureReadyNYC (as applicable)
- Schools serving students in early childhood, elementary, and middle school settings should consider how they expose students to and prepare them for advanced (Regents-level) coursework, Specialized High School Admission Test (SHSAT) preparation, college awareness, career studies, etc.
- Integrate historical and contemporary contributions of culturally diverse professionals, scholars, and entrepreneurs into career readiness programs, ensuring students see diverse pathways to success
- Incorporate lessons on wealth-building strategies, cooperative economics, and financial independence to equip students with tools for long-term economic security
- Ensure the implementation of specialized support programs tailored for Students in Temporary Housing and/or Foster Care, addressing their unique educational needs and challenges

Priority 4 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	6%	32K299 will address Priority 4: All students graduate college and career ready and have a strong plan and pathway to economic security with the following SMART Goal: By June, 2026, the participation in activities that foster long term planning for life goals. for All Students will Increase by 89% from 6% to 95% as measured by the engagement activities that foster long term planning for life goals.

Priority 4 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. - Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Hope Council Representative(s) will turnkey the information from monthly meetings to PS 299 scholars

Root Cause Addressed:

Students need exposure to careers and experiences they may not have imagined.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Hope Council Representative(s) attend Hope Council monthly meetings
Hope Council Representative(s) will turnkey the information from monthly meetings to PS 299 scholars

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Hope Council Representative(s) will reflect and receive feedback from peers to refine and improve how information gets turnkeyed.

Priority 4 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/26/2026	Parent workshops that show parents how to empower students to define themselves as leaders and innovators	
05/01/2026	05/29/2026	Career Day	

Priority 4 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Human Resources

Instructional Resources

Schedule Adjustments

Other Resources Needed

Section 5: Priority 5 – All districts and schools are more inclusive and responsive for parents and families, including having more families choose NYC Public Schools

Priority 5 Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
During 2024-2025, on average 50 parents attend important events, and meetings.	We need to be more in tune with what our parents' interests and needs are.	Communication between families and schools needs to be strengthened.

Priority 5

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal for this Priority informed by the identified priority needs and the relevant systemwide focus areas **for parent, family, community and system responsiveness** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Focus Areas for System Responsiveness to Parents, Families and Communities

- Engage more deeply with families to understand their needs and plan new, high-quality programs
- Build community trust and bolster engagement, including via improved language access and increased family engagement and participation
- Implement the newly updated NYCPS School Wellness Policy, which provides a framework for all members of the school community, including families and students, to come together and assess and coordinate wellness efforts for their community
- Implement and lead strategies that support community involvement and increase Minority and Women Owned Business Enterprises (MWBE) utilization

Priority 5 SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Parents of All Students	50	32K299 will address Priority 5: All districts and schools are more inclusive and responsive for Parents of All Students with the following SMART Goal: By June, 2026, the the number of parents/family members attending in-person school events will Increase by 50 from 50 to 100 as measured by Parent Coordinator Activity Reports (PCAR) and Parent Teacher Conference Registration Reports..

Priority 5 Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). The progress monitoring targets can be a percentage or a number and should reflect a sufficient improvement in outcomes to meet the goal. Note that all schools are required to enter results in the Progress Reporting Tool (PRT) on the iPlan Portal.

Priority 5 Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Marketing and RSVPs for events will be sent out in advance to inform families so that the necessary arrangements can be made.
Surveys will be administered to gather information around when and where the most convenient meeting times are for our families, as well as the favored topics to be addressed.

Root Cause Addressed:

We need to be more in tune with what our parents' interests and needs are.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Administer surveys for parents to share their areas of interests/needs, convenient times/locations for meetings.
Advertise meetings in advance so that families have enough time to make arrangements.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

We will monitor the logs of parents signing the attendance sheets for each event and reflect on what practices reaped the observed results.

Priority 5 Family and Community Engagement

Family and Community Engagement

Directions: Indicate the strategies/activities that will be implemented to support and engage families (including foster and birth parents) and community collaboration in the implementation of this action plan.

Start Date	End Date	Strategies to Support Family & Community Engagement	Partners/CBOs Leveraged
09/04/2025	06/26/2026	5 Parent workshops addressing how scholars benefit from parent engagement	

Priority 5 Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs
According to Insight, in 2024-2025 our rate of chronic absenteeism was 39%.	Students leaving the country or going to visit relatives during the holidays; Families with medical issues or students with medical issues. Families relocate and travel is a challenge because of distance and cost. Single parents with newborns; etc.	To decrease the percentage of chronic absenteeism.
According to Insight, in 2024-2025 61% of students have an attendance rate of 90%.	Parents are not aware of procedures for leaving early for doctor's visits or level of sickness. The reason behind the emphasis on prioritizing attendance is not completely understood.	To have consistently 95% or more students present on a daily basis.

Attendance/Chronic Absenteeism

Directions: After conducting a comprehensive needs assessment by analyzing the school data, exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop at least one outcome-focused SMART goal aligned to our systemwide focus on improving attendance and **reducing chronic absenteeism**.

Systemwide Focus Area for Attendance/Chronic Absenteeism: Develop and implement strengthened practices to improve attendance, combat chronic absenteeism and center equity. Note: For ESSA accountability purposes, NYSED will replace the Chronic Absenteeism indicator with the Attendance indicator, beginning in the 2025-26 school year. Learn more about the new Attendance indicator by reviewing this Fact Sheet.

Attendance/Chronic Absenteeism SMART Goal(s)

Target Population	Baseline Data	SMART Goal
All Students	39%	By June, 2026, the Chronic Absenteeism Rates for All Students will decrease by 10%, from 39% to 29%, as measured by the Chronic Absenteeism Reports.

Attendance/Chronic Absenteeism Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. Identify what your school would expect to see at the end of each period to know if you are on track to reach the identified goal(s). Attendance/Chronic Absenteeism Action Plan

Directions: Identify the key strategy and progressive action steps your school will take to address the specific priority needs and root causes identified for this goal(s). More than one strategy can be indicated if multiple and/or differentiated needs for this priority have been identified.

- Key strategies should be key levers for success and may represent something that is new to the school.
- Action steps to operationalize key strategies should focus on new activities or initiatives and/or modifications to current initiatives (e.g., expanded to reach a wider audience or refined for greater impact on students).

Note: Routine activities your school does every year should not be included.

Key Strategy 1 (Required):

Be sure that students and their parents have chosen the best option for themselves in order to improve student attendance, which includes attending the closest school to home, receiving bus services, and/or receiving metro cards. (Throughout the school year during enrollment periods.) Parent coordinator will continue to do outreach to parents in order to secure busing services for STH students who recently moved to our school. (Considerations will be given on a case-by-case basis). Parental requests will be taken and communicated by our attendance support team: *A host of community members, school aides, paraprofessionals, attendance coordinator), guidance counselors, parent coordinator, assistant principals and principal. This is a team approach student venues for learning will be monitored and any necessary changes will be discussed at weekly meetings.

Root Cause Addressed:

Families relocate and travel is a challenge because of distance and cost.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Weekly attendance meetings, allocate roles and responsibilities of paraprofessionals, school aides, teachers, administration, etc. Discuss particular issues that students are having in school such as- being in school or late arrivals: busing, illnesses, parents working, or no childcare. Utilizing a ladder approach for attendance: *1) Daily classroom visits and monitoring participation. 2) Daily phone calls made by grade level specific attendance team members for students not found in class. 3) Pairing chronically absent students with a staff member/buddy who has a good rapport with the family. (school aides, paraprofessionals, attendance coordinator, teacher, or administrators). 4) Multiple staff (Pupil accounting secretary, parent coordinator, school aides, etc.) making daily phone calls to families

to check-in and monitor attendance. 5) iLogging and documenting calls and interventions to students who are chronically absent. 6) Generation of a 407 for students absent for more than 20 consecutive days. 7) Consideration and intervention through ACS when necessary * Above action steps 1-7 will be taken by a host of community members: school aides, paraprofessionals, STH personnel (social workers), guidance counselors, parent coordinator and assistant principals. This is a team approach and buddy systems are set-up, monitored and revised at weekly meetings.

Be sure that students and their parents have chosen the best option for themselves in order to improve student attendance, which includes attending the closest school to home, receiving bus services, and/or receiving metro cards. (Throughout the school year during enrollment periods).

Have weekly recognition of classes with 100 percent attendance and tangible rewards for students who have 100 percent attendance daily. Pupil Personnel Secretary, and administration will produce and execute weekly recognition ceremonies.

*Create mentor check in system for specific students for whom attendance is an issue *The above action step will be taken by a host of community members: school aides, paraprofessionals, attendance coordinator , guidance counselors, parent coordinator and assistant principals. This is a team approach and buddy systems are set-up, monitored and revised at weekly meetings.

Parent coordinator will continue to do outreach to parents in order to secure busing services for STH students who recently moved to our school. (Considerations will be given on a case-by-case basis). Parental requests will be taken and communicated by our attendance support team: *A host of community members, school aides, paraprofessionals, attendance coordinator), guidance counselors, parent coordinator, assistant principals and principal. This is a team approach student venues for learning will be monitored and any necessary changes will be discussed at weekly meetings.

P.S. 299 will communicate the significance of attendance on scholars' academic career by hosting parent workshops, sending home information containing facts, statistics, etc. around attendance, etc.

*Continued weekly meetings for the second half of the year with all of the above strategies mentioned. Our protocols will be refined as we work closely with the data from INSIGHTS and New Visions. Our weekly case studies include our practical discussions of student family contacts and any issues of concern through our buddy system. Buddies do daily check-ins with families utilizing appropriate personnel with sympathetic relationships to specific families. For example, we use the attendance phone 'script' to have conversations directly with parents related to any daily challenges they are fact. Daily outreach will continue through the final day of student attendance in June. In this way, we can accommodate families' needs and compliance to make our students more academically successful. We will compare our data by grade level in our school and with the city and district percentages. Additionally, we celebrate our small victories and strive through the data to do better each day, week and month. We will continue our study of students who need support with busing to the school, from temporary housing centers. *The above action step will be taken by a host of community members: school aides, paraprofessionals, attendance coordinator, guidance counselors, parent coordinator and assistant principals. This is a team approach and buddy systems are set-up, monitored and revised at weekly meetings.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

Weekly attendance meetings, allocate roles and responsibilities of paraprofessionals, school aides, teachers, administration, etc. Discuss particular issues that students are having in school such as- being in school or late arrivals: busing, illnesses, parents working, or no childcare. Utilizing a ladder approach for attendance:
*1) Daily classroom visits and monitoring participation.

Section 5: High Quality Inclusive & Accessible Learning for Students with Disabilities

High Quality Inclusive & Accessible Learning for Students with Disabilities Data Trends, Root Causes and Priority Needs

Priority Needs and Root Causes

Directions: After conducting your comprehensive needs assessment for this Priority use the chart below to:

- **Summarize the data trends (gaps in student and school performance) for each priority. Use the most current data available and cite the data sources and years.**
- **Identify the root causes (and/or contributing factors, theories, hypotheses) that explain the current student and school outcomes.**
- **Indicate the high leverage priority needs determined by your school that, if resolved, will advance equity and result in measurable, positive impact on student outcomes.**

Guiding Questions:
1. Data Trends: What did you see as you analyzed data trends? Cite data sources and years, including those available from NYCPS and NYSED.
2. Root Causes: What do you believe are the reasons within the school's control that are leading to these outcomes?
3. Priority Needs: What are the most important needs identified after completing your needs assessment?

1. Data Trend(s) (Cite Data Source & Year)	2. Root Cause(s)	3. Priority Needs (NYCPS Systemwide Needs for all schools noted below.)
Compliance with Meeting Timeline:: A noticeable number of IEP meetings, particularly for initial	Educators and IEP team members may not fully understand or have not received adequate professional development on current best practices for IEP writing,	IEP Development

evaluations and annual reviews, are not being conducted within the designated compliance dates. This delay can hinder students from receiving timely services and support.	goal setting, and progress monitoring. This lack of training can lead to insufficient understanding of how to create rigorous, standards-aligned goals and effectively implement and monitor specially designed instruction.	and Fidelity of Implementation
Goals and Progress Monitoring:: Data indicates that many annual goals set within IEPs lack rigor and alignment with academic standards. Additionally, the frequency of progress monitoring appears inconsistent, affecting our ability to track student growth effectively.	Inefficient Communication Systems: There may be gaps in the communication processes between schools, families, and service providers. If outreach and engagement strategies do not effectively reach all families, especially those with limited English proficiency or those involved in foster care, it can lead to misunderstandings about the IEP process and inadequate family involvement in decision-making.	Transition Planning and Compliance
The current quality of impact of disability statements shows significant variability. Many do not adequately reflect students' access to the curriculum or address their unique needs in a culturally and linguistically relevant manner, suggesting a gap in our commitment to inclusivity.	Inconsistent Data Monitoring and Evaluation:: Without a robust framework for regularly monitoring and evaluating the impact of disability statements and the effectiveness of the provided supports, it becomes difficult to identify specific student needs and ensure that interventions are appropriately aligned. Inconsistent data collection practices can result in inadequate assessment of student progress and overall IEP effectiveness.	Referral Process and Equity
Supplementing missing skills with specially designed instruction (SDI) to bridge the gaps based on students' cognitive functioning and learning levels is necessary.	Preventive discipline emphasizes encouraging good behavior and leveraging instructional strategies to nurture them. It relies on principles of operant conditioning, including both positive and negative reinforcement. The goal is to increase the desired behavior, rather than focusing solely on punishing undesired actions.	Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities

Directions: After conducting a comprehensive needs assessment by analyzing school data trends including IEP Review Surveys; exploring your school vision/values/aspirations, and listening to students to surface priority needs and identify root causes, develop outcome-focused SMART goals for identified priority need(s) and the relevant systemwide focus areas for **High Quality Inclusive & Accessible Learning for Students with Disabilities** outlined below. Use the SMART Goal builder in iPlan for support in developing your goal.

Systemwide Focus Areas for High Quality Inclusive and Accessible Learning for Students with Disabilities:

- IEP Development and Implementation
- Transition Planning and Compliance
- Referral Process and Equity
- Equity in School Discipline

High Quality Inclusive & Accessible Learning for Students with Disabilities SMART Goal(s)

Target Population	Baseline Data	SMART Goal
Students with Disabilities (SWD)	91%	By June, 2026, to strengthen the quality and implementation of IEPs for Students with Disabilities (SWD), we will improve to increase compliance of Individualized Education Programs (IEPs) with state guidelines to ensure effective educational outcomes for students with disabilities. by a 9% Increase, from 91% to 100%, as measured by IEP Progress Monitoring.

High Quality Inclusive & Accessible Learning for Students with Disabilities Progress Measures and Targets

Directions: It is expected that progress monitoring, based on interim outcome data, occurs at three progress monitoring periods during the school year. High Quality Inclusive & Accessible Learning for Students with Disabilities Action Plan

Key Strategy 1 (Required):

To implement the comprehensive professional development and support system aimed at achieving compliance with IEP guidelines, PS 299 will first conduct an initial assessment to identify staff knowledge and areas that need strengthening. This assessment will guide the development of targeted training sessions that will be rolled out starting at the beginning of the school year. Each session will focus on specific components of IEP development, such as writing measurable goals, understanding legal requirements, and incorporating student input into the IEP process. Additionally, PS 299 will organise SIT meetings two times every month where staff can share experiences and strategies, discuss challenges, and work together to review sample IEPs. These meetings will also help to build a support network among educators and related service providers, ensuring that resources and best practices are shared effectively.

On the student-facing side, PS 299 will introduce initiatives that actively involve students in their own IEP process, encouraging their participation in setting goals and discussing their needs. This could include workshops where students learn to articulate their learning preferences and aspirations, which helps them feel empowered and invested in their education. The outcomes of these student-centered activities will also inform professional development sessions by providing staff with direct feedback from students about what strategies resonate with them. To ensure a smooth rollout, the school will communicate the action plan through PD's ,and teacher teams meetings, providing clear timelines and expectations. Ongoing evaluation of these initiatives will be conducted through surveys and feedback sessions to refine and enhance training and student experiences continuously.

Root Cause Addressed:

Increasing the compliance of Individualized Education Programs (IEPs) with state guidelines to ensure effective educational outcomes for students with disabilities.

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps
Ensure program and service recommendations are appropriate for each student and provide access to the student's least restrictive environment
Develop appropriately rigorous standards-aligned annual goals
Ensure "impact of disability" statements reflect the effect of the student's disability on access, participation and progress in the general education curriculum

Ensure that programs and services mandated on each student's IEP are delivered
Ensure that transition planning is reflective of student needs for all students age 14 and older [Required for all schools with students in 8th-12th grade]
Conduct IEP meetings within specified compliance dates
Monitor referrals to Special Education to ensure appropriate referrals only
Ensure that students in foster care, their birth parents, and foster care agency points are reached out to for all initial, annual reviews, and re-evaluation Individualized Education Program (IEP) services.

Key Strategy 2 (Optional):

Root Cause Addressed:

Action Steps:

Indicate what your school will do specifically to implement each strategy to achieve this annual goal. Include both student-facing activities and professional learning for staff. Be sure to indicate how action steps will be introduced and rolled out.

Action Steps

Implementation Monitoring: Indicate your primary structures to progress monitor implementation of key strategies and action steps. Include specific data/evidence you will collect and use to determine progress and impact on instruction, student learning, and achievement.

Note: Implementation Progress Checks will be conducted in the Progress Reporting Tool (PRT) in the iPlan Portal for the 2025-26 school year.

High Quality Inclusive & Accessible Learning for Students with Disabilities Family and Community Engagement

Family and Community Engagement

Directions: Indicate the multi-tiered supports (strategies & activities) that will be implemented to support and engage families (including foster parents, birth parents, and families with limited English proficiency) and plans for community collaboration in the implementation of this action plan, surrounding the four priority needs. Include:

1) a description of the school's supports and processes for students with disabilities;
2) a coherent mechanism is implemented for updating families on their child's progress towards measurable annual and post-secondary transition goals;
3) a procedure to ensure families are involved during decision-making for IEP development and implementation.

Start Date	End Date	Multi-tiered Supports to Engage Family & Community	Partners/CBOs Leveraged
09/04/2025	06/26/2026	Facilitate timely and thorough IEP meetings	

High Quality Inclusive & Accessible Learning for Students with Disabilities Budget and Resources

Budget and Resources

Directions: Indicate available and anticipated resources that will be leveraged to achieve this annual goal and implement this action plan, including human resources, instructional resources (e.g., curricula, programs), schedule adjustments, other. Use N/A if not applicable and/or indicate other resource needs.

Schools are encouraged to think critically and strategically when considering resources that can support progress towards CEP goals for students with IEPs. This includes utilizing Title I funding for at-risk speech and/or counseling services, all-staff training in supporting students with autism, sensory materials, summer institute geared at the development of executive functioning skills, and/or inclusion coaching support. Schools may also consider utilizing Title II funds to reduce the ratio of students with IEPs to typically developing peers in ICT classes.

Human Resources:

Instructional Resources

Schedule Adjustments

Other Resources Needed

Section 6: Multi-Tiered Systems of Support (MTSS)

Academic Support

NYCPS Multi-Tiered Systems of Support (MTSS) align with NYSED guidelines for providing Academic Intervention Services (AIS) to students who have not yet met state standards or are considered to be at-risk of not meeting state standards. The Multi-tiered Systems of Support (MTSS) framework, organizes **supports** into three tiers:

Tier 1 provides schoolwide, high-quality programming for all students, including SWDs;

Tier 2 offers data informed small-group interventions for at-promise students; and

Tier 3 delivers intensive, individualized support for students with persistent needs.

This facilitates the strategic planning and necessary resource alignment to ensure their school community appropriately and adequately serves all students well, in partnership with students and families.

MTSS identifies the academic support services to be provided and ensures that students receive Response to Intervention (RtI) and Positive Behavioral Interventions and Support (PBIS) strategies as needed. See NYSED's memo to view the criteria for determining AIS services. The Supportive Environment Framework (SEF) offers a wide range of evidence-based Tier 2 and Tier 3 interventions and supports for student social-emotional, behavioral, physical and mental wellness, with particular attention to the unique needs of students in Temporary Housing and/or Foster Care, who may face additional challenges related to school stability, trauma and access to educational resources. A culturally responsive-sustaining approach to intervention embeds culturally relevant texts and historical narratives into literacy and social studies interventions, ensuring students receive the support that reflects their identities and lived experiences, increasing engagement and achievement.

Use the charts below and a Multi-Tiered System of Support (MTSS) to match academic, social/emotional, behavioral and instructional resources with student needs to provide targeted support for all learners, especially at-risk students who experience difficulty meeting state standards, including those living in Temporary Housing and/or residing in Foster Care placements. Indicate specialized materials, technology-based tools and/or extra instruction, including Expanded Learning Time that supplement school-wide systems & supports and/or classroom level supports. Ensure that interventions address the unique social-emotional, behavioral and academic challenges faced by culturally and linguistically diverse students, as well as those impacted by housing instability and child welfare system involvement.

Directions: Complete the chart and identify Tier 2 or 3 MTSS Academic supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Academic Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Tier 2	1+ Grade Levels Below	Really Great Reading	Small Group	During school and after school.	Yes and No
Tier 3	2+ Grade Levels Below	Really Great Reading	Small Group, one-to-one, tutoring	More time during school and after school.	Yes and No
Tier 2 and 3	2+ Grade Levels Below	Reading Rescue	One-to-one	Before school and during school	Yes and No
Tier 2 and 3	1+ Grade Levels Below	Small Group Instruction	Small Group	During school	No
Tier 2 and 3	1+ Grade Levels Below	i-Ready	One-on-one, teacher assigned and individualized	Before, During, and After school (more time the higher the tier)	Yes
Tier 2 and 3	1+ Grade Levels Below	Close Reading Strategies	One-to-one, small group, tutoring	Before, during and after school (the higher the tier, the more intensive)	Yes and No
Tier 2 and 3	1+ Grade Levels Below	Writing Supports	One-to-one, small group, tutoring	Before, during and after school (the higher the tier, the more intensive)	Yes and No
Tier 2 and 3	1+ Grade Levels Below	Speaking and Listening Supports	One-to-one, small group	Before, during and after school (the higher the tier, the more intensive)	No

Student Social/Emotional Support

Directions: Complete the chart and identify Tier 2 or 3 MTSS Student Social/Emotional supports. Any Tier 2/3 interventions should be in addition to the foundational work being done at Tier 1.

Student Social/Emotional Support Indicate Tier 2 or 3	Criteria for Determining Service	Program Type or Strategy	Service Delivery Model (Small group, one-to-one, tutoring, etc.)	When is Service Provided? (Before, during or after school)	Technology-Based Tool (Indicate Yes or No)
Tier 2 and 3	Observations (DESSA), Self/Guardian-Advocacy	Restorative Circles	Small group, one-to-one	During school (the higher the tier, the more time provided)	No
Tier 2 and 3	Observations (DESSA), Self/Guardian-Advocacy	Kids at Hope	Small group, one-to-one	Before, During and after school (the higher the tier, the more time provided)	No
Tier 2 and 3	Observations (DESSA), Self/Guardian-Advocacy	Sanford Harmony	Small group, one-to-one	Before, During, and after school (the higher the tier, the more time provided)	No
Tier 2 and 3	Observations (DESSA), Self/Guardian-Advocacy	Counseling	Small group, one-to-one	Before and during school (the higher the tier, the more time provided)	No

Family and Community Engagement Around MTSS

Describe how the school's essential components of MTSS are shared with families.

Proactive Information Sharing:
MTSS informational sheets or infographics: Schools can distribute clear, easy-to-understand materials that summarize the MTSS process and its goals.
MTSS informational sessions: Hosting sessions during back-to-school events or "meet the teacher" nights helps families understand the school's approach to MTSS.
Website and Newsletter Updates: Schools can post information on their websites and include details in newsletters to keep families informed about school-wide activities and their importance within the MTSS framework.
Communicating Early and Often: Share information about universal screening, its purpose, and when it will occur.
Informing about Tiered Support: If a child is identified for Tier 2 or Tier 3 support, communicate this to parents promptly, explaining what this will entail.

Describe how families receive updates on the progress of their child(ren) who receive Tier 2 targeted, or Tier 3 intensive interventions.

Regular Updates and Progress Monitoring:
Frequent Updates: Share student progress with families, especially when they are receiving interventions.
Progress Monitoring Data: Provide progress monitoring data to families and explain what the data means.
Communication Log: Maintain a shared log of family contacts to ensure consistent and collaborative communication across staff members working with a student.

Utilizing Technology:
Communication platforms: Utilize apps and platforms that facilitate communication between home and school, especially for families with different schedules.
Virtual Meetings: Offer virtual meeting options when it's difficult for parents to come to the school.

Clear and Accessible Communication:
Define jargon: Schools should use clear and simple language, avoiding educational jargon that might be unfamiliar to families.
Culturally responsive practices: Provide documents in multiple languages, hold meetings in familiar community centers, and tailor interventions to fit cultural contexts.
Visuals: Utilize visual aids like graphs, flowcharts, or easy-to-understand flyers to illustrate concepts like the tiered system.

Describe how families are involved during decision making regarding the progress of students receiving Tier 3 intensive intervention.

Family Involvement in Decision-Making:
Joint Goal Setting: Involve families in developing personalized learning plans for students needing intensive support.
Regular Meetings: Hold regular meetings with families to discuss student progress and intervention strategies.
Empowering Families: Provide families with resources and tools to support their child's learning at home.

Students in Temporary Housing (STH) Support

As included in your school's Office of School and Youth Development Consolidated Plan-STH Section and in accordance with the federal McKinney-Vento Homeless Assistance Act and Chancellor's Regulation A-780, schools must identify, serve, and report on students living in temporary housing (STH). All Title I and non-Title I schools receive a Title I allocation for STH students. The Students in Temporary Housing (STH) website provides guidance on STH pupils and how these funds can be used to meet their needs, as well as restrictions. For more information on acceptable uses of the mandated Title I, Part A set-aside to support your STH population, please refer to the Title I STH Funds Toolkit.

Identify the number of Students in Temporary Housing who are currently attending your school and provide a breakdown of their temporary housing status. Since the number of STH children can change regularly, schools must carefully track this number to determine whether there has been an increase in need.

Number of students in temporary housing who are:

- Doubled up (with friends or relatives because they cannot find or afford housing):
- Living in a shelter or transitional shelter:
- Living in a hotel/motel:
- Other

*Note: In keeping with established practices regarding personally identifiable information, use the letter "s" to identify a number less than five (5).

89

After a careful analysis of historical demographic, attendance and achievement data for your STH population, what trends do you notice, and how can these trends inform the services and support provided for this population?

Our scholars need after school tutoring programs. Effective afterschool programs provide learning settings that bring a wide range of benefits to youth, families, and communities. Afterschool programs can support social, emotional, cognitive, and academic development, reduce risky behaviors, promote physical health, and provide a safe and supportive environment for children and youth.

Describe the services you are planning to provide to the STH population. How were those services selected to best meet students' needs? How will you (or did you) utilize the STH Title I Survey to select services aligned to need?

The Pupil Accounting Secretary enters housing category in ATS before close of register and during the school year. Residency questionnaire is given to all students to fill out. Residency questionnaire and a new Residency questionnaire is given whenever school is notified or made aware of a students change of address. Housing status

is updated in ATS, as needed. Once the family has been identified as STH, the Pupil Accounting Secretary will call the BTG social worker in the main office to speak with the family. Each Monday the STH list is printed to see if any student previously residing in temporary housing has become permanently housed,. office, SBST Office and Parent Coordinator's Office.

When a family comes into PS 299, the BTG social worker does an interview with the family to assess concerns or issues. The BTG social worker has an initial meeting with each STH student to inform students that if they need anything throughout the year they can come to the BTG office for assistance. Observations are conducted in the class as well as the cafeteria to check on students. Presentations are made to the school community as well as to the PTA. A letter is also sent to the STH parents that P.S. 299 has a BTG social worker and community coordinator available if needed. Bookbags, uniforms, notebooks, hats, scarves and gloves are distributed by the STH Social Worker/ STH liaison and SAPIS worker.

Prioritizing Students in Foster Care

As included in your school's Office of School and Youth Development Consolidated Plan-Child Child Abuse and Neglect Intervention and Prevention School Plan and in accordance with the federal Education Law 3244 – Education of Children in Foster Care (Effective 2018) establishes the rights of students placed, or moved, in foster care to:

- Continue attending school of origin if determined to be in their best interest, or, if not, attend school near foster care placement,
- Immediate enrollment, and
- Transportation, if necessary to attend school of origin

Please respond to the questions below.

How many students in foster care are currently enrolled at your school? Provide a detailed breakdown of the social-emotional and academic supports available to them.

Social-Emotional Learning (SEL) Programs & Supports:
Integrating SEL into the Curriculum: Teachers incorporate SEL activities and discussions into daily lessons and routines, helping students develop emotional regulation, empathy, and positive relationship skills. Examples of activities include:
Mindfulness: Breathing exercises, body scans, and meditation to improve focus and reduce stress.
Goal Setting & Reflection: Students set personal and academic goals and reflect on their progress, promoting self-assessment and accountability.
Journaling: A safe space for students to process emotions, reflecting on experiences and developing coping skills.
Empathy Building: Activities like reading diverse narratives and role-playing scenarios help students understand different perspectives.
Group Discussions: Provide opportunities for students to share experiences and perspectives, developing communication and active listening skills.
Restorative Practices: An approach to conflict resolution that emphasizes repairing relationships and understanding the impact of one's actions.
Specialized SEL Programs: Numerous providers offer comprehensive SEL curriculum and programs, each with specific strengths and areas of focus (e.g., Riseboro).

Mental Health Support Services: Scholars have access to mental health professionals like school counselors, psychologists, social workers, and nurses. Common services include:
Individual & Group Counseling: Offering students a safe space to discuss personal and emotional challenges.
Crisis Intervention: Providing immediate support to students experiencing emotional distress or mental health crises, such as through NYC 988.
Mental Health Education: Integrating mental health education into the curriculum to promote awareness, reduce stigma, and teach coping strategies.
Referrals for External Care: Connecting students and families with community mental health resources when more intensive support is needed.

What targeted supports are in place for students in foster care, including those newly transitioning into the foster care system? How does your school ensure these students receive the necessary interventions to promote stability and success?

Academic Supports:
Multi-Tiered System of Supports (MTSS): We employ MTSS to provide personalized instruction and interventions across academics, social-emotional learning, and behavior, ensuring all students receive appropriate support.
Targeted Academic Assistance:
After School Tutoring: Providing individualized or small group tutoring to help students master specific subjects or skills.
Early Alert Systems: We identify students who may be struggling academically or emotionally and providing timely interventions.

Available if needed: Bookbags, uniforms, notebooks, hats, scarves and gloves are distributed by the STH Social Worker/ STH liaison and SAPIS worker.

After analyzing historical demographic, attendance, and achievement data for students in foster care, what trends have emerged? How can these insights be used to improve the services and support provided to this population?

The attendance of 43% of STH students is considered not at risk.

Weekly attendance meetings, allocate roles and responsibilities of paraprofessionals, school aides, teachers, administration, etc. Discuss particular issues that students are having in school such as- being in school or late arrivals: busing, illnesses, parents working, or no childcare. STH and students in foster care are a focus of the meetings, as well. Utilizing a ladder approach for attendance:
*1) Daily classroom visits and monitoring participation.
2) Daily phone calls made by grade level specific attendance team members for students not found in class. 3) Pairing chronically absent students with a staff member/buddy who has a good rapport with the family. (school aides, paraprofessionals, attendance coordinator, teacher, or administrators).
4) Multiple staff (Pupil accounting secretary, parent coordinator, school aides, etc.) making daily phone calls to families to check-in and monitor attendance.
5) iLogging and documenting calls and interventions to students who are chronically absent.
6) Generation of a 407 for students absent for more than 20 consecutive days.
7) Consideration and intervention through ACS when necessary

* Above action steps 1-7 will be taken by a host of community members: school aides, paraprofessionals, STH personnel (social workers), guidance counselors, parent coordinator and assistant principals. This is a team approach and buddy systems are set-up, monitored and revised at weekly meetings.

What specific strategies does your school implement to ensure students in foster care, particularly those in transitional grades, receive targeted Social-Emotional Learning (SEL) support? How do these strategies help address academic and behavioral challenges?

Social-Emotional Learning (SEL) Programs & Supports:
Integrating SEL into the Curriculum: Teachers incorporate SEL activities and discussions into daily lessons and routines, helping students develop emotional regulation, empathy, and positive relationship skills. Examples of activities include:

Mindfulness: Breathing exercises, body scans, and meditation to improve focus and reduce stress.
Goal Setting & Reflection: Students set personal and academic goals and reflect on their progress, promoting self-assessment and accountability.
Journaling: A safe space for students to process emotions, reflecting on experiences and developing coping skills.
Empathy Building: Activities like reading diverse narratives and role-playing scenarios help students understand different perspectives.
Group Discussions: Provide opportunities for students to share experiences and perspectives, developing communication and active listening skills.
Restorative Practices: An approach to conflict resolution that emphasizes repairing relationships and understanding the impact of one's actions.
Specialized SEL Programs: Numerous providers offer comprehensive SEL curriculum and programs, each with specific strengths and areas of focus (e.g., Riseboro).

Mental Health Support Services: Scholars have access to mental health professionals like school counselors, psychologists, social workers, and nurses. Common services include:
Individual & Group Counseling: Offering students a safe space to discuss personal and emotional challenges.
Crisis Intervention: Providing immediate support to students experiencing emotional distress or mental health crises, such as through NYC 988.
Mental Health Education: Integrating mental health education into the curriculum to promote awareness, reduce stigma, and teach coping strategies.
Referrals for External Care: Connecting students and families with community mental health resources when more intensive support is needed.

Social-Emotional Learning (SEL) significantly benefits STH and students in foster care by fostering a sense of safety and belonging within the school environment, improving their ability to manage emotions and build positive relationships, and ultimately supporting their overall well-being and academic success. Students learn to understand and manage their emotions (self-awareness and self-management), develop empathy for others (social awareness), build positive relationships (relationship skills), and make responsible decisions (responsible decision-making). SEL programs are linked to decreased emotional distress, more positive attitudes towards self and others, and fewer externalizing behaviors and discipline problems. By developing skills like stress management and resilience, students in foster care are better equipped to navigate challenges and cope with difficult situations. A supportive school environment and stronger social-emotional competencies can lead to increased student engagement and improved academic outcomes.

Section 7: Parent and Family Engagement Policy and School-Parent Compact

Parent and Family Engagement Policy

Directions: The Parent and Family Engagement Policy should describe how your school will plan and implement effective parent and family engagement activities and/or strategies to improve student academic achievement and school performance. The School-Parent Compact (SPC) is a component of the Parent and Family Engagement Policy (PFEP) that outlines how parents, the entire school staff, and students will share this responsibility.

The activities and/or strategies included in your school's Parent and Family Engagement Policy should align with current Comprehensive Education Plan (CEP) goals for improving student achievement and should be developed or updated with input and feedback from parent leaders and the Parent Coordinator. In addition, if the school community will be engaged in central parent engagement initiatives, such as Parent Academy, which will provide training for school communities to help strengthen family-school partnerships, please be sure to include these activities in the school's policy.

In Title I schools, the Title I Parent Advisory Council (PAC) represents the Title I parent community in supporting parent and family engagement. The Title I PAC Chairperson will serve in a consultative role with the SLT representing the school's Title I parents. Schools are encouraged to use the sample Parent and Family Engagement and SPC templates below (which meet federal Title I parent and family engagement requirements) as guidance for updating the school's current policy.

Parent and Family Engagement Policy

Educational research shows a positive correlation between effective parental engagement and student achievement. The overall aim of this policy is to develop a parent and family engagement policy that will establish expectations and objectives for meaningful parent and family engagement in the school community. Thomas Warren Field Elementary School of Leadership and Service PS 299k, in compliance with Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is responsible for creating and implementing a parent and family engagement policy to strengthen the connection and support of student achievement between the school and the families. The school's policy is designed to keep parents informed by actively involving them in planning and decision-making in support of the education of their children. Parents are encouraged to actively participate on the School Leadership Team, Parent Association (or Parent-Teacher Association), and Title I Parent Advisory Council as trained volunteers and welcomed members of the school community.

Support for Parents and Family Members of Title I Students

P.S. 299 will support parents and family members of Title I students by:
- providing materials and training to help parents work with their children to improve their achievement level, e.g., literacy, math and use of technology;
- providing parents with the information and training needed to effectively become involved in planning and decision making in support of the education of their children;
- fostering a caring and effective home-school partnership to ensure that parents can effectively support and monitor their child's progress;
- providing assistance to parents in understanding City, State and Federal standards and assessments;
- sharing information about school and parent related programs, meetings and other activities in a format, and in languages that parents can understand;
- providing professional learning opportunities for school staff with the assistance of parents to improve outreach, communication skills and cultural competency in order to build stronger ties between parents and other members of the school community;

Parental Involvement and School Quality

The school's Parent and Family Engagement Policy was designed based upon a careful assessment of the needs of all parents/guardians, including parents/guardians of Multilingual Learners/English Language Learners (ML/ELL), and students with disabilities. The school community, with the meaningful involvement of parents and family members, will conduct an annual evaluation of the content and effectiveness of this parent and family engagement policy with Title I parents to improve the academic quality of the school. The findings of the evaluation through school surveys and feedback forms will be used to design strategies to more effectively meet the needs of parents and family members and enhance the school's Title I program. This information will be maintained by the school.

In developing the Title I Parent and Family Engagement Policy, parents of Title I participating students, parent members of the school's Parent Association (or Parent-Teacher Association), as well as parent members of the School Leadership Team, were consulted on the proposed Title I Parent and Family Engagement Policy and asked to survey their members for additional input. To increase and improve parent involvement and school quality, the school will:
- actively involve and engage parents and family members in the planning, review and evaluation of the effectiveness of the school's Title I program as outlined in the School Comprehensive Education Plan, including the implementation of the school's Title I Parent and Family Engagement Policy and School-Parent Compact;
- engage all parents in discussion and decisions regarding the required Title I, 1% set-aside funds, which are allocated directly to the school to supplement parent and family engagement activities, including family literacy and parenting skills;
- ensure that the Title I funds allocated for parent and family engagement are utilized to implement activities and strategies as described in the school's Parent and Family Engagement Policy and the School-Parent Compact;
- support school-level committees that include parents who are members of the School Leadership Team, the Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council. This includes providing technical support and ongoing professional learning, especially in developing leadership skills;
- maintain a Parent Coordinator (or a dedicated staff person) to serve as a liaison between the school and families. The Parent Coordinator or a dedicated staff person will provide parent workshops based on the assessed needs of the parents of children who attend the school and will work to ensure that the school environment is welcoming and inviting to all parents. The Parent Coordinator will also maintain a log of events and activities planned for parents each month and file a report with the central office.;
- conduct parent workshops with topics that may include: parenting skills, understanding educational accountability grade-level curriculum and assessment expectations; literacy, accessing community and support services; and technology training to build parents' capacity to help their children at home;

- provide opportunities for parents to help them understand the accountability system, e.g., ESSA/State accountability system, student proficiency levels, Annual School Report Card, School Quality Report, Quality Review Report, Learning Environment Survey Report;
- host the required Annual Title I Parent Meeting each school year to advise parents of children participating in the Title I program about the school's Title I funded program(s), their right to be involved in the program and the parent and family engagement requirements under Title I, Part A, Section 1116 and other applicable sections under ESSA;
- schedule additional parent meetings, e.g., quarterly meetings, with flexible times, such as meetings in the morning or evening, to share information about the school's educational program and other initiatives of the Chancellor and allow parents to provide suggestions;
- translate all critical school documents and provide interpretation during meetings and events as needed.

Encouraging School-Level Parental Involvement

The school will further encourage school-level parent and family engagement by:
- hosting educational family events/activities during Parent-Teacher Conferences and throughout the school year;
- encouraging meaningful parent participation on School Leadership Teams, Parent Association (or Parent-Teacher Association) and Title I Parent Advisory Council;
- supporting or hosting Family Day events;
- establishing a Parent Resource Center/Area or lending library; instructional materials for parents;
- encouraging more parents to become trained school volunteers;
- providing written and verbal progress reports that are periodically given to keep parents informed of their children's progress;
- developing and distributing a school newsletter or web publication designed to keep parents informed about school activities and student progress;
- providing school planners/folders for regular written communication between /teacher and the home in a format, and to the extent practicable in the languages that parents can understand.

School-Parent Compact (SPC)

School-Parent Compact (SPC)

P.S. 299, in compliance with the Section 1116 of Title I, Part A of the Every Student Succeeds Act (ESSA), is implementing a School-Parent Compact to strengthen the connection and support of student achievement between the school and the families. Staff and parents of students participating in activities and programs funded by Title I, agree that this Compact outlines how parents, the entire school staff and students will share responsibility for improved academic achievement and the means by which a school-parent partnership will be developed to ensure that all children achieve State Standards on assessments.

I. School Responsibilities: High Quality CurriculumI. School Responsibilities: High Quality Curriculum

Provide high quality curriculum and instruction consistent with State Standards to enable participating children to meet the State's Standards and Assessments by:

- using academic learning time efficiently;
- respecting cultural, racial and ethnic differences;
- implementing a curriculum aligned to the Next Generations Learning Standards;
- offering high quality instruction in all content areas;
- providing instruction by highly qualified teachers and when this does not occur, notifying parents as required by the Every Student Succeeds Act (ESSA);

I. School Responsibilities: Supporting Home-School Relationships

Support home-school relationships and improve communication by:

- conducting parent-teacher conferences each semester during which the individual child's achievement will be discussed as well as how this Compact is related;
- convening an Annual Title I Parent Meeting each school year for parents and family members of students participating in the Title I program to inform them of the school's Title I status and funded programs and their right to be involved;
- arranging additional meetings at other flexible times, e.g., morning, evening and providing (if necessary and funds are available) transportation or child care for those parents who cannot attend a regular meeting;
- respecting the rights of limited English proficient families to receive translated documents and interpretation services in order to ensure participation in the child's education;
- providing information related to school and parent programs, meetings and other activities is sent to parents of participating children in a format and to the extent practicable in a language that parents can understand;
- involving parents in the planning process to review, evaluate and improve the existing Title I programs, Parent and Family Engagement Policy and this Compact;
- providing parents with timely information regarding performance profiles and individual student assessment results for each child and other pertinent individual school information;
- ensuring that the Parent and Family Engagement Policy and School-Parent Compact are distributed and discussed with parents each year;

I. School Responsibilities: Providing Parents Reasonable Access to Staff

Provide parents reasonable access to staff by:
- ensuring that staff will have access to interpretation services in order to effectively communicate with limited English speaking parents;
- notifying parents of the procedures to arrange an appointment with their child's teacher or other school staff member;
- arranging opportunities for parents to receive training to volunteer and participate in their child's class, and to observe classroom activities;
- planning activities for parents during the school year, e.g., Parent-Teacher Conferences;

I. School Responsibilities: Providing General Support to Parents

Provide general support to parents by:
- creating a safe, supportive and effective learning community for students and a welcoming respectful environment for parents, and guardians;
- assisting parents in understanding academic achievement standards and assessments and how to monitor their child's progress by providing professional learning opportunities (times will be scheduled so that the majority of parents can attend);
- sharing and communicating best practices for effective communication, collaboration and partnering with all members of the school community;
- supporting parental involvement activities as requested by parents and family members;
- ensuring that the Title I funds allocated for parent involvement are utilized to implement activities as described in this Compact and the Parent and Family Engagement Policy;
- advising parents of their right to file a complaint under the Department's General Complaint Procedures and consistent with the Title I requirement for Every Student Succeeds Act (ESSA) and Title I programs;

II. Parent/Guardian Responsibilities

- monitor my child's attendance and ensure that my child arrives to school on time as well as follow the appropriate procedures to inform the school when my child is absent;
- ensure that my child comes to school rested by setting a schedule for bedtime based on the needs of my child and his/her age;
- check and assist my child in completing homework tasks, when necessary;
- read to my child and/or discuss what my child is reading each day (for a minimum of 15 minutes);
- set limits to the amount of time my child watches television or plays video games;
- promote positive use of extracurricular time such as, extended day learning opportunities, clubs, team sports and/or quality family time;
- encourage my child to follow school rules and regulations and discuss this Compact with my child;
- volunteer in my child's school or assist from my home as time permits;
- participate, as appropriate, in the decisions relating to my child's education;
- communicate with my child's teacher about educational needs and stay informed about their education by prompting reading and responding to all notices received from the school or district;
- respond to surveys, feedback forms and notices when requested;
- become involved in the development, implementation, evaluation and revision to the Parent and Family Engagement Policy and this Compact;
- participate in or request training offered by the school, district, central and/or State Education Department to learn more about teaching and learning strategies whenever possible;
- take part in the school's Parent Association or Parent-Teacher Association or serve to the extent possible on

advisory groups, e.g., Title I Parent Advisory Council, School or District Leadership Teams;

- share responsibility for the improved academic achievement of my child;

III. Student Responsibilities

- attend school regularly and arrive on time;
- complete my homework and submit all assignments on time;
- follow the school rules and be responsible for my actions;
- show respect for myself, other people and property;
- try to resolve disagreements or conflicts peacefully;
- always try my best to learn.

Title I Program Information

Part 1: Title I Program Type

Title I Requirements and Strengthening Title I Parent Involvement: Under USDOE's Every Student Succeeds Act (ESSA), Title I schools are required to address professional learning and parent and family engagement in the Comprehensive Education Plan (CEP). To strengthen parent leadership in Title I schools, and increase the involvement of all parents of Title I eligible children in improving students' academic outcomes, all Title I schools are required to establish a Title I Parent Advisory Council (PAC) that will serve as the consultative and representative body for all Title I parents in the school to provide voice into the spending of Title I funds.

The SLT is responsible for facilitating consultation with the Title I Parent Advisory Council regarding the joint development of the CEP, Parent and Family Engagement Policy, School Parent Compact (SPC) and the use of the 1% parent involvement set-aside in Title I schools. The Title I Parent Advisory Council (PAC) Chairperson (or alternate) is expected to attend all regular meetings of the School Leadership Team (SLT). Title I parents, as represented by the Title I PAC Chairperson, must be consulted regarding the use of the Title I 1% set-aside for parent and family engagement. The Title I 1% set-aside funding is used to supplement parent and family engagement activities as described in the school's Parent and Family Engagement Policy and must be aligned with student achievement goals as outlined in the CEP. For additional guidance on the Title I Parent Advisory Council (PAC), go to the Protocols and Timeline for Title I Parent and Family Engagement Activities document.

Directions:

- All schools must indicate their Title I status in Part 1.
- All elements of the All Title I Schools section must be completed in Part 2.
- All Targeted Assistance (TA) Schools must also complete the TA Schools Only section in Part 3.
- All Schoolwide Program (SWP) schools must also complete the SWP Schools Only section in Part 4.
- If a required component is addressed elsewhere in this plan, you may refer to the section or Priority where the response can be found.
- For additional information, visit the Title I Program Description (US Department of Education).

Your school's Title I Program

Title I SWP

Part 2: All Title I Schools

High Quality and Ongoing Professional Learning: Please list below the Priority or section(s) that indicate strategies and activities for high quality professional learning for teachers, principals, staff, and paraprofessionals to enable all students to meet state standards.

Part 4: Schoolwide Program (SWP)

Transition Plans to Assist Preschool Children (Elementary Schools Only): Describe the transition plans used to assist preschool children from early childhood programs to the elementary school program (e.g. aligned curriculum, joint PD & parent involvement activities, sharing of records/information, early intervention services, etc.).

Part 5: "Conceptual" Consolidation of Funds in SWP Schools

Directions: All Schoolwide Program (SWP) schools in NYC are conceptually consolidating their Federal, State, and Local funds, even though the Galaxy system reports the allocations in separate accounting codes1. To be eligible for the flexibility consolidation of Federal funds, a Schoolwide Program school must identify in its Schoolwide plan (CEP) which programs are included in its consolidation and the amount each program contributes to the consolidated Schoolwide pool. Additionally, the school plan must document that it has met the intent and purposes of each program whose funds are consolidated2. **On the chart below**, indicate which Federal, State, and/or local Tax Levy program funds that are consolidated in your school's Schoolwide Program, the amount each program contributes to the consolidated Schoolwide pool, and verification that the school has met the intent and purposes of each program whose funds are consolidated.
For the last two columns of this table: Place an (X) in Column A below to verify that the school has met the intent and purposes of each program whose funds are consolidated. Indicate in Column B, the Priority or section that references where a related program activity has been described in this plan.

Program Name	Fund Source (i.e. Federal, State or Local)	Funding Amount: Indicate the amount contributed to Schoolwide pool. (Refer to Galaxy for school allocation amounts)	Column A Verify with an (X)	Column B Section/Priority Reference(s)
Title I, Part A (Basic)	Federal			
Title I, School Improvement 1003(a)	Federal			
Title II, Part A	Federal			
Title III, Part A	Federal			
Title III, Immigrant	Federal			
Title IV, Part A	Federal			
Tax Levy (Fair Student	Local			

Funding)				

Explanation/Background

1. Explanation/Background:

Title I Schoolwide Program schools are expected to use the flexibility available to them to integrate services and programs with the aim of enhancing the entire educational program and helping all students reach proficient and advanced levels of achievement. In addition to coordinating and integrating services, Schoolwide Program schools may combine most Federal, State and local funds to provide those services. By consolidating funds from Federal, State, and local sources, a Schoolwide Program school can address its needs using all its available resources. This gives a school more flexibility in how it uses available resources to meet the identified needs of all its students.

Consolidating funds in a Schoolwide Program means that a school treats the funds it is consolidating like they are a single "pool" of funds. In other words, the funds from the contributing programs in the school lose their individual identity and the school has one flexible pool of funds. The school uses funds from this consolidated Schoolwide pool to support any activity of the Schoolwide Program without regard to which program contributed the specific funds used for a particular activity – so long as the use of funds meets the intent and purposes of the programs from which the funds originate. To consolidate funding in a Schoolwide Program, the school does not literally need to combine funds in a single account or pool with its own accounting code. Rather, the word "pool" is used conceptually to convey that a Schoolwide Program school has the use of all consolidated funds available to it for the dedicated function of operating a Schoolwide Program without regard to the identity of those funds.

Consolidating Federal funds in a Schoolwide Program has the following additional advantages:

- Consolidating Federal funds eases the requirements for accounting for funds from each specific program separately, because a Schoolwide school is not required to distinguish among funds received from different sources when accounting for their use.
- A school that consolidates Federal funds in its Schoolwide Program is not required to meet most of the statutory and regulatory requirements of the specific Federal programs included in the consolidation (e.g., semi-annual time and effort reporting for Title I). However, the school must ensure that it meets the intent and purposes of the Federal programs included in the consolidation so that the needs of the intended beneficiaries are met.

2. The intent and purposes of the Federal programs indicated on the chart above (Part 4c of this section) are as follows:

- **Title I, Part A – Schoolwide Programs:** To upgrade the entire educational program in the school in order to improve the academic achievement of all students, particularly the lowest-achieving students. This includes provision of services for Students in Temporary Housing (STH).
- **Title I 1003(a), School Improvement: Comprehensive Support and Improvement (CSI), Additional Targeted Support and Improvement (ATSI) and Targeted Support and Improvement (TSI) Funding:**

Support implementation of school improvement plans that aims to improve instruction and address the identified needs

Title II, Part A: Supplementary funding to improve student academic achievement by reducing class size in grades K, 1, 2, and 3, with an emphasis on grades with an average register greater than 20. If space is not available to form additional classes, funds may support push-in teacher(s) to supplement the instructional program. For schools that choose to reduce class size, priority must be given to reducing class size in general education settings and must demonstrate the following:

- Reduce class sizes to 15-18 students or fewer (including the use of co-teaching and floating teachers that bring the student to teacher ratio to one teacher per 15-18 students);
- Be accompanied by a rigorous curriculum, effective teachers, and a sustained, job-embedded professional development plan.

- **Title III, Part A:** To help ensure that children with limited English proficiency become proficient in English, develop high academic attainment in English, and meet the same challenging State academic content and achievement standards in the core academic subjects that all other children are expected to meet. Another purpose of this program is to increase the capacity of schools to establish, implement and sustain high-quality language instruction programs and English language development programs that assist schools in effectively teaching students with limited English proficiency. Title III, Part A is also designed to promote the participation of parents and communities of limited English proficient children in English language instruction programs.
- **Title III Immigrant**: Supplementary and enhanced services to immigrant students, in the areas of English language acquisition and content area achievement. Immigrant children and youth are defined as individuals who are aged 3 through 21, have not been attending school in any one or more states for more than three (3) full academic years, and were not born in any state. "State" means the 50 states of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. Children born to U.S. citizens abroad, the U.S. Virgin Islands, or any other U.S. territory that is not D.C. or Puerto Rico are to be considered immigrants.
- **Title IV, Part A**: Title IV funds are for schools that are among those with the greatest needs, have the highest numbers of students from low-income families, are identified for CS, ATSI or TSI, or are identified as persistently dangerous public schools. Allowable uses of funds under well-rounded education, safety and health, and educational technology include direct services for students, professional development for teachers and administrators, and supplemental educational resources. School allocations have been provided for well-rounded education, social emotional learning, cultural responsiveness awareness, professional development to support implementation of technology and blended learning environments, and community coordinators in schools with high rates of students in temporary housing

- Students in Temporary Housing (STH): Schools must describe their use of Title I STH funds in their consolidated application.

Important Note: The following funds may not be consolidated:

- **Title I Parent Involvement Set-aside:** Title I, Part A funds must support parent involvement activities and programs. Chancellor's Regulation A-655 requires School Leadership Teams to consult with Title I parent representatives regarding the Title I program and the use of these funds. Parent involvement activities funded through Title I must be included in the Parent and Family Engagement Policy and aligned with student achievement goals in the school comprehensive educational plan.
- **IDEA:** To ensure that all children with disabilities have available to them a free appropriate public education designed to meet their individual needs.
- **Grant funds awarded via a competitive process:** These funds must be used for the purposes specified by the Grantor, as described in the school's approved grant application.

Submission Assurances

Submission Assurances

- ☐ The Comprehensive Education Plan (CEP) has been developed in consultation with parents, school staff, and others in accordance with the requirements of Shared-Decision Making (CR 100.11) to provide a meaningful opportunity for stakeholders to participate in the development of the plan and comment on the plan before it is approved.
- ☐ As part of the root cause analysis process, the school reviewed inequities, including resource inequities within the school, and investigated areas of low performance to identify strategies to address inequities within the school and promote improved student outcomes.
- ☐ The CEP School Leadership Team (SLT)/Stakeholder Signature Page will be printed, scanned, and submitted with the signatures of those that participated in the development of the CEP. DocuSign may also be used to secure electronic signatures for the CEP SLT/Stakeholder Signature Page. If the school was unable to obtain a signature of an individual that participated in the development of the CEP, the school has written “Addendum Attached” and provided supplemental documentation to explain why the school was unable to obtain the individual’s signature.
- ☐ The CEP will be implemented no later than the beginning of the first day of regular student attendance.
- ☐ Professional development will be provided to teachers and school leaders that will fully support the strategic efforts described within this plan.

Language Allocation Policy Outline

Language Allocation Policy Outline

2025-26 Language Allocation Policy (LAP)

This submission form supports schools with organizing a well-conceived school-based Language Allocation Policy (LAP) that describes high quality programs for Multilingual Learners/English Language Learners (MLs/ELLs). This is an annual plan of how your school will support the linguistic and academic needs of MLs/ELLs and must be completed yearly. The Language Allocation Policy (LAP) is a part of schools' Comprehensive Education Plan (CEP).

This is a living document. Any school-wide changes involving the instruction of MLs/ELLs, such as the addition or expansion of a Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE) program, should be updated in this form.

Agenda, minutes of LAP meetings, and LAP team members' attendance at meetings should be kept readily available on file in the school with all other ML/ELL critical documents. When preparing your school's submission, provide extended responses in the available spaces.

For additional information, refer to the NYC DOE Policy and Reference Guide for MLs/ELLs. For additional support with ML/ELL policy, please reach out to your respective ML/ELL Director or ELL Compliance Performance Specialist; for support with ML/ELL instruction, please contact your ML/ELL Services Administrator.

Part I: School ML/ELL Profile

This section should reflect the school's demographics for the 2025-26 school year. If completing before the 2025-26 school year begins, questions should be based on the anticipated population served by the school.

A. Language Allocation Policy Team Composition

The members of the school's LAP team are listed below. A school's LAP team must consist of at least one: principal, assistant principal (where applicable), an English as a New Language (ENL) teacher, an additional teacher (bilingual teacher if the school has a bilingual program or a teacher from a content area other than bilingual education or ENL) and a parent/guardian.

Required LAP team members are denoted with an asterisk (*) below. Please do not leave any fields blank. If a role is not represented on the LAP team, include "N/A" below.

Member Title	Name
Principal*	Dr. Carleen Miller-Bailey
Assistant Principal (Where Applicable)*	Eva Kylz
English as a New Language (ENL) Teacher*	Trisha Silva
Teacher (if school has a bilingual program must be a bilingual teacher)*	Milagros Matias
Parent/Guardian*	Christina Grajales
Teacher	
Parent Coordinator	
School Counselor	Rita Carrington
Related-Service Provider	
Other (Name and Title)	
Other (Name and Title)	

B. Teacher Qualifications

Please review all certifications for all staff members at your school, and indicate the number of certified staff for each category.

1. English to Speakers of Other Languages (ESOL) Certified Teacher

Number of ESOL certified teachers currently teaching ENL:

1

Number of teachers currently teaching a stand-alone ENL class who hold both a common branch license and ESOL certification [applicable to grades K–6]:

0

Number of certified ESOL teachers not currently teaching ENL:

0

Number of teachers who hold both content area/common branch and ESOL certification:

0

Number of ESOL certified teachers with a bilingual extension:

0

2. Certified Teachers with a Bilingual Extension

Number of certified teachers with a bilingual extension currently teaching in a bilingual program:

4

Number of certified teachers with a bilingual extension not currently teaching in a bilingual program:

0

Number of teachers certified to teach students with disabilities that also have a bilingual extension:

1

3. Language Other than English (LOTE)/World Language Certified Teachers:

Total number of teachers with LOTE certification:

0

Total number of teachers with LOTE certification providing World Language instruction:

0

Total number of teachers with LOTE certification providing Home Language Arts (HLA) to students in bilingual programs:

0

C. Student Demographics

Please review the student demographics at your school and complete the number and percentage for each category.

Total number of students (excluding pre-K):

192

Total number and percentage (%) of current ELLs:

42.2 % (81 students)

Total number and percentage (%) of former ELLs:

1.6% (3 students)

Total number and percentage (%) of ELLs who are Newcomers (0-3 years of service):

93.8% (76 students)

Total number and percentage (%) of ELLs who are Developing ELLs (4-6 years of service):

6.2% (5 students)

Total number and percentage (%) of ELLs who are Long-Term ELLs (7 or more years of service):

.5% (1 student)

Total number and percentage (%) of ELLs who are Students with Inconsistent/Interrupted Formal Education (SIFE):

1.2% (1 student)

Total number and percentage (%) of ELLs with an Individualized Education Program (IEP):

6.2% (5 students)

Part II: Bilingual Programs

Does your school have a bilingual program (Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)?

Yes

Provide the number of classrooms for each bilingual program, by grade, at your school for the 2025-26 school year. If submitted before the 2025-26 school year begins, this should be the anticipated number of classrooms based on anticipated enrollment. Each language and program model--Transitional Bilingual Education (TBE) or Dual Language Bilingual Education (DLBE)--is considered a separate program. In the second column, please indicate if the program is General Education (GE), Integrated Co-Teaching (ICT) special education, Special Class (SC), or Mixed-Group Class (MGC) special education. If a classroom bridges two grades, list as 0.5 classrooms for both grades.
Please include the total number of classrooms for each bilingual program in the last column.

	Program Type	Language	School Yr Opened	k	1	2	3	4	5	6	7	8	9	10	11	12	Totals
TBE																	0
TBE																	0
TBE																	0
DLBE	50/50	spanish	2021-2022	1	1	1	1	1	1								6
DLBE																	0
DLBE																	0
				total: 1	total: 1	total: 1	total: 1	total: 1	total: 1	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	total: 0	

Part III: ML/ELL Programming

Please refer to New York State **Commissioner's Regulation (CR) Part 154 Units of Study Tables** as you describe academic programming for MLs/ELLs at your school below. Please do not leave any fields blank and indicate "N/A" for any fields that are not applicable.

Describe your English as a New Language (ENL), and if applicable Dual Language Bilingual Education (DLBE), and Transitional Bilingual Education (TBE) programs. For each program, include:

- How stand-alone ENL is implemented as per CR Part 154
- How integrated ENL is implemented as per CR Part 154
- How students are grouped (e.g., block [class travels together as a group], ungraded [all students regardless of grade are in one class], heterogeneous [mixed proficiency levels], homogenous [proficiency level is the same in one class]).

a. English as a New Language (ENL)
Stand-alone ENL:

The school follows a heterogeneous model (mixed proficiency level on the same grade). The program, which fully aligns to the Next Generation Learning Standards (NGLS), provides an appropriate balance of literary and informational text, and aims to facilitate comprehension of the four basic language skills: listening, speaking, reading, and writing. Teachers and their peers also have discussions probing one another through questioning to be sure they are comprehending material. Students are grouped by grade with different proficiency levels. In our school, students are served by grade and by class in most instances. In instances where there is a self contained Special Education class on the same grade as the general education class housing our ENL students, the Special Education students are integrated with the general education students. We use push-in and pull-out co-teaching models. Meetings are held once or twice a month and teachers collaborate daily to articulate the curricula and instructional methodologies used, such as content parity using different materials, tiering of activities and written work. This school year, we will continue to work with our ENL students in a variety of ways. Students in our school will receive the appropriate number of minutes of ENL Stand Alone Instruction based on their level of proficiency: Entering (Beginning) students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (180 min) Emerging (Low Intermediate) Students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) .5 unit of study.

Integrated ENL:

This 2025-2026 school year, we will continue to work with our ENL students in a variety of ways as the ENL teacher finds ways to push into the classroom and provides instructional support to enrich comprehension. Integrated ENL classes are taught by a teacher certified ENL teacher and works along side our content certified teachers to introduce ENL skill and support. In our school, more often than not, ENLs are co-taught by a certified content area teacher and a certified ENL teacher. The ENL and co-teachers will be utilizing technology, hand-on learning and combining students into small groups where appropriate.

Transitioning (Intermediate) Students: will receive 1 unit of study (180 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) .5 unit of study. Expanding (Advanced) Students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) Commanding (Proficient--Former ELLs) will continue to receive services for an additional two years. These students will receive .5 unit of study per week. Former ELLs receive their ENL instruction through Integrated ENL in ELA and Math.

b. Bilingual Education (If applicable)

Transitional Bilingual Education (TBE):

N/A

Dual Language Bilingual Education (DLBE):

The ENL teacher will be conducting all ENL Stand-Alone minutes with Entering and Emerging ELLs. Bilingual teachers K - 5th grade will use mixed integrated and stand-alone methods in the classroom. Dual Language Bilingual Education (DLBE) program - Proficiency in more than one language is a valuable skill to be cultivated and nurtured in our school, through the Dual Language program, which we have phased in over the last four years to include Kindergarten, first grade, second grade, third grade, fourth grade and fifth grade in the 2025-2026 school year. ENL Students in the Dual Language programs will also continue to receive services from the ENL teacher utilizing either push-in, pull out or some combination of each mode of instruction. Our Program Description: The Dual Language/Two Way Immersion program develops non-native English-speaking students' fluency and literacy in English, and their native language. Nonnative English speaking students and native English-speaking students study in both languages side-by-side. Both groups of students develop literacy in both languages. The program also helps students to succeed in academic subjects, since students who learn half the time in their native language can understand academic concepts in science, social studies and mathematics. This allows them to better comprehend what occurs academically in their second language on alternating days. As per State mandates all ENL students in our Dual Language Program: Entering (Beginning) students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (180 min) Emerging (Low Intermediate) Students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) .5 unit of study. Transitioning (Intermediate) Students: will receive 1 unit of study (180 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) .5 unit of study. Expanding (Advanced) Students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) Commanding (Proficient--Former ELLs) Will continue to receive services for an additional two years. These students will receive .5 unit of study per week.

2. How does your school ensure the mandated number of instructional minutes are provided according to students' English language proficiency levels in each program model?

Our school ensures that the mandated number of instructional minutes are provided according to students' English language proficiency levels by strictly adhering to the regulations outlined in CR Part 154 of the New York State Education Department (NYSED). To ensure compliance, the ENL teacher collaborates with content area teachers and ensures that integrated ENL is delivered within content instruction, aligned with language acquisitio goals will be given bassed on NYSITELL and NYSESLAT results. The HLIS is provided to determine the child's home language upon enrollment, followed by NYSITELL if the requirement is met. For students who have been previously enrolled in the DOE system and have administered the NYSITELL/NYSESLAT, records will be obtained from the previous school. Based on the data retrieved, AP will program students in STARS for the mandated minutes for pull-out and, or push-in services ensuring the minute requirements are met.

Each English Language Learner is assessed during the NYSITELL assessment upon entry, and annually with the NYSESLAT to determine their English proficiency level- Entering, Emerging Transitioning, Expanding, or commanding. Based on their proficiency level, we ensure the following instructions time allocations as mandated by the CR Part 154-2 for English as a New Language Services: Entering and Emerging receiving 360 minutes per week od integrated ENL and 180 minutes per week of standalone ENL, Transitioning: Receiving 180 minutes per week of integrated ENL and 180 minutes per week of standalone ENL, Expanding: Receiving 180 minutes per week of integrated ENL and 180 minutes per week of standalone ENL, Expanding: Receiving 180 minutes per week of integrated ENL only, and Commanding: Racing 180 minutes per week of integrated ENL support for two years are part of the mandated FOrmer ELL monitoring program. To ensure compliance, the ENL teacher collaborates with content area teachers and ensures that integrated ENL is delivered within content instruction, aligned with language acquisition goals.

We have designed a program around the number of minutes as specified by the New York State and as specified by CR Part 154. Push-in will be used for all levels of students in our school and pull-out for the Entering and Emerging students at 32K299. In Kindergarten to 5th Grade, at PS 299, dual language follows a self contained 50/50 model. This simply means that our students will learn Spanish and English from the same teacher in the same classroom, on alternating days. The classrooms reflect both languages equally. Instruction will be delivered in the target language of the day. All students' needs are met and the use of their native language on alternate days assures that we not only affirm biculturalism, but also support all students equally. Dual language allows all students to transfer academic skills in the native language to a new language on any given day. Sample Week 1: Monday Spanish Tuesday English Wednesday Spanish Thursday English Friday Spanish Sample Week 2: Monday English Tuesday Spanish Wednesday English Thursday Spanish Friday English.

3. How are ENL, English Language Arts (ELA) and if applicable, Home Language Arts (HLA) instructional minutes delivered in each program model?

We have designed a program around the number of minutes as specified by the New York State and as specified by CR Part 154. As per State mandates in compliance with CR Part 154, all ENL students in our Dual Language Program: Entering (Beginning) students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (180 min) Emerging (Low Intermediate) Students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) .5 unit of study. Transitioning (Intermediate) Students: will receive 1 unit of study (180 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) .5 unit of study. Expanding (Advanced) Students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) Commanding (Proficient--Former ELLs) Will continue to receive services for an additional two years. These students will receive .5 unit of study per week. In Kindergarten to 5th Grade, at PS 299, dual language follows a self-contained 50/50 model.

This simply means that our students will learn Spanish and English from the same teacher in the same classroom, on alternating days. The classrooms reflect both languages equally. Instruction will be delivered in the target language of the day. All students' needs are met and the use of their native language on alternate days assures that we not only affirm biculturalism, but also support all students equally. Dual language allows all students to transfer academic skills in the native language to a new language on any given day. Sample Week 1: Monday Spanish Tuesday English Wednesday Spanish Thursday English Friday Spanish Sample Week 2: Monday English Tuesday Spanish Wednesday English Thursday Spanish Friday English. ENL teacher will push in during ELA periods and support students with MLL strategies. During student's pull-out sessions, the ENL teacher will introduce ELA with ENL instruction.

4. For schools with Dual Language Bilingual Education (DLBE) programs:

a. Which Dual Language Bilingual Education model is implemented? Explain how much of the instructional day (percentage) English proficient students and ELLs are integrated.

Our Dual Language classrooms are predicated on the following ideas and principle of educating students in a self-contained 50/50 Dual Language Model Classroom: --Students in dual language programs do as well or better than students learning only in English on standardized tests given in English. --Students participating in dual language programs close the achievement gap that currently exists between English Language Learners and general education students. --Students in dual language programs develop respect for multiple cultural heritages. --Students' cognitive function is positively impacted when they learn a second language. --Students in dual language programs increase their marketable skills in a global society. In Kindergarten to fifth Grade, at PS 299, dual language follows a self contained 50/50 model. This simply means that our students will learn Spanish and English from the same teacher in the same classroom, on alternating days. The classrooms reflect both languages equally. Instruction will be delivered in the target language of the day. Our dual language classrooms have a one-way DLBE model, in which mostly/all of the students are ELLs. All students' needs are met and the use of their native language on alternate days assures that we not only affirm biculturalism, but also support all students equally. Dual language allows all students to transfer academic skills in the native language to a new language on any given day. Sample Week 1: Monday Spanish Tuesday English Wednesday Spanish Thursday English Friday Spanish Sample Week 2: Monday English Tuesday Spanish Wednesday English Thursday Spanish Friday English.

b. In which language(s) is each core content area taught?

Spanish and English are utilized for all subject areas except for native language development and ELA, specifically for: mathematics, social studies and science.

5. For schools with Transitional Bilingual Education (TBE) programs:

a. Which core content areas are taught bilingually?

N/A

Part IV: Data Analysis

Data Analysis

After reviewing and analyzing school demographic and assessment data, answer the following questions. The ELL Data Analysis Tool (EDAT) provided by the Office of Multilingual Learners can assist with identifying these data points.

For additional information, refer to Data Analysis Professional Learning Module and ELL Data Analysis Tool (EDAT) Professional Learning Module.

1. What is the composition of the ELL subgroups at your school?
What percentage of ELLs are Newcomers? How does effective instruction for Newcomers differ from those provided to Developing or Long-Term ELLs?

We 32K299 currently have 81 English Language Learners (ELLs), divided into subgroups: Newcomers, Developing, Students with Interrupted Formal Education (SIFE), and ELLs with Individualized Education Programs (IEPs). Of the 81 ELL students, 76 are Newcomers (0-3 years of service), making up approximately 93.8% of the total, 5 are Developing (4-6 years of service), making up 6.2%, 1 of our SIFE students make up of our Developing ELLs, that is 1.2%, and currently don't have any long term ELLs (7 or more years of service).

Students in our school will receive the appropriate number of minutes of ENL Stand Alone Instruction based on their level of proficiency: Entering (Beginning) students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand Alone (180 min) Newcomer students will receive services at the outset of their school career at the Thomas Warren Field school with an emphasis in their curriculum on BICS: Activities for developing BICS in newcomer MLL students should be fun-filled and familiarize students to their new environments school, city and country. Research shows, we are likely to remember something better when it is enjoyable and allows us to express ourselves. Some BICS development activities in our school may include, but not be limited to the following: Asking and giving directions, Making reservations, Answering calls, Making an appointment, Thanking others, Introducing someone, and Listening to audio tapes. Learning self-introduction is one of the most challenging lessons for the beginning stages of learning a second language. The teacher has to gauge the comfort levels of students who are unfamiliar with the contexts in which self- introduction is required. It is imperative to teach them the occasions that call for introductions. They should be aware how sentences can change with various social situations. In many cultures, self-introduction is not a norm. The whole concept of English customs is unfamiliar to them. Once our students have mastered their BICS and have moved forward to the next level we also emphasize their learning of CALPS or Cognitive Academic Language Proficiency. Our school has developed robust partnerships with families and wrap-around services and activities for students. Our school has also gone to great lengths to create and maintain calm, welcoming environments within the school and ensure that staff are trained in culturally and linguistically responsive practice, as well as trauma-informed practice. Since our teachers are serving siblings from the same families, they also work closely together to reach families more effectively. Further, our school supports our Newcomers to be fully functional at school, by teaching them to read and write, complete assignments and follow instructions, use school supplies, follow a school schedule, take the bus, interact with students from different cultures, and participate in school activities. With four to six years of school experiences, Developing

Multilingual Learners/English Language Learners have rich academic and social knowledge on which to build. Students benefit when their teachers build on their prior knowledge and experiences. Also, teachers learn the particular strengths and abilities of their Developing MLLs/ELLs through diagnostic assessments, informal conversations with students, learning from students' previous teachers, family conversations, and student surveys. Once there is awareness of these individual and community strengths, teachers can use them to design even more tailored and targeted instruction that leads to increased academic success for students. Typically, with 7+ years of school experience the majority of LTELLs speak English fairly fluently. Their oral language is strong when it is used for social purposes. In their daily lives outside of school, LTELLs use their full linguistic repertoires, including words from English and their home languages—with family members, friends, and in their communities. Despite their linguistic creativity and intelligence, these students often score below grade level in school- based literacy tasks or assessments that are administered in English as well as in their home language. Teachers would use the data from the assessments to determine the targeted instruction needed for our long-term ELLs, should there be a need.

What percentage of ELLs are Students with Inconsistent/Interrupted Formal Education (SIFE)? How do you differentiate effective instruction for SIFE?

At 32K299 of our 81 English Language Learners, 1.2% of our ELLs are SIFE (1student). For this student, students who may enroll that are encounter incosistent/interrupted education we provided a predicatable environment with routines, social and emotionl support, provide extra time, additonal data analysis, provide additonal scaffolds and visuals, identify the learning gaps, provide social-emotional support, collaborate curriculum mapping, ongoing planning and reflections, and professional development on best practices for long-term ELLs.

What percentage of ELLs are Long-Term ELLs? How does effective instruction for Long-Term ELLs differ from instruction designed for Developing ELLs?

At 32K299, 1.2% of our 81 English Language Learners are identified as Students with Interrupted Formal Education (SIFE), representing one student. For this student, as well as any future enrollees who may have experienced inconsistent or interrupted education, we implement a comprehensive support system to ensure academic and social success. We provide a predictable learning environment with clear routines, along with social-emotional support tailored to the needs of SIFE students. Instruction is differentiated through additional scaffolds, visuals, and extended time, and we conduct ongoing data analysis to identify and address specific learning gaps. Our approach includes collaborative curriculum mapping, continuous planning and reflection, and targeted professional development on best practices for supporting both SIFE and long-term English Language Learners. These efforts are designed to ensure equity and access to rigorous instruction for all students.

What percentage of students are former ELLs? How is your school providing mandated instruction to former ELLs?

We currently have who .01% of former ELLs, that is 3 students. Our commanding (Profeint–Former ELLs) will continue to receive services for an additional two years. These students will receive .5 units of study per week.Generally, they will receive push-in serviedes provided by our ENL teacher. The teachers of our MLL learned, whterhet in the general education setting, special education setting or as MLL push-in, will use various strategies for building students academic language for our former ENL students: We encourage students to read diverse texts: Reading and then thinking about different genres is a robust sequence (think, ink, pair, shair) for learning academic language. Students read a section of text to themselves before verbally summarizing the passage to a partner. Alternatively, learners can complete sentence frames, or guides for summarization. Some examples: If the main idea of the paragraph is problem/solution, use the frame: "_____ wanted _____, but _____, so _____." If the main idea of the

paragraph is cause/effect, use the frame: "_____ happens because _____." 3. Help students translate from academic to social language (and back): Model how to say something in a more academic way or how to paraphrase academic texts into more conversational language. Provide students with a difficult expository passage, and have teams reinterpret the text using everyday language. We have students complete scripts of academic routines: Some discourse routines seem obvious to adults, but are more complex for young learners unless we provide scaffolding, like these speech examples: "The topic of my presentation is _____." and/or "In the first part, I give a few basic definitions. In the next section, I will explain _____. In part three, I am going to show _____." In addition, teachers will dynamically introduce academic vocabulary: Repeated encounters with a word in various authentic contexts can help students internalize the definition. They also benefit when teachers make their first encounters with vocabulary engaging, by using the word in a funny or personal story. Teachers of our former ENL students help by diagramming similarities and differences: When students generate a list of similarities and differences between words and complete a bubble map, in which they compare and contrast moths and butterflies, they are working with one of Robert Marzano's high-yield instructional strategies. Students' use of thinking maps will become more sophisticated through coaching from the teacher. Students then use their thinking to make informed decisions and valid inferences. Further, we emphasize former ENL student writing with a transition handouts: Formal academic writing challenges all students. Before students write, we give them a handout of transitions. Model where transitions fit and which describe how they help the reader. Test readiness: We teach key words for understanding standardized test prompts that help students understand prompts and perform well on standardized tests. Frequently assessed standards on the New York State English Language Arts Assessment will be focused on during the year. The pacing of standards R2-R9 will be strategic throughout the academic year. Texts will be carefully selected from the curriculum to ensure that students are making a meaningful connection with the focal concepts and skills of the unit. Previously taught standards will be methodically spiraling back into new units of study so that student learning is continuously reinforced. Receiving mandated units 90 minutes per week in accordance with the New York State Commissioner's Regulation (CR) Part 154 Units of Study and students' English language proficiency levels, teacher plans for home language support to enrich comprehension of content, scaffolding and multi entry points, culturally responsive pedagogy.

2. Examine all at-risk levels that might adversely affect ELLs at your school. What trends do you notice about the at-risk levels of ELLs at your school?

Of our 81 English Language Learners, the distribution of students identified by the number of At-Risk indicators is as follows: 17 students (21%) are identified with 1 At-Risk Indicator, 17 students (40.7%) are identified with 2 At-Risk Indicators, 18 students (22.2%) are identified with 3 At-Risk Indicators, 5 students (6.2%) are identified with 4 At-Risk Indicators, 6 students (7.4%) are identified with 5 At-Risk Indicators, 1 student (1.2%) is identified with 6 At-Risk Indicators, and 1 student (1.2%) is identified with 7 At-Risk Indicators. The highest concentration or At-Risk students is in the #2 At-Risk Indicator category, representing 40.7% of the identified population. Notably, Indicators #1, #2, #4, #5 show relatively close percentages, indicating a significant portion of our ELLs fall within the moderate risk range. In contrast, Indicators #6 and #7 have the lowest representation, each accounting for only 1.2%, highlighting fewer students with the highest number of risk factors. The distribution informs our targeted interventions and support services to better meet the needs of students with multiple risk factors.

3. Examine all at-risk levels that might adversely affect former ELLs at your school. What trends do you notice about the at-risk levels of former ELLs at your school?

Of our 81 English Language Learners, the distribution of students identified by the number of At-Risk indicators is as follows: 17 students (21%) are identified with 1 At-Risk Indicator, 17 students (40.7%) are identified with 2 At-Risk Indicators, 18 students (22.2%) are identified with 3 At-Risk Indicators, 5 students (6.2%) are identified with 4 At-Risk Indicators, 6 students (7.4%) are identified with 5 At-Risk Indicators, 1 student (1.2%) is identified with 6 At-Risk Indicators, and 1 student (1.2%) is identified with 7 At-Risk Indicators. The highest concentration or At-Risk students

is in the #2 At-Risk Indicator category, representing 40.7% of the identified population. Notably, Indicators #1, #2, #4, #5 show relatively close percentages, indicating a significant portion of our ELLs fall within the moderate risk range. In contrast, Indicators #6 and #7 have the lowest representation, each accounting for only 1.2%, highlighting fewer students with the highest number of risk factors. The distribution informs our targeted interventions and support services to better meet the needs of students with multiple risk factors.

4. What are the home languages of ELLs with the largest representation at your school? What staff, structures, and processes does your school have to support communication and learning that values these home languages?

The Latinx, Spanish speaking community, has the greatest number of ENL students of our ELL and MLL community. At P.S 299, our current ENL families have Spanish as a home language. Programs implemented like Dual Language and Transitional Bilingual Education leverage students' home language to support content mastery. In the Dual Language program, students spend equal amounts of time learning core content in English and in Spanish. In the Transitional Bilingual Education program, students spend more time learning content in Spanish, as they transition into spending more time learning content in English. In addition, we have families and students communicating with their families utilizing American Sign-Language. Classroom teachers engage students in active learning, where students apply the 4 hallmarks of advanced literacy. Student learning is supported by differentiated instruction, scaffolds, etc. Students also have access to bilingual staff members. We utilize staff members and at times the Language Translation Unit at the NYCDOE to assist us in communicating in writing and/or orally with speakers of other languages than English. Whenever practicable: We recommend to families who speak languages other than English that they change the default language to a preferred language on their computers, phones, and tablets. This option is often found in the "Settings" section of your device. We also have translators discuss with parents how to change the language on your iPhone, iPad, or iPod touch if they have not already done so and refer families to the NYCDOE online external links so they may find out how to: Change the language on your Android device Changing the default language will allow them and their child to use digital learning tools in a preferred language. In addition, our staff utilizes and instructs parents, in their home language, when possible, to utilize Google Translate. Google Translate is a free application that is available on most devices. Google Translate can be used to translate text, handwriting, speech, and websites in over 100 different languages.

5. What are the racial and ethnic classifications of ELLs at your school? How are ELLs being included in planning and delivery of Culturally Responsive and Sustaining Education (CR-SE)?

At 32K299 our facial and ethnic classifications of our ELLs are, 40.5% of out ELLS are American Indian or Alaskan Native that is 32 students, 12.7% of our ELLs are Black that is 10 students, 50% multi racial that is 1 student, and 50% are white that is 1 student, 2.5% students are Native Hawiian or Other Pacific Islander that 2 students, and 44.3% of our students are White that is 35 students. Our goal is to create an inclusive classroom where students from all backgrounds feel safe and welcomed. Students have unlimited access to an affirmation station in their classroom. As a school, we are a Kids at Hope school, and we provide daily opportunities for our students to experience success. Our school as an NYCDOE school uses an educational strategy that embraces students' identities. Teachers are coached on how to understand and build on students' current prior knowledge when providing entry points for our ELLs. It is a way of seeing diversity as a source of knowledge. With CR-SE, students use their own identity to get education. They learn using aspects of their race, social class, gender, language, sexual orientation, nationality, religion, and orability. ELLs are being included in planning and delivery of Culturally Responsive and Sustaining Education, which recognizes the central role of culture in learning and connects students' cultures, languages, and life experiences with what they learn in school, making the information more personally meaningful and easier to learn. Our school gives students mirrors that reflect the greatness of who their

people are, and windows into the world that allow students to connect across cultures. To give all students both windows and mirrors, we will adopt a culturally responsive approach throughout all major policy areas.

6. What trends do you notice in reviewing English Language Proficiency (ELP) growth at your school? How many students met ELP sufficient progress? How many students did not meet ELP sufficient progress?

At 32K299 according to the 2024 NYSESLAT results we have 5.6% of students who met progress by exiting ELL status, and 13.9% of our students met annual growth progess, 0% of our students have met safe harbor and 80.6 % of our students had not yet made progress.

7. When you look at the results of the New York State English as a Second Language Achievement Test (NYSESLAT), what stands out? What trends are there for each modality?

In 2024, 56 students took the NYSESLAT. 25% (14 students) were Entering, 44.6% (25 students) were Emerging, 19.6% (11 students) were Transitioning, 7.1% (4 students) were Expanding, and 3.6% (2 students) are former ELLS.

The 2023 school year NYSESLAT shows that 1 student performed over 90% on reading, 4 students performed over 90% on the speaking modality. Compared to the 2024 NYSESLAT, 3 students scored over 90% on the reading modality, 1 student scored over 90% on the writing modality, 2 students scored over 90% on the listening modality, and 5 students scored over 90% on the speaking modality. During both NYSESLAT the speaking and reading modality appears to be the highest achieved modality. However, in 2023, 12 students scored less than 15% in both the writing and speaking modality, 3 students scored less than 15% in the reading modality and 2 students scored less than 15% in the listening modality. Compared to the 2024 NYSESLAT, 18 students scored less than 15% on the speaking modality, 26 students scored less than 15% on the writing modality, 5 students scored less than 15% on the reading modality, and 2 students scored less than 15% on the listening modality. Based on these results, speaking and writing continue to show to be the lowest performing of all test modalities.

8. What is the relationship between students' performance on the NYSESLAT and other state assessments such as the ELA assessment, the Math assessment, and the Regents exams?

At 32K299, data from the 2024 testing cycle indicated a correlation between students' English language proficiency- as measured by the NYSESLAT and their performance on the New York State ELA and Math assessments. Students scoring at the higher proficiency levels (Transitioning, Expanding, and Commanding) generally demonstrated stronger performance on content- area exams, while students at the Entering and Emerging levels primarily scored below proficiency levels. Of the 29 ELLs in grades 3-5 who took both the NYSESLAT and ELA/MATH State assessment:

NYSESLAT: students scored over 90% on reading, writing and listening speaking. In 5th grade, 1 student scored over 90% in the listening modality, among grades 3,4, and 5 students scored over 90% on the speaking modality. Scoring over 15%, 1 student student scored over 15% in the 3rd grade in the reading modality, 3 students in writing scored over 15%, in 4th grade, 2 students scored over 15% in the reading modality, in 4th grade, 5 students scored over 15% in the writing modality, in 5th grade, 5% of students scored over 15% in the writing modality, and on the speaking modality scoring over 15% 2 students in 3rd grade, 4 students in 4th grade, and 2 students in 5th grade.

ELA Exam: 14 students scored at a level 1. These students include, 1 student at the entering proficiency, 7 students at the proficiency level, 5 students at the transitioning proficiency level, 1 student at the expanding proficiency level. 1 student scored a level 3 on the ELA, that student was at the commanding proficiency level.

Math Exam: Performance varied slightly more. Students at higher NYSESLAT levels were more likely to score Level 3 or 4. These students include, 6 students scoring a level 1: 4 students at the proficiency entering level, 2 students at the emerging proficiency level. 9 students scored at a level 2: 2 students at the entering proficiency level, 4 students at the emerging proficiency level, 3 students at the transitioning proficiency level. 6 students scored at a level 3: 3 students at the emerging proficiency level, 2 students at the transitioning proficiency level, 1 student at the expanding proficiency level. Scoring at a level 4: 1 student at the commanding proficiency level.ook the NYSESLAT. 14 students were Entering, 25 students were Emerging, 11 students were Transitioning, 4 students were Expanding, 2 students were former ELLs. Writing and speaking modalities continue to be the lowest performing of all tested modalities.

Additionally, writing and speaking remained the lowest-performing NYSESLAT modalities, which consistently challenges ELLS similar components of the ELA exam. Only a small percentage of students scored above 15% in writing and reading across grades 3-5, with listening slightly stronger in 5th grade.

These trends underscore the importance of:
providing language scaffolds and instructional support in both literacy and content-area instruction, ensuring students receive state-approved testing accommodations, including bilingual glossaries and extended time, continuing target instruction in the productive language development domains which directly impact the ELA performance.

9. What are trends reflected in the NYSESLAT results of ELL subgroups such as ELLs with IEPs and SIFE? What do you think is impacting the results for these subgroups?

At 32K299, 29 of English Language Learners in grades 3-5 took the NYSESLAT and New York State ELA and Math exam. Reading, Writing, and Listening modalities are utilized during the State ELA exam. In 3rd and 4th grade, 0% of our student scored over 90% on the reading, writing and listening. In 5th grade, 1 student scored over 90% in the listening modality. Scoring over 15%, 1 student student scored over 15% in the 3rd grade in the reading modality, 3 students in witing scored over 15%, in 4th grade, 2 students scored over 15% in the reading modality, in 4th grade, 5 students scored over 15% in the writing modality, in 5th grade, 5% of students scored over 15% in the writing modality.

In comparison to the New York State English Language Arts exam taken by the 3-5th grade ELLs, 14 our ELLs scorred a level 1 at the ELA level consist of: 1 student at the entering profieicny, 7 students at the profiency level, 5 students at the transitioning proficeny level, 1 student at the expanding profofiency level. 1 stuentd scored a level 3 on the ELA, that student was at the commanding profiency level.

Compared to the New York State Math exam, 6 students scored a level 1: 4 students at the profiency entering level, 2 stuents at the emerging profienct level. 9 students scored at a level 2: 2 students at the entering profiency level, 4 students at the emerging profiency level, 3 stuents at the transitioning profiency level. 6 students scored at 3 level: 3 students at the emerging profiency level, 2 students at the transitioning profiency level, 1 student at the expanding profeincy level. Scoring at a level 4: 1 student at the commanding profiency level.

10. (For grades 9-12 only) Please review your data in the Insight Tool and STARS to answer the following questions:
a. How many ELLs are on-track towards graduation?

NA

b. How many ELLs in grades 11-12 have a documented postsecondary plan in STARS or ATS?

NA

c. What targeted strategies and interventions are in place to support ELLs who are currently off-track to graduate in four years?

NA

d. What specific strategies, engaging approaches, and interventions are implemented to support and retain students who are not on track to graduate within four years, ensuring they remain enrolled and are guided towards a successful graduation in the future?

NA

Part V: ML/ELL Instruction

Tier 1: Core Instruction

For additional information, refer to ML/ELL Instruction Professional Learning Module.

Tier 1 Core Instruction

1. How does your school provide ELLs with a high-quality academic experience that leads to deeper learning?

Our structures increase ELL students' English language production with peer interaction through our Think, Ink, Pair, Share Protocol, build on ELLs' background knowledge to increase comprehension, explicitly teach English language vocabulary and structures, increase writing opportunities aligned to the instruction provided, and increase ELL parent involvement. The structures that afford our scholars such high quality academic experiences are research based as we consistently consult our resources from the district and the research.

All classrooms share the same curriculum and instructional strategies utilizing the following programs: “HMH" and "Arriba" for Reading, Illustrative Math for Mathematics, NYCDOE Passport for Social Studies, and Amplify Science for Science. Our ILT emphasizes the utilization of all the same content and instructional strategies for ELL and ELLs with IEPs: This year our school's instructional focus for the ILT is academic discourse and specifically using content vocabulary accurately. In the past year the data collected by the DILT on their walk-throughs noted that students have been coached to use content vocabulary accurately and naturally in their discourse with guided prompts. Students demonstrate familiarity with talk moves and with content of discussion as demonstrated through their precise use of academic language during discussions. All strategies discussed in our ILT and imparted to the entire staff by the ILT are utilized with the general education, special education, Dual Language, and by our ENL teacher. Since the speaking and writing modalities continue to be lowest performing modalities on the NYSESLAT, our ILT will continue to coach teachers on strategies that are aligned to the needs of each subgroup that support students with using vocabulary in the context of the content accurately when speaking and writing. Teachers will explicitly teach linguistic skills that support independent word learning (i.e., morphological analysis, working with context clues, parsing complex sentences). to move students into comprehension, provide students with strategies to learn and acquire new vocabulary words, so that students can be weaned from being coached into using vocabulary words and can independently use vocabulary words.

2. How does your school’s leadership team ensure ELLs have access to core instruction/curriculum?

Our Instructional Leadership Team at 32K299 met several times a month and studied academic discourse, which was District 32's

systemwide focus. This year our school's instructional focus for the ILT is academic discourse and specifically using the protocol, Think, Ink, Pair, Share. This year the DILT noticed on their walk throughs that students have been taught to utilize strategies: -Think, Ink, Pair, Share •See, Think, Wonder •What Makes you Say That? •I Used to Think...Now I Think •Structured Thinking Routines with guided prompts
•Students demonstrate familiarity with discussion protocols and with content of discussion as demonstrated through their precise use of
academic language during discussions All strategies discussed in our ILT and imparted to the entire staff by the ILT are utilized with the
general education, special education and Dual Language classes and by ourENL teacher. The Instructional Leadership Team meets, engages in walk-throughs of classrooms and reflects upon what they see in classrooms. Teachers are asked to reflect on the following in their practices and instructional design forall students, inclusive of ENL Students: What is the purpose the breakout room? How are we leveraging the use of the breakout rooms? Are we being intentional about what students are doing in breakout rooms? Are there robust questions to guide discussion that provide students with opportunities to build on each others' ideas, use language, and build knowledge? (Instructional Priority Area 1--Strengthen Core Instruction) What knowledge do teachers have about students when planning for the breakout rooms? Are classroom leaders intentionally grouping students based on knowing them well? Which students work together well? Do we plan for different perspectives? (Instructional Priority Area 2--Know Every Student Well) How can we give students more time to process and make meaning for themselves? How can we plan for student-centered leaning and student autonomy? Since we have shifted from "talk" to discourse, are we allocated the appropriate amount of time for student to process the information and transfer it into writing. Let's remind teachers that this is not "turn and talk". This practice fosters in-depth shared conversations. How will teachers know when to use it (the protocol, breakout rooms) within a lesson? When teachers ask questions on the lowest level--Remember--the acquiring knowledge level, will student have deep discourse? Lower-level questions yield short answers. What questions should teachers craft that yield Meaning Making (understanding) or Transfer Level. What and how are teachers making connections to strengthen the core instruction, teachers, students, and curriculum? What and how will we measure our impact of the work? The stage for using academic discourse, discussion and imparting discussion protocols to teacher, student and the school community has been a process, which will continue in the upcoming school year for ALL students including ENLs.

3. Describe how core content is delivered in each program model. Specify language, and the instructional approaches and methods to foster language development and meet the demands of the Next Generation Learning Standards.

From Kindergarten to 5th Grade, at PS 299, dual language follows a self contained 50/50 model Spanish/ English. This simply means that our students will learn Spanish and English from the same teacher in the same classroom, on alternating days. The classrooms reflect both
languages equally. Instruction will be delivered in the target language of the day. All students' needs are meet and the use of their native
language on alternate days assures that we not only affirm biculturalism, but also support all students equally. Dual language allows all
students to transfer academic skills in the native language to a new language on any given day. All content is taught daily in the appropriate
language of the day.

4. What instructional strategies and grade-level materials, including technology, do teachers of MLs/ELLs use to provide access to grade level academic content areas and accelerate English language development? Include core content area and language materials with consideration to specific ELL subgroups.

a. ELLs with IEPs

Currently, we have 5 ELLs with an IEP. All students at 32K299 are working with the same NGLS, the same curriculum and instructional programs for every grade level at our school. Teachers and students in the general education classrooms, Dual Language classrooms, ICT classrooms and Self-Contained Special Education Classrooms share the same curriculum and instructional strategies utilizing the following programs: “HMH" and "Arriba" for Reading, Illustrative Math for Mathematics, NYCDOE Passport for Social Studies, and Amplify Science for Science. Our ILT emphasizes the utilization of all the same content and instructional strategies for ELL and ELLs with IEPs: This year our school's instructional focus for the ILT is academic discourse and specifically using content vocabulary accurately. In the past year the data collected by the DILT on their walk-throughs noted that students have been coached to use content vocabulary accurately and naturally in their discourse with guided prompts. Students demonstrate familiarity with talk moves and with content of discussion as demonstrated through their precise use of academic language during discussions. All strategies discussed in our ILT and imparted to the entire staff by the ILT are utilized with the general education, special education, Dual Language, and by our ENL teacher. Since the speaking and writing modalities continue to be lowest performing modalities on the NYSESLAT, our ILT will continue to coach teachers on strategies that are aligned to the needs of each subgroup that support students with using vocabulary in the context of the content accurately when speaking and writing. Teachers will explicitly teach linguistic skills that support independent word learning (i.e., morphological analysis, working with context clues, parsing complex sentences). to move students into comprehension, provide students with strategies to learn and acquire new vocabulary words, so that students can be weaned from being coached into using vocabulary words and can independently use vocabulary words.

b. SIFE

At 32K299, 1.25% of our ENL students are classified as SIFE.

We use MLS Diagnostic Tools for SIFE students to determine literacy levels in their home language to provide appropriate instruction for these students and provide students with the content, language, and literacy necessary for achieving academic progress and success. Students in our school will receive the appropriate number of minutes of ENL Stand Alone Instruction based on their level of proficiency: Entering (Beginning) students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand Alone (180 min) Newcomer students will receive services at the outset of their school career at the Thomas Warren Field school with an emphasis in their curriculum on BICS: Activities for developing BICS in newcomer MLL students should be fun-filled and familiarize students to their new environments school, city and country. Research shows, we are likely to remember something better when it is enjoyable and allows us to express ourselves. Some BICS development activities in our school may include, but not be limited to the following: Asking and giving directions, Making reservations, Answering calls, Making an appointment, Thanking others, Introducing someone, and Listening to audio tapes. Learning self-introduction is one of the most challenging lessons with for the beginning stages of learning a second language. The teacher has to gauge the comfort levels of students who are unfamiliar with the contexts in which self-introduction is required. It is imperative to teach them the occasions that call for introductions. They should be aware how sentences can change with various social situations. In many cultures, self-introduction is not a norm. The whole concept of English customs is unfamiliar to them. Once our students have mastered their BICS and have moved forward to the next level we also emphasize their learning of CALPS or Cognitive Academic Language Proficiency. Our school has developed robust partnerships with families and wrap-around services and activities for students. Our school has also gone to great lengths to create and maintain calm, welcoming environments within the school and ensure that staff are trained in culturally and linguistically responsive practice, as well as trauma-informed practice. Since our teachers are serving siblings from the same families, they also work closely together to reach families more effectively. Further, our school supports our Newcomers to be fully functional at school, by teaching them to read and write, complete, assignments and follow instructions, use school supplies, follow a school schedule, take the bus, interact with students from different cultures, and participate in

school activities. Our students will have access to Google classroom, Google translate and FlipGrid to support their academic needs technologically. Within each grade level, teachers will have access to the ENL supports provided within HMH, IM, Passport, and Amplify to provide further access to the content. Teachers will also have the support of the ENL teacher to know how to appropriately scaffold for students in response to ongoing data.

c. Newcomers

At 32K299, 93.8% of our ELL students are Newcomers, that is 76 of 81 students. The New York State Identification Test for English Language Learners (NYSITELL) is the only assessment instrument in New York State for measuring the English language proficiency of a student who may possibly be an ELL. The results of the NYSITELL are used to determine the type of instructional program into which the student must be placed. The NYSITELL is a secure test. The NYSITELL is administered once the parent/guardian completes the Home Language Identification Survey (HLIS) and an informal interview is conducted in the home/primary language and in English. The initial English language assessment using the NYSITELL is conducted only once at the time of the student's enrollment in a NYS school. The NYSITELL results will reveal whether or not the student should be classified as ELL. It will also tell you the level of the student's English proficiency in order to appropriately place the student and to plan instruction. Students in our school will receive the appropriate number of minutes of ENL Stand Alone Instruction based on their level of proficiency: Entering (Beginning) students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (180 min) Newcomer students will receive services at the outset of their school career at the Thomas Warren Field school with an emphasis in their curriculum on BICS: Activities for developing BICS in newcomer MLL students should be fun-filled and familiarize students to their new environments school, city and country. Research shows, we are likely to remember something better when it is enjoyable and allows us to express ourselves. Some BICS development activities in our school may include, but not be limited to the following: Asking and giving directions Making reservations Answering calls Making an appointment Thanking others Introducing someone Listening to audio tapes Learning self-introduction is one of the most challenging lessons with for the beginning stages of learning a second language. The teacher has to gauge the comfort levels of students who are unfamiliar with the contexts in which self introduction is required. It is imperative to teach them the occasions that call for introductions. They should be aware how sentences can change with various social situations. In many cultures, self-introduction is not a norm. The whole concept of English customs is unfamiliar to them. Once our students have mastered their BICS and have moved forward to the next level we also emphasize their learning of CALPS or Cognitive Academic Language Proficiency. All students at 32K299 are working with the same NGLS, the same curriculum and instructional programs for every grade level at our school. Teachers and students in the general education classrooms, Dual Language classrooms, ICT classrooms and Self-Contained Special Education Classrooms share the same curriculum and instructional strategies utilizing the following programs: “HMH" and "Arriba" for Reading, Illustrative Math for Mathematics, NYCDOE Passport for Social Studies, and Amplify Science for Science. Our ILT emphasizes the utilization of all the same content and instructional strategies for ELL and ELLs with IEPs: Our Instructional Leadership Team at 32K299 met several times a month and studied academic discourse. Our Instructional Leadership Team at 32K299 met several times a month and studied academic discourse, which was District 32's systemwide focus. This year our school's instructional focus for the ILT is academic discourse and specifically using content vocabulary accurately. This year the DILT noticed on their walk-throughs that students have been coached to use content vocabulary accurately and naturally in their discourse with guided prompts. •Students demonstrate familiarity with talk moves and with content of discussion as demonstrated through their precise use of academic language during discussions. All strategies discussed in our ILT and imparted to the entire staff by the ILT are utilized with the general education, special education, Dual Language, and by our ENL teacher.

d. Long Term ELLs

At 32K299 we currently do not have any long-term ELLS (7 or more years of service).

5. What supports does your school provide to ELLs with IEPs to achieve their IEP goals and attain English language proficiency within the least restrictive environment?

Currently, we have 6 ELLs with an IEP. At P.S 299 ELL's with IEP receive identical services as do their general education counterparts who are ENL or MLL students. All students are working with the same NGLS, the same curriculum and instructional programs for every grade level at our school. Teachers and students in the general education classrooms, Dual Language classrooms, ICT classrooms and Self-Contained Special Education Classrooms share the same curriculum and instructional strategies utilizing the following programs: "HMH" and "Arriba" for Reading, Illustrative Math for Mathematics, NYCDOE Passport for Social Studies, and Amplify Science for Science. Our ILT emphasizes the utilization of all the same content and instructional strategies for ELL and ELLs with IEPs: This year our school's instructional focus for the ILT is academic discourse and specifically using content vocabulary accurately. In the past year the data collected by the DILT on their walk-throughs noted that students have been coached to use content vocabulary accurately and naturally in their discourse with guided prompts. Students demonstrate familiarity with talk moves and with content of discussion as demonstrated through their precise use of academic language during discussions. All strategies discussed in our ILT and imparted to the entire staff by the ILT are utilized with the general education, special education, Dual Language, and by our ENL teacher. Since the speaking and writing modalities continue to be lowest performing modalities on the NYSESLAT, our ILT will continue to coach teachers on strategies that are aligned to the needs of each subgroup that support students with using vocabulary in the context of the content accurately when speaking and writing. Teachers will explicitly teach linguistic skills that support independent word learning (i.e., morphological analysis, working with context clues, parsing complex sentences). to move students into comprehension, provide students with strategies to learn and acquire new vocabulary words, so that students can be weaned from being coached into using vocabulary words and can independently use vocabulary words. Our ENL and MLL students at 32K299, with special needs receive identical services as do their general education counterparts who are ENL or MLL students. This means specifically, that the same assessment methodologies and RTI methodologies differentiated for students, based on their abilities and formative assessment findings, will be utilized for ENL or MLL students with IEPS. The student is in a dual language classroom, receiving differentiated instruction (based on their language ability) through a push-in model when practicable, and is serviced utilizing a pull-out method of SWD instruction.

6. How is home language assessed in each program model (DLBE, TBE, and ENL)?

At 32K299, home language assessment plays a critical role in understanding our students' language development and ensuring effective communication with their families. We utilize a variety of tools and strategies to assess home language proficiency and tailor instruction accordingly across our DBLE and ENL program model. Upon enrollment The Home Language Identification Survey (HLIS) is also used to gather insights from parents about their child's home language, enabling us to understand their linguistic background. This allows us to communicate effectively with families and better support their child's language needs.In our Dual Language Bilingual Education (DLBE) and ENL program, we assess students' proficiency in their home language to provide a balanced bilingual education. We use the Renaissance Star assessments to gauge proficiency in both the home language and English. Additionally, we administer math assessments in the students' home language to ensure accurate measurement of their academic skills without the barrier of language. This assessment data allows us to determine students' levels and ensure that they are receiving appropriate language support in both their native language and English.

Students and parents have been given access to the materials and texts online through a series of log-in codes and passwords that they can utilize at home for the following: "HMH" for Reading, Illustrative Math for Mathematics, NYCDOE Passport for Social Studies, and Amplify Science for Science. All programs are accessible online and parents have been given opportunities throughout the year to attend professional development sessions where this information is disseminated. In addition, parents and students have been provided with usernames and passwords

to log into iReady for math and English Language Arts practice. Our students are also assessed on Renaissance Star to gauge their proficiency level in their home language. Our school does provide sessions for parents to understand what instructional options are available at our school: General Education English Immersion classrooms, ICT English Immersion classrooms, both with ELL support or Dual Language instruction, which provides 50/50 instruction for both English and Spanish. Through our Spanish Dual Language classroom our school fosters a culture of bilingual/biculturalism by developing students' first and second language at our school. To measure our students' native language levels, our school administers Renaissance Star, assessments in "Arriba" and math assessments in the students' home language.

7. (For grades 6-12 only) What language electives are offered to MLs/ELLs? How is your school preparing MLs/ELLs to obtain the New York State Seal of Biliteracy?

N/A We are a K-5 school.

8. Describe systems and structures for supporting co-teaching and collaboration among teachers for all ELL program models available at your school (e.g. integrated co-teaching, Dual Language Bilingual Education teacher partnerships, etc.).

The school follows a heterogenous model (mixed proficiency levels on the same grade). The program, which fully aligns to the Next Generation Standards (NGLS), provides an appropriate balance of literacy and informational text, and aima to facilitate comprehension of the four basic language skills: listening, speaking, reading, and writing. students are grouped by grade with different proficiency levels. Our our school, students are served by grade and by class in most instances. In instances where there is self contained Special Education class housing of ENL students, the Special Education students are integrated with general education students. We use push-in and pull-out co-teaching models. Meetings are held once or twice a month and teachers collaborate daily to articulate the curriculum and instructional methodologies used such as content materialis, tiering of activities and written work. This school year the teacher will continue to push into classrooms, partner with teachers and turn key materials from district meetings to provide ENL support to continue in the classroom when the ENL teacher is partnering with other ENL students. Students are given ample opportunities to answer questions for comprehension monitoring, and to monitor language development as we continue to promote academic discourse through our "Think, Ink Pair, Share" (TIPS) Protocol, a District 32 academic discourse protocol. Students are given opportunities to audio record their responses to text based questions as an alternative method of monitoring reading comprehension on various technology platforms. Teachers and their peers also have discussions probing one another through questioning to be sure they are comprehending material. Students in our school will receive the appropriate number of minutes of ENL Stand Alone Instruction based on their level of proficiency: Entering (Beginning) students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (180 min) Emerging (Low Intermediate) Students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 min) .5 unit of study.

9. Describe how your overall, annual professional learning plan ensures that all staff – including administrators, teachers and -non-pedagogical staff – incorporates learning specifically related to the academic and social emotional needs of MLs/ELLs. Professional learning topics might include co-teaching strategies, or integrating language and content instruction.

Our school's instructional focus for the ILT is on linguistic skills that support independent word learning and taught explicitly (i.e., morphological analysis, working with context clues, parsing complex sentences). to move students into comprehension, provide students with strategies to learn and acquire new vocabulary words. Teachers will leverage the TIPS protocol, in which students demonstrate familiarity with talk moves and with content in discussion as demonstrated through their precise use of academic language in discourse and in writing. All strategies discussed in our ILT and imparted to the entire staff by the ILT are utilized with the general education, special education, Dual Language, and by our ENL teacher. The Instructional Leadership Team meets, engages in walk-throughs of classrooms and reflects upon what they see in classrooms. Teachers will focus on linguistic skills to move students into comprehension by providing students with strategies to independently learn and acquire new vocabulary words. Teachers were also asked to engage in their own lessons before delivering the lesson to their students so that they become familiar with the linguistic demands. In doing so, teachers ensured that we embed the concept/skill in the lesson's learning tasks and included the needed scaffolds to ensure our ENL students can access both content and language objectives.

Throughout the school year, teachers also engaged in professional learning facilitated by Teresa Vera around equity and cultural sensitivity for our ELLs and their experiences, as well as strategies teachers could employ to support their students. Teachers will also learn to distinguish between disabilities vs. language limitations and how to use MTSS to support students in the learning process.
Our school year launched with a professional learning session addressing equity and how it lives in our school system. Our teachers continue to review and disseminate the NYCDOE framework for Culturally Responsive Education, as it is embedded in our professional learning sessions. The framework continues to drive our school's mission to be inclusive and serve all students educationally and to be sensitive to all cultures. Teachers consider: What does it mean to be culturally responsive? How are CRSE, racial identity formation, and student academic success interconnected? How do CRSE teaching practices influence historically marginalized students' learning capacity, school engagement, and academic outcomes?

10. Describe your school's professional development plan in order to meet the mandated Continuing Teacher and Leader Education (CTLE) ELL specific hours for certification renewal as per CR Part 154 (15% of total hours for all certified faculty [holders of professional certificates in the classroom teaching service, educational leadership service and level III teaching assistant certificate holders] and 50% of total hours for bilingual education/ENL teachers receive ELL-specific professional development).

Our ENL teacher engaged in professional learning facilitated by Teresa Vera around cultural sensitivity for our ELLs and their experiences, supports and strategies for our ENL students during push-in, pull-out and during co-teaching, scaffolds specific to our ENLs, as well as distinguishing between disabilities vs. language limitations and how to use MTSS to support students in the learning process. . Our ENL teacher then turns keys to our teachers during our monthly MLL meetings. Teachers collaborate on metalinguistic approaches and to language comprehension which encourages students to break apart the words and make connections to their home language.
Teachers also engaged in professional learning focusing on metalinguistic approaches to language comprehension, which encouraged
students to break apart the word and make connections to their native language. Teachers also collaborate on crafting learning intentions and language objectives, as well as ENL supports in their lessons. Considerations included the following: How can we embed the concept/skill in the lesson's learning tasks? What are the needed scaffolds to ensure your ENL students can access both content and language objectives? Teachers were also asked to engage in their own lessons before delivering the lesson to their students so that they become familiar with the linguistic demands. Afterwards, teachers would compose a language objective that will support student output in

writing or speaking, and student learning. The teachers who engaged in this work will infuse the concepts in our work in ILT. In addition to learning about scaffolds that are specific to ENLs, our Dual Language teachers will be empowered with knowing how to explicitly teach linguistic skills that support independent word learning (i.e., morphological analysis, working with context clues, parsing complex sentences). to move students into comprehension, provide students with strategies to learn and acquire new vocabulary words.
Our school year launched with a professional learning session addressing equity and how it lives in our school system. Our teachers continue to review and disseminate the NYCDOE framework for Culturally Responsive Education, as it is embedded in our professional learning sessions. The framework continues to drive our school's mission to be inclusive and serve all students educationally and to be sensitive to all cultures. Teachers consider: What does it mean to be culturally responsive? How are CRSE, racial identity formation, and student academic success interconnected? How do CRSE teaching practices influence historically marginalized students' learning capacity, school engagement, and academic outcomes?

Assessment

SCREENERS

11. Which screening assessments (e.g.iReady, MAP Growth, Acadience, or STAR Reading) does your school use to guide instructional planning for your ELLs?

At 32K299 we you iReady, Acadience, NYSITELL, NYSESLAT, Renaissance Star Assessment. Data is then utilized to delineate instructional strategies as follows: We will be looking at specific indicators, standard focus, and application of vocabulary strategies, reviewed with our teachers by the instructional leadership team. The ILT will reflect on the impact and make adjustments with whether the delivery of the explicit teach, and review if needs to be modified, the strategy needs to be modified, or if we are ready to move forward with instruction.
The results of our NYSITELL and NYSESLAT are used to determine the type of instructional program into which students must be placed. The NYSITELL also provides us insight on if the student is classified as an ELL and student will be assigned the appropriate mandated minutes based on the New York City standards. In further detail: As a school, we will be using Renaissance Star to assess our students in their home language. MLL students, including ENLs will receive all exams that other students in our school receive, except for ENL students, who were admitted less than one year (Newcomers/immigrants) with less than 12 months in the NYCDOE school system, for ELA exams. All students at 32K299 will be tested utilizing the following: I-Ready in ELA and mathematics diagnostics three times throughout the year. Teachers will maintain classroom formative writing assignments and formative mathematics tests and quizzes in student folders. In addition, our ENL students will be tested utilizing the NYSESLAT and NYSITELL as mandated and appropriate on a case-by-case basis. Exams in reading for ENL students in the Dual Language classrooms include those provided by "Arriba", which tests reading skills in the Spanish native language, just as its companion English reading program, "HMH," does in English. In this way teachers are able to measure student comprehension skills in the ENL's first language. For students not in the ENL program, and are immersed in the general education English only classrooms, upon parent choice, the aforementioned exams are utilized and students will also be assessed annually utilizing a combination of the NYSITEL and NYSESLAT exams. The purpose of the NYSITELL is to assess the English language level of new students whose home or primary language is other than English. Your child’s score on the NYSITELL (Entering, Emerging, Transitioning, Expanding, or Commanding) will determine if he or she is entitled to receive English Language Learner (ELL) services and will determine the level of English language support. The results will also help teachers plan the best program for your child based on his or her strengths and needs in listening, speaking, reading, and writing in English. The NYSESLAT is given to all students who are identified as English Language Learners (ELLs) and Multilingual Learners (MLs) by the New York State Identification Test for English Language Learners (NYSITELL). The purpose of the NYSESLAT is to annually assess the English language proficiency level of ELLs and MLs enrolled in Grades K–12 in New York State schools.

Data will be utilized to delineate instructional strategies as follows: We will be looking at specific indicators, i.e., standard(s) of focus and application of vocabulary strategies, reviewed with our teachers by the instructional leadership team. The ILT will reflect on the impact and make adjustments with whether the delivery of the explicit teach needs to be modified, the strategy needs to be modified, or if we are ready to move on to the next vocabulary strategy.

Further, the results of the NYSITELL are used to determine the type of instructional program into which the student must be placed. The NYSITELL results will reveal whether or not the student should be classified as ELL. It will also

tell you the level of the student's English proficiency in order to appropriately place the student and to plan instruction. Students in our school will receive the appropriate number of minutes of ENL Stand Alone Instruction based on their level of proficiency: Entering (Beginning) students: will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (180 min) Newcomer students will receive services at the outset of their school career at the Thomas Warren Field school with an emphasis in their curriculum on BICS: Strategies for developing BICS in newcomer MLL students should be fun-filled and familiarize students to their new environments school, city and country. Research shows, we are likely to remember something better when it is enjoyable and allows us to express ourselves. Some BICS development activities in our school may include, but not be limited to the following: Asking and giving directions Making reservations Answering calls Making an appointment Thanking others Introducing someone Listening to audio tapes Learning self-introduction is one of the most challenging lessons with for the beginning stages of learning a second language. The teacher has to gauge the comfort levels of students who are unfamiliar with the contexts in which self-introduction is required. It is imperative to teach them the occasions that call for introductions. They should be aware how sentences can change with various social situations. In many cultures, self-introduction is not a norm. The whole concept of English customs is unfamiliar to them. In addition, teachers planning for Newcomers will create the appropriate scaffolds for students using TPR, language experience approach, small group instruction, ENL push-in, and low affective filters to impart to students content information. When the filter is low: Students become risk-takers as they manipulate language Students feel safe in making mistakes without judgment and constant corrections Students feel empowered to interact with their peers and seek out models of language Students feel safe in answering questions and sharing their thinking with peers and the teacher. Teachers learn how to lower the affective filter by: Trying not to overemphasize error correction. In other words, instead of correcting the student; model the correct use of the language in a supportive stance. Utilizing the ELL teacher notes laid out within the teacher's manuals to scaffold your instruction. Creating a policy in the classroom that prohibits students from making fun of peers or laughing at errors. This is directly supported by the social learning goals weaved throughout every lesson. This sets the expectations for how students work together as they collaborate. As students share and reflect at the end of each lesson, teachers share their observations and facilitate the brainstorming of solutions to challenges Building a strong literacy community and setting up a safe place for learning. Equipping strong language models with strategies to support their language learner peers. Consistently encouraging risk-taking and reminding students that your classroom is a safe place to learn. Setting individual goals with students and celebrating growth! Once our students have mastered their BICS and have moved forward to the next level we also emphasize their learning of CALPS or Cognitive Academic Language Proficiency . We have 2% of our students who are former ELLs, that is 4 students. Our Commanding (Proficient--Former ELLs) will continue to receive services for an additional two years. These students will receive .5 unit of study per week. Generally they will receive push-in services provided by our ENL teacher. The teachers of our MLL learners, whether in the general education setting, special education setting or as MLL push-in will use various STRATEGIES FOR BUILDING STUDENTS' ACADEMIC LANGUAGE and to assist MLL/ELL students in gaining greater comprehension of content: We Encourage students to read diverse texts: Reading and then thinking and talking about different genres is a robust sequence (think, ink, pair, share) for learning academic language. Teachers of our MLL/former ENL students also Introduce summary frames: Summarizing is a simple and fail-safe approach to academic language activities. Students read a section of text to themselves before verbally summarizing the passage to a partner. Alternatively, learners can complete sentence frames, or guides for summarization. Some examples: If the main idea of the paragraph is problem/solution, use the frame: "_____ wanted _____, but _____, so _____." If the main idea of the paragraph is cause/effect, use the frame: "_____ happens because _____." 3. Help students translate from academic to social language (and back): Model how to say something in a more academic way or how to paraphrase academic texts into more conversational language. Provide students with a difficult expository passage, like the inventor's paradox, and have teams reinterpret the text using everyday language. We Have students complete scripts of academic routines: Some discourse routines seem obvious to adults, but are more complex for young learners unless we provide scaffolding, like these speech examples: "The topic of my presentation is _____." and/or "In the first part, I give a few basic definitions. In the next section, I will explain _____. In part three, I am going to show _____." In addition, teachers will dynamically introduce academic vocabulary: Repeated encounters with a word in various authentic contexts can help students internalize the definition. They also benefit when teachers make their first encounters with vocabulary engaging, by using the word in a funny or personal story. Teachers of our former ENL students help by diagramming similarities and differences:

When students generate a list of similarities and differences between words and complete a bubble map, in which they compare and contrast moths and butterflies, they are working with one of Robert Marzano's high-yield instructional strategies. Students' use of thinking maps will become more sophisticated through coaching from the teacher. Using multiple maps will help deepen students' thinking and strengthen their comprehension and knowledge about a topic by layering thought processes in a variety of ways. Thinking maps enable students to "move" their thinking from one thought process to another. In other words, student thinking is made visible as it moves from brainstorming and disaggregating information to analyzing information by organizing details and comparing and contrasting information. Students then use their thinking to make informed decisions and valid inferences. Further, we emphasize former ENL student writing with a transition handouts: Formal academic writing challenges all students. Before students write, we give them a handout of transitions. Model where transitions fit and which describe how they help the reader. Test readiness: We teach key words for understanding standardized test prompts that help students understand prompts and perform well on standardized tests. Frequently assessed standards on the New York State English Language Arts Assessment will be focused on during the year. The pacing of standards R2-R9 will be strategic throughout the academic year. Texts will be carefully selected from the curriculum to ensure that students are making a meaningful connection with the focal concepts and skills of the unit. Previously taught standards will be methodically spiraling back into new units of study so that student learning is continuously reinforced. Receiving mandated units 90 minutes per week in accordance with the New York State Commissioner's Regulation (CR) Part 154 Units of Study and students' English language proficiency levels, teacher plans for home language support to enrich comprehension of content, scaffolding and multi entry points, culturally responsive pedagogy.

12. For all grades, list and describe your targeted intervention programs for ELLs in ELA, Math, and other core content areas (specify ELL subgroups targeted). Include the language(s) in which the intervention services are offered.

Our ENL students receive a combination of services from the ENL teacher including push-in and pull-out instruction based on State mandates. Teachers utilize the following formative assessments to tier students for small group instruction utilizing an RTI type model: IReady in ELA and mathematics. Teachers will maintain classroom formative writing assignments and formative mathematics tests and quizzes in student folders. In addition, our ENL students will be tested utilizing the NYSESLAT and NYSITELL as mandated and appropriate on a case-by-case basis. Our MLL students, including ENLs will receive all exams that other students in our school receive, except for ENL students, who were admitted less than one year (Newcomers/immigrants) with less than 12 months in the NYCDOE school system, for ELA exams. All students at 32K299 will be tested utilizing the following: I-Ready in ELA and mathematics diagnostics three times throughout the year. Classroom formative writing assignments and formative mathematics tests and quizzes to be maintained by teachers in student folders. In addition, our ENL students will be tested utilizing the NYSESLAT and NYSITELL as mandated and appropriate on a case-by-case basis. This formative data teachers collect is utilized in a fashion as mandated by RTI protocols to do the following: Students in our classrooms, including ENL students, will fall into the following tiers: In some schools about 80 percent of students and the most commonly used teaching strategies and interventions are found in the base section of the RTI pyramid. This section is called Tier 1 or the primary level of prevention (of failure). Tier 2 or the secondary level of prevention is in the middle section of the pyramid. Here, the interventions become more intensive because the students are considered to be at a greater risk. In some schools, about 15 percent of students will be in this section at any given time. Tier 1 students who haven't responded favorably to tier one strategies are given small group instruction, in addition to the core curriculum. This involves more intentional teaching strategies that pinpoint exactly what students need to learn and that specifically teach them accordingly. In Tier 2 teaching strategies are more specific to each subject in tier two. Most include some form of direct instruction, which breaks information into shorter segments or steps and targets learning to simplify instruction. Students are also provided with more opportunities to practice what they have learned. The pace of the direct instruction in tier two is slower and time is spent showing students a knowledge or skill, as well as practicing it, to build a firm foundation. If the student is successful after this intervention, they

return to tier one. If they are not successful, they will continue working in tier two until they have reached their next zone of proximal development. The RTI model of teaching recommends that only about 5 percent of students are in Tier 3, or the tertiary level of prevention, at the top of the pyramid. Here, students receive the most intense and consistent interventions. Although Section 504 (part of the Rehabilitation Act of 1973 that prohibits discrimination based on disability) and special education are both associated with this tier, not all children in this tierare in a special education program. In tier three, the teacher uses strategies that are designed to affect the way in which each student processes information. For example, the teacher may model how to think through a problem and ask students to think aloud as they work through the problem as well. Instruction is geared toward students who have difficulty or a learning disability in a core subject area; the teacher provides more explicit and systematic instruction, helps students work on memory skills, teaches them to ask and answer questions about what they are learning and provides them with many opportunities to give feedback. If the student is successful after this intensive intervention, they return to tier two. If they are not successful, they may be screened for special education if they have not been screened already. Formative assessments drive the RTI process and will be utilized at intervals such as the ones detailed above by teachers at their own discretion.

13. For all grades, describe how your school uses data to guide instruction for ELLs within a Multi-Tiered System of Supports (MTSS). Refer to the Instructional Leadership Tool for MLs and ELLs and MTSS Guide for MLs and ELLs to help in the development and implementation of your school's plan for MLs/ELLs.

Our school looks at where most of our students are in regards to their performance on benchmark assessments. Tier 1 becomes the tier
where most of our students perform, even if that might be below grade level. Students that compose ourTier 2 receive small group
instruction and students that compose our Tier 3 will receive intensive instruction. Data collected from daily instruction will be used to inform our tiers of students in the interim.

FORMATIVE

14. Which formative assessments (e.g. NYC performance Tasks, ELL Periodic Assessment, HLA Assessment, DRA, teacher-created assessments, etc.) are used to inform and drive instruction?

As a school, we will be using Renaissance Star to assess our students in their home language. MLL students, including ENLs will receive all exams that other students in our school receive, except for ENL students, who were admitted less than one year (Newcomers/immigrants) with less than 12 months in the NYCDOE school system, for ELA exams. All students at 32K299 will be tested utilizing the following: I-Ready in ELA and mathematics diagnostics three times throughout the year. Teachers will maintain classroom formative writing assignments and formative mathematics tests and quizzes in student folders. In addition, our ENL students will be tested utilizing the NYSESLAT and NYSITELL as mandated and appropriate on a case-by-case basis. Exams in reading for ENL students in the Dual Language classrooms include those provided by "Arriba", which tests reading skills in the Spanish native language, just as its companion English reading program, "HMH," does in English. In this way teachers are able to measure student comprehension skills in the ENL's first language. For students not in the ENL program, and are immersed in the general education English only classrooms, upon parent choice, the aforementioned exams are utilized and students will also be assessed annually utilizing a combination of the NYSITEL and NYSESLAT exams. The purpose of the NYSITELL is to assess the English language level of new students whose home or primary language is other than English. Your child's score on the NYSITELL (Entering, Emerging, Transitioning, Expanding, or Commanding) will determine if he or she is entitled to receive English Language Learner (ELL) services and will determine the level of

English language support. The results will also help teachers plan the best program for your child based on his or her strengths and needs in listening, speaking, reading, and writing in English. The NYSESLAT is given to all students who are identified as English Language Learners (ELLs) and Multilingual Learners (MLs) by the New York State Identification Test for English Language Learners (NYSITELL). The purpose of the NYSESLAT is to annually assess the English language proficiency level of ELLs and MLs enrolled in Grades K–12 in New York State schools and to provide the mandated service for our students.

At our school, we will conduct end of module HMH assessments,HMH writing assignments, I-Ready math and reading diagnostics, mathematic end of unit assessments. Teachers will take notes on students challenges with homework assignments, and on exit assignments. In additionation teachers will take notes during small group, RTI based on individual instruction on a case-by-case basis. Student portfolios , or work folders will be maintained to documents students needs and progress throughout the school year.

15. How do you ensure that MLs/ELLs are appropriately evaluated in their home languages throughout the year?

As a school, we will be using Renaissance Star to assess our students in their home language three times within the school tear, one time at the Beginning, Middle and End of year to measure growth throughout the year. We will keep close lines of communication with our district to ensure that our teachers will receive adequate training in the program. We also assess our Spanish speakers in their home language in iReady Mathematics.
The majority of our ENL/MLs are speakers of Spanish for these student we utilize the following programs: Exams in reading for ENL students in the Dual Language classrooms include those provided by "Arriba", which tests reading skills in the Spanish native language, just as its companion English reading program, "HMH," does in English. In this way teachers are able to measure student comprehension skills in the ENL's first language throughout the school year. For students not in the ENL program, and are immersed in the general education English only classrooms, upon parent choice, the aforementioned exams are utilized and students will also be assessed annually utilizing a combination of the NYSITELL and NYSESLAT exams. The purpose of the NYSITELL is to assess the English language level of new students whose home or primary language is other than English. Your child's score on the NYSITELL (Entering, Emerging, Transitioning, Expanding, or Commanding) will determine if he or she is entitled to receive English Language Learner (ELL) services and will determine the level of English language support. The results will also help teachers plan the best program for your child based on his or her strengths and needs in listening, speaking, reading, and writing in English. The NYSESLAT is given to all students who are identified as English Language Learners (ELLs) and Multilingual Learners (MLs) by the New York State Identification Test forEnglish Language Learners (NYSITELL). The purpose of the NYSESLAT is to annually assess the English language proficiency level of ELLs and MLs enrolled in Grades K–12 in New York State schools. The test gives the state, schools, parents, and teachers important information about the English language development of ELLs and MLs. Both the NYSESLAT an NYSITELL are utilized at 32K299 as data sources to triangulate data that will form student instruction on a student-by-student, case-by-case basis as practicable. Our school believes that ELL students bring a great amount of knowledge from home, their home language resources and we ensure in our Dual Language program that we utilize the Spanish Language for learning academic skills and so that Dual Language learners can transfer those skills to accomplish the goals of our program, to be bilingual, biliterate and bicultural.

SUMMATIVE

16. Which summative assessments (e.g. NYSESLAT, ELA, Math, Regents, etc.) are used to evaluate the effectiveness of your ML/ELL programs and how does it inform instructional design and curricular decisions? (Refer to the ELL Data Analysis Tool).

Our students in grades 3 to 5 have always been encouraged to take the New York State ELA and Mathematics exams. Students who opted out, or were not present for the exams, and who were not able to take make-up tests, were always measured summatively through a combination of the following year end assessments: Our MLL students, including ENLs will receive all exams that other students in our school receive, with the exception of ENL students, who were admitted less than one year (Newcomers/immigrants) with less than 12 months in the NYCDOE school system, for ELA exams. All students at 32K299 will be tested utilizing the following: I-Ready in ELA and mathematics diagnostics three times throughout the year.

The results of the exams enable teachers to be more reflective about their practice by seeing where there was growth and where the areas of opportunity are. Teachers are then able to identify what in their practice supported the growth and then share that best practice with each other. Teachers are also able to identify what in their practice stunted growth and could make adjustments by collaborating with each other and seeking guidance from ILT members.

17. What is your NYSESLAT administration plan? How does your school ensure that all ELLs are tested with the NYSESLAT annually? Include the titles of the staff that will administer and score the assessment. Please describe your plan to ensure that all ELLs and former ELLs continue to receive mandated instruction during the testing period.

The NYSESLAT administration is conducted by our ENL teacher and classroom teachers after being trained on administration and scoring procedures. Our ENL teacher creates a schedule notifying all staff on dates our ENL students will be assessed, whom they will be assessed by, and where they will be taking the assessment. Our ENL teachers send parents a testing schedule and Parent Notification letters. During the testing periods ENL teachers changes the push-in and pull-out schedule schedule to continue providing mandated services for ELLs.
ELL services will be provided primarily through pull out and will combine groups of ELL students during this period to meet the State mandated minutes.

Testing team: Trisha Silva, Destine Navarrete, Giovanna Jara, Lucero Oretega Arellano, Milagros Matias, Alexa Vasquez, and Stephanie Rengifo.

18. How does your school ensure that current and former ELLs receive necessary accommodations for state assessments, including the Specialized High School Admissions Test (SHSAT) if applicable?

Our school ensures that current and former ELLs receive necessary accommodations for state assessments by consulting the state mandates. ENLs, who were admitted less than one year (Newcomers/immigrants) with less than 12 months in the NYCDOE school system, will be exempt from the ELA State Assessment. Otherwise, all ELLs will take the ELA State Assessment in a separate location.

For the Math State Assessment and the Science State Assessment, when applicable, ENL students will receive a translated edition of the test booklet, bilingual dictionaries/glossaries, oral translation, ability to respond in native language, and a separate location.

All ELLs with IEPs will receive the accommodations listed on their IEPs.

Part VI: Family Partnership

Family Partnership

Required Meetings Under CR Part 154

Describe your schools' plan to ensure families of ELLs are provided with the required meetings specified below as per CR Part 154. Include:

- Topics discussed during these meetings
- How your school ensures families receive necessary translation/interpretation supports to meaningfully engage in the meetings
- How your school schedules these meetings to facilitate attendance, and how your school maintains evidence of these meetings as required per the NYC DOE Policy and Reference Guide for MLs/ELLs.

a. ELL Program Orientation to inform parents/guardians of newly identified ELLs of ELL program options, including the program goals and requirements for all three ML/ELL program models: Dual Language Bilingual Education, Transitional Bilingual Education and English as a New Language regardless of whether the school currently has either type of bilingual program and provide a high-quality orientation section on the Next Generation Learning Standards, assessments, and school expectations for English Language Learners.

Newly identified ELL parents/guardians are invited to a program orientation in person with the ENL provider and 4th-grade bilingual teacher to facilitate interpretation after administering HLIS and NYSITELL at the beginning of the year and throughout the year for newly identified ELLs. Documentation of outreach is taken before the orientation date and parent/guardian attendance is taken at the beginning of orientation. All attendance and agendas will be housed in the main office. At the orientation, the parents/guardians receive information about their program options at PS 299 in their home language. Parents/guardians are encouraged to view the New York State Department of Education Parent Orientation video: ELL and ML Program in New York. Parents/ guardians are informed of the school's Dual Language program and its 50/50 model in addition to English Next Language instruction. Parents are also informed about the NYSELAT administered in the spring including the goals of performance levels. They are also informed of the required minutes for each level, they are provided the Parents Bill of Rights for New York State English Language Learners and Multilingual Learners and ELL Parents Hotline in their preferred language.

b. Annual Individual Meeting to discuss goals of the program, language development progress, language proficiency assessment results, and language development needs in all content areas. Note: this meeting is separate from and does not include the mandated ELL program orientation meeting and DOE-scheduled parent-teacher conferences.

At 32K299, we invite and encourge our parents/guardians to attend annual individual and whole group meetings of English as a New Language (ENL) students. These meetings are held in-person or remotely during teacher office hours on Tuesday from 2:20-3:00 PM. Interpretation services are provided by bilingual staff to ensure clear communication. During the meeting, the ENL teacher and bilingual classroom teacher discuss NYSITELL and NYSESLAT language profeincy assessment results, progress in language development, goals for the year in all content areas and student growth, and next steps in all content areas. Teachers discuss with parents the language and literacy development strategies they can use at home, and provide parents/guardians with additional resources and additional questions. If the student is in the Dual Language program the teachers will share with the parents/guardians the Spanish assessment results as well.

Family Engagement

2. Beyond the mandated meetings and orientations, describe how your school:
a. Ensures families receive all school communications and documents in the language they best understand. How are families able to respond or initiate communications in languages other than English?

We will contact parents/guardians via their prefer method of communication and in their preferred language based on the HLIS and BIOUS. The schools parent coordinator and other supporting staff will help families keep their contact information updated. We will ensure that families know how to contact the school by providing families with our direct telephone number, email addresses to specific staff members, as well as access to our social media profiles, ClassDojo and our APP. We will ensure that all information posted will be translated. We will also find out how families prefer to communicate, i.e., phone calls, texts, social media, email, letter paper, etc. We will not only translate all shared information in our families' preferred language, but we also share information about families' rights to translated information. Our school has bilingual staff who can help communicate with ELL families, including interpreters, family liaisons, and paraprofessionals. These staff members can also provide invaluable information and insights into families' cultures or home situations. We will find out when families prefer to communicate. We will also reflect on our practices by asking families what has worked (or not) so far.

b. Develops activities that foster empowerment for families of MLs/ELLs. Include how your school determines the needs of your community.

In addition parents/guardians are invited to the activities that are done at PS 299 annually to encourage and foster empowerment for our families as follows:
1. School PTA Meeting (translated flyers are posted in ClassDojo, School APP, printed and sent home, printed and extra copies are left in the main office and by the security desk prior to meetings, scheduled on the school calendar prior to meetings, interpreters during meetings) 2. Parents Survey about school's activities (Translated)
3. Midday Mingle with Principal (scheduled on the school calendar prior to meetings, translated flyer posted in ClassDojo, interpreters during meetings)
4. Various Town Hall meetings with-in School, DOE and Community Board 4 as well.(translated flyers are posted in ClassDojo, School APP, printed and sent home, printed and extra copies are left in the main office and by the security desk prior to meetings, scheduled on the school calendar prior to meetings, interpreters during meetings)
5. School Leadership Team Monthly meetings -Open to all families. (translated flyers are posted in ClassDojo, School APP, printed and sent home, printed and extra copies are left in the main office and by the security desk prior to meetings, scheduled on the school calendar prior to meetings, interpreters during meetings) For the 2023-2024 school year, we have over 30 adults enrolled for the ESL program that will be taking place at our school. We have workshops for families of MLs/ELLs that overview how the curriculum is implemented in the DL and TBE classroom. We have workshops that overview grade expectations by speaking to the Next Generation Learning Standards and the New York State Assessments in ELA and Math. We have workshops that overview strategies that empower our readers and mathematicians to become masters of the content.

c. Ensures families of MLs/ELLs are aware of family leadership opportunities (such as Parent Association (PA), School Leadership Team (SLT), Community Education Council (CEC), etc.)

Parents/guardians are informed via multiple platforms of the leadership opportunities available to all families such as PTA, SLT and CEC via translated flyers posted in ClassDojo, School APP and printed translated flyers sent home.

3. What culturally and linguistically responsive partnerships do you currently have that support the needs of your school community?

We collaborate with The Committee for Hispanic Children and Families to network within our community and to provide supplies for our students. We also collaborate with Teresa Vera and Wei-Ee Cheng from District 32 to support our teachers' knowledge in content and pedagogy to best meet the needs of our ELL students. Dual Language teachers and ENL teacher are provided with opportunities of professional development and workshops within the school district and other providers outside our school district.

Part VII: Additional Information

Additional Information

Include any additional information that is relevant to your LAP and would further explain and highlight how your school supports MLs/ELLs. This form does not allow graphics and charts to be pasted.

In addition to supporting ELLs and MLs in the classroom through our dual language and ENL programs. We provide MLs/ELLs with the opportunity to be members of the schools English and/or Spanish Debate Teams. Debate supports students oral communication, reading fluency and provides them with the ability of public speaking while strengthening both target languages.

Part VIII: ELL Identification Attestation and Principal Certification

Identification Plan

For additional information, refer to ELL Identification Attestation Professional Learning Module.

1. What are the titles of the members of your ELL identification team? Note: Members of the ELL identification team must be pedagogues.

Our ELL identification team:

ENL Teacher: Trisha Silva
Bilingual teacher: Milagros Matias

2. Describe the structures and process in place for identification of ELLs year-round as required by the NYC DOE Policy & Reference Guide for MLs/ELLs, including your school's identification plan for any incoming students with an Individualized Education Plan (IEP). Include:

- **How your school proactively plans for the ELL identification process so that it does not interrupt the provision of mandated ENL and/or bilingual instruction to current, former and potential ELLs,**
- **Who is responsible for each step of the ELL identification process, and**
- **School's plan for ensuring ELLs and former ELLs will continue to receive mandated instruction.**

After registration, parents/guardians are provided with the Home Language Identification Survey (HLIS) and is completed by the parents/guardian. Based on our ELL identification schedule, a qualified personnel will determine if a language other than English is spoken at home. A qualified personal means: A New York certified bilingual or English to Speaker of Other Languages(ESOL) teacher who is fluent in the home language of the student, parent/guardian or used a qualified interpreter /translator of the language or mode of communication the students, parents /guardian best understands. After the HLIS is completed, the ENL teacher reviews the results of the HLIS and interviews students enrolled to determine NYSITELL eligibility. Parent Guardian, welcomes new admittance to school, gives them orientation about the schedules, afterschool programs, and transportation. The Language Proficiency Team (LPT) determines NYSITELL eligibility if a student has an IEP and completed the NYSITELL determination from. The ENL teacher administers the NYSITELL to eligible students and sends parents notifications of the NYSITELL results and entitlement/non-entitlement of services in their preferred home language.The ENL teacher administers the Spanish Language Assessment Battery (Spanish LAB) to newly identified ELLs whose home language is Spanish. ENLteacher conducts in-person or virtual Parent Orientation and completion of Parent Survey and Program Agreement form. The ENL teacher sends a placement letter to notify parents about the placement of students into an ELL program based on NYSITELL results. Additionally, the ENL teacher and 4th grade bilingual teacher gives presentations sharing to families of the students' families language development programs that are

offered, and other language programs that are offered within the community. The bilingual staff will also provide an orientation on what to expect in the upcoming school-year related to curriculum, instruction, and pupil personnel services available. Students will then be programmed based on parents choice As per State mandates all ENL students in our general education classrooms: Entering will receive 2 units of study (360 minutes) of instruction per week minimum and 1 unit of student ENL Stand-Alone (180 minutes) Emerging students: will receive 2 units of student (360 minutes) of instruction per week minimum and 1 unit of student ENL Stand-Alone (90 minutes), .5 unit of study. Transitioning students: will receive 1 unit of student (180 minutes) of instruction per week minimum and 1 unit of study ENL Stand-Alone (90 minutes) .5 unit of study. Expanding students: will receive 2 units of student (360 minutes) of instruction per weel minimum and 1 unit of student ENL Stand-Alone (90 minutes). Commanding (Proficient- former ELLs) will continue to to receive services for an additional two years. These students will receive .5 unit of study per week.

Principal Certification

In accordance with New York State's Commissioner's Regulations Part 154 as outlined and implemented in the NYC DOE Policy and Reference Guide for MLs/ELLs, I, attest that the following ELL identification procedures and activities are adhered to, and staff are trained on the items listed below.

- The ELL Identification Process is completed for each student within 10 school days of enrollment (20 school days for students entering with IEPs).
- Enrollment status of each newly admitted student is determined:
  a. If a student has been in New York State public schools within the past 2 years, our school contacts the previous school to obtain ELL status, relevant assessment scores, and English language proficiency level.
  b. If a student has been outside of New York State public schools for more than 2 years, our school administers the ELL Identification Process as part of reentry.

- The home language of the student is determined by a trained and licensed pedagogue.
  a. The parent completes the Home Language Identification Survey in the parent's preferred language; translation services are provided by a bilingual staff member, the DOE's over-the-phone translation services, or an alternative, high quality translation service.

- An interview with parents and students in English and the home language is conducted. This includes reviewing documents, prior assessments, and academic experience. An assessment of the student's abilities and/or work samples determines the student's literacy and math level in his/her home language.
- Eligibility for the NYSITELL is determined.
  a. If the newly enrolled student is entering with an IEP, the school's Language Proficiency Team (LPT) recommends eligibility to the principal, who obtains final approval from the superintendent.

- Students are administered the NYSITELL, if eligible.
- Notification letters are sent to the parent/guardian in their preferred language.
  a. Parent is notified of their child's ELL status and results of the NYSITELL.

- If the student is identified as an ELL and the student's home language is Spanish, the student is administered the Spanish Language Assessment Battery (LAB).
- Student with Interrupted/Inconsistent Formal Education (SIFE) status is determined using New York State's resources.
- If a student is a newly identified ELL, the parent is invited to the parent orientation meeting.
  a. The parent orientation meeting provides parents/guardians with an explanation of each ELL program model offered in NYC; the parent video describing the three programs is presented (in parent's preferred language); parents/guardians are encouraged to ask questions so that they are

informed about all ELL programs; translation and interpretation services are provided throughout the meeting.

- ELL is placed in the ELL program that the parent selected.
  a. If the bilingual program that the parent selected is not available, the parent is offered a transfer to a school with that bilingual program in accordance with NYC DOE transfer policies.
  b. If the ELL remains in the school, the ELL is placed in English as a New Language and our school keeps track of parent selection so that when minimum thresholds are met, we can open the ELL program of choice.

- Parents are notified that they have 45 days to appeal the ELL status of their child (ELL Re-identification Process).
- If the ELL Re-identification Process is implemented for any student, the principal reviews the decision of any student whose ELL status was changed because of the ELL Re-identification Process within 6 to 12 months.
- Copies of documentation regarding ELL identification, including letters and parent notifications are kept in the students' cumulative files.

LAP Assurances Page

For additional information, refer to LAP Assurances Professional Learning Module.

Download a blank LAP assurances page.

LTI Overview and Part A: Designation of a LAC

Chancellor's Regulation A-663 establishes procedures for ensuring that Limited-English-Proficient (LEP) parents of students enrolled in the New York City public schools are provide with a meaningful opportunity to participate in and have access to programs and services critical to their child's education. To this end, schools must review and complete the annual LTI Plan to address its language assistance needs consistent with the requirements of this regulation.

The LTI Plan requires information on the following:

- Name of person designated as the Language Access Coordinator (LAC).
- Identification and assessment of LEP parent population.
- Identification of Critical Communications and standing, in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.
- Plan to ensure staff awareness of language access requirements and available resources.
- Provision of notice to parents on the available language assistance services.

Methods for the school to solicit and implement feedback on its provision of language assistance services.

Office of Language Access (OLA) Contact:

- **Contact Information:**
  - **Cunneely Elena, ECunneely@schools.nyc.gov**
  - **Rivera Ricardo, RRivera60@schools.nyc.gov**
  - **Williams Robert. RWilliams32@schools.nyc.gov**

Please do not edit

Robert Williams

Designation of a LAC
Name of person designated and trained as the LAC.
At the start of each school year, each principal is required to designate at least one staff member to serve as the Language Access Coordinator (LAC), responsible for overseeing language assistance services within the school.

We have pre-populated the following information based on our records. Please confirm that the designated staff member(s) are your school's Galaxy-designated LAC(s) and provide the date(s) they attended the OLA Language Access Coordinator Training. Note that this training is in addition to the mandatory asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform. If any information is missing, please provide the requested details.

As a reminder, LACs are internal staff designations and are not meant to serve as the primary point of contact for families regarding language access-related matters. The Parent Coordinator, or another designated staff member, should remain the main contact for families regarding all issues, including language access.

First Name	Last Name	Title	Date attended OLA Language Access Coordinator Professional Learning Opportunity	Confirmed (Y/N)
Milagros	Matias	Teacher - Bilingual		

Part B: Parents' Preferred Languages

Parents' Preferred Languages

Language identification and assessment of parent population.

1. Check the resources your school staff uses to identify parents' preferred languages:

,Automate The System (ATS) reports / Next Generation Student Information System (NGSIS),Part III of the Home Language Identification Survey (HLIS)

If Other was selected, describe the resource here:

2. We have pre-populated the following information from the Parent's Preferred Language Report (RCPL) in ATS. For the last two columns, please indicate the number of school staff members who are comfortable using their language skills to communicate with parents and regularly assist other staff members and families with translation and/or interpretation. If none, enter "0".

Language (Description within RCPL)	Written Preferred Count	Written Preferred Percentage	Oral Preferred Count	Oral Preferred Percentage	No. of Staff to Help with Written Translation	No. of Staff to Help with Oral Interpretation
ENGLISH	159	53.18%	155	53.08%		
SPANISH	139	46.49%	136	46.58%		
(AMERICAN) SIGN LANGUAGE	0	0.0%`	1	0.34%		

Part C: Parent Communications and Engagement

Parent Communication and Engagement

Identification of written critical communications and in-person meetings throughout the school year that require language assistance services and how the school plans to respond to these needs.

1. List the documents your school typically distributes each year that require translation, along with your plan for translating these documents.

Document Type (e.g. parent flyers, IEPs, etc.)	How do you plan to implement the translation process? Please include procedures and resources to ensure the timely delivery of translated documents to parents.
Annual English Language Learner Parent Meeting	ENL will refer to the New York State Education website to retrieve the translated version to send home to families.
Bill of Rights for Parents of English Language Learners	ENL will refer to the New York State Education website to retrieve the translated version to send home to families.
Parent Notification Letters/Forms	ENL will refer to the New York State Education website to retrieve the translated version to send home to families.
EL Parent Survey and Language Program Agreement	ENL will teacher refer to the New York State Education website to retrieve the translated version to send home to families.
Parent Flyers	There is a designated staff who translates all parent flyers. The documents are generated on a shared document. All translations are completed, posted, and paper distributed within twenty-four hours. All Parent Flyers are distributed of minimum fifteen days prior to event.
IEP	There is a designated staff who will request member who wil request a translated copy of the

	IEP in the parents' preferred language.
Principal Correspondance Documents	There is a designated staff member budgeted to translate all principal correspondence documents. The documents are crafted in a shared document. The document is translated within twenty-four hours of completion.
Class Notices to Parents	There is a Dual Language teacher on each grade that is directly responsible for translating for the classes on the grade. All documents are crafted on a shared document.
Consent Forms	All consent forms are translated by the school secretary.

2. List the meetings, both in-person and virtual, that your school typically holds with parents throughout the school year, along with your plans for providing interpretation services at those meetings.

Meeting Type (e.g. parent workshops, PTCs)	How do you plan to offer interpretation services? Please outline the procedures and resources in place to ensure timely access to interpretation for parents.
Parent Workshops	Teachers will communicate with parents in the student's preferred home language whenever possible. If translation is needed, the following options will be available: Assistance from one of our bilingual teachers or a staff member for direct translation. Use of translator devices or Google Translate for written communications. For families who communicate using American Sign Language (ASL), an interpreter will be invited to participate in meetings, and closed captions will be enabled during video calls or presentations.
PTC/ Curriculum Nights	Teachers will communicate with parents in the student's preferred home language whenever possible. If translation is needed, the following options will be available: Assistance from one of our bilingual teachers or a staff member for direct translation.Use of translator devices or Google Translate for written communications.For families who communicate using American Sign Language (ASL), an interpreter will be invited to participate in meetings, and closed captions will be enabled during video calls or presentations.
ENL Meetings	Teachers will communicate with parents in the student's preferred home language whenever possible. If translation is needed, the following options will be available: Assistance from one of our bilingual teachers or a staff member for direct translation.Use of translator devices or Google Translate for written communications.For families who communicate using American Sign Language (ASL), an interpreter will be invited to participate in meetings, and closed captions will be enabled during video calls or presentations.
Parent Engagment	Teachers will communicate with parents in the student's preferred home language whenever possible. If translation is needed, the following options will be available: Assistance from one of our bilingual teachers or a staff member for direct translation.Use of translator devices or Google Translate for written communications.For families who communicate using American Sign Language (ASL), an interpreter will be invited to participate in meetings, and closed captions will be enabled during video calls or presentations.

Parent Workshops/ Assemblies	Teachers will communicate with parents in the student's preferred home language whenever possible. If translation is needed, the following options will be available: Assistance from one of our bilingual teachers or a staff member for direct translation.For families who communicate using American Sign Language (ASL), an interpreter will be invited to participate in meetings, and closed captions will be enabled during video calls or presentations.
IEP Meetings	Teachers will communicate with parents in the student's preferred home language whenever possible. If translation is needed, the following options will be available: Assistance from one of our bilingual teachers or a staff member for direct translation.For families who communicate using American Sign Language (ASL), an interpreter will be invited to participate in meetings, and closed captions will be enabled during video calls or presentations.
SLT Meetings	Teachers will communicate with parents in the student's preferred home language whenever possible. If translation is needed, the following options will be available: Assistance from one of our bilingual teachers or a staff member for direct translation.For families who communicate using American Sign Language (ASL), an interpreter will be invited to participate in meetings, and closed captions will be enabled during video calls or presentations.
PTA Meetings	Teachers will communicate with parents in the student's preferred home language whenever possible. If translation is needed, the following options will be available: Assistance from one of our bilingual teachers or a staff member for direct translation.For families who communicate using American Sign Language (ASL), an interpreter will be invited to participate in meetings, and closed captions will be enabled during video calls or presentations.
District / CEC Meetings	

3. Describe the resources and processes your school will use to communicate with parents who speak a language other than English during an emergency (e.g., lockdown, fire, student attendance, nurse/hospital visit, etc.), or when a parent needs to contact the school in an emergency, ensuring communication is in their preferred language.

In the event of a school emergency, a lockdown, fire, evacuation to another school or any other safety issues, there are designated staff members on the Building Resposne Team (BRT) who have been trained, (several of whom are bilingual in either Spanish or French) and well versed in the protocols we utilize in an emergency for disseminating information and dispatching calls. In addition, to parents being notified in their native language, our parents who have hearing disabilities will be contacted through utilizing ASL to keep them abreast of all information and any measures/ precautions that they will need to take.

All communication at meetings for multiple family members, parents, with the nurse, principal or any other staff member will be handled utilizing in-house translation or htrough the language translation unit at the NYCDOE.

Part D: Staff Awareness

Staff Awareness

Plan to ensure staff awareness of language access requirements and available resources.

1. Describe how your school will ensure that all staff members complete the required asynchronous NYCPS Language Access Training for School-based Staff on the WeLearnNYC learning platform, and are familiar with the Best Practices for When to Provide Translation of Critical Written Communications to Parents and Best Practices for When to Provide Interpretation for Critical Oral Communications with Parents. Additionally, explain how your Galaxy-designated LAC will disseminate future language access resources and updates to all staff members.

Chancellor's Regulation A-661 establishes procedures for ensuring that LEP parents are provided with meaningful opportunity to participate in and have access to programs and services critical to their child's education. (The term "parent" means the student's parent[s],or guardian[s], or any person[s] in a prarental or custodial relationship to the students). Chancellor's Regulation A-663 requires languages services in the nine most common languages other than English spoken by parents of New York City school children. Based on the DOE's Home Language Indentification Survey these languages are Arabic, Bengali, Chinese, French, Haitian Creole, Korean, Russian, Spanish and Urdu. These languages, including English, account for over 95% of the students households. Support in additional languages is available through contracted vendors. The regulation sets forth requirements for: Translating documents containing critical information regarding a student's education in each of the covered languages. Making available translation and interpretation services for parents. Collecting data regarding the primary language spoken by the parent of each child enrolled in school and whether such parent required language assistance to communicate with the DOE. Increasing parental awarness regarding their right to and the availability of language services. Developing school-based language access plans. The translation and Interpretation Unit is responsible for spearheading all efforts related to language access at the DOE. It operates within the Division of Family and Community Engagement (FACE) to ensure that language access is a key consideration in all parental engagment initiatives and communications. We will be sure that all staff members understand what the DOE's responsibility is to support 32K299 and how they may access the services. This will be imparted to all staff members in the general education classroom as well as bilingual. In addition, we will be certain to also impart the information available such as the Language Access Handbook, to the staff and where practicabe have the Office of ELL at Central and Brooklyn North, provide for us services when necessary and practicable. The Unit: Oversees and monitors the DOE's provision of language assistance services to LEP parents; Works closely with schools to ensure that the DOE's translation and interpretation services support the needs of the LEP parent population; Serves as primary contact for schools for ongoing guidance and support; Provides input regarding appropriate budget allocations for translation and interpretation services, and monitors and evaluates how schools use translation and interpretation funds; Develop and provides training to relevant school staff; Develop and provides Language Access Kits to schools. Kits include a multilingual welcome poster, a Language Identification Guide to help determine the language spoken by a parent, sample I Speak Card for parents, sample Multilingual Language Access flyer for parents, an information brochure about services provided by the Translation and Interpretation Unit, and an over-the-phone card for school safety agents that outlines how to obtain an interpreter. Works with the Office of School Facilities to ensure that school-based language assistance is posted; and Maintains outside language services vendor contracts.

Part E: Parental Notification

Parental Notification

Provision of notice to parents on the available language assistance services.

1. Describe how your school will inform parents about available language assistance services in their preferred language. Include any of the following:

- **Translated signage**
- **Brochures, flyers, or letters shared with parents**
- **Parent engagement events where language assistance services are highlighted (e.g., PTA meetings, international parents' night, etc.)**
- **Messaging applications**

- Language Access for NYC Public Schools Families brochure

Chancellor's Regulation A-661 establishes procedures for ensuring that LEP parents are provided with meaningful opportunity to participate in and have access to programs and services critical to their child's education. (The term "parent" means the student's parent[s],or guardian[s], or any person[s] in a prarental or custodial relationship to the students). Chancellor's Regulation A-663 requires languages services in the nine most common languages other than English spoken by parents of New York City school children. Based on the DOE's Home Language Indentification Survey these languages are Arabic, Bengali, Chinese, French, Haitian Creole, Korean, Russian, Spanish and Urdu. These languages, including English, account for over 95% of the students households. Support in additional languages is available through contracted vendors. The regulation sets forth requirements for: Translating documents containing critical information regarding a student's education in each of the covered languages. Making available translation and interpretation services for parents. Collecting data regarding the primary language spoken by the parent of each child enrolled in school and whether such parent required language assistance to communicate with the DOE. Increasing parental awarness regarding their right to and the availability of language services. Developing school-based language access plans. The translation and Interpretation Unit is responsible for spearheading all efforts related to language access at the DOE. It operates within the Division of Family and Community Engagement (FACE) to ensure that language access is a key consideration in all parental engagment initiatives and communications. We will be sure that all staff members understand what the DOE's responsibility is to support 32K299 and how they may access the services. This will be imparted to all staff members in the general education classroom as well as bilingual. In addition, we all be certain to also impart the information available such as the Language Access Handbook, to the staff and where predictable have the Office fo ELL at Central and Brooklyn North, provide for us services when necessary and practicable.The Unit: Oversees and monitors the DOE's provision of language assistance services to LEP parents; Works closely with schools to ensure that the DOE's translation and interpretation services support the needs of the LEP parent population; Serves as primary contact for schools for ongoing guidance and support; Provides input regarding appropriate budget allocations for translation to relevant school staff; Develops and provides Language Access Kits to schools. Kits include a multilingual welcome poster, a Language Identification Guide to help determine the language spoken by a parent, sample I speak Card for

parents, sample Multilingual Language Access flyer for parents, an information brochure, about the services provided by the Translation and Interpretation Unit, and over- the - phone card for schools safety agents that outlines how to obtain an interpreter. Works with the Office of School Facilities to ensure that school-based language assistance signage is posted; and Maintain outside language service vendor contracts. At our parent orientation, when a new parent is being introduced to our school, our staff needs to be aware of what is available to their students in terms of specialized language development programs, our personnel, the speech teacher, parent coordinator, and ENL teacher will inform parents of the following: Any parent engagement event where this is expressed (PTA meetings, international parent night) Messagine phone applications Parent's Guide to Language Access NYC Public School Guidebook. We have parents who speak Spanish, French, and American Sign Language who we provide ith translation from the Language Translation Unit on an as needed basis.

Part F: Monitoring

Monitoring

Methods for soliciting and implementing feedback on language assistance services.

1. In addition to the feedback received from parents via OLA's Translation & Interpretation Feedback Survey, describe the methods your school will use to gather feedback from parents regarding the language assistance services they receive in their preferred language.

More than 50% of our parents are Spanish dominant or have designated Spanish as their first language. Approximately 20% of our students are ENL students who recieve push-in or pull-out ENL instruction. The parents concluded in the survey distributed to them in their home language: that 89% of families say that school staff regularly communicate with them about how families can help their child learn.

2. How has your school worked to improve its language assistance services? Share any feedback results and outline your plans for further improvements in the upcoming school year.

As per the Language Translation Unit we utilize translated documentation such as the Parent School Survey to monitor parent responses and recieve information to improve our services for our students, parents and staff members of our school year. This year we have provided parents with translations of all parent surveys when necessary and we recieved a response level in 90+ percentage range for the schools survey. This percentage is greater than the response level last 2019-2020 school year. Every year, all parents, teachers, students in grades 6-12 and select school school support staff take the NYC School Survey. The survey helps school leaders understand what key members of their school community think about the learning environment at their school. The information captured by the survey is designed to support a dialogue among all members of the school community about how to make the school a better place to learn. The Department of Education produces several reports to help families understand the quality of their school. These draw from multiple sources, including formal school visits; feedback from students, teachers, parents, from the NYC School Survey; and a variety of student achievement measures. We disseminate this information to the Parents in their language of choice, as well so that they are part of understanding where the school's standing is where we are heading based on the vision and mission of our SLT. The SLT will utilize the School Survey to set Goals for the upcoming school year.

Title III Outline

Title III Supplemental Program for ELLs for SY 2025-26

REQUIREMENTS

Title III supplemental services for English Language Learners (ELLs) must include the following three components:

- **Direct instruction** activities must be used to support language development, English and home language instruction, high academic achievement in math, and/or high academic achievement in other core academic areas. The Title III supplemental instructional services must be based on student need. These supplemental services should complement core bilingual and ENL services required under CR Part 154. Direct supplemental services should be provided for before school, after school, and Saturday programs. Teachers providing the services must be bilingual education and/or English for Speakers of Other Languages (ESOL) certified teachers.
- High quality **professional development** that is "of sufficient intensity and duration to have a positive and lasting impact on the teachers' performance in classrooms." Professional development activities should be well-planned, ongoing events rather than one-day or short-term workshops and conferences.
- **Parent engagement and supports** must ensure that there are appropriate translation and interpretation services to meet community needs. These are in addition to mandated activities, such as parent orientation during ELL identification process or annual ELL parent meetings.

Note: The Title III ELL program planning ratio is as follows: 60% to direct instruction, 10% to professional development (if funded using Title III ELL funds), 10% to parent engagement (if funded using Title III ELL funds), and 20% to OTPS (if funded using Title III ELL funds).

For more information on Title III requirements, please see the School Allocation Memo or contact your ML/ELL Director or ELL Compliance and Performance Specialist. Any updates or revisions to this plan must be made through the iPlan portal.

Part A: School Information

This school is (select one):

Conceptually consolidated (skip Part E of this document)

Part B: Direct Instruction Supplemental Program Information

The direct instruction component of the program will consist of (select all that apply):

,After School

Total number of ELLs to be served in this program:

30

Grades to be served in this program. Select all that apply.

,3,4,5

Total number of teachers in this program:

3

Number of certified bilingual education or ESOL teachers (include teachers that are dually certified with TESOL certification/bilingual extension & common branch/content area certification):

3

Number of content area teachers (i.e., teachers that have common branch/content area licenses only):

0

Title III ELL Summary

Provide a summary of each program funded under Title III ELL for SY 25-26: For each program, describe:

- **When the program takes place (i.e., after school, before school, Saturday academy)**

- **Activities ELLs will engage in and how these activities will enhance instructional opportunities for ELLs**
- **How ELLs will be grouped for instruction and specify the number of student groups. Include total number of student groups and total number of ELLs in each group, for each program**
- **How instruction will be delivered (e.g., team teaching, parallel teaching, etc.)**
- **How the program will be supervised and whether this will be funded by Title III ELL. Please note: If supervision will be funded using Title III ELL funds, you must include the supervisor's regular work day hours and the hours the supervisor will get paid per session.**

The program takes place after school on Wednesdays and Thursdays from 2:30pm to 4:30pm. The program will have 30 sessions and will begin in November of 2025 to April of 2026.

In the school year 2025-2026 Title III LEP program will focus on developing students' speaking, writing, listening and reading skills by providing phonics instruction to support scholars' effective interaction with reading in English, facilitating echo and choral reading to build fluency, translanguaging to build reading comprehension and to provide access to thinking on the DOK 3 and 4 levels. Scholars will also engage in writing responses to literature. To expand the technology initiative, we will foster an understanding of technology's concepts and principles by engaging our MLLs using on-line technology platforms and integrating content areas.

There will be 30 students eligible and serviced based on parental approval in an ENL instruction program model. We will be serving 10 students per grade on the 3rd, 4th and 5th grades. The program will consist of 3 classes, group of 10 students per grade.

Three teachers will participate in the program. One teacher of this program will be ENL teacher, and 2 other teachers will be a dually certified teachers with a Common Branch and Bilingual license.

Instruction will be delivered in English only with MLL scaffolds.

100% of the budget will go to direct instruction.

Program will be supervised by Dr. Bailey at no cost with the other afterschool program that runs parallel to the Title III LEP Program.

Parents will be notified in their preferred language about the program, schedule, and program's events. All program documents (Attendance, Parents Letters, teachers planning agendas) records will be maintained in TITLE III Document Folder in a
central location for ease of review.

Rationale for Title III ELL Funded Programs

Describe the rationale for each Title III ELL funded program. For each program, include:

- **Qualitative and quantitative data analysis that support the need for program, and**
- **Data sources used to justify the need for the program**

In the school year 2025-26 Title III LEP program will focus on developing students' speaking, writing, listening and reading skills by providing an integrated meaning-focused approach, including differentiated instruction based on itemized assessment analysis, scaffolding, effective phonemic awareness, phonics instruction, and fluency instruction. Students will be engaged in speaking, reading, listening, and writing activities. To expand the technology initiative, we will foster an understanding of technology's concepts and principles by engaging our MLLs using on-line technology platforms and integrating content areas.

In grades 3-5, 38% of ELLs are Entering, 33% are Emerging, 16% are Transitioning, 13% are Expanding, and 3% are Commanding according to the 2024 NYSESLAT/NYSITELL data.

Our ELLs at the entering, emerging, transitioning levels compose our bottom 50% of our scholars on iReady BOY diagnostics and 2024 NYS ELA Assessments.

Students and Grade Levels to be Served

For each Title III ELL funded program, describe the students that will be served. Include:

- **Total number of ELLs for each program,**
- **Grade levels for ELLs in program, and**
- **ELL Subgroups (e.g., Newcomer) and/or proficiency levels (e.g., Entering, Emerging, etc.).**

In grade 3, 22% of ELLs are Entering, 55% are Emerging, 22% are Transitioning, 0% are Expanding, and 0% are Commanding according to the 2024 NYSESLAT/NYSITELL data.

In grade 4, 35% of ELLs are Entering, 28% are Emerging, 35% are Transitioning, 0% are Expanding, and 0% are Commanding according to the 2024 NYSESLAT/NYSITELL data.

In grade 5, 33% of ELLs are Entering, 55% are Emerging, 0% are Transitioning, 0% are Expanding, and 9% are Commanding according to the 2024 NYSESLAT/NYSITELL data

Our ELLs at the entering, emerging, transitioning levels compose our bottom 50% of our scholars on iReady BOY diagnostics and 2024 NYS ELA Assessments.

Entering- A student at the entering level has a great dependence on supports and structures to advance academic language skills and has not yet met the linguistic demands necessary to demonstrate English language proficiency in a variety of academic contexts. Emerging A student at the emerging level has some dependence on supports and structures to advance academic language skills and has not yet met the linguistic demands necessary to demonstrate English language proficiency in a variety of academic contexts. Transitioning - A student at the transitioning level shows some independence in advancing academic language skills but has yet to meet the linguistic demands necessary to demonstrate English language proficiency in a variety of academic contexts.Expanding - A student at the expanding level shows great independence in advancing academic language skills and is approaching the linguistic demands necessary to demonstrate English language proficiency in a variety of academic contexts. Commanding - As measured by the NYSITELL, a student at the commanding level has met the linguistic demands necessary to demonstrate English language proficiency in a variety of academic contexts within their grade level. If a student attains Commanding level on the NYSITELL, the student is not an ELL and is not considered a former ELL; this student is not entitled to former ELL testing accommodations or services.

Schedule and Duration

For each Title III ELL funded program, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of the week the program will be offered, and**
- **Time and duration of sessions.**

The program takes place after school on Wednesdays and Thursdays from 2:30pm to 4:30pm. The program will have 30 sessions and will begin on November of 2025 and end in April of 2026.

Language of Instruction

For each Title III ELL funded program, include language of instruction and how home language support is provided.

Three teachers will participate in the program. One teacher of this program will be ENL teacher, and 2 other teachers will be a dually certified teachers with a Common Branch and Bilingual license.

ENL teacher will provide instructions in English only. Teachers will provide direct instructions in a ratio 1 teacher to 10 students. Students will utilize translanguaging, visuals, opportunities to language exchange and will be given HMH texts in Spanish for support.

After School: Subjects- ELA & MATH; Language of Instruction - English for ELA and Spanish for Math

Number and Types of Certified Teachers

For each Title III ELL funded program, include number and type(s) of certified teachers (e.g., ESOL, bilingual, content area):

Three teachers will participate in the program. Our ENL teacher and 2 teacher who are dually certified teachers with a Common Branch and Bilingual license.

Types of Materials

For each Title III ELL funded program, include:

- **Types of materials,**
- **Titles and publishers of main supplemental materials,**
- **Location where purchased materials will be stored, and**
- **Whether materials will be purchased using Title III ELL funds. Please note: If materials are purchased using Title III ELL funds, they cannot exceed 20% of the total allocation.**

100% of the budget will go to direct instruction.

Level A, Phonics for Reading by Anita Archer will be used for TITLE III.

Implementation Plan and Maintaining Records

- **Describe your school's plan for implementation (e.g. when and how parents/guardians will be notified about the program(s)).**
- **Describe how your school will maintain records of your school's Title III ELL funded program, including evidence of parent notification in their preferred languages, student attendance records, evidence of teacher certifications for teachers supporting the program, record of parent engagement activities, records of professional development activities, purchase orders and invoices to date. For additional information, please refer to the Title III ELL FAQ.**

Parents will be notified in their preferred language about the program, schedule, and program's events. All program documents (Attendance, Parents Letters, teachers planning agendas) records will be maintained in TITLE III Document Folder in the main office for ease of review.

Students will be administered a pre and post assessment.

Part C: Professional Development

Professional Development Summary

Provide a summary of your school's plan for professional development under your Title III ELL program. Please make sure to describe:

- **Professional development to be provided,**
- **Activities that teachers will engage with by topic, and**
- **Whether the professional development provided will be funded by Title III ELL funds. Please note: If PD will be funded by Title III ELL funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of PD and must not exceed 10% of the total allocation.**

The Language Allocation Policy Team working collaboratively with the Instructional Leadership will meet regularly to discuss a continuous
improvement plan. This plan will include using a data-driven approach to assist MLLs with advancing their learning by
instructors using item analysis, analyzing portfolio assessment data, and other indicators to identify areas of strength and
address students' targeted areas for growth.

Rationale for Professional Development

Describe the rationale for the professional development to be provided. For each activity, include:

- **Qualitative and quantitative data analysis (e.g., patterns and trends identified) that support the need for the professional development, and**
- **Data sources (e.g., school survey teacher responses, in-house teacher surveys, teacher observation data) used to justify the professional development.**

Professional Development is necessary in the areas of social-emotional, empathy, effective communication, and strategies to meet the academic needs of ENL students and their families. Based upon teacher observation within the classroom, progress monitoring, assessments analysis, and scholar interaction, scholars in 3rd, 4th, and 5th grade are measuring below grade level. These areas also provide insight on target areas needed for our scholars. Professional development will be provided for teachers, serving afterschool program, during a Monday PD to support their scholars.

Teachers to Receive Professional Development

Include information on the teachers to receive professional development. Please specify how all teachers working in the Title III ELL program will receive ongoing professional development related to the Title III ELL program.

ENL teacher has a monthly ML/ELL Instructional Task Force Sessions that provide educators with Policies updates and newest studies, tools and strategies for MLLs language development.

The ENL teacher turnkeys the information in bimonthly ML/ELL meetings with our teachers of dual language classrooms.

Schedule and Duration

For each Title III ELL professional development activity, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of sessions, and**
- **Time and duration of sessions.**

The ENL teacher turnkeys the information in bimonthly ML/ELL meetings on Fridays with our teachers of dual language classrooms from September - June. The 15 sessions will be held on Fridays from 8am - 8:50am.

Monday PD will be every Monday from 2:30-3:30pm.

Topics to be covered

For each Title III ELL professional development activity, include topics to be covered.

We will continue our commitment to well-designed professional development to our diverse population by attending monthly Professional Development workshops given by the district office. We will continue to conduct ESL workshops at our school in the 2025-2026 school year with the assistance of the Instructional Support Specialist from the district office on the following topics: Effective Instructional Strategies for ELLs, Scaffolding for Language Development to Support ELL in Second Language Acquisition Stages and Developmental Levels, Differentiated Instructions for ELLs – Identifying students' learning styles, differentiating content, process, product/assessment to meet the individual student needs, Scaffolding in Math and Science, Implementation of the Common Core Standards and Data Analysis and instructional implementation, Translanguaging, Metalinguistics, Crosslanguaging.

Name(s) and Title(s) of Provider(s)

For each Title III ELL professional development activity, include name(s) and title(s) of provider(s).

District Office will facilitate monthly ML/ELL professional learnings including Teresa Vera - ML/ELL Services Administrator. Our ENL teacher, Stephanie Santiago will turnkey the information on Fridays during the bimonthly meetings with our teachers of dual language classrooms.

Our dual language teachers include Ginneth Farrulla, Luis Chipana, Lucero Ortega Arellano, Milagros Matias, Camille Kurtz and Nydia Gonzalez.

Maintaining Records

Describe your school's plan for maintaining documentation (e.g., agendas, attendance sheets) of all professional development provided as part of your Title III ELL plan; please specify which activities were funded by Title III ELL funds.

Professional learning agendas and attendance sheets will be housed in the main office.

Part D: Family Engagement Activities

Family Engagement Summary

Provide a summary of your school's family engagement activities under your Title III ELL program. Describe the activities that families of ELLs will engage with by topic. Please make sure to include whether the activities will be funded by Title III ELL funds.
Please note: If family engagement activities will be funded by Title III ELL funds, vendor cost is calculated as part of OTPS and must not exceed 20% of the total allocation; teacher per-session is calculated as part of family engagement and must not exceed 10% of the total allocation.

Research has indicated that parent involvement will increase the student achievement, therefore we intend to have various activities planned to bring families together in interactive learning sessions.

Some of these activities include parents becoming aware of what their children are learning in the classroom to then be able to assist further at home. Other activities include English instruction to assist with further developing their child's English language in reading, speaking, writing, and listening.

Rationale for Family Engagement Activities

Describe the rationale for the family engagement activities to be provided: For each activity, include:

- **Qualitative and quantitative data analysis (e.g., reasons for topics, time activities will be offered), and**
- **Data sources (e.g., parent survey responses, in-house parent surveys, PTA/PA request, etc.) used to justify the need for activities.**

These activities will be Family Literacy, Family Math and Family Science with hands on experiences. The sessions will be on Friday for one hour duration. Staff members who have expertise in these areas as well as administrators, the parent coordinator and the literacy coach will provide these sessions.

We will collect information by sending out parent surveys. We will update the activities depending on the results of the surveys.

Based on 2024 NY STATE ELA exams 75% of our current fourth grade scholars who scored below at level 1 or 2 and 50% of our current fifth grade scholars who scored at a level 1 or 2 are ELLs.

Schedule and Duration

For each Title III ELL family engagement activity, include:

- **Start and end dates/months,**
- **Total number of sessions,**
- **Days of sessions, and**
- **Time and duration of sessions.**

English Language Arts Parent Workshop (In-Person & Virtual) 1st & 2nd Grades
October 2025

NYC READS in Partnership with Educators for Excellence Grade K Parent Workshop by Kindergarten Teachers
October 2025- 2:30- 3:30

English Language Arts Parent Workshop 3rd -5th Grades - Navigating the HMH/Writable Platform
November 2025- 2:30-3:30

Math Parent Workshop - Upcoming State Assessments 3rd -5th Grade
December 2025 - 2:30-3:30

Math Parent Workshop - Strategies and Manipulatives
December 2025- 2:30-3:30

Parent Engagement In-Person Presentation
2026 School Survey and Summer Rising Program Application
March 2026- 2:30-3:30

Elevate Virtual Parent Workshop (Stress Management for testing season. Parents will obtain strategies and resources around how to help their student manage stress during the testing season)
April 2026- 2:30-3:30

Parents Workshop: Avoid the Summer Academic Slide,
Ms. Clarke, Instructional Coach
June 2026 - 2:30-3:30

Topics to be Covered

For each Title III ELL family engagement activity, include topics to be covered.

1. Introduction to afterschool program

2. Literacy and its components: listening, reading, writing

3. Literacy at home, home language development.

4. NYSESLAT and Beyond Workshop for parents

Name(s) and Title(s) of Provider(s)

For each Title III ELL family engagement activity, include name and title of provider(s) (e.g., vendor, community-based organization, school staff name in charge of facilitating the parent engagement activities described in this section).

Literacy coach: Nancy Clark

ENL coordinator: Trisha Silva

4th Grade Bilingual Teacher: Milagros Matias

Family Notification of Activities and Translation and Interpretation Supports:

Describe:

- **How families will be notified of Title ELL family engagement activities (e.g., phone calls, emails),**
- **How notification of activities will be translated into parent/guardians' preferred language, and**
- **How interpretation supports will be provided at events.**

Parents will be notified about the activities via letters, flyers, and school event calendars in both languages, English and Spanish. Our Parent Coordinator, STH Social Worker, PTA, and attendance family worker will conduct outreach via telephone in the parents' preferred language.

In-person events will also have one of our bilingual educators members participate in translating into the parents' preferred language.

Maintaining Records

Describe how your school will maintain documentation (e.g. agendas, attendance sheets) of family engagement activities and notifications to families.

Documentation of family engagement activities and notification to families will be conducted through monthly/weekly calendars, attendance sign in sheets, flyers on class Dojo and direct invitations to parents in preferred language.

Part E: Budget

FOR SCHOOLS NOT CONCEPTUALLY CONSOLIDATED ONLY. Ensure that your Title III ELL budget matches your Title III ELL Plan as described in Parts B, C, and D.

This school is (select one):

Conceptually consolidated (skip Part E of this document)

Allocation Amount ($):

Budget Category	Budgeted Amount	Explanation of expenditures in this category as it relates to the program narrative for this title.
